From the Office of Congresswoman Terri A. Sewell
Proudly Representing Alabama's 7th Congressional District

December 7, 2015

Welcome to the *Guide to Grants!*

I am honored to represent the 7th Congressional District of Alabama. One of the most important responsibilities as your representative is to provide you with information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our local governments, organizations and other entities. This weekly guide will identify federal and foundation grant opportunities to assist you in goals for our communities. This Guide will include links to grant writing resources to help you make your proposals more successful. This Guide will also describe new funding opportunities for economic development, infrastructure, healthcare and educational projects as example. In addition, I am pleased to provide a Letter of Support for grant application projects in the 7th Congressional District of Alabama. Please let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

Rep. Sewell Votes for Passage of the Long-Term Transportation Bill

Congresswoman Terri Sewell issued the following statement after voting for the passage of the bipartisan conference report on H.R. 22, Fixing America's Surface Transportation Act (FAST Act). "By making smart, strategic investments in our aging infrastructure, Congress will create more good-paying jobs for Americans. In order to continue to compete in today's global economy we must have a first class transportation system that creates jobs, attracts industry, and enables American companies to better transport goods. Today's passage of the FAST Act was an important step towards achieving those goals.

The U.S. Department of Transportation estimates that 25 percent of Alabama's roads are in poor or mediocre condition, and that those roads cost motorists an average \$141 in extra vehicle repairs. I am pleased that this bill provides \$281 billion in much needed funding to repair and maintain our nation's highway, transit, and transportation safety programs over the next five years.

"This bill also reauthorizes the critically important Export-Import Bank for four years. America cannot lose its competitive edge in an increasingly global marketplace. At no cost to taxpayers, the Export-Import Bank has helped American businesses better compete abroad. For nearly 20 years, the Export-Import Bank has created or sustained 1.5 million private sector jobs.

"In these recovering economic times, job creation will undoubtedly remain my number one priority. This long term transportation bill will be a catalyst for increased economic vitality and development. I look forward to the President signing this bipartisan bill which provides long-term certainty for essential projects and helps put more Alabamians back to work."

Rep. Sewell Supports Greater Birmingham Ministries and Alabama NAACP Lawsuit

Congresswoman Terri Sewell issued the following statement after the Greater Birmingham Ministries and the Alabama NAACP filed a federal lawsuit against the State of Alabama, challenging the state's repressive photo ID law.

"I fully support the federal lawsuit filed by the Greater Birmingham Ministries and the Alabama NAACP, challenging the photo ID law in our state. I have repeatedly argued that Alabama's photo ID law is a renewed assault on voting rights. The restrictive law is little more than a solution in search of a problem. The reality is that voter fraud is rare. Requiring a photo ID law to vote has done more harm in limiting voter access to the ballot box than actually exposing incidents of fraud.

"The Alabama photo ID law is reminiscent of our Jim Crow past. It restricts the voting rights of more than 250,000 Alabamians who do not have a photo ID. Many of the disenfranchised are African-Americans, low-income individuals, senior citizens, and the disabled. There is no denying that requiring a photo ID adds another barrier to voting and thus limits the ability to American citizens to exercise their fundamental right to vote.

"I applaud the efforts of the Alabama NAACP and the Greater Birmingham Ministries in challenging Alabama's photo ID law. I am a proud Alabamian and acknowledge the progress we have made. Unfortunately, the photo ID law coupled with the DMV closures and the violations to the Motor Voter law further undermines our state's ability to move beyond our painful past. I introduced the Voting Rights Advancement Act in June to stop the renewed assault on voting rights, and to restore preclearance for states like Alabama where new barriers to voting threaten to silence the most vulnerable voices in our electorate. The need for this lawsuit is evidence that Alabama cannot run away from its painful past, and we must vow to never repeat it. The need for this lawsuit indicates that progress is elusive, and that we must be ever vigilant in our fight to protect the right to vote and honor the sacrifices that were made by the courageous Foot Soldiers of the Voting Rights Movement."

Rep. Sewell Votes for Passage of the Every Student Succeeds Act

Rep. Terri Sewell issued the following statement after voting for passage of the Every Student Succeeds Act, a bipartisan, bicameral agreement that replaces the current, outdated No Child Left Behind Act.

"Tonight, I voted in favor of the Every Student Succeeds Act, which replaces the outdated No Child Left Behind Act. While this bill is not perfect, its passage represents great progress for students, teachers, and communities in the 7th Congressional District of Alabama and across the nation.

"As the daughter of two long-time educators and the proud product of Selma public schools, my commitment to public education is profoundly personal. The journey I now take as Alabama's first black Congresswoman is a testament to the power of public education.

"As we celebrate the 50th Anniversary of passage of the landmark Elementary and Secondary Education Act, I am pleased this reauthorization ensures that funds will continue to be directed to the school districts and communities that most need them. The bill reduces the amount of standardized testing in schools and empowers educators to have a stronger voice in classroom decisions. The Every Student Succeeds Act is a promising improvement over current law as this bill protects the millions of minority, disabled, and disadvantaged students we were sent here to represent.

"This bill is worthy of President Obama's signature, and I look forward to seeing what is in store for our nation's schools and students under this bill. I will continue to work with my colleagues to ensure that our federal dollars are being spent on high-quality education for all students, regardless of race, socio-economic status or zip code."

Rep. Sewell Issues Statement Commemorating the 60th Anniversary of Montgomery Bus Boycott

Congresswoman Terri Sewell issued the following statement in honor of the 60th Anniversary of the Montgomery Bus Boycott.

"Sixty years ago today, Rosa Parks took a bold stand against racial discrimination by refusing to give up her seat on a public bus. Her quiet, dignified courage sparked a city-wide boycott of the Montgomery bus system that broke the very will of a City heavily steeped in segregation. She inspired a civil rights movement that changed a nation.

"The Montgomery Bus Boycott stands as a powerful testament of the will of a disenfranchised people to work collectively to achieve extraordinary social change. While we commemorate the progress that has been made, we must also recommit ourselves to the fight for equal justice. We must remain vigilant in the struggle for voting rights, criminal justice reform, and economic equality.

"We cannot take for granted the battles endured by those who came before us, nor can we neglect our own responsibilities to ensure liberty and justice. The struggle continues, and each of us must do our part to further the cause of human and civil rights for all Americans."

Rep. Sewell Supports Bill to Strengthen Refugee Screening Process While Still Aiding Humanitarian Crisis

Today, Congresswoman Terri Sewell (D-AL) released the following statement after voting in favor of H.R. 4038—American SAFE Act of 2015:

“While I remain committed to the U.S. refugee resettlement program, as a Member of Congress the safety and security of the American people is my first priority. The horrific terrorist attacks in Paris and Beirut not only shake our very conscience but should also cause us to evaluate and re-examine our own security measures and protocols. I am convinced that we must be more vigilant in our refugee screening and vetting processes. The bill seeks to strengthen the screening process by prohibiting refugees from Syria and Iraq from being admitted into the United States without a more comprehensive background check and by adding government certification to our already robust security screening protocol.

“To be clear, the recent terrorist attacks should not cause us to live in a state of fear nor abandon our humanitarian values. While our nation's security remains the top priority, the displacement of millions of Iraqis and Syrians ravaged by the cruelties of war is an international crisis that demands we do our part. As Americans, it is against our shared value of human rights to do nothing for those seeking asylum. My support for this bill in no way diminishes my commitment to those shared values. However, I am convinced that our current refugee vetting process can be more effective. While the United States cannot turn our backs on refugees, we must have a more stringent screening process.

“My vote today is reflective of the fact that there are no perfect or easy solutions to the challenges we face in fighting terrorism and combating ISIS. Yet it is clear to me, that we must evaluate our national counterterrorism strategy and policies continuously to ensure that we are doing everything within our power to protect the American people and to defeat and destroy ISIS and all terrorists that seek to do us harm.”

HUD OFFERS NEXT ROUND OF PLANNING GRANTS TO HELP TRANSFORM COMMUNITIES

Choice Neighborhoods Planning Grants to help communities revitalize distressed areas

WASHINGTON – Today, the U.S. Department of Housing and Urban Development (HUD) announced the availability of new funding to help local communities across the country to redevelop severely distressed public and HUD-assisted housing and transform surrounding neighborhoods. The funding announcement introduces an additional, innovative component to the [Choice Neighborhoods Planning Grant](#), called Planning and Action Grants.

Grants of up to \$2 million will enable communities to create a locally driven plan to transform struggling neighborhoods, as well as implement early improvements, such as reclaiming vacant property and attracting new businesses. [Read HUD's funding notice.](#)

“HUD’s mission of expanding opportunity extends beyond a family’s front door to the neighborhoods where they live,” said HUD Secretary Julián Castro. “These grants will let local leaders create homegrown plans to strengthen their neighborhoods and to take those first vital steps to turn their plans into reality.”

Choice Neighborhoods is HUD’s signature place-based initiative in support of the President’s goal to build Ladders of Opportunity to the middle class. Choice Neighborhoods is focused on three core goals:

- **Housing:** Replace distressed public and assisted housing with high-quality mixed-income housing that is well-managed and responsive to the needs of the surrounding neighborhood.
- **People:** Improve educational outcomes and intergenerational mobility for youth with services and supports delivered directly to youth and their families.
- **Neighborhood:** Create the conditions necessary for public and private reinvestment in distressed neighborhoods to offer the kinds of amenities and assets, including safety, good schools, and commercial activity, that are important to families’ choices about their community.

Up to now, Choice Neighborhoods Planning Grant funds could only be used to create a neighborhood Transformation Plan. However, experience with the 63 previously awarded Choice Neighborhoods Planning Grantees has shown that tangible, early actions help sustain community energy, attract new resources, and build momentum to turn that plan into reality.

HUD’s FY15/16 Choice Neighborhoods Planning Grant funds build upon these lessons by introducing Planning and Action Grants. Under these grants, communities with severely distressed public or HUD-assisted housing will continue to develop a successful neighborhood transformation plan and build the support necessary for that plan to be successfully implemented. In addition, Planning and Action Grant funds will also enable activities including:

- Reclaiming and recycling vacant property into community gardens, pocket parks, farmers markets, or land banking;
- Beautification, place making, and community arts projects;
- Homeowner and business façade improvement programs;
- Neighborhood broadband/Wi-Fi;
- Fresh food initiatives; and
- Gap financing for economic development projects.

Through the Choice Neighborhoods planning process local governments, housing authorities, residents, nonprofits, tribal authorities, private developers, school districts, police departments, and other civic organizations create a common vision and develop effective strategies to revitalize their neighborhood. The resulting Transformation Plan and locally driven Action Activities lay the foundation for revitalizing the distressed public and/or assisted housing units, transforming the surrounding neighborhood, and promoting opportunities for families.

Today, Choice Neighborhoods Planning Grantees can be found across the country in cities and towns, such as Kansas City, Missouri, Norwalk, Connecticut, and Sacramento, California. Several Planning Grantees have already launched neighborhood improvements that provided the inspiration for Planning and Action Grants. For example, in Salisbury, North Carolina, partners expanded a Mobile Fresh Farm to residents, spurring a nearby college to open a new culinary school that will provide mentoring to local students and sell surplus produce at discount prices. In Columbus, Ohio, partners created a gateway to the community by redeveloping a highway bridge and creating a mural wall with a history of the neighborhood.

Choice Neighborhoods Planning Grant funds are available for public housing authorities, local governments, nonprofit organizations, and tribal entities. Applicants must submit a completed electronic application through www.grants.gov by February 9, 2016. [Read HUD's funding notice.](#)

The Citizens' Institute on Rural Design™ (CIRD) has issued a request for proposals to rural communities interested in applying for funding to host a community design workshop in either 2016 or 2017.

The Citizens' Institute on Rural Design™ is a National Endowment for the Arts leadership initiative in partnership with the U.S. Department of Agriculture and Project for Public Spaces, Inc., along with the Orton Family Foundation. CIRD provides communities access to the resources they need to convert their own good ideas into reality.

CIRD offers annual competitive funding to six small towns or rural communities to host a two-and-a-half day community development and design workshop. With assistance from a wide range of design, planning, and creative placemaking professionals, the workshops are intended to bring together local leaders from non-profits, community organizations, and government agencies to develop actionable solutions to the communities' pressing development challenges. The communities will receive additional support through webinars, conference calls, and web-based resources on www.rural-design.org.

Design and development challenges include but are not limited to the following: Main Street revitalization, managing and shaping community growth, the design of community-supportive transportation systems, preservation of natural and historic landscapes and buildings, protecting working agricultural lands, and maximizing the role of arts and culture as an economic driver for local and regional economies. Since 1991 CIRD has convened more than 70 workshops in all regions of the country, empowering residents to leverage local assets today in order to build better places to live, work, and play in the future.

The deadline for submitting a proposal is Tuesday January 12, 2016 at 11:00 pm EST. Successful applicants will receive a \$10,000 stipend (that must be matched one-to-one) in addition to in-kind professional design expertise and technical assistance **valued at \$35,000.** The Request for Proposals is posted on the CIRD website: www.rural-design.org/request-for-proposals. Program: **Museums, Libraries, and Cultural Organizations: Implementation Grants**
Description: This grant program supports projects for general audiences that encourage active engagement with humanities ideas in creative and appealing ways. Many different formats are supported, including permanent and traveling exhibitions, book or film discussion programs, historic site or district interpretations, living history presentations, and other face-to-face programs in public venues. All projects must be grounded in humanities scholarship in disciplines such as history, art history, film studies, literature, religious studies, philosophy, or anthropology. Projects must also demonstrate an approach that is thoughtful, balanced, and analytical (rather than celebratory). NEH is a national funding agency, so the projects we support must demonstrate the potential to attract a broad, general audience. We welcome humanities projects tailored to particular groups, such as families, youth (including K-12 students), teachers, seniors, at-risk communities, and veterans, but they should also strive to cultivate a more inclusive public audience. **Receipt Deadline January 13, 2016 for Projects Beginning August 2016**

Program: **Preservation and Access Education and Training**
Description: The Preservation and Access Education and Training program is central to NEH's efforts to preserve and establish access to cultural heritage collections. Thousands of libraries, archives, museums, and historical organizations across the country maintain important collections of books and manuscripts, photographs, sound recordings and moving images, archaeological and ethnographic artifacts, art and material culture collections, electronic records, and digital objects. The challenge of preserving and making accessible such large and diverse holdings is enormous, and the need for knowledgeable staff is significant and ongoing.

Preservation and Access Education and Training grants are awarded to organizations that offer national or regional (multistate) education and training programs. Grants aim to help the staff of cultural institutions, large and small, obtain the knowledge and skills needed to serve as effective stewards of humanities collections. Grants also support educational programs that prepare the next generation of conservators and preservation professionals, as well as projects that introduce the staff of cultural institutions to new information and advances in preservation and access practices. **Receipt Deadline May 3, 2016 for Projects Beginning January 2017**

Program: **Preservation Assistance Grants for Smaller Institutions**

Description: Preservation Assistance Grants help small and mid-sized institutions—such as libraries, museums, historical societies, archival repositories, cultural organizations, town and county records offices, and colleges and universities—improve their ability to preserve and care for their significant humanities collections. These may include special collections of books and journals, archives and manuscripts, prints and photographs, moving images, sound recordings, architectural and cartographic records, decorative and fine art objects, textiles, archaeological and ethnographic artifacts, furniture, historical objects, and digital materials.

Applicants must draw on the knowledge of consultants whose preservation skills and experience are related to the types of collections and the nature of the activities on which their projects focus. Within the conservation field, for example, conservators usually specialize in the care of specific types of collections, such as objects, paper, or paintings. Applicants should therefore choose a conservator whose specialty is appropriate for the nature of their collections. Similarly, when assessing the preservation needs of library, museum, or archival holdings, applicants must seek a consultant specifically knowledgeable about the preservation of these types of collections. **Receipt Deadline May 3, 2016 for Projects Beginning January 2017**

Program: **Media Projects: Production Grants**

All projects must be grounded in humanities scholarship in disciplines such as history, art history, film studies, literature, drama, religious studies, philosophy, or anthropology. Projects must also demonstrate an approach that is thoughtful, balanced, and analytical (rather than celebratory). The approach to the subject matter must go beyond the mere presentation of factual information to explore its larger significance and stimulate critical thinking. NEH is a national funding agency, so the projects we support must demonstrate the potential to attract a broad, general audience. We welcome humanities projects tailored to particular groups, such as families, youth (including K-12 students), teachers, seniors, at-risk communities, and veterans, but they should also strive to cultivate a more inclusive audience. **Receipt Deadline January 13, 2016 for Projects Beginning August 2016**

Program: **Beginning Farmer and Rancher Development Program**

Description: Beginning farmer education for adult and young audiences in the United States can be generally traced back to the advent of the 1862 and the 1890 Morrill Land Grant Acts. But for the first time, the Food, Conservation, and Energy Act of 2008 (Pub .L. No. 110-234, Section 7410), appropriated \$75 million for FY 2009 to FY 2012 to develop and offer education, training, outreach and mentoring programs to enhance the sustainability of the next generation of farmers. The Agriculture Act of 2014 provided an additional \$20 million per year for 2014 through 2018. The reasons for the renewed interest in beginning farmer and rancher programs are: the rising average age of U.S. farmers, the 8% projected decrease in the number of farmers and ranchers between 2008 and 2018, and the growing recognition that new programs are needed to address the needs of the next generation of beginning farmers and ranchers. Deadline is January 21, 2016.

Program: **Spencer Foundation Accepting Proposals for Education Conference Grants**

Description: The Spencer Foundation is accepting proposals for its Conference Grants program.

The program supports efforts to bring together scholars whose knowledge, theoretical insight, and methodological expertise can be assembled in ways that build on and reach beyond familiar modes of thinking concerning problems in education research, specifically those related to the area of teaching and learning. Through the program, the foundation aims to encourage the research community to advance new and rigorous research in this subfield and to ultimately increase collaboration within the educational research community.

Conferences should include a broad set of perspectives on topics or problems in education as they relate to the profession and practice of teaching or how students learn in formal and informal spaces. The foundation is particularly interested in proposals that seek to bridge disciplines, subtopics, or contexts that address how and what people learn, including fields related to teaching and learning. For example, scholars of English education might seek to engage in conversations with science, social studies, mathematics, arts, or additional discipline specific education researchers in an effort to foster greater cross-fertilization within the field. Likewise, scholars who explore themes of culturally relevant or culturally sustaining pedagogy might seek to collaborate with scholars in content-specific fields in ways that support the development of research in both areas.

The program will support conference proposals with budgets of up to \$50,000.

Applicants must have earned a doctorate in an academic discipline or professional field, or be able to demonstrate appropriate experience in an education research-related profession. In addition, applicants must be affiliated with a college, university, school district, nonprofit research facility, or nonprofit cultural institution willing to serve as fiscal agent. Deadline is January 11, 2016.

Program: **Caplan Foundation for Early Childhood Invites Letters of Intent**

Description: The Caplan Foundation for Early Childhood supports innovative, creative projects, and programs designed to significantly enhance the development, health, safety, education, and/or quality of life of children from infancy through five years of age.

The foundation provides funding in the areas of early childhood welfare, early childhood education and play, and parenting education.

1) Early Childhood Welfare: Children can only reach their full potential when all aspects of their development, intellectual, emotional and physical are optimally supported. Providing a safe and nurturing environment for infants and preschoolers is essential, as is imparting to them the skills of social living in a culturally diverse world. To that end, the foundation supports programs that research best child rearing practices and identify models that can provide creative, caring environments to ensure all children thrive.

That preparation relates to every aspect of a child's development, from birth to age 5, and everywhere a child learns -- at home, in childcare settings, and in preschool. The foundation seeks to improve the quality of both early childhood teaching and learning through the development of innovative curricula and research-based pedagogical standards, as well as the design of imaginative play materials and learning environments.

3) Parenting Education: To help parents create nurturing environments for their children, the foundation supports programs that teach parents about developmental psychology, cultural child-rearing differences, pedagogy, issues of health, prenatal care and diet, as well programs that provide both cognitive and emotional support to parents.

Letters of Intent are accepted on a rolling basis. Upon review, selected applicants will be invited to submit full applications.

ATTENTION VETERANS:

FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members and spouses are connected to high quality career choices by matching their identified skills with available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden's Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans and transitioning Service Members deserve a single, authoritative source for connecting to each other. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at: <https://www.ebenefits.va.gov/ebenefits/jobs>
