

Guide to Grants

From the Office of Congresswoman Terri A. Sewell

Proudly Representing Alabama's 7th Congressional District

April 15, 2020

Welcome to the *Guide to Grants!*

I am honored to represent the 7th Congressional District of Alabama. As your representative during this unprecedented crisis of the **COVID-19 Pandemic**, it is my top priority to provide you with the resources we need to keep our community safe and thriving. I will work diligently to provide you with the most current information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our health and safety. This guide will identify federal, corporate, and foundation grant opportunities to assist you in goals for our communities. This guide will include links to federal agencies and resources to help you make your proposals more successful. This guide will also describe new funding opportunities for economic development, infrastructure, healthcare, and educational projects. Also, I am pleased to provide a Letter of Support for grant application projects in the 7th Congressional District of Alabama. Stay up to date with the latest information at <http://sewell.house.gov> Please continue to let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit our website at <http://sewell.house.gov>. To subscribe to *Guide to Grants*, sign up on our [website](#) or call us at 205.254.1960. Previous editions of the *Guide to Grants* are archived and can be found [here](#).

Rep. Sewell Announces \$8,243,026 in COVID-19 Funding for 17 Public Housing Authorities in Alabama's 7th Congressional District

Birmingham, AL - U.S. Rep. Terri Sewell (AL-07) was thrilled to announce \$8,243,026 in funding for 17 housing authorities throughout Alabama's 7th Congressional District today, which was included in the CARES Act supplemental public housing operating funds passed earlier this month. These funds were allocated to support public housing programs both in combatting the health threat of the coronavirus and mitigating its economic impact, including maintaining operating costs.

"I am thrilled by the additional funding allocated to public housing authorities across my district to support their efforts to protect their residents against the health threats and serious financial hardships caused by the Coronavirus," said Rep. Sewell. "This pandemic has only amplified the real health and economic challenges facing vulnerable communities. I know that these funds are not enough to solve this problem, but it is my hope that they will help bridge the gap as we continue to work toward finding a vaccine and cure to the COVID-19 crisis."

"The Housing Authority of the Birmingham District is appreciative and truly thankful for Congresswoman Terri Sewell's incredible efforts to secure these much needed funds through the CARES Act for our agency and public housing agencies across the state," said Dontrelle Young- Foster, Interim President and CEO of the Housing Authority of Birmingham. "Since the COVID-19 pandemic, HABD has partnered with the city of Birmingham, UAB and many other generous partners to provide COVID-19 messaging, feeding programs, prevention education, internet services, on-site resident testing and transportation to testing sites. HABD will continue the partnerships and expand the services and outreach to ensure that we meet all of the needs of our residents and staff during this health crisis as it relates to testing, education, community engagement, sanitization of our properties, and fulfilling all the needs of our families as they arise."

"As many of us know all too well, low to moderate-income families are among the most vulnerable during times of economic uncertainty," said Chris Hall, Executive Director, Tuscaloosa Housing Authority. "This funding is invaluable in terms of providing us with the additional resources necessary to assist the families we serve during the COVID-19 crisis. The Tuscaloosa Housing Authority (THA) is committed to ensuring that 100% of these funds go directly to those who need it the most. On behalf of the THA, I want to express my sincerest appreciation to Congresswoman Terri Sewell for her continued support of affordable housing, and for continuing to be a true champion for the people of Alabama's 7th District."

"As a housing director, this is much needed funding for a rural area community," said Anita Lewis of Greene County Public Housing Authority. "We have served the community the best, we can, short of PPE and proper protections. My staff has worked extra hours in order to protect the community from this virus. We would like to thank Congresswoman Sewell for helping us fill in the gap with the funding from the CARES Act and we will continue to do our part."

“I am so grateful for all of Congresswoman Sewell’s work in securing these funds,” said Kennard Randolph, Executive Director of the Selma Housing Authority. “These funds will go a long way toward helping us keep our staff and continue to operate, providing necessary services for our most vulnerable.”

Rep. Sewell Announces \$499,869 in Historic Preservation Funding to Miles College

Birmingham, AL – U.S. Rep. Terri Sewell (AL-07) was thrilled to announce \$499,869 in federal grant funding today through the National Park Service (NPS) to Miles College to preserve historical structures on campus. The funding comes as part of \$7.7 million recently awarded by NPS to Historically Black Colleges and Universities (HBCUs) to preserve historic structures including rehabilitation of historic properties, building sites and physical objects on HBCU campuses.

“I am thrilled that Miles College will be receiving nearly \$500,000 for historic preservation from the National Park Service,” said Rep. Sewell. “I have fought to create this funding specifically for historic preservation of civil rights sites, especially on HBCU campuses, since coming to Congress. HBCUs like Miles College have played a pivotal role in American history, especially in our nation’s struggle for civil rights, and those sites must be preserved. We must continue to invest in our HBCUs. We need them now more than ever. Protecting our HBCUs continues to be one of my top legislative priorities, and I will never stop working to ensure their vitality.”

“We are honored to be one of the recipients of this grant from the National Park Service,” said Bobbie Knight, President of Miles College. “It will play a significant role in the restoration of historic Williams Hall, breathing life back into a building that has played an indelible role in the history of our institution and has an important position in our future. We are extremely appreciative of Rep. Terri Sewell for her assistance in advocating for Miles College in Washington, D.C. and are indebted for her tireless service to our district. Our grant writing team at Miles was diligent in pursuing this opportunity, as well, and should certainly be commended.”

Rep. Sewell Votes in Favor of Latest Coronavirus Relief Package

Washington, D.C. – U.S. Rep. Terri Sewell (AL-07) voted in favor of the House-passed Senate Amendment to H.R. 266, the Interim Emergency Coronavirus Relief Package, otherwise known as the Paycheck Protection Program and Health Care Enhancement Act.

“I am hopeful that this legislation will offer relief to our small businesses, health care providers and states as they battle the coronavirus,” said Rep. Sewell. “I am especially pleased with the provisions in this legislation that take steps to address the inequities of the Paycheck Protection Program. Moving forward, we should build on these improvements to ensure that businesses in underserved communities are able to access the resources they need to succeed.”

“I’ve heard too many stories from frustrated business owners who have been unable to access the Paycheck Protection Program due to a lack of an existing relationship with a lender, or difficulty navigating the complex

application process. And these issues are disproportionately harming the rural and minority-owned businesses that make up the heart of my district,” Sewell said on the House floor today. “It was necessary to address this injustice and directly allocate funding to lenders that service the beauty salons, barber shops and restaurants on Main Streets across the country.”

The legislation, Congress’ fourth coronavirus response package, includes \$320 billion to make new loans under the Paycheck Protection Program (PPP), which provides forgivable loans to U.S. small business that keep employees on the payroll for eight weeks and has run out of funding.

Critically, the legislation improves the program by expanding access to assistance for small businesses in underserved areas, including rural, minority-owned and underbanked businesses, and provides a \$60 billion set-aside for small and mid-sized banks and credit unions as well as community-based lending institutions. This set-aside funding will help ensure that unbanked and underserved businesses can get access to PPP. This includes minority-owned businesses, rural businesses, small mom and pop businesses, and smaller nonprofits that too often have been pushed to the back of the line.

The legislation also includes key funding for the following programs:

\$50 billion for SBA’s Economic Injury Disaster Loan (EIDL) Program, which has also run out of funding: This emergency loan program provides flexible assistance to COVID-19-affected small businesses to cover operating expenses, including payroll and fixed costs like rent and utilities. This bill provides \$50 billion in EIDL program subsidy that will support over \$350 billion in new disaster loans directly from SBA.

\$10 billion for SBA’s EIDL Grant Program, which has also run out of funding: The bill provides \$10 billion for the EIDL grant program, which offers up to \$10,000 in cash advances for immediate relief to small businesses and eligible nonprofits that apply for an EIDL loan. The cash advance does not have to be paid back.

Expands the list of eligible entities for the EIDL Program to include farmers and other agricultural enterprises to the: The bill adds agricultural enterprises under 500 employees as an eligible recipient for grants of up to \$10,000 and low-interest loans of up to \$2 million through the SBA’s EIDL program.

\$75 billion for hospitals and health care workers: The bill provides \$75 billion to reimburse hospitals and other health care providers for health care related expenses or lost revenue attributable to COVID-19. This funding can be used for such purposes as desperately needed Personal Protective Equipment (PPE) for our health care workers. This funding is in addition to the \$100 billion that was provided for this same purpose in the CARES Act.

Requires a federal COVID-19 strategic testing plan: The bill requires the Secretary of HHS, no later than 30 days after the date of enactment, to submit to Congress a COVID-19 Strategic Testing Plan. The plan is to focus on increasing domestic testing capacity including testing supplies. The plan is to be updated every 90 days.

Requires a federal report with demographic data on COVID-19: The bill requires the Secretary of HHS, no later than 21 days after the date of enactment, to submit a report to Congress on the number of cases, hospitalizations, and deaths related to COVID-19, including de-identified data disaggregated by race, ethnicity, age, sex, geographic region, and other relevant factors. The report must be updated every 30 days.

Requires an additional federal report with demographic data on COVID-19: The bill requires the Secretary of HHS, no later than 180 days after the date of enactment, to submit a report to Congress on the number of positive

diagnoses, hospitalizations, and deaths as a result of COVID-19, including data disaggregated nationally by race, ethnicity, age, sex, geographic region, and other relevant factors.

\$25 Billion for Expenses Related to Expanding COVID-19 Testing: This funding includes covering expenses related to research, development, validation, manufacturing, purchasing, administering, or expanding capacity for COVID-19 testing. The \$25 billion includes:

\$11 billion for states, localities, territories, and tribes for COVID-19 testing and related activities: The \$11 billion can be used for necessary expenses to develop, purchase, administer, process and analyze COVID-19 tests, including support for the workforce, epidemiology, use by employers, scaling up testing, conducting surveillance, conducting contact tracing, and other related testing activities.

\$600 million for Community Health Centers: The \$600 million for Community Health Centers is to be used to support COVID-19 testing.

\$225 million for Rural Health Clinics: The \$225 million for Rural Health Clinics is to be used to support COVID-19 testing. **\$1 billion for testing for the uninsured:** This \$1 billion is to cover the cost of testing the uninsured.

The Senate passed the legislation by unanimous consent on Tuesday. It now heads to the President's desk for his signature.

Section I GENERAL GRANT INFORMATION

- Grants and Federal Domestic Assistance - Guidance and key resources to help eligible constituents find information on federal grants, loans, and nonfinancial assistance for projects, as well as on private funding. Prepared by the Congressional Research Service for Members of Congress, updated May 2014. Website: <http://sewell.house.gov/grant-information/>
- A federal grant is an award of financial assistance from a federal agency to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States. Federal grants are not federal assistance or loans to individuals. A federal grant may not be used to acquire property or services for the federal government's direct benefit. The 26 federal agencies offer over 1,000 grant programs annually in various categories. Website: <http://www07.grants.gov/aboutgrants/grants.jsp>
- To learn about Federal grant opportunities, register your organization, and receive notices, please visit www.grants.gov. It is the resource for all Federal grants.
- To apply for Federal Grants: http://www.grants.gov/applicants/apply_for_grants.jsp
- [Grants.gov](http://www.grants.gov) Applicant Training Video - Need a quick lesson on how to Register, Find, and Apply? Watch this short video to get tips on registering with Grants.gov; finding grant opportunities; understanding your search results; and, applying for opportunities.
- To learn about foundation grant opportunities, please visit <http://foundationcenter.org/>. The Foundation Center is a gateway to information about private funding sources and provides guidelines about how to write a grant proposal. It also provides links to state libraries with grants reference collections and links to other useful Internet websites.

COVID-19 Funding Opportunities

Department of Agriculture **[Distance Learning and Telemedicine Grants](#)**

Authorized by 7 U.S.C. 950aaa, the DLT Program provides financial assistance to enable and improve distance learning and telemedicine services in rural areas. DLT grant funds support the use of telecommunications-enabled information, audio and video equipment, and related advanced technologies by students, teachers, medical professionals, and rural residents. These grants are intended to increase rural access to education, training, and health care resources that are otherwise unavailable or limited in scope.

The regulation for the DLT Program can be found at 7 CFR part 1734. All applicants should carefully review and prepare their applications according to instructions in the FY 2020 DLT Grant Program Application Guide (Application Guide) and program resources. This Application Guide can be found in this entry on grants.gov as well as at <https://www.rd.usda.gov/programs-services/distance-learning-telemedicine-grants>. Expenses incurred in developing applications will be at the applicant's own risk.

This is the second application window for the DLT program in FY2020. Approximately \$71.7 million was made available for funding under Window 1, which included \$47 million in funds appropriated for FY2020 as well as funds totaling \$24.7 million which were not awarded during FY2019 and have been carried forward to the current year. Window 1 closed April 10, 2020. The Agency will be processing applications and making Window 1 awards in the coming months. Funds not awarded under Window 1 will be made available under Window 2, along with \$25 million received from the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). The agency also reserves the right to increase funding utilizing the application queue under this opportunity should additional appropriations become available for the same purposes.

Deadline: July 13, 2020

Department of Health and Human Services **[Announcement to Support Novel, High-Impact Studies Evaluating Health System and Healthcare Professional Responsiveness to COVID-19 \(CFDA 93.226\)](#)**

The health systems research community should prepare to submit applications to AHRQ to fund critical research focused on evaluating topics such as innovations and challenges encountered in the rapid expansion of telemedicine in response to COVID-19, effects on quality, safety, and value of health system response to COVID-19, and the role of primary care practices and professionals during the COVID-19 epidemic. AHRQ is particularly interested in understanding how digital health innovations contributed to health system and healthcare professional innovation and challenges and solutions to meeting the needs of vulnerable populations including older adults, people living with multiple chronic conditions, rural communities, and uninsured and underinsured populations.

National Infrastructure for Mitigating the Impact of COVID-19 within Racial and Ethnic Minority Communities

The Office of Minority Health (OMH) is offering a funding opportunity to support the development and coordination of a national-state/territorial/tribal-local network of public and community-based organizations that will disseminate COVID-19-related information; disseminate effective response, recovery and resilience strategies; and ensure service linkages for racial and ethnic minority, rural and disadvantaged communities hardest hit by the COVID-19 pandemic. OMH expects funding to be used to: 1) develop a strategic information dissemination network of national, state, tribal, territorial and local organizations who are trusted and usual information sources for racial and ethnic minority, rural and disadvantaged communities, including State Offices of Minority Health; 2) develop and disseminate culturally and linguistically diverse multi-media outreach and education, via a variety of communication methods, through the information dissemination network; 3) identify states/tribes/territories with geographic high impact areas of racial and ethnic minority, rural and disadvantaged individuals at substantially greater risk for COVID-19 infection and adverse outcomes (e.g., due to prevalence of underlying health conditions such as hypertension, heart disease, diabetes, obesity, asthma, and COPD/lung disease; structural and systemic barriers to physical distancing; challenges to accessing healthcare and social services; etc.); 4) partner with community-based organizations (CBOs) who are trusted voices within these high impact areas to disseminate public health messaging and link at-risk individuals to testing, healthcare and social services; 5) identify and disseminate successful state, tribal, territorial and local strategies addressing immediate response, recovery and resilience for racial and ethnic minority, rural and disadvantaged populations; 6) develop and implement a monitoring, evaluation and quality improvement plan; and 7) document and disseminate project findings, including successes and lessons learned. OMH will fund one award annually for a project period of up to 3 years and up to a total project budget of \$40,000,000. Successful applicants will be required to meet performance metrics developed with and agreed to by OMH,

BACKGROUND: Emerging data suggests racial and ethnic minority populations are experiencing disproportionate impact and worse health outcomes from COVID-19. Past public health crises, like the H1N1 pandemic and Zika epidemic, have demonstrated and amplified the vulnerability of these populations. Specifically, when combined with a greater baseline prevalence of underlying health conditions, a public health crisis like COVID-19 further exacerbates the higher morbidity and mortality for racial and ethnic minority

communities. Due to lack of resources and limited capacity to provide healthcare and social services, rural communities are also vulnerable to adverse COVID-19 outcomes in the immediate and long term. To mitigate the effects of COVID-19, engagement of trusted messengers and state, tribal, territorial and community partners is critical to ensuring rapid coordination and connection of racial and ethnic minority, rural and disadvantaged communities with culturally and linguistically diverse information and needed healthcare and social services.

Deadline: May 11, 2020

Supporting Tribal Public Health Capacity in Coronavirus Preparedness and Response (CFDA 93.391)

On March 6, 2020, the President signed into law the Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (P.L. 116-123). This act provides funding to prevent, prepare for, and respond to Coronavirus Disease 2019 (COVID-19). To support tribal public health emergency response to COVID-19, the Centers for Disease Control and Prevention (CDC) is announcing a new, non-competitive grant CDC-RFA-OT20-2004 Supporting Tribal Public Health Capacity in Coronavirus Preparedness and Response. CDC is awarding at least \$40,000,000 under this funding opportunity to Title I and Title V tribal nations to strengthen the tribal public health system to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities in response to COVID-19. CDC is committed to helping ensure that tribal jurisdictions have adequate resources for an appropriate COVID-19 response. The continued support for and expansion of critical public health activities at the tribal level are essential to meet the needs in this quickly evolving response. Funds from this funding opportunity will be made available for a variety of activities including, but not limited to: Emergency operations and coordination activities (e.g., establishing emergency operations centers, incident management systems, continuity of operations plans, etc.);

Public health management and risk assessment of travelers and others with potential COVID-19 exposure; equipment, supplies, shipping activities, or others to strengthen jurisdictional recovery;

Laboratory, surveillance, and epidemiologic (e.g., case identification) activities, data management activities, and others to strengthen bio surveillance;

Risk communications activities, distribution and use of medical material, and others to strengthen information management;

Activities to strengthen countermeasures and mitigation (e.g., storage and distribution systems, inventory management systems, points of dispensing (POD) alternative nodes, etc.;

Surge staffing activities, infection control activities and others to strengthen surge management; and other preparedness and response activities.

Deadline: May 31, 2020

Supporting Tribal Public Health Capacity in Coronavirus Preparedness and Response(CFDA 93.391)

On March 6, 2020, the President signed into law the Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (P.L. 116-123). This act provides funding to prevent, prepare for, and respond to Coronavirus Disease 2019 (COVID-19).

To support tribal public health emergency response to COVID-19, the Centers for Disease Control and Prevention (CDC) is announcing a new, non-competitive grant CDC-RFA-OT20-2004 Supporting Tribal Public Health Capacity in Coronavirus Preparedness and Response. CDC is awarding at least \$40,000,000 under this funding opportunity to Title I and Title V tribal nations to strengthen the tribal public health system to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities in response to COVID-19.

CDC is committed to helping ensure that tribal jurisdictions have adequate resources for an appropriate COVID-19 response. The continued support for and expansion of critical public health activities at the tribal level are essential to meet the needs in this quickly evolving response. Funds from this funding opportunity will be made available for a variety of activities including, but not limited to:

Emergency operations and coordination activities (e.g., establishing emergency operations centers, incident management systems, continuity of operations plans, etc.); Public health management and risk assessment of travelers and others with potential COVID-19 exposure; equipment, supplies, shipping activities, or others to strengthen jurisdictional recovery; Laboratory, surveillance, and epidemiologic (e.g., case identification) activities, data management activities, and others to strengthen bio surveillance; Risk communications activities, distribution and use of medical material, and others to strengthen information management; Activities to strengthen countermeasures and mitigation (e.g., storage and distribution systems, inventory management systems, points of dispensing (POD) alternative nodes, etc.); Surge staffing activities, infection control activities and others to strengthen surge management; and other preparedness and response activities

Deadline: May 31, 2020

Emergency Awards: Rapid Investigation of Severe Acute Respiratory Syndrome Coronavirus 2 (SARS- CoV-2) and Coronavirus Disease 2019 (COVID-19) (R21 Clinical Trial Not Allowed)(CFDA 93.855)

The purpose of this Funding Opportunity Announcement (FOA) is to provide an expedited (rapid) funding mechanism for research on Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) and Coronavirus Disease 2019 (COVID-19)

Deadline: April 29, 2021

Department of Homeland Security

Assistance to Firefighters Grant Program – COVID-19 Supplemental

The Fiscal Year (FY) 2020 Assistance to Firefighters Grant Program – COVID-19 Supplemental (AFG-S) is a supplemental funding opportunity under the Assistance to Firefighters Grant Program (AFG). AFG is one of three grant programs that constitute the Department of Homeland Security (DHS) Federal Emergency Management Agency's (FEMA) focus on enhancing the safety of the public and firefighters with respect to fire and fire-related hazards. The AFG-S Program accomplishes this by providing financial assistance directly to eligible fire departments, nonaffiliated emergency medical service (NAEMS) organizations, and State Fire Training Academies (SFTA) for critical Personal Protective Equipment Personal Protective Equipment and supplies needed to prevent, prepare for, and respond to the COVID-19 public health emergency. The AFG-S Program represents part of a comprehensive set of measures authorized by Congress and implemented by DHS. Among the five basic homeland security missions noted in the DHS Quadrennial Homeland Security Review, the AFG-S Program supports the goal to Strengthen National Preparedness and Resilience. In awarding grants, the Administrator of FEMA is required to consider:

The findings and recommendations of the Technical Evaluation Panel;

The extent of an applicant's need for an AFG-S grant and the need to protect America as a whole; and

The number of calls requesting or requiring a firefighting or emergency medical response received by an applicant.

The 2018-2022 FEMA Strategic Plan creates a shared vision for the field of emergency management and sets an ambitious, yet achievable, path forward to unify and further professionalize emergency management across the country. The AFG-S Program supports the goal of Ready the Nation for Catastrophic Disasters. We invite all of our stakeholders and partners to also adopt these priorities and join us in building a stronger agency and a more prepared and resilient Nation.

Deadline: May 15, 2020

Department of Defense

Newton Award for Transformative Ideas during the COVID-19 Pandemic(CFDA 12.630)

Background: From 1665 to 1666, the Great Plague of London swept across England, likely taking the lives of over 100,000 people (United Kingdom Public Archives, 2020). Though the germ theory of disease would not be formulated until the 1860s, the English public engaged in “social distancing” behaviors to avoid illness (Washington Post, 2020), leading to the closure of universities. Among the displaced was a young Isaac Newton, still a student at Trinity College in Cambridge. During the ensuing year of isolated study and reflection, Newton developed the basis for calculus, as well as foundational theories in gravitation, motion, and optics.

Separated from the Great Plague by 350 years, the COVID-19 pandemic has led to similar health responses among the general public and scientific community, forcing the closure of laboratories and universities throughout the world and slowing scientific progress across theoretical and empirical domains. To help stimulate scientific thought and encourage efforts and advancements in the spirit of Sir Isaac, the Basic Research Office in the U.S. Department of Defense (DoD) announces the Newton Award for Transformative Ideas during the COVID-19 Pandemic. Program Objective: This award will be presented to a single investigator or team of up to two investigators that develops a “transformative idea” to resolve challenges, advance frontiers, and set new paradigms in areas of immense potential benefit to DoD and the nation at large. Proposals should aim to produce novel conceptual frameworks or theory-based approaches that present disruptive ways of thinking about fundamental scientific problems that have evaded resolution, propose new, paradigm-shifting scientific directions, and/or address fundamental and important questions that are argued to be undervalued by the scientific community. Approaches can include analytical reasoning, calculations, simulations, and thought experiments. While the use and production of datasets is allowed, any new supporting data should be generated without the use of any experimentation or instrumentation, as the nation-wide closure of laboratories limits the ability of investigators to follow normal safety procedures set by their institutions, in accordance with federal and state regulations.

Given the novelty of and circumstances surrounding this one-time Funding Opportunity Announcement (FOA), the objective of this program is to generate proposals that are equally novel and pioneering. Therefore, this FOA should be viewed as an opportunity to propose basic research that falls outside the bounds of traditional proposals.

Expectations of Award Recipients: Newton Award recipients will produce novel conceptual frameworks or theoretical approaches to addressing outstanding or emerging challenges facing the scientific community. The resulting frameworks and approaches should include clear predictions that can be tested by the scientific community in the years following the return to the laboratory environment. Findings must be submitted as pre-publication material in open archives and disseminated through open publication in a journal. Award winners will brief the Office of the Undersecretary of Defense for Research and Engineering (OUSD(R&E)) leadership at the end of the award period of performance, and may be asked to design and chair a Future Directions Workshop on the topic of their findings. In addition, OUSD(R&E) will support funded projects in finding pathways to continue the funding, validation, and development of their transformative ideas. Only one proposal total may be submitted by each investigator.

Deadline: May 15, 2020

Technology/Therapeutic Development Award for Emerging Viral Diseases and Respiratory Health(CFDA 12.420)

The PRMRP Technology/Therapeutic Development Award is a product-driven award mechanism intended to provide support for the translation of promising preclinical findings into products for clinical applications in one or more Focus Areas published in this funding opportunity for the FY20 PRMRP Topic Areas of Emerging Viral Diseases and/or Respiratory Health. Products in development should be responsive to the healthcare needs of military Service members, Veterans, and/or beneficiaries.

The product(s) to be developed may be a tangible item such as a pharmacologic agent (drugs or biologics) or device, or a knowledge-based product. (A "Knowledge Product" is a non-materiel product that addresses an identified need in a Topic Area, is based on current evidence and research, aims to transition into medical practice, training, tools, or to support materiel solutions [systems to develop, acquire, provide, and sustain medical solutions and capabilities], and educates or impacts behavior throughout the continuum of care, including primary prevention of negative outcomes.) The Principal Investigator (PI) must provide a transition plan (including potential funding and resources, see Attachment 8) showing how the product will progress to the next level of development (e.g., clinical trials, delivery to the military or civilian market) after the completion of the PRMRP award. PIs are encouraged to develop relationships with industry and/or other funding agencies to facilitate moving the product into the next phase of development.

Deadline: June 12, 2020

CDMRP PRMRP Investigator-Initiated Research Award for Emerging Viral Diseases and Respiratory Health(CFDA 12.420)

The PRMRP Investigator-Initiated Research Award is intended to support studies that will make an important contribution toward research and/or patient care in one or more Focus Areas published in this Funding Opportunity for the FY20 PRMRP Topic Areas of Emerging Viral Diseases and/or Respiratory Health.

The rationale for a research idea may be derived from a laboratory discovery, population-based studies, a clinician's first-hand knowledge of patients, or anecdotal data. Applications must include relevant data that support the rationale for the proposed study. These data may be unpublished or from the published literature.

Impact: The Investigator-Initiated Research Award is designed to support research with the potential to yield highly impactful data that could lead to critical discoveries or major advancements. The application must clearly demonstrate the project's potential short-term and long-term outcome(s)/product(s) (knowledge and/or materiel) and how they will impact a critical problem or question in the field of research and/or patient care in one or more Focus Areas published in this funding opportunity for the FY20 PRMRP Topic Area(s) of Emerging Viral Diseases and/or Respiratory Health.

Research projects may focus on any phase of research from basic laboratory research through translational research, including preclinical studies in animal models and human subjects, as well as correlative studies associated with an existing clinical trial. Research involving human subjects and human anatomical substances is permitted; however, this award may not be used to conduct clinical trials. For more information on how to distinguish clinical research from clinical trials, see the Human Subject Resource Document at <https://ebrap.org/eBRAP/public/Program.htm>.

Deadline: June 12, 2020

Environmental Protection Agency

STATE ENVIRONMENTAL JUSTICE COOPERATIVE

AGREEMENT PROGRAM (SEJCA) / COVID-19

PROJECTS

The U.S. Environmental Protection Agency (EPA) is working to improve the environment and public health conditions of low-income and minority communities. EPA also continues to make effective responses to COVID-19 issues a top priority. As part of these efforts, this notice announces EPA re-opening the State Environmental Justice Cooperative Agreement Program (SEJCA) and the availability of funds for US States, Territories, Tribal Governments, and local governments to propose projects focusing on COVID-19 and other areas as identified in Section I. The SEJCA program provides funding to eligible entities to work collaboratively with underserved communities to understand, promote and integrate approaches to provide meaningful and measurable improvements to public health and/or the environment in those communities. For purposes of this announcement, the term "underserved community" refers to a community with environmental justice concerns and/or vulnerable populations, including minority, low income, rural, tribal, indigenous, and homeless populations.

Deadline: June 30, 2020

National Endowment for the Arts
**NEH CARES: Cultural Organizations (CDFA 45.149,
45.161, 45.162, 45.164, 45.169)**

The Coronavirus Aid, Relief, and Economic Security (CARES) Act recognizes that the nonprofit humanities sector is an essential component of America’s economic and civic life. The National Endowment for the Humanities (NEH) has received supplemental funding to provide emergency relief to institutions and organizations working in the humanities that have been affected by the coronavirus. In keeping with Congress’s intent in enacting the CARES Act, proposed short-term projects should emphasize retaining or hiring humanities staff.

NEH invites applications from eligible organizations seeking support for at-risk humanities positions and projects that have been impacted by the coronavirus. Through this funding opportunity, NEH will award grants to museums, libraries and archives, historic sites, independent research institutions, professional organizations, colleges and universities, and other cultural organizations across the country to help these entities continue to advance their mission during the interruption of their operations due to the coronavirus pandemic.

Deadline: May 11, 2020

Department of Education
Office of Elementary and Secondary Education
(OESE): Education Stabilization Fund-Rethink K-12
Education Models (ESF-REM) Discretionary Grant
Program CFDA Number 84.425B

Purpose of Program: The purpose of the ESF-REM Grants program is to provide support through discretionary grants to State educational agencies (SEAs) (as defined in this notice) in States with the highest coronavirus burden (as defined in this notice) to address specific educational needs of students, their parents, and teachers in public and non-public elementary and secondary schools in accordance with section 18001(a)(3) of the CARES Act.

Deadline: June 29, 2020

Higher Education Emergency Relief Fund-FIPSE
(CFDA Number 84.425N, 84.425L, 84.425K,
84.425M, 84.425J)

Funding Opportunity Number ED-GRANTS-043020-003 is for Higher Education Emergency Relief Fund-FIPSE (84.425N) program.

Deadline: August 1, 2020

END COVID-19 SECTION

Corporation for National and Community Service

Environmental Protection Agency

NATIONAL ENVIRONMENTAL EDUCATION AND TRAINING PROGRAM—SOLICITATION NOTICE FOR 2020-(CFDA66.950)

The purpose of the National Environmental Education and Training Program is to deliver environmental education (EE) training and long-term support to education professionals across the U.S. in the development and delivery of environmental education and training programs and studies.

Deadline: May 29, 2020

Institute of Museum and Library Services

National Aeronautics and Space Administration

ROSES 2020: Space Weather Science Application Operations-to-Research-(CFDA 43.001)

The close date above is the date for the Step-1 proposal submission. See the solicitation for the Step-2 due date. Step-2 proposals cannot be submitted if a Step-1 proposal was not submitted.

The National Aeronautics and Space Administration (NASA) Science Mission Directorate (SMD) released its annual omnibus Research Announcement (NRA), Research Opportunities in Space and Earth Sciences (ROSES) – 2020 (OMB Approval Number 2700-0092, CFDA Number 43.001) on February 14, 2020. In this case, "omnibus" means that this NRA has many individual program elements, each with its due dates and topics. All together these cover the wide range of basic and applied supporting research and technology in space and Earth sciences supported by SMD. Awards will be made as grants, cooperative agreements, contracts, and inter- or intra-agency transfers, depending on the nature of the work proposed, the proposing organization, and/or program requirements. However, most extramural research awards deriving from ROSES will be grants, and many program elements of ROSES specifically exclude contracts, because contracts would not be appropriate for the nature of the work solicited. The typical period of performance for an award is three years, but some programs may allow up to five years and others specify shorter periods. In most cases, organizations of every type, Government and private, for-profit and not-for-profit, domestic and foreign (with some caveats), may submit proposals without restriction on teaming arrangements. Tables listing the program elements and due dates, the full text of the ROSES-2020 solicitation, and the "Summary of Solicitation" as a stand-alone document, may all be found NSPIRES at <http://solicitation.nasaprs.com/ROSES2020>.

This synopsis is associated with one of the individual program elements within ROSES, but this is a generic summary that is posted for all ROSES elements. For specific information on this particular program element download and read the PDF of the text of this program element by going to Tables 2 or 3 of this NRA at <http://solicitation.nasaprs.com/ROSES2020table2> and <http://solicitation.nasaprs.com/ROSES2020table3>, respectively, click the title of the program element of interest, a hypertext link will take you to a page for that particular program element. On that page, on the right side under "Announcement Documents," the link on the bottom will be to the PDF of the text of the call for proposals. For example, if one were interested in The Lunar Data Analysis Program (NNH20ZDA001N-LDAP) one would follow the link to the NSPIRES page for that program element and then to read the text of the call one would click on "C.8 Lunar Data Analysis (.PDF)" to download the text of the call. If one wanted to set it into the context of the goals, objectives and know the default rules for all elements within Appendix C, the planetary science division, one might download and read the "C.1 Planetary Science Research Program Overview (.PDF)" from that same page. While the letters and numbers are different for each element within ROSES (A.12, B.7, etc.) the basic configuration is always the same, e.g., the letter indicates the Science Division (A is Earth Science, B is Heliophysics, etc.) and whatever the letter, #1 is always the overview.

Frequently asked questions for ROSES are posted at <http://science.nasa.gov/researchers/sara/faqs>. Questions concerning general ROSES-2020 policies and procedures may be directed to Max Bernstein, Lead for Research, Science Mission Directorate, at sara@nasa.gov, but technical questions concerning specific program elements should be directed to the point(s) of contact for that particular element, who may be found either at the end of the individual program element in the summary table of key information or on the web list of topics and points of contact at <http://science.nasa.gov/researchers/sara/program-officers-list>.

Not all program elements are known at the time of the release of ROSES. To be informed of new program elements or amendments to this NRA, proposers may subscribe to (1) The SMD mailing lists (by logging in at <http://nspires.nasaprs.com> and checking the appropriate boxes under "Account Management" and "Email Subscriptions"), (2) The ROSES-2020 RSS feed for amendments, clarifications, and corrections to at <http://science.nasa.gov/researchers/sara/grant-solicitations/ROSES-2020>, and (3) The ROSES-2020 due date

Google calendar. Instructions are at <https://science.nasa.gov/researchers/sara/library-and-useful-links> (link from the words due to date calendar).

Deadline: December 16, 2020

National Archives and Records Administration

Collaboratives-202006 Archive Collaboratives- (CFDA 89.003)

The National Historical Publications and Records Commission seeks projects that will make collections from small and under-represented archives more readily available for public discovery and use. The grant program will fund Archives Collaboratives to share best practices, tools, and techniques; assess institutional strengths and opportunities; and promote management structures for long-term sustainability and growth.

Archives Collaboratives must consist of three or more organizations. They may: be located in the same community, state, or geographic region, be “virtual” or online collaboratives, share affinities among the scope and subject matter of their collections, have similar organizational missions, serve similar types of user communities

Implementation Grants – Funds will be granted to implement the projects developed during the planning phase. Projects that demonstrate commitments by member organizations, a work plan, and a timeline are eligible to receive grants up to \$100,000, shared by the consortia, to carry out the project. Applications would be due on January 16, 2020, with a start date for implementation of July 1, 2020.

For a comprehensive list of the Commission’s limitations on funding, please see “What we do and do not fund” (<http://www.archives.gov/nhprc/apply/eligibility.html>). Applications that consist entirely of ineligible activities will not be considered.

Award Information

Successful Archives Collaboratives that have completed the Planning Phase are eligible to apply for an Implementation Grant of up to \$100,000, shared by the consortia.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications and other products that result from its support.

Eligibility Information

Eligible applicants: Nonprofit organizations or institutions, Colleges, universities, and other academic institutions, state or local government agencies, Federally-acknowledged or state-recognized Native American tribes or groups

Cost Sharing

The total costs of a project are shared between the NHPRC and the applicant organization.

The Commission provides no more than 75 percent of total project costs for the Implementation Grants. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101).

The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost-sharing contribution.

Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) before applying, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at www.sam.gov. Please refer to the User Guides section and the Grants Registrations PDF.

A complete application includes the Application for Federal Assistance (Standard Form 424), Assurances -- Non-Construction Programs (Standard Form 424B), a Project Narrative, Summary, Supplementary Materials, and Budget. Applications lacking these items will not be considered.

Ineligible applications will not be reviewed.

Deadline: June 10, 2020

Publishing Historical Records in Documentary Editions Editions-202006-(CFDA 89.003)

The National Historical Publications and Records Commission seeks proposals to publish documentary editions of historical records. Projects may focus on broad historical movements in U.S. history, such as law (including the social and cultural history of the law), politics, social reform, business, military, the arts, and other aspects of the national experience, or maybe centered on the papers of major figures from American history. Whether conceived as a thematic or a biographical edition, the historical value of the records and their expected usefulness to broad audiences must justify the costs of the project.

The Commission is especially interested in projects to commemorate the 250th anniversary of the Declaration of Independence. We encourage applications that use collections to examine the ideas behind the founding of the United States and the continual interpretation and debate over those ideals over the past 250 years. We welcome projects that engage the public, expand civic education, and promote understanding of the nation's history, democracy, and culture from the founding era to the present day.

The goal of this program is to provide access to, and editorial context for, the historical documents and records that tell the American story. Applicants should demonstrate familiarity with the best practices recommended by

the Association for Documentary Editing (ADE) or the Modern Language Association (MLA) Committee on Scholarly Editions.

All new projects (those which have never received NHPRC funding) must have definitive plans for publishing and preserving a digital edition that provides online access to a searchable, fully-transcribed and annotated collection of documents. New projects may also prepare print editions (including ebooks and searchable PDFs posted online) as part of their overall publishing plan, but the contents of those volumes must be published in a fully-searchable digital edition within a reasonable period following print publication. The NHPRC encourages projects to provide free public access to online editions. Projects that do not have definitive plans for digital dissemination and preservation in place at the time of application will not be considered.

Grants are awarded to collaborative teams (including at least two scholar-editors, in addition to one or more archivists, digital scholars, data curators, and/or other support and technical staff, as necessary) for collecting, describing, preserving, compiling, transcribing, annotating, editing, encoding, and publishing documentary source materials online and in print. Eligible documentary edition projects typically focus on an original manuscript or typewritten documents, but may also include other formats, such as analog audio and/or born-digital records. Because of the focus on historical documentary sources, grants do not support the preparation of critical editions of published works unless such works are just a small portion of the larger project.

This grant program does not support the production of film or video documentaries. For a comprehensive list of the Commission's limitations on funding, please see What We Do and Do Not Fund. Applications that consist entirely of ineligible activities will not be considered.

Ongoing projects: Applicants from ongoing projects must demonstrate that they have successfully achieved the performance objectives associated with previous NHPRC awards; provide updated, current information, including a description of the new activities; describe the content and historical significance of the specific materials to be edited during the proposed grant period; show progress towards completing the edition, and justify costs in a new budget.

Award Information

A grant is for one year and up to \$175,000 per year. The Commission expects to make up to 25 grants in this category for a total of up to \$3,000,000. Grants begin no earlier than January 1, 2021.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications, publicity, and other products that result from its support.

Eligibility U.S. nonprofit organizations or institutions, U.S. colleges, universities, and other academic institutions, state or local government agencies, Federally-acknowledged or state-recognized Native American tribes or groups

Cost Sharing

The total costs of a project are shared between the NHPRC and the applicant organization. The Commission provides no more than 50 percent of total project costs in the Publishing Historical Records in the Documentary Editions category. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101).

Cost-sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost-sharing contribution.

Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) before applying, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF.

Ineligible applications will not be reviewed.

Deadline: June 10, 2020

State Board Programming Grants-(CFDA 89.003)

The National Historical Publications and Records Commission seeks proposals that strengthen the nation's archival network through activities undertaken by state historical records advisory boards. The purpose of this grant program is to assist state boards to broaden preservation of, and increased online access to, historical records; develop and promote best practices; support activities that put the American people in touch with primary sources in their communities and online; promote the institutional advancement of organizations in underserved communities, and assist locally-based repositories with training and tools to improve their stewardship abilities. The Commission will award grants to state historical records advisory boards to

- Operate state-based regrant programs that preserve historical records and make them available online
- Provide educational and outreach programs, workshops, and other activities that enhance citizen and student engagement with historical records
- Offer scholarships, training opportunities, and other programs that support institutional advancement among records repositories, especially those in underserved communities
- Collaborate on projects with other organizations to address common problems or shared opportunities within a state or among a consortium of state archives
- Hold or participate in meetings and public forums on statewide or national archival issues.

The NHPRC encourages organizations to actively engage the public in the work of the project. Projects utilizing traditional approaches with a proven record of success, as well as projects testing innovative approaches, are welcome. All applications should outline a process for contacting institutions and individuals who participate in the board's programs (i.e., regrant and training scholarship recipients, workshop attendees, etc.) to determine how they benefited from the program in which they participated. Applications should also outline a process for evaluating the board's programs, determining their effectiveness, and proposing appropriate changes. For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund" (<http://www.archives.gov/nhprc/apply/eligibility.html>). Applications that consist entirely of ineligible activities will not be considered. Award Information The Commission offers two levels of funding. A Level I grant is for one year and up to \$12,000. A Level II grant is for one year and up to \$40,000 or two years and up to \$80,000. Applicants may request either Level I or Level II funding, but not both. The Commission expects to make up to a total of 30 grants in this category for a total of up to \$800,000. Grants begin no earlier than January 1, 2021. The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publicity,

publications, and other products that result from its support. Eligibility These grants are awarded only to state historical records advisory boards in each state, or to the state agency responsible for the state board, ordinarily the state archives. Another state agency, or a non-profit organization, such as a foundation or university, acting on behalf of the designated state agency may apply. States also include the District of Columbia, the Commonwealth of Puerto Rico, and the United States territories. Cost Sharing The total costs of a project are shared between the NHPRC and the applicant organization. The Commission provides no more than 75 percent of total project costs in the State Board Programming Grants category. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Cost-sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost-sharing contribution. Other Requirements Applicant organizations must be registered in the System for Award Management (SAM) before applying, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF. Ineligible applications will not be reviewed.

Deadline: June 10, 2020

[Access to Historical Records: Major Initiatives – \(CFDA 89.003\)](#)

The National Historical Publications and Records Commission seeks projects that will significantly improve public discovery and use of major historical records collections. The Commission is especially interested in collections of America's early legal records, such as the records of colonial, territorial, county, and early statehood and tribal proceedings that document the evolution of the nation's legal history. All types of historical records are eligible, including documents, photographs, born-digital records, and analog audio and moving images. Projects may:

- Digitize historical records collections, or related collections, held by a single institution and make them freely available online
- Provide access to born-digital records
- Create new freely-available virtual collections drawn from historical records held by multiple institutions
- Create new tools and methods for users to access records

The NHPRC welcomes collaborative projects, particularly for bringing together related records from multiple institutions. Projects that address significant needs in the field and result in replicable and scalable approaches will be more competitive. We also encourage organizations to actively engage the public in the work of the project. Applicants should also consult Access to Historical Records: Archival Projects program, which has different requirements and award amounts. For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund" (<http://www.archives.gov/nhprc/apply/eligibility.html>). Applications that consist entirely of ineligible activities will not be considered. Award Information A grant is for one to three years and between \$100,000 and \$350,000. We expect to make up to five grants in this category for a total of up to \$1,000,000. Grants begin no earlier than January 1, 2021. The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications and other products that result from its support. Eligibility Eligible applicants:

- Nonprofit organizations or institutions
- Colleges, universities, and other academic institutions
- State or local government agencies
- Federally-acknowledged or state-recognized Native American tribes or groups

Cost Sharing The total costs of a project are shared between the NHPRC and the applicant organization. The Commission provides no more than 50 percent of total project costs in the Access to Historical

Records: Major Initiatives category. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Cost-sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost-sharing contribution. Other Requirements Applicant organizations must be registered in the System for Award Management (SAM) before applying, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF. A complete preliminary application includes the Application for Federal Assistance (Standard Form 424), a Project Narrative, and Budget. Applications lacking these items will not be considered. Ineligible applications will not be reviewed.

Deadline: July 09, 2020

Publishing Historical Records in Documentary Editions-(CDFA 89.003) Editions 202010

The National Historical Publications and Records Commission seeks proposals to publish documentary editions of historical records. Projects may focus on broad historical movements in U.S. history, such as law (including the social and cultural history of the law), politics, social reform, business, military, the arts, and other aspects of the national experience, or maybe centered on the papers of major figures from American history. Whether conceived as a thematic or a biographical edition, the historical value of the records and their expected usefulness to broad audiences must justify the costs of the project.

The Commission is especially interested in projects to commemorate the 250th anniversary of the Declaration of Independence. We encourage applications that use collections to examine the ideas behind the founding of the United States and the continual interpretation and debate over those ideals over the past 250 years. We welcome projects that engage the public, expand civic education, and promote understanding of the nation's history, democracy, and culture from the founding era to the present day.

The goal of this program is to provide access to, and editorial context for, the historical documents and records that tell the American story. Applicants should demonstrate familiarity with the best practices recommended by the Association for Documentary Editing (ADE) or the Modern Language Association (MLA) Committee on Scholarly Editions.

All new projects (those which have never received NHPRC funding) must have definitive plans for publishing and preserving a digital edition that provides online access to a searchable, fully-transcribed and annotated collection of documents. New projects may also prepare print editions (including eBooks and searchable PDFs posted online) as part of their overall publishing plan, but the contents of those volumes must be published in a fully-searchable digital edition within a reasonable period following print publication. The NHPRC encourages projects to provide free public access to online editions. Projects that do not have definitive plans for digital dissemination and preservation in place at the time of application will not be considered.

Grants are awarded to collaborative teams (including at least two scholar-editors, in addition to one or more archivists, digital scholars, data curators, and/or other support and technical staff, as necessary) for collecting, describing, preserving, compiling, transcribing, annotating, editing, encoding, and publishing documentary source materials online and in print. Eligible documentary edition projects typically focus on an original manuscript or typewritten documents, but may also include other formats, such as analog audio and/or born-digital records. Because of the focus on historical documentary sources, grants do not support the preparation of critical editions of published works unless such works are just a small portion of the larger project.

This grant program does not support the production of film or video documentaries. For a comprehensive list of the Commission's limitations on funding, please see What We Do and Do Not Fund. Applications that consist entirely of ineligible activities will not be considered.

Ongoing projects: Applicants from ongoing projects must demonstrate that they have successfully achieved the performance objectives associated with previous NHPRC awards; provide updated, current information, including a description of the new activities; describe the content and historical significance of the specific materials to be edited during the proposed grant period; show progress towards completing the edition, and justify costs in a new budget.

Award Information

A grant is for one year and up to \$175,000 per year. The Commission expects to make up to 25 grants in this category for a total of up to \$3,000,000. Grants begin no earlier than January 1, 2021.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications, publicity, and other products that result from its support.

Eligibility U.S. nonprofit organizations or institutions, U.S. colleges, universities, and other academic institutions, state or local government agencies, Federally-acknowledged or state-recognized Native American tribes or groups

Cost Sharing

The total costs of a project are shared between the NHPRC and the applicant organization.

The Commission provides no more than 50 percent of total project costs in the Publishing Historical Records in the Documentary Editions category. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101).

Cost-sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost-sharing contribution. Other Requirements Applicant organizations must be registered in the System for Award Management (SAM) before applying, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF. Ineligible applications will not be reviewed.

Deadline: October 08, 2020

National Endowment for the Arts

National Endowment for the Humanities

National Science Foundation

Linguistics Program - Doctoral Dissertation Research Improvement Awards (CFDA 47.075)

The Linguistics Program supports basic science in the domain of human language, encompassing investigations of the grammatical properties of individual human languages, and natural language in general. Research areas include syntax, linguistic semantics, and pragmatics, morphology, phonetics, and phonology.

The program encourages projects that are interdisciplinary in methodological or theoretical perspective, and that address questions that cross disciplinary boundaries, such as (but not limited to):

What are the psychological processes involved in the production, perception, and comprehension of language?

What are the computational properties of language and/or the language processor that make fluent production, incremental comprehension or rapid learning possible?

How do the acoustic and physiological properties of speech inform our theories of language and/or language processing? What role does human neurobiology play in shaping the various components of our linguistic capacities? How does language development in children? What social and cultural factors underlie language variation and change? The Linguistics Program does not make awards to support clinical research projects, nor does it support work to develop or assess pedagogical methods or tools for language instruction.

Deadline: July 15, 2020

Historically Black Colleges and Universities - Excellence in Research

The Historically Black Colleges and Universities - Excellence in Research (HBCU-EiR) program was established in response to direction provided in the Senate Commerce and Justice, Science and Related Agencies Appropriations Subcommittee Report (Senate Report 115-139), and is built on prior and continuing efforts by the National Science Foundation (NSF) to strengthen research capacity at Historically Black Colleges and Universities (HBCUs). This report guided NSF to establish the HBCU Excellence in Research program "to provide opportunities for both public and private HBCUs, particularly for those who have not been successful in larger NSF Research & Related Activities competitions, to stimulate sustainable improvement in their research and development capacity" (<https://congress.gov/congressional-report/115th-congress/senate-report/139/1>). EiR

supports such capacity building by funding research projects aligned with NSF's research programs. The program aims to establish stronger connections between researchers at HBCUs and NSF's research programs.

Deadline: October 6, 2020

Innovation Corps - National Innovation Network Teams Program (I-Corps TM Teams) – (CFDA 47.041, 47.049, 47.050, 47.070, 47.074, 47.075, 47.076, 47.079, 47.083)

The National Science Foundation (NSF) seeks to develop and nurture a national innovation ecosystem that builds upon fundamental research to guide the output to facilitate the application of scientific discoveries closer to the development of technologies, products, and processes that benefit society. To maintain, strengthen and grow a national innovation ecosystem, NSF has established the Innovation Corps - National Innovation Network Teams Program (I-Corps Teams). The NSF I-Corps Teams Program's purpose is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate innovation that can attract subsequent third-party funding. The purpose of the I-Corps Teams program is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate the translation of knowledge derived from fundamental research into emerging products and services that can attract subsequent third-party funding. The outcomes of I-Corps Teams projects will be threefold: 1) a clear go/no go decision based on an assessment of the viability of the overall business model, 2) substantial first-hand evidence for or against a product-market fit, with a pithy definition of the customer segments and corresponding value propositions, and 3) a narrative of a compelling technology demonstration for potential partners. WEBINAR: A webinar will be held monthly to answer questions about this program. Details will be posted on the I-Corps website (see http://www.nsf.gov/news/special_reports/i-corps/program.jsp) as they become available.

Deadline: Proposals accepted at anytime

Cyberinfrastructure for Emerging Science and Engineering Research – (CFDA 41.070)

The Cyberinfrastructure for Emerging Science and Engineering Research (CESER) program aims to catalyze new science and engineering discovery pathways through early-stage collaborative activities between disciplinary scientists and engineers as well as developers/implementers of innovative cyberinfrastructure (CI) capabilities, services, and approaches. Beginning in FY 2017, the CESER program replaced the Strategic Technologies for Cyberinfrastructure (STCI) program. CESER has retained STCI's focus on supporting innovation across the CI ecosystem with increased emphasis on addressing and enabling emerging areas of potentially transformative research, including NSF priority areas, national strategic directions, and international

collaborative research. CESER accepts proposals according to this Program Description year-round. From time to time, NSF may also issue Dear Colleague Letters according to CESER to signal special thematic interests and opportunities. CESER employs existing NSF funding mechanisms to accomplish the program's goals such as Early-concept Grants for Exploratory Research (EAGER) and Conference proposals. GUIDANCE TO POTENTIAL PROPOSERS Science/engineering-driven collaboration. A central feature of successful CESER projects is a strong, mutually-dependent collaborative team comprising expertise in the target science/engineering discipline(s) as well as expertise in CI development and implementation. Such a collaborative approach is critical to informing and guiding the development of requirements towards the eventual development and deployment of user-centric innovative CI that fosters new pathways to discovery. Proposals according to CESER should identify and describe the science and engineering goals and rationale, and explain and support the potential for transformative impacts on science/engineering research and broader impacts. Proposals for technical efforts that are not well-tied to identified science and engineering research challenges as well as utilization scenarios are unlikely to be supported. Exploratory and pilot activities. CESER supports early-stage exploratory efforts that may comprise analysis, community planning, and pilot-level activities that are preparatory or informative for eventual future development and deployment of science/engineering-driven CI. Proposals for full-scale technical efforts leading to development/deployment should be directed to other appropriate NSF programs. Integrative and accelerative approaches. Proposals have particularly welcomed that address identified common needs across multiple research disciplines; leverage and accelerate the impact of existing CI investments in resources and services in one or more application domains; aim to reduce barriers to broader adoption of CI-enabled science/engineering approaches, and integrate different aspects and elements of CI to achieve holistic solutions with transformative science/engineering impact. The requirement to contact NSF Cognizant Program Officers. CESER is an inherently collaborative science/engineering-CI program. Successful CESER projects typically involve co-funding from the relevant disciplinary research programs within NSF. Consequently, before submitting a proposal to CESER, proposers must first (1) discuss their ideas with a cognizant CESER Program Officer to ensure that CESER is the appropriate venue for the proposal and (2) discuss their ideas with the relevant NSF disciplinary science and engineering research program(s) to ensure there is adequate disciplinary interest in the proposed effort. Proposals that have been declined by CESER or any other NSF program may not be resubmitted to CESER without substantial revision. Proposals violating this restriction may be returned without review

Deadline: Proposals accepted anytime

High-Risk Research in Biological Anthropology and Archaeology – (CFDA 47.075)

Anthropological research may be conducted under unusual circumstances, often in distant locations. As a result, the ability to conduct potentially important research may hinge on factors that are impossible to assess from a distance and some projects with potentially great payoffs may face difficulties in securing funding. This program gives small awards that provide investigators with the opportunity to assess the feasibility of an anthropological research project. It is required that the proposed activity be high risk in nature. The information gathered may then be used as the basis for preparing a more fully developed research program. Investigators must contact the cognizant NSF Program Director before submitting an HRRBAA proposal. This will facilitate determining whether the proposed work is appropriate for HRRBAA support.

Deadline: Proposals accepted anytime

Broadening Participation in Engineering – (CFDA 47.041)

NSF seeks to strengthen the future U.S. Engineering workforce by enabling the participation of all citizens through the support of research in the science of Broadening Participation in Engineering (BPE). The BPE program is dedicated to supporting the development of a diverse and well-prepared engineering workforce. BPE focuses on enhancing the diversity and inclusion of all underrepresented populations in engineering, including gender identity and expression, race and ethnicity (African Americans/Blacks, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders), disability, LGBTQ+, first-generation college, and socio-economic status. BPE funds research to Understand and analyze the systemic barriers that prevent underrepresented groups from pursuing and succeeding in engineering, for example, understand the problem of insufficient interest and poorly sustained participation in engineering across underrepresented demographic groups; insignificant preparation and scarce opportunities for members of underrepresented groups to learn meaningful, relevant engineering content. Understand and analyze factors that enhance our ability to increase access to engineering by creating support systems and social networks that raise career awareness about different engineering pathways. Develop innovative methods and projects to significantly impact the recruitment and retention of engineering students from underrepresented groups. Activities must be supported by relevant data and have the capability to produce a model that can be replicated in other contexts. Develop innovative methods and projects to aggressively recruit and retain tenure track faculty from underrepresented groups. Design and transform a culture to make diversity, equity, and inclusion a priority in the engineering enterprise. BPE research activities will provide scientific evidence that engineering educators, employers, and policymakers need to make informed decisions to design effective programs that broaden the participation of persons from historically underrepresented groups in the engineering workforce. BPE is interested in funding research that spans K-12 to the workforce and offers the greatest return on investment. BPE funded research should produce outcomes that are scalable, sustainable, and applicable to various contexts, settings, and demographics within the engineering enterprise. BPE is particularly interested in research that employs intersectional approaches in recognition that gender, race, and ethnicity do not exist in isolation from each other and other categories of social identity. BPE is equally interested in research activities that align with and provide meaningful connections to the NSF INCLUDES National Network. The overarching goal of NSF INCLUDES is to achieve a significant impact at scale in transforming STEM education and workforce development by educating a diverse, STEM-capable workforce that includes talented individuals from all sectors of the Nation & apos;s population. Collaborations are encouraged between BPE proposals and existing NSF INCLUDES projects, for example, the NSF INCLUDES Alliances and Coordination Hub, provided these collaborations to strengthen both the BPE and NSF INCLUDES projects. Before submitting a proposal to the BPE program, prospective Principal Investigators are strongly encouraged to speak to the program director to obtain guidance as to whether the proposed ideas are aligned with the strategic goals of the BPE program. Proposal Elements All BPE proposals should Be informed by the current theoretical and scientific literature as well as add to the extant knowledge base. Directly address how the work will broaden the participation of one or more underrepresented populations in engineering. Provide appropriate justification to support the selection of the targeted group(s), with specific and applicable objectives, and demonstrate applicable knowledge of the

relevant literature on underrepresentation. Integrate a mechanism to assess and evaluate how well the project has achieved the stated objectives as part of the project management plan. Provide evidence of clear, measurable outcomes and consideration of how the strategy will advance knowledge beyond localized contexts. Incorporate a dissemination plan that goes beyond publishing research papers and presenting at conferences. PIs should think creatively about who needs to hear about the research for it to have an impact and develop a strategy to reach that audience. Describe how the outcomes have the potential to enhance the diversity and inclusion of underrepresented populations in engineering. The Project Summary must contain a list of 3-5 keywords. Place the keywords on a separate line at the end of the Overview section of the Project Summary.

Deadline: Proposals accepted anytime

Critical Aspects of Sustainability – (CFDA 47.041, 47.049, 47.050)

Economic development and human progress have led to a proliferation of manufactured chemicals and materials made from limited resources found in nature (i.e., minerals and metals, petroleum-based products and natural gas). Long-term sustainability requires consideration of the availability of specific natural resources, energy, and water usage. NSF continues to support efforts that seek to improve the efficiency with which natural resources are used to meet human needs for products and services. Sustainability research encompasses the design, manufacture, and use of efficient, effective, safe and more environmentally-benign products and processes; stimulates innovation across all sectors to design and discover new chemicals and materials, production processes, and product stewardship practices; and, increases performance and value while meeting the goals of protecting and enhancing human health and the environment. This program seeks to support basic research through core disciplinary programs aimed at improving the sustainability of resources for future generations while maintaining or improving current products to offer technologically-advanced, economically competitive, environmentally-benign and useful materials to a global society. To address these challenges, the program aims to identify opportunities for innovation in a wide range of contributing disciplines as well as integrative activities. This program encourages the development of new experimental and theoretical/modeling approaches that will aid in both reductionist and whole-systems approaches. This program welcomes proposals in any area of research supported through the participating divisions that address the topics outlined below. The selected topics are of particular interest to core disciplinary programs in the participating divisions and do not include all funding opportunities and priorities in the area of sustainability at NSF. Proposals are submitted to the relevant core Programs indicated below in the participating Divisions, and all questions regarding proposals should be addressed by the cognizant Program Officers to which submission is contemplated. Proposals should be submitted with the "CAS:" prefix in the title. The Division of Chemistry (CHE/MPS) welcomes proposals to its Disciplinary Research Programs, including Chemical Catalysis (CAT), Chemical Measurement and Imaging (CMI), Chemical Structure, Dynamics and Mechanisms-A (CSDM-A), Chemical Structure Dynamics and Mechanisms-B (CSDM-B), Chemical Synthesis (SYN), Chemical Theory, Models and Computational Methods (CTMC), Chemistry of Life Processes (CLP), Environmental Chemical Sciences (ECS), and Macromolecular, Supramolecular and Nanochemistry (MSN). All proposals must be on the chemical aspects of sustainability. The design, preparation and reactivity studies associated with new catalysts and catalytic processes that employ earth-abundant and benign elements and raw materials; advanced catalytic methods for the reduction of dinitrogen to ammonia and water splitting are also invited; Grant Opportunities for Academic Liaison with

Industry (GOALI) proposals, where such advances are connected directly to industrial considerations, are also encouraged. Understanding the molecular mechanisms of the two-way communication between the environment and living systems as well as between organisms situated in changing environments; design and test methods that could confer resilience and/or could foster adaptability of living systems subject to changing environments. Innovative measurement and imaging approaches that can improve the efficiency of manufacturing processes, including advances in separation science targeting reduced energy consumption or generation of less waste. Fundamental studies related to sustainable energy such as chromophores based on earth-abundant elements, advanced electrolytes for battery, water splitting, and carbon dioxide conversions. Understanding the environmental chemical degradation of contaminants, including emerging contaminants. Transformative approaches to the efficient and inexpensive synthesis of polymers or nanostructures using renewable feedstocks or earth-abundant elements; and innovative research that enhances the understanding of efficient use and recycling of polymers and critical elements or the conversion of energy from renewable sources. The development of new synthetic methods using earth-abundant and inexpensive chemicals, fundamental studies that improve our understanding of rare earth elements; the conversion of non-petroleum-based resources into useful building blocks; and new environmentally-friendly chemical syntheses that improve on current practice by requiring less energy, freshwater, reagents, and/or organic solvents. Other CHE programs also welcome proposals on this general topic, as long as the proposals fit the scope of the program. All questions regarding proposals to CHE should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see CHE Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CHE>). The Division of Materials Research (DMR/MPS) welcomes proposals to its Topical Materials Research Programs, including Biomaterials (BMAT), Ceramics (CER), Condensed Matter and Materials Theory (CMMT), Condensed Matter Physics (CMP), Electronic and Photonic Materials (EPM), Metals and Metallic Nanostructures (MMN), Polymers (POL), and Solid State and Materials Chemistry (SSMC). All proposals must be on materials aspects of sustainability and focused on fundamental materials-research approaches. CER, CMMT, EPM, MMN, and SSMC will consider proposals on all materials aspects of sustainability. BMAT encourages proposals that take advantage of synthetic biology or other innovative and sustainable approaches (e.g., renewable, recyclable, environmentally benign). CMP encourages proposals on replacing rare-earth elements in magnetic materials with more abundant and accessible elements; also, proposals exploring materials alternatives to oxides for nuclear reactor fuel, aiming at improved stability and properties (e.g., thermal conductivity) and decreased environmental impact. POL welcomes proposals that address plastics waste accumulation through innovative materials approaches and environmentally benign polymeric materials having properties exceeding those of current commercial plastics. All proposals must be submitted through one of the active solicitations of the DMR Topical Materials Research Programs (currently NSF 17-580, 18-500, and 19-515) and must follow the deadlines, instructions, and limitations of these solicitations. Proposals that are not following these guidelines or that fall outside the scope of DMR and its Topical Materials Research Programs will be returned without review. All questions regarding proposals to DMR should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see DMR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=DMR>). The Chemical, Bioengineering, Environmental and Transport Systems Division (CBET/ENG) has several core programs that review proposals on research topics related to sustainability, including Molecular Separations (MolS), Biosensing, Environmental Sustainability (EnvS), Biological and Environmental Interactions of Nanoscale Materials (BioNano), Combustion and Fire Systems (CFS), and Particulate and Multiphase Processes (PMP). Within these programs, as noted, the following topics are of particular interest: Understanding the fundamental combustion properties of sustainable aviation fuels under engine relevant conditions. (CFS)

Fundamental studies leading to effective methods of processing multiphase fluid systems that minimize waste, avoid contamination, enhance the purity, or lead to novel materials that benefit efficient energy utilization. (PMP) The development of innovative separation mechanisms, mass separating agents, or engineering processes that aim to substantially reduce energy and/or material consumption in the chemical process industries. (MoIS) Fundamental mechanistic investigations for the development, sustainable production and use of nanomaterials, nanoparticles, nanodevices, and nanosystems. (BioNano) Biosensing systems with inherent capabilities of artificial intelligence, machine learning, and decision making for applications in real-time monitoring of environmental and living systems and in evaluating environmentally benign chemicals and materials. (Biosensing) Industrial Ecology: Topics of interest in Industrial Ecology include advancements in modeling such as life cycle assessment, materials flow analysis, input/output economic models, and novel metrics for measuring sustainable systems. Innovations in industrial ecology are encouraged. (EnvS) Green Engineering: Research is encouraged to advance the sustainability of manufacturing processes, green buildings, and infrastructure. Improvements in distribution and collection systems that will advance smart growth strategies and ameliorate effects of growth are supported. Innovations in the management of stormwater, recycling and reuse of drinking water, and other green engineering techniques to support sustainability may also be fruitful areas for research. (EnvS) Ecological Engineering: Topics should focus on the engineering aspects of restoring ecological function to natural systems. Engineering research in the enhancement of natural capital to foster sustainable development is encouraged. (EnvS) Earth Systems Engineering: Earth systems engineering considers aspects of large-scale engineering research that involve mitigation of greenhouse gas emissions, adaptation to climate change, and other global-scale concerns. (EnvS) All questions regarding proposals to CBET should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CBET Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CBET>). For the Division of Civil, Mechanical, and Manufacturing Innovation (CMMI/ENG), proposals addressing sustainable materials processing are welcome. Of interest are manufacturing processes with reduced use of toxic components, such as solvents, carbon emissions, and pollutants; processes under ambient conditions, as opposed to extreme temperatures, pressures or other harsh conditions; and increased conservation of natural resources, such as water, raw material, and energy. Proposals to CMMI must be submitted to the Advanced Manufacturing (AM) Program and align with the scope of the program. All questions regarding proposals to CMMI should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CMMI Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CMMI>). The Division of Earth Sciences (EAR/GEO) welcomes fundamental and transformational geosciences projects addressing the distribution of Critical Minerals and Materials in the Earth. The following programs in the division support research on this topic: Petrology and Geochemistry (CH), Geobiology and Low-Temperature Geochemistry (GG), and Frontier Research in Earth Sciences (FRES). Topics of particular interest include fundamental studies of the geochemistry of Critical Earth Minerals and Materials (CMM), such as: Identifying new sources of critical minerals on the Earth's surface; Constraining their pathways in the natural environment involving concentration by Earth and geobiological processes, and Developing methods for sustainable exploration of these CMMs. Studies can be based on laboratory, field, or modeling efforts, and should have a strong emphasis on training the next generation of geoscientists and educating the public on the importance of CMM. Proposals must be submitted through one of the active solicitations of the three programs and must follow the deadlines and guidelines of these solicitations. All questions regarding proposals to EAR should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see EAR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=EAR>).

Deadline: Proposals accepted anytime

Small Business Administration

Program for Investment in Microentrepreneurs (PRIME) – CFDA 59.050

SBA intends to award a discretionary grant to the National Association of Government Guaranteed Lenders (NAGGL) to provide SBA 7(a) training to nonprofit lenders participating in the SBA Community Advantage Pilot Loan Program (CA). NAGGL has extensive experience with providing training to lenders on SBA's 7(a) loan product in the areas of loan origination, loan servicing, and loan liquidation. This discretionary grant will serve as a proof of concept to explore the success of regional training to mission lenders participating in CA. These training needs have been identified by SBA's Office of Credit Risk Management to increase the performance level of lenders participating in the CA program. SBA will work closely with NAGGL in shaping the project as it is implemented and will draw lessons learned from its implementation and use that insight and experience in deciding whether or not to continue the initiative in a permanent form, which we would then do via the standard competitive process for awarding grants.

Deadline: Open

U.S. Department of Agriculture

USDA-RD-HCFP-HPG-2020 [Related Opportunities] Rural Housing Preservation Grant- (CFDA 10.433)

The Rural Housing Service (RHS) announces that it is soliciting applications under its Housing Preservation Grant (HPG) program. The HPG program is a grant program which provides qualified public agencies, private nonprofit organizations, which may include but not be limited to, Faith-Based and Community Organizations, and other eligible entities grant funds to assist very low- and low-income homeowners in repairing and rehabilitating their homes in rural areas. Besides, the HPG program assists rental property owners and cooperative housing complexes in repairing and rehabilitating their units if they agree to make such units available to low- and very low-income persons. This action is taken to comply with Agency regulations found in 7 CFR part 1944, subpart N, which require the Agency to announce the opening and closing dates for receipt of preapplications for HPG funds from eligible applicants. The intended effect of this Notice is to provide eligible organizations notice of these dates.

Deadline: May 07, 2020

Agriculture and Food Research Initiative - Education and Workforce Development--(CFDA 10.310)

The Agriculture and Food Research Initiative - Education and Workforce Development (EWD) focuses on developing the next generation of research, education, and extension professionals in the food and agricultural sciences. In FY 2019, EWD invites applications in five areas: professional development for agricultural literacy; training of undergraduate students in research and extension; fellowships for predoctoral candidates; fellowships for postdoctoral scholars, and a brand new program for agricultural workforce training. See EWD Request for Applications for specific details.

Deadline: September 25, 2020

U.S. Department of Commerce

U.S. Department of Defense

FY19 Funding Opportunity Announcement (FOA) for the Office of Naval Research (ONR) Navy ROTC Cybersecurity Training Program-(CFDA 12.330)

The ONR seeks a broad range of applications for augmenting existing or developing innovative solutions that directly maintain, or cultivate a diverse, world-class STEM workforce to maintain the U.S. Navy and Marine Corps' technological superiority. The goal of any proposed effort must provide solutions that will grow a capable and trained workforce with the skills to defend against emergent cyber and electronic warfare threats.

Funding efforts will be targeted primarily toward projects addressing the technical skills taught to university students enrolled in ROTC programs; these ROTC programs are not restricted to any particular Service. While this effort is targeted primarily toward students enrolled in ROTC programs it can also include civilian students.

Project scope may range in size and complexity. Projects are especially encouraged to consider the following areas:

- Expand the technical skills taught to university students, especially those enrolled in ROTC programs
- Grow the participant's cyber and electronic warfare skills
- Develop the research capacity of participants

- Funds will be earned by participants who will perform research under the guidance of a graduate student mentor and a professor principal investigator (PI).
- The plan is to pay participants \$18 per hour for a maximum of 15 hours per week.
- Establish meetings of stakeholders that must seek to connect relevant people and organizations to explicitly develop broader projects for affecting entire communities.

See complete notice for additional information.

Deadline: July 3, 2020

Air Force Fiscal Year 2021 Young Investigator Research Program (YIP)-CFDA 12.800

The Fiscal Year 2021 Air Force Young Investigator Research Program (YIP) intends to support young in career scientists and engineers who have received Ph.D. or equivalent degrees by 1 April 2012 or later showing exceptional ability and promise for conducting basic research. The program objective is to foster creative basic research in science and engineering; enhance the early career development of outstanding young investigators; and increase opportunities for the young investigator to recognize the Air Force mission and related challenges in science and engineering.

Deadline: July 14, 2020

CDMRP Peer-Reviewed Medical Research Program Focused Program Award-(CFDA 12.420)

The PRMRP Focused Program Award mechanism is intended to optimize research and accelerate solutions to a critical question related to at least one of the Congressionally directed FY20 PRMRP Topic Areas through a synergistic, multidisciplinary research program.

Key aspects of this award include:

Overarching Challenge: Focused Program Award applications must describe a unifying, overarching challenge that will be addressed by a set of research projects. The overarching challenge must be relevant to a critical problem or question in the field of research and/or patient care in at least one of the FY20 PRMRP Topic Areas.

Research Projects: Applications shall include multiple, distinct research projects led by individual project leaders that address complementary aspects of the overarching challenge. Applicants are strongly encouraged to submit a minimum of four research projects; additional studies are allowed. While individual projects must be capable of standing on their own high scientific merits, they must also be interrelated and synergistic with the other proposed projects and advance a solution beyond what would be possible through individual efforts. The exploration of multiple hypotheses or viewpoints of the same line of questioning is encouraged. This award

mechanism is not intended to support a series of research projects that are dependent on the success of one of the other projects. Each project should propose a unique approach to addressing the overarching challenge and be capable of producing research findings with the potential to impact the field and/or patient care. Individual research projects may range from exploratory, hypothesis-developing studies through small-scale clinical trials (i.e., up to and including Phase II or equivalent). There should be a clear intent to progress toward translational/clinical work throughout the effort. Implementation: The research strategy to address the overarching challenge must be supported by a detailed implementation plan that identifies critical milestones and outlines the knowledge, resources, and technical innovations that will be utilized to achieve the milestones. A robust statistical plan and statistical expertise should be included where applicable. A plan for assessing individual project performance and progress toward addressing the overarching challenge must be included in the implementation plan. Plans to include an External Advisory Board (EAB) are encouraged; however, applicants must be careful to avoid potential conflicts of interest during the review of the application by ensuring no contact with, recruiting, or naming of specific EAB members in the application. For multi-institutional collaborations, plans for communication and data transfer among the collaborating institutions, as well as how data, specimens, and/or products obtained during the study will be handled, must be included. An intellectual and material property plan agreed to by participating organizations is required in the application's supporting documentation.

Research Team: The overall effort will be led by a Principal Investigator (PI) with demonstrated success in leading large, focused projects. The PI is required to devote a minimum of 20% effort to this award. The PI should create an environment that fosters and supports collaboration and innovation in a way that engages all members of the team in all aspects of the research plan. The research team assembled by the PI should be highly qualified and multidisciplinary, with identified project leaders for each of the complementary and synergistic research projects. The resources and expertise brought to the team by each project leader should combine to create a robust, synergistic collaboration. The PRMRP Science Officer assigned to a resulting award should be invited to participate in research team meetings (e.g., annual meetings of the entire research team). The plan for such meetings should be noted in the application.

Milestone Meeting: The PI will be required to present an update on progress toward accomplishing the goals of the award at a Milestone Meeting to be held in the National Capital Area after the conclusion of Year 2 of the period of performance. The PI may bring up to three additional members of the research team to the meeting. The Milestone Meeting will be attended by members of the PRMRP Programmatic Panel, CDMRP staff, the USAMRAA Grants Officer, and other DoD stakeholders.

Deadline: August 06, 2020

Procurement Technical Assistance Program – (CFDA 12.002)

Competitive base period plus four 1-year option periods for entities who operate Procurement Technical Assistance Centers to provide procurement technical assistance to US businesses.

Deadline: August 15, 2020

U.S. Department of Education

ED-GRANTS-031020-001 Office of Elementary and Secondary Education (OESE): Magnet Schools Assistance Program (MSAP) CFDA Number 84.165A

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf.

Purpose of Program: MSAP, authorized under title IV, part D of the Elementary and Secondary Education Act, as amended by the Every Student Succeeds Act (ESEA), provides grants to local educational agencies (LEAs) and consortia of LEAs to support magnet schools under an approved, required, or voluntary desegregation plan.

Under the ESEA, MSAP prioritizes the creation and replication of evidence-based (as defined in this notice) magnet programs and magnet schools that seek to reduce, eliminate, or prevent minority group isolation by taking into account socioeconomic diversity.

Grantees may use grant funds for activities intended to improve students' academic achievement, including acquiring books, materials, technology, and equipment to support a rigorous, theme-based academic program; conducting planning and promotional activities; providing professional development opportunities for teachers to implement the academic program; and paying the salaries of effective teachers and other instructional personnel.

MSAP also enables LEAs to support student transportation, provided the transportation costs are sustainable and the costs do not constitute a significant portion of grant funds.

Deadline: May 26, 2020

Institute of Education Sciences (IES): Using Longitudinal Data to Support State Education Policymaking Grantmaking Programs CFDA Number 84.305S

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf.

Purpose of Program: Through the National Center for Education Research (NCER), the Institute of Education Sciences (Institute) provides support for programs of research in areas of demonstrated national need. The Institute's research grant programs are designed to provide interested individuals and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all learners. Through the Using Longitudinal Data to Support State Education Policymaking grant program, NCER intends to expand the research use of State Longitudinal Data Systems to examine long-term learner outcomes and pathways to provide evidence for State education policymaking.

Deadline: July 30, 2020

Institute of Education Sciences (IES): Statistical and Research Methodology in Education CFDA Number 84.305D

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf.

Purpose of Program: Through the National Center for Education Research (NCER), the Institute of Education Sciences (Institute) provides support for programs of research in areas of demonstrated national need. The Institute's research grant programs are designed to provide interested individuals and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all learners. Through the Statistical and Research Methodology in Education grant program, NCER intends to support the development of a wide range of methodological and statistical tools to better enable applied education scientists to conduct rigorous education research.

Deadline: August 20, 2020

U.S. Department of Energy

Solar Energy Technologies Office Fiscal Year 2020

Funding Program

Modification 000002: At EERE, we understand that due to the coronavirus outbreak, many of us have had to make adjustments to our business operations and practices in order to safeguard the health and safety of our communities. Due to the extraordinary circumstances in which we now find ourselves, EERE is issuing an extension of 4 weeks to submit full applications to DE-FOA-0002243. The due date for Full Applications and SIPs Applications for this FOA is now June 18, 2020.

All questions and answers related to this FOA will be posted on EERE Exchange at: <https://eere-exchange.energy.gov>. Please note that you must first select this specific FOA Number in order to view the questions and answers specific to this FOA.

Modification 000001 The purposes of this modification is to clarify, in Topic 2, that additional, small scale testing may be proposed in support of the main testing campaign, on page 31; clarifies project documentation expected, especially around issues encountered in commissioning and testing, and their resolution, on page 36.

This funding opportunity announcement (FOA) is being issued by the U.S. Department of Energy’s (DOE) Office of Energy Efficiency and Renewable Energy (EERE) Solar Energy Technologies Office (SETO). SETO supports solar energy research and development (R&D) in three technology areas—photovoltaics (PV), concentrating solar-thermal power (CSP), and systems integration—with the goal of improving the affordability, reliability, and performance of solar technologies on the grid. This section describes the overall goals of the Solar Energy Technologies Office Fiscal Year 2020 (SETO 2020) funding program and the types of projects being solicited for funding support through this FOA.

The SETO 2020 funding program seeks to advance R&D of solar technologies that reduce the cost of solar, increase the competitiveness of American manufacturing and businesses, and improve the reliability of the grid. These projects will advance R&D in PV, CSP, and energy management technologies, while also working to improve cybersecurity, expand solar to new applications like agricultural solar, integrate solar and storage, and utilize artificial intelligence to address research challenges.

Deadline: June 18, 2020

SEEDING CRITICAL ADVANCES FOR LEADING ENERGY TECHNOLOGIES WITH UNTAPPED POTENTIAL 2019 (CFDA 81.135)

The Advanced Research Projects Agency – Energy (ARPA-E), an organization within the Department of Energy (DOE), is chartered by Congress in the America COMPETES Act of 2007 (P.L. 110-69), as amended by the America COMPETES Reauthorization Act of 2010 (P.L. 111-358):

“(A) to enhance the economic and energy security of the United States through the development of energy technologies that result in—

- (i) reductions of imports of energy from foreign sources;
- (ii) reductions of energy-related emissions, including greenhouse gases; and
- (iii) improvement in the energy efficiency of all economic sectors; and

(B) to ensure that the United States maintains a technological lead in developing and deploying advanced energy technologies.”

ARPA-E issues this Funding Opportunity Announcement (FOA) under the programmatic authorizing statute codified at 42 U.S.C. § 16538. The FOA and any awards made under this FOA are subject to 2 C.F.R. Part 200 as amended by 2 C.F.R. Part 910. ARPA-E funds research on the development of high-potential, high-impact energy technologies that are too early for private-sector investment. The agency focuses on technologies that

can be meaningfully advanced with a modest investment over a defined period of time in order to catalyze the translation from scientific discovery to early-stage technology. In addition, the agency is launching new funding opportunities for public-private collaborations supporting the further refinement, scaling, and pre-piloting of successful ARPA-E technologies. Success of these scale-up projects will establish the path forward to continued private sector development and deployment of these transformational technologies. For the latest news and information about ARPA-E, its programs and the research projects currently supported, see: <http://arpa-e.energy.gov/>. ARPA-E funds transformational research. Existing energy technologies generally progress on established “learning curves” where refinements to a technology and the economies of scale that accrue as manufacturing and distribution develop drive down the cost/performance metric in a gradual fashion. This continual improvement of a technology is important to its increased commercial deployment. It is appropriately the focus of the private sector and can be spurred by early-stage R&D supported by the applied energy offices in DOE. By contrast, ARPA-E supports high-risk, potentially transformative research that has the potential to create fundamentally new learning curves. ARPA-E R&D projects typically start with cost/performance estimates for the proposed technology that are well above the level of the competitive incumbent technology. Given the high risk inherent in these projects, many will fail to progress, but some may succeed in generating a new learning curve with a projected cost/performance metric that is significantly lower than that of the incumbent technology. ARPA-E funds technology with the potential to be disruptive in the marketplace. The mere creation of a new learning curve does not ensure market penetration. Rather, the ultimate value of a technology is determined by the marketplace, and impactful technologies ultimately become disruptive – that is, they are widely adopted and displace existing technologies from the marketplace or create entirely new markets. ARPA-E understands that definitive proof-of-market disruption takes time, particularly for energy technologies. Therefore, ARPA-E funds the development of technologies that, if technically successful, have clear disruptive potential, e.g., by demonstrating capability for manufacturing at competitive cost and deployment at scale. ARPA-E funds applied research and development. The Office of Management and Budget defines “applied research” as an “original investigation undertaken in order to acquire new knowledge...directed primarily towards a specific practical aim or objective” and defines “development” as “creative and systematic work, drawing on knowledge gained from research and practical experience, which is directed at producing new products of processes or improving existing products or processes.” Applicants interested in receiving financial assistance for basic research should contact the DOE’s Office of Science (<http://science.energy.gov/>). Office of Science national scientific user facilities (<http://science.energy.gov/user-facilities/>) are open to all researchers, including ARPA-E applicants and awardees. These facilities provide advanced tools of modern science including accelerators, colliders, supercomputers, light sources and neutron sources, as well as facilities for studying the nanoworld, the environment, and the atmosphere. Projects focused on early-stage R&D for the improvement of technology along defined roadmaps may be more appropriate for support through the DOE applied energy offices including: the Office of Energy Efficiency and Renewable Energy (<http://www.eere.energy.gov/>), the Office of Fossil Energy (<http://fossil.energy.gov/>), the Office of Nuclear Energy (<http://www.energy.gov/ne/office-nuclear-energy>), and the Office of Electricity Delivery and Energy Reliability (<http://energy.gov/oe/office-electricity-delivery-and-energy-reliability>).

Deadline: July 20, 2020

U.S. Department of Health and Human Services

Reducing the burden of parasitic infections in the United States through evidence-based prevention and control activities-(CFDA 93.084)

The purpose of this NOFO is to reduce the overall burden of selected parasitic infections in the United States through public health practice and disease control activities. There are two components in the NOFO that address different parasitic infections, they are: Chagas disease and soil-transmitted helminths.

This NOFO will continue the work of the Division of Parasitic Diseases and Malaria in CDC's Center for Global Health to strengthen health care providers' understanding, identification, treatment and prevention of parasitic infections in the U.S. One component of this NOFO will focus on using existing data to develop and disseminate strategies, educational tools, materials, and guidelines related to Chagas disease diagnosis and management in the United States to: improve healthcare provider knowledge and practices, increase testing and improve management of persons with or at risk of infection with the parasite that causes Chagas disease, increase awareness, availability and use of best practices, education training tools and materials. The other component of this NOFO will focus on the ongoing, public health practice and disease control activities receiving congressional funding to investigate and address infections with soil transmitted helminths in areas of Alabama and Mississippi where these infections have historically been endemic through testing, treatment and health education. Successful strategies should have the potential to yield high impact public health outcomes, reach a high proportion of those at risk, and have the highest potential for significant impact on population health.

Deadline: May 26, 2020

Engaging Older Adults-(CFDA 93.048)

The Administration on Aging (AoA), a division of the Administration for Community Living, working with a national network of state, tribal, and local agencies, is committed to ensuring that current and future older adults have the information, tools, and services they need to remain healthy and the support they need to remain independent and active for as long as possible. Recently much has been learned about the individual and societal impact of social isolation and loneliness. Research has linked social isolation and loneliness to higher risks for a

variety of physical and mental conditions[i]. In fact, a Brigham Young University study found that prolonged social isolation is as harmful to health as smoking 15 cigarettes a day, and is more harmful than obesity.[ii]

But research also suggests that remaining socially engaged improves the quality of life for older adults and is associated with better health. AoA is interested in expanding the reach of the aging network to more effectively assist seniors to remain socially engaged and active. AoA has a long history of supporting projects that seek to enhance the lives of older adults through a variety of activities, including volunteerism, health promotion activities, and intergenerational efforts. Recently, AoA has supported an Engagement and Older Adults Resource Center that has provided information and resources to the aging network on myriad ways older adults can engage through a variety of interventions, including volunteer opportunities, intergenerational interactions, technology, and creative pursuits.

AoA is interested in continuing efforts to foster interventions that support the aging network's ability to engage older adults. AoA is seeking to fund one cooperative agreement to provide technical assistance and serve as a repository for innovations that can be successfully replicated at the local level. While the previous effort looked at social engagement from a broad perspective this funding announcement seeks applications that will focus on specific targeted intervention areas. Examples of targeted areas include:

Senior Centers

Technology

Intergenerational

Volunteerism

Homebound seniors.

This list is not meant to be exhaustive. Applicants are free to suggest other target areas for consideration. Applicants should clearly describe their proposed approaches for achieving the following broad objectives:

To expand the reach of the aging network to more effectively assist older adults to remain socially engaged and active utilizing the identified intervention.

To increase the aging network's ability to tailor the identified social engagement intervention to meet the diverse needs of older adults, including the consideration of cultural and ability factors.

To design and implement a training and technical assistance strategy to help inform the aging network about ways to apply the identified social engagement strategy.

Deadline: May 29, 2020

Building Capacity for National Public Health Institutes-(CFDA 93.318)

Consolidating and organizing public health expertise and systems within a National Public Health Institute (NPHI) is a successful way for countries to carry out essential public health functions and improve their accountability and efficiency. The CDC, with over 70 years of experience as the U.S. NPHI, is helping countries around the world increase surveillance, laboratory, and outbreak response capacity to improve recognition of and response to health threats. An NPHI coupled with stronger local outbreak detection and response capabilities offers a sustainable solution for building global public health capacity, achieving global health security, and increasing public health impact.

This Notice of Funding Award (NOFO) seeks to build upon activities supported by CDC through partnerships with Ministries of Health, National Public Health Institutes, and organizations that have capacity by providing technical assistance supporting the establishment and development of strong NPHI's globally. The CDC seeks to continue strengthening NPHI's so that they are credible, technically expert, apolitical and prioritize the protection of the publics' health.

Deadline: May 04, 2020

Ending the HIV/AIDS Epidemic (EtHE) Planning Program-(CFDA 93.110)

The Rural Health Network Development Planning Ending the HIV/AIDS program is authorized by Section 330A(f) of the Public Health Service Act, 42 U.S.C. 254c(f), as amended to expand delivery of health care services in rural communities through the planning of integrated health care networks in rural areas. The purpose of the program is to assist in the planning and development of an integrated HIV health care network that will address key strategies identified in 'Ending the HIV Epidemic (EtHE): A Plan for America.' HRSA'S FORHP, HAB, and BPHC will work together on a project to focus on the rural dimensions of the Ending the Epidemic Initiative. FORHP will compete up to 10 Network Planning grants, for a total of \$1 Million (\$100,000 each) focused on the seven states with rural areas with high rates of new infections.

Deadline: May 11, 2020

Nurse Education Practice Quality and Retention-Simulation Education Training-(CFDA 93.359)

Simulation education training

Deadline: May 23, 2020

Increase Access to Comprehensive HIV/AIDS Prevention, Care and Treatment Services in Democratic Republic of Congo (DRC)(CFDA 93.067)

The goal and objectives of the program is to solicit comprehensive and cost-effective technical assistance, capacity building and program implementation expertise for PEPFAR and Global Fund-supported global health activities (with emphasis on but not limited to HIV/AIDS) in the five programmatic areas listed under the purpose section of this FOA. This announcement will also support Global Fund implementing partners in assessing HIV service delivery and will develop technical assistance plans and strategies. This FOA will not provide direct program implementation. Rather, it will provide technical assistance support to PEPFAR and Global Fund implementing partners engaged in program implementation and scale-up activities. This FOA will support HHS/CDC's efforts to provide high-quality, targeted technical assistance to ensure that the PEPFAR and Global Fund-supported countries have the capacity and necessary technical expertise to assume responsibility for service delivery and adequately respond to their HIV epidemics. While this announcement will address several of the overall program goals and objectives, it will primarily focus on five critical PEPFAR-supported technical areas. Applicants are expected to respond to one or more of the following program areas:

Prevention of Mother-to-Child Transmission of HIV/AIDS (PMTCT);

HIV Care and Treatment Clinical Services for adults and children;

HIV Pediatric Care and Treatment (PEDs);

Surveillance and Strategic Information (SI); and Laboratory

Deadline: June 01, 2020

Rural Communities Opioid Response Program – Neonatal Abstinence Syndrome (RCORP-NAS)- (CFDA 93.912)

The Rural Communities Opioid Response Program (RCORP) is an overarching initiative aimed at reducing the morbidity and mortality of substance use disorder (SUD), including opioid use disorder (OUD), in rural areas at the highest risk for SUD. RCORP is a mission critical initiative designed to achieve HRSA's four goals. The goal of the RCORP-Neonatal Abstinence Syndrome (RCORP- NAS) project is to advance RCORP's overall goal and

reduce rates of Neonatal Abstinence Syndrome (NAS) in rural communities by empowering local consortia to create better addiction prevention, treatment, and recovery services by improving systems of care, family supports, and social determinants of health. RCORP-NAS was created to address specific needs expressed by rural grantees, and was designed by leveraging the expertise and insight of external partners (JBS International, State Offices of Rural Health, etc.), federal agencies (CDC, SAMHSA, IHS, etc.), and Bureaus/Offices within HRSA (MCHB, BPHC, ORO, OPAAE, OWH).

Deadline: June 14, 2020

Glial Plasticity in the Aging Brain (R01 Clinical Trial Not Allowed) (CFDA 93.866)

Recent reports highlight the enormous spatial and temporal diversity of glia, even within the same glial cell type. This within-glia-cell-type heterogeneity evolves during aging, suggesting that subtypes of glia with distinct physiological roles could emerge to influence brain aging processes. The goal of this Funding Opportunity Announcement is to support research addressing critical knowledge gaps in our understanding of how these glial subpopulations could contribute to vulnerability and resilience to brain aging.

Deadline: June 17, 2020

Basic Center Program Administration for Children & Families - ACYF/FYSB(CFDA 93.623)

The Runaway and Homeless Youth Program's Basic Center Program (BCP) provides temporary shelter and counseling services to youth who have left home without permission of their parents or guardians, have been forced to leave home, or other homeless youth who might otherwise end up in the law enforcement or in the child welfare, mental health, or juvenile justice systems. BCPs work to establish or strengthen community-based programs that meet the immediate needs of runaway and homeless youth and their families. BCPs provide youth under 18 years of age with emergency shelter, food, clothing, counseling and referrals for health care. BCPs can provide up to 21 days of shelter for youth and seeks to reunite young people with their families, whenever possible, or to locate appropriate alternative placements. Additional services may include street-based services; home-based services for families with youth at risk of separation from the family; drug abuse education and prevention services; and at the request of runaway and homeless youth, testing for sexually transmitted disease.

Deadline: July 03, 2020

NIMH Research Education Mentoring Programs for HIV/AIDS Researchers (R25) – (CFDA 93.242)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The over-arching goal of this National Institute of Mental Health (NIMH) R25 program is to support educational activities that complement and/or enhance the training of a workforce to meet the nations biomedical, behavioral and clinical research needs and advance the priorities outlined in the Office of AIDS Research (OAR) Annual Strategic Plan and the research program priorities of the NIMH Division of AIDS Research (DAR).

Deadline: September 07, 2020

Practice-Based Research for Implementing Scalable Evidence-Based Prevention Interventions in Primary Care Settings (R01 Clinical Trial Optional)-(CFDA 93.242)

Practice-Based Research for Implementing Scalable Evidence-Based Prevention Interventions in Primary Care Settings (R01 Clinical Trial Optional)

The purpose of this Funding Opportunity Announcement (FOA) is to encourage practice-based research aimed at testing the effectiveness of developmentally-focused theory-based efficacious prevention interventions which may impact mental health outcomes, including suicide behaviors and serious mental illness. The research should test prevention approaches that are both scalable and sustainable for implementation in pediatric-serving primary care settings, with an emphasis on populations experiencing mental health disparities. This FOA seeks to support clinical trials to establish the effectiveness of scalable prevention interventions when implemented using available resources within pediatric-serving primary care settings.

Deadline: October 15, 2020

Large scale mapping and/or molecular profiling of ensembles and/or cell-types mediating opioid action in the rodent brain (R01 - Clinical Trial Not Allowed)

This funding opportunity announcement aims to support research that employs innovative scalable technologies to inventory, register and profile the cellular ensembles and/or cell-types that produce and/or respond to opioids.

Emphasis is on approaches that enable high-throughput single-cell resolution mapping, anatomical characterization and/or molecular profiling of cells identified as primary sources of, or pharmacological targets of, opioids in the brain and/or whose changes in activity associate with opioid-related behaviors in rodents.

Deadline: October 30, 2020

Comparative Genomics Research Program (R01) – (CFDA 93.172)

NHGRI invites applications for research developing comparative approaches that can be used to understand genome structure and function and the relationship between genomic features and phenotypes. This program supports studies that enable the use of a diverse array of species to advance our ability to understand basic biological processes related to human health and disease, as well as studies that develop novel analytical tools and resources for the comparative genomics research community.

Deadline: January 07, 2021

NIH Research Project Grant (Parent R01 Clinical Trial Not Allowed) – (CFDA 93.113, 93.121, 93.172, 93.173, 93.213, 93.233, 93.242, 93.273, 93.279, 93.286, 93.307, 93.351, 93.361, 93.393, 93.394, 93.395, 93.396, 93.399, 93.837, 93.838, 93.839, 93.840, 93.846, 93.847, 93.853, 93.855, 93.856, 93.859, 93.865, 93.866, 93.867, 93.879)

The NIH Research Project Grant supports a discrete, specified, circumscribed project in areas representing the specific interests and competencies of the investigator(s). The proposed project must be related to the programmatic interests of one or more of the participating NIH Institutes and Centers (ICs) based on their scientific missions. This Funding Opportunity Announcement does not accept clinical trials.

Deadline: January 07, 2021

Advancing Post-Market Surveillance of High-Risk Facilities and Products through Signal detection, Data analysis, and the Review of the State of Quality (U01) Clinical Trial Optional – (CFDA 93.103)

The purpose of this program is to advance comprehensive quality surveillance and provide the state of quality for all regulated sites and products. Using predictive analytics, data mining, and other quantitative tools, this research program will expand the knowledge base related to site and product quality, especially for high-risk foreign facilities and their products.

Deadline: April 05, 2021

Engaging Men in HIV Testing, Prevention, and Care (R21 Clinical Trial Optional) – (CFDA 93.242)

The purpose of this Funding Opportunity Announcement (FOA) is to develop and test strategies to increase the engagement of men in HIV prevention and care within global settings and among US domestic populations who have evidenced lower rates of engagement and retention in HIV prevention and care. The R21 Exploratory/Developmental Grant supports studies that may involve considerable risk but may lead to a breakthrough in a particular area; or to the development of novel techniques, agents, methodologies, models; or applications that could have a major impact on a field of biomedical, behavioral, or clinical research.

Deadline: September 07, 2021

Non-Viral Technologies for in vivo Delivery of Genome Editors (R43/R44 Clinical Trial Not Allowed)-(CFDA 93.350)

The purpose of this PAR is to support the development and evaluation of non-viral technologies to deliver genome editors to disease-relevant somatic cells and tissues in vivo. The ultimate goal of these technologies is a translation into clinical trials of genome editing to treat human disease.

Deadline: January 05, 2022

Postbaccalaureate Research Education Program (R25 - Independent Clinical Trial Not Allowed) CFDA- 93.859

This funding opportunity announcement (FOA) provides support to eligible, domestic institutions to develop and implement effective, evidence-informed approaches to biomedical research education and mentoring that will keep pace with the rapid evolution of the research enterprise. NIGMS expects that the proposed research education programs will incorporate extensive research experiences, well-designed courses for skills development,

mentoring, cohort building activities, and career development elements to prepare recent baccalaureates from diverse backgrounds to transition into and complete rigorous research-focused doctoral degree programs (e.g., Ph.D. or M.D./Ph.D.) in biomedical fields. This program is limited to applications from doctoral degree-granting research-intensive institutions. This Funding Opportunity Announcement (FOA) does not allow appointed participants to lead an independent clinical trial but does allow them to obtain research experience in a clinical trial led by a mentor or co-mentor.

Deadline: January 27, 2022

Novel Synthetic Nucleic Acid Technology Development (R21 Clinical Trial not allowed)-(CFDA 93.172)

This Funding Opportunity Announcement (FOA) solicits R21 grant applications to develop novel technologies that will enable substantive (no less than one order of magnitude) improvement in synthetic nucleic acids. The goal is to improve the quality, capabilities, and efficiency of nucleic acid synthesis and synthetic constructs at reasonable and decreased costs. Applicants may propose to develop novel complete synthesis and/or synthetic constructs systems, investigate challenges underlying key novel system components, or propose substantive improvements of at least an order of magnitude improvement to existing systems. Exploration of methods other than those currently in use is highly encouraged. High-risk/high-payoff applications are appropriate to achieve the goals of this FOA.

Deadline: June 24, 2022

Palliative Care in Home and Community Settings (R01 Clinical Trial Optional) – (CFDA 93.361)

The purpose of this funding opportunity is to stimulate research aimed at determining needs and best practices for the integration of palliative care into home and community settings. Home and community in this FOA refer to the place where an individual resides or lives. Home- and community-based palliative care programs ensure those with serious, advanced illness who do not require hospitalization but are not appropriate for hospice have access to high-quality end-of-life and palliative care.

Deadline: September 7, 2022

Co-infection and Cancer (R01 Clinical Trial Not Allowed)-CFDA 93.393

This initiative seeks to enhance our mechanistic and epidemiologic understanding of infection-related cancers, with a focus on the etiologic roles of co-infection in cancer. Preference will be given to investigations of co-infections with known oncogenic agents (e.g., *Helicobacter pylori* [*H. pylori*] and Epstein Barr virus [EBV]; excluding human immunodeficiency virus [HIV]) and of co-infections that engendered novel opportunities for prevention and treatment. Coinfection is defined as the occurrence of infections by two or more infectious (pathogenic or nonpathogenic) agents either concurrently or sequentially and includes both acute and chronic infections by viruses, bacteria, parasites, and/or other microorganisms.

Deadline: January 07, 2023

EHR Core Research (ECR): Building Capacity in STEM Education Research-CFDA 93.855

This Funding Opportunity Announcement (FOA), issued by the National Institute of Allergy and Infectious Diseases (NIAID), invites applications for investigator-initiated Resource-Related Research Projects (R24). The proposed resource must provide a significant benefit to currently funded high priority projects in need of further coordination and support in the areas specified. Under rare circumstances, this mechanism may be used to support the development of a new resource to the broader scientific community of the NIAID. It is anticipated that the request for resource support through the R24 activity code will occur on an infrequent basis and only in circumstances where other mechanisms of support from the NIAID are not appropriate. The proposed resources should be relevant to the scientific areas of the NIAID mission including the biology, pathogenesis, and host response to microbes, including HIV; the mechanisms of normal immune function and immune dysfunction resulting in autoimmunity, immunodeficiency, allergy, asthma, and transplant rejection; and translational research to develop vaccines, therapeutics, and diagnostics to prevent and treat infectious, immune-mediated, and allergic diseases.

Deadline: January 07, 2023

Archiving and Documenting Child Health and Human Development Data Sets (R03 Clinical Trial Not Allowed)-CFDA 93.865

The purpose of this funding opportunity announcement (FOA) is to invite R03 applications to support archiving and documenting existing data sets to enable secondary analysis of these data by the scientific community. The

priority of this program is to archive data sets within the scientific mission of the NICHD; the highest priority is to archive data collected with NICHD support.

Deadline: January 07, 2023

**NIDCR Predoctoral to Postdoctoral Transition Award
for A Diverse Dental, Oral, and Craniofacial Research
Workforce (F99/K00 Clinical Trial Not Allowed)-
CFDA 93.121**

The purpose of this award is to support phased transition of outstanding graduate students from groups underrepresented in the biomedical, clinical, behavioral and social sciences research enterprise from graduate work to postdoctoral research positions in Dental, Oral, and Craniofacial (DOC) research. The first phase (F99) will support the final two years of graduate research training for individuals in Ph.D. or dual degree clinician-scientist programs. Following graduation and attainment of a postdoctoral research position, the second phase (K00) will provide support for up to three years of mentored postdoctoral research.

Deadline: January 07, 2023

**U.S. Department of Housing and Urban
Development**

U.S. Department of Homeland Security

U.S. Department of the Interior

**Energizing Insular Communities Program- (CFDA
15.875)**

The Office of Insular Affairs' Energizing Insular Communities (EIC) Program provides grant funding for energy projects and strategies that reduce the cost of electricity to residents and businesses in U.S. territories. This program is intended to support the Department of the Interior's priority to ensure energy and economic security for America. All proposals must be directly tied to the territory's updated strategic energy plan, energy action plan, or integrated resource plan. Technical assistance is available through an interagency agreement with the U.S. Department of Energy to support these efforts and applicants should indicate interest in such assistance in their application.

Deadline: June 15, 2020

Youth Engagement, Education, and Employment **Department of the Interior Wildlife Service-CFDA** **15.676**

Federal Program: Department of the Interior, United States (U.S.) Fish and Wildlife Service, HQ National Wildlife Refuge System Catalog of Federal Domestic Assistance (CFDA) Number: 15.676 Authorizing Legislation: Fish and Wildlife Act, 16 U.S.C. §742 et seq.; Fish and Wildlife Coordination Act, 16 U.S.C. §§661-666; National Fish Hatchery System Volunteer Act, 16 U.S.C. §§760aa-760aa-4; National Wildlife Refuge System Administration Act, 16 U.S.C. §§668dd-ee; Public Lands Corps Act - Public Lands Corps, 16 U.S.C. §§1721-1726; Public Lands Corps Act - Youth Conservation Corps, 16 U.S.C. §§1701-1706; and National Park Service Centennial Act, Public Law No: 114-289.

The U.S. Fish and Wildlife Service's (USFWS or Service) National Wildlife Refuge System (NWRS) is accepting proposals from non-profit, state, and local government youth and veteran serving organizations with the interest and capacity to work cooperatively with the USFWS to develop introductory educational experiences in natural resource careers to young people and veterans, including culturally, ethnically and economically diverse students, and underserved communities that traditionally have low participation in outdoor recreation activities through hands-on experience and mentoring at a variety of USFWS programs including but not limited to, national wildlife refuges, fish hatcheries, and ecological services offices. Under this program, individuals and/or groups of youth, young adults, and veterans: Will be introduced to natural resource careers through hands-on work with, and training by, natural resource professionals employed by the USFWS may be allowed to serve both seasonal and or year-round assignments. Will enhance conservation stewardship; increase outdoor recreation opportunities for all Americans and improve the management of game species and their habitats for this generation and beyond. Will be introduced to various real-world conservation and rehabilitation activities such as invasive species management, habitat restoration, wildlife management, public education and interpretation, disaster response and mitigation, and communications, mixed with informal and formal training sessions directed by USFWS employees during assignments. It will enhance and expand public access to lands and waters. They will be provided feedback for their future growth and may receive consideration for future employment with the USFWS. See Full Announcement for application details and instructions.

Deadline: September 15, 2020

U.S. Department of Justice

Parole Board Members Training-(CFDA 16.601)

It is estimated that over 800,000 people return to the community each year following a period of incarceration in prisons. These justice-involved individuals can transition through the correctional system and reenter society on parole in ways that reduce the chance that they commit a new crime and, consequently, protect the public. It is for this reason parole board members should have the competencies to collaborate with the criminal justice system and community partners, use current research, and build infrastructure and capacity within parole organizations for delivering services effectively and efficiently.

Well-educated paroling authorities use current research to guide the way they operate and make decisions to help make our communities safer and stop the needless expenditures of precious public resources. In 2010, NIC developed the only training for parole board members in the U.S. The training is designed to equip parole board members to:

- Make sound and informed release decisions

- Work Collaboratively with justice and community partners

- Define and measure success to become an evidence-based organization

- Advocate for needed change in the criminal justice system

NIC's training for parole board members is a 26-hour blended training composed of a pre-assignment, virtual session and three-day face to face session. The training encourages the members to explore their beliefs and how they influence their work on the parole board. And it describes how paroling authorities can use evidence-based decision-making and practices to decrease recidivism and increase public safety.

Deadline: May 12, 2020

Research and Development in Forensic Science for Criminal Justice Purposes, Fiscal Year 2020-(CFDA 16.560)

With this solicitation, NIJ seeks proposals for basic or applied research and development projects. An NIJ forensic science research and development grant support a discrete, specified, circumscribed project that will: (1) increase the body of knowledge to guide and inform forensic science policy and practice, or (2) lead to the production of useful material(s), device(s), system(s), or method(s) that have the potential for forensic application. This program intends to direct the findings of basic scientific research; research and development in broader scientific fields applicable to forensic science; and ongoing forensic science research toward the development of highly discriminating, accurate, reliable, cost-effective, and rapid methods for the identification, analysis, and interpretation of physical evidence for criminal justice purposes. Projects should address the challenges and needs of the forensic science community. The operational needs discussed at NIJ's FY 2016 Forensic Science TWG meeting may be found on NIJ.gov. Additional research needs of the forensic science community can be found at the Organization of Scientific Area Committees website. While the goals and deliverables of proposed projects do not necessarily need to result in immediate solutions to the posted challenges or needs, they should speak to them and produce knowledge that adds to work towards eventual resolutions.

Deadline: May 18, 2020

BJA FY 20 The Justice and Mental Health Collaboration Program-(CFDA 16.745)

The JMHS is authorized by the Mentally Ill Offender Treatment and Crime Reduction Act of 2004 (MIOTCRA) (Pub. L. 108-414) and the Mentally Ill Offender Treatment and Crime Reduction Reauthorization and Improvement Act of 2008 (Pub. L. 110-416). Additionally, the 21st Century CURES Act (2016) served to reauthorize MIOTCRA programs.

Justice and Mental Health Solutions support cross-system collaboration to improve responses and outcomes for individuals with mental illnesses (MI) or co-occurring mental illness and substance abuse (CMISA) who come into contact with the justice system. This program supports officers and public safety and violence reduction through social service and other partnerships that will enhance and increase law enforcement responses to people with MI and CMISA.

Deadline: May 18, 2020

Developing Organizational Resources to Support Behavioral Change-(CFDA 16.603)

Community Corrections Supervision organizations are increasingly interested in adopting effective supervision interventions as a growing body of research indicates that staff, well trained in evidence-based practices, improve public safety outcomes. More specifically, the community corrections profession is investing in interventions that support behavior change and are moving away from using only control and containment supervision strategies. Research indicates, when community supervision staff employ evidence-based approaches that reduce risk and need, coupled with skillful use of innovations such as Core Correctional Practices (i.e., effective reinforcement, cognitive restructuring, and professional alliance), they become adept at helping persons under community supervision identify thinking errors, develop problem-solving skills and can reinforce these new skills.

Deadline: May 25, 2020

FY 2020 Coronavirus Emergency Supplemental Funding Program- (CFDA 16.034)

The Coronavirus Emergency Supplemental Funding (CESF) Program will provide funding to assist eligible states, local units of government, and tribes in preventing, preparing for, and responding to the coronavirus.

Allowable projects and purchases include, but are not limited to, overtime, equipment (including law enforcement and medical personal protective equipment), hiring, supplies (such as gloves, masks, sanitizer), training, travel expenses, and addressing the medical needs of inmates in state, local, and tribal prisons, jails, and detention centers.

Deadline: May 29, 2020

U.S. Department of Labor

National Dislocated Worker Grants Program Guidance-(CFDA 17.277)

National Dislocated Worker Grants (DWGs) are discretionary grants awarded by the Secretary of Labor under Section 170 of the Workforce Innovation and Opportunity Act (WIOA) to provide employment-related services for dislocated workers. The Department funds two types of DWGs: Disaster Recovery and Employment Recovery.

Disaster Recovery DWGs provide funding to create temporary employment opportunities to assist with clean-up and recovery efforts when an area impacted by an emergency or major disaster is declared eligible for public assistance by the Federal Emergency Management Agency (FEMA) or is declared, or otherwise recognized, as an emergency or disaster of national significance by a Federal agency with authority or jurisdiction over Federal response to the disaster or emergency.

Employment Recovery DWGs temporarily expand capacity to serve dislocated workers and to meet the increased demand for employment and training services following a qualifying event. Qualifying events include major economic dislocations, such as plant closures, mass layoffs, or higher-than-average demand for employment and training activities for dislocated members of the Armed Forces and their spouses. Under 20 CFR 687.110(a)(5), the Secretary of Labor may determine other major dislocations eligible for Employment Recovery DWGs.

Deadline: Rolling grant

[Announcement of Stand Down Grants – \(CFDA 17.805\)](#)

DOL VETS supports local Stand Down (SD) events that assist homeless veterans by providing a wide variety of employment, social, and health services. A homeless veteran is a veteran, as defined in 38 U.S.C. 101(2), who is “homeless” as that term is defined at 42 U.S.C. 11302(a)-(b), as amended by the Homeless Emergency Assistance and Rapid Transition to Housing Act of 2009 (Public Law 111-22). Stand Down grant funds must be used to enhance employment and training opportunities or to promote the self-sufficiency of homeless veterans through paid work. Veterans experiencing homelessness do not always have access to basic hygiene supplies necessary to maintain their health and appearance. Lack of shelter limits their ability to prepare for and present themselves at job interviews or be contacted for follow-up. Basic services such as showers, haircuts, attention to health concerns, and other collaborative services provided at SD events can give participants a greater sense of self and an opportunity to improve their chances of securing and maintaining employment. Each year, VETS sets funds aside from the Homeless Veterans’ Reintegration Program (HVRP) budget activity to award SD grants. Stand Down funding is a non-competitive grant awarded on a first-come, first-served basis until available annual funding is exhausted. VETS will continue to accept applications and process when additional funds become available. The maximum amount that can be awarded, per applicant for a geographic area, in a fiscal year (October 1 – September 30) is \$7,000 for a one-day event and \$10,000 for a multi-day event. VETS recognizes the following as circumstances that may justify awarding SD grants in higher amounts: emergencies or major disasters, as defined in the Stafford Act, which has been declared eligible for public assistance by the Federal Emergency Management Agency (FEMA). Also, emergencies or disaster situations of national significance, natural or man-made, that could result in a potentially large loss of employment, as declared or otherwise recognized in writing by the chief official of the Federal Agency with jurisdiction over the Federal response to the emergency or disaster. If the VETS Assistant Secretary determines it is appropriate to award increased grants for SD events due to a disaster, the VETS Assistant Secretary will announce such a determination in writing, including the maximum amount that can be awarded on account of such an identified disaster, to provide notice to entities proposing to conduct SD events in those geographic areas where a disaster has been declared or to which a substantial number of veterans have relocated or been relocated. Acceptable uses of Stand Down grant funds do not change in such circumstances. All applications should be emailed to the appropriate DVET of the state in which the SD event is planned.

Deadline: December 31, 2020

U.S. Department of State

International Guidelines for Biosecurity **Ethics**

The purpose of this award is to develop a draft document containing “Ethical Guidelines for Biosecurity” to supplement existing codes and similar ethical documents that already exist for biological scientists. Such guidelines would help to strengthen the norms and practices that exist nationally and internationally against the misuse of the life sciences for biological weapons purpose, thus helping to prevent the creation and use of biological weapons by non-State actors and national governments. Ultimately, such guidelines would incorporate input from the biological science community and be supported both by the Biological Weapons Convention (BWC) States Parties and by relevant professional organizations. This project will be executed in coordination with the Office of Biological Policy Staff (BPS) and WMDT. BPS manages a wide range of policy issues at the intersection of national security, public health, and science and leads U.S. Government participation in activities related to the BWC. The guideline development process would take place under the aegis of the Inter-Academy Partnership (IAP), a global network consisting of 111 national science academies, which would select the technical experts to participate, in close cooperation with the US National Academies of Science, Engineering and Medicine (NASEM).

Deadline: May 28, 2021

U.S. Department of Transportation

U.S. Department of Veterans Affairs

Section III PROGRAM FUNDING THROUGH PRIVATE, CORPORATE & COMMUNITY FOUNDATIONS

BoatUS Foundation Accepting Grant Applications for Safe and Clean Boating Projects

The BoatUS Foundation for Boating Safety and Clean Water is accepting applications for its Grassroots Grants Program, which awards funds on an annual basis to nonprofit organizations, boating clubs, and student groups in the United States for projects that utilize innovative approaches to education about safe and clean boating.

The foundation is looking for creative projects that promote safe and clean boating on local waterways. Past topics have ranged from PSAs on the effects of boating under the influence of hands-on education about the effects of marine debris.

Projects the foundation is most interested in funding will be unique (topic, methods, or delivery mechanism); include extensive outreach to boaters; use technology to educate boaters, including social media and the Web; have a widespread reach (not just a handful of boaters); include hands-on work with the boating community, and have a way to measure the success of the program.

Applicants can include boating groups, clubs and associations, student groups, and local nonprofit organizations, including local chapters of national organizations. Grants will not be awarded to government agencies, international organizations, for-profit businesses, or individuals.

Applicants may request up to \$10,000. Funded projects must be completed within a year.

Deadline: Open

Baseball Tomorrow Fund

The Baseball Tomorrow Fund (BTF) awards grants to non-profit and tax-exempt organizations involved in the operation of youth baseball and/or softball programs and facilities. Organizations operating in the U.S. and international locations are eligible to apply. To date, an average of 400 requests are received annually; approximately 10 percent are awarded grants. Grants are awarded every quarter.

Review cycle deadlines:

- January-March: January 1
- April-June: April 1
- July-September: July 1
- October-December: October 1

Surdna Foundation Sustainable Environment Grants

The Sustainable Environments Program is working to overhaul our country's outdated and crumbling infrastructure with a new approach that will foster healthier, sustainable, and just communities. We believe in the potential of what we call "next-generation infrastructure" to improve transit systems, make buildings more energy-efficient, better manage our water systems and rebuild regional food systems. Focusing on urban areas and their surrounding suburbs, we seek solutions that connect and improve these infrastructure systems in ways that maximize positive impacts and minimize negative environmental, economic and social consequences.

JFNY Grant for Arts and Culture

The Japan Foundation New York office (JFNY) accepts applications for projects that take place within the 37 states east of Rocky Mountains listed below for the JFNY Grant throughout the year. This grant aims to support projects that will further understand of Japanese arts and culture. Successful projects may be granted up to \$5,000. Priority will be given to those projects that have secured additional funding from sources other than the Japan Foundation.

Deadline: Applications must be received at least 3 months before the beginning date of the project.

CSX Beyond Our Rails Grant

CSX provides non-profit assistance and support through a variety of programs, including grants that typically range from \$2,500 to \$5,000 for projects focusing on safety, community, wellness, and/or the environment.

Examples given for environmental projects include:

- Teaching environmental stewardship
- Planting eco-friendly trees and plants
- Leading and supporting environmental cleanups
- Recycling and waste minimization
- Promoting energy efficiency and carbon reduction

Deadline: Ongoing

Laboratory Equipment Donation Program for Colleges, Universities, and Museums

The Laboratory Equipment Donation Program (LEDP), formerly the Energy-Related Laboratory Equipment (ERLE) Grant Program, was established by the United States Department of Energy (DOE) to grant surplus and available used energy-related laboratory equipment to universities and colleges in the United States for use in energy-oriented educational programs.

Deadline: Ongoing

Zayed Future Energy Global High Schools Prize

The primary aim of the Global High Schools category is to inspire future generations across the globe by instilling an ethos of sustainability from an early age, including an appreciation of issues in energy, and broader sustainability. Each school will submit a detailed proposal for a project, and the Prize will become a grant that enables the project's completion. While the main objective is to promote sustainability in schools, a special emphasis of the proposed project should be on specific measurable initiatives to promote renewable energy and sustainability, which may include improvements in energy or water efficiency or a reduction in waste.

Waste Management Charitable Giving

Healthy thriving communities depend on involved citizens, organizations and corporate partners for momentum. We lend our support and services to causes that promote civic pride, economic development, and revitalization. Every community has its challenges, and we strive always to be part of problem-solving initiatives. Programs that Waste Management is most motivated to support include environment, environmental education, and causes important to the areas where we operate. Applications are accepted year-round and are reviewed continuously. Given the large number of requests received, please anticipate an estimated two-month review period for each request.

Clif Bar Foundation Small Grants

These grants are awarded for general organizational support as well as funding for specific projects. Small grants average approximately \$7,000 each. Priority is given to applicants that: Address our funding priorities from a holistic perspective; Protect Earth's beauty and bounty; Create a robust, healthy food system; Increase opportunities for outdoor activity; Reduce environmental health hazards; Build stronger communities; Operate with clearly defined objectives and viable plans to achieve them; Demonstrate strong community ties and operate at the community level; Promote positive change through both the projects and their implementation process.

Deadline: Applications are reviewed three times a year; the deadlines are the 1st of February, June, and October. Grants awarded during a particular cycle will be announced at the beginning of the following cycle.

Foundation for Contemporary Art Accepting Applications for Emergency Grants

Since its inception in 1963, the mission of the Foundation for Contemporary Arts has been to encourage, sponsor, and promote innovative work in the arts created and presented by individuals, groups, and organizations.

Created in 1993, the foundation's Emergency Grants program provides grants of up to \$2,000 to innovative visual and performing artists who have unanticipated, sudden opportunities to present their work to the public when there is insufficient time to seek other sources of funding; or who incur unexpected or unbudgeted expenses for projects close to completion with committed exhibition or performance dates.

To be eligible, applicants must be living, working, and paying taxes in the United States; have committed to a performance or exhibition opportunity and be able to provide specific dates at the time of application; and be an individual artist or an individual representing an artist collective, ensemble, or group. Curators, producers, workshop organizers, organizations, or arts presenters are not eligible to apply.

Deadline: OPEN

Weyerhaeuser Giving Fund

We support the U.S. and Canadian communities where we have a significant presence or business interest. These communities range from rural to metropolitan, each with unique priorities and needs. Our employees serve on local advisory committees for our Giving Fund and develop funding priorities within four focus areas to support their particular communities. This provides a strong companywide framework for giving while allowing flexibility to meet unique needs in our different communities.

Through the Weyerhaeuser Giving Fund we concentrate the majority of our funding in four focus areas:

- Affordable Housing and Shelter
- Education and Youth Development
- Environmental Stewardship
- Human Services, Civic and Cultural Growth

To be eligible for funding, a program must:

- Serve a Weyerhaeuser community
- Be a tax-exempt, nonprofit public charity classified under Section 501(c)(3) of the U.S. Internal Revenue Code OR a registered charity in Canada with a Canada Revenue Agency Number, or registered as a provincial nonprofit society OR a public education institution or government entity qualified under Section 170(c)(1) of the U.S. Internal Revenue Code or qualified as a Canadian municipality.

Wells Fargo Corporate Giving Programs

Wells Fargo supports nonprofit organizations that work on a community level in the areas of human services, arts and culture, community development, civic responsibility, education, environmental consciousness, and volunteerism.

Deadline: Applications accepted on an ongoing basis.

Good Sports Accepting Applications for Sports Equipment Grant

Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community

leaders across the United States, the organization can focus on the respective needs of each program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for two years. During that time, organizations can make up to six separate donation requests — as long as the need is well documented, donations will be granted. There is no need to resubmit a full application again during the two years.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers a consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

Deadline: Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks before the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time.

[Karma for Cara Foundation Invites Applications for Youth Microgrants](#)

The Karma for Cara Foundation is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the Johns Hopkins Kimmel Cancer Center. Cara and her two brothers began volunteering at a young age as part of their family's commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores.

Deadline: OPEN

[VFW Accepting Applications From Veterans for Emergency Financial Assistance](#)

Veterans of Foreign Wars is accepting applications from active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. Since the program's inception, Unmet Needs has distributed more than \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The hardship must be the result of deployment, a military pay issue, or military-related illness or injury. It cannot be due to civil legal or domestic issues, misconduct, or any issues that are a result of spousal separation or divorce, financial mismanagement, or bankruptcy.

Deadline: OPEN

[Start a Snowball Invites Applications for Youth Philanthropy Projects](#)

Start a Snowball, Inc. encourages kids of all ages to engage in philanthropic and community service activities. The organization believes that even one child with the right intentions and support can start a project that seems small in the beginning and eventually grows ("snowballs") into something that inspires and benefits an entire community.

To help kids, kick off their philanthropy efforts, start a Snowball awards \$100 in seed funding for projects taken on by individuals or organizations.

To be eligible, projects must be led by youth between the ages of 5 and 18 and have the intention of doing good.

Start a Snowball does not give directly to collection funds. The organization also does not provide support for fundraisers for sports teams, unless they serve an underserved or disadvantaged group or support projects that are discriminatory or political.

Deadline: Rolling

[Craft Emergency Relief Fund Accepting Applications From Craftspeople in Need](#)

The Craft Emergency Relief Fund is a national nonprofit organization that awards small grants and loans to professional craftspeople experiencing career-threatening illness, accident, fire, theft, or natural disaster.

Financial assistance ranges from \$500 to \$8,000. Other services include referrals to craft suppliers who have agreed to offer discounts on materials and equipment to craftspeople eligible for CERF funds and booth fee waivers from specific craft show producers.

CERF loan recipients are expected to repay the loan in full within five years, enabling CERF to have funds readily available for future craftspeople in need.

Applicants must be a professional artist working in a craft discipline (e.g., a potter, metalsmith, glass artist, woodworker, fiber artist, or furniture maker) who has had a recent career-threatening emergency and a legal resident of the U.S.

Deadline: OPEN

[Pollock-Krasner Foundation Accepting Applications From Artists With Financial Need](#)

The mission of the Pollock-Krasner Foundation is to aid those individuals who have worked as artists over a significant period. The foundation's dual criteria for grants are recognizable artistic merit and financial need, whether professional, personal or both.

Grants are intended for one year, with the size of the grant to be determined by the artist's circumstances and professional exhibition history. Artists applying for a grant must be actively exhibiting their current work in a professional artistic venue such as a gallery or museum space.

The foundation does not accept applications from commercial artists, video artists, performance artists, filmmakers, crafts-makers, computer artists, or any artist whose work primarily falls into these categories.

Deadline: OPEN

[Pollination Project Invites Applications From Social Entrepreneurs for Seed Grants](#)

The Pollination Project is accepting applications from social entrepreneurs looking to make their communities and world a better place. Seed grants of up to \$1,000 will be awarded to projects in the early stages of development, including those that promote compassion toward all life (people, planet, animals), environmental sustainability, justice in all its forms, community health and wellness, and social change-oriented arts and culture.

Only applications for seed funding, as opposed to ongoing operational or program costs of a nonprofit organization, will be accepted. To be eligible, applicants must be a passionate, committed individual with a social change vision that fits within one or more of the categories above. Established nonprofit organizations with paid staff will not be considered.

Deadline: OPEN

[Hope for The Warriors Accepting Applications for Critical Care Support for Wounded Veterans](#)

Hope For The Warriors believes those touched by military service can succeed at home by restoring their sense of self, family, and hope. Nationally, the organization provides service members, veterans, and military families with comprehensive support programs focused on transition, health and wellness, peer engagement, and community resources.

Originally designed to meet short-term needs in the days following an injury, the Hope for The Warriors' Critical Care Coordination program has expanded to assist post-9/11 combat-wounded veterans and their families as they navigate through long-term recovery.

Program case coordinators work daily with post-9/11 combat-wounded service members and veterans, their families, and families of the fallen to meet immediate financial needs related to daily living including utilities, groceries, rent, mortgage, and rental deposits. The program provides casework assistance and resource referrals that will help clients immediately and in the future. Payment is always made to a third party.

To be eligible, applicants must be seeking support for needs that are a direct result of a service member's post-9/11 combat-related injury.

Deadline: OPEN

[Singing for Change Accepting LOIs for Projects to Address Social and Environmental Problems](#)

Created by Jimmy Buffett in 1995, Singing for Change initially was funded with contributions from the singer's summer concert tour. Since then, SFC has offered competitive grants to progressive nonprofit organizations working to address the root causes of social or environmental problems.

Priority will be given to organizations that keep their overhead low, include community members in planning, and collaborate with other groups to find innovative ways of solving common problems. SFC aims to advance the common good by empowering people to thrive and strengthen and sustain vibrant, diverse communities.

Grants will range in size from \$1,000 to \$10,000. Grants are made only to nonprofit organizations with tax-exempt status under section 501(c)(3) of the Internal Revenue Code, or to organizations that have a sponsoring agency with exempt status.

Deadline: Ongoing

[A Little Hope Announces Youth Bereavement Support Services Grants](#)

A Little HOPE supports organizations that provide bereavement support services and grief counseling to children and teens who have experienced the death of a parent, sibling, or loved one.

To be considered, applicants must e-mail (no telephone calls) the name of their program, website address, names of the executive director and program director, and the location of the program. No other information is needed or will be processed. Strong preference will be given to applicants who demonstrate a commitment to the use of community trained volunteers. Grant award amounts are based on the scope and budget of the project.

Deadline: OPEN

[Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities](#)

The mission of the Captain Planet Foundation is to promote and support high-quality educational programs that help children and youth understand and appreciate our world through hands-on learning experiences aimed at improving the environment in their schools and communities.

Grants are intended to serve as a means of bringing environment-based education to schools and inspiring youth and communities to participate in community service through environmental stewardship activities. The foundation will fund unique and innovative projects that do not precisely match the grant guidelines but otherwise promote the foundation's mission to advance hands-on environmental activities.

Deadline: January 31 (typically for fall and winter projects), September 30 (typically for spring and summer projects)

[Chambers of Commerce Invited to Start Young Entrepreneur Academies](#)

The Young Entrepreneurs Academy today serves thousands of students across America. In 2011, the United States Chamber of Commerce Foundation became a national sponsor and partner of the academy to help celebrate the spirit of enterprise among today's youth and the future leaders of tomorrow.

