Rep. Sewell Commends Alabama NeighborWorks Grant Recipients

May 17, 2017

CSP of West Alabama and NHS of Birmingham receive over \$250,000 in grants

Washington, D.C. – On Tuesday, May 16, 2017, NeighborWorks America, a congressionally chartered nonprofit committed to expanding affordable housing and community development, announced new grant awards to the Community Service Programs (CSP) of West Alabama, Inc. and Neighborhood Housing Services (NHS) of Birmingham, Inc. NeighborWorks awarded CSP a grant of \$170,500 and NHS a grant of \$111,500. Congresswoman Terri A. Sewell (D-AL) releases the following statement commending the two organizations:

“Home ownership is a point of pride, security, and stability for individuals and their families. It is a key component to achieving the American dream,” said Rep. Sewell. “The grants announced this week by NeighborWorks America are going to two local organizations that have helped to provide people in our communities with access to decent, safe and affordable housing for decades. For families struggling to make ends meet, their support is indispensable. NeighborWorks’ investment in Alabama is going to give families in my district a shot at building a life they otherwise would not have access to.”

In fiscal year 2016, NeighborWorks America leveraged \$91 dollars of other investments for every \$1 of appropriated grants provided to the organization – resulting in a direct investment of \$7.1 billion in communities across the country. That year, the NeighborWorks network assisted over 360,000 families and helped to create 21,000 new homeowners.

Representative Sewell is Vice Chair of Commission on Protecting American Democracy from the Trump Administration

May 25, 2017

DNC launches group in response to Presidential Advisory Commission on Election Integrity

Washington, D.C. – Today, the Democratic National Committee (DNC) announced the launch of the Commission on Protecting American Democracy from the Trump Administration. The group will investigate voter suppression, the “voter fraud” myth, and strategies for modernizing the voting process to provide more Americans better access to the polls. The new Commission comes in response to the Trump Administration’s Presidential Advisory Commission on Election Integrity.

“When it comes to protecting voting rights for all Americans, we cannot trust the Trump Administration to get the facts right,” said Rep. Sewell. “Time after time, President Trump has chosen to recite baseless ‘voter fraud’ claims rather than taking on real issues like voter suppression. Our Commission will document and report on today’s wave of voter suppression tactics and provide recommendations for strengthening access to the polls for all Americans. One person, one vote is a fundamental principle of our democracy, and I am proud to be part of a Commission that seeks to protect and advance voting rights.”

The Commission will work to discredit the Presidential Advisory Commission on Voter Fraud by debunking the myth of widespread voter fraud in America and demonstrating the difficulty of voting in areas affected by voter suppression. The Commission will also highlight and promote best practices for making voting easier and dismantling obstacles to casting a ballot.

Jason Kander, President of Let America Vote and former Missouri Secretary of State, will chair the Commission with Congresswoman Terri Sewell (D-AL) serving as Vice-Chair. Members of Congress and state and local elected officials also join the Commission to offer diverse experience in legislating to protect voting rights and administering fair and accessible elections.

Sewell Statement on FBI Director Comey's Dismissal

May 9, 2017

Trump fires FBI Director amidst active investigation into Russia ties

Washington, D.C. – Today, FBI Director James Comey was fired by President Donald Trump, whose campaign associates were under investigation by the FBI for their ties to Russian officials. Congresswoman Terri A. Sewell (D-AL), who sits on the House Permanent Select Committee on Intelligence releases the following statement:

“For any American concerned about the integrity of our democracy, President Trump’s decision to fire the man leading an investigation into his campaign’s ties to Russia should set off an alarm,” said Rep. Sewell. “Our national security is at stake, and President Trump has disempowered the central investigative body leading an inquiry into the matter. In order to get to the bottom of Russia’s attack on our election, we must appoint an independent prosecutor who can restore faith in this investigation. No amount of interference from the White House can put this issue to rest for the American people, only a thorough, independent investigation can do that.”

Sewell Statement on “Voter Fraud” Commission

May 11, 2017

Under the guise of a fake problem, new commission lays the foundation for voter suppression

Washington, D.C. – Today, President Trump signed an executive order creating a commission to examine cases of voter fraud in American elections. Despite an [absence of any evidence](#) demonstrating widespread voter fraud in American elections, President Trump has [falsely and repeatedly](#) claimed that millions of ineligible voters cast ballots in the 2016 presidential election. Congresswoman Terri A. Sewell (D-AL) releases the following statement:

“Donald Trump has done more to undermine the legitimacy of our democracy than any president in recent history,” said Rep. Sewell. “Today’s executive order uses a fake issue to cast doubt on the integrity of our elections all while laying the foundation for laws that disenfranchise our nation’s minority voters. If President Trump is truly interested in strengthening the security of our democracy, his first priority should be to ensure that our elections are protected from Russian interference. That is an issue founded on real evidence confirmed by 17 of our nation’s intelligence agencies. If this President wants to protect that sanctity of our vote, he should support an investigation into voter suppression tactics and work with Congress to restore the Voting Rights Act (VRA). But instead, President Trump has chosen to funnel our taxpayer dollars into a sham commission that confirms his worst biases.”

On March 8, 2017, Reps. Elijah Cummings, Terri Sewell, Derek Kilmer, and 51 other House Democrats sent [a letter](#) to Vice President Mike Pence urging the Administration to investigate voter suppression as part of any investigation into voting irregularities in the 2016 elections.

Rep. Sewell has repeatedly urged the Administration to [stop offering false information](#) on voter fraud and to refocus its efforts [on preventing voter suppression](#). Millions of eligible voters, including an estimated [250,000 Alabamians](#), do not have the required identification to vote in elections where strict ID laws are present.

Rep. Sewell Statement on DOJ

Special Counsel Appointment

May 17, 2017

DOJ appoints special counsel to lead investigation of Russian election interference

Washington, D.C. – On Tuesday, the Department of Justice (DOJ) announced the appointment of Robert Mueller as special counsel to investigate Russian interference in the 2016 election and possible ties between Russian officials and U.S. persons. Congresswoman Terri A. Sewell releases the following statement:

“The appointment of a special counsel to lead an investigation is an important step forward. Robert Mueller is a respected legal mind who knows our intelligence community and has earned the trust of lawmakers from both parties. I hope that his leadership will help restore the public’s confidence that Russia’s attack on our elections will be investigated thoroughly and independently.”

“The appointment of Robert Mueller as special counsel in no way eliminates the need for a thorough investigation by the House Intelligence Committee. As a Member of that Committee, I will continue my work to get to the bottom of Russia’s attack by following the facts wherever they lead. I believe that the House Intelligence Committee will also have a role in ensuring that the new special counsel receives whatever resources he needs to conduct a full investigation.”

Rep. Sewell Statement on Trump Budget

May 23, 2017

Budget slashes funding for safety net, healthcare, education, agriculture

Washington, D.C. – Today, the President released a 2018 budget proposal with massive cuts to social safety-net programs, science, agricultural, and other institutions vital to Alabama communities.

Congresswoman Terri A. Sewell (D-AL) releases the following statement:

“President Trump's budget takes aim at working families, rural Americans, the disabled, underserved communities, and those who struggle to make their voices heard in our democracy,” said Rep. Sewell. “Leaving those Americans behind is not only a failure in compassion, it is utterly short-sighted when it comes to growing our economy and making America competitive. In areas like healthcare, education, agriculture, and research, Trump's budget will have devastating consequences for Alabama. What makes our country great is our willingness to extend a hand up to those who need it most, and that's a value which Trump's budget cuts.”

Over the next decade, President Trump's budget would slash more than \$1.4 trillion from Medicaid, a health program covering nearly 70 million Americans. The budget also cuts \$192 billion from nutritional assistance, and \$72 billion from disability benefits, and would eliminate loan programs which subsidize college education for low-income families. Trump's proposal would cut funding for the National Institutes of Health (NIH) by more than \$5 billion. Federally subsidized crop insurance would face a 36 percent cut, and President Trump's budget proposes elimination of USDA's rural economic development program and defunds the Delta Regional Authority and the Appalachian Regional Commission.

House Intelligence Committee holds open hearing with Brennan

Washington, D.C. – Today, the House Intelligence Committee held a public hearing featuring former CIA Director Brennan as part of the Committee’s Russia investigation. Congresswoman Terri A. Sewell (D-AL) is a member of the House Intelligence Committee and questioned Brennan on Russia’s disinformation campaign and the work of Russian officials to undermine American democratic institutions.

[Watch Rep. Sewell’s full remarks in the House Intelligence Committee’s public hearing.](#)

“In today’s hearing, former CIA Director Brennan was unequivocal in his statement that members of the Trump campaign had contact with Russian officials who undermined our elections and that this issue deserves a full investigation,” said Rep. Sewell. “As a Member of the House Intelligence Committee, I am committed to following the facts and getting to the truth. When we lose sight of the truth and the evidence provided by our intelligence community, our democracy and our national security are put at risk.”

On Foster Youth Shadow Day, Rep. Sewell Hosts Birmingham Youth

May 24, 2017

Shadow day connects youth from foster system with Members of Congress

Washington, D.C. – On Wednesday, Congresswoman Terri Sewell (D-AL) participated in Foster Youth Shadow Day, hosting Khadejah Moore from Birmingham. The Congressional Foster Youth Shadow Program gives young people who have interacted with the foster care system the chance to follow a Member of Congress for the day, learning about representative government while sharing their understanding and experiences from foster care with Members.

“This Foster Care Month, I am recognizing the more than 400,000 children in our foster care system as well as the families, caregivers, and community organizations who work so hard to provide them with loving, stable homes,” said Rep. Sewell. “Here in Congress, we must continue our work to strengthen the foster care system to ensure that it provides safety, permanency, and wellbeing for children in need. The young people visiting the Capitol this Wednesday were able to share an important perspective on how we can work to build a better foster care system that supports one of our nation’s most vulnerable groups.”

Khadejah Moore is from Birmingham, Alabama. She lived for five years in the foster care system. Through the help of her foster family, Khadejah was able to graduate high school in the top ten percent of her class with an advanced diploma. In May of 2017, Khadejah graduated cum laude from Alabama State University, an HBCU in Montgomery, Alabama.

Rep. Sewell is a member of the bipartisan Congressional Caucus on Foster Youth, which brings Members of Congress together to discuss the challenges facing foster youth and develop bipartisan policy initiatives. In 2016, Rep. Sewell hosted a child welfare listening tour in order to learn about issues facing foster youth in Alabama, including the impact of substance abuse on foster youth families, the court system, and how preventive services can help keep families together.

Rep. Sewell is also a cosponsor of the Family First Prevention Services Act (H.R. 258), a bill to strengthen families by providing evidence-based prevention services to reduce unnecessary foster care placements.

New CBO score shows Trumpcare eliminates coverage for 23 million Americans

Washington, D.C. – Today, the Congressional Budget Office (CBO) released a report showing that the healthcare repeal bill which passed the House this May would eliminate healthcare coverage for 23 million Americans. For sick patients in states which waive essential health requirements, CBO predicts that healthcare coverage could become unaffordable and likely unattainable. Congresswoman Terri A. Sewell (D-AL) releases the following statement:

“Today’s new score from the CBO confirms that Trumpcare still contains the same terrible policies that have mobilized Americans nationwide against the GOP healthcare repeal bill,” said Rep. Sewell. “This bill remains a bad deal for Alabamians – eliminating coverage for 23 million Americans, cutting Medicaid by \$834 billion and penalizing older Americans and those with pre-existing conditions. That is a lose-lose proposition for the American people.”

“Make no mistake, a bill that kicks 23 million people off of insurance will cost lives. Our access to affordable care is a fundamental right, not a privilege, and I will continue to oppose any legislation that takes that right away from millions of Americans.”

Statement from Rep. Sewell in Observance of Memorial Day

May 30, 2017

Birmingham, AL – As America prepares on Memorial Day to pay tribute to the brave men and woman who laid down their lives in defense of this country, Rep. Terri A. Sewell (D-AL) releases the following statement recognizing their sacrifices:

“On this Memorial Day, we once again recognize and pay tribute to the incredible dedication and bravery of men and women who chose to defend our country, and in doing so, gave their lives in order to uphold the freedoms we all enjoy. We as Americans owe our continued liberty and independence to these men and women who made the ultimate sacrifice on the battlefield. As festivities commence this Memorial Day, it is important that we remember how extraordinary our Armed Forces are in maintaining our great democracy.

“Let us also never forget the families that mourn the loss of loved ones and those who have returned home yet face ongoing challenges. Even as war continues around the globe, those who fight on our behalf and those who support them back home, make the American dream a closer reality with every passing day. It is because of these selfless sacrifices that our veterans and their families should always be a priority and the benefits they have rightly earned should never be in question. Their commitment to upholding our freedoms requires that we do no less for them.

“As we assemble for backyard cookouts and family gatherings, let us remember that our democracy and the freedoms we share are not republican or democratic issues, they are not conservative or liberal ones, they are uniquely American values. For that reason, we should all be proud!”

Humanities Collections and Reference Resources – (CFDA 45.149)

The Humanities Collections and Reference Resources (HCRR) program supports projects that provide an essential underpinning for scholarship, education, and public programming in the humanities. Thousands of libraries, archives, museums, and historical organizations across the country maintain important collections of books and manuscripts, photographs, sound recordings and moving images, archaeological and ethnographic artifacts, art and material culture, and digital objects. Funding from this program strengthens efforts to extend the life of such materials and make their intellectual content widely accessible, often through the use of digital technology. Awards are also made to create various reference resources that facilitate use of cultural materials,

from works that provide basic information quickly to tools that synthesize and codify knowledge of a subject for in-depth investigation.

HCRF offers two kinds of awards: 1) for implementation and 2) for planning, assessment, and pilot efforts (*HCRF Foundations* grants).

[Towards a Leadership-Class Computing Facility – Phase 1 – \(CFDA 47.070\)](#)

NSF invites proposals for the acquisition and deployment of a High Performance Computing (HPC) system, called the Phase 1 system, with the option of a possible future upgrade to a leadership-class computing facility. The Phase 1 system will serve two important and complementary purposes:

- It will serve as a robust, well-balanced, and forward-looking computational asset for a broad range of research topics for which advances in fundamental understanding require the most extreme computational and data analysis capabilities; and
- It will serve as an evaluation platform for testing and demonstrating the feasibility of an upgrade to a leadership-class facility five years following deployment

A competitive proposal in response to this solicitation will have the following five characteristics:

- A detailed acquisition plan for deploying a reliable and well-balanced HPC system with at least two- to three-fold time-to-solution performance improvement over the current state of the art, the University of Illinois at Urbana-Champaign's (UIUC) [Blue Waters](#) system, for a broad range of existing and emerging computational and data intensive applications;
- A thorough operations plan for the Phase 1 system to ensure that it will serve as an effective computational tool for the broad scientific and engineering community, and for the Nation at large;
- A detailed three- to five-year project plan for scientific and technical evaluation of the Phase 1 system that will lead to an upgrade design of a leadership-class system, called the Phase 2 system, as well as the physical facility that will host it: the Phase 2 system is expected to have a ten-fold or more time-to-solution performance improvement over the Phase 1 system;
- Clear and compelling science and engineering use cases, as well as detailed strategic project goals for a leadership-class computing facility; and
- A persuasive articulation of educational and industry outreach, and the achievement of other broader societal impact goals, in the long-term strategic plan for the leadership-class computing facility.

Note that the award of a Phase 1 system does not imply any commitment beyond support for beginning the initial planning process for a leadership-class computing facility. The facility planning process may be terminated at any time if satisfactory progress is not demonstrated through annual reviews.

Cybermanufacturing Systems

There is an opportunity for researchers to pursue research and educational efforts to accelerate the creation of an interoperating, cross-process manufacturing service layer that enables the rapid, bottom-up transformation of access to manufacturing services. Such a service layer can allow creative entrepreneurs and companies to both furnish and access manufacturing apps that span the full spectrum from ideation to physical realization, giving rise to an era of cybermanufacturing. The cybermanufacturing service layer differs from existing Internet services in that it needs an architecture that can incrementally incorporate and organize the rich and deep semantic elements of manufacturing knowledge, requiring an almost unlimited capacity to expand the range and depth of content contributed in the form of partitioned, but interoperating, manufacturing applications.

Deadline: OPEN.

Criminal Justice Guidelines

The Foundation's Criminal Justice Program supports groups that are working to end the over incarceration of adults in the United States while also aiming to reduce racial disparities. In particular, the Program makes grants primarily to state-based groups that are working to:

- Reduce state incarceration levels and racial disparities through reforms in sentencing, charging, and supervision policies and procedures.
- Advance the redirection and prioritization of state and local resources toward targeted investments that support system-involved individuals in their communities, through research and strategic thought leadership.

Juvenile Justice Guidelines

The Foundation's Juvenile Justice Program supports groups working to end the criminalization and reliance on incarceration of youth in the United States. The Program makes grants to groups that are working to:

- Advance state policies that dramatically restrict juvenile justice systems' use of incarceration and out-of-home placements and prioritize the use of community-based programs for youth;
- End the practice of trying, sentencing, and incarcerating youth in the adult criminal justice system; and

- Promote the fair treatment of youth of color who come into contact with the juvenile justice system.

Workers' Rights Guidelines

The Foundation's Workers' Rights Program supports policy and system reforms to improve the lives of low-wage working people in the United States, with a focus on securing their basic legal rights to safe, healthy, and fair conditions at work. Specifically, the Program makes grants to groups working to:

- Advance reforms to hold employers accountable for wage theft;
- Advance reforms to prevent severe illness, injury, and death on the job; and
- Advance workers' rights in complex, fissured employment arrangements through research and strategic thought leadership.

[Veterans](#)

[FACT SHEET: Veterans Employment Center](#)

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members and spouses are connected to high quality career choices by matching their identified skills with available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden's Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans and transitioning Service Members deserve a single, authoritative source for connecting to each other. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at: <https://www.ebenefits.va.gov/ebenefits/jobs%20%20>
