

Guide to Grants

From the Office of Congresswoman Terri A. Sewell
Proudly Representing Alabama's 7th Congressional District

September 12, 2016

Welcome to the *Guide to Grants!*

I am honored to represent the 7th Congressional District of Alabama. One of the most important responsibilities as your representative is to provide you with information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our local governments, organizations and other entities. This weekly guide will identify federal and foundation grant opportunities to assist you in goals for our communities. This Guide will include links to grant writing resources to help you make your proposals more successful. This Guide will also describe new funding opportunities for economic development, infrastructure, healthcare and educational projects as example. In addition, I am pleased to provide a Letter of Support for grant application projects in the 7th Congressional District of Alabama. Please let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit the website at <http://sewell.house.gov/> and you can subscribe to *Guide to Grants* at: [Subscribe to Weekly Guide to Grants | Congresswoman Terri Sewell](#) or call 202-225-2665. APPLE HBCU SCHOLARS PROGRAM

Overview

The Thurgood Marshall College Fund (TMCf) in partnership with Apple is proud to present the Apple HBCU Scholars Program to outstanding students with a minimum 3.25 GPA who will be graduating between December 2017 and May 2018. Selected Scholars will participate in a 12-week internship during the summer before their senior year, and will receive up to \$25,000 in scholarship funding based on individual financial needs that will be applied to their final year of study. Each scholar will have an Apple mentor throughout their experience, receive an opportunity to develop key skills, enhance their resumes and help launch their careers through the hands-on experience gained at one of the top tech companies in the world. These scholars will have the opportunity to:

- Participate in an Apple HBCU Immersion experience in Cupertino, California in early 2017
- Participate in a 12-week internship with Apple in Cupertino, California during the summer of 2017
- Be awarded a need-based scholarship to help defray the costs (*e.g.*, tuition, mandatory fees, room and board, books and supplies) of their senior year of study
- Participate in various development activities to help prepare for post-graduation careers
- Receive on-going coaching and guidance from an experienced Apple employee
- Serve as Ambassadors on their HBCU or PBI (Predominately Black Institution) campuses to build awareness for the Apple and TMCf HBCU Initiative

Program Criteria

- Enrolled full-time at a four-year accredited HBCU or PBI (Predominately Black Institution)
- Currently in the second-to-last year of study, graduating in Fall 2017 or Spring of 2018. (*e.g.*, juniors or seniors pursuing a fifth year of study.)
- Prior internship experience is preferred

Key Qualifications

This highly competitive program targets STEM students, but opportunities exist for students of all disciplines. The selection process aims to assess critical soft skills that enable success in our program, coupled with technical ability. We're looking for individuals that exhibit both a technical and cultural fit:

Technical Fit

- Analytical ability
- Ability to articulate ideas
- Ability to learn new concepts
- Excellent communication skills, both verbal and written

Cultural Fit

- Highly motivated
- Persuasive and candid
- Focused on results
- Perseverance
- Team player
- Possesses sound judgment and critical thinking skills

Scholar Expectations (including, but not limited to the following)

- Must be able to participate in all program-related activities
- Willing and able to spend 12 weeks in Cupertino, California during the summer months of May through August
- Must remain in good academic standing
- Must not have any disciplinary infractions on academic record
- Able to successfully complete all program requirements
- Utilize Apple technology (*e.g.*, MacBook, iPhone, etc.)
- Serve as post-internship Apple Ambassador during their final year
- Students selected to participate in the program must provide TMCf with supporting documentation requested during the financial need verification process

How to Apply

To apply, click the button below and create a TMCf Account. Once you sign up and create a TMCf Account, you can complete the Apple HBCU Scholars application. The deadline is October 16, 2016, 11:59 EST.

The Opening Act || HBCU Conference

We strongly believe that diversity of experience, perspectives, and background will lead to a better workplace for our employees and a better product for our users and our creators. This is something we value deeply and we encourage everyone to come be a part of changing the way the world listens to music.

The Opening Act || HBCU Conference is a two-day experience, welcoming eager and talented freshmen, sophomores, & juniors that attend Historically Black Colleges & Universities (HBCU), with an interest in the music-tech and media industries. Throughout this experience, you'll hear from executives and thought leaders within the music, tech and media industries. You'll see first-hand what a career path in these fields looks like, and gain valuable insight into how to achieve career goals. In addition, you'll get the chance to network and build community with other HBCU students across the nation, all while immersed in the vibrant energy of New York City.

Travel and accommodation will be provided by Spotify for students selected to attend the event on **October 6-7 in New York, New York.**

To be considered for The Opening Act || HBCU Conference, you must be a current student (freshmen, sophomores, & juniors only) of an accredited HBCU. Please apply below with a resume & a separate document with 250-word response to the question, **“what does the power of music mean to culture or you?”**

The application deadline is **Monday, September 19th. Decisions will be made on a rolling basis**

HUD Launches Small Contractors Initiative Curriculum

The Department of Housing and Urban Development's Office of the DAS for Economic Development in partnership with the Office of Fair Housing and Equal Opportunity, and Office of Field Policy and Management, along with BusinessUSA and the Small Business Administration announce the launch of a new curriculum. The [*Small Contractors Initiative curriculum*](#) focuses on materials that will assist small contractors achieve bondable status such that they can more readily pursue federal contracting opportunities as independent firms.

The goal is to provide the information in a pre-packaged format to small business development centers and any other organization that provides technical assistance and training to small businesses. It provides the opportunity to engage with a cohort of small contractors using both face-to-face instruction as well as distance learning. The consolidation of materials to teach these topics provides local small business development organizations the opportunity to tap into a wealth of information, while using their ever-shrinking resources for this type of training in a more targeted way. In other words, organizations can focus on providing one-on-one consultations with small businesses rather than spending the time to develop the materials for use in these types of trainings.

This [curriculum](#) gives small contractors the tools they need to get a bond and set them on a path to grow their businesses.

Rep. Sewell on the 15th Anniversary of the Terror Attacks of September 11, 2001

We must not be led by fear, but by courage, strength and hope.

Washington, D.C. – Today, Congresswoman Terri Sewell (D-AL) released the following statement in observance of the 15th anniversary of the horrific terrorist attacks on September 11, 2001:

“On this Sunday, September 11, 2016—it will be 15 years since our nation was forever changed by the terrorism that occurred on September 11, 2001. Together as a nation, we remember the victims and survivors of this tragedy and their loved ones—we honor the first responders, police officers, firefighters, and other heroes that selflessly served to save the lives of those involved in this atrocious attack.

“In the midst of such unimaginable violence and confusion, our country was able to unite our community with hope and resilience. Despite their differences, strangers comforted and supported one another—and the nation resolved to not let fear and uncertainty triumph over the American spirit.

“As a Member of the House Permanent Select Committee on Intelligence, I am committed to fight for our nation’s continued safety and security. We will never forget the events of September 11, 2001, and we will continue to protect our country and uphold the American ideals of liberty, justice, equality and freedom for all people.”

Rep. Terri A. Sewell (D-AL) Releases Statement After Visit with U.S. Troops in Afghanistan

Kabul, Afghanistan – Congresswoman Terri A. Sewell (D-AL) participated in a Congressional Delegation led by House Democratic Leader Nancy Pelosi to Afghanistan where they met with Commander of NATO Resolute Support Mission, General John Nicholson, Jr. and U.S. Forces. Today, Representative Sewell released the following statement at the conclusion of the delegation’s visit with U.S. troops in Afghanistan:

“Over the past few days, I have been tremendously honored to travel with Congressional leaders as we visited with our brave men and women, who have put themselves in harms-way to defend our nation. Our national security delegation to Afghanistan follows President Obama’s recent announcement of a modified schedule for U.S. troop withdrawal and an earlier announcement of new authorities for U.S. forces operating in Afghanistan.

"As a member of the House Intelligence Committee, I wanted to hear from our troops and NATO leadership regarding their efforts to help stand up Afghan security forces and to personally thank them for their tremendous service. The delegation also received a comprehensive series of national security and intelligence briefings that focused on ways our military is leveraging new authorities granted by President Obama and resources in the fight against terrorist elements to ensure international security and stability.

“We also met with our troops with the Train, Advise and Assist Command--East at Gamberi Training Base to thank them for their service and to learn about the regional training efforts of Afghan security forces near the Afghanistan-Pakistan border.

“Finally, I was thrilled to spend time with service members from Alabama in Afghanistan and to let them know that we are so proud of them and look forward to them coming home to be celebrated for the heroes they are.”

Congresswoman Terri Sewell Responds to the Recent Court Decision Invalidating North Carolina's Voter ID Law

Sewell call the Court Ruling a great victory for American Democracy

Washington, D.C. – Today, Congresswoman Sewell released the following statement in response to the U.S. Court of Appeals for the 4th Circuit’s decision invalidating North Carolina’s onerous voter ID law:

“The court ruling by the 4th Circuit on Friday striking down North Carolina’s voter ID law is a great victory for American democracy. As a strong advocate for equal access to the ballot box, I have been a vocal opponent of voter photo ID laws because of their discriminatory impact on certain vulnerable communities. The court ruling expressly validates this concern by finding that the new provisions in the North Carolina voting law ‘target African Americans with almost surgical precision.’ Likewise, the court panel noted the state's motivation of reducing fraud ‘impose cures for problems that did not exist.’”