To that end, YEA, in partnership with Sam's Club and the U.S. Chamber of Commerce Foundation, is accepting applications from chambers of commerce across the country to start Young Entrepreneurs academies of their own. The thirty-week program teaches students in grades 6-12 how to generate business ideas, conduct market research, write business plans, pitch to a panel of investors, and launch their own companies. In 2015, Sam's Club will award startup funds of up to \$2,500 each to thirty chambers of commerce across the country.

Cornell Douglas Foundation Grant

The Cornell Douglas Foundation provides grants to organizations that advocate for environmental health and justice, encourage stewardship of the environment, and further respect for the sustainability of resources. The average grant amount is \$10,000.

Deadline: accepted all year

Public Welfare Foundation

The Public Welfare Foundation has three programs, Criminal Justice, Juvenile Justice, and Workers' Rights, that support efforts to advance justice and opportunity for people in need. The Foundation looks for strategic points where its funds can make a significant difference and improve lives through policy and system reform that results in transformative change.

Criminal Justice Guidelines

The Foundation's Criminal Justice Program supports groups that are working to end the over-incarceration of adults in the United States while also aiming to reduce racial disparities. In particular, the Program makes grants primarily to state-based groups that are working to:

- Reduce state incarceration levels and racial disparities through reforms in sentencing, charging, and supervision policies and procedures.
- Advance the redirection and prioritization of state and local resources toward targeted investments that support system-involved individuals in their communities, through research and strategic thought leadership.

Juvenile Justice Guidelines

The Foundation's Juvenile Justice Program supports groups working to end the criminalization and reliance on the incarceration of youth in the United States. The Program makes grants to groups that are working to:

- Advance state policies that dramatically restrict juvenile justice systems' use of incarceration and out-of-home placements and prioritize the use of community-based programs for youth;
- End the practice of trying, sentencing, and incarcerating youth in the adult criminal justice system; and
- Promote the fair treatment of youth of color who come into contact with the juvenile justice system.

Workers' Rights Guidelines

The Foundation's Workers' Rights Program supports policy and system reforms to improve the lives of low-wage working people in the United States, with a focus on securing their basic legal rights to safe, healthy, and fair conditions at work. Specifically, the Program makes grants to groups working to:

- Advance reforms to hold employers accountable for wage theft;
- Advance reforms to prevent severe illness, injury, and death on the job; and
- Advance workers' rights in complex, fissured employment arrangements through research and strategic thought leadership.

[Ben & Jerry's Foundation Seeks Proposals for Social and Environmental Justice Projects](#)

One-year grants of up to \$20,000 will be awarded to nonprofit grassroots community-organizing groups in the United States working to further social and environmental justice and support sustainable and just-food systems. Grants can be used to support both program and operational costs.

[KaBOOM! Invites Applications for Community Playground Grants](#)

KaBOOM!, a program that provides eligible communities with most of the funds, tools, and resources they need to build a custom-made playground in one day.

Deadline: OPEN

[Binoculars for Young Citizen Scientists](#)

Cornell's BirdSleuth K-12 initiative is awarding binoculars to schools where educators have made outstanding efforts to engage their students in citizen science.

Deadline: OPEN

[International Paper Environmental Education Grants](#)

The International Paper (IP) Foundation supports non-profit organizations in communities where its employees live and work. Environmental education is one of the primary areas the Foundation supports. The Foundation seeks programs that help generations understand a sustainable approach to business that balances environmental, social and economic needs.

Lego Children's Fund

The LEGO Children's Fund provides grants primarily in two focus areas: (1) early childhood education and development that is directly related to creativity and (2) technology and communication projects that advance learning opportunities. Typical awards are between \$500 and \$5,000. Interested parties must complete an eligibility quiz, be approved and invited to submit a grant proposal. Each grant will be subject to a specified time frame for completion.

Deadline: Applications accepted four times a year.

Evidence for Action: Investigator-Initiated Research to Build a Culture of Health

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs, and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

Deadline: Open

Pioneering Ideas Brief Proposals

The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted territory to better understand what new trends, opportunities, and breakthrough ideas can enable everyone in America to live the healthiest life possible.

While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health. Ultimately, we support work that will help us learn what a Culture of Health can look like—and how we can get there.

Deadline: Open

Section IV STATE OF ALABAMA GRANTS

Alabama Power Foundation Grant

The Alabama Power Foundation Grant offers funds to nonprofit organizations in Alabama working in one of the following areas:

- Health
- Human services
- Arts
- Community life
- Education
- Environment

Priority is given to projects that address underserved segments of the population and can be duplicated in other communities.

Alabama Board of Medical Scholarship Awards

The Alabama Board of Medical Scholarship Awards offers forgivable loans to students enrolled in an Alabama medical school who agree to practice primary care in a pre-approved medically, underserved community in Alabama upon graduation.

Loans are repaid at the rate of one year of service per year of the loan.

Deadline: Applications accepted on an ongoing basis.

Economic Development Fund

Land, facilities, and infrastructure to benefit an industry that will create jobs. Create a minimum of 15 permanent jobs to benefit 51% low to moderate-income beneficiaries. Continuous. Applications are taken throughout the year. Maximum request: \$250,000. Minimum Request: \$50,000. Note: Waiver of the match available for applicants with 2010 Census population of 1,000 or less. May also waive the grant ceiling for projects that demonstrate significant long-term economic benefit to the State.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbier.olia@adeca.alabama.gov

Economic Development Incubator projects

Units of local government. Applicants must maintain active registration with SAM. The program must benefit 51% of low to moderate-income beneficiaries. The project must commit to creating jobs. Maximum request: \$250,000. Match request: 20%. Applications are taken throughout the year. Award upon approval and as funding is available. Application workshop held in April and compliance workshop held in the fall.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbir.olia@adeca.alabama.gov

States' Economic Development Assistance Program (SEDAP)

Applicants: State and local units of governments, public bodies, and non-profit entities. Eligible counties in West Alabama: Bibb, Fayette, Hale, Lamar, Pickens, and Tuscaloosa.

Activities: Water and wastewater facilities, telecommunications, health care, planning activities, leadership development, education and training programs, business development, and entrepreneurship.

Requirements: Project must meet one of ARC's goals: increase job opportunities and per capita income, strengthen the capacity of people to compete in the global economy or develop and improve infrastructure to make the Region economically competitive. Construction projects funded by ARC must have an "Administering Agency" such as ADECA, USDA Rural Development or TVA. The project will be administered by and take on the requirements of that agency

Deadline: Pre-application due date in August. Applicant notified in late fall/winter if a full application is requested. Award announcements typically made in May.

Contact: Alabama Department of Economic and Community, Affairs (ADECA), Jimmy Lester, ARC Program Manager (334) 353-4490, jimmy.lester@adeca.alabama.gov

Alabama Humanities Foundation Grants

Applicants are encouraged to develop projects for a wide variety of audiences including library and museum patrons, teachers and scholars, youth, senior citizens, nursing home residents, hospital patients, the economically disadvantaged, the incarcerated, and the hearing and sight-impaired.

Application submission deadlines:

- Major Grants (\$1,500 and up) – February 15, June 16, September 15
- Minor Grants (\$1,500 or less) – February 15, June 16, September 15

Bank of America Grant

The Bank of America (BoA) offers grants that support high-impact initiatives, organizations and the development of visionary leaders. Schools with farm-to-school type programs may be eligible under the funding areas:

- Developing Career Leadership and Skills: Opportunities that increase civic and community engagement, career exploration and youth employment, financial knowledge and life-skill and soft-skill development
- Assisting with Food Access: Food deserts, green/fresh food access, etc

BoA's Charitable Foundation provides philanthropic support to address needs vital to the health of communities through a focus on preserving neighborhoods, educating the workforce for 21st-century jobs and addressing critical needs, such as hunger. **Deadline:** Requests for proposals are issued three times per year.

Costco Wholesale Grants

Costco Wholesale grants support programs focusing on children, education and health and human services. They look to achieve the greatest impact where Costco's employees and members live and work. Only 501(c)(3) nonprofit organizations, which meet their giving guidelines and focus areas, are considered.

Deadline: Applications are accepted throughout the year on a rolling basis.

Walmart Foundation National Giving Program Grants

Through its National Giving Program, the Walmart Foundation awards grants of \$250,000 and above to non-profit organizations that operate on a national scope through chapters/affiliates in many states around the country or through programs that operate regionally/locally but seek funding to replicate program activities nationally.

Areas of focus for the Foundation include:

- Hunger Relief & Healthy Eating
- Sustainability
- Women's Economic Empowerment
- Career Opportunity

Deadline: OPEN

William G. McGowan Charitable Fund Issues Request for Proposals for Projects That Address Homelessness

The fund will award grants in support of initiatives that seek to correct circumstances contributing to homelessness, as well as initiatives designed to help eradicate the condition of homelessness in the long term.

Deadline: OPEN

Section V (NEW) FELLOWSHIPS / INTERNSHIPS / SCHOLARSHIPS / FINANCIAL AID / AWARDS

May Scholarships

[AbbVie Cystic Fibrosis Scholarship](#)

\$24,000

Deadline: May 27, 2020

Scholarship Description

The AbbVie CF Scholarship provides financial assistance toward higher education for exceptional students living with cystic fibrosis (CF). Forty AbbVie CF Scholars will be selected to receive \$3,000 for use during the upcoming academic year based on their outstanding academic record, extracurricular activities, and creativity. Each scholar will also be given the opportunity to compete for one of two (2) Thriving Student Scholarships (based on the level of study) for a total amount of \$24,000 each. It is not necessary for applicants to have taken, currently take, or intend to take in the future, any medicine or product marketed by AbbVie, and this will not be a consideration in the recipient selection criteria. Applicants must be United States citizens or a legal and permanent residents of the United States who have been diagnosed with CF by a physician and are enrolled in or awaiting acceptance from an accredited institution (i.e., college, university, or trade/vocational school) for an educational program during the upcoming academic year. Employees of AbbVie and their immediate family members are not eligible to apply. Healthcare providers and their immediate family members are not eligible to apply.

[ACAA Educational Foundation Scholarship](#)

\$5,000

Deadline: May 22, 2020

Scholarship Description

The American Coal Ash Association Educational Foundation (ACAAEF) is accepting applications for scholarships from students with an interest in the beneficial use of coal combustion products (CCP). Both graduate and undergraduate students are invited to apply. The awards will be based on essays, coursework, academic credentials, and recommendations. Essays may discuss a wide variety of topics ranging from CCP management, engineering research, environmental regulation, environmental law, case histories, or other aspects of beneficial use. Two scholarships are available: a one-time \$5,000 award and a one-time \$2,500 award to recognize outstanding students pursuing undergraduate or graduate degrees from an accredited program in the United States.

[ACMPE National Scholarships](#)

\$ Amount Varies

Deadline: May 22, 2020

Scholarship Description

The ACMPE Scholarship Fund Inc. supports individuals who, by virtue of experience, current position and future career plans, demonstrate potential to contribute to MGMA's mission of transforming healthcare. Scholarship applicants are required to be a student member of MGMA and must be enrolled in an undergraduate or graduate degree program relevant to medical practice management, including public health, business administration, healthcare administration and other related areas. Scholarships are not intended to support individuals pursuing degrees in medicine, physical therapy, nursing or other clinically related professions. To be eligible to receive a scholarship, students must be enrolled in a degree program for the coming academic year at a university located within the United States. Individual scholarships may have additional eligibility requirements.

[AFWM Ford Emerging Voices Scholarship](#)

\$ 3,000

Deadline: May 08, 2020

Scholarship Description

The Alliance for Women in Media Foundation (AWMF) and Ford Motor Company Fund are looking for two promising female undergraduate or graduate students to provide future journalistic content for AWM. The "Emerging Voices" Scholarship program consists of two scholarships. The winner will receive \$3,000 and the runner-up will receive \$1,000, made payable directly to each student's educational institute in the name of Ford Motor Company Fund. The winning student will receive one ticket to attend the Gracie Awards Luncheon New York City. Both winners will write two blog posts for the AWM website over the 3rd and 4th quarters of the year on pre-approved topics. These pieces will be published on the AWM website and pushed through AWM's social networks.

[Against the Grain Scholarship](#)

\$1,000

- Letter of recommendation from someone who is able to discuss candidate's academic achievements and/or character
- Video expressing how you pursue excellence, your interest in culinary arts/hospitality and long-term goals. This is your opportunity to express individuality/creativity, passion, commitment and any other positive qualities Videos should not exceed three minutes. *If you experience any difficulties uploading your video, please send it to Program Manager, LaKiesha P. Dunn, at lpdunn@thetrotterproject.org

[The Trotter Project's Pursuit of Excellence Scholarship](#)

\$10,000

Deadline: May 15, 2020

Scholarship Description

The Trotter Project Pursuit of Excellence Scholarship is awarded to current culinary art/hospitality college students enrolled in an accredited college/university who demonstrate financial need. Applicant must be a high school senior or college student with a 2.5 or higher G.P.A. (unweighted) to qualify for scholarships and must be a Culinary Arts, Baking/Pastry or Hospitality student.

[Umps Care All-Star College Scholarship](#)

\$10,000

Deadline: May 15, 2020

Scholarship Description

The All-Star Scholarship is provided by UMPS CARE Charities, the official non-profit of Major League Baseball umpires. This scholarship is open to children adopted at or after the age of 13 to provide increased opportunities for advanced education. Each year, one student will be selected to receive the scholarship. This student will be eligible to receive up to \$10,000 annually to go towards tuition, books, and other college related expenses. Students must fill out the application, submit a high school transcript, FAFSA report, three letters of recommendation and four short essay questions.

[The Kennedy Center-VSA Emerging Young Artists Program](#)

\$20,000

Deadline: May 20, 2020

Scholarship Description

The VSA Emerging Young Artists Program, a Jean Kennedy Smith Arts and Disability Program, recognizes and showcases the work of emerging young artists with disabilities, ages 16-25, living in the United States. Fifteen artists will be selected by a jury. Winning artists will receive an all-expenses-paid professional development workshop at the Kennedy Center in Washington, D.C. Recipients are notified by July 15.

Fellowship Search

[National Endowment for the Humanities](#)

Fellowships support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources in the humanities. Projects may be at any stage of development.

Section VI RESOURCES

[THE UPDATED GRANT AND LOAN GUIDE FOR LOCAL GOVERNMENTS IN WEST ALABAMA IS AVAILABLE ONLINE NOW!](#)

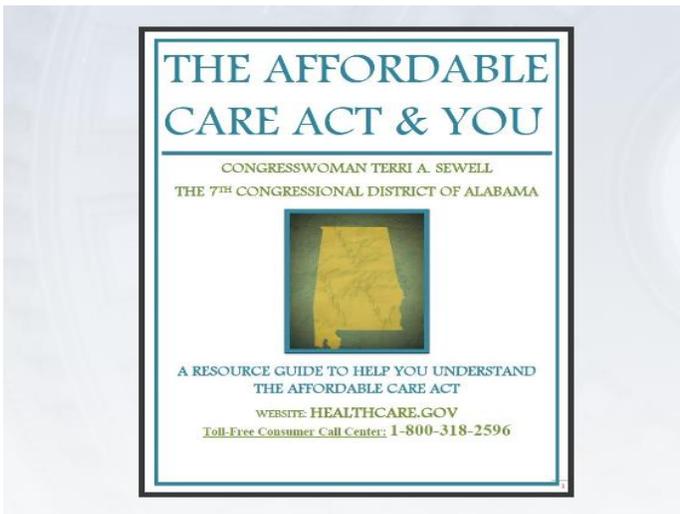

The guide is a quick reference to a variety of commonly used programs giving you the most important details you need to get started.

Find the Guide at <http://warc.info/planning-a-development/documents>~~http://warc.info/planning-a-development/documents~~. Scroll down to REGIONAL INFORMATION DOCUMENTS.

The guide is a free web-based resource designed to provide counties and municipalities in the West Alabama region with information about available grant and loan programs for community and economic development activities.

The guide provides program details on major Federal and State programs including agency contacts; award cycles; grant ceilings; matching requirements; and eligibility factors.

Alabama Additional Funding Sources

Community Foundations in Alabama

There are 13 community foundations in Alabama, covering 78 percent of the counties in the state and holding assets that total more than \$190 million.

Daniel Foundation

The Daniel Foundation offers grants in four program areas: Civic and Community Improvement, Education, Health, and Arts and Culture. Applications are limited to 501 (c)(3) organizations that are located in Alabama.

Alabama Power Foundation

The Alabama Power Foundation allocates funding in four categories: Improving Education, Strengthening Communities, Promoting Arts and Culture, and Restoring and Enhancing the Environment.

Alabama Humanities Foundation

The AHF awards grants solely to support public humanities projects. Active public participation, the involvement of humanities scholars, and strong humanities content are the three essential components of AHF-funded projects.

Gwyn Turner Endowed Fund

The fund is administered by the National Trust for Historic Preservation, in partnership with Alabama Trust. Nonprofits and governmental agencies can obtain funding for preservation planning, heritage education, workshops, conferences, and special interventions. Grants range from \$1,000 to \$5,000 and require a 1:1 cash match.

Applicants are encouraged to discuss their project with the National Trust Southern Office before applying. Contact the Southern Office at 843.722.8552, or e-mail soro@nthp.org.

Sybil H. Smith Trust

Established in 1983, this trust funds organization in the First Congressional District only. Awards limited to arts, community development, education, and human services. No awards are given for individuals. For more information, call: 251.432.0208.

Alabama State Council on the Arts

Grants awarded to nonprofit organizations and local governments in the following categories: Presenting Grants, Project Assistance, Operating Support, Technical Assistance, Collaborative Ventures, and Program Development.

Historic Chattahoochee Commission

The Historic Chattahoochee Commission (HCC) promotes tourism and historic preservation in the Chattahoochee Trace, an 18-county region in Alabama and Georgia. The HCC supports preservation through two grant programs: Seed Grant and the Threatened Landmarks Program.

Veterans

FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high-quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members, and spouses are connected to high-quality career choices by matching their identified skills with the available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden's Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans, and transitioning Service Members deserve a single, authoritative source for connecting. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at <https://www.ebenefits.va.gov/ebenefits/jobs%20%20>

For a tutorial video on how to use the Veterans Employment Center, please visit:
