

Guide to Grants

From the Office of Congresswoman Terri A. Sewell

Proudly Representing Alabama's 7th Congressional District

December 2, 2019

Welcome to the *Guide to Grants!*

I am honored to represent the 7th Congressional District of Alabama. One of the most important responsibilities as your representative is to provide you with information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our local governments, organizations and other entities. This guide will identify federal and foundation grant opportunities to assist you in goals for our communities. This guide will include links to grant writing resources to help you make your proposals more successful. This guide will also describe new funding opportunities for economic development, infrastructure, healthcare and educational projects. In addition, I am pleased to provide a Letter of Support for grant application projects in the 7th Congressional District of Alabama. Please let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit our website at <http://sewell.house.gov>. To subscribe to *Guide to Grants*, sign up on our [website](#) or call us at 205.254.1960. Previous editions of the *Guide to Grants* are archived and can be found [here](#).

CONGRESSWOMAN TERRI A. SEWELL – REPRESENTING ALABAMA'S 7TH DISTRICT

Washington D.C. Office | 2201 Rayburn House Office Building | Washington, D.C. 20515

<https://Sewell.House.Gov> | Phone: (202) 225-2665 | Fax (202) 226-9567

Rep. Sewell Announces Over \$10.5 Million in Federal Grant Funding for Projects in the 7th Congressional District

Washington, D.C. – U.S. Rep. Terri Sewell (AL-07) announced today the U.S. Department of Agriculture (USDA), Health and Human Services (HHS) and U.S. Department of Transportation (DOT) awarded more than \$10.5 million in federal grant funding for infrastructure, health care and education projects throughout Alabama’s 7th Congressional District.

“In order for Alabama’s 7th Congressional District to maintain a strong and vital economy, we must invest in our most valuable asset – our people. Our education system, health care system and infrastructure are vital for individuals and families across our district to live and prosper and, in turn, for our economy to grow and thrive,” **Sewell said**. “I’m thrilled to announce over \$10.5 million in federal grants, which represents a substantial investment in both the people and economy of the 7th District.”

Specifically, Sewell announced grants for the following USDA projects:

A grant of \$1,612,000 and a loan of \$2,073,000 to continue the expansion of the water system in Perry County and provide residents with clean drinking water.

A grant of \$478,962 to help Stillman College implement a distance learning project in partnership with the Alabama State Department of Education.

A grant of \$391,983 to help the University of Alabama at Birmingham (UAB) to implement a telehealth outreach project that is expected to reach 159,000 rural residents. The project will benefit three hospitals.

A grant of \$359,283 for the University of Alabama at Birmingham to implement a telehealth outreach project that is expected to reach 174,831 rural residents. The project will serve four hospitals and the Marion, Pickens, Sumpter and Winston county health departments.

A grant of \$496,451 for Trenholm State Community College to implement a distance learning program to connect six public high schools to the college, serving 21,000 students in primarily rural areas.

Sewell also announced the grants for the following HHS projects:

A grant of \$475,483 for UAB for cancer treatment research.

A grant of \$3,016,871 for Whatley Health Services to continue delivering valuable health care services to medically underserved populations.

A grant to \$2,080,099 for Alabama Regional Medical Services to continue delivering valuable health care services to medically underserved populations.

And a grant for the following DOT project:

A grant of \$2,018,750 to assist the city of Tuscaloosa in the financing of buses and bus facilities capital projects, including replacing, rehabilitating, purchasing or leasing buses or related equipment, and rehabilitating, purchasing, constructing or leasing bus-related facilities.

[Reps. Sewell, McKinley Introduce Legislation to Expand Access to Non-Opioid Medications](#)

Washington, D.C. – U.S. Reps. Terri Sewell (AL-07) and David McKinley (WV-01) introduced the Non-Opioids Prevent Addiction in the Nation (NOPAIN) Act (H.R. 5172) today, legislation to help address barriers to non-opioid pain management for those enrolled in Medicare, thereby helping stem the opioid epidemic across the nation.

Specifically, the bill would address payment disincentives for practitioners to prescribe non-opioid treatment alternatives in surgical settings by requiring CMS to place non-opioid treatments on par with other separately paid drugs and devices in Medicare Part B.

“Non-opioid treatments and therapies can be successful in replacing, delaying or reducing the use of opioids to treat post-surgical pain, and reduce the risk of opioid addiction,” **Rep. Sewell said.** “The NOPAIN Act would reduce disincentives for practitioners to provide patients enrolled in Medicare with non-opioid pain management, giving doctors the ability to prescribe treatments that are best-suited for their patients’ needs.” “Currently, our healthcare payment system is unnecessarily encouraging the use of opioids,” **Rep. McKinley said.** “Our bill would ensure that CMS does not disincentivize the use of innovative non-opioid drugs and devices to treat and manage pain. While pain management for all patients should be handled individually, opioids should not be the first or only option given.”

According to [the Centers for Disease Control and Prevention \(CDC\)](#), opioids are the main driver of drug overdose deaths accounting for 47,600 deaths in 2017 and 130 Americans every day. Additionally, the CDC [estimates](#) that the economic costs associated with prescription opioid misuse exceeds \$78 billion annually. These costs include those associated with health care, lost productivity, addiction treatment and the judicial system.

Research [shows](#) that patients receiving an opioid prescription after short-stay surgeries have a 44% increased risk of opioid use. One 2018 study [showed](#) that 12 percent of patients who had a soft tissue or orthopedic operation in the year prior reported that they had become addicted or dependent on opioids.

“As a nation, we spend hundreds of billions of dollars every year countering the opioid epidemic, including as much as \$214 billion this year,” **said Chris Fox, Executive Director of Voices for Non-opioid Choices.** “We can do better – we can help patients get the care they need while, at the same time, ridding our communities of excess pills that oftentimes lead to misuse and diversion. This legislation will go a long way towards reducing rates of opioid addiction in this country by properly incentivizing the use of non-opioid pain management approaches.”

The NOPAIN Act is available [here](#).

[Rep. Sewell Introduces Legislation to Incentivize Carbon Capture Projects](#)

Washington, D.C. – Today, U.S. Rep. Terri Sewell (AL-07) introduced the Carbon Capture and Sequestration Extension Act (H.R. 5156), legislation that extends the Section 45Q tax credit to incentivize and make more affordable the deployment of carbon capture projects.

“It is critically important that Congress supports innovative approaches to reduce emissions, and carbon capture technology is essential to that fight,” **Sewell said.** “This legislation expands incentives for businesses across a range of industries to invest in state-of-the-art technologies to lower carbon emissions from existing power plants.”

The legislation extends the Section 45Q tax credit for one year, until January 1, 2025. The 45Q tax credit reduces the cost of investing in carbon capture technology across many industries, including electric power generation, ethanol and fertilizer production, natural gas processing, refining, chemical production, and steel and cement manufacturing.

Sewell’s bill was introduced Tuesday as a provision in the House Ways and Means Committee’s Growing Renewable Energy and Efficiency Now (GREEN) Act, a comprehensive approach to tackling climate change by using the tax code to extend and expand renewable energy use and reduce greenhouse gas emissions.

The Carbon Capture and Sequestration Extension Act is available [here](#).

[Rep. Sewell Leads Bipartisan Legislation to Strengthen Ambulance Services](#)

Washington, D.C. – Today, U.S. Reps. Terri Sewell (AL-07), Earl Blumenauer (OR-3), Markwayne Mullin (OK-02), Devin Nunes (CA-22) and Peter Welch (VT-AL) introduced the Medicare Ambulance Access, Fraud Prevention, and Reform Act to strengthen ambulance service providers and help ensure they are able to continue delivering critical first responder and health care services in communities across the country.

“Ambulance services are a vital component of our local and national health care and emergency response systems, especially in rural and underserved areas where they are often the sole provider of emergency medical services in their communities,” **Sewell said.** “The Medicare Ambulance Access, Fraud Prevention, and Reform Act of 2019 will implement critical reforms to help ensure Alabamians have access to lifesaving emergency care, no matter where they live.”

“Emergency first responders are critical to the health and safety of our communities,” **Blumenauer said.** “Rather than continue to put a band-aid on this problem, we must find permanent solutions to our inadequate Medicare payments for ambulance services, especially for vulnerable communities and those in rural areas.”

“Rural ambulance services save lives and provide needed care in underserved areas every day,” **Welch said**. “This bipartisan bill will ensure that patients and rural areas have access to critical ambulance services, and that these services receive fair, consistent reimbursement for their important work. It’s time for Congress to permanently fix this glitch and give ambulance services the certainty they need to continue serving all Americans.”

“Ambulance services are critically important to rural Americans who may live close to an hour away from the nearest emergency room,” **Mullin said**. “Providing this care literally means the difference between life and death for many people. As we continue to battle the closures of critical access hospitals across Oklahoma, ambulance services are more important now than ever before. We must ensure that rural Americans receive the care they need. I’m proud to join my colleagues in support of this bill which would enhance and increase resources for first responders in Oklahoma.”

Although ambulance providers provide critical emergency services to communities across the country, the Government Accountability Office has found that they are reimbursed below cost by Medicare, which has hampered the ability of ambulance service providers to hire new staff, update equipment, and provide life-saving around the-clock services in their communities, especially those in economically distressed areas. Without frequent add-on payments authorized by Congress, these providers must often operate at a loss.

Included in the legislation are provisions to permanently increase the rate at which ambulance providers are reimbursed by Medicaid, allow ambulance services that serve low population areas to continue to receive additional rural Medicare funding and eliminate burdensome, duplicative paperwork requirements.

"The Medicare Ambulance Access, Fraud Prevention and Reform Act of 2019 would give organizations that provide vital emergency 9-1-1 and non-emergency ambulance services greater certainty as to the future of desperately-needed Medicare funding relief as identified by the Government Accountability Office. Most importantly, it would help ensure continued access by Medicare beneficiaries and all Americans in urban and, in particular, rural and extremely rural, areas to medical first response and mobile health care,” **said American Ambulance Association President Aarron Reinert**. “The American Ambulance Association greatly appreciates the leadership and hopeful outlook of Congresswoman Sewell and Congressman Nunes as well as Congressmen Welch, Blumenauer, and Mullin in addressing this critical issue.”

The Medicare Ambulance Access, Fraud Prevention, and Reform Act of 2019 is available [here](#).

Section I GENERAL GRANT INFORMATION

- Grants and Federal Domestic Assistance - Guidance and key resources to help eligible constituents find information on federal grants, loans, and nonfinancial assistance for projects, as well as on private funding. Prepared by the Congressional Research Service for Members of Congress, updated May 2014. Website: <http://sewell.house.gov/grant-information/>
- A federal grant is an award of financial assistance from a federal agency to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States. Federal grants are not federal assistance or loans to individuals. A federal grant may not be used to acquire property or services for the federal government's direct benefit. The 26 federal agencies offer over 1,000 grant programs annually in various categories. Website: <http://www07.grants.gov/aboutgrants/grants.jsp>
- To learn about Federal grant opportunities, register your organization and receive notices, please visit www.grants.gov. It is the resource for all Federal grants.
- To apply for Federal Grants: http://www.grants.gov/applicants/apply_for_grants.jsp
- [Grants.gov](#) Applicant Training Video - Need a quick lesson on how to Register, Find and Apply? Watch this short video to get tips on registering with Grants.gov; finding grant opportunities; understanding your search results; and, applying for opportunities.
- To learn about foundation grant opportunities, please visit <http://foundationcenter.org/>. The Foundation Center is a gateway to information about private funding sources and provides guidelines about how to write a grant proposal. It also provides links to state libraries with grants reference collections, and links to other useful Internet websites.

Section II PROGRAM FUNDING THROUGH FEDERAL AGENCIES

Corporation for National and Community Service

[AmeriCorps State and National Grants FY 2020 – CFDA 94.006](#)

AmeriCorps grants are awarded to eligible organizations proposing to engage AmeriCorps members in evidence-based or evidence-informed interventions to strengthen communities. An AmeriCorps member is an individual who engages in community service through an approved national service position. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members earn a Segal AmeriCorps Education Award from the National Service Trust that members can use to pay for higher education expenses or apply to qualified student loans.

Deadline: January 8, 2020

Environmental Protection Agency

[Research on PFAS Impacts in Rural Communities and Agricultural Operation-CFDA 66.511](#)

The U.S. Environmental Protection Agency is seeking applications to better understand the potential impacts of per- and poly-fluoroalkyl substances (PFAS) on water quality and availability in rural communities and agricultural operations across the United States. The Agency is seeking new information on PFAS occurrence, fate, and transport in water sources used by rural communities and agricultural operations, and new or improved PFAS treatment methods appropriate for small drinking water and wastewater systems including influents, effluents, and biosolids/residuals.

Deadline: February 11, 2020

[Targeted Airshed Grant Program Environmental Protection Agency-CFDA 66.956](#)

This notice announces the availability of funds and solicits applications from eligible entities to compete for financial assistance through the Targeted Airshed Grant Program. This program will assist local, state, and/or tribal air pollution control agencies to develop plans and conduct projects to reduce air pollution in nonattainment areas that EPA determines are the top five most polluted areas relative to ozone (O₃), annual average fine particulate matter (PM_{2.5}), or 24-hour PM_{2.5} National Ambient Air Quality Standards (NAAQS). The overall goal of the Targeted Airshed Grant Program is to reduce air pollution in the nation's areas with the highest levels of ozone and PM_{2.5} ambient air concentrations.

Deadline: February 14, 2020

Institute of Museum and Library Services

[Laura Bush 21st Century Librarian Program – CFDA 45.313](#)

The Laura Bush 21st Century Librarian Program (LB21) supports developing a diverse workforce of librarians to better meet the changing learning and information needs of the American public by: enhancing the training and professional development of library and archives professionals, developing faculty and library leaders, and recruiting, educating, and retaining the next generation of library and archives professionals.

Deadline: March 30, 2020

[National Leadership Grants for Libraries – CFDA 45.312](#)

The National Leadership Grants for Libraries Program (NLG-L) supports projects that enhance the quality of library and archival services nationwide by advancing theory and practice

Deadline: March 30, 2020

National Aeronautics and Space Administration

National Archives and Records Administration

[Access to Historical Records: Major Initiatives – \(CFDA 89.003\)](#)

The National Historical Publications and Records Commission seeks projects that will significantly improve public discovery and use of major historical records collections. The Commission is especially interested in collections of America's early legal records, such as the records of colonial, territorial, county, and early statehood and tribal proceedings that document the evolution of the nation's legal history. All types of historical records are eligible, including documents, photographs, born-digital records, and analog audio and moving images. Projects may:

- Digitize historical records collections, or related collections, held by a single institution and make them freely available online
- Provide access to born-digital records
- Create new freely-available virtual collections drawn from historical records held by multiple institutions
- Create new tools and methods for users to access records

The NHPRC welcomes collaborative projects, particularly for bringing together related records from multiple institutions. Projects that address significant needs in the field and result in replicable and scalable approaches will be more competitive. We also encourage organizations to actively engage the public in the work of the project. Applicants should also consult Access to Historical Records: Archival Projects program, which has different requirements and award amounts. For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund" (<http://www.archives.gov/nhprc/apply/eligibility.html>). Applications that consist entirely of ineligible activities will not be considered. Award Information A grant is for one to three years and for between \$100,000 and \$350,000. We expect to make up to five grants in this category for a total of up to \$1,000,000. Grants begin no earlier than January 1, 2021. The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications and other products that result from its support. Eligibility

Eligible applicants:

- Nonprofit organizations or institutions
- Colleges, universities, and other academic institutions
- State or local government agencies
- Federally-acknowledged or state-recognized Native American tribes or groups

Cost Sharing The total costs of a project are shared between the NHPRC and the applicant organization. The Commission provides no more than 50 per cent of total project costs in the Access to Historical Records: Major Initiatives category. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost sharing contribution. Other Requirements Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF. A complete preliminary application includes the Application for Federal Assistance (Standard Form 424), a Project Narrative, and Budget. Applications lacking these items will not be considered. Ineligible applications will not be reviewed.

Deadline: July 9, 2020

National Endowment for the Arts

[NEA Literature Fellowships: Translation Projects, FY2021 – CFDA 45.024](#)

An individual may submit only one application for FY 2021 funding. You may not apply for both a Translation Project under this deadline (January 15, 2020) and a Literature Fellowship (in prose or poetry) under the 2020 deadline (when fellowships in poetry are offered). The Arts Endowment's support of a project may begin any time between January 1, 2021, and January 1, 2022, and extend for up to two years. Grant Program Description Through fellowships to published translators, the National Endowment for the Arts (NEA) supports projects for the translation of specific works of prose, poetry, or drama from other languages into English. We encourage translations of writers and of work that are not well represented in English translation. All proposed projects must be for creative translations of literary material into English. The work to be translated should be of interest for its literary excellence and value. Priority will be given to projects that involve work that has not previously been translated into English

Deadline: January 15, 2020

National Endowment for the Humanities

[Sustaining Cultural Collections-CFDA 45.149](#)

The National Endowment for the Humanities (NEH) Division of Preservation and Access is accepting applications for the Sustaining Cultural Heritage Collections program. The purpose of this program is to help cultural institutions meet the complex challenge of preserving large and diverse holdings of humanities materials for future generations by supporting sustainable conservation measures that mitigate deterioration, prolong the useful life of collections, and support institutional resilience: the ability to anticipate and respond to disasters resulting from natural or human activity.

Deadline: January 30, 2020

National Science Foundation

[National Robotics Initiative 2.0: Ubiquitous Collaborative Robots – \(CFDA 10.310, 12.800, 43.001, 47.041, 47.070, 47.075, 47.076, 81.049, 81.104\)](#)

The NRI-2.0 program builds upon the original National Robotics Initiative (NRI) program to support fundamental research in the United States that will accelerate the development and use of collaborative robots (co-robots) that work beside or cooperatively with people. The focus of the NRI-2.0 program is on ubiquity, which in this context means seamless integration of co-robots to assist humans in every aspect of life. The program supports four main research thrusts that are envisioned to advance the goal of ubiquitous co-robots: scalability, customizability, lowering barriers to entry, and societal impact. Topics addressing scalability include how robots can collaborate effectively with multiple humans or other robots; how robots can perceive, plan, act, and learn in uncertain, real-world environments, especially in a distributed fashion; and how to facilitate large-scale, safe, robust and reliable operation of robots in complex environments. Customizability includes how to enable co-robots to adapt to specific tasks, environments, or people, with minimal modification to hardware and software; how robots can personalize their interactions with people; and how robots can communicate naturally with humans, both verbally and non-verbally. Topics in lowering barriers to entry should focus on lowering the barriers for conducting

fundamental robotics research and research on integrated robotics application. This may include development of open-source co-robot hardware and software, as well as widely-accessible testbeds. Outreach or using robots in educational programs do not, by themselves, lower the barriers to entry for robotics research. Topics in societal impact include fundamental research to establish and infuse robotics into educational curricula, advance the robotics workforce through education pathways, and explore the social, economic, ethical, and legal implications of our future with ubiquitous collaborative robots. Collaboration between academic, industry, non-profit, and other organizations is encouraged to establish better linkages between fundamental science and engineering and technology development, deployment, and use. The NRI-2.0 program is supported by multiple agencies of the federal government including the National Science Foundation (NSF), the U.S. Department of Agriculture (USDA), the U.S. Department of Energy (DOE), the National Aeronautics and Space Administration (NASA), and the U.S. Department of Defense (DOD). Questions concerning a particular project's focus, direction and relevance to a participating funding organization should be addressed to that agency's point of contact, listed in section VIII of this solicitation.

Deadline: January 22, 2020

[Research Opportunities in High Energy Physics–CFDA 81.049](#)

The DOE SC program in High Energy Physics (HEP) hereby invites new and renewal grant applications for support of research programs in high-energy physics. The mission of the HEP program is to understand how the universe works at its most fundamental level, which is done by discovering the elementary constituents of matter and energy, probing the interactions between them, and exploring the basic nature of space and time.

The scientific objectives and priorities for the field recommended by the High Energy Physics Advisory Panel (HEPAP) are detailed in its recent long-range strategic Particle Physics Project Prioritization Plan (P5), available at: https://science.osti.gov/~media/hep/hepap/pdf/May-2014/FINAL_P5_Report_Interactive_060214.pdf. The HEP program focuses on three (3) experimental scientific frontiers: The Energy Frontier - where powerful accelerators are used to create new particles, reveal their interactions, and investigate fundamental forces;

The Intensity Frontier - where intense particle beams and highly sensitive detectors are used to pursue alternate pathways to investigate fundamental forces and particle interactions by studying events that occur rarely in nature, and to provide precision measurements of these phenomena; and

The Cosmic Frontier - where non-accelerator-based experiments observe the cosmos and detect cosmic particles, making measurements of natural phenomena that can provide information about the nature of dark matter, dark energy, and other fundamental properties of the universe that impact our understanding of matter and energy.

Together, these three interrelated and complementary discovery frontiers offer the opportunity to answer some of the most basic questions about the world around us. Also integral to the mission of HEP are three crosscutting research areas that enable new scientific opportunities by developing the necessary tools and methods for discoveries: Theoretical High Energy Physics, where the vision and mathematical framework for understanding and extending the knowledge of particles, forces, space-time, and the universe are developed; Accelerator Science and Technology Research and Development, where the technologies and basic science needed to design, build, and operate the accelerator facilities essential for making new discoveries are developed; and Detector Research and Development, where the basic science and technologies needed to design and build the High Energy Physics detectors essential for making new discoveries are developed.

Deadline: January 23, 2020

[Accelerating Research through International Network-to-Network Collaborations – \(CFDA 47.041, 47.049, 47.050, 47.070, 47.074, 47.075, 47.076, 47.079, 47.083\)](#)

The goals of the Accelerating Research through International Network-to-Network Collaborations (AccelNet) program are to accelerate the process of scientific discovery and prepare the next generation of U.S. researchers for multiteam international collaborations. The AccelNet program supports strategic linkages among U.S. research networks and complementary networks abroad that will leverage research and educational resources to tackle grand scientific challenges that require significant coordinated international efforts. The program seeks to foster high-impact science and engineering by providing opportunities to create new collaborations and new combinations of resources and ideas among linked global networks. This solicitation invites proposals for the creation of international networks of networks in research areas aligned either with one of the NSF Big Ideas or a community-identified scientific challenge with international dimensions. AccelNet awards are meant to support the connections among research networks, rather than supporting fundamental research as the primary activity. Each network of networks is expected to engage in innovative collaborative activities that promote synergy of efforts across the networks and provide professional development for students, postdoctoral scholars, and early-career researchers. There are two proposal categories covered by this solicitation: Catalytic and Full-Scale Implementation.

Deadline: January 31, 2020

[Building Capacity in STEM Education Research- CFDA 47.076](#)

ECR's Building Capacity for STEM Education Research (ECR: BCSER) solicitation supports projects that build individuals' capacity to carry out high quality STEM education research that will enhance the nation's STEM education enterprise and broaden the pool of researchers that can conduct fundamental research in STEM learning and learning environments, broadening participation in STEM fields, and STEM workforce development. Specifically, ECR: BCSER supports activities that enable early and mid-career researchers to acquire the requisite expertise and skills to conduct rigorous fundamental research in STEM education. ECR: BCSER seeks to fund research career development activities on topics that are relevant to qualitative and quantitative research methods and design, including the collection and analysis of new qualitative or quantitative data, secondary analyses using extant datasets, or meta-analyses. This career development may be accomplished through investigator-initiated projects or through professional development institutes that enable researchers to integrate methodological strategies with theoretical and practical substantive issues in STEM education. Early and mid-career faculty new to STEM education research, particularly underrepresented minority faculty and faculty at minority-serving and two-year institutions are encouraged to submit proposals. ECR: BCSER especially welcomes proposals that pair well with the efforts of NSF INCLUDES (https://www.nsf.gov/news/special_reports/nsfincludes/index.jsp) to develop STEM talent from all sectors and groups in our society. Proposers are encouraged to identify topics that support the thrust of NSF INCLUDES projects.

Deadline: February 28, 2020

[Innovation Corps - National Innovation Network Teams Program \(I-Corps™ Teams\) – \(CFDA 47.041, 47.049, 47.050, 47.070, 47.074, 47.075, 47.076, 47.079, 47.083\)](#)

The National Science Foundation (NSF) seeks to develop and nurture a national innovation ecosystem that builds upon fundamental research to guide the output to facilitate the application of scientific discoveries closer to the development of technologies, products and processes that benefit society. In order to maintain, strengthen and grow a national innovation ecosystem, NSF has established the Innovation Corps - National Innovation Network Teams Program (I-Corps Teams). The NSF I-Corps Teams Program purpose is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate innovation that can attract subsequent third-party funding. The purpose of the I-Corps Teams program is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate the translation of knowledge derived from fundamental research into emerging products and services that can attract subsequent third-party funding. The outcomes of I-Corps Teams projects will be threefold: 1) a clear go/no go decision based on an assessment of the viability of the overall business model, 2) substantial first-hand evidence for or against product-market fit, with a pithy definition of the customer segments and corresponding value propositions, and 3) a narrative of a compelling technology demonstration for potential partners. WEBINAR: A webinar will be held monthly to answer questions about this program. Details will be posted on the I-Corps website (see http://www.nsf.gov/news/special_reports/i-corps/program.jsp) as they become available.

Deadline: Proposals accepted at anytime

[Cyberinfrastructure for Emerging Science and Engineering Research – \(CFDA 41.070\)](#)

The Cyberinfrastructure for Emerging Science and Engineering Research (CESER) program aims to catalyze new science and engineering discovery pathways through early-stage collaborative activities between disciplinary scientists and engineers as well as developers/implementers of innovative cyberinfrastructure (CI) capabilities, services, and approaches. Beginning in FY 2017, the CESER program replaced the Strategic Technologies for Cyberinfrastructure (STCI) program. CESER has retained STCI's focus on supporting innovation across the CI ecosystem with increased emphasis on addressing and enabling emerging areas of potentially transformative research, including NSF priority areas, national strategic directions, and international collaborative research. CESER accepts proposals pursuant to this Program Description year-round. From time to time, NSF may also issue Dear Colleague Letters pursuant to CESER to signal special thematic interests and opportunities. CESER employs existing NSF funding mechanisms to accomplish the program's goals such as Early-concept Grants for Exploratory Research (EAGER) and Conference proposals. GUIDANCE TO POTENTIAL PROPOSERS Science/engineering-driven collaboration. A central feature of successful CESER projects is a strong, mutually-dependent collaborative team comprising expertise in the target science/engineering discipline(s) as well as expertise in CI development and implementation. Such a collaborative approach is critical to informing and guiding the development of requirements towards the eventual development and deployment of user-centric innovative CI that fosters new pathways to discovery. Proposals pursuant to CESER should clearly identify and describe the science and engineering goals and rationale, and explain and support the potential for transformative impacts on science/engineering research and broader impacts. Proposals for technical efforts that are not well-tied to identified science and engineering research challenges as well as utilization scenarios are unlikely to be

supported. Exploratory and pilot activities. CESER supports early-stage exploratory efforts that may comprise analysis, community planning, and pilot-level activities that are preparatory or informative for eventual future development and deployment of science/engineering-driven CI. Proposals for full-scale technical efforts leading to development/deployment should be directed to other appropriate NSF programs. Integrative and accelerative approaches. Proposals are particularly welcomed that address identified common needs across multiple research disciplines; leverage and accelerate the impact of existing CI investments in resources and services in one or more application domains; aim to reduce barriers to broader adoption of CI-enabled science/engineering approaches; and integrate different aspects and elements of CI to achieve holistic solutions with transformative science/engineering impact. Requirement to contact NSF Cognizant Program Officers. CESER is an inherently collaborative science/engineering-CI program. Successful CESER projects typically involve co-funding from the relevant disciplinary research programs within NSF. Consequently, before submitting a proposal to CESER, proposers must first (1) discuss their ideas with a cognizant CESER Program Officer to ensure that CESER is the appropriate venue for the proposal and (2) discuss their ideas with the relevant NSF disciplinary science and engineering research program(s) to ensure there is adequate disciplinary interest in the proposed effort. Proposals that have been declined by CESER or any other NSF program may not be resubmitted to CESER without substantial revision. Proposals violating this restriction may be returned without review

Deadline: Proposals accepted anytime

[High-Risk Research in Biological Anthropology and Archaeology – \(CFDA 47.075\)](#)

Anthropological research may be conducted under unusual circumstances, often in distant locations. As a result, the ability to conduct potentially important research may hinge on factors that are impossible to assess from a distance and some projects with potentially great payoffs may face difficulties in securing funding. This program gives small awards that provide investigators with the opportunity to assess the feasibility of an anthropological research project. It is required that the proposed activity be clearly high risk in nature. The information gathered may then be used as the basis for preparing a more fully developed research program. Investigators must contact the cognizant NSF Program Director before submitting an HRRBAA proposal. This will facilitate determining whether the proposed work is appropriate for HRRBAA support.

Deadline: Proposals accepted anytime

[Broadening Participation in Engineering – \(CFDA 47.041\)](#)

NSF seeks to strengthen the future U.S. Engineering workforce by enabling the participation of all citizens through the support of research in the science of Broadening Participation in Engineering (BPE). The BPE program is a dedicated to supporting the development of a diverse and well-prepared engineering workforce. BPE focuses on enhancing the diversity and inclusion of all underrepresented populations in engineering, including gender identity and expression, race and ethnicity (African Americans/Blacks, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders), disability, LGBTQ+, first generation college and socio-economic status. BPE funds research to Understand and analyze the systemic barriers that prevent underrepresented groups from pursuing and succeeding in engineering, for example, understand the problem of insufficient interest and poorly sustained participation in engineering across underrepresented demographic groups; insignificant preparation and scarce opportunities for members of underrepresented groups to learn meaningful, relevant engineering content. Understand and analyze factors that enhance our ability to increase access to engineering by creating support systems and social networks that raise career awareness about different engineering pathways. Develop innovative methods and projects to significantly impact the recruitment

and retention of engineering students from underrepresented groups. Activities must be supported by relevant data and have the capability to produce a model that can be replicated in other contexts. Develop innovative methods and projects to aggressively recruit and retain tenure track faculty from underrepresented groups. Design and transform culture to make diversity, equity, and inclusion a priority in the engineering enterprise. BPE research activities will provide scientific evidence that engineering educators, employers, and policy makers need to make informed decisions to design effective programs that broaden the participation of persons from historically underrepresented groups in the engineering workforce. BPE is interested in funding research that spans K-12 to workforce and offers the greatest return on investment. BPE funded research should produce outcomes that are scalable, sustainable, and applicable to various contexts, settings, and demographics within the engineering enterprise. BPE is particularly interested in research that employs intersectional approaches in recognition that gender, race and ethnicity do not exist in isolation from each other and from other categories of social identity. BPE is equally interested in research activities that align with and provide meaningful connections to the NSF INCLUDES National Network. The overarching goal of NSF INCLUDES is to achieve significant impact at scale in transforming STEM education and workforce development by educating a diverse, STEM-capable workforce that includes talented individuals from all sectors of the Nation's population. Collaborations are encouraged between BPE proposals and existing NSF INCLUDES projects, for example, the NSF INCLUDES Alliances and Coordination Hub, provided these collaborations strengthen both the BPE and NSF INCLUDES projects. Before submitting a proposal to the BPE program, prospective Principal Investigators are strongly encouraged to speak to the program director to obtain guidance as to whether the proposed ideas are aligned with the strategic goals of the BPE program. Proposal Elements All BPE proposals should be informed by the current theoretical and scientific literature as well as add to the extant knowledge base. Directly address how the work will broaden the participation of one or more underrepresented populations in engineering. Provide appropriate justification to support selection of the targeted group(s), with specific and applicable objectives, and demonstrate applicable knowledge of the relevant literature on underrepresentation. Integrate a mechanism to assess and evaluate how well the project has achieved the stated objectives as part of the project management plan. Provide evidence of clear, measurable outcomes and consideration of how the strategy will advance knowledge beyond localized contexts. Incorporate a dissemination plan that goes beyond publishing research papers and presenting at conferences. PIs should think creatively about who needs to hear about the research for it to have an impact, and develop a strategy to reach that audience. Describe how the outcomes have the potential to enhance diversity and inclusion of underrepresented populations in engineering. The Project Summary must contain a list of 3-5 keywords. Place the keywords on a separate line at the end of the Overview section of the Project Summary.

Deadline: Proposals accepted anytime

[Critical Aspects of Sustainability – CFDA 47.041, 47.049, 47.050](#)

Economic development and human progress have led to a proliferation of manufactured chemicals and materials made from limited resources found in nature (i.e., minerals and metals, petroleum-based products and natural gas). Long-term sustainability requires consideration of the availability of specific natural resources, energy, and water usage. NSF continues to support efforts that seek to improve the efficiency with which natural resources are used to meet human needs for products and services. Sustainability research encompasses the design, manufacture and use of efficient, effective, safe and more environmentally-benign products and processes; stimulates innovation across all sectors to design and discover new chemicals and materials, production processes, and product stewardship practices; and, increases performance and value while meeting the goals of protecting and enhancing human health and the environment. This program seeks to support basic research through core disciplinary

programs aimed at improving the sustainability of resources for future generations while maintaining or improving current products in order to offer technologically-advanced, economically competitive, environmentally-benign and useful materials to a global society. In order to address these challenges, the program aims to identify opportunities for innovation in a wide range of contributing disciplines as well as integrative activities. This program encourages the development of new experimental and theoretical/modeling approaches that will aid in both reductionist and whole-systems approaches. This program welcomes proposals in any area of research supported through the participating divisions that address the topics outlined below. The selected topics are of particular interest to core disciplinary programs in the participating divisions and do not include all funding opportunities and priorities in the area or sustainability at NSF. Proposals are submitted to the relevant core Programs indicated below in the participating Divisions, and all questions regarding proposals should be addressed by the cognizant Program Officers to which submission is contemplated. Proposals should be submitted with the "CAS:" prefix in the title. The Division of Chemistry (CHE/MPS) welcomes proposals to its Disciplinary Research Programs, including Chemical Catalysis (CAT), Chemical Measurement and Imaging (CMI), Chemical Structure, Dynamics and Mechanisms-A (CSDM-A), Chemical Structure Dynamics and Mechanisms-B (CSDM-B), Chemical Synthesis (SYN), Chemical Theory, Models and Computational Methods (CTMC), Chemistry of Life Processes (CLP), Environmental Chemical Sciences (ECS), and Macromolecular, Supramolecular and Nanochemistry (MSN). All proposals must be on chemical aspects of sustainability. The design, preparation and reactivity studies associated with new catalysts and catalytic processes that employ earth-abundant and benign elements and raw materials; advanced catalytic methods for the reduction of dinitrogen to ammonia and water splitting are also invited; Grant Opportunities for Academic Liaison with Industry (GOALI) proposals, where such advances are connected directly to industrial considerations, are also encouraged. Understanding the molecular mechanisms of the two-way communication between the environment and living systems as well as between organisms situated in changing environments; design and test methods that could confer resilience and/or could foster adaptability of living systems subject to changing environments. Innovative measurement and imaging approaches that can improve the efficiency of manufacturing processes, including advances in separation science targeting reduced energy consumption or generation of less waste. Fundamental studies related to sustainable energy such as chromophores based on earth abundant elements, advanced electrolytes for battery, water splitting, and carbon dioxide conversions. Understanding the environmental chemical degradation of contaminants, including emerging contaminants. Transformative approaches to efficient and inexpensive synthesis of polymers or nanostructures using renewable feedstocks or earth abundant elements; and innovative research that enhances the understanding of efficient use and recycling of polymers and critical elements or the conversion of energy from renewable sources. The development of new synthetic methods using earth-abundant and inexpensive chemicals, fundamental studies that improve our understanding of rare earth elements; the conversion of non-petroleum-based resources into useful building blocks; and new environmentally-friendly chemical syntheses that improve on current practice by requiring less energy, fresh water, reagents, and/or organic solvents. Other CHE programs also welcome proposals on this general topic, as long as the proposals fit the scope of the program. All questions regarding proposals to CHE should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see CHE Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CHE>). The Division of Materials Research (DMR/MPS) welcomes proposals to its Topical Materials Research Programs, including Biomaterials (BMAT), Ceramics (CER), Condensed Matter and Materials Theory (CMMT), Condensed Matter Physics (CMP), Electronic and Photonic Materials (EPM), Metals and Metallic Nanostructures (MMN), Polymers (POL), and Solid State and Materials Chemistry (SSMC). All proposals must be on materials aspects of sustainability and focused on fundamental materials-research approaches. CER, CMMT, EPM, MMN, and SSMC will consider proposals on

all materials aspects of sustainability. BMAT encourages proposals that take advantage of synthetic biology or other innovative and sustainable approaches (e.g., renewable, recyclable, environmentally benign). CMP encourages proposals on replacing rare-earth elements in magnetic materials with more abundant and accessible elements; also proposals exploring materials alternatives to oxides for nuclear reactor fuel, aiming at improved stability and properties (e.g., thermal conductivity) and decreased environmental impact. POL welcomes proposals that address plastics waste accumulation through innovative materials approaches and environmentally benign polymeric materials having properties exceeding those of current commercial plastics. All proposals must be submitted through one of the active solicitations of the DMR Topical Materials Research Programs (currently NSF 17-580, 18-500, and 19-515) and must follow the deadlines, instructions, and limitations of these solicitations. Proposals that are not in accordance with these guidelines or that fall outside the scope of DMR and its Topical Materials Research Programs will be returned without review. All questions regarding proposals to DMR should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see DMR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=DMR>). The Chemical, Bioengineering, Environmental and Transport Systems Division (CBET/ENG) has several core programs that review proposals on research topics related to sustainability, including Molecular Separations (MolS), Biosensing, Environmental Sustainability (EnvS), Biological and Environmental Interactions of Nanoscale Materials (BioNano), Combustion and Fire Systems (CFS), and Particulate and Multiphase Processes (PMP). Within these programs, as noted, the following topics are of particular interest: Understanding the fundamental combustion properties of sustainable aviation fuels under engine relevant conditions. (CFS) Fundamental studies leading to effective methods of processing multiphase fluid systems that minimize waste, avoid contamination, enhance purity, or lead to novel materials that benefit efficient energy utilization. (PMP) The development of innovative separation mechanisms, mass separating agents, or engineering processes that aim to substantially reduce energy and/or material consumption in the chemical process industries. (MolS) Fundamental mechanistic investigations for the development, sustainable production and use of nanomaterials, nanoparticles, nanodevices and nanosystems. (BioNano) Biosensing systems with inherent capabilities of artificial intelligence, machine learning, and decision making for applications in real time monitoring of environmental and living systems and in evaluating environmentally benign chemicals and materials. (Biosensing) Industrial Ecology: Topics of interest in Industrial Ecology include advancements in modeling such as life cycle assessment, materials flow analysis, input/output economic models, and novel metrics for measuring sustainable systems. Innovations in industrial ecology are encouraged. (EnvS) Green Engineering: Research is encouraged to advance the sustainability of manufacturing processes, green buildings, and infrastructure. Improvements in distribution and collection systems that will advance smart growth strategies and ameliorate effects of growth are supported. Innovations in management of storm water, recycling and reuse of drinking water, and other green engineering techniques to support sustainability may also be fruitful areas for research. (EnvS) Ecological Engineering: Topics should focus on the engineering aspects of restoring ecological function to natural systems. Engineering research in the enhancement of natural capital to foster sustainable development is encouraged. (EnvS) Earth Systems Engineering: Earth systems engineering considers aspects of large scale engineering research that involve mitigation of greenhouse gas emissions, adaptation to climate change, and other global scale concerns. (EnvS) All questions regarding proposals to CBET should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CBET Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CBET>). For the Division of Civil, Mechanical and Manufacturing Innovation (CMMI/ENG), proposals addressing sustainable materials processing are welcome. Of interest are manufacturing processes with reduced use of toxic components, such as solvents, carbon emissions, and pollutants; processes under ambient conditions, as opposed to extreme temperatures, pressures or other harsh

conditions; and increased conservation of natural resources, such as water, raw material, and energy. Proposals to CMMI must be submitted to the Advanced Manufacturing (AM) Program and align with the scope of the program. All questions regarding proposals to CMMI should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CMMI Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CMMI>). The Division of Earth Sciences (EAR/GEO) welcomes fundamental and transformational geosciences projects addressing the distribution of Critical Minerals and Materials in the Earth. The following programs in the division support research on this topic: Petrology and Geochemistry (CH), Geobiology and Low-Temperature Geochemistry (GG), and Frontier Research in Earth Sciences (FRES). Topics of particular interest include fundamental studies of the geochemistry of Critical Earth Minerals and Materials (CMM), such as: Identifying new sources of critical minerals on the Earth's surface; Constraining their pathways in the natural environment involving concentration by Earth and geobiological processes; and Developing methods for sustainable exploration of these CMMs. Studies can be based on laboratory, field, or modeling efforts, and should have a strong emphasis on training the next generation of geoscientists and educating the public on the importance of CMM. Proposals must be submitted through one of the active solicitations of the three programs and must follow the deadlines and guidelines of these solicitations. All questions regarding proposals to EAR should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see EAR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=EAR>).

Deadline: Proposals accepted anytime

Small Business Administration

[Program for Investment in Microentrepreneurs \(PRIME\) – CFDA 59.050](#)

SBA intends to award a discretionary grant to the National Association of Government Guaranteed Lenders (NAGGL) for the purpose of providing SBA 7(a) training to non profit lenders participating in the SBA Community Advantage Pilot Loan Program (CA). NAGGL has extensive experience with providing training to lenders on SBA's 7(a) loan product in the areas of loan origination, loan servicing and loan liquidation. This discretionary grant will serve as a proof of concept to explore the success of regional training to mission lenders participating in CA. These training needs have been identified by SBA's Office of Credit Risk Management to increase the performance level of lenders participating in the CA program. SBA will work closely with NAGGL in shaping the project as it is implemented and will draw lessons learned from its implementation and use that insight and experience in deciding whether or not to continue the initiative in a permanent form, which we would then do via the standard competitive process for awarding grants.

Deadline: FY 2019

U.S. Department of Agriculture

[Distance Education Grants Program for Institutions of Higher Education in Insular Areas \(DEG\) – CFDA 10.322](#)

The purpose of this program is strengthen the capacity of Institutions of Higher Education in Insular Areas to carry out resident instruction, curriculum, and teaching programs in the food and agricultural sciences through distance education technology. The Distance Education Grants Program for Institutions of Higher Education in

Insular Areas (DEG) is a NIFA-administered competitive grants program focused on improving formal, postsecondary agricultural sciences education.

Deadline: January 23, 2020

U.S. Department of Commerce

U.S. Department of Defense

[FY19 Funding Opportunity Announcement \(FOA\) for the Office of Naval Research \(ONR\) Navy ROTC Cybersecurity Training Program](#)

The ONR seeks a broad range of applications for augmenting existing or developing innovative solutions that directly maintain, or cultivate a diverse, world-class STEM workforce in order to maintain the U.S. Navy and Marine Corps' technological superiority. The goal of any proposed effort must provide solutions that will grow a capable and trained workforce with the skills to defend against emergent cyber and electronic warfare threats.

Funding efforts will be targeted primarily toward projects addressing the technical skills taught to university students enrolled in ROTC programs; these ROTC programs are not restricted to any particular Service. While this effort is targeted primarily toward students enrolled in ROTC programs it can also include civilian students.

Project scope may range in size and complexity. Projects are especially encouraged to consider the following areas:

- Expand the technical skills taught to university students, especially those enrolled in ROTC programs
- Grow the participant's cyber and electronic warfare skills
- Develop the research capacity of participants
 - Funds will be earned by participants who will perform research under the guidance of a graduate student mentor and a professor principal investigator (PI).
 - The plan is to pay participants \$18 per hour for a maximum of 15 hours per week.
- Establish meetings of stakeholders that must seek to connect relevant people and organizations to explicitly develop broader projects for affecting entire communities.

See complete notice for additional information.

Deadline: July 3, 2020

[Procurement Technical Assistance Program – CFDA 12.002](#)

Competitive Base period plus four 1-year option periods for entities who operate Procurement Technical Assistance Centers to provide procurement technical assistance to US businesses.

Deadline: August 15, 2020

[Department of Defense Research and Education Program for Historically Black Colleges and Universities and Minority-Serving Institutions \(HBCU/MSI\) – \(CFDA 12.630\)](#)

The CCDC ARL invites applications/proposals from covered educational institutions for research and education programs that will meet the following objectives: a. Enhance research and engineering capabilities in areas

important to national defense; b. Increase the number of graduates in STEM disciplines; and c. Encourage research and education collaborations with other institutions of higher education and with defense organizations. Support for research, development, testing, evaluation, or educational enhancements will be through the competitive awarding of grants or cooperative agreements.

Deadline: April 30, 2024

U.S. Department of Education

U.S. Department of Energy

[Carbon Storage Assurance Facility Enterprise \(CarbonSAFE\): Site Characterization and CO2 Capture Assessment – CFDA 81.089](#)

The overall objective of this Funding Opportunity Announcement is to accelerate wide-scale deployment of Carbon Capture, Utilization and Storage (CCUS) through assessing and verifying safe and cost-effective anthropogenic CO2 commercial-scale storage sites, and carbon capture and/or purification technologies

Deadline: January 15, 2020

U.S. Department of Health and Human Services

[The National Healthy Brain Initiative – CFDA 93.334](#)

This NOFO is being competed to fund (Part A) an organization with national scope and reach within states to assist in the implementation and evaluation of the Healthy Brain Initiative's (HBI) State and Local Public Health Partnerships to Address Dementia, The 2018-2023 Road Map, the 3rd in a series, and its companion, The Indian Country Road Map. Planned activities include creating informational resources and materials for the public, engaging state and local partners to adopt Road Map action items, developing training materials for current and future professionals about Alzheimer's Disease and Related Dementias (ADRD), and disseminating effective messages related to brain health. Furthermore, it is expected that the Part A organization will develop the 4th State and Local Public Health Road Map plus several focused road maps in areas such as Indian Country, language-specific, etc., to be determined with input from CDC. In addition, CDC will fund (Part B) one or more organizations that support populations with a high burden of ADRD to develop products to communicate relevant messages to these populations and assist in the implementation of the Part A activities. NOFO activities are expected to promote brain health, address cognitive impairment including ADRD, and support the needs of caregivers (unpaid persons providing care or assistance to someone with ADRD). NOFO applicants may apply for Part A and/or Part B. If applying for both, separate applications are required

Deadline: December 16, 2019

[Replicating Programs Proven Effective at Preventing Teen Pregnancy – CFDA 93.297](#)

FY2020 funding is available to support new cooperative agreements for organizations to replicate programs that have been proven effective through rigorous evaluation to reduce teenage pregnancy, behavioral risk factors underlying teenage pregnancy, or other associated risk factors. Funds will be used to replicate programs with as many youth and families as possible, and in communities with the greatest need to reduce rates of teen pregnancy and STIs

Deadline: December 21, 2019

[Children’s Healthy Weight State Capacity Building Program – CFDA 93.110](#)

To develop and implement a Children’s Healthy Weight CoIIN, with the goal of increasing the proportion of children and young adults ages birth to 21 years who fall within a healthy weight range by supporting states to adopt evidence-based or evidence-informed policies and practices related to nutrition, physical activity, and breastfeeding

Deadline: January 1, 2020

[Assisted Outpatient Treatment Program for Individuals with Serious Mental Illness-CFDA 93.997](#)

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS), is accepting applications for fiscal year (FY) 2020 Assisted Outpatient Treatment Grant Program for Individuals with Serious Mental Illness (Short title: Assisted Outpatient Treatment [AOT]). This four-year program is intended to implement and evaluate new AOT programs and identify evidence-based practices in order to reduce the incidence and duration of psychiatric hospitalization, homelessness, incarcerations, and interactions with the criminal justice system while improving the health and social outcomes of individuals with a serious mental illness (SMI). This program is designed to work with courts to allow these individuals to obtain treatment while continuing to live in the community and their homes.

Deadline: January 24, 2020

[2020Integrated Networks to Deliver and Sustain Evidence-Based Falls Prevention Programs-CFDA 93.761](#)

This funding opportunity has two goals:

Goal 1: Strengthen integrated state or regional networks that address the social and behavioral determinants of health of older adults and adults with disabilities.

Goal 2: Significantly increase the number of older adults and adults with disabilities who participate in evidence-based community programs to reduce falls and falls risk.

Deadline: January 31, 2020

[4DN Organization and Function in Human Health and Disease \(U01 Clinical Trial Not Allowed\) -CFDA 93.310](#)

To support projects that apply new or existing tools to monitor and/or manipulate the 4D nucleome in the context of human health and disease. Any human disease or biological process relevant to NIHs mission may be proposed including environmental exposures (e.g. addictive substances, toxins, psychosocial stress), or studies across

development or lifespan. Other relevant timeframes may include but are not limited to: circadian rhythms, fasting and feeding cycles, reproductive cycles, and sleep/wake cycles.

Deadline: March 02, 2020

[Pediatric Critical Care Conferences \(R13 Clinical Trial Not Allowed\)-\(CFDA 93.865\)](#)

The purpose of this Funding Opportunity Announcement (FOA) is to invite applications for multidisciplinary national conferences that will inform care and facilitate research for major issues in pediatric critical care medicine. Given the nascent stage of development, the small diverse patient populations, and the rapid expansion of the field, conducting research and establishing best practices in pediatric critical care is challenging. National conferences that convene experts from across the country hold the potential to establish the frameworks necessary to overcome these obstacles. It is anticipated that such conferences will foster collaboration among different clinical disciplines, geographically and culturally diverse institutions and medical centers, professional organizations and NIH Institutes. Specifically, it is hoped that these conferences will drive the development and acceptance of uniform definitions, facilitate the determination of common data elements, identify key knowledge gaps to advance research, and/or foster discussions on how research findings can be used to best inform guidelines for patient care.

Deadline: March 31, 2020

[NIMH Research Education Mentoring Programs for HIV/AIDS Researchers \(R25\) – \(CFDA 93.242\)](#)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The over-arching goal of this National Institute of Mental Health (NIMH) R25 program is to support educational activities that complement and/or enhance the training of a workforce to meet the nations biomedical, behavioral and clinical research needs and advance the priorities outlined in the Office of AIDS Research (OAR) Annual Strategic Plan and the research program priorities of the NIMH Division of AIDS Research (DAR).

Deadline: September 07, 2020

[Practice-Based Research for Implementing Scalable Evidence-Based Prevention Interventions in Primary Care Settings \(R01 Clinical Trial Optional\)-CFDA 93.242](#)

Practice-Based Research for Implementing Scalable Evidence-Based Prevention Interventions in Primary Care Settings (R01 Clinical Trial Optional)

The purpose of this Funding Opportunity Announcement (FOA) is to encourage practice-based research aimed at testing the effectiveness of developmentally-focused theory-based efficacious prevention interventions which may impact mental health outcomes, including suicide behaviors and serious mental illness. The research should test prevention approaches that are both scalable and sustainable for implementation in pediatric-serving primary care settings, with an emphasis on populations experiencing mental health disparities. This FOA seeks to support clinical trials to establish the effectiveness of scalable prevention interventions when implemented using available resources within pediatric-serving primary care settings.

Deadline: October 15, 2020

[Comparative Genomics Research Program \(R01\) – \(CFDA 93.172\)](#)

NHGRI invites applications for research developing comparative approaches that can be used to understand genome structure and function and the relationship between genomic features and phenotypes. This program supports studies that enable the use of a diverse array of species to advance our ability to understand basic biological processes related to human health and disease, as well as studies that develop novel analytical tools and resources for the comparative genomics research community.

Deadline: January 07, 2021

[NIH Research Project Grant \(Parent R01 Clinical Trial Not Allowed\) – \(CFDA 93.113, 93.121, 93.172,93.173, 93.213, 93.233, 93.242, 93.273, 93.279, 93.286, 93.307, 93.351, 93.361, 93.393, 93.394, 93.395, 93.396, 93.399, 93.837, 93.838, 93.839, 93.840, 93.846, 93.847, 93.853, 93.855, 93.856, 93.859, 93.865, 93.866, 93.867, 93.879\)](#)

The NIH Research Project Grant supports a discrete, specified, circumscribed project in areas representing the specific interests and competencies of the investigator(s). The proposed project must be related to the programmatic interests of one or more of the participating NIH Institutes and Centers (ICs) based on their scientific missions. This Funding Opportunity Announcement does not accept clinical trials.

Deadline: January 07, 2021

[Advancing Post-Market Surveillance of High-Risk Facilities and Products through Signal detection, Data analysis, and the Review of the State of Quality \(U01\) Clinical Trial Optional – \(CFDA 93.103\)](#)

The purpose of this program is to advance comprehensive quality surveillance and provide the state of quality for all regulated sites and products. Using predictive analytics, data mining, and other quantitative tools, this research program will expand the knowledge base related to site and product quality, especially for high-risk foreign facilities and their products.

Deadline: April 05, 2021

[Engaging Men in HIV Testing, Prevention, and Care \(R21 Clinical Trial Optional\) – \(CFDA 93.242\)](#)

The purpose of this Funding Opportunity Announcement (FOA) is to develop and test strategies to increase the engagement of men in HIV prevention and care within global settings and among US domestic populations who have evidenced lower rates of engagement and retention in HIV prevention and care. The R21 Exploratory/Developmental Grant supports studies that may involve considerable risk but may lead to a breakthrough in a particular area; or to the development of novel techniques, agents, methodologies, models; or applications that could have a major impact on a field of biomedical, behavioral, or clinical research.

Deadline: September 07, 2021

[Palliative Care in Home and Community Settings \(R01 Clinical Trial Optional\) – \(CFDA 93.361\)](#)

The purpose of this funding opportunity is to stimulate research aimed at determining needs and best practices for the integration of palliative care into home and community settings. Home and community in this FOA refer to the place where an individual resides or lives. Home- and community-based palliative care programs ensure those with serious, advanced illness who do not require hospitalization but are not appropriate for hospice have access to high quality end-of-life and palliative care.

Deadline: September 7, 2022

[Co-infection and Cancer \(R01 Clinical Trial Not Allowed\)-CFDA 93.393](#)

This initiative seeks to enhance our mechanistic and epidemiologic understanding of infection-related cancers, with a focus on the etiologic roles of co-infection in cancer. Preference will be given to investigations of co-infections with known oncogenic agents (e.g., *Helicobacter pylori* [*H. pylori*] and Epstein Barr virus [EBV]; excluding human immunodeficiency virus [HIV]) and of co-infections that engendered novel opportunities for prevention and treatment. Coinfection is defined as the occurrence of infections by two or more infectious (pathogenic or nonpathogenic) agents either concurrently or sequentially and includes both acute and chronic infections by viruses, bacteria, parasites, and/or other microorganisms.

Deadline: January 07, 2023

[EHR Core Research \(ECR\): Building Capacity in STEM Education Research-CFDA 93.855](#)

This Funding Opportunity Announcement (FOA), issued by the National Institute of Allergy and Infectious Diseases (NIAID), invites applications for investigator-initiated Resource-Related Research Projects (R24). The proposed resource must provide a significant benefit to currently funded high priority projects in need of further coordination and support in the areas specified. Under rare circumstances, this mechanism may be used to support development of a new resource to the broader scientific community of the NIAID. It is anticipated that the request for resource support through the R24 activity code will occur on an infrequent basis and only in circumstances where other mechanisms of support from the NIAID are not appropriate. The proposed resources should be relevant to the scientific areas of the NIAID mission including the biology, pathogenesis, and host response to microbes, including HIV; the mechanisms of normal immune function and immune dysfunction resulting in autoimmunity, immunodeficiency, allergy, asthma, and transplant rejection; and translational research to develop vaccines, therapeutics, and diagnostics to prevent and treat infectious, immune-mediated, and allergic diseases.

Deadline: January 07, 2023

U.S. Department of Housing and Urban Development

U.S. Department of Homeland Security

[FY19 Flood Mitigation Assistance – CFDA 97.029](#)

The Flood Mitigation Assistance (FMA) Program makes available Federal funds to State, Local and Tribal Governments to reduce or eliminate the risk of repetitive flood damage to buildings and structures insured under the National Flood Insurance Program (NFIP). In FY18, the FMA Program will prioritize proposals that address community flood risk by setting aside \$70 million for this purpose. FEMA will seek to fund two types of community flood mitigation activities: Advance Assistance for flood mitigation design and development of community flood mitigation projects and mitigation projects that address community flood risk for the purpose of reducing NFIP flood claim payments. The remaining funding, at least \$90,000,000, will be used for FMA technical assistance, mitigation planning, and mitigation projects reducing risk to severe repetitive loss (SRL) and repetitive loss (RL) properties. Applicants must submit applications via the Mitigation eGrants system on the FEMA Grants Portal: <https://portal.fema.gov>. Applicants may submit a maximum of 1 advanced assistance and 1 community mitigation project sub-application.

Deadline: January 31, 2020

[FY19 Pre-Disaster Mitigation – CFDA 97.047](#)

The Pre-Disaster Mitigation (PDM) program makes available Federal funds to State, Local and Tribal Governments to implement and sustain cost-effective measures designed to reduce the risk to individuals and property from natural hazards, while also reducing reliance on Federal funding from future disasters. FEMA will provide allocations of \$575,000 as required by the Stafford Act to states and territories; and a tribal set aside of \$20 million for allocations up to \$575,000 for Native American Indian tribal governments to support overall mitigation planning and projects. The remaining PDM funds will be awarded on a competitive basis with a focus on multi-state/tribal mitigation initiatives. Applicants must submit applications via the Mitigation eGrants system on the FEMA Grants Portal: <https://portal.fema.gov>. Applicants may submit a maximum of 9 project sub-applications notwithstanding any project(s) submitted for the state/territory allocation or tribal set aside. In addition, any state or tribe willing to serve as the applicant for a multi-state or tribal activity may submit one additional plan or project sub application.

Deadline: January 31, 2020

U.S. Department of the Interior

U.S. Department of Justice

[Establishment of a National Center on Restorative Justice](#)

The Bureau of Justice Assistance (BJA) seeks to fund an accredited university of higher education or an accredited law school for the purposes of establishing a National Center on Restorative Justice with the purpose of educating and training the next generation of justice leaders.

Deadline: January 03, 2020

[Improving Criminal Justice Responses to Domestic Violence, Dating Violence, Sexual Assault, and Stalking Grant Program-CFDA 16.590](#)

The Improving Criminal Justice Responses to Domestic Violence, Dating Violence, Sexual Assault, and Stalking Program encourages state, local, and tribal governments and courts to treat domestic violence, dating violence, sexual assault, and stalking as serious violations of criminal law requiring the coordinated involvement of the entire criminal justice system.

Deadline: January 27, 2020 Improving Criminal Justice Responses to Domestic Violence, Dating Violence, Sexual Assault, and Stalking Grant Program

[Office on Violence Against Women OVW FY 2020 Grants for Outreach and Services to Underserved Populations-CFDA 16.889](#)

he program was authorized to develop and implement outreach strategies targeted at, and provide victim services to, adult and youth victims of domestic violence, dating violence, sexual assault, or stalking in underserved populations. Grant funds are used to provide victims services to underserved populations; build the capacity of both mainstream organizations and organizations serving underserved populations to provide population specific victim services; and training and outreach activities targeted at agencies and organizations to better serve victims in underserved communities.

Deadline: February 12, 2020

[Grants to Tribal Governments to Exercise Special Domestic Violence Criminal Jurisdiction-CFDA 16.025](#)

Grants to Tribal Governments to Exercise Special Domestic Violence Criminal Jurisdiction

Through this grant program, Indian tribes receive support to exercise special domestic violence criminal jurisdiction (SDVCJ) and technical assistance (TA) for planning and implementing changes in their criminal justice systems necessary to exercise the jurisdiction. The program encourages collaborations among tribal leadership, courts, prosecutors, attorneys, defense counsel, law enforcement, probation, victim service providers, and other partners to ensure that victims find safety and justice and that non-Indians who commit crimes of domestic violence, dating violence, and violations of protection orders in the Indian country of the participating tribe are held accountable.

Deadline: February 12, 2020

U.S. Department of Labor

[Announcement of Stand Down Grants – \(CFDA 17.805\)](#)

DOL VETS supports local Stand Down (SD) events that assist homeless veterans by providing a wide variety of employment, social, and health services. A homeless veteran is a veteran, as defined in 38 U.S.C. 101(2), who is “homeless” as that term is defined at 42 U.S.C. 11302(a)-(b), as amended by the Homeless Emergency Assistance and Rapid Transition to Housing Act of 2009 (Public Law 111-22).Stand Down grant funds must be used to enhance employment and training opportunities or to promote the self-sufficiency of homeless veterans through paid work. Veterans experiencing homelessness do not always have access to basic hygiene supplies necessary to maintain their health and appearance. Lack of shelter limits their ability to prepare for and present themselves at job interviews or be contacted for follow-up. Basic services such as showers, haircuts, attention to health concerns, and other collaborative services provided at SD events can give participants a greater sense of self and an opportunity to improve their chances of securing and maintaining employment Each year, VETS sets funds aside from the Homeless Veterans’ Reintegration Program (HVRP) budget activity to award SD grants. Stand Down funding is a non-competitive grant awarded on a first-come, first-served basis until available annual funding is exhausted. VETS will continue to accept applications and process when additional funds become available. The maximum amount that can be awarded, per applicant for a geographic area, in a fiscal year (October 1 – September 30) is \$7,000 for a one-day event and \$10,000 for a multi-day event. VETS recognizes the following as circumstances that may justify awarding SD grants in higher amounts: emergencies or major disasters, as defined in the Stafford Act, which have been declared eligible for public assistance by the Federal Emergency

Management Agency (FEMA). In addition, emergencies or disaster situations of national significance, natural or man-made, that could result in a potentially large loss of employment, as declared or otherwise recognized in writing by the chief official of the Federal Agency with jurisdiction over the Federal response to the emergency or disaster. If the VETS Assistant Secretary determines it is appropriate to award increased grants for SD events due to a disaster, the VETS Assistant Secretary will announce such a determination in writing, including the maximum amount that can be awarded on account of such an identified disaster, in order to provide notice to entities proposing to conduct SD events in those geographic areas where a disaster has been declared or to which a substantial number of veterans have relocated or been relocated. Acceptable uses of Stand Down grant funds do not change in such circumstances. All applications should be emailed to the appropriate DVET of the state in which the SD event is planned.

Deadline: December 31, 2020

U.S. Department of State

U.S. Department of Transportation

[FAA Aviation Research and Development Grants – \(CFDA 20.108\)](#)

The FAA is soliciting proposals for research grants and cooperative agreements to pursue the long-term growth and short-term technical needs of civil aviation. In order to streamline the application process, it is recommended that all prospective grantees submit a white paper (letter of intent) for agency technical review before complete proposal submission. Please be sure to identify the specific area of interest (Solicitation FAA-12-01 – Chapter I. FAA Research Grants Program, Technical Areas of Research #1-#9). The white paper shall be no longer than three (3) pages and shall detail overall research objectives.

Deadline: December 31, 2019

U.S. Department of Veterans Affairs

Section III PROGRAM FUNDING THROUGH PRIVATE, CORPORATE & COMMUNITY FOUNDATIONS

[BoatUS Foundation Accepting Grant Applications for Safe and Clean Boating Projects](#)

The BoatUS Foundation for Boating Safety and Clean Water is accepting applications for its Grassroots Grants Program, which awards funds on an annual basis to nonprofit organizations, boating clubs, and student groups in the United States for projects that utilize innovative approaches to education about safe and clean boating.

The foundation is looking for creative projects that promote safe and clean boating on local waterways. Past topics have ranged from PSAs on the effects of boating under the influence to hands-on education about the effects of marine debris.

Projects the foundation is most interested in funding will be unique (topic, methods, or delivery mechanism); include extensive outreach to boaters; use technology to educate boaters, including social media and the Web; have a widespread reach (not just a handful of boaters); include hands-on work with the boating community; and have a way to measure the success of the program.

Applicants can include boating groups, clubs and associations, student groups, and local nonprofit organizations, including local chapters of national organizations. Grants will not be awarded to government agencies, international organizations, for-profit businesses, or individuals.

Applicants may request up to \$10,000. Funded projects must be completed within a year.

Deadline: Open

[Baseball Tomorrow Fund](#)

The Baseball Tomorrow Fund (BTF) awards grants to non-profit and tax-exempt organizations involved in the operation of youth baseball and/or softball programs and facilities. Organizations operating in the U.S. and international locations are eligible to apply. To date, an average of 400 requests are received annually; approximately 10 percent are awarded grants. Grants are awarded on a quarterly basis.

Review cycle deadlines:

- January-March: January 1
- April-June: April 1
- July-September: July 1
- October-December: October 1

[Surdna Foundation Sustainable Environment Grants](#)

The Sustainable Environments Program is working to overhaul our country's outdated and crumbling infrastructure with a new approach that will foster healthier, sustainable, and just communities. We believe in the potential of what we call "next generation infrastructure" to improve transit systems, make buildings more energy efficient, better manage our water systems and rebuild regional food systems. Focusing on urban areas and their

surrounding suburbs, we seek solutions that connect and improve these infrastructure systems in ways that maximize positive impacts and minimize negative environmental, economic and social consequences.

[JFNY Grant for Arts and Culture](#)

The Japan Foundation New York office (JFNY) accepts applications for projects that take place within the 37 states east of Rocky Mountains listed below for the JFNY Grant throughout the year. This grant aims to support projects that will further understanding of Japanese arts and culture. Successful projects may be granted up to \$5,000. Priority will be given to those projects that have secured additional funding from sources other than the Japan Foundation.

Deadline: Applications must be received at least 3 months prior to beginning date of project.

[CSX Beyond Our Rails Grant](#)

CSX provides non-profit assistance and support through a variety of programs, including grants that typically range from \$2,500 to \$5,000 for projects focusing on safety, community, wellness, and/or the environment.

Examples given for environmental projects include:

- Teaching environmental stewardship
- Planting eco-friendly trees and plants
- Leading and supporting environmental cleanups
- Recycling and waste minimization
- Promoting energy efficiency and carbon reduction

Deadline: Ongoing

[Laboratory Equipment Donation Program for Colleges, Universities and Museums](#)

The Laboratory Equipment Donation Program (LEDP), formerly the Energy-Related Laboratory Equipment (ERLE) Grant Program, was established by the United States Department of Energy (DOE) to grant surplus and available used energy-related laboratory equipment to universities and colleges in the United States for use in energy oriented educational programs.

Deadline: Ongoing

[Zayed Future Energy Global High Schools Prize](#)

The primary aim of the Global High Schools category is to inspire future generations across the globe by instilling an ethos of sustainability from an early age, including an appreciation of issues in energy, and broader sustainability. Each school will submit a detailed proposal for a project, and the Prize will become a grant that enables the project's completion. While the main objective is to promote sustainability in schools, special emphasis of the proposed project should be on specific measurable initiatives to promote renewable energy and sustainability, which may include improvements in energy or water efficiency, or a reduction in waste.

[Waste Management Charitable Giving](#)

Healthy thriving communities depend on involved citizens, organizations and corporate partners for momentum. We lend our support and services to causes that promote civic pride, economic development and revitalization. Every community has its own challenges, and we strive always to be part of problem-solving initiatives. Programs that Waste Management is most motivated to support include: environment, environmental education, and causes

important to the areas where we operate. Applications are accepted year round and are reviewed on a continuous basis. Given the large amount of requests received, please anticipate an estimated two-month review period for each request.

[Clif Bar Foundation Small Grants](#)

These grants are awarded for general organizational support as well as funding for specific projects. Small grants average approximately \$7,000 each. Priority is given to applicants that: Address our funding priorities from a holistic perspective; Protect Earth's beauty and bounty; Create a robust, healthy food system; Increase opportunities for outdoor activity; Reduce environmental health hazards; Build stronger communities; Operate with clearly defined objectives and viable plans to achieve them; Demonstrate strong community ties and operate at the community level; Promote positive change through both the projects and their implementation process.

Deadline: Applications are reviewed three times a year; the deadlines are the 1st of February, June, and October. Grants awarded during a particular cycle will be announced at the beginning of the following cycle.

[Foundation for Contemporary Art Accepting Applications for Emergency Grants](#)

Since its inception in 1963, the mission of the Foundation for Contemporary Arts has been to encourage, sponsor, and promote innovative work in the arts created and presented by individuals, groups, and organizations.

Created in 1993, the foundation's Emergency Grants program provides grants of up to \$2,000 to innovative visual and performing artists who have unanticipated, sudden opportunities to present their work to the public when there is insufficient time to seek other sources of funding; or who incur unexpected or unbudgeted expenses for projects close to completion with committed exhibition or performance dates.

To be eligible, applicants must be living, working, and paying taxes in the United States; have committed to a performance or exhibition opportunity and be able to provide specific dates at the time of application; and be an individual artist or an individual representing an artist collective, ensemble, or group. Curators, producers, workshop organizers, organizations, or arts presenters are not eligible to apply.

Deadline: OPEN

[Weyerhaeuser Giving Fund](#)

We support U.S. and Canadian communities where we have a significant presence or business interest. These communities range from rural to metropolitan, each with unique priorities and needs. Our employees serve on local advisory committees for our Giving Fund and develop funding priorities within four focus areas to support their particular communities. This provides a strong companywide framework for giving while allowing flexibility to meet unique needs in our different communities.

Through the Weyerhaeuser Giving Fund we concentrate the majority of our funding in four focus areas:

- Affordable Housing and Shelter
- Education and Youth Development
- Environmental Stewardship
- Human Services, Civic and Cultural Growth

To be eligible for funding, a program must:

- Serve a Weyerhaeuser community
- Be a tax-exempt, nonprofit public charity classified under Section 501(c)(3) of the U.S. Internal Revenue Code OR a registered charity in Canada with a Canada Revenue Agency Number, or registered as a provincial nonprofit society OR a public education institution or government entity qualified under Section 170(c)(1) of the U.S. Internal Revenue Code or qualified as a Canadian municipality.

[Wells Fargo Corporate Giving Programs](#)

Wells Fargo supports nonprofit organizations that work on a community level in the areas of human services, arts and culture, community development, civic responsibility, education, environmental consciousness, and volunteerism.

Deadline: Applications accepted on an ongoing basis.

[Good Sports Accepting Applications for Sports Equipment Grant](#)

Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization is able to focus on the respective needs of each individual program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for a two-year period. During that time, organizations can make up to six separate donation requests — as long as need is well documented, donations will be granted. There is no need to resubmit a full application again during the two-year period.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

Deadline: Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks prior to the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time.

[Karma for Cara Foundation Invites Applications for Youth Microgrants](#)

The Karma for Cara Foundation is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the Johns Hopkins Kimmel Cancer Center. Cara and her two brothers began volunteering at a young age as part of their family's commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores.

Deadline: OPEN

[VFW Accepting Applications From Veterans for Emergency Financial Assistance](#)

Veterans of Foreign Wars is accepting applications from active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. Since the program's inception, Unmet Needs has distributed more than \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The hardship must be the result of deployment, a military pay issue, or military-related illness or injury. It cannot be due to civil legal or domestic issues, misconduct, or any issues that are a result of spousal separation or divorce, financial mismanagement, or bankruptcy.

Deadline: OPEN

[Start a Snowball Invites Applications for Youth Philanthropy Projects](#)

Start a Snowball, Inc. encourages kids of all ages to engage in philanthropic and community service activities. The organization believes that even one child with the right intentions and support can start a project that seems small in the beginning and eventually grows ("snowballs") into something that inspires and benefits an entire community.

In order to help kids, kick off their philanthropy efforts, start a Snowball awards \$100 in seed funding for projects taken on by individuals or organizations.

To be eligible, projects must be led by youth between the ages of 5 and 18 and have the intention of doing good.

Start a Snowball does not give directly to collection funds. The organization also does not provide support for fundraisers for sports teams, unless they serve an underserved or disadvantaged group, or support projects that are discriminatory or political in nature.

Deadline: Rolling

[Craft Emergency Relief Fund Accepting Applications From Craftspeople in Need](#)

The Craft Emergency Relief Fund is a national nonprofit organization that awards small grants and loans to professional craftspeople experiencing career-threatening illness, accident, fire, theft, or natural disaster.

Financial assistance ranges from \$500 to \$8,000. Other services include referrals to craft suppliers who have agreed to offer discounts on materials and equipment to craftspeople eligible for CERF funds and booth fee waivers from specific craft show producers.

CERF loan recipients are expected to repay the loan in full within five years, enabling CERF to have funds readily available for future craftspeople in need.

Applicants must be a professional artist working in a craft discipline (e.g., a potter, metalsmith, glass artist, woodworker, fiber artist, or furniture maker) who has had a recent career-threatening emergency and a legal resident of the U.S.

Deadline: OPEN

[Pollock-Krasner Foundation Accepting Applications From Artists With Financial Need](#)

The mission of the Pollock-Krasner Foundation is to aid those individuals who have worked as artists over a significant period of time. The foundation's dual criteria for grants are recognizable artistic merit and financial need, whether professional, personal, or both.

Grants are intended for a one-year period of time, with the size of the grant to be determined by the artist's individual circumstances and professional exhibition history. Artists applying for a grant must be actively exhibiting their current work in a professional artistic venue such as a gallery or museum space.

The foundation does not accept applications from commercial artists, video artists, performance artists, filmmakers, crafts-makers, computer artists, or any artist whose work primarily falls into these categories.

Deadline: OPEN

[Pollination Project Invites Applications From Social Entrepreneurs for Seed Grants](#)

The Pollination Project is accepting applications from social entrepreneurs looking to make their communities and world a better place. Seed grants of up to \$1,000 will be awarded to projects in the early stages of development, including those that promote compassion toward all life (people, planet, animals), environmental sustainability, justice in all its forms, community health and wellness, and social change-oriented arts and culture. Only applications for seed funding, as opposed to ongoing operational or program costs of a nonprofit organization, will be accepted. To be eligible, applicants must be a passionate, committed individual with a social change vision that fits within one or more of the categories above. Established nonprofit organizations with paid staff will not be considered.

Deadline: OPEN

[Hope for The Warriors Accepting Applications for Critical Care Support for Wounded Veterans](#)

Hope For The Warriors believes those touched by military service can succeed at home by restoring their sense of self, family, and hope. Nationally, the organization provides service members, veterans, and military families with comprehensive support programs focused on transition, health and wellness, peer engagement, and community resources.

Originally designed to meet short-term needs in the days following an injury, the Hope for The Warriors' Critical Care Coordination program has expanded to assist post-9/11 combat-wounded veterans and their families as they navigate through long-term recovery.

Program case coordinators work daily with post-9/11 combat-wounded service members and veterans, their families, and families of the fallen to meet immediate financial needs related to daily living including utilities, groceries, rent, mortgage, and rental deposits. The program provides casework assistance and resource referrals that will help clients immediately and in the future. Payment is always made to a third party.

To be eligible, applicants must be seeking support for needs that are a direct result of a service member's post-9/11 combat-related injury.

Deadline: OPEN

[Singing for Change Accepting LOIs for Projects to Address Social and Environmental Problems](#)

Created by Jimmy Buffett in 1995, Singing for Change initially was funded with contributions from the singer's summer concert tour. Since then, SFC has offered competitive grants to progressive nonprofit organizations working to address the root causes of social or environmental problems.

Priority will be given to organizations that keep their overhead low, include community members in planning, and collaborate with other groups to find innovative ways of solving common problems. SFC aims to advance the common good by empowering people to thrive and strengthen and sustain vibrant, diverse communities.

Grants will range in size from \$1,000 to \$10,000. Grants are made only to nonprofit organizations with tax-exempt status under section 501(c)(3) of the Internal Revenue Code, or to organizations that have a sponsoring agency with exempt status.

Deadline: Ongoing

[A Little Hope Announces Youth Bereavement Support Services Grants](#)

A Little HOPE supports organizations that provide bereavement support services and grief counseling to children and teens who have experienced the death of a parent, sibling, or loved one.

To be considered, applicants must e-mail (no telephone calls) the name of their program, website address, names of the executive director and program director, and the location of the program. No other information is needed or will be processed. Strong preference will be given to applicants who demonstrate a commitment to the use of community trained volunteers. Grant award amounts are based on the scope and budget of the project.

Deadline: OPEN

[Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities](#)

The mission of the Captain Planet Foundation is to promote and support high-quality educational programs that help children and youth understand and appreciate our world through hands-on learning experiences aimed at improving the environment in their schools and communities.

Grants are intended to serve as a means of bringing environment-based education to schools and inspiring youth and communities to participate in community service through environmental stewardship activities. The

foundation will fund unique and innovative projects that do not precisely match the grant guidelines but otherwise promote the foundation's mission to advance hands-on environmental activities.

Deadline: January 31 (typically for fall and winter projects), September 30 (typically for spring and summer projects)

[Chambers of Commerce Invited to Start Young Entrepreneur Academies](#)

The Young Entrepreneurs Academy today serves thousands of students across America. In 2011, the United States Chamber of Commerce Foundation became a national sponsor and partner of the academy to help celebrate the spirit of enterprise among today's youth and the future leaders of tomorrow.

To that end, YEA, in partnership with Sam's Club and the U.S. Chamber of Commerce Foundation, is accepting applications from chambers of commerce across the country to start Young Entrepreneurs academies of their own. The thirty-week program teaches students in grades 6-12 how to generate business ideas, conduct market research, write business plans, pitch to a panel of investors, and launch their own companies. In 2015, Sam's Club will award startup funds of up to \$2,500 each to thirty chambers of commerce across the country.

[Cornell Douglas Foundation Grant](#)

The Cornell Douglas Foundation provides grants to organizations that advocate for environmental health and justice, encourage stewardship of the environment, and further respect for sustainability of resources. The average grant amount is \$10,000.

Deadline: accepted all year

[Public Welfare Foundation](#)

The Public Welfare Foundation has three programs, Criminal Justice, Juvenile Justice, and Workers' Rights, that support efforts to advance justice and opportunity for people in need. The Foundation looks for strategic points where its funds can make a significant difference and improve lives through policy and system reform that results in transformative change.

Criminal Justice Guidelines

The Foundation's Criminal Justice Program supports groups that are working to end the over incarceration of adults in the United States while also aiming to reduce racial disparities. In particular, the Program makes grants primarily to state-based groups that are working to:

- Reduce state incarceration levels and racial disparities through reforms in sentencing, charging, and supervision policies and procedures.
- Advance the redirection and prioritization of state and local resources toward targeted investments that support system-involved individuals in their communities, through research and strategic thought leadership.

Juvenile Justice Guidelines

The Foundation's Juvenile Justice Program supports groups working to end the criminalization and reliance on incarceration of youth in the United States. The Program makes grants to groups that are working to:

- Advance state policies that dramatically restrict juvenile justice systems' use of incarceration and out-of-home placements and prioritize the use of community-based programs for youth;

- End the practice of trying, sentencing, and incarcerating youth in the adult criminal justice system; and
- Promote the fair treatment of youth of color who come into contact with the juvenile justice system.

Workers' Rights Guidelines

The Foundation's Workers' Rights Program supports policy and system reforms to improve the lives of low-wage working people in the United States, with a focus on securing their basic legal rights to safe, healthy, and fair conditions at work. Specifically, the Program makes grants to groups working to:

- Advance reforms to hold employers accountable for wage theft;
- Advance reforms to prevent severe illness, injury, and death on the job; and
- Advance workers' rights in complex, fissured employment arrangements through research and strategic thought leadership.

[Ben & Jerry's Foundation Seeks Proposals for Social and Environmental Justice Projects](#)

One-year grants of up to \$20,000 will be awarded to nonprofit grassroots community-organizing groups in the United States working to further social and environmental justice and support sustainable and just-food systems. Grants can be used to support both program and operational costs.

[KaBOOM! Invites Applications for Community Playground Grants](#)

KaBOOM!, a program that provides eligible communities with most of the funds, tools, and resources they need to build a custom-made playground in one day.

Deadline: OPEN

[Binoculars for Young Citizen Scientists](#)

Cornell's BirdSleuth K-12 initiative is awarding binoculars to schools where educators have made outstanding efforts to engage their students in citizen science.

Deadline: OPEN

[International Paper Environmental Education Grants](#)

The International Paper (IP) Foundation supports non-profit organizations in communities where its employees live and work. Environmental education is one of the primary areas the Foundation supports. The Foundation seeks programs that help generations understand a sustainable approach to business that balances environmental, social and economic needs.

[Lego Children's Fund](#)

The LEGO Children's Fund provides grants primarily in two focus areas: (1) early childhood education and development that is directly related to creativity and (2) technology and communication projects that advance learning opportunities. Typical awards are between \$500 and \$5,000. Interested parties must complete an eligibility quiz, be approved and invited to submit a grant proposal. Each grant will be subject to a specified time frame for completion.

Deadline: Applications accepted four times a year.

[Evidence for Action: Investigator-Initiated Research to Build a Culture of Health](#)

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

Deadline: Open

[Pioneering Ideas Brief Proposals](#)

The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted territory in order to better understand what new trends, opportunities and breakthrough ideas can enable everyone in America to live the healthiest life possible.

While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health. Ultimately, we support work that will help us learn what a Culture of Health can look like—and how we can get there.

Deadline: Open

Section IV STATE OF ALABAMA GRANTS

[Alabama Power Foundation Grant](#)

The Alabama Power Foundation Grant offers funds to nonprofit organizations in Alabama working in one of the following areas:

- Health
- Human services
- Arts
- Community life
- Education
- Environment

Priority is given to projects that address underserved segments of the population and can be duplicated in other communities.

[Alabama Board of Medical Scholarship Awards](#)

The Alabama Board of Medical Scholarship Awards offers forgivable loans to students enrolled in an Alabama medical school who agree to practice primary care in a pre-approved medically, underserved community in Alabama upon graduation.

Loans are repaid at the rate of one year of service per year of loan.

Deadline: Applications accepted on ongoing basis.

[Economic Development Fund](#)

Land, facilities and infrastructure to benefit industry that will create jobs. Create minimum of 15 permanent jobs to benefit 51% low to moderate income beneficiaries. Continuous. Applications are taken throughout the year. Maximum request: \$250,000. Minimum Request: \$50,000. Note: Waiver of match available for applicants with 2010 Census population of 1,000 or less. May also waive the grant ceiling for projects that demonstrate significant long-term economic benefit to the State.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbier.olia@adeca.alabama.gov

[Economic Development Incubator projects](#)

Units of local government. Applicants must maintain active registration with SAM. Program must benefit 51% low to moderate income beneficiaries. Project must commit to create jobs. Maximum request: \$250,000. Match request: 20%. Applications are taken throughout the year. Award upon approval and as funding is available. Application workshop held in April and compliance workshop held in the fall.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbier.olia@adeca.alabama.gov

States' Economic Development Assistance Program (SEDAP)

Applicants: State and local units of governments, public bodies, and non-profit entities. Eligible counties in West Alabama: Bibb, Fayette, Hale, Lamar, Pickens, and Tuscaloosa.

Activities: Water and wastewater facilities, telecommunications, health care, planning activities, leadership development, education and training programs, business development, and entrepreneurship.

Requirements: Project must meet one of ARC's goals: increase job opportunities and per capita income, strengthen the capacity of people to compete in the global economy or develop and improve infrastructure to make the Region economically competitive. Construction projects funded by ARC must have an "Administering Agency" such as ADECA, USDA Rural Development or TVA. The project will be administered by and take on the requirements of that agency

Deadline: Pre-application due date in August. Applicant notified in late fall/winter if a full application is requested. Award announcements typically made in May.

Contact: Alabama Department of Economic and Community, Affairs (ADECA), Jimmy Lester, ARC Program Manager (334) 353-4490, jimmy.lester@adeca.alabama.gov

Alabama Humanities Foundation Grants

Applicants are encouraged to develop projects for a wide variety of audiences including: library and museum patrons, teachers and scholars, youth, senior citizens, nursing home residents, hospital patients, the economically disadvantaged, the incarcerated, and the hearing and sight impaired.

Application submission deadlines:

- Major Grants (\$1,500 and up) – February 15, June 16, September 15
- Minor Grants (\$1,500 or less) – February 15, June 16, September 15

Bank of America Grant

The Bank of America (BoA) offers grants that support high-impact initiatives, organizations and the development of visionary leaders. Schools with farm-to-school type programs may be eligible under the funding areas:

- Developing Career Leadership and Skills: Opportunities that increase civic and community engagement, career exploration and youth employment, financial knowledge and life-skill and soft-skill development
- Assisting with Food Access: Food deserts, green/fresh food access, etc

BoA's Charitable Foundation provides philanthropic support to address needs vital to the health of communities through a focus on preserving neighborhoods, educating the workforce for 21st century jobs and addressing critical needs, such as hunger.

Deadline: Requests for proposals are issued three times per year.

[Costco Wholesale Grants](#)

Costco Wholesale grants support programs focusing on children, education and health and human services. They look to achieve the greatest impact where Costco's employees and members live and work. Only 501(c)(3) nonprofit organizations, which meet their giving guidelines and focus areas, are considered.

Deadline: Applications are accepted throughout the year on a rolling basis.

[Walmart Foundation National Giving Program Grants](#)

Through its National Giving Program, the Walmart Foundation awards grants of \$250,000 and above to nonprofit organizations that operate on a national scope through chapters/affiliates in many states around the country or through programs that operate regionally/locally but seek funding to replicate program activities nationally.

Areas of focus for the Foundation include:

- Hunger Relief & Healthy Eating
- Sustainability
- Women's Economic Empowerment
- Career Opportunity

Deadline: OPEN

[William G. McGowan Charitable Fund Issues Request for Proposals for Projects That Address Homelessness](#)

The fund will award grants in support of initiatives that seek to correct circumstances contributing to homelessness, as well as initiatives designed to help eradicate the condition of homelessness in the long term.

Deadline: OPEN

Section V (NEW) FELLOWSHIPS / INTERNSHIPS / SCHOLARSHIPS / FINANCIAL AID / AWARDS

December Scholarships

[PixelPlex Bi-Annual STEM Scholarship](#)

\$2,000 PixelPlex Bi-Annual STEM Scholarship

\$2,000

Deadline: December 20, 2019

Scholarship Description

\$2000 PixelPlex Bi-Annual Scholarship was established to help support students pursuing education in the fields of science, technology, engineering and math (STEM), as well as economics and business. For more information or to apply, please visit the scholarship provider's website.

[Abel Wolman Fellowship](#)

Abel Wolman Fellowship

\$30,000

Deadline: December 20, 2019

Scholarship Description

American Water Works Association offers the Abel Wolman Fellowship to financially support promising students in the U.S., Canada, and Mexico pursuing advanced training and research in the field of water supply and treatment. To accomplish this objective, a doctoral fellowship provides up to two years of support awarded annually to the most outstanding student. The initial award for one year is \$30,000, with a second year of support available if needed. For more information or to apply, please visit the scholarship provider's website.

[American Medical Women's Association Haffizulla Family Scholarship](#)

American Medical Women's Association Haffizulla Family Scholarship

\$1,000

Deadline: December 31, 2019

Scholarship Description

The Haffizulla Family Scholarship Fund was founded by former AMWA President Dr. Farzanna Haffizulla. This scholarship is meant to perpetuate the involvement of young leaders in disease prevention and national health and wellness. A maximum of two scholarships each in the amount of \$1,000 will be awarded by Dr. Farzanna Haffizulla or her designee during the annual AMWA awards luncheon held at the annual meeting. To be eligible for this scholarship, you must have been actively involved in the student division of AMWA for at least two years, be a premedical student member, and remain a member in good standing with AMWA. For more information or to apply, please visit the scholarship provider's website.

[Annual Prayer Soup Scholarship](#)

Annual Prayer Soup Scholarship

\$1,500

Deadline: December 31, 2019

Scholarship Description

What is your experience with prayer? Using your prayer experience, rather than teachings or beliefs, write an essay of between 600 and 1200 words. Your essay should describe a significant prayer experience - this can be a positive or disappointing experience - and what impact this experience has had on a significant issue in your life, such as school shootings, climate change, bullying, immigration, gender and class disparity, or emerging sexual mores? Do we need more than “words and prayers” to influence these issues and to offer true solace to those affected, and to the divisions in our country at large? Or, in your experience, is there an actual power in prayer that, if accessed, could provide meaningful answers to these issues and could change the world? We are looking for creativity, imagination and critical thinking applied to your personal prayer experience. For more information or to apply, please visit the scholarship provider's website.

[Apprentice Ecologist Scholarship](#)

Apprentice Ecologist Scholarship

\$1,000

Deadline: December 31, 2019

Scholarship Description

The Apprentice Ecologist Initiative awards three scholarships to the authors of the three best Apprentice Ecologist essays. Applicants should embody the spirit of the Apprentice Ecologist Initiative by demonstrating personal leadership and environmental stewardship in their project. Winning essays have been 750 to 1,500 words long. Middle school, high school, or undergraduate college/university students (ages 13-21) are eligible to apply. Register and upload your favorite photo with the essay. For more information or to apply, please visit the scholarship provider's website.

[AREMA Committee 5 - Track Scholarship](#)

AREMA Committee 5 - Track Scholarship

\$2,500

Deadline: December 08, 2019

Scholarship Description

The Committee 5 scholarship is for an undergraduate student enrolled full-time in an accredited civil, mechanical, electrical, or industrial engineering curriculum, having completed at least one year. General criteria for all

scholarship applicants include having an interest in railway engineering, maintaining a minimum 2.0 GPA, and being available for interview. For more information or to apply, please visit the scholarship provider's website.

[AXA Achievement Scholarship](#)

AXA Achievement Scholarship

\$25,000

Deadline: December 14, 2019

Scholarship Description

The AXA Achievement Scholarship provides over \$1.4 million in scholarships to young people throughout the nation representing all 50 states, Washington DC and Puerto Rico. Students have the opportunity to receive a scholarship at the level of \$2,500, \$10,000 or \$25,000. AXA Achievers and scholarship amount will be chosen based on AXA Achievement criteria including a student's prior accomplishments and ability to succeed in college.

[BigRentz Trade School Scholarship](#)

BigRentz Trade School Scholarship

\$5,000

Deadline: December 09, 2019

Scholarship Description

There is a widening skills gap, yet high demand for highly-skilled and well-trained workers among various trades. However, a recent BigRentz survey revealed there is an inaccurate view of trade schools and the earning potential of a skilled trade.

As an advocate of vocational education and to promote the advantages of a skilled trade, BigRentz is pleased to offer \$10,000 in scholarships to students pursuing a career in skilled trades. BigRentz will award \$5,000 to two students to help cover educational expenses for a student currently pursuing (or who is planning to pursue) vocational training. For more information or to apply, please visit the scholarship provider's website.

This is a one-time open call for applications for two diverse graduating high school seniors who plan to study fashion design at an accredited four-year undergraduate college or university. This award will be up to \$20,000 per year for four years for both selected scholars. For more information or to apply, please visit the scholarship provider's website.

[Larson Aquatic Research Support](#)

Larson Aquatic Research Support

\$7,000

December 20, 2019

Scholarship Description

The Larson Aquatic Research Support (LARS) scholarships honor the memory of Dr. Larson by providing support and encouragement to outstanding students preparing for careers in the fields of science or engineering. These endowed scholarships provide support for two students annually. The funding for a master's level student is \$5,000 and a doctoral student receives \$7,000. For more information or to apply, please visit the scholarship provider's website.

[Lemberg Law \\$1,250 Law School Scholarship](#)

Lemberg Law \$1,250 Law School Scholarship

\$1,250

Deadline: December 10, 2019

Scholarship Description

After launching his own firm, Sergei Lemberg mastered the nuances of lemon law, the Fair Debt Collection Practices Act, and wage and overtime law, among others. He and his team exemplify the nobility of the legal profession by fighting for consumers' rights and facing down large corporations. It's for this reason that he is committed to encouraging those training for the legal profession to follow in his footsteps. Complete the application form and submit a meme, graphic, or gif aimed at engaging the public with the topic of lemon law, debt collection harassment, or overtime pay. It should include both text and graphical elements, and measure approximately 2000 pixels x 2000 pixels. Also submit a 15-word caption to accompany the meme, graphic, or gif. For more information or to apply, please visit the scholarship provider's website.

[Linly Heflin Scholarship](#)

Linly Heflin Scholarship

\$28,000

graduation, whichever comes first. Applicants must be female, from Alabama, a U.S. citizen and must attend a four-year accredited Alabama college/university and full-time. For more information or to apply, please visit the scholarship provider's website.

[Marie Curie Scholarship](#)

Marie Curie Scholarship

\$80,000

December 14, 2019

Scholarship Description

With the support of the National Science Foundation, College of Saint Mary offers a unique and competitive program for academically talented students who excel in math and science. Our Marie Curie Scholarship provides significant financial support and resources for young women who want to major in Biology, Chemistry or Mathematics.

[Minority Scholarship in Classics and Classical Archaeology](#)

Minority Scholarship in Classics and Classical Archaeology

\$4,500

Deadline: December 13, 2019

Scholarship Description

The Committee on Minority Scholarships of the Society for Classical Studies (SCS) invites applications from minority undergraduate students for a scholarship to be awarded for the summer. The purpose of the scholarship is to further students' preparation in classics or classical archaeology with opportunities not available during the school year. Eligible proposals might include (but are not limited to) participation in classical summer programs or field schools in Italy, Greece, Egypt, etc., or language training at institutions in the U.S, Canada, or Europe. Candidates will be judged on the basis of (a) their academic qualifications, especially in classics, including demonstrated ability in at least one classical language, or in fields that prepare a student to become an archaeologist, (b) the quality of their proposal for study particularly as preparation for plans after graduation, and (c) financial need. The application must be supported by a member of the SCS, and a statement must be included indicating that this is an appropriate candidate for the purposes of this scholarship. Under the classification "minority" we include African-American, Hispanic-American, Asian-American, Native-American, and Pacific-Islander American students. For more information or to apply, please visit the scholarship provider's website.

[Morgan Stanley Richard B. Fisher Scholarship Program](#)

Morgan Stanley Richard B. Fisher Scholarship Program

Amount Varies

Deadline: December 06, 2019

Scholarship Description

The Richard B. Fisher Scholarship program is a competitive undergraduate scholarship program established to provide outstanding Black, Hispanic, Native American and LGBT students with a financial award for exceptional academic achievement and a summer internship the summer prior to their junior or senior year in college. In order

to apply, you must be currently enrolled as a sophomore or junior at an undergraduate institution. For more information or to apply, please visit the scholarship provider's website.

[National WWII Museum Middle & High School Essay Contest](#)

National WWII Museum Middle & High School Essay Contest

Amount Varies

December 27, 2019

Scholarship Description

On Sunday, November 21, 1945, American Supreme Court Justice Robert H. Jackson delivered a speech to open one of the most important cases of the 20th century: the trial of defeated Nazi leaders at Nuremberg. The trial was the first of its kind and Jackson described the momentous occasion in his opening speech. For its student essay contest, The National WWII Museum is asking middle school (grades 5–8) and high school students (grades 9–12) to consider Judge Jackson’s speech. This is NOT a research paper, and the best essays will NOT be summaries of the past 75 years of American history or international legal precedents. Your essay will be judged foremost for its originality, clarity of expression, and adherence to contest theme, as well as its historical accuracy, grammar, spelling, and punctuation. Museum staff will read and evaluate all entries and select the winning essays. For more information or to apply, please visit the scholarship provider's website.

[Novus Biologicals Scholarship Program](#)

Novus Biologicals Scholarship Program

\$1,500

Deadline: December 13, 2019

Scholarships are open to all Native peoples from anywhere in the Americas, Alaska Natives, Native Hawaiians, and indigenous Pacific Islanders. The scholarships currently being offered include the SAA Arthur C. Parker Scholarship or NSF Scholarship for Archaeological Training, the SAA Native American Undergraduate Archaeology Scholarship, and the SAA Native American Graduate Archaeology Scholarship: to support graduate studies for Native American students, including but not limited to tuition, travel, food, housing, books, supplies, equipment, and child care. For more information or to apply, please visit the scholarship provider's website.

[Science Ambassador Scholarship](#)

Science Ambassador Scholarship

Amount Varies

December 09, 2019

Scholarship Description

The Science Ambassador Scholarship is a full-tuition scholarship for women studying science, technology, engineering, and mathematics, funded by Cards Against Humanity. The application is now open to undergraduate students and high school seniors. Interested applicants can follow us on Twitter, @CAH_Science. For more information or to apply, please visit the scholarship provider's website.

[Simplr Artificial Intelligence and Technology Scholarship](#)

Simplr Artificial Intelligence and Technology Scholarship

\$7,500

Deadline: December 31, 2019

Scholarship Description

Simplr is offering a \$7,500 scholarship to a passionate and deserving student who submits a winning essay in our specialized scholarship contest encompassing artificial intelligence (AI), the Internet of Things (IoT), Blockchain technology and Intellectual Property (IP) law. The scholarship will be awarded to a deserving student who is pursuing an undergraduate or graduate degree in Computer Science (CS), Mathematics, Information Technology (IT) or is attending or will attend law school. To be eligible for our scholarship contest you must be currently enrolled full time at an accredited community college, college or university, or accredited law school, and will be enrolled in the upcoming fall. For more information or to apply, please visit the scholarship provider's website.

[SOAR to College](#)

SOAR to College

\$1,000

Deadline: December 31, 2019

Scholarship Description

Applicants for the SOAR to College must display financial need and academic readiness/potential. Our scholarship does not account for the severity of cancer, because each person's case can be extremely different. Rather, we focus on the experience and growth of the patient and how it impacts his/her future in a positive way. For more information or to apply, please visit the scholarship provider's website.

[SOM Foundation Structural Engineering Research Fellowship](#)

SOM Foundation Structural Engineering Research Fellowship

\$20,000

Deadline: December 10, 2019

Scholarship Description

The Structural Engineering Travel Fellowship is a \$20,000 award that aims to foster an appreciation of the aesthetic potential in the structural design of buildings and bridges by enabling a gifted graduate to experience works of architecture and engineering first hand. The Foundation hopes that the Fellow will in turn influence the practice and teaching of structural engineering in the future. Applicants must be graduating with a bachelor's

degree, master's degree or Ph.D. in Civil or architectural engineering with a specialization in structural engineering from a U.S. school. U.S. citizenship is not required. For more information or to apply, please visit the scholarship provider's website.

[Spirit of Ramanujan STEM Talent Initiative](#)

Spirit of Ramanujan STEM Talent Initiative

\$5,000

Deadline: December 31, 2019

Scholarship Description

The scholarship was created to honor the legacy of Srinivasa Ramanujan, the Spirit of Ramanujan STEM Talent Initiative supports emerging engineers, mathematicians, and scientists who lack traditional institutional support through financial grants and mentorship opportunities. The scholarship is open to students from high school through college ages who live anywhere in the world. Winners of this international talent search receive up to \$5,000 to fund participation in research programs around the world or individual research with an approved sponsor. For more information or to apply, please visit the scholarship provider's website.

[The #NoRA Excellence in Art Activism Scholarship](#)

The #NoRA Excellence in Art Activism Scholarship

\$5,000

Deadline: December 31, 2019

Scholarship Description

The #NoRA Excellence in Art Activism Scholarship is a one-time \$5,000 scholarship awarded to a graduating High School Senior or student currently enrolled in a baccalaureate program who uses art to engage in gun violence prevention. Students must present a portfolio of art, music, writing, or other artistic endeavor and a detailed explanation of how it is used to enact social change around gun violence prevention. For more information or to apply, please visit the scholarship provider's website.

[The James Davidson Innovative Student Scholarship](#)

The James Davidson Innovative Student Scholarship

\$600

Deadline: December 21, 2019

Scholarship Description

The James Davidson Innovative Student Scholarship was initiated by SprayWorks Equipment Group's owner, James Davidson. James has been designing robots and equipment for the Polyurethane industry for decades and has 50 years of experience in the industry. Our goal is to support innovation amongst chemical science students

and encourage them to continue innovation in their chosen field. For more information or to apply, please visit the scholarship provider's website.

[The Jessi Ghawi Memorial Scholarship](#)

The Jessi Ghawi Memorial Scholarship

\$5,000

Deadline: December 31, 2019

Scholarship Description

The Jessi Ghawi Memorial Scholarship is a one-time \$5,000 merit-based scholarship awarded to two United States graduating high school seniors or currently enrolled non-graduating college students who are survivors of gun violence or who have lost an immediate family member to gun violence including suicide by gun. Named in honor of Jessi Ghawi—a young woman who lost her life in the 2012 Aurora, Colorado theater shooting—this award recognizes the importance of educating those students whose lives have been disrupted by preventable gun violence in America. For more information or to apply, please visit the scholarship provider's website.

[The National Honor Society Scholarship](#)

The National Honor Society Scholarship

\$25,000

Deadline: December 06, 2019

Scholarship Description

NHS is the oldest and best-known student recognition program. For nearly 100 years, NHS members have been making a difference in their schools and communities through their scholarship, service, leadership, and character. Alumni include celebrated individuals from all walks of life, including the arts and sciences, government, education, medicine, the military, politics, and athletics. High school seniors who are National Honor Society (NHS) members in good standing of an affiliated NHS chapter are eligible to apply for the scholarship. There are no limits to the number of applications per chapter. For more information or to apply, please visit the scholarship provider's website.

[Tocris Scholarship Program](#)

Tocris Scholarship Program

\$1,500

Deadline: December 13, 2019

Scholarship Description

Tocris is proud to support students who plan to pursue a science related degree. The Tocris Scholarship Program has been established to award a \$1500 scholarship (or international currency equivalent) twice a year for the fall and spring semesters. This scholarship is open in the US/Canada and European Countries to students accepted/enrolled in a university and plan to pursue a science related degree. For more information or to apply, please visit the scholarship provider's website.

[Valparaiso University Lutheran Leadership Award](#)

Valparaiso University Lutheran Leadership Award

Amount Varies

Deadline: December 15, 2019

Scholarship Description

Leadership awards are for Lutheran students who are actively engaged in leadership roles in their districts, synods, or Lutheran high schools. Candidates must be high school seniors nominated by leaders within a Lutheran denomination. For more information or to apply, please visit the scholarship provider's website.

[Wells Fargo Scholarship Program for People with Disabilities](#)

Wells Fargo Scholarship Program for People with Disabilities

\$2,500

Deadline: December 06, 2019

Scholarship Description

The Wells Fargo Scholarship Program for People with Disabilities is designed to help people with disabilities obtain the education or training necessary to succeed in the career path of their choice. To apply, you must have an identified disability (defined as someone who has, or considers themselves to have, a long-term or recurring issue that impacts one or more major life activity). Be high school seniors or graduates planning to enroll, or who are already enrolled, in full- or half-time undergraduate study at an accredited two- or four-year college or university in the United States. For more information or to apply, please visit the scholarship provider's website.

[Water Remediation Technology \(WRT\) Scholarships](#)

Water Remediation Technology (WRT) Scholarships

\$5,000

Deadline: December 20, 2019

Scholarship Description

Water Remediation Technology (WRT) provides effective processes for removing radium, uranium and other contaminants from water. Its goal is to fund education for water and wastewater operators across the country. This first year in the scholarship program, WRT is awarding three \$5,000 scholarships to worthy water operators.

Fellowship Search

[National Endowment for the Humanities](#)

Fellowships support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources in the humanities. Projects may be at any stage of development.

Section VI RESOURCES

[THE UPDATED GRANT AND LOAN GUIDE FOR LOCAL GOVERNMENTS IN WEST ALABAMA IS AVAILABLE ONLINE NOW!](#)

The guide is a quick reference to a variety of commonly used programs giving you the most important details you need to get started.

Find the Guide at <http://warc.info/planning-a-development/documents>~~http://warc.info/planning-a-development/documents~~. Scroll down to REGIONAL INFORMATION DOCUMENTS.

The guide is a free web-based resource designed to provide counties and municipalities in the West Alabama region with information about available grant and loan programs for community and economic development activities.

The guide provides program details on major Federal and State programs including agency contacts; award cycles; grant ceilings; matching requirements; and eligibility factors.

Alabama Additional Funding Sources

[Community Foundations in Alabama](#)

There are 13 community foundations in Alabama, covering 78 percent of the counties in the state and holding assets that total more than \$190 million.

[Daniel Foundation](#)

The Daniel Foundation offers grants in four program areas: Civic and Community Improvement, Education, Health, and Arts and Culture. Applications are limited to 501 (c)(3) organization that are located in Alabama.

[Alabama Power Foundation](#)

The Alabama Power Foundation allocates funding in four categories: Improving Education, Strengthening Communities, Promoting Arts and Culture, and Restoring and Enhancing the Environment.

[Alabama Humanities Foundation](#)

The AHF awards grants solely to support public humanities projects. Active public participation, involvement of humanities scholars, and strong humanities content are the three essential components of AHF-funded projects.

[Gwyn Turner Endowed Fund](#)

The fund is administered by the National Trust for Historic Preservation, in partnership with Alabama Trust for Historic Preservation. Nonprofits and governmental agencies can obtain funding for preservation planning, heritage education, workshops, conferences and special interventions. Grants range from \$1,000 to \$5,000 and require a 1:1 cash match.

Applicants are encouraged to discuss their project with the National Trust Southern Office before submitting an application. Contact the Southern Office at 843.722.8552, or e-mail soro@nthp.org.

[Sybil H. Smith Trust](#)

Established in 1983, this trust funds organizations in the First Congressional District only. Awards limited to arts, community development, education, and human services. No awards are given for individuals. For more information, call: 251.432.0208.

[Alabama State Council on the Arts](#)

Grants awarded to nonprofit organizations and local governments in the following categories: Presenting Grants, Project Assistance, Operating Support, Technical Assistance, Collaborative Ventures, and Program Development.

[Historic Chattahoochee Commission](#)

The Historic Chattahoochee Commission (HCC) promotes tourism and historic preservation in the Chattahoochee Trace, an 18-county region in Alabama and Georgia. The HCC supports preservation through two grant programs: Seed Grant and the Threatened Landmarks Program.

Veterans

[FACT SHEET: Veterans Employment Center](#)

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members and spouses are connected to high quality career choices by matching their identified skills with available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden's Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans and transitioning Service Members deserve a single, authoritative source for connecting to each other. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at: <https://www.ebenefits.va.gov/ebenefits/jobs%20%20>

For a tutorial video on how to use the Veterans Employment Center, please visit:
