Rep. Terri Sewell and Alabama State Representative Darrio Melton Issue Joint Statement in Opposition to the Renaming of the Edmund Pettus Bridge

Birmingham, AL – Congresswoman Terri A. Sewell (D-AL) and Alabama State Representative Darrio Melton (D-67) issued the following statement in opposition to S.J.R 103, a resolution to rename the Edmund Pettus Bridge the Journey to Freedom Bridge. The Alabama State Senate passed the resolution on June 3, 2015.

"I am strongly opposed to changing the name of the Edmund Pettus Bridge. The historical irony is an integral part of the complicated history of Selma -- a city known for its pivotal role in Civil War and the civil rights movement. The bridge is an iconic symbol of the struggle for voting rights in America, and its name is as significant as its imposing structure. Changing the name of the bridge would change the course of history and compromise the historical integrity of the voting rights movement. As inheritors of the legacy surrounding the historical events that took place in Selma, we must safeguard that history--good and bad and resist attempts to rewrite it," Rep. Sewell said.

"This is not only a matter for the people of Selma to decide together but it's bigger than just us. This is more of a global decision considering positions from those of various ages as well as economic and social backgrounds. I understand the historical irony of the bridge being named after a former U.S. senator, member of the confederate, and Klan leader, but what was birthed on that bridge has become a world symbol of democracy and the Voting Rights Movement and that is a beautiful testimony. We have no choice but to embrace not erase, our history and heritage as a city. While the bridge carries memories of division, it also holds promises of hope and freedom. Currently it symbolizes our opportunity to move into the future with a new perspective of inclusion. There is no reason to hastily change what has become the cradle of democracy," Rep. Melton said.

Rep. Sewell Leads Bipartisan Effort to Help Preserve Timberland Tax Provisions

Washington, D. C. -- Congresswoman Terri Sewell helped lead a bipartisan effort to encourage House Ways and Means Committee Chairman Paul Ryan and Ranking Member Sander Levin to retain the current tax treatment applicable to timberland owners and investors as the Committee examines ways to modernize the tax code.

Rep. Sewell worked closely with lead Republican sponsor Rep. Dan Benishek (MI-1) and was joined by colleagues Austin Scott (R-GA-8) and Kurt Schrader (D-OR-5) on a letter sent today to Chairman Ryan and Levin urging the Committee to retain the current timberland tax provisions in any tax reform initiatives. The letter was signed by 80 members of Congress.

"We often take our forests and the numerous benefits they provide for granted. It is especially important now, as we recover from the Great Recession, to preserve the timberland tax provisions to help hundreds of rural communities still struggling to rebound," Rep. Sewell said.

"We urge the leadership of the House Ways and Means Committee to recognize the importance of our private forests by preserving existing timberland tax provisions in any tax reform package. These provisions are critical in order to help retain the 2.4 million jobs and \$102 billion annually our private forests contribute to the national economy. In Alabama, those forests contribute \$12 billion to the state's economy and support more than 140,000 jobs."

USDA Seeks Applications for Grants to Help Socially-Disadvantaged Producers

WASHINGTON, May 26, 2015 - Agriculture Secretary Tom Vilsack today announced that the U.S. Department of Agriculture (USDA) is now accepting applications to provide technical assistance to socially-disadvantaged groups in rural areas.

"These grants will help socially-disadvantaged business owners develop the tools and skills they need to grow their enterprises and succeed at creating jobs and expanding economic opportunities in rural areas," Vilsack said. "American agriculture is becoming increasingly diverse in many ways, with more minorities and women seeking to enter the field, as well as greater diversity in the age of farmers, the size of operations, in production methods, and in the types of crops being grown. All of these forms of diversity help strengthen U.S. agriculture for the future."

Funding will be made available through USDA's [Socially-Disadvantaged Groups Grant Program](#) (formerly the Small, Socially-Disadvantaged Producer Grant Program), which assists organizations that provide technical assistance to socially-disadvantaged groups in rural areas. Examples of technical assistance are conducting feasibility studies, developing business and strategic plans, and providing leadership training.

USDA plans to make up to \$3 million in grants available. The maximum award under this notice is \$175,000. More information on how to apply can be found on page 28937 of the May 20 [Federal Register](#). Applications submitted by mail must be postmarked by July 20, 2015. Electronic applications must be submitted at www.grants.gov no later than midnight Eastern Time July 14, 2015.

Eligible applicants include groups of cooperatives, cooperative development centers and individual cooperatives that serve socially-disadvantaged groups. The cooperatives or centers can be located in any area, but the groups assisted must be located in an [eligible rural area](#). Also, the majority of the governing body of the organization must be comprised of individuals who are members of socially-disadvantaged groups.

USDA Rural Development is encouraging applications for projects in census tracts with poverty rates of 20 percent or higher. All grants are awarded through a national competition.

The program is making a difference in many rural areas. For example, in 2013, the Southern California Focus on Cooperation (SCFC) received a \$200,000 Small, Socially-Disadvantaged Producer Grant to provide technical assistance to help 95 refugee immigrant and minority farmers improve their productive capacity, increase revenue, and strengthen their ability to govern and manage their cooperative businesses.

Many of the farmers benefiting from the project had little or no access to formal schooling and had been persecuted and oppressed for years in their native land. The International Rescue Committee (IRC), in concert with SCFC, developed marketing channels including various farmers markets and restaurants where the refugee farmers could sell their produce. Farmers have learned how to manage these marketing channels themselves, without assistance from IRC, and have gained new clients. They have also increased the level of cooperation among Hispanic, Korean and African farmer groups. These groups are working toward merging their efforts to form a single cooperative. The technical assistance provided by SCFC has enabled these farmers to build skills that have truly been life changing.

President Obama's historic investments in rural America have made our rural communities stronger. Under his leadership, these investments in housing, community facilities, businesses and infrastructure have empowered rural America to continue leading the way - strengthening America's economy, small towns and rural communities.

USDA Announces Funding Opportunity for Distance Learning and Telemedicine Projects

WASHINGTON, May 22, 2015 - Agriculture Secretary Tom Vilsack today announced that the U.S. Department of Agriculture (USDA) is accepting applications for its [Distance Learning and Telemedicine](#) (DLT) grant program, which provides increased access to education, training and health care resources in rural areas.

"This program provides people who live and work in rural areas with better access to a variety of educational and health care services," Vilsack said. "For example, because of the DLT program, students in rural areas can take advanced placement classes, residents can have access to specialized medical services not typically available, and many other benefits for rural communities."

USDA's Rural Utilities Service, a Rural Development agency is making \$19 million available for fiscal year 2015. The Distance Learning and Telemedicine Program finances telecommunications equipment, computer networks and advanced technologies for use by students, teachers, medical professionals and rural residents. Minimum grant amounts are \$50,000; maximum amounts are \$500,000 for fiscal year 2015.

Since 2009, USDA has provided more than \$182 million to expand access to learning at nearly 4,700 rural educational facilities and to improve delivery of medical care at more than 2,500 rural health facilities.

Details of the DLT funding are on Page 29602 of the May 22 [Federal Register](#). The application deadline is July 6, 2015.

President Obama's plan for rural America has brought about historic investment and resulted in stronger rural communities. Under the President's leadership, these investments in housing, community facilities, businesses and infrastructure have empowered rural America to continue leading the way - strengthening America's economy, small towns and rural communities.

USDA's investments in rural communities support the rural way of life that stands as the backbone of American values. President Obama and Agriculture Secretary Vilsack are committed to a smarter use of federal resources to foster sustainable economic prosperity and ensure the government is a strong partner for businesses, entrepreneurs and working families in rural communities.

U.S. Secretary of Commerce and Aspen Institute Announce Partnership to Strengthen Workforce Development Efforts Across the Nation

U.S. Secretary of Commerce Penny Pritzker and Aspen Institute President and CEO Walter Isaacson today launched the *Communities that Work Partnership*, a brand new joint project aimed at accelerating industry-led workforce development and training efforts.

As part of the Department's "Skills for Business" initiative, the partnership will competitively select six teams around the country comprised of leaders in industry, government, education, workforce and economic development. These teams will receive technical assistance and participate in leadership development activities to strengthen regional skills development strategies that meet both businesses' and workers' needs. The results will inform and improve talent development efforts across the country. Aspen Institute Workforce Strategies Initiative (AspenWSI) will lead the initiative through a \$500,000 grant, which the Department's Economic Development Administration (EDA) has awarded for the very first time.

"The Obama Administration has taken unprecedented steps to bring together businesses, educational institutions, workforce and economic development organizations, local governments, as well as non-profits to prepare workers for in-demand jobs," said Secretary Pritzker. "As part of the Department of Commerce's 'Skills for Business' initiative, our partnership with Aspen will support worker training that meets businesses' and workers' needs and keeps America competitive."

"I'm honored that Secretary Pritzker selected the Aspen Institute to help establish the Communities that Work Partnership," said Walter Isaacson, President and CEO of the Aspen Institute. "The initiative's focus on promoting employer-led skills development is just the kind of innovative approach we need more of today to help address the inequality that has become all too pervasive in our economy."

Secretary Pritzker has made skills and workforce development a top priority for the Department of Commerce, and is working with the private sector and government leaders at all levels as part of the 'Skills for Business' initiative to prepare workers with the training needed to secure the 21st century jobs business leaders are seeking to fill.

At today's event, it was announced that AspenWSI has published a website with information about the initiative here. Their national selection committee will competitively select six teams from different regions. AspenWSI will document the strategies and lessons learned from these six original teams and provide new learning tools and case studies that can help communities and regions across the nation develop their talent pipelines to fill in-demand jobs.

AspenWSI was selected from among a dozen other applicants to partner with Commerce because of its proven track record and innovative work with workforce and leadership development.

Department of Justice's Office of Community Oriented Policing Services releases final task force report, opens 2015 grant solicitations

Grants to focus on task force objectives

WASHINGTON, DC - The Office of Community Oriented Policing Services today announced the release of the final report from the President's Task Force on 21st Century Policing. On Dec. 18, 2014, President Barack Obama signed an executive order establishing the task force and charged it with identifying best practices and recommendations on how policing practices can promote effective crime reduction while building public trust. The task force sought expertise from stakeholders and input from the public to make recommendations, which are included in the final report.

“This report includes tenable solutions for every community across this nation, whether large or small,” said COPS Office Director Ronald Davis. “The remarkable 11 individuals that made up this task force were able to build consensus around some of the most challenging topics in policing.”

The COPS Office today also announced five separate Fiscal Year 2015 grant funding opportunities now open to the field for submission of applications. [Agencies applying for funding are strongly encouraged to incorporate the recommendations of the President's Task Force on 21st Century Policing into the community policing strategies proposed in their applications.](#) Grants will provide a total of up to \$163 million to state, local, territory and tribal law enforcement agencies to meet a variety of resource needs, including sworn officer positions, training and technical assistance, and expansion of problem-focused task forces.

The 2015 COPS Hiring Program is a competitive grant program that funds the hiring or rehiring of law enforcement officers. CHP provides 75 percent of the approved entry-level salaries and fringe benefits of each newly hired and/or rehired full-time officer, up to \$125,000 per officer position, over the three-year (36 month) grant period.

The 2015 Community Policing Development Program advances the practice of community policing in law enforcement agencies through training and technical assistance, the development of innovative community policing strategies, applied research, guidebooks and best practices that are national in scope. The CPD solicitation is designed to address critical topics in the law enforcement field by building on the principles of community policing.

The 2015 COPS Anti-Gang Initiative funds regional, multijurisdictional anti-gang task forces comprised of federal, state and local law enforcement agencies to address gang activity, focusing on enforcement, prevention and education and intervention.

The 2015 Anti-Heroin Task Force Program assists state law enforcement agencies in states with high per capita levels of primary treatment admissions for both heroin and other opioids. AHTF funds shall be used for investigative purposes to locate or investigate illicit activities related to the distribution of heroin or unlawful distribution of prescription opioids.

The 2015 COPS Anti-Methamphetamine Program advances public safety by providing funds directly to state law enforcement agencies to investigate illicit activities related to the manufacture and distribution of methamphetamine.

Applications for all programs are due by 7:59 p.m. EDT on June 19, 2015 and are available through the COPS Office website.

Washington, District of Columbia, May 15, 2015 —

Agriculture Under Secretary Lisa Mensah today announced that USDA is seeking applications for grants to support rural community economic development.

“This funding from USDA will ensure that technical and financial assistance is available for those who wish to improve the quality of life in rural communities,” Mensah said. “Very often, great visions for better rural communities exist, but the next steps toward positive change are unclear. These grants will help rural communities build a path to community economic development so rural America can share in the nation’s economic recovery.”

Approximately \$10.4 million is being made available under the [Rural Community Development Initiative \(RCDI\) program](#). Eligible applicants include public, private, and non-profit intermediaries, and federally recognized tribes.

RCDI grants can be used to provide training or technical assistance. Training may be focus on homeownership education, minority business entrepreneurship, strategic community planning or accessing alternative funding sources. Intermediary organizations must provide matching funds at least equal to the RCDI grant. Grants range from \$50,000 to \$250,000.

USDA has invested more than \$33 million through the RCDI program since 2009. In 2013, the Choctaw Nation of Oklahoma received a \$150,000 grant to provide home buying and home maintenance education to 50 Native American women in the community of Broken Bow.

For information on how to apply contact your Rural Development [state office](#) or see Page 27887 of the [5/15 Federal Register](#). Applications must be submitted by August 13, 2015.

Section I ACCESSING & REGISTERING FOR GRANT INFORMATION

- Grants and Federal Domestic Assistance - Guidance and key resources to help eligible constituents find information on federal grants, loans, and nonfinancial assistance for projects, as well as on private funding. Prepared by the Congressional Research Service for Members of Congress, updated May 2014.
Website: <http://sewell.house.gov/grant-information/>
 - A federal grant is an award of financial assistance from a federal agency to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States. Federal grants are not federal assistance or loans to individuals. A federal grant may not be used to acquire property or services for the federal government's direct benefit. Program: **Caplan Foundation for Early Childhood Invites Letters of Intent**

Description: The Caplan Foundation for Early Childhood supports innovative, creative projects, and programs designed to significantly enhance the development, health, safety, education, and/or quality of life of children from infancy through five years of age.

The foundation provides funding in the areas of early childhood welfare, early childhood education and play, and parenting education.

1) Early Childhood Welfare: Children can only reach their full potential when all aspects of their development, intellectual, emotional and physical are optimally supported. Providing a safe and nurturing environment for infants and preschoolers is essential, as is imparting to them the skills of social living in a culturally diverse world. To that end, the foundation supports programs that research best child rearing practices and identify models that can provide creative, caring environments to ensure all children thrive.

2) Early Childhood Education and Play: Research shows that children need to be stimulated as well as nurtured, early in life, if they are to succeed in school, work, and life. That preparation relates to every aspect of a child's development, from birth to age 5, and everywhere a child learns -- at home, in childcare settings, and in preschool. The foundation seeks to improve the quality of both early childhood teaching and learning through the development of innovative curricula and research-based pedagogical standards, as well as the design of imaginative play materials and learning environments.

3) Parenting Education: To help parents create nurturing environments for their children, the foundation supports programs that teach parents about developmental

psychology, cultural child-rearing differences, pedagogy, issues of health, prenatal care and diet, as well programs that provide both cognitive and emotional support to parents.

ATTENTION VETERANS:

FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place. Through the online Veterans Employment Center, Veterans, transitioning Service Members and spouses are connected to high quality career choices by matching their identified skills with available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden's Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans and transitioning Service Members deserve a single, authoritative source for connecting to each other. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at: <https://www.ebenefits.va.gov/ebenefits/jobs>