“The 4th Circuit’s decision is consistent with other recent findings by courts in Texas and Wisconsin, which also note that voters, particularly in minority communities, would be adversely harmed by changes to voting rights laws in those states. These decisions once again underscore the importance of the need for federal preclearance for changes to voting practices and procedures that could have a discriminatory impact.

“As the 2016 Presidential Election cycle continues, it is critically important that we recognize and defend against any attempts to create modern day barriers to the ballot box that disenfranchise the most vulnerable members of our community. Instead of making voting more difficult, we should be working to ensure that every American citizen is able to exercise their constitutionally protected right.

“As Co-Chair of the Congressional Voting Rights Caucus, I will continue to urge my colleagues in Congress to enact meaningful legislation to restore the vote such as ***H.R. 2867: The Voting Rights Advancement Act of 2015***, a bill I introduced to create a modern day coverage formula to fully restore the federal protections of the Voting Rights Act of 1965. We should all strive to ensure that our right to vote is fair and inclusive for all citizens. As such, the recent ruling in North Carolina sets a very important precedent.”

Rep. Terri Sewell Re-Introduces The Small Business Start-Up Savings Account Act of 2016

WASHINGTON, D.C. — Today, Rep. Sewell re-introduced H.R. 5783, The Small Business Start-Up Savings Account Act of 2016. The bill would allow entrepreneurs to contribute up to \$10,000 per year into a tax free account, which could be used for qualified start-up expenses. Contributions to the account could accumulate up to \$150,000 and be taken out tax-free.

“Small businesses are the strongest economic engine in this country and the backbone of our economy. It is critically important that as our economy continues to recover, we encourage and promote entrepreneurship and the creation of jobs for millions of Americans. Unfortunately, starting a small business is often met with challenges that may seem insurmountable,” said Rep. Sewell.

“On average, an entrepreneur spends roughly \$80,000 in first year start-up costs, and these recovering economic times have made it even more difficult for prospective business owners to access vital start-up capital. That is why I introduced legislation to help new small business owners save money tax-free.

“This bill expands much needed lending to millions of small businesses and offers tax incentives to help small businesses grow, hire, and fuel our economy. Once an individual decides to open a small business, funds in the account can be used for qualified expenses such as equipment, facilities, marketing, legal fees, and other capital and operating expenses. This is a common sense approach to encourage economic growth and job creation. Congress should spend more time and energy on legislation like this that can have a positive impact on working and middle class Americans,” said Rep. Sewell.

Section II PROGRAM FUNDING THROUGH FEDERAL AGENCIES

Corporation for National and Community Service

Program:

2017 AmeriCorps State and National Grants

Description:

AmeriCorps grants are awarded to eligible organizations proposing to engage AmeriCorps members in evidence-based or evidence-informed interventions to strengthen communities. An AmeriCorps member is an individual who engages in community service through an approved national service position. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members earn a Segal AmeriCorps Education Award from the National Service Trust that members can use to pay for higher education expenses or apply to qualified student loans. Grant awards generally have two components: operating funds and AmeriCorps member positions. Grant award amounts vary – both in the level of operating funds and in the type and amount of AmeriCorps member positions. Unless otherwise specified, the grant generally covers a three-year project period. In approving a multi-year project period, CNCS generally makes an initial award for the first year of operation. In most cases, the application is submitted with a one-year budget. Continuation funding is not guaranteed. Deadline is January 18, 2017.

Institute of Museum and Library Services

Program: **Museum Assessment Program**

Description: The Museum Assessment Program (MAP) is supported through a cooperative agreement between the Institute of Museum and Library Services and the American Alliance of Museums. It is designed to help museums assess their strengths and weaknesses, and plan for the future.

A MAP assessment requires members of the museum staff and governing authority to complete a self-study. After completion of the self-study, a site visit is conducted by one or more museum professionals, who tour the museum and meet with staff, governing officials, and volunteers. The reviewers work with the museum and MAP staff to produce a report evaluating the museum's operations, making recommendations, and suggesting resources.

There are three types of MAP assessments:

Organizational Assessment: Reviews all areas of operations.

Collections Stewardship Assessment: Focuses on collections policies, planning access, documentation, and collections care within the context of the museum's total operations.

Community Engagement Assessment: Assesses the museum's understanding of and relationship with its communities as well as its communities' perceptions of and experiences with the museum. Two Application Deadlines is July 1 and December 1.

Website: <http://aam-us.org/resources/assessment-programs/MAP>

National Endowment for the Arts

Program: **NEA Literature Fellowships: Translation Projects, FY 2018**

Description: Through fellowships to published translators, the National Endowment for the Arts supports projects for the translation of specific works of prose, poetry, or drama from other languages into English. We encourage translations of writers and of work that are not well represented in English translation. All proposed projects must be for creative translations of literary material into English. The work to be translated should be of interest for its literary excellence and value. Priority will be given to projects that involve work that has not previously been translated into English. Competition for fellowships is rigorous. Deadline is December 6, 2016.

Website: <https://www.arts.gov/grants-individuals/translation-projects>

Program: **NEA Research: Art Works Application, FY 2017**

Description: The National Endowment for the Arts' Office of Research & Analysis makes awards to support research that investigates the value and/or impact of the arts, either as individual components of the U.S. arts ecology or as they interact with each other and/or with other domains of American life. By providing financial support to deserving projects, this program will spur growth in the number of people —across diverse fields of inquiry— who are experienced in and knowledgeable about arts-related research. This program also seeks to heighten the relevance and significance of arts-related research to policy and practice. The deadline is October 11, 2016

Website: <https://www.arts.gov/grants-organizations/research-art-works>

Program: **Our Town FY 17**

Description: Organizations may apply for creative placemaking projects that contribute to the livability of communities and place the arts at their core. Our Town offers support for projects in two areas: • Arts Engagement, Cultural Planning, and Design Projects that represent the distinct character and quality of their communities. These projects require a partnership between a nonprofit organization and a local government entity, with one of the partners being a cultural organization. Matching grants range from \$25,000 to \$200,000. • Projects that Build Knowledge About Creative Placemaking. These projects are available to arts and design service organizations, and industry, policy, or university organizations that provide technical assistance to those doing place-based work. Matching grants range from \$25,000 to \$100,000. Deadline is September 12, 2016.

Website: <https://www.arts.gov/grants-organizations/our-town/introduction>

National Endowment for the Humanities

Program: **Digital Humanities Advancement Grants**

Description: This program combines the former Digital Humanities Start-Up Grants and Digital Humanities Implementation Grants programs; the combined program is offered twice per year. Proposals are welcome for digital initiatives in any area of the humanities. Deadline is 01/11/2017.

Website: <http://www.neh.gov/grants/odh/digital-humanities-advancement-grants>

Program: **Documenting Endangered Languages**

Description: The Documenting Endangered Languages (DEL) program is a partnership between the National Endowment for the Humanities (NEH) and the National Science Foundation (NSF) to develop and advance knowledge concerning endangered human languages. Made urgent by the imminent death of an estimated half of the 6000-7000 currently used languages, this effort aims also to exploit advances in information technology. Awards support fieldwork and other activities relevant to recording, documenting, and archiving endangered languages, including the preparation of lexicons, grammars, text samples, and databases. DEL funding is available in the form of one- to three-year project grants as well as fellowships for six to twelve months. At least half the available funding will be awarded to projects involving fieldwork. Deadline is September 15, 2016.

Website: <http://www.neh.gov/grants/preservation/documenting-endangered-languages>

Program: **Dialogues on the Experience of War**

Description: Dialogues on the Experience of War grants support reading and discussion groups for U.S. military veterans. The funding includes support for the recruitment and training of discussion leaders and the convening of discussion programs with the intent to promote important questions regarding duty, heroism, sufferings, loyalty and patriotism. Eligible applicants are U.S. nonprofit organizations, state and local government agencies, colleges and universities, libraries, museums, cultural sites, and federally recognized tribal governments. Deadline is November 2, 2016.

Website: <http://www.neh.gov/grants/education/dialogues-the-experience-war>

Program: **Sustaining Cultural Heritage Collections**

Description: Sustaining Cultural Heritage Collections (SCHC) helps cultural institutions meet the complex challenge of preserving large and diverse holdings of humanities materials for future generations by supporting sustainable conservation measures that mitigate

deterioration and prolong the useful life of collections. As museums, libraries, archives, and other collecting institutions strive to be effective stewards of humanities collections, they must find ways to implement preventive conservation measures that are sustainable. This program therefore helps cultural repositories plan and implement preservation strategies that pragmatically balance effectiveness, cost, and environmental impact. Deadline is December 1, 2016.

Website: <http://www.neh.gov/grants/preservation/sustaining-cultural-heritage-collections>

Program: **Scholarly Editions and Translations Grants**

Description: Scholarly Editions and Translations grants support the preparation of editions and translations of pre-existing texts of value to the humanities that are currently inaccessible or available in inadequate editions. Typically, the texts and documents are significant literary, philosophical, and historical materials; but other types of work, such as musical notation, are also eligible. Projects must be undertaken by at least one editor or translator and one other collaborating scholar. These grants support full-time or part-time activities for periods of one to three years. Deadline is December 7, 2016.

Website: <http://www.neh.gov/grants/research/scholarly-editions-and-translations-grants>

Program: **Collaborative Research Grants**

Description: Collaborative Research Grants support interpretive humanities research undertaken by two or more collaborating scholars, for full-time or part-time activities for periods of one to three years. Support is available for various combinations of scholars, consultants, and research assistants; project-related travel; field work; applications of information technology; and technical support and services. All grantees are expected to disseminate the results of their work to the appropriate scholarly and public audiences.

Eligible projects include

- research that significantly adds to knowledge and understanding of the humanities;
- conferences on topics of major importance in the humanities that will benefit scholarly research; and
- archaeological projects that include the interpretation and dissemination of results.

Deadline is December 7, 2016.

Website: <http://www.neh.gov/grants/research/collaborative-research-grants>

Program: **Public Scholar Programs**

Description: The Public Scholar Program supports well-researched books in the humanities intended to reach a broad readership. Although humanities scholarship can be specialized, the humanities also strive to engage broad audiences in exploring subjects of general interest. They seek to deepen our understanding of the human condition as well as current conditions and contemporary problems. The Public Scholar Program aims to encourage scholarship that will be of broad interest and have lasting impact. Such scholarship might present a narrative history, tell the stories of important individuals, analyze significant texts, provide a synthesis of ideas, revive interest in a neglected subject, or examine the latest thinking on a topic. Books supported by this program must be grounded in humanities research and scholarship. They must address significant humanities themes likely to be of broad interest and must be written in a readily accessible style. Making use of primary and/or secondary sources, they should open up important and appealing subjects for a wide audience. The challenge is to

make sense of a significant topic in a way that will appeal to general readers. Deadline is February 1, 2016.

Program: **Summer Stipends**

Description: Summer Stipends support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Eligible projects usually result in articles, monographs, books, digital materials and publications, archaeological site reports, translations, editions, or other scholarly resources. Summer Stipends support continuous full-time work on a humanities project for a period of two consecutive months. Summer Stipends support projects at any stage of development. Deadline is September 29, 2016.

Program: **Humanities Connections**

Description: Through this new grant program, NEH invites proposals that reflect innovative and imaginative approaches to preparing students for their roles as engaged citizens and productive professionals in a rapidly changing and interdependent world. Grants support the development and implementation of an integrated set of courses and student engagement activities focusing on significant humanities content. A common topic, theme, or compelling issue or question must link the courses and activities. Deadline is October 5, 2016.

Program: **Humanities Open Book Program**

Description: The Humanities Open Book Program is designed to make outstanding out-of-print humanities books available to a wide audience. By taking advantage of low-cost “ebook” technology, the program will allow teachers, students, scholars, and the public to read humanities books that have long been out of print. Deadline is September 13, 2016.

Program: **Programming Grants to Accompany NEH on the Road Exhibitions**

Description: These grants support ancillary public humanities programs to accompany NEH on the Road traveling exhibitions. Typical formats involve lectures, reading and discussion programs, film discussion programs, Chautauqua presentations by scholars, family programs, exhibition tours, and other appropriate formats for reaching the general public. Deadline is December 29, 2016.

Program: **Humanities Initiatives at Community Colleges**

Description: NEH Humanities Initiatives at Community Colleges are intended to strengthen the teaching and study of the humanities in subjects such as history, philosophy, and literature. These grants may be used to enhance existing humanities programs, resources, or courses, or to develop new ones.

NEH Humanities Initiatives may

- create opportunities for faculty members to study together, in order to improve their capacity to teach the humanities;

- support new humanities programs (which may include but are not limited to new humanities minors, first-year seminars, and capstone courses), and enhance existing ones;
- support humanities contributions to professional training (in such fields as business, law, economics, technology, and nursing and medicine);
- develop bridge programs for at-risk and nontraditional students;
- help institutions take advantage of humanities resources, especially in the digital humanities; and
- support collaborative projects in the humanities between the applicant institution and another institution, such as a college or university, a school or school system, a museum or library, or a historical or cultural society.

Each project must be organized around a core topic or set of themes.

National Science Foundation

Program: [Documenting Endangered Languages](#)

Description: This funding partnership between the National Science Foundation (NSF) and the National Endowment for the Humanities (NEH) supports projects to develop and advance knowledge concerning endangered human languages. Made urgent by the imminent death of roughly half of the approximately 7000 currently used languages, this effort aims to exploit advances in information technology to build computational infrastructure for endangered language research. The program supports projects that contribute to data management and archiving, and to the development of the next generation of researchers. Funding can support fieldwork and other activities relevant to the digital recording, documenting, and archiving of endangered languages, including the preparation of lexicons, grammars, text samples, and databases. Funding will be available in the form of one- to three-year senior research grants as well as fellowships from six to twelve months. Deadline is September 26, 2016.

Program: [Centers for Chemical Innovation](#)

Description: The Centers for Chemical Innovation (CCI) Program supports research centers focused on major, long-term fundamental chemical research challenges. CCIs that address these challenges will produce transformative research, lead to innovation, and attract broad scientific and public interest. CCIs are agile structures that can respond rapidly to emerging opportunities and make full use of data infrastructure and other approaches to enhance collaborations. CCIs may partner with researchers from industry, government laboratories and international organizations. CCIs integrate research, innovation, education, broadening participation, and informal science communication. Deadline is October 11, 2016.

Program: [Next Generation Networks For Neuroscience](#)

Description: The goal of this solicitation is to foster the development and dissemination of (1) innovative research resources, instrumentation, and neurotechnologies, and (2) theoretical frameworks for understanding brain function across organizational levels, scales of analysis, and/or a wider range of species, including humans. This program

solicits proposals that will develop and disseminate innovative neurotechnologies and/or theoretical frameworks that will transform our understanding of the linkages between neural activity and cognition and behavior across different systems, environments, and species, while also providing an avenue for widespread dissemination of these technologies and theoretical frameworks as well as broad training opportunities. Deadline is October 21, 2016.

Program: [Prediction of and Resilience against Extreme Events](#)

Description: PREEVENTS is designed as a logical successor to Hazards SEES and is one element of the NSF-wide Risk and Resilience activity, which has the overarching goal of improving predictability and risk assessment, and increasing resilience, in order to reduce the impact of extreme events on our life, society, and economy. PREEVENTS will provide an additional mechanism to support research and related activities that will improve our understanding of the fundamental processes underlying natural hazards and extreme events in the geosciences. Deadline is September 19, 2016.

Program: [Cybermanufacturing Systems](#)

Description: There is an opportunity for researchers to pursue research and educational efforts to accelerate the creation of an interoperating, cross-process manufacturing service layer that enables the rapid, bottom-up transformation of access to manufacturing services. Such a service layer can allow creative entrepreneurs and companies to both furnish and access manufacturing apps that span the full spectrum from ideation to physical realization, giving rise to an era of cybermanufacturing. The cybermanufacturing service layer differs from existing Internet services in that it needs an architecture that can incrementally incorporate and organize the rich and deep semantic elements of manufacturing knowledge, requiring an almost unlimited capacity to expand the range and depth of content contributed in the form of partitioned, but interoperating, manufacturing applications. Deadline is OPEN.

Program: [Historically Black Colleges and Universities - Undergraduate Program](#)

Description: To meet the nation's accelerating demands for STEM talent, more rapid gains in achievement and successful degree completion in STEM for underrepresented minority populations are needed. The Historically Black Colleges and Universities Undergraduate Program (HBCU-UP) is committed to enhancing the quality of undergraduate STEM education and research at HBCUs as a means to broaden participation in the nation's STEM workforce. To this end, HBCU-UP provides awards to develop, implement, and study evidence-based innovative models and approaches for improving the preparation and success of HBCU undergraduate students so that they may pursue STEM graduate programs and/or careers.

Program: [Expeditions in Computing](#)

Description: The far-reaching impact and rate of innovation in the computing and information disciplines has been remarkable, generating economic prosperity and enhancing the quality of life for people throughout the world. The Directorate for Computer and Information Science and Engineering (CISE) has created the Expeditions in Computing (Expeditions) program to provide the CISE research and education community with the opportunity to pursue ambitious, fundamental research agendas that promise to define

the future of computing and information. In planning Expeditions projects, investigators are encouraged to come together within or across departments or institutions to combine their creative talents in the identification of compelling, transformative research agendas that promise disruptive innovations in computing and information for many years to come. Funded at levels up to \$2,000,000 per year for five years, Expeditions represent some of the largest single investments currently made by the directorate. Together with the Science and Technology Centers CISE supports, Expeditions form the centerpiece of the directorate's center-scale award portfolio. With awards funded at levels that promote the formation of research teams, CISE recognizes that concurrent research advances in multiple fields or sub-fields are often necessary to stimulate deep and enduring outcomes. The awards made in this program will complement research areas supported by other CISE programs, which target particular computing or information disciplines or fields. Deadline is January 18, 2017.

Program: **Ideas Lab: Measuring "Big G" Challenge**

Description: This solicitation describes an Ideas Lab on "Measuring Big G" Ideas Labs are intensive meetings focused on finding innovative solutions to grand challenge problems. The ultimate aim of this Ideas Lab organized by the Physics Division of the Mathematical and Physical Sciences Directorate at the National Science Foundation (NSF), in collaboration with experts in the field, is to facilitate the development of new experiments designed to measure Newton's gravitational constant G with relative uncertainties approaching or surpassing one part in 100,000. The aspiration is that mixing researchers from diverse scientific backgrounds will engender fresh thinking and innovative approaches that will provide a fertile ground for new ideas on how to measure G that can be used to validate and extend current calculations. US researchers may submit preliminary proposals for participation in the Ideas Lab only via FastLane. The goal is to develop multidisciplinary ideas that eventually will be submitted as full proposals. Deadline is October 26, 2016.

U.S. Department of Agriculture

Program: **Participant Research Innovation Laboratory for Enhancing WIC Services**

Description: The objective of this opportunity is to announce the availability of funds to establish the Participant Research Innovation Laboratory for Enhancing WIC Services. The role of the Innovation Laboratory will be to:

- Develop and administer a series of sub-grants pertinent to the purposes of the grant
- Coordinate relevant grant-related activities among sub-grantees and researchers
- Conduct an evaluation of sub-grantees' activities; and,
- Widely disseminate information on innovations and technical solutions developed.

The goal of the Innovation Laboratory is to develop and test strategies to encourage retention of children in the Special Supplemental Nutrition Program for Women, Infants and Children (WIC). Contact the headquarters or regional office, as appropriate, for application deadlines.

Community Food Projects

Description:

This announces the availability of funds and solicits applications from eligible entities to compete for financial assistance through the Community Food Projects Competitive Grants Program (CFPCGP). This program will support the development of community food projects designed to meet the food needs of low-income people; increase the self-reliance of communities in providing for their own needs; and promote comprehensive responses to local food, farm, and nutrition issues. For deadlines, contact the headquarters or regional office, as appropriate, for application deadlines.

Women and Minorities in Science, Technology, Engineering, and Mathematics Fields

Description:

The Women and Minorities (WAMS) in Science, Technology, Engineering and Mathematics (STEM) Fields program was authorized to increase participation by women and underrepresented minorities from rural areas in the fields of science, technology, engineering and mathematics, with priority given to eligible institutions that carry out continuing programs funded by the Secretary. The goal of the WAMS program is to develop and implement robust partnerships to increase the representation, participation, and entrepreneurship of women in STEM careers, thereby contributing to national economic prosperity. The purpose of the grant program is to support projects that provide STEM knowledge, skills and competency to Women and Minorities from Rural Area. Contact the headquarters or regional office, as appropriate, for application deadlines. Dates for specific deadlines are announced in the RFA each fiscal year.

FY 2016 – FY 2019 EDA Planning Program and Local Technical Assistance Program

Description:

Under the Planning program EDA assists eligible recipients in creating regional economic development plans designed to build capacity and guide the economic prosperity and resiliency of an area or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDs), which articulate and prioritize the strategic economic goals of recipients' respective regions. Deadline: Applications are accepted on a continuing basis and processed as received. This Planning and Local Technical Assistance opportunity will remain in effect until superseded by a future announcement.

Investments for Public Works and Economic Development Facilities

Description: Public Works grants support the construction or rehabilitation of essential public infrastructure and facilities necessary to generate or retain private sector jobs and investments, attract private sector capital, and promote regional competitiveness, innovation, and entrepreneurship, including investments that expand and upgrade infrastructure to attract new industry, support technology-led development, accelerate new business development, and enhance the ability of regions to capitalize on opportunities presented by free trade. Characteristic projects include investments in facilities such as water and sewer systems, industrial access roads, business parks, port facilities, rail spurs, skill-training facilities, business incubator facilities, brownfield redevelopment, eco-industrial facilities, and telecommunications and broadband infrastructure improvements necessary for business creation, retention and expansion. Contact the headquarters or regional office, as appropriate, for application deadlines.

U.S. Department of Defense

Program: **Psychological Health/Traumatic Brain Injury Complex Traumatic Brain Injury Rehabilitation**

Description: The FY16 PH/TBIRP CTRRA is intended to support both observational studies and clinical trials addressing TBI and co-occurring clinical presentations (neuromusculoskeletal injuries, multisensory dysfunction, and pain) that are often slow/nonresponsive to treatment. The intent of the award is to advance the evidence-based practice for the treatment of TBI with JPC-8/CRM RP-relevant comorbidities by improving understanding of the composition and problems of this population and developing and evaluating treatments. Applications for this award mechanism may propose epidemiological, etiological, and/or interventional studies. Deadline is November 30, 2016.

U.S. Department of Health and Human Services

Program: **FDA Scientific Conference Grant Program**

Description: The purpose of the FDA (R13) Scientific Conference Grant Program is to facilitate the provision of federal financial assistance in support of small conferences and scientific meetings clearly aligned with the FDA mission. The FDA recognizes the value of supporting high quality, small conferences and scientific meetings relevant to its mission and to the public health. A small conference or scientific meeting is defined as a symposium, seminar, workshop, or any formal meeting, whether conducted face-to-face or virtually to exchange information and explore a defined subject, issue, or area of concern impacting the public's health within the scope of the FDA's mission. Permission to submit a conference grant application does not assure funding or funding at the level requested. FDA will not issue a conference grant award unless it can be issued before the conference start date. The deadline is November 14, 2016.

Program: **Primary Care Training and Enhancement**

Description: The overarching purpose of the PCTE program is to strengthen the primary care workforce by supporting enhanced training for future primary care clinicians, teachers, and researchers. In FY 2016, applicants for the PCTE program focused on training for transforming healthcare systems, particularly enhancing the clinical training experience of trainees. In FY 2017, applicants must focus on integrating behavioral health and primary care. Deadline is February 6, 2017.

Program: **Nurse Anesthetist Traineeships**

Description: The purpose of the NAT award is to provide traineeship support for licensed registered nurses enrolled as full-time students in an accredited graduate-level nurse anesthesia program. Traineeship grants are awarded to accredited institutions that educate registered nurses to become nurse anesthetists and gives funding preference and special consideration to schools whose graduates work in areas that address rural, underserved and public health nursing needs. The awards support all or part of the costs of tuition, books/e-Books, fees and reasonable living expenses (stipends) of the individual during the traineeship. NAT funds are awarded to institutions, not individuals. Deadline is December 2, 2016.

Program: **Nurse Faculty Loan Program**

Description: The purpose of this program is to increase the number of qualified nursing faculty by providing funding to accredited schools of nursing. The NFLP is designed to prepare and train qualified nurse educators to fill faculty vacancies and increase the number of trained nurses entering the workforce. This goal is accomplished by supporting schools of nursing that prepare students to serve as nurse faculty. Grantees are awarded funds to support nursing students and are expected to establish and operate a distinct, interest-bearing NFLP loan fund. Deadline is November 14, 2016.

Program: **Centers for Agricultural Safety and Health (U54)**
Description: The National Institute for Occupational Safety and Health (NIOSH)/Centers for Disease Control and Prevention (CDC) invites applications for Centers for Agricultural Safety and Health (Ag Centers). Ag Centers are expected to conduct high quality research and help translate scientific discoveries into practical applications to improve worker safety and health in the areas of agriculture, forestry, and fishing. Center functions should include developing integrated approaches that link basic science with translation and outreach activities. Center structure should take advantage of diverse scientific resources and focus on local, regional, and/or national worker safety and health issues. Centers should place emphasis on the creation and implementation of evidence-based solutions that address important agricultural safety and health problems. Collaborations with other academic institutions, nonprofit organizations, and other occupational safety and health focused groups are expected. Deadline is November 30, 2017.

Program: **Occupational Safety and Health Training Project Grants (T03)**
Description: The National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC), invites grant applications for Training Project Grants (TPGs) that are focused on occupational safety and health training. NIOSH is mandated to provide an adequate supply of qualified personnel to carry out the purposes of the Occupational Safety and Health Act, and the TPGs are one of the principal means for meeting this mandate. The majority of TPGs are in academic institutions that provide high quality training in the core occupational safety and health disciplines of industrial hygiene (IH), occupational health nursing (OHN), occupational medicine residency (OMR), occupational safety (OS), as well as closely related allied disciplines. NIOSH also funds non-academic programs to meet specific training needs of targeted populations including firefighters, commercial fishermen and occupational health and safety interns. Deadline is November 3, 2019.

Program: **Screening and Brief Alcohol Interventions in Underage and Young Adult Populations (R03)**
Description: The objective of this Funding Opportunity Announcement (FOA) is to encourage research on screening and brief interventions to prevent and/or reduce alcohol use and alcohol-related harms among underage and young adult populations. Deadline is May 7, 2018.
Website: <http://grants.nih.gov/grants/guide/pa-files/PA-15-296.html>

Program: **The Pancreatic Cancer Detection Consortium (U01)**
Description: This Funding Opportunity Announcement (FOA) invites applications from multi-disciplinary teams of researchers and clinicians to establish the Pancreatic Cancer Detection Consortium (PCDC) to conduct research to improve the detection of early stage pancreatic ductal adenocarcinoma (PDAC) and characterization of its precursor lesions. This initiative addresses one of the four research priorities identified in the National Cancer Institute's 2014 Scientific Framework for Pancreatic Ductal Adenocarcinoma. The PCDC is intended to support research for the development and testing of new molecular and imaging biomarkers for identifying patients at high risk for PDAC (because of genetic factors or the presence of precursor lesions) who could be candidates for early intervention. The research will be conducted by individual multi-disciplinary research teams, hereafter called Units. The Units will undertake studies on the following areas: identification and testing of biomarkers measurable in bodily fluids for early detection of PDAC or its precursor lesions; determine which pancreatic cysts are likely to progress to cancer; develop molecular- and/or imaging-based approaches for screening populations at high risk of PDAC; conduct biomarker validation studies; and collect longitudinal biospecimens for the establishment of a biorepository. All Units are expected to participate in collaborative activities with other Units and share ideas, specimens and data within the Consortium. Deadline is April 6, 2018.

Program: **Limited Competition: Small Grant Program for NHLBI K01/K08/K23 Recipients**
Description: The purpose of this FOA is to solicit current or recently completed NHLBI K01, K08, and K23 awardees for grant support to expand their current research objectives or to branch out to a study that resulted from the research conducted under the K award. Recently completed NHLBI K01, K08, and K23 awardees are eligible to apply for this R03 FOA if the earliest possible R03 start date falls within 2 years of their prior NHLBI K award Project Period end date. Thus, this FOA is intended to enhance the capability of NHLBI K01, K08, and K23 award recipients to conduct research as they complete their transition to fully independent investigator status. Deadline is June 15, 2018.

Program: **Integrated Food Defense**

Description: The Integrated Food Defense & Emergency Response Cooperative Agreement Program (IFD&ER CAP) grant awards are designed to generate food defense tools and resources that are easily replicated and can complement, aid in the development of, and/or improve State, local, Tribal and territorial (SLTT) food defense programs through unique, innovative, and reproducible projects. The known overlap between food safety (unintentional contamination) and food defense (intentional contamination) is extensive. And the pools of resources available are vast and sometimes difficult to locate and implement.

Program: [Sustainable Forestry Initiative Seeks Proposals for Conservation and Community Partnerships Program](#)

Description:

The Sustainable Forestry Initiative is accepting proposals for its SFI Conservation and Community Partnerships grant program. SFI works to foster partnerships between organizations working to improve forest management in the United States and Canada and responsible procurement globally.

The program addresses issues such as improving wildlife habitat management and conservation of biodiversity, avoiding controversial sources of fiber such as those resulting from illegal logging, and assisting local communities through forest education programs and green-building projects for low-income families. Qualified organizations may apply for Conservation grants or Community grants.

1) Conservation grants of up to \$15,000 will be awarded in support of projects that measure, demonstrate, or establish methodologies to demonstrate the conservation-related values of SFI-certified forestlands, or such values as result from application of the SFI Fiber Sourcing standard. Ideally, such projects will be scalable to a regional or bio-regional level (e.g., Ponderosa Pine forests, Boreal Plains, Longleaf Pine ecosystem, the central hardwood forest, etc.). Priority will be given to projects focused on conservation values in the areas of water, climate change (including both carbon attributes and forest resiliency), and biodiversity.

2) Secondary priority will be given to projects related to the application of the SFI Forest Management or Fiber Sourcing standards, particularly in the areas of forest health, wildlife, fish, biodiversity, or which support the growth of SFI certification within the aboriginal/tribal community or enhance the capacity of this community to assess and manage natural and cultural resources.

Community grants of up to \$10,000 will be awarded for projects focused on educating youth, promoting respect for traditional indigenous values, helping provide sustainable housing for low-income families, and funding other projects to build understanding of the importance of responsible forestry.

Deadline is October 10, 2016.

BoatUS Foundation Accepting Grant Applications for Safe and Clean Boating Projects

Description:

The BoatUS Foundation for Boating Safety and Clean Water is accepting applications for its Grassroots Grants Program, which awards funds on an annual basis to nonprofit organizations, boating clubs, and student groups in the United States for projects that utilize innovative approaches to education about safe and clean boating.

The foundation is looking for creative projects that promote safe and clean boating on local waterways. Past topics have ranged from PSAs on the effects of boating under the influence to hands-on education about the effects of marine debris.

Projects the foundation is most interested in funding will be unique (topic, methods, or delivery mechanism); include extensive outreach to boaters; use technology to educate

boaters, including social media and the Web; have a widespread reach (not just a handful of boaters); include hands-on work with the boating community; and have a way to measure the success of the program.

Applicants can include boating groups, clubs and associations, student groups, and local nonprofit organizations, including local chapters of national organizations. Grants will not be awarded to government agencies, international organizations, for-profit businesses, or individuals.

Applicants may request up to \$10,000. Funded projects must be completed within a year. Deadline is OPEN.

Program: **ABOG Fellowship for Socially Engaged Art**

Description: The ABOG Fellowship for Socially Engaged Art is an active, year-long funding relationship. Documentation and field research may extend beyond the Fellowship year, in order to fully represent your project in your FIELDWORKS documentary and publication. Fellows become active members in a cohort and participants in a program that features a range of services, including:

- Project support of \$20,000 with minimal restriction (budget line items may include things like living expenses that are not direct project expenses).
- A two-day orientation that explores ABOG's documentation and field research models, and includes workshops on strategies for community engagement.
- A two-day midyear retreat with other Fellows to share progress and challenges, and offer feedback to one another.
- Support and feedback for ongoing self-evaluation in the form of collaborative action research.
- Field research by an outside evaluator. We want to understand how the projects we support impact communities, and capture and share innovative ideas and successful models for future use.
- ABOG production of a short video documentary on each project.
- Access to our broad network of specialists outside the art world. Ask us how we can help you connect with experts in issues your project addresses!

National Council of Teachers of Mathematics Program

Description:

The National Council of Teachers of Mathematics supports the professional development of teachers with the aim of ensuring equitable mathematics learning of the highest quality for all students. To that end, NCTM is accepting applications for its Teacher Professional Development Grants for Grades 6–8 Teachers grant program. Through the program, grants of up to \$3,000 will be awarded to persons currently teaching math in grades 6-8. Grant applications must delineate the teacher(s)' professional development plan and address how the proposed project will improve his/her competence and affect students' learning. While the grant does not fund the purchase of technology, proposals that include the use of technology to enhance student learning are encouraged. To be eligible, applicants must be a current NCTM member (on or before October 15, 2016) and teach mathematics in grades 6-8 at least 50 percent of the school day. The deadline is November 4, 2016.

Program: [Impact Fund Awards](#)

Description: The Impact Fund makes grants to lawyers, law firms, and nonprofit organizations involved in impact litigation. Most of our grants are for one particular case, but occasionally we fund a series of cases bound by a common strategy. We fund civil rights, human rights, anti-poverty, and environmental justice cases that will affect a marginalized group. Most of our grants are for class actions, but we also fund multi-plaintiff and environmental justice cases that aim to significantly affect a larger system. Impact Fund grants may be used for out-of-pocket litigation expenses such as expert fees and discovery costs, but not for attorney's fees, staff, or other overhead. LOIs due July 19, 2016 or October 11, 2016.

Program: [HHMI Issues RFP for Science Education Grant Program](#)

Description: The objective of this initiative is to increase institutional capacity for inclusion of students from all backgrounds in science. Institutions of higher education that aspire to lead in the 21st century must effectively engage all students, especially the increasing

number of students who come to college through “nontraditional” pathways. Through this initiative, HHMI will support colleges and universities that commit to measurably increasing their infrastructure, resources, and expertise to involve undergraduate students in science, resulting in expanded access to excellence for all students, and especially those who belong to the “new majority” in American higher education. Our long-term aim is for successful strategies pioneered by the grantee institutions to serve as models to be adapted and adopted by other institutions.

Key dates for the 2018 competition:

Program: **Environmental Research & Education Foundation Grants**

Description: The Environmental Research & Education Foundation (EREF) accepts proposals for research projects and educational initiatives for developing tools that promote awareness or increase knowledge of the solid waste industry. Awards are generally up to \$500,000. Because the amount of funding for research is limited, the foundation

encourages submitting parties to form partnerships with other funding sources (real-dollars or in-kind services). Parties should identify the sources and amounts of external funding in their submissions. The development of tools to be used for commercial purposes, or that will be considered proprietary, will generally not be considered unless approved by EREF a priori.

Successful pre-proposals will be invited to submit a full proposal. Pre-proposals are accepted 10 days prior to each deadline date. Pre-proposals are due by 5 p.m. each May 21 and October 1.

Program: [William H. Johnson Foundation Invites Applications from African-American Artists for 2016 Johnson Prize](#)

Description: The William H. Johnson Foundation for the Arts was established in 2001 in honor of William H. Johnson, an American artist known primarily for his Scandinavian landscapes and his witty and poignant depictions of African-American daily life.

Recognizing that minority artists often need economic assistance, the foundation seeks to encourage artists early in their careers by offering financial grants. To that end, the foundation is accepting applications for the 2016 William H. Johnson Prize.

The Johnson Prize is awarded annually to an early-career African-American artist working in the area of painting, photography, sculpture, printmaking, installation, or a new genre. For award purposes, "early career" is a flexible term that should be interpreted liberally to include artists who have finished their academic work within twelve years from the year that the prize is awarded. Age is not determinative, and artists who have not earned a BFA or MFA are eligible so long as they have not been working as an artist for more than twelve years.

The 2016 prize recipient will receive \$25,000. The winner will be announced in December 20, 2016.

Program: [Society of Teachers of Family Medicine Invites Applications for Program Enhancement Award](#)

Description: The [Society of Teachers of Family Medicine](#) is an association of nearly five thousand family medicine educators, including medical school professors, preceptors, residency program faculty, residency program directors, and others involved in family medicine education.

Through its annual Family Medicine Program Enhancement Award program, STFM awards grants of up to \$2,000 to family medicine programs to implement enhancements at their institutions while developing the leadership skills of family medicine faculty. Preference is given to programs whose project leaders are at an early stage of their academic careers.

Eligible projects must be designed to enable a hands-on learning and leadership opportunity for a faculty member (project leader) based on a specific program enhancement. In addition, a project consultant(s) from another institution must be identified. Throughout the duration of the project, the project leader receives skills/training related to the defined program enhancement and is expected to serve as the leader of the implementation at his or her home institution. This training experience may be conducted at the applicant's institution or at the consultant's institution. Deadline is September 16, 2016.

Program:

Foundation for Contemporary Art Accepting Applications for Emergency Grants

Description:

Since its inception in 1963, the mission of the Foundation for Contemporary Arts has been to encourage, sponsor, and promote innovative work in the arts created and presented by individuals, groups, and organizations.

Created in 1993, the foundation's Emergency Grants program provides grants of up to \$2,000 to innovative visual and performing artists who have unanticipated, sudden opportunities to present their work to the public when there is insufficient time to seek other sources of funding; or who incur unexpected or unbudgeted expenses for projects close to completion with committed exhibition or performance dates.

To be eligible, applicants must be living, working, and paying taxes in the United States; have committed to a performance or exhibition opportunity and be able to provide specific dates at the time of application; and be an individual artist or an individual representing an artist collective, ensemble, or group. Curators, producers, workshop organizers, organizations, or arts presenters are not eligible to apply. Deadline is OPEN.

Program:

Calvin Institute of Christian Worship Invites Applications for Vital Worship Grants

Description:

The Calvin Institute of Christian Worship is accepting applications for projects designed to foster vital worship in congregations, parishes, and other worship communities in North America.

Through its Vital Worship Grants Program, the institute supports projects that connect public worship to intergenerational faith formation and Christian discipleship. This theme can unfold in many facets of worship, from Bible reading, to preaching, to baptism, intercessory prayer, congregational song, visual arts, and more.

Projects must have the potential to generate renewed interest, thoughtfulness, and energy for public worship at the local, grassroots level; be linked with the worship life of a particular community or congregation(s); include a component of theological reflection on the meaning and purpose of public worship; and be both realistic and visionary. Deadline is January 10, 2017.

Grant amounts will range between \$5,000 and \$15,000.

Program:

Chef Ann Foundation Accepting Applications for School Fresh Produce Program

Description: The Chef Ann Foundation provides tools that help schools serve children healthy and delicious scratch-cooked meals made with fresh, whole food. To that end, the foundation, in partnership with Skoop, is accepting applications for Project Produce: Fruit and Veggie Grants for Schools, a program that aims to expand students' palates and encourage increased consumption of and exposure to fresh produce.

Grants of up to \$2,500 will be awarded to school districts for programs that engage students in lunchroom education activities that encourage students to taste new vegetables and fruits offered either in a dish, cooked, or raw. Grant funds must be used to purchase fresh fruits and vegetables to support each school's planned Project Produce programming. In addition, the majority of the produce must be locally accessible and at a price point affordable to all households.

Any district or independent school participating in the National School Lunch Program is eligible to apply. Applications must be submitted by the school district's food-service director. Districts may apply for up to ten schools at \$2,500 per school. Deadline is Rolling.

Program: [**IDA Seeks Applications to Support Independent Documentary Films**](#)

Description: The International Documentary Association is accepting applications for the creation of original, independent documentary films that illuminate pressing issues in the United States.

Through the Pare Lorentz Documentary Fund, IDA will award production grants of up to \$25,000 to up to a dozen projects that tell a compelling story and focus on one of Pare Lorentz's central concerns -- the appropriate use of the natural environment, justice for all, and/or the illumination of pressing social problems. The fund supports full-length documentary films that reflect the spirit and nature of Pare Lorentz's work and exhibit objective research, artful storytelling, a strong visual style, high production values, excellent writing, and outstanding music composition, as well as skillful direction, camerawork, and editing. A program of the International Documentary Association, the Pare Lorentz Documentary Fund is made possible by the New York Community Trust.

Projects must be in production at the time of application, with the bulk of research and development completed but still having substantial production or post-production related work and expenses remaining. Grant funds may be used for production and post-production related expenses incurred during the period of support.

To be eligible, the applicant must be 18 years of age or older and be a producer and/or director of the submitted work. In addition, the applicant must be an independent filmmaker working on an original project. The applicant also should be an experienced filmmaker with at least one key above-the-line (producer, director, co-director, co-producer) or other principal creative (director of photography, editor) credit on a previously completed documentary.

IDA will be accepting applications on a rolling basis until July 31, 2017. Applications will be reviewed throughout the period, with grants being awarded quarterly.

Program: [Rubin Foundation Accepting Applications for Social Justice Arts Projects](#)

Description: Founded in 1995, the [Shelley & Donald Rubin Foundation](#) is committed to providing grants that support access to art for a broad audience, art in the service of social justice, art in the service of social change and discourse, and under-recognized artistic practice. Through its art-focused social justice mission, the foundation seeks to catalyze collective action, promote equality, contribute to advocacy and policy change, and develop capacity for greater civic engagement.

To that end, the foundation is accepting applications from arts and cultural organizations active in New York City for projects that embody ethical artistic practice and broaden access to the arts in the five boroughs of New York. Past grants have ranged from \$2,500 to \$100,000. Funding is not provided for grants to individuals, capital (building) projects, endowment funds, scholarships or fellowships, or fundraising activities.

The foundation is open to reviewing requests on a variety of scales, but it will not be the sole funder of an organization or a project.

Only art organizations with 501(c)(3) tax-exempt status under the Internal Revenue Code, or those with a qualifying fiscal sponsor, will be considered.

Deadline is September 15, 2016.

Program: [Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities](#)

Description: The mission of the [Captain Planet Foundation](#) is to promote and support high-quality educational programs that help children and youth understand and appreciate the natural world through learning experiences that engage them in active hands-on projects.

Grants are intended to serve as a means of bringing environment-based education to schools and of inspiring youth and communities to participate in community service through environmental stewardship activities. The foundation will fund unique and innovative projects that do not precisely match its grant guidelines but otherwise promote its focus on hands-on environmental activities.

The foundation makes grants to U.S.-based schools and nonprofit environmental and educational organizations with annual operating budgets of less than \$3 million.

Preferential consideration is given to grant requests that include at least a 50 percent matching or in-kind funding component. (Because external funding is a good indicator of the potential long-term sustainability of the activity, projects with matching funds or

in-kind support are given priority.) The foundation will on occasion consider grants of up to \$2,500. Deadline is September 30, 2016.

Program: [Kress Foundation Accepting Proposals for Conservation Grants](#)

Description: The [Samuel H. Kress Foundation](#) supports projects that illuminate European works of art and architecture from antiquity to the early nineteenth century.

As part of that mission, the foundation's Conservation Grants Program provides support for the professional practice of art conservation. Grants are awarded to projects that create and disseminate specialized knowledge, including archival projects, the development and dissemination of scholarly databases, documentation projects, exhibitions and publications focused on art conservation, scholarly publications, and technical and scientific studies. Grants are also awarded for activities that enable conservators and conservation scientists to share their expertise with professional colleagues and a broader audience through international exchanges, professional meetings, conferences, symposia, consultations, the presentation of research, exhibitions that include a prominent focus on materials and techniques, and other professional events.

Grants are awarded to nonprofit institutions with 501(c)(3) status based in the United States, including supporting foundations of European institutions. Deadline is October 1, 2016.

Program: [Project Learning Tree Seeks Applications for Environmental Education Projects](#)

Description: PLT is accepting applications from schools and nonprofit organizations for environmental service-learning projects through its GreenWorks! grants program. The program is designed to help students make their schools "greener" and healthier by, for example, implementing a recycling program, conserving water and energy, initiating a project to improve air quality, or establishing a school garden or outdoor classroom and integrating it into the curriculum. Deadline is September 30, 2016.

Program: [NEEF Accepting Applications for Greening STEM Integration Grants](#)

Description: The [National Environmental Education Foundation \(NEEF\)](#), with major funding support from the [Mitsubishi Corporation Foundation for the Americas](#), is offering funding for teachers, afterschool programs, and nature organizations for projects that support the integration of Greening STEM into current or new programming or curriculum.

NEEF believes that the natural world offers a compelling and universal context for investigations and applications of many STEM lessons, an approach it calls Greening STEM. By learning about STEM concepts in reference to real-life environmental examples or issues, the subject matter is more tangible and extends beyond the textbook

or classroom, influencing the way students think about the world and the way they view their connection to it.

Program: [Rockefeller Archive Center Accepting Applications for Grant-in-Aid Program](#)

Description: The Rockefeller Archive Center in Sleepy Hollow, New York, annually offers a competitive grant-in-aid program to foster, promote, and support research by serious scholars in the collections located at the center, which includes the records of the Rockefeller family, Rockefeller University, the Rockefeller Foundation, and other Rockefeller-associated philanthropies and individuals.

An independent committee reviews each application based on research topic and the availability of relevant material in the RAC collections. Awards are made to individuals only; institutions are not eligible to apply. Awards do not support research at other institutions and cannot be used for general tuition support. Application to the grant-in-aid program is open to citizens of the United States and foreign countries.

Awards will provide for reimbursement of up to \$4,000 in expenses after the award recipient has finished his or her research visit and submitted expense receipts.

Applicant must contact the center via email or by fax with a description of the project no later than October 15, 2016. Upon review, selected applicants will be invited to submit a complete application by November 1, 2016.

Program: **Donaghue Foundation Invites LOIs for Improvements to Senior Care**
Program: **Good Sports Accepting Applications for Sports Equipment Program**

Description: Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization is able to focus on the respective needs of each individual program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for a two-year period. During that time, organizations can make up to six separate donation requests — as long as need is well documented, donations will be granted. There is no need to resubmit a full application again during the two-year period.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks prior to the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time

Program: **Karma for Cara Foundation Invites Applications for Youth Microgrants**

Description: The Karma for Cara Foundation is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the Johns Hopkins Kimmel Cancer Center. Cara and her two brothers began volunteering at a young age as part of their family’s commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community

garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores. Deadline is OPEN.

Program: **VFW Accepting Applications From Veterans for Emergency Financial Assistance**

Description: Veterans of Foreign Wars is accepting applications from active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. Since the program's inception, Unmet Needs has distributed more than \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The Unmet Needs Program provides financial assistance of up to \$5,000 to assist with basic life needs in the form of a grant — not a loan — so no repayment is required. Eligible expenses include housing and vehicle payments; utility and phone bills; food and incidentals; children's clothing, food, diapers, school, and childcare; and medical bills, prescriptions, and eyeglasses. Each expense will be considered on a case-by-case basis, and payments will be made directly to the recipient's creditors.

The hardship must be the result of deployment, a military pay issue, or military-related illness or injury. It cannot be due to civil legal or domestic issues, misconduct, or any issues that are a result of spousal separation or divorce, financial mismanagement, or bankruptcy. Deadline is OPEN.

Program: **Good Sports Accepting Applications for Athletic Equipment Grants**

Description: Good Sports in Quincy, Massachusetts, is a nonprofit whose mission is to increase youth participation in sports, recreation, and fitness activities.

To that end, the organization provides sports equipment, apparel, and footwear to youth organizations offering sports, fitness, and recreational programs to youth in need.

To be eligible, organizations must directly serve youth between the ages of 3 and 18 in an economically disadvantaged area; be located in North America (U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers consistent and structured opportunity for play to large groups of children. Winning organizations may make up to six equipment requests within a two-year period. Winners will be responsible for operational costs, including equipment shipping, up to \$1,500. Deadline is ROLLING.

Program: **Start a Snowball Invites Applications for Youth Philanthropy Projects**

Description: Start a Snowball, Inc. encourages kids of all ages to engage in philanthropic and community service activities. The organization believes that even one child with the right intentions and support can start a project that seems small in the beginning and eventually grows (“snowballs”) into something that inspires and benefits an entire community.

In order to help kids kick off their philanthropy efforts, Start a Snowball awards \$100 in seed funding for projects taken on by individuals or organizations.

To be eligible, projects must be led by youth between the ages of 5 and 18 and have the intention of doing good.

Start a Snowball does not give directly to collection funds. The organization also does not provide support for fundraisers for sports teams, unless they serve an underserved or disadvantaged group, or support projects that are discriminatory or political in nature. Deadline is Rolling.

Program: **Craft Emergency Relief Fund Accepting Applications From Craftspeople in Need**

Description: The Craft Emergency Relief Fund is a national nonprofit organization that awards small grants and loans to professional craftspeople experiencing career-threatening illness, accident, fire, theft, or natural disaster.

Financial assistance ranges from \$500 to \$8,000. Other services include referrals to craft suppliers who have agreed to offer discounts on materials and equipment to craftspeople eligible for CERF funds and booth fee waivers from specific craft show producers.

CERF loan recipients are expected to repay the loan in full within five years, enabling CERF to have funds readily available for future craftspeople in need.

Applicants must be a professional artist working in a craft discipline (e.g., a potter, metalsmith, glass artist, woodworker, fiber artist, or furniture maker) who has had a recent career-threatening emergency and is a legal resident of the U.S. Deadline is OPEN.

Program: **Laura and John Arnold Foundation Issues RFP for Criminal Justice Research Projects**

Description: The Laura and John Arnold Foundation works to address the nation’s most pressing and persistent challenges using evidence-based, multidisciplinary approaches. Its

strategic investments are currently focused in criminal justice, education, evidence-based policy and innovation, research integrity, and science and technology.

To advance this mission, the foundation has issued a request for criminal justice research proposals as part of its effort to build an evidence base about the approaches, innovations, and strategies that work best to improve public safety as well as increase the fairness and efficiency of the criminal justice system. LJAF has committed up to \$14 million in funding to support the research: \$12 million to fund at least four randomized controlled trials (RCTs) and \$2 million to fund innovative, early-stage research projects that, if successful, could advance to the RCT stage.

Program: [Pollock-Krasner Foundation Accepting Applications From Artists With Financial Need](#)

Description: The [mission of the Pollock-Krasner Foundation](#) is to aid those individuals who have worked as artists over a significant period of time. The foundation's dual criteria for grants are recognizable artistic merit and financial need, whether professional, personal, or both.

The foundation welcomes, throughout the year, applications from visual artists (painters, sculptors, and artists who work on paper, including printmakers) with genuine financial needs. Grants are intended for a one-year period of time, with the size of the grant to be determined by the artist's individual circumstances and professional exhibition history. Artists applying for a grant must be actively exhibiting their current work in a professional artistic venue such as a gallery or museum space.

The foundation does not accept applications from commercial artists, video artists, performance artists, filmmakers, crafts-makers, computer artists, or any artist whose work primarily falls into these categories. Deadline is OPEN.

Program: [Pollination Project Invites Applications From Social Entrepreneurs for Seed Grants](#)

Description: The [Pollination Project](#) is accepting applications from social entrepreneurs looking to make their communities and world a better place.

Seed grants of up to \$1,000 will be awarded to projects in the early stages of development, including those that promote compassion toward all life (people, planet, animals), environmental sustainability, justice in all its forms, community health and wellness, and social change-oriented arts and culture. Only applications for seed funding, as opposed to ongoing operational or program costs of a nonprofit organization, will be accepted.

To be eligible, applicants must be a passionate, committed individual with a social change vision that fits within one or more of the categories above. Established nonprofit organizations with paid staff will not be considered. Deadline is OPEN.

Program: **Hope for The Warriors Accepting Applications for Critical Care Support for Wounded Veterans**

Description: Hope For The Warriors believes those touched by military service can succeed at home by restoring their sense of self, family, and hope. Nationally, the organization provides service members, veterans, and military families with comprehensive support programs focused on transition, health and wellness, peer engagement, and community resources.

Originally designed to meet short-term needs in the days following an injury, the Hope for The Warriors' Critical Care Coordination program has expanded to assist post-9/11 combat-wounded veterans and their families as they navigate through long-term recovery.

Program case coordinators work daily with post-9/11 combat-wounded service members and veterans, their families, and families of the fallen to meet immediate financial needs related to daily living including utilities, groceries, rent, mortgage, and rental deposits. The program provides casework assistance and resource referrals that will help clients immediately and in the future. Payment is always made to a third party.

To be eligible, applicants must be seeking support for needs that are a direct result of a service member's post-9/11 combat-related injury. Deadline is OPEN.

Program: **Big Read Accepting Grant Applications for Community-Wide Reading Programs**

Description: The Big Read, a program of the National Endowment for the Arts, aims to restore reading to the center of American culture. Managed by Arts Midwest, the program provides organizations with grants and comprehensive resources that support their efforts to inspire their community to read and discuss a single book or the work of a poet.

Community organizations participating in the Big Read develop and produce reading programs that encourage reading and participation by diverse local audiences. These programs include activities such as author readings, book discussions, art exhibits, lectures, film series, music or dance events, theatrical performances, panel discussions, and other events and activities related to the community's chosen book or poet. Activities must focus on a book or poet from the Big Read Library. Previous grantees must select a different reading choice from their previous programming.

The program is accepting applications from nonprofit organizations to develop reading programs between September 2016 and June 2017. Organizations selected to participate receive a grant, educational and promotional materials, and access to online training resources and opportunities. Approximately seventy-five organizations will be selected from communities of varying size in the United States.

Eligible organizations may apply for grants ranging from \$5,000 to \$20,000. Grants must be matched on a one-to-one basis with non-federal funds. Grant funds may be used for a variety of expenses, including book purchases, speaker fees and travel, salaries, advertising, and venue rental. Deadline is January 26, 2017.

Program: [Caplan Foundation for Early Childhood Invites Letters of Intent](#)

Description: The [Caplan Foundation for Early Childhood](#) supports innovative, creative projects, and programs designed to significantly enhance the development, health, safety, education, and/or quality of life of children from infancy through five years of age.

The foundation provides funding in the areas of early childhood welfare, early childhood education and play, and parenting education.

1) Early Childhood Welfare: Children can only reach their full potential when all aspects of their development, intellectual, emotional and physical are optimally supported. Providing a safe and nurturing environment for infants and preschoolers is essential, as is imparting to them the skills of social living in a culturally diverse world. To that end, the foundation supports programs that research best child rearing practices and identify models that can provide creative, caring environments to ensure all children thrive.

2) Early Childhood Education and Play: Research shows that children need to be stimulated as well as nurtured, early in life, if they are to succeed in school, work, and life. That preparation relates to every aspect of a child's development, from birth to age 5, and everywhere a child learns -- at home, in childcare settings, and in preschool. The foundation seeks to improve the quality of both early childhood teaching and learning through the development of innovative curricula and research-based pedagogical

standards, as well as the design of imaginative play materials and learning environments.

3) Parenting Education: To help parents create nurturing environments for their children, the foundation supports programs that teach parents about developmental psychology, cultural child-rearing differences, pedagogy, issues of health, prenatal care and diet, as well programs that provide both cognitive and emotional support to parents.

Letters of Intent are accepted on a rolling basis. Upon review, selected applicants will be invited to submit full applications.

Program: [Chambers of Commerce Invited to Start Young Entrepreneur Academies](#)

Description: The [Young Entrepreneurs Academy](#) today serves thousands of students across America. In 2011, the [United States Chamber of Commerce Foundation](#) became a national sponsor and partner of the academy to help celebrate the spirit of enterprise among today's youth and the future leaders of tomorrow.

To that end, YEA, in partnership with [Sam's Club](#) and the U.S. Chamber of Commerce Foundation, is accepting applications from chambers of commerce across the country to start Young Entrepreneurs academies of their own. The thirty-week program teaches students in grades 6-12 how to generate business ideas, conduct market research, write business plans, pitch to a panel of investors, and launch their own companies. In 2015,

Sam's Club will award startup funds of up to \$2,500 each to thirty chambers of commerce across the country.

Program: **Advocacy Event Fund**

Description: Building public and political support is critical for successfully advocating to incorporate **permanently affordable housing (PAH)** into public policies and programs. Building this support requires bringing together the right stakeholders to inform, discuss, and strategize. We know that this is often challenging for our members who have limited resources. During 2015, the Network will award three to four grants of up to \$3,000 for eligible Network members to support the planning of one-time events that bring stakeholders together and garner support for the incorporation of PAH into state or local housing, transportation, and community development public policies and programs. The purpose of the grants is to fund events that will have a catalyzing effect on policy discussions, partnerships, advocacy campaigns, and eventually, policies and programs themselves.

CSX Beyond Our Rails Grant

Description:

CSX provides non-profit assistance and support through a variety of programs, including grants that typically range from \$2,500 to \$5,000 for projects focusing on safety, community, wellness, and/or the environment. CSX considers grant, sponsorship, volunteer, transportation and in-kind requests from organizations that have been approved by the IRS as 501c3 charities. Government institutions, such as fire departments and schools allowed under Internal Revenue Code 170(c), are also eligible.

Examples given for environmental projects include:

- Teaching environmental stewardship
- Planting eco-friendly trees and plants
- Leading and supporting environmental cleanups
- Recycling and waste minimization
- Promoting energy efficiency and carbon reduction

An on-line application is provided for all requests and is available from January 1 through December 15 of each year. There are no deadlines for applications, but organizations are encouraged to submit all their annual requests at one time each year.

Program: **Aspen Institute Social Innovation Program Invites Applications for Hearst Fellowship for Minority Students**

Description: The Aspen Institute Program on Philanthropy and Social Innovation in Washington, D.C., is accepting applications for the fall session of its William Randolph Hearst Endowed Fellowship program.

The fellowship, which is based on academic excellence and need, is open to both undergraduate and graduate students of color. The Hearst Fellow serves as an intern with PSI in the Washington, D.C., office of the Aspen Institute. Through the fellowship, PSI seeks to introduce a diverse group of students to issues and challenges affecting philanthropy, social enterprise, nonprofit organizations, and other actors in the social sector. In his or her internship, the Hearst Fellow undertakes research, writing, and logistical and administrative support for PSI's leadership initiatives, public programs, and convenings. Recipients may arrange with their colleges or universities to receive academic credit for this experience.

Candidates for the fellowship are highly motivated, current, non-graduating graduate or undergraduate students from underrepresented communities of color. Each candidate should have an excellent academic record and also have a demonstrated interest or experience in nonprofit organizations, philanthropy, and the social sector; excellent research and writing skills; demonstrated financial need; and U.S. citizenship or permanent residency.

Selected fellows must be able to work as an intern for twelve to fifteen weeks in Washington, D.C., during the academic semester in which the fellowship is awarded. Fall and spring interns will work part-time (fifteen to twenty hours per week) and summer interns will be full-time. All travel and housing costs must be covered by the student.

Fellows will be compensated on an hourly basis in the fall, spring, and summer. Deadline is November 22, 2016.

Program: [Harpo Foundation Invites Applications for 2016 Emerging Artists Fellowship](#)

Description: The Chicago-based [Harpo Foundation](#) was established in 2006 to support artists who are underrecognized by the field. The foundation seeks to stimulate creative inquiry and encourage new modes of thinking about art.

The foundation's Emerging Artist Fellowship at the [Santa Fe Art Institute](#) was established in 2013 to provide an annual opportunity to an emerging visual artist age 25 and older who needs time and space to explore ideas and start new projects. Artist fellows will receive a one-month residency at the Santa Fe Art Institute that includes a well-appointed room with private bath, a well-lit studio space, and a \$500 travel stipend.

Founded in 1985, the Santa Fe Art Institute provides a unique opportunity for emerging artists to pursue creative projects without interruption. SFAI supports over fifty residents per year and offers a cohesive, arts-focused environment that creates the ideal working conditions for resident artists. Living and studio space is located within a nearly 17,000-square-foot complex designed by renowned Mexican architect Ricardo Legoretta. The unique SFAI environment allows residents to be as interactive or private as they wish. There are no requirements on the work produced during their time at SFAI.

One fellowship is awarded annually to an emerging artist who demonstrates strong artistic ability and promise, as well as an evolving practice that is at a pivotal moment in its development.

Deadline is October 1, 2016.

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members and spouses are connected to high quality career choices by matching their identified skills with available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths

- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden’s Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans and transitioning Service Members deserve a single, authoritative source for connecting to each other. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.
