

Guide to Grants

From the Office of Congresswoman Terri A. Sewell

Proudly Representing Alabama's 7th Congressional District

November 1, 2021

Welcome to the *Guide to Grants!*

I am honored to represent the 7th Congressional District of Alabama. As your representative during this unprecedented crisis of the **COVID-19 Pandemic**, it remains my top priority to provide you with the resources we need to keep our community safe and thriving. I will work diligently to provide you with the most current information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our health and safety. This guide will identify federal, corporate, and foundation grant opportunities to assist you in goals for our communities. This guide will include links to federal agencies and resources to help you make your proposals more successful. This guide will also describe new funding opportunities for economic development, infrastructure, healthcare, and educational projects. Also, I am pleased to provide a Letter of Support for grant application projects in the 7th Congressional District of Alabama. Stay up to date with the latest information at <http://sewell.house.gov> Please continue to let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit our website at <http://sewell.house.gov>. To subscribe to *Guide to Grants*, sign up on our [website](#) or call us at 205.254.1960. Previous editions of the *Guide to Grants* are archived and can be found [here](#).

Rep. Sewell to Host 10th Annual Job Fair in Bessemer, AL on November 9

U.S. Rep. Terri Sewell (AL-07) will host her 10th annual Job Fair at the Bessemer Civic Center in Bessemer, AL on November 9, 2021, from 10 AM - 2 PM CT. The Job Fair is an opportunity for Rep. Sewell to bring employers directly to job seekers to increase economic opportunity and development across the 7th Congressional District.

“My office’s annual Job Fair is a key hallmark of our mission to advance economic opportunity for the residents of the 7th District,” said Rep. Sewell. “This year, after the economic devastation of the COVID-19 pandemic, it is critically important that we take this opportunity to bring employers and job seekers back together. I have always been committed to providing greater economic opportunities to all of my constituents by ensuring that they have access to the resources they need to reach their God-given potential, and that begins with the dignity of a job. I am very excited to return to an in-person setting for this year’s job fair, where we will be welcoming over 50 employers from various industries to the City of Bessemer.”

Details for 10th Annual Job Fair in Bessemer, AL:

WHEN: Tuesday, November 9, 2021, from 10:00 AM - 2:00 PM CST

WHAT: 10th Annual Job Fair

WHERE: Bessemer Civic Center; 1130 Ninth Ave SW Bessemer, AL

The 10th Annual Job Fair in Bessemer, Alabama is free and open to the public. Pre-registration is strongly encouraged but not required. On-site registration will be available the day of the event. Constituents can pre-register by visiting [this link](#). Properly fitted masks are required for entry and attendance. Vaccinations or a negative COVID test within 24 hours of entry are strongly encouraged.

This year’s job fair will feature over 50 employers across 8 different industry sectors including: Hyundai, Honda, Buffalo Rock (Pepsi), Alabama Power and many others.

The Annual Job Fair reflects Rep. Sewell’s ongoing commitment to increasing economic opportunity and growth across the 7th Congressional District. The Annual Job Fair is Rep. Sewell’s largest constituent event of the year.

[Rep. Sewell Votes to Pass Family Violence Prevention and Services Improvement Act](#)

U.S. Rep. Terri Sewell (AL-07) applauded the passage of H.R. 2119, the Family Violence Prevention and Services Improvement Act. This bipartisan bill would reauthorize the Family Violence Prevention and Services Act (FVPSA) which—nearly 40 years after its enactment—continues to be the primary source of federal funding for domestic violence shelters in the US. H.R. 2119 would enhance and refocus federal investment to address intimate partner violence (IPV). The bill passed the House today by a vote of 228-200.

“We have a duty to prevent the scourge of domestic violence and ensure that survivors in Alabama and throughout the country are safe and cared for,” said Rep. Sewell. “That’s why I’m proud to join my colleagues in voting to pass the Family Violence Prevention and Services Improvement Act. At a time when rates of domestic violence are on the rise, ensuring that we fully fund programs to combat domestic violence is paramount!”

According to the Centers for Disease Control and Prevention (CDC), about one in four women and nearly one in ten men have reported experiencing some form of IPV during their lifetime. Yet, according to the National Network to End Domestic Violence, in just one day in 2020, domestic violence programs were unable to meet 11,047 requests from survivors of domestic violence for shelter and/or supportive services. This is an increase of almost 2,000 requests (almost 18 percent) in just two years.

FVPSA, which is the central pillar in fighting against IPV, has not been reauthorized since 2010, leaving programs underfunded and outdated. COVID-19 has increased the risk of IPV and disrupted services that offer resources and support. Communities of color, people with disabilities, and LGBTQ+ individuals experience disproportionate rates of IPV but face significant barriers to accessing services.

The Family Violence Prevention and Services Improvement Act is a comprehensive reauthorization of the FVPSA through FY 2026. The bill would require the Department of Health and Human Services to award grants and partner with organizations to support intimate partner violence preventative services. This funding and support for services would include dedicated resources for over-represented and underserved populations that face high rates of intimate partner violence.

Rep. Sewell Calls on Senators to Reform the Filibuster and Pass Federal Voting Rights Legislation

U.S. Rep. Terri Sewell (AL-07) spoke on the House Floor during the Congressional Black Caucus' Special Order Hour to call on her Senate colleagues to reform the filibuster and pass federal legislation to protect the right to vote, including her bill, the John R. Lewis Voting Rights Advancement Act. Below are Rep. Sewell's remarks:

Rep. Sewell: Madam Speaker, as we speak, our nation is facing the most concerted effort to restrict the right to vote in a generation.

Just this year, 400 bills have been introduced in state legislatures across this nation to restrict the right to vote. And in 19 states, at least 33 of these bills have become law, including the most egregious of state legislatures, Georgia, where now it is a crime to give a bottle of water to a voter as they stand in line.

Even as our very democracy comes under attack, we see Republicans standing firm in their opposition to protecting the right to vote, a bedrock principle that should never be partisan.

Just last week, we watched as every Senate Republican voted to block debate on the Freedom to Vote Act, a commonsense bill that would ensure every American has access to the ballot box. What are they afraid of, I ask? What are they afraid of?

Last week's vote made clear that Senate Republicans are unwilling to even debate voting rights, let alone hold a fair vote.

This just further demonstrates that in order to protest and protect our democracy and the sacred right to vote, we must reform the filibuster to create a path forward for must-pass pieces of legislation.

Madam Speaker, almost three weeks ago, we saw Senator Leahy introduce S. 4, the John Robert Lewis Voting Rights Advancement Act, in the Senate. But unless we take action on the filibuster and take action now, this critical bill will face the same fate as the Freedom to Vote Act.

The way I see it—every Senator is now faced with a choice. It's voting rights or the filibuster. It's protecting our sacred right to vote and our democracy or the filibuster. It's advancing the legacy of John Lewis and the Foot Soldiers or it's the filibuster.

Now I know which side I'm on, and I hope our Senators will choose to do what's right and do away with an archaic procedural rule that has been used for decades to block racial justice in this country.

President Biden also understands the urgency of this critical moment. On Thursday, at his town hall meeting, we heard President Biden express support for reforming the filibuster to pass much-needed voting rights legislation.

I'm glad that President Biden understands the urgency of this moment and the dire need for federal oversight. It was federal oversight that brought us the Civil Rights Act of 1965. It was federal oversight that allowed those marchers to march across that Edmund Pettus Bridge in my hometown of Selma, Alabama. When state legislatures go amuck, it's federal oversight that we need to ensure that every American has access to the ballot box.

Madam Speaker, it was Foot Soldiers like our late, great colleague and my mentor, John Lewis, who shed blood on a bridge in Selma for the equal right of all Americans to vote. If protecting that sacred right is not worth overcoming a procedural rule, then what is?

Madam Speaker, it takes only 51 votes to sit a Supreme Court Justice. For a Supreme Court Justice to have life tenure on the Supreme Court, 51 votes. And yet, it takes 60 votes to stop debate and allow a fair vote in the United States Senate on voting rights. This is unacceptable. It's un-American. It's unjust. And we in the Congressional Black Caucus are saying this is our message, this is our fight: voting rights.

We have no other choice. We must reform the filibuster and we must do it now

When I think about the shoulders on which we all stand, I am reminded of being in this House in 2015 during the State of the Union. I had as my special guest none other than Amelia Boynton Robinson who at that time was 103 years old. She was the oldest living Foot Soldier that marched across the Edmund Pettus Bridge with John Lewis and so many others. And in 2015, on the 50th anniversary of the Selma to Montgomery March, she was my special guest.

And as we waited in a small room off of this chamber for Barack Obama, then President of these United States, to come and deliver that State of the Union, to a person the President's cabinet said the same thing. Everyone wanted to take a picture with Ms. Amelia Boynton Robinson. They kneeled by her wheelchair and they said, "Oh, Miss Amelia, we stand on your shoulders. Oh, Miss Amelia, we wouldn't be here if it wasn't for your sacrifice."

Well Miss Amelia was a little tired of people saying that to her over and over again. When Eric Holder, then Attorney General of the United States, came and kneeled beside her and said, "Oh Miss Amelia I stand on your shoulders," she said, "Get off my shoulders! All of you! Do your own work," is what she said.

So Madame Speaker, I am here to say that we, the members of the Congressional Black Caucus, are doing our own work. We're standing firm. We're standing solid. We're standing united in our effort to bring back the full protections of the Voting Rights Act of 1965.

We must do our own work, all of us. It's not enough to say that we stand on the shoulders of giants. We know these giants. Our foremothers and our forefathers, they were tacticians. They were strategists. They didn't just happen upon Selma, Alabama. They didn't just happen upon Birmingham and Memphis and Atlanta. They went looking for Good Trouble. And Good Trouble they got in. We must do the same.

We must take a play from their playbook. We stand firm. We must stand united. We must stand undeterred in our efforts to beat down any barriers that stand in the way of protecting that sacred right to vote. It was John Lewis who said that the vote is the most sacred, the most fundamental right and nonviolent tool in our democracy. THAT is the vote. The vote is fundamental to this democracy, and everything else we do will be tainted if every American lacks the right to vote.

There's nothing more sacred, more fundamental to this democracy than the right to vote. How can a procedural rule stand in the way of that right?

I can tell you that my constituents back home don't understand. They don't understand the filibuster. They don't understand this archaic procedural rule that is in the Senate. When I tell them that it stands in the way of us passing the John Robert Lewis Voting Rights Advancement Act, they say why? Didn't we go to the polls in record numbers in states all across this nation in southern states like Georgia to deliver the Democratic majority?

And they ask of us to protect that democracy now. John Lewis said that our fight is not a fight for one day. It's not a fight for one year. Ours is a fight of a lifetime to secure that sacred right to vote.

When I close my eyes I can hear him. Can't you hear him? John Lewis said it firmly. He said it often. When you see something that's not right, that's not fair, that's not just, we have a moral obligation to stand up and do something about it.

We in the Congressional Black Caucus know that our message, our fight, our cause is nothing if not to defend the sacred right to vote. It is a right that is fundamental to our democracy and that no elected official should seek to undermine or restrict any voice in this democracy.

Our vote is our voice in this representative democracy. When you squelch the voice of one American who has that sacred right and is unable to exercise it because the lines are too long, because their names have been purged from a role, it is a fundamental threat to all of us.

Injustice anywhere is a threat to justice everywhere. We know that. We live that. Martin Luther King told us that, but we live it every day. Nothing is more fundamental to our rights than our democracy and its foundation, its bedrock... the right to vote.

When Barack Obama finally came into that small room off of this chamber, Amelia Boynton Robinson cradled his face. I think all of us understood the import of that moment. Here was the first African American President of these United States, and here was a woman at 103 years old who made the ultimate sacrifice of being bludgeoned on a bridge, shedding blood on a bridge in MY hometown of Selma, Alabama, so that all of us would have the right to vote. That one day, she would see the fruits of her labor.

Oh, what faith our foremothers and forefathers must've had. FAITH. FAITH that their sacrifices were not in vain. President Obama said, "Oh Miss Amelia, to say thank you doesn't seem adequate. I get to give a speech as President of these United States and it's because of you." Without missing a beat, this woman, 103 years old and frail, said, "Oh make it a good one! That better be a very good speech."

We should make everyday a good one. We who are the inheritors of this legacy. We who are the beneficiaries of this movement. Every day should be a good one. We should not lay our head on a pillow if we have not advanced the legacy of these foremothers and forefathers.

Every day should be a good one. So we call on the Senate to do what we KNOW is right. To do what John said is Good Trouble. Get into some Good Trouble. Let's change those rules. We have it within our power to do so, after all. WE control the Senate. WE control the House. We have the White House. Gavels given to us by ordinary people who believe that we will take that power and exercise that power on THEIR behalf.

Nothing is more fundamental than the right to vote. So in the name of John Lewis, in the name of Amelia Boynton, in the name of all of those known and unknown Foot Soldiers who had the audacity to make this nation live up to its ideals of freedom, justice, equality. Are those empty words? We must breathe life into those constitutional principles. And we can do so, if we have the will to do what we know is right.

A filibuster or voting rights?

Upholding the legacy of our foremothers and forefathers or a filibuster?

Making sure that we do all that we can to protect this democracy or a filibuster?

The choices are easy from where I sit. They're easy from where our constituents sit. I ask our Senators to do what they know is right.

If ever there's a reason to reform the filibuster, it's for that constitutionally protected right to vote. We must do so, and we must do so NOW and pass S. 4, the John Robert Lewis Voting Rights Advancement Act. Let us restore the full protections of the Voting Rights Act of 1965. Let us pass the Freedom to Vote Act, which after all, the first 300 pages written by John Lewis, his Empowerment Act.

It's about access to the ballot box. It's about making sure that the least of these, the voiceless, have a voice in this democracy.

We must Restore the VOTE: Voices Of The Excluded. We can do that. Congress can do that. That was what the Supreme Court said in the Shelby v. Holder decision. Only Congress can come up with a modern-day formula to secure the right to vote; to get at the most egregious state actors.

We understand that we are threading a thin needle. But we have done our job, and now the Senate must do its. Let's get rid of the filibuster. Let's reform the filibuster at the very least, and ensure that every American has a right to vote and to ensure that their vote is counted.

I yield back the balance of my time.

Rep. Sewell, Larson Introduce Landmark Bill to Protect, Strengthen, and Expand Social Security

U.S. Rep. Terri Sewell (AL-07) joined House Ways and Means Social Security Subcommittee Chairman John B. Larson (CT-01) to introduce Social Security 2100: A Sacred Trust. This landmark legislation would enhance Social Security benefits for the first time in 50 years, providing a benefit bump for beneficiaries, improving the cost of living formula, and providing credits for those who take time out of the workforce to care for a loved one. The bill is completely paid for by asking top earners to pay their fair share. Rep. Sewell

joined Chairman Larson for a press conference today announcing the bill's introduction which can be viewed [here](#).

“As a proud member of the Ways and Means Social Security Subcommittee, I know that Social Security is a critical lifeline for so many hard-working Americans in Alabama’s 7th district and across this nation,” said Rep. Sewell. “We should not only protect it, but improve it and expand it. With this bill, Social Security 2100, we’re ensuring that every worker can retire with dignity after a lifetime of work.”

“Social Security 2100: A Sacred Trust combines the best of the previous year’s Social Security 2100 Act with President Biden’s proposals to expand benefits and strengthen Social Security. The pandemic has only underscored what we already knew and has exacerbated systemic inequities -- current benefits are not enough! 5 million seniors are living in poverty due to longstanding discrimination in the labor force that affects mostly people of color and women. These are our mothers, fathers, aunts, uncles, and neighbors. For too long, Congress has forsaken its duty to enhance benefits. It’s time that we act now,” said House Ways and Means Social Security Subcommittee Chairman and lead sponsor John Larson.

Social Security 2100 Increases Benefits:

Benefit bump for current and new beneficiaries – Provides an increase for all beneficiaries that is the equivalent to about 2% of the average benefit. The US faces a retirement crisis and a modest boost in benefits strengthens the one leg of the retirement system that is universal and the most reliable.

Protection against inflation – Improves the annual cost-of-living adjustment (COLA) formula to better reflect the costs incurred by seniors through adopting a CPI-E formula. This provision will help seniors who spend a greater portion of their income on health care and other necessities. Improved inflation protection will especially help older retirees and widows who are more likely to rely on Social Security benefits as they age.

Protects low-income workers – No one who paid into the system over a lifetime should retire into poverty. The new minimum benefit will be set at 25% above the poverty line and would be tied to wage levels to ensure that the minimum benefit does not fall behind.

Social Security 2100 Strengthens the Trust Fund

Have millionaires and billionaires pay the same rate as everyone else – Presently, payroll taxes are not collected on wages over \$142,800. This legislation would apply the payroll tax to wages above \$400,000. This provision would only affect the top 0.4% of wage earners.

Extends the depletion date (when a 20% cut to benefits would occur) to 2038 – Giving Congress more time to ensure long term solvency of the Trust Funds.

Social Security Trust Fund Established – Social Security provides all-in-one retirement, survivor, and disability benefits funded through the dedicated FICA contribution paid by workers. There are technically two trust funds, Old-Age and Survivors (OASI) and Disability Insurance (DI), that are usually referred to as the Social Security Trust Fund. This provision combines the OASI & DI trust funds into one Social Security Trust Fund, to ensure that all benefits will be paid.

Social Security 2100 also:

Improves benefits for widows and widowers in two income households.

Repeals the Windfall Elimination Provision (WEP) and Government Pension Offset (GPO) that currently penalize many public servants.

Ends the 5-month waiting period to receive disability benefits.

Extends dependent benefits for students through age 26 and includes part-time students.

Increases access to benefits for children who live with grandparents or other relatives.

[Rep. Sewell Votes to Hold Steve Bannon in Contempt of Congress](#)

U.S. Rep. Terri Sewell (AL-07) voted to hold Stephen K. Bannon in contempt of Congress for failure to comply with a congressional subpoena. The subpoena, which was issued by the Select Committee to Investigate the January 6th Attack on the United States Capitol, required Mr. Bannon to produce both documents and testimony relevant to the attack on our democracy. Mr. Bannon failed to do both.

“Steve Bannon appears to have played a multi-faceted role in the events of the January 6th attack. The American people are entitled to hear his testimony,” said Rep. Sewell. “His refusal to comply with a congressional subpoena is completely unacceptable and demonstrates that he believes he is above the law.”

“Today’s vote shows that the United States House of Representatives will not be intimidated or deterred,” continued Sewell. “We have a responsibility to get to the bottom of this horrific attack in order to prevent future threats to our democracy, and that is exactly what we will do.”

Mr. Bannon reportedly had multiple roles relevant to the investigation of the January 6th attack on the Capitol, including:

His role in constructing and participating in the “stop the steal” public relations effort that motivated the January 6th attack

His efforts to plan political and other activity in advance of January 6th

His participation in a “war room” of promoters and prominent supporters of the “stop the steal” movement that met on January 5th

His communications with President Trump several times in advance of the January 6th attack, exhorting him to take measures to interfere with the count of electoral votes and to make January 6th a day of reckoning

On September 23, 2021, Chairman Bennie Thompson signed and transmitted a subpoena to Mr. Bannon, ordering the production of documents on October 7 and requiring his presence for deposition testimony on October 14. Mr. Bannon defied the subpoena – failing to produce the documents on October 7 and failing to show up for the deposition on October 14.

Today’s resolution, which passed the House by a bipartisan vote of 229-202, provides that the Speaker of the House shall certify the report of the Select Committee detailing the refusal of Stephen K. Bannon to produce documents or appear for a deposition before the Select Committee as directed by subpoena, to the United States Attorney General for the District of Columbia, to the end that Mr. Bannon be proceeded against in the manner and form provided by law. It provides that the Speaker of the House shall otherwise take all appropriate action to enforce the subpoena.

Rep. Sewell Announces \$1 Million Grant for Alabama From Economic Development Administration’s American Rescue Plan Programs

U.S. Rep. Terri Sewell (AL-07) announced that the State of Alabama has received a grant of \$1 million from the U.S. Department of Commerce’s Economic Development Administration (EDA). These funds, authorized by the American Rescue Plan, will be used for statewide planning efforts to boost economic development, enhance U.S. competitiveness, combat the climate crisis, and recover from the pandemic. These are the first EDA American Rescue Plan grants announced.

“As the only member of the Alabama delegation to vote in favor of the American Rescue Plan, I’m proud that this transformational law continues to deliver critical assistance to the State of Alabama,” said Rep. Sewell. “Today’s \$1 million grant will lay the foundation for President Biden’s historic Build Back Better agenda and help Alabamians continue to recover from this pandemic.”

All 59 states and territories were invited to apply for a \$1 million grant through EDA’s Statewide Planning program—one of six programs EDA developed to equitably distribute its \$3 billion in American Rescue Plan funding. 24 grants will be awarded today, with the remainder being disbursed in the coming weeks and months.

“The Biden Administration is giving states and territories the unprecedented opportunity to bring all their communities together to develop comprehensive plans to build back better and stronger,” said Secretary of Commerce Gina M. Raimondo. “The \$1 million Statewide Planning grants will be used to lay the groundwork for President Biden’s Build Back Better agenda to build resilient economies and increase U.S. Competitiveness.”

“Planning is the backbone of economic development and Building Back Better,” said Assistant Secretary of Commerce for Economic Development Alejandra Y. Castillo. “EDA is proud to partner with state and territory leaders as they begin to tackle a wide range of challenges—including climate change, broadband, childcare, electric vehicle adoption, and pandemic recovery—and develop a comprehensive plan for their entire state or territory that ensures communities work together toward a common economic development vision for the future.”

For more about EDA’s Statewide Planning grant and other American Rescue Plan programs, please visit: <https://www.eda.gov/arpa/>.

About the U.S. Economic Development Administration (www.eda.gov)

The mission of the U.S. Economic Development Administration (EDA) is to lead the federal economic development agenda by promoting competitiveness and preparing the nation’s regions for growth and success in the worldwide economy. An agency within the U.S. Department of Commerce, EDA invests in communities and supports regional collaboration in order to create jobs for U.S. workers, promote American innovation, and accelerate long-term sustainable economic growth.

[The Southern Leadership for Voter Engagement \(SOLVE\) Coalition SOLVE Redistricting Adopt-A-Jurisdiction Mini-grant](#)

The Southern Leadership for Voter Engagement (SOLVE) Coalition, with the support of Mary Reynolds Babcock Foundation and others, is excited to announce Redistricting Minigrants for Coalition partners and other grassroots organizers engaging in redistricting advocacy in the South.

[Congressional Black Caucus Foundation Scholarships/Internships](#)

For more than three decades the CBCF has awarded scholarships to talented and deserving students. Each year, we award more than 300 scholarships to students that demonstrate leadership ability through exemplary community service and academic talent. Scholarship programs support current or upcoming college students across a variety of disciplines.

CBCF's internship programs prepare college students and young professionals to become principled leaders, skilled policy analysts, and informed advocates by exposing them to the processes that develop national policies and implement them – from Capitol Hill to federal field offices.

[COVID-19 Economic Injury Disaster Loan](#)

This loan provides economic relief to small businesses and nonprofit organizations that are currently experiencing a temporary loss of revenue. In response to COVID-19, small business owners, including agricultural businesses, and nonprofit organizations in all U.S. states, Washington D.C., and territories can apply for the COVID-19 Economic Injury Disaster Loan (EIDL). Section I GENERAL GRANT INFORMATION

- Grants and Federal Domestic Assistance - Guidance and key resources to help eligible constituents find information on federal grants, loans, and nonfinancial assistance for projects, as well as on private funding. Prepared by the Congressional Research Service for Members of Congress, updated May 2014. Website: <http://sewell.house.gov/grant-information/>
- A federal grant is an award of financial assistance from a federal agency to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States. Federal grants are not federal assistance or loans to individuals. A federal grant may not be used to acquire property or services for the federal government's direct benefit. The 26 federal agencies offer over 1,000 grant programs annually in various categories. Website: <http://www07.grants.gov/aboutgrants/grants.jsp>
- To learn about Federal grant opportunities, register your organization, and receive notices, please visit www.grants.gov. It is the resource for all Federal grants.
- To apply for Federal Grants: http://www.grants.gov/applicants/apply_for_grants.jsp

- [Grants.gov](#) Applicant Training Video - Need a quick lesson on how to Register, Find, and Apply? Watch this short video to get tips on registering with Grants.gov; finding grant opportunities; understanding your search results; and, applying for opportunities.
- To learn about foundation grant opportunities, please visit <http://foundationcenter.org/>. The Foundation Center is a gateway to information about private funding sources and provides guidelines about how to write a grant proposal. It also provides links to state libraries with grants reference collections and links to other useful Internet websites.

Alabama 211

Department of Health and Human Services

SARS-CoV-2 (COVID-19) Program Activities CFDA 93.990

The Office of the Assistant Secretary for Health (OASH) has established the Laboratory and Diagnostics Working Group (LDWG) seeking submissions to a Broad Agency Announcement (BAA) “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” (Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139)). OASH/LDWG seeks proposals for projects that will further enable the coordination and development of testing and associated products that meet the current and future needs, and the effective transition of technology into broad use without impediments. The primary areas of focus should specifically include (1) Scaling and Networking of Technologies, and (2) Testing Demonstrations & Technical Assistance. Specifically, OASH is interested in submissions that will substantially increase our testing capacity and quality in the near term, and do not fall within the scope of other HHS programs.

When posted, the funding opportunity announcement (FOA) will provide guidance for applicants on the submission of short white papers, which after review, may be followed by full proposal submissions for consideration for funding. Applicants will have the option of forgoing the white paper submission for direct submission of a full proposals. Applications will be accepted and reviewed on a rolling basis to address immediate public needs. Applicants must submit white papers and applications through Grants.gov according to the instructions in the FOA. Applicants must have an active SAM registration at the time of submission and maintain an active registration throughout the review process and during any award that may result.

BACKGROUND: On January 31, 2020, HHS Secretary Alex M. Azar II declared a public health emergency in response to the 2019 novel coronavirus, now known as SARS-CoV-2, or COVID-19. Testing is vital to prevent and contain outbreaks that may occur as economic and social activities expand across the country. Accordingly, the Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139) provides funding to HHS to “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” As part of the response to this requirement, and in order to administer agency actions to mitigate the pandemic, the Office of the Assistant Secretary for Health (OASH) Laboratory and Diagnostics Working Group (LDWG) complements existing efforts within the Department. To meet current and future challenges with the least possible risk, the nation needs more testing - with increasingly diverse, accurate, and affordable platforms – that are tailored to specific use cases.

Deadline: TBD

[Announcement to Support Novel, High-Impact Studies Evaluating Health System and Healthcare Professional Responsiveness to COVID-19 \(CFDA 93.226\)](#)

The health systems research community should prepare to submit applications to AHRQ to fund critical research focused on evaluating topics such as innovations and challenges encountered in the rapid expansion of telemedicine in response to COVID-19, effects on quality, safety, and value of health system response to COVID-19, and the role of primary care practices and professionals during the COVID-19 epidemic. AHRQ is particularly interested in understanding how digital health innovations contributed to health system and healthcare professional innovation and challenges and solutions to meeting the needs of vulnerable populations including older adults, people living with multiple chronic conditions, rural communities, and uninsured and underinsured populations.

Environmental Protection Agency

19TH ANNUAL P3 AWARDS: A NATIONAL STUDENT DESIGN COMPETITION FOCUSING ON PEOPLE, PROSPERITY AND THE PLANET CFDA 66.516

The U.S. Environmental Protection Agency (EPA), as part of its People, Prosperity and the Planet (P3) Award Program – is seeking applications proposing to research, develop, design, and demonstrate solutions to real world challenges. The P3 competition highlights the use of scientific principles in creating innovative technology-based projects that achieve the mutual goals of improved quality of life, economic prosperity and environmental protection. The EPA offers the P3 competition in response to the environmental and public health challenges in the United States, including those in small, rural, tribal and/or underserved communities. Proposed projects must embody the P3 approach, which is that they have the intention and capability to simultaneously improve the quality of people’s lives, provide economic benefits and protect the environment.

National Aeronautics and Space Administration

[Technology Advancement Utilizing Suborbital Flight Opportunities "Tech Flights" CFDA 43.012](#)

The National Aeronautics and Space Administration (NASA) Headquarters released a solicitation, titled Technology Advancement Utilizing Suborbital Flight Opportunities “Tech Flights”, as an Appendix to the Space Technology Mission Directorate (STMD) umbrella NASA Research Announcement (NRA) titled "Space Technology Research, Development, Demonstration, and Infusion 2021 (SpaceTech-REDDI-2021), on July 1, 2021. The solicitation is available by opening the NSPIRES homepage at <http://nspires.nasaprs.com/>, selecting "Solicitations," then selecting "Open Solicitations," and, finally, selecting "Technology Advancement Utilizing Suborbital Flight Opportunities “Tech Flights”.”

STMD’s Flight Opportunities program rapidly demonstrates promising technologies for space exploration, discovery, and the expansion of space commerce through suborbital testing with industry flight providers. The program matures capabilities needed for NASA missions and commercial applications while strategically investing in the growth of the U.S. commercial spaceflight industry. All U.S. private entities (for-profit & non-profit), Federally Funded Research & Development Centers (except NASA Jet Propulsion Laboratory (JPL)), and U.S. universities may propose under this Appendix. JPL and other government agencies such as the Federal Aviation Administration (FAA) and DoD are not eligible to be the lead proposer for this solicitation and may contact the Flight Opportunities program for more information on how to participate. Proposing U.S. entities may include a participating foreign entity but shall not transfer any awarded funds to their foreign partner. NASA will not consider proposals that do not include a domestic entity as the lead proposer. Any foreign entity prohibited from participation by the eligibility information in the NRA or by U.S. law is prohibited from proposing to this Appendix. International Traffic in Arms Regulations (ITAR) and Export Administration Regulations (EAR) may apply to foreign partners.

This Appendix is applicable to external, non-NASA Principal Investigators. Employees of NASA, JPL, other government agencies, and their contractors may, however, participate as Co-Investigators and/or Collaborator.

See Appendix Section 3.0 for complete eligibility restrictions. Awards to this Appendix will be accomplished via grants and/or cooperative agreements. See Appendix for cost share requirements.

The financial and programmatic support for the Flight Opportunities program comes from the STMD. Awards are planned to start in February 2022. NASA plans to make approximately 7-10 awards as a result of this Flight Opportunities solicitation, subject to the receipt of meritorious proposals and the availability of funds. The actual number of awards will depend on the quality of the proposals received; NASA reserves the right to make no awards under this solicitation.

All proposals must be submitted electronically through NSPIRES by an Authorized Organizational Representative (AOR). A Mandatory Preliminary Proposal is due July 21, 2021 at 5:00 pm ET with Full Proposals due on or before October 4, 2021. Note that the submission of a Mandatory Preliminary Proposal is a prerequisite to be invited to submit a Full Proposal. Detailed submission instructions are provided in the solicitation. Potential proposers and their proposing organizations are urged to familiarize themselves with the submission system(s), ensure they are registered in NSPIRES, and submit the required abstract and proposal materials well in advance of the deadlines.

Technical and programmatic comments and questions may be addressed by email to the Flight Opportunities Program Executive, Christopher Baker at HQ-STMD-FO@nasaprs.com. Responses to inquiries will be answered by email and may also be included in the Frequently Asked Questions (FAQ) documents located on the NSPIRES page associated with the solicitation. Anonymity of persons/institutions who submit questions will be preserved.

Deadline: October 04, 2021

National Archives and Records Administration

National Endowment for the Humanities

[EAR Postdoctoral Fellowships CDFA 47.050](#)

The Division of Earth Sciences (EAR) awards Postdoctoral Fellowships to recent recipients of doctoral degrees to conduct an integrated program of independent research and professional development.

Fellowship proposals must address scientific questions within the scope of EAR disciplinary programs and must align with the overall theme for the postdoctoral program. Fellowship proposals that address questions at the intersections of several EAR disciplinary programs, such as interdisciplinary critical zone (CZ) science or topics related to Cooperative Studies of Earth's Deep Interior (CSEDI), are also appropriate. The program supports researchers for a period of up to two years with fellowships that can be taken to the institution of their choice (including institutions abroad). The program is intended to recognize beginning investigators of significant potential, and provide them with research experience, mentorship, and training that will establish them in leadership positions in the Earth Sciences community. Because the fellowships are offered only to postdoctoral scientists early in their career, doctoral advisors are encouraged to discuss the availability of EAR postdoctoral fellowships with their graduate students early in their doctoral programs. Fellowships are awards to individuals, not institutions, and are administered by the Fellows. EAR has made it a priority to address challenges in creating an inclusive geoscience discipline through activities that increase belonging, accessibility, justice, equity, diversity, and inclusion (BAJEDI). Proposers are encouraged to explicitly address this particular priority in their proposed activities. Applicants who are women, veterans, persons with disabilities, and underrepresented minorities in science, technology, engineering, and mathematics (STEM), or who have attended two-year colleges and minority-serving institutions for undergraduate or graduate school, or plan to conduct their fellowship activities at one of these institutions (e.g. Historically Black Colleges and Universities, Tribal Colleges and Universities, Hispanic Serving Institutions, Alaska Native Serving Institutions, and Hawaiian Native and Pacific Islander Serving Institutions) are especially encouraged to apply.

Deadline: November 03, 2021

[Innovation Corps - National Innovation Network Teams Program \(I-Corps TM Teams\) – \(CFDA 47.041, 47.049, 47.050, 47.070, 47.074, 47.075, 47.076, 47.079, 47.083\)](#)

The National Science Foundation (NSF) seeks to develop and nurture a national innovation ecosystem that builds upon fundamental research to guide the output to facilitate the application of scientific discoveries closer to the development of technologies, products, and processes that benefit society. To maintain, strengthen and grow a national innovation ecosystem, NSF has established the Innovation Corps - National Innovation Network Teams Program (I-Corps Teams). The NSF I-Corps Teams Program's purpose is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate innovation that can attract subsequent third-party funding. The purpose of the I-Corps Teams program is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate the translation of knowledge derived from fundamental research into emerging products and services that can attract subsequent third-party funding. The outcomes of I-Corps Teams projects will be threefold: 1) a clear go/no go decision based on an assessment of the viability of the overall business model, 2) substantial first-hand evidence for or against a product-market fit, with a pithy definition of the customer segments and corresponding value propositions, and 3) a narrative of a compelling technology demonstration for potential partners. WEBINAR: A webinar will be held monthly to answer questions about this program. Details will be posted on the I-Corps website (see http://www.nsf.gov/news/special_reports/i-corps/program.jsp) as they become available.

Deadline: Proposals accepted at anytime

Cyberinfrastructure for Emerging Science and Engineering Research – (CFDA 41.070)

The Cyberinfrastructure for Emerging Science and Engineering Research (CESER) program aims to catalyze new science and engineering discovery pathways through early-stage collaborative activities between disciplinary scientists and engineers as well as developers/implementers of innovative cyberinfrastructure (CI) capabilities, services, and approaches. Beginning in FY 2017, the CESER program replaced the Strategic Technologies for Cyberinfrastructure (STCI) program. CESER has retained STCI's focus on supporting innovation across the CI ecosystem with increased emphasis on addressing and enabling emerging areas of potentially transformative research, including NSF priority areas, national strategic directions, and international collaborative research. CESER accepts proposals according to this Program Description year-round. From time to time, NSF may also issue Dear Colleague Letters according to CESER to signal special thematic interests and opportunities. CESER employs existing NSF funding mechanisms to accomplish the program's goals such as Early-concept Grants for Exploratory Research (EAGER) and Conference proposals. GUIDANCE TO POTENTIAL PROPOSERS Science/engineering-driven collaboration. A central feature of successful CESER projects is a strong, mutually-dependent collaborative team comprising expertise in the target science/engineering discipline(s) as well as expertise in CI development and implementation. Such a collaborative approach is critical to informing and guiding the development of requirements towards the eventual development and deployment of user-centric innovative CI that fosters new pathways to discovery. Proposals according to CESER should identify and describe the science and engineering goals and rationale, and explain and support the potential for transformative impacts on science/engineering research and broader impacts. Proposals for technical efforts that are not well-tied to identified science and engineering research challenges as well as utilization scenarios are unlikely to be supported. Exploratory and pilot activities. CESER supports early-stage exploratory efforts that may comprise analysis, community planning, and pilot-level activities that are preparatory or informative for eventual future development and deployment of science/engineering-driven CI. Proposals for full-scale technical efforts leading to development/deployment should be directed to other appropriate NSF programs. Integrative and accelerative approaches. Proposals have particularly welcomed that address identified common needs across multiple research disciplines; leverage and accelerate the impact of existing CI investments in resources and services in one or more application domains; aim to reduce barriers to broader adoption of CI-enabled science/engineering approaches, and integrate different aspects and elements of CI to achieve holistic solutions with transformative science/engineering impact. The requirement to contact NSF Cognizant Program Officers. CESER is an inherently collaborative science/engineering-CI program. Successful CESER projects typically involve co-funding from the relevant disciplinary research programs within NSF. Consequently, before submitting a proposal to CESER, proposers must first (1) discuss their ideas with a cognizant CESER Program Officer to ensure that CESER is the appropriate venue for the proposal and (2) discuss their ideas with the relevant NSF disciplinary science and engineering research program(s) to ensure there is adequate disciplinary interest in the proposed effort. Proposals that have been declined by CESER or any other NSF program may not be resubmitted to CESER without substantial revision. Proposals violating this restriction may be returned without review

Deadline: Proposals accepted anytime

[High-Risk Research in Biological Anthropology and Archaeology – \(CFDA 47.075\)](#)

Anthropological research may be conducted under unusual circumstances, often in distant locations. As a result, the ability to conduct potentially important research may hinge on factors that are impossible to assess from a distance and some projects with potentially great payoffs may face difficulties in securing funding. This program gives small awards that provide investigators with the opportunity to assess the feasibility of an anthropological research project. It is required that the proposed activity be high risk in nature. The information gathered may then be used as the basis for preparing a more fully developed research program. Investigators must contact the cognizant NSF Program Director before submitting an HRRBAA proposal. This will facilitate determining whether the proposed work is appropriate for HRRBAA support.

Deadline: Proposals accepted anytime

[Broadening Participation in Engineering – \(CFDA 47.041\)](#)

NSF seeks to strengthen the future U.S. Engineering workforce by enabling the participation of all citizens through the support of research in the science of Broadening Participation in Engineering (BPE). The BPE program is dedicated to supporting the development of a diverse and well-prepared engineering workforce. BPE focuses on enhancing the diversity and inclusion of all underrepresented populations in engineering, including gender identity and expression, race and ethnicity (African Americans/Blacks, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders), disability, LGBTQ+, first-generation college, and socio-economic status. BPE funds research to Understand and analyze the systemic barriers that prevent underrepresented groups from pursuing and succeeding in engineering, for example, understand the problem of insufficient interest and poorly sustained participation in engineering across underrepresented demographic groups; insignificant preparation and scarce opportunities for members of underrepresented groups to learn meaningful, relevant engineering content. Understand and analyze factors that enhance our ability to increase access to engineering by creating support systems and social networks that raise career awareness about different engineering pathways. Develop innovative methods and projects to significantly impact the recruitment and retention of engineering students from underrepresented groups. Activities must be supported by relevant data and have the capability to produce a model that can be replicated in other contexts. Develop innovative methods and projects to aggressively recruit and retain tenure track faculty from underrepresented groups. Design and transform a culture to make diversity, equity, and inclusion a priority in the engineering enterprise. BPE research activities will provide scientific evidence that engineering educators, employers, and policymakers need to make informed decisions to design effective programs that broaden the participation of persons from historically underrepresented groups in the engineering workforce. BPE is interested in funding research that spans K-12 to the workforce and offers the greatest return on investment. BPE funded research should produce outcomes that are scalable,

sustainable, and applicable to various contexts, settings, and demographics within the engineering enterprise. BPE is particularly interested in research that employs intersectional approaches in recognition that gender, race, and ethnicity do not exist in isolation from each other and other categories of social identity. BPE is equally interested in research activities that align with and provide meaningful connections to the NSF INCLUDES National Network. The overarching goal of NSF INCLUDES is to achieve a significant impact at scale in transforming STEM education and workforce development by educating a diverse, STEM-capable workforce that includes talented individuals from all sectors of the Nation & apos;s population. Collaborations are encouraged between BPE proposals and existing NSF INCLUDES projects, for example, the NSF INCLUDES Alliances and Coordination Hub, provided these collaborations to strengthen both the BPE and NSF INCLUDES projects. Before submitting a proposal to the BPE program, prospective Principal Investigators are strongly encouraged to speak to the program director to obtain guidance as to whether the proposed ideas are aligned with the strategic goals of the BPE program. Proposal Elements All BPE proposals should Be informed by the current theoretical and scientific literature as well as add to the extant knowledge base. Directly address how the work will broaden the participation of one or more underrepresented populations in engineering. Provide appropriate justification to support the selection of the targeted group(s), with specific and applicable objectives, and demonstrate applicable knowledge of the relevant literature on underrepresentation. Integrate a mechanism to assess and evaluate how well the project has achieved the stated objectives as part of the project management plan. Provide evidence of clear, measurable outcomes and consideration of how the strategy will advance knowledge beyond localized contexts. Incorporate a dissemination plan that goes beyond publishing research papers and presenting at conferences. PIs should think creatively about who needs to hear about the research for it to have an impact and develop a strategy to reach that audience. Describe how the outcomes have the potential to enhance the diversity and inclusion of underrepresented populations in engineering. The Project Summary must contain a list of 3-5 keywords. Place the keywords on a separate line at the end of the Overview section of the Project Summary.

Deadline: Proposals accepted anytime

[Critical Aspects of Sustainability – \(CFDA 47.041, 47.049, 47.050\)](#)

Economic development and human progress have led to a proliferation of manufactured chemicals and materials made from limited resources found in nature (i.e., minerals and metals, petroleum-based products and natural gas). Long-term sustainability requires consideration of the availability of specific natural resources, energy, and water usage. NSF continues to support efforts that seek to improve the efficiency with which natural resources are used to meet human needs for products and services. Sustainability research encompasses the design, manufacture, and use of efficient, effective, safe and more environmentally-benign products and processes; stimulates innovation across all sectors to design and discover new chemicals and materials, production processes, and product stewardship practices; and, increases performance and value while meeting the goals of protecting and enhancing human health and the environment. This program seeks to support basic research through core disciplinary programs aimed at improving the sustainability of resources for future generations while maintaining or improving current products to offer technologically-advanced, economically competitive, environmentally-benign and useful materials to a global society. To address these challenges, the program aims to identify opportunities for innovation in a wide range of contributing disciplines as well as integrative activities. This program

encourages the development of new experimental and theoretical/modeling approaches that will aid in both reductionist and whole-systems approaches. This program welcomes proposals in any area of research supported through the participating divisions that address the topics outlined below. The selected topics are of particular interest to core disciplinary programs in the participating divisions and do not include all funding opportunities and priorities in the area of sustainability at NSF. Proposals are submitted to the relevant core Programs indicated below in the participating Divisions, and all questions regarding proposals should be addressed by the cognizant Program Officers to which submission is contemplated. Proposals should be submitted with the "CAS:" prefix in the title. The Division of Chemistry (CHE/MPS) welcomes proposals to its Disciplinary Research Programs, including Chemical Catalysis (CAT), Chemical Measurement and Imaging (CMI), Chemical Structure, Dynamics and Mechanisms-A (CSDM-A), Chemical Structure Dynamics and Mechanisms-B (CSDM-B), Chemical Synthesis (SYN), Chemical Theory, Models and Computational Methods (CTMC), Chemistry of Life Processes (CLP), Environmental Chemical Sciences (ECS), and Macromolecular, Supramolecular and Nanochemistry (MSN). All proposals must be on the chemical aspects of sustainability. The design, preparation and reactivity studies associated with new catalysts and catalytic processes that employ earth-abundant and benign elements and raw materials; advanced catalytic methods for the reduction of dinitrogen to ammonia and water splitting are also invited; Grant Opportunities for Academic Liaison with Industry (GOALI) proposals, where such advances are connected directly to industrial considerations, are also encouraged. Understanding the molecular mechanisms of the two-way communication between the environment and living systems as well as between organisms situated in changing environments; design and test methods that could confer resilience and/or could foster adaptability of living systems subject to changing environments. Innovative measurement and imaging approaches that can improve the efficiency of manufacturing processes, including advances in separation science targeting reduced energy consumption or generation of less waste. Fundamental studies related to sustainable energy such as chromophores based on earth-abundant elements, advanced electrolytes for battery, water splitting, and carbon dioxide conversions. Understanding the environmental chemical degradation of contaminants, including emerging contaminants. Transformative approaches to the efficient and inexpensive synthesis of polymers or nanostructures using renewable feedstocks or earth-abundant elements; and innovative research that enhances the understanding of efficient use and recycling of polymers and critical elements or the conversion of energy from renewable sources. The development of new synthetic methods using earth-abundant and inexpensive chemicals, fundamental studies that improve our understanding of rare earth elements; the conversion of non-petroleum-based resources into useful building blocks; and new environmentally-friendly chemical syntheses that improve on current practice by requiring less energy, freshwater, reagents, and/or organic solvents. Other CHE programs also welcome proposals on this general topic, as long as the proposals fit the scope of the program. All questions regarding proposals to CHE should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see CHE Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CHE>). The Division of Materials Research (DMR/MPS) welcomes proposals to its Topical Materials Research Programs, including Biomaterials (BMAT), Ceramics (CER), Condensed Matter and Materials Theory (CMMT), Condensed Matter Physics (CMP), Electronic and Photonic Materials (EPM), Metals and Metallic Nanostructures (MMN), Polymers (POL), and Solid State and Materials Chemistry (SSMC). All proposals must be on materials aspects of sustainability and focused on fundamental materials-research approaches. CER, CMMT, EPM, MMN, and SSMC will consider proposals on all materials aspects of sustainability. BMAT encourages proposals

that take advantage of synthetic biology or other innovative and sustainable approaches (e.g., renewable, recyclable, environmentally benign). CMP encourages proposals on replacing rare-earth elements in magnetic materials with more abundant and accessible elements; also, proposals exploring materials alternatives to oxides for nuclear reactor fuel, aiming at improved stability and properties (e.g., thermal conductivity) and decreased environmental impact. POL welcomes proposals that address plastics waste accumulation through innovative materials approaches and environmentally benign polymeric materials having properties exceeding those of current commercial plastics. All proposals must be submitted through one of the active solicitations of the DMR Topical Materials Research Programs (currently NSF 17-580, 18-500, and 19-515) and must follow the deadlines, instructions, and limitations of these solicitations. Proposals that are not following these guidelines or that fall outside the scope of DMR and its Topical Materials Research Programs will be returned without review. All questions regarding proposals to DMR should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see DMR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=DMR>). The Chemical, Bioengineering, Environmental and Transport Systems Division (CBET/ENG) has several core programs that review proposals on research topics related to sustainability, including Molecular Separations (MoS), Biosensing, Environmental Sustainability (EnvS), Biological and Environmental Interactions of Nanoscale Materials (BioNano), Combustion and Fire Systems (CFS), and Particulate and Multiphase Processes (PMP). Within these programs, as noted, the following topics are of particular interest: Understanding the fundamental combustion properties of sustainable aviation fuels under engine relevant conditions. (CFS) Fundamental studies leading to effective methods of processing multiphase fluid systems that minimize waste, avoid contamination, enhance the purity, or lead to novel materials that benefit efficient energy utilization. (PMP) The development of innovative separation mechanisms, mass separating agents, or engineering processes that aim to substantially reduce energy and/or material consumption in the chemical process industries. (MoS) Fundamental mechanistic investigations for the development, sustainable production and use of nanomaterials, nanoparticles, nanodevices, and nanosystems. (BioNano) Biosensing systems with inherent capabilities of artificial intelligence, machine learning, and decision making for applications in real-time monitoring of environmental and living systems and in evaluating environmentally benign chemicals and materials. (Biosensing) Industrial Ecology: Topics of interest in Industrial Ecology include advancements in modeling such as life cycle assessment, materials flow analysis, input/output economic models, and novel metrics for measuring sustainable systems. Innovations in industrial ecology are encouraged. (EnvS) Green Engineering: Research is encouraged to advance the sustainability of manufacturing processes, green buildings, and infrastructure. Improvements in distribution and collection systems that will advance smart growth strategies and ameliorate effects of growth are supported. Innovations in the management of stormwater, recycling and reuse of drinking water, and other green engineering techniques to support sustainability may also be fruitful areas for research. (EnvS) Ecological Engineering: Topics should focus on the engineering aspects of restoring ecological function to natural systems. Engineering research in the enhancement of natural capital to foster sustainable development is encouraged. (EnvS) Earth Systems Engineering: Earth systems engineering considers aspects of large-scale engineering research that involve mitigation of greenhouse gas emissions, adaptation to climate change, and other global-scale concerns. (EnvS) All questions regarding proposals to CBET should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CBET Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CBET>). For the Division of Civil, Mechanical, and

Manufacturing Innovation (CMMI/ENG), proposals addressing sustainable materials processing are welcome. Of interest are manufacturing processes with reduced use of toxic components, such as solvents, carbon emissions, and pollutants; processes under ambient conditions, as opposed to extreme temperatures, pressures or other harsh conditions; and increased conservation of natural resources, such as water, raw material, and energy. Proposals to CMMI must be submitted to the Advanced Manufacturing (AM) Program and align with the scope of the program. All questions regarding proposals to CMMI should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CMMI Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CMMI>). The Division of Earth Sciences (EAR/GEO) welcomes fundamental and transformational geosciences projects addressing the distribution of Critical Minerals and Materials in the Earth. The following programs in the division support research on this topic: Petrology and Geochemistry (CH), Geobiology and Low-Temperature Geochemistry (GG), and Frontier Research in Earth Sciences (FRES). Topics of particular interest include fundamental studies of the geochemistry of Critical Earth Minerals and Materials (CMM), such as: Identifying new sources of critical minerals on the Earth's surface; Constraining their pathways in the natural environment involving concentration by Earth and geobiological processes, and Developing methods for sustainable exploration of these CMMs. Studies can be based on laboratory, field, or modeling efforts, and should have a strong emphasis on training the next generation of geoscientists and educating the public on the importance of CMM. Proposals must be submitted through one of the active solicitations of the three programs and must follow the deadlines and guidelines of these solicitations. All questions regarding proposals to EAR should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see EAR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=EAR>).

Deadline: Proposals accepted anytime

Small Business Administration

[Program for Investment in Microentrepreneurs \(PRIME\) – CFDA 59.050](#)

SBA intends to award a discretionary grant to the National Association of Government Guaranteed Lenders (NAGGL) to provide SBA 7(a) training to nonprofit lenders participating in the SBA Community Advantage Pilot Loan Program (CA). NAGGL has extensive experience with providing training to lenders on SBA's 7(a) loan product in the areas of loan origination, loan servicing, and loan liquidation. This discretionary grant will serve as a proof of concept to explore the success of regional training to mission lenders participating in CA. These training needs have been identified by SBA's Office of Credit Risk Management to increase the performance level of lenders participating in the CA program. SBA will work closely with NAGGL in shaping the project as it is implemented and will draw lessons learned from its implementation and use that insight and experience in deciding whether or not to continue the initiative in a permanent form, which we would then do via the standard competitive process for awarding grants.

Deadline: Open

[HS 2021-2 Omnibus Solicitation of the NIH, CDC and FDA for Small Business Innovation Research Grant Applications \(Parent SBIR \[R43/R44\] Clinical Trial Not Allowed\)](#)

This Funding Opportunity Announcement (FOA), issued by the National Institutes of Health (NIH), the Centers for Disease Control and Prevention (CDC), and the Food and Drug Administration (FDA), invites eligible United States small businesses to submit Small Business Innovation Research (SBIR) grant applications. United States small businesses that have the research capabilities and technological expertise to contribute to the R and D mission(s) of the NIH, CDC, and FDA awarding components identified in this FOA are encouraged to submit SBIR grant applications in response to identified topics (see PHS 2021-2 SBIR/STTR Program Descriptions and Research Topics for NIH, CDC, and FDA. This Parent Funding Opportunity Announcement does not accept clinical trials.

Deadline: April 05, 2022

U.S. Department of Agriculture

[Conservation Outreach: Racial Equity and Justice Conservation Cooperative Agreements CFDA 10.902](#)

Funding Opportunity Summary (For more information, download from the Related Documents tab of this opportunity the Request for Applications (RFA) titled "Request for Applications_USDA-NRCS-NHQ-REJ-21-NOFO0001121")

The Office of Outreach and Partnerships Division (OPD) within the U.S. Department of Agriculture's Natural Resources Conservation Service (NRCS) provides leadership and funding to ensure that all programs and services are made accessible to all NRCS customers, fairly and equitably, with emphasis on reaching the underserved and socially disadvantaged farmers or ranchers and landowners. In this Request for Applications (RFA), NRCS requests applications for four OPD priority areas through the Racial Equity and Justice Conservation Cooperative Agreements. The goal of this outreach is for NRCS in collaboration with partners to expand the delivery of conservation assistance to historically underserved farmers and ranchers, including socially disadvantaged, limited resource, beginning, tribal and veteran. Proposals should support activities that introduce the concepts of climate-smart agriculture and to assist producers with planning and implementation of conservation practices and principles.

In accordance with 2 CFR §415.1(d), this is a non-competitive RFA restricted to eligible entities listed in section C.1. NRCS has determined that noncompetitive awards under this RFA are in the best interest of the Government and necessary to the accomplishment of the goals of the program to provide outreach and technical assistance to historically underserved communities. The anticipated amount for cooperative agreements under this solicitation is approximately \$50 million in fiscal year (FY) 2022.

Key Dates

This RFA solicits applications for eligible entities to enter into cooperative agreements with NRCS. Applications must be received by 11:59p.m. Eastern Time on October 25, 2021. Applications received after this deadline will not be considered for funding.

Webinar

A webinar for potential applicants will be scheduled for late September. When available, instructions regarding how to access the webinar will be posted in the opportunity on Grants.gov in the Synopsis tab and added to this RFA.

Application Package

NRCS expects applicants to read the entire RFA prior to submitting their application to ensure that they understand the program's requirements. This application checklist provides the required and conditionally required documents for an application package. Conservation Outreach: Racial Equity and Justice Conservation Cooperative Agreements requires that all application packages include the following, which can be found in the Related Documents tab of the opportunity in Grants.gov:

- Project Proposal Template
 - o Ensure the required format and does not exceed the page limit.
 - o Ensure project excludes unallowable costs and activities per Section D, Part 6, Funding Restrictions.
- SF 424 – Application for Federal Assistance
- SF 424A – Budget Information - Non-Construction Programs.
- Grants.gov Lobbying Form, Certification and Disclosure of Lobbying

If applicable, packages may also be required to include the following documents:

- Negotiated Indirect Cost Rate Agreement (NICRA) or De Minimis Indirect Cost Rate

Agreement

Federal Financial Assistance Training

The funding available through this NFO is Federal financial assistance. Grants 101 Training is highly recommended for those seeking knowledge about Federal financial assistance. The training is free and available to the public via <https://www.cfo.gov/grants-training/>. It consists of

five modules covering each of the following topics: 1) laws, regulations, and guidance; 2) financial assistance mechanisms; 3) uniform guidance administrative requirements; 4) cost principles; and 5) risk management and single audit. FPAC agencies also apply Federal financial assistance regulations to certain non-assistance awards (e.g., non-assistance cooperative agreements).

Deadline: October 25, 2021

[REAP Energy Audit and Renewable Energy Development Assistance Program](#) [CFDA 10.868](#)

This program assists rural small businesses and agricultural producers by conducting and promoting energy audits and providing Renewable Energy Development Assistance (REDA).

Who may apply for this program?

State and local governments.

Federally-recognized tribes.

A land-grant college or university or other institutions of higher education.

Rural electric cooperatives.

Public power entities.

An instrumentality of a state, tribal or local government.

A Resource Conservation & Development Council (as defined in 16 USC §3451).

How may funds be used?

The assistance must be provided to agricultural producers and rural small businesses. Rural small businesses must be located in eligible rural areas. This restriction does not apply to agricultural producers. Assistance provided must consist of:

Energy audits.

Renewable energy technical assistance.

Renewable energy site assessments.

Eligible project costs may include:

Salaries directly related to the project.

Travel expenses directly related to conducting energy audits or renewable energy development assistance.

Office supplies.

Administrative expenses, up to a maximum of 5 percent of the grant, which include but are not limited to utilities, office space, operation expenses of office and other project-related equipment.

Funds may NOT be used for:

Payment for construction-related activities.

Purchase or lease of equipment.

Payment of judgments or debt owed the government.

Goods or services provided by a person or entity who has a conflict of interest.

Costs incurred by preparing an application package.

Funding political or lobbying activities.

What are the grant terms?

Applicants must submit separate applications, limited to one energy audit and one Renewable Energy Development Assistance (REDA) per fiscal year. The maximum aggregate amount of an energy audit and REDA grant in a Federal fiscal year is \$100,000.

Deadline: February 21, 2022

[Rural Microentrepreneur Assistance Program \(RMAP\) CFDA 10.870](#)

The purpose of RMAP is to support the development and ongoing success of rural Microentrepreneurs and Microenterprises, each as defined in 7 CFR 4280.302. The regulation can be accessed online at <https://www.ecfr.gov>. To accomplish this purpose, RMAP provides direct loans and grants to Microenterprise Development Organizations (MDO). Grant funds are used by the MDO to provide technical assistance and entrepreneurship training to rural individuals and businesses.

Deadline: June 30, 2022

U.S. Department of Commerce

[FY 2021 American Rescue Plan Act \(ARPA\) Statewide Planning, Research, and Networks CFDA 11.307](#)

The ARPA Statewide Planning, Research, and Networks NOFO is part of EDA's multi-phase effort to respond to the coronavirus pandemic as directed by the American Rescue Plan Act of 2021. Specifically, this NOFO seeks to build regional economies for the future through two primary avenues: a) Statewide Planning and b) Research and Networks.

Subject to the availability of funds, awards made under this NOFO will help develop coordinated statewide plans for economic development and data, tools, and institutional capacity to evaluate and scale evidence-based economic development efforts, including through communities of practice and provision of technical assistance among existing and new EDA grantees.

While EDA encourages eligible applicants to submit their applications as soon as possible, EDA strongly advises eligible applicants to submit complete applications no later than October 31, 2021 so that EDA can review and process the application in time to achieve the objectives of the grant program. Submission by October 31, 2021 is not a guarantee of funding. Any award is subject to the availability of funds. See Section E of this NOFO regarding EDA's review process.

For Statewide Planning grants, States must accept or reject the grant within 45 days of the date of transmission from EDA of an invitation letter.

Deadline: October 31, 2021

[FY 2021 American Rescue Plan Act Good Jobs Challenge CFDA 11.307](#)

Through this American Rescue Plan Act Good Jobs Challenge Notice of Funding Opportunity (ARPA Good Jobs Challenge NOFO), EDA aims to assist communities and regions impacted by the coronavirus

pandemic. The pandemic has caused, and continues to cause, economic injury to U.S. communities and regions in devastating and unprecedented ways.

This ARPA Good Jobs Challenge NOFO is designed to help get Americans back to work by developing and strengthening regional systems to develop and execute sectoral partnerships that will lead to well-paying jobs. The goal of regional workforce training systems is to create and implement effective employer-driven training programs that will connect the existing and emerging skills needs of employers with workers and will help workers find and keep quality jobs and advance along their chosen career path. Regional workforce training systems and sectoral partnerships funded under this NOFO should connect employers in an industry with key regional stakeholders, including state and local governmental entities, economic development organizations, workforce development boards, employer-facing organizations, education and training providers, community-based organizations (CBOs), worker-serving organizations (WSOs), and/or labor unions. The system or partnership should be led by a System Lead Entity or Backbone Organization, respectively, serving as an intermediary that has convening power in the region and the capacity to coordinate all necessary stakeholders. EDA also encourages systems and partnerships to address populations with labor market barriers such as persons with disabilities, at-risk youth, individuals in recovery, individuals with past criminal records including justice-impacted and reentry participants, and veterans.

EDA anticipates making approximately 25 to 50 awards under this ARPA Jobs Training NOFO and scaling awards as appropriate to the proposed geographic, industry, and worker role coverage of a given regional system.

Deadline: January 26, 2022

[FY 2021 American Rescue Plan Act Indigenous Communities Notice of Funding Opportunity CFDA 11.307](#)

Through this Indigenous Communities NOFO, EDA aims to assist indigenous communities to recover economically from the coronavirus pandemic. Even before the pandemic, indigenous communities faced high levels of economic distress and unique economic development challenges, resulting in severe inequalities in opportunity for members of these communities. The pandemic greatly exacerbated those challenges and inequities and will continue to cause deep economic injury to indigenous communities in unprecedented ways.

EDA's American Rescue Plan Indigenous Communities NOFO is designed to support indigenous communities as they respond to, and recover from, the economic impacts of the coronavirus pandemic, including long-term recovery and resilience to future economic disasters. Under this announcement, EDA solicits applications under the authority of its Economic Adjustment Assistance (EAA) program, which is intended to be flexible and responsive to the economic development needs and priorities of indigenous communities.

Competitive applications for funding under this NOFO will propose projects designed to create the conditions for economic growth in indigenous communities and to accelerate economic recovery from the pandemic. These projects can include foundational economic infrastructure projects, such as such as

broadband, energy, road, water, and wastewater infrastructure (including community water facilities); vocational and higher education facilities; and community health facilities that are necessary for future job creation. Projects can also include non-construction projects to provide technical assistance to support business development, entrepreneurship assistance, economic development planning, rural prosperity, and workforce training in indigenous communities. Further, EDA seeks to fund projects representing diverse geographies, from rural and urban settings to projects on or near tribal lands.

EDA plans on funding construction and non-construction projects that cost between approximately \$500,000 and \$5,000,000 under this NOFO.

Deadline: September 30, 2022

U.S. Department of Defense

[DoD Traumatic Brain Injury and Psychological Health, Investigator-Initiated Research Award CFDA 12.420](#)

The FY21 TBIPHRP IIRA is intended to support studies that will make an important contribution toward understanding, preventing, and treating TBI and/or psychological health conditions. Research projects may focus on any phase of research from basic laboratory research through translational research, including preclinical studies in animal models and human subjects, as well as correlative studies associated with an existing clinical trial. Research involving human subjects and human anatomical substances is permitted; however, this FY21 TBIPHRP IIRA may not be used to conduct clinical trials.

The IIRA is designed to support research with the potential to yield highly impactful discoveries or major advancements. The application should clearly demonstrate the project's potential near-term and long-term outcome(s)/product(s) (knowledge and/or materiel) and how they will impact a critical problem or question in the field of research and/or patient care in the FY21 TBIPHRP IIRA Focus Areas(s) addressed.

A clinical trial is defined as a research study in which one or more human subjects are prospectively assigned to one or more interventions (which may include placebo or other control) to evaluate the effects of the interventions on biomedical or behavioral health-related outcomes. This award may not be used to conduct clinical trials.

Applications proposing clinical trials may be submitted to the following FY21 TBIPHRP funding opportunities:

- Clinical Trial Award (Funding Opportunity Number: W81XWH-21-S-TBIPH1)
- Focused Program Award (Funding Opportunity Number: W81XWH-21-S-TBIPH2)
- Translational Research Award (Funding Opportunity Number: W81XWH-21-TBIPHRP-TRA)

Clinical research is defined as: (1) patient-oriented research. Research conducted with human subjects (or on material of human origin such as tissues, specimens, and cognitive phenomena) for which an investigator (or colleague) directly interacts with human subjects. Excluded from this definition are in vitro studies that utilize human tissues that cannot be linked to a living individual. Patient-oriented research includes: (a) mechanisms of human disease, (b) therapeutic interventions, (c) clinical trials, and (d) development of new technologies; (2) epidemiologic and behavioral studies; and (3) outcomes research and health services research. Note: Studies that meet the requirements for Institutional Review Board (IRB) Exemption 4 are not considered CDMRP-defined clinical research. IRB Exemption 4 refers to research involving the collection or study of existing de-identified specimens or data, if these sources are publicly available.

The FY21 TBIPHRP IIRA may not be used to support studies requiring an exception from informed consent.

For more information on how to distinguish clinical research from clinical trials, see the Human Subject Resource Document at <https://ebrap.org/eBRAP/public/Program.htm>.

Preliminary data are required. The rationale for a research idea may be derived from a laboratory discovery, population-based studies, a clinician's firsthand knowledge of patients, or anecdotal data. Applications must include relevant data that support the rationale for the proposed study. These data may be unpublished or from published literature. Any unpublished, preliminary data provided should originate from the laboratory of the Principal Investigator (PI) or members of the research team.

Relevance to Military Health: Relevance to the healthcare needs of Service Members, Veterans, military beneficiaries, and the American public is a key feature of this award. Investigators are encouraged to consider the following characteristics as examples of how a project may demonstrate relevance to military health:

- Explanation of how the project addresses an aspect of TBI and/or psychological health that has direct relevance to the health and/or readiness of Service Members, Veterans, military beneficiaries, and the American public
- Description of how the knowledge, information, products, or technologies gained from the proposed research could be implemented in a dual-use capacity to benefit the civilian population and also address a military need
- Use of military or Veteran populations, samples, or datasets in the proposed research, if appropriate
- Collaboration with DOD or Department of Veterans Affairs (VA) investigators or consultants

Applicants are encouraged to integrate and/or align their research projects with DOD and/or VA research laboratories and programs. Collaborations between researchers at military or Veterans institutions and non-military institutions are strongly encouraged. These relationships can leverage knowledge, infrastructure, and access to unique data and research resources that the partners bring to the research effort, ultimately advancing TBI and psychological health research of significance to Service Members, Veterans, military beneficiaries, and the American public. A list of websites that may be useful in identifying additional information about ongoing DOD and VA areas of research interest or potential opportunities for collaboration can be found in Appendix 2.

Early-Career Investigator Partnering Option: The FY21 TBIPHRP encourages applications that include meaningful and productive collaborations between investigators. The FY21 TBIPHRP IIRA includes a partnering option with a PI who is an Early-Career Investigator. The PIs may have experience in similar or disparate scientific disciplines, but each PI is expected to bring distinct contributions to the application. The Partnering PI Option is structured to accommodate two PIs. One PI will be identified as the Initiating PI and will be responsible for the majority of the administrative tasks associated with application submission. The other investigator will be the Partnering PI. Either the Initiating or Partnering PI may be the Early-Career Investigator. Both PIs should contribute significantly to the development of the proposed research project, including the Project Narrative, Statement of Work (SOW), and other required components. The application is expected to describe how the PIs' unique experience/ expertise combined as a partnership will better address the research question, how the unique experience/expertise that each individual brings to the application is critical for the research strategy and completion of the SOW, and why the work should be done together rather than through separate efforts. If recommended for funding, each PI will be named to an individual award within the recipient organizations. For individual submission requirements for the Initiating and Partnering PI, refer to Section II.D.2, Content and Form of the Application Submission.

The types of awards made under the program announcement will be assistance agreements. An assistance agreement is appropriate when the federal government transfers a "thing of value" to a "state, local government," or "other recipient" to carry out a public purpose of support or stimulation authorized by a law of the United States instead of acquiring property or service for the direct benefit and use of the U.S. government. An assistance agreement can take the form of a grant or cooperative agreement. The level of involvement on the part of the DOD during project performance is the key factor in determining whether to award a grant or cooperative agreement. If "no substantial involvement" on the part of the funding agency

is anticipated, a grant award will be made (31 USC 6304). Conversely, if substantial involvement on the part of the funding agency is anticipated, a cooperative agreement will be made (31 USC 6305), and the award will identify the specific substantial involvement. Substantial involvement may include, but is not limited to, collaboration, participation, or intervention in the research to be performed under the award. The award type, along with the start date, will be determined during the negotiation process.

The anticipated total costs budgeted for the entire period of performance for an FY21 TBIPHRP IIRA will not exceed \$750,000. Refer to Section II.D.5, Funding Restrictions, for detailed funding information.

Awards will be made no later than September 30, 2022. For additional information refer to Section II.F.1, Federal Award Notices.

The CDMRP expects to allot approximately \$11.25M to fund approximately 15 FY21 TBIPHRP Investigator-Initiated Research Award applications. Funding of applications received is contingent upon the availability of federal funds for this program as well as the number of applications received, the quality and merit of the applications as evaluated by scientific and programmatic review, and the requirements of the government. Funds to be obligated on any award resulting from this funding opportunity will be available for use for a limited time period based on the fiscal year of the funds. It is anticipated that awards made from this FY21 funding opportunity will be funded with FY21 funds, which will expire for use on September 30, 2027.

Deadline: September 30, 2021

[FY22 Young Investigator Program CFDA 12.300](#)

The Office of Naval Research (ONR) is interested in receiving proposals for its Young Investigator Program (YIP). ONR's Young Investigator Program seeks to identify and support academic scientists and engineers who are in their first or second full-time tenure-track or tenure-track-equivalent academic appointment, who have received their PhD or equivalent degree on or after 01 January 2014, and who show exceptional promise for doing creative research. The objectives of this program are to attract outstanding faculty members of Institutions of Higher Education (hereafter also called "universities") to the Department of the Navy's Science and Technology (S&T) research program, to support their research, and to encourage their teaching and research careers. Individuals who are holding U.S. non-profit equivalent positions are also encouraged to apply.

Proposals addressing research areas (as described in the ONR Science and Technology Department section of ONR's website at www.onr.navy.mil) which are of interest to ONR Program Officers will be considered. Contact information for each division (a subgroup of an S&T Department) is also listed within the S&T section of the website.

Applicants are **STRONGLY ENCOURAGED** to contact the appropriate Program Officer who is the point of contact for a specific technical area to discuss their research ideas before submitting a proposal. A list of most Program Officers and their contact information can be found at:

<https://www.onr.navy.mil/our-research/technology-areas> or at:

<https://www.onr.navy.mil/our-research/our-program-managers>.

Please see full text of FOA for more details.

Deadline: October 29, 2021

[Reimagining Protein Manufacturing \(RPM\) CFDA 12.910](#)

The Reimagining Protein Manufacturing (RPM) program aims to ensure timely DoD access to critical medical countermeasures (MCMs) by establishing the foundational technologies needed for fully distributed, on-demand manufacturing of protein-based MCMs and associated raw materials. To achieve this goal, RPM will develop technologies to enable immediate synthesis (lead time approximately 24 hours) of bioactive protein MCMs and raw material production enzymes at a yield corresponding to > 500 doses per week. This technology will allow the DoD to rapidly secure access to both therapeutic proteins and enzymes needed for nucleic acid-based MCM synthesis, and reduce reliance on complex supply chains.

Deadline: November 16, 2021

[FY2022 Department of the Navy \(DoN\) Historically Black Colleges and Universities/Minority Institutions \(HBCU/MI\) Program CFDA 12.300](#)

The Department of Navy (DoN) Historically Black Colleges and Universities/Minority Institutions (HBCU/MI) Program aims to increase the quantity and quality of minority professionals in science, technology, engineering, and mathematics (STEM) in the defense community. Research conducted at Minority-Serving Institutions (MSIs) for the DoN HBCU/MI Program:

- Enhances the research and educational capabilities of HBCU/MIs in scientific and engineering disciplines critical to the defense mission of the U.S. Navy and U.S. Marine Corps
- Encourages cross-institutional, collaborative efforts that explore innovative solutions to naval science and technology (S&T) challenges, and
- Increases the engagement of students, including underrepresented minorities, in STEM fields important to the U.S. Navy and U.S. Marine Corps.

This FOA is executed under policy and guidance of the DoN HBCU/MI Program and is administered by the Office of Naval Research (ONR). Competitive white papers and full invited proposals submitted to this FOA must clearly and succinctly describe efforts that advance basic naval-relevant S&T, engage faculty and students in STEM discovery, and expand the research capacity of participant institutions.

Deadline: December 01, 2021

U.S. Department of Education

[Office of Postsecondary Education \(OPE\): Higher Education Program \(HEP\): Transitioning Gang-Involved Youth to Higher Education Program, CFDA 84.116Y](#)

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf

Purpose of Program: The purpose of this program is to provide gang-involved youth with postsecondary education opportunities that will lead to certification or credentials. Such programs can include apprenticeships or other workforce preparation programs that promote job readiness upon completion of the program, while simultaneously providing essential wrap-around services that include culturally competent social and emotional support.

Deadline: November 29, 2021

Office of Elementary & Secondary Education; Overview Information: Race to the Top Fund (ARRA) CFDA 84.395

The Race to the Top is a \$4.35 billion competitive grant program designed to encourage and reward States that are creating the conditions for education innovation and reform and implementing ambitious plans in four core education reform areas: • Adopting internationally-benchmarked standards and assessments that prepare students for success in college and the workplace; • Recruiting, developing, retaining, and rewarding effective teachers and principals; • Building data systems that measure student success and inform teachers and principals how they can improve their practices; and • Turning around lowest-performing schools The overarching goals are to: • Drive substantial gains in student achievement • Improve high school graduation rates and prepare students for success in college and careers • Close achievement gaps The Department plans to make Race to the Top grants in two phases. States that are ready to apply may do so in Phase 1, which will open in late 2009. States that need more time may apply in Phase 2, which will open in spring 2010. States that apply in Phase 1 but are not awarded grants may reapply for funding in Phase 2, together with States that are applying for the first time in Phase 2. Phase 1 grantees may not apply for additional funding in Phase 2. We will announce specific deadlines for both Phase 1 and Phase 2 in subsequent notice(s) inviting applications for funds under this program.

Deadline: Rolling

Office of Elementary and Secondary Education (OESE): Project to Support America's Families and Educators (Project SAFE) Grant Program Assistance Listing Number (ALN) 84.184N

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf

The Project SAFE grant program is intended to improve students' safety and well-being by providing resources to local educational agencies (LEAs) that adopt and implement strategies to prevent the spread of the Novel Coronavirus Disease 2019 (COVID-19) consistent with guidance from the Centers for Disease Control and Prevention (CDC) and that are financially penalized for doing so by their State educational agency (SEA) or other State entity.

Purpose of Program: The Project SAFE grant program provides grants to eligible LEAs to improve student safety and well-being by advancing strategies consistent with CDC guidance to reduce transmission of COVID-19 in schools.

To submit an application, please email the completed and signed application, along with required attachments, to ProjectSAFE@ed.gov.

Deadline: Rolling

U.S. Department of Energy

U.S. Department of Health and Human Services

[Non-Viral Technologies for in vivo Delivery of Genome Editors \(R43/R44 Clinical Trial Not Allowed\)-\(CFDA 93.350\)](#)

The purpose of this PAR is to support the development and evaluation of non-viral technologies to deliver genome editors to disease-relevant somatic cells and tissues in vivo. The ultimate goal of these technologies is a translation into clinical trials of genome editing to treat human disease.

Deadline: January 05, 2022

Postbaccalaureate Research Education Program (R25 - Independent Clinical Trial Not Allowed) CFDA-93.859

This funding opportunity announcement (FOA) provides support to eligible, domestic institutions to develop and implement effective, evidence-informed approaches to biomedical research education and mentoring that will keep pace with the rapid evolution of the research enterprise. NIGMS expects that the proposed research education programs will incorporate extensive research experiences, well-designed courses for skills development, mentoring, cohort building activities, and career development elements to prepare recent baccalaureates from diverse backgrounds to transition into and complete rigorous research-focused doctoral degree programs (e.g., Ph.D. or M.D./Ph.D.) in biomedical fields. This program is limited to applications from doctoral degree-granting research-intensive institutions. This Funding Opportunity Announcement (FOA) does not allow appointed participants to lead an independent clinical trial but does allow them to obtain research experience in a clinical trial led by a mentor or co-mentor.

Deadline: January 27, 2022

Novel Synthetic Nucleic Acid Technology Development (R21 Clinical Trial not allowed)-(CFDA 93.172)

This Funding Opportunity Announcement (FOA) solicits R21 grant applications to develop novel technologies that will enable substantive (no less than one order of magnitude) improvement in synthetic nucleic acids. The goal is to improve the quality, capabilities, and efficiency of nucleic acid synthesis and synthetic constructs at reasonable and decreased costs. Applicants may propose to develop novel complete synthesis and/or synthetic constructs systems, investigate challenges underlying key novel system components, or propose substantive improvements of at least an order of magnitude improvement to existing systems. Exploration of methods other than those currently in use is highly encouraged. High-risk/high-payoff applications are appropriate to achieve the goals of this FOA.

Deadline: June 24, 2022

Interactive Digital Media STEM Resources for Pre-College and Informal Science Education Audiences (SBIR) (R43/R44 Clinical Trial Not Allowed) CFDA 93.859

The purpose of this Funding Opportunity Announcement (FOA) is to provide opportunities for eligible small business concerns (SBCs) to submit NIH Small Business Innovation Research (SBIR) grant applications to develop interactive digital media science, technology, engineering and mathematics (STEM) resources that address student career choice and health and medicine topics for: (1) pre-kindergarten to grade 12 (P-12) students, and pre- and in-service teachers and families ("Teachers") or (2) Informal science education (ISE), i.e., outside the classroom resources for the general public. Interactive digital media (IDM) are defined as products and services on digital computer-based systems which respond to the user's actions by presenting content such as text, moving image, animation, video, audio, and video games. There is a large body of evidence that IDM technology has the potential to support learning in a variety of contexts from primary and secondary schools, to universities, adult education and workplace training. IDM is widely used to train, educate, and encourage behavioral changes in a virtual world format where progressive

learning, feedback on success and user control are combined into an interactive and engaging experience. It is anticipated that this SBIR FOA will facilitate the translation of new or existing health and medicine-based, P-12 STEM curricula and museum exhibits into educational Interactive Digital Media STEM (IDM STEM) resources that will provide a hands-on, inquiry-based and learning-by-doing experience for students, teachers and the community.

Deadline: September 02, 2022

[Palliative Care in Home and Community Settings \(R01 Clinical Trial Optional\) – \(CFDA 93.361\)](#)

The purpose of this funding opportunity is to stimulate research aimed at determining needs and best practices for the integration of palliative care into home and community settings. Home and community in this FOA refer to the place where an individual resides or lives. Home- and community-based palliative care programs ensure those with serious, advanced illness who do not require hospitalization but are not appropriate for hospice have access to high-quality end-of-life and palliative care.

Deadline: September 7, 2022

[Core Infrastructure Support for Cancer Epidemiology Cohorts \(U01 Clinical Trial Not Allowed\) CFDA 93.393](#)

Through this Funding Opportunity Announcement (FOA), the National Cancer Institute (NCI) encourages grant applications for support of the core functions of Cancer Epidemiology Cohorts (CECs), as well as methodological research. This FOA is intended to support maintenance of existing CECs infrastructure and resource sharing with broader scientific communities.

Deadline: November 09, 2022

[NCI Research Specialist \(Laboratory-based Scientist\) Award \(R50 Clinical Trial Not Allowed\) CFDA 93.393](#)

This Funding Opportunity Announcement (FOA) invites grant applications for the Research Specialist Award (R50) in any area of NCI-funded cancer research. This FOA is specifically for laboratory-based scientists. The Research Specialist Award is designed to encourage the development of stable research career opportunities for exceptional scientists who want to continue to pursue research within the context of an existing NCI-funded basic, translational, clinical, or population science cancer research program, but not serve as independent investigators. These non-tenure track scientists, such as researchers within a

research program, are vital to sustaining the biomedical research enterprise. It is anticipated that only exceptional scientists who want to pursue research within the context of an existing NCI-funded cancer research program, but not serve as independent investigators, will be competitive for this award.

Deadline: November 01, 2021

[Ryan White HIV/AIDS Program HIV Care Grant Program – Part B
States/Territories Formula and AIDS Drug Assistance Program Formula and
ADAP Supplemental Awards CFDA 93.917](#)

This notice announces the opportunity to apply for funding under the Ryan White HIV/AIDS Program (RWHAP) Part B Base, AIDS Drug Assistance Program (ADAP) Base, ADAP Supplemental, Minority AIDS Initiative (MAI), and Emerging Communities (EC) program. The purpose of this program is to assist states and territories in developing and/or enhancing access to a comprehensive continuum of high quality HIV care and treatment for low-income people with HIV. For the purposes of this program, “states/territories” include the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

Deadline: November 08, 2021

[Advancing Validated Drug Targets for Substance Use Disorders \(R41/R42 -
Clinical Trial Not Allowed\) CFDA 93.279](#)

This Funding Opportunity Announcement (FOA) solicits grant applications from small business concerns (SBCs) to continue research projects with robustly validated targets for Substance Use Disorders (SUDs). This FOA will provide funding for projects entering at either assay development (AD), lead identification (LI), lead optimization (LO), or preclinical development (PCD) stages to allow for the ultimate goal of successfully completing Investigational New Drug-enabling activities.

Deadline: February 18, 2022

[Advancing Validated Drug Targets for Substance Use Disorders \(R43/R44 -
Clinical Trial Not Allowed\) CFDA 93.279](#)

This Funding Opportunity Announcement (FOA) solicits grant applications from small business concerns (SBCs) to continue research projects with robustly validated targets for Substance Use Disorders (SUDs). This FOA will provide funding for projects entering at either assay development (AD), lead identification

(LI), lead optimization (LO), or preclinical development (PCD) stages to allow for the ultimate goal of successfully completing Investigational New Drug-enabling activities.

Deadline: February 18, 2022

[New Investigators to Promote Workforce Diversity in Genomics, Bioinformatics, or Bioengineering and Biomedical Imaging Research \(R01 Clinical Trial Optional\) CFDA 93.837](#)

This Funding Opportunity Announcement (FOA) solicits R01 grant applications that propose independent research projects that are within the scientific mission areas of the National Human Genome Research Institute (NHGRI), National Institute of Biomedical Imaging and Bioengineering (NIBIB), and All of Us Research Program (All of Us). This program is intended to support Early Stage Investigators and New Investigators (<https://grants.nih.gov/policy/early-investigators/index.htm>) from diverse backgrounds, including those from groups underrepresented in the health-related sciences.

Deadline: February 22, 2021

[Pilot and Feasibility Studies to Improve Technology Adoption and Reduce Health Disparities in Type 1 Diabetes Mellitus \(R01 Clinical Trial Required\) CFDA 93.847](#)

The purpose of this Funding Opportunity Announcement (FOA) is to support pilot and feasibility trials of interventions designed to improve technology adoption in individuals from underrepresented backgrounds with type 1 diabetes mellitus (T1D). Through successful execution, these pilot and feasibility trials should provide feasibility data for larger, pragmatic trials with the overarching goal of reducing health disparity in T1D through improving technology usage in individuals from minority racial and ethnic backgrounds.

Deadline: March 03, 2022

[Limited Competition Emergency Awards: Shared Personal Protective Equipment Resources for COVID-19 Related Vaccine and Treatment Clinical Trials and Clinical Studies \(S10 Clinical Trial Not Allowed\) CFDA 93.855](#)

The purpose of this public health emergency funding opportunity is to provide Personal Protective Equipment (PPE) to directly support the needs of the NIAIDs vaccine and treatment clinical trials and clinical studies for COVID-19. This program will ensure that adequate protective equipment is available to directly assist in safely carrying out the clinical activities and direct interactions with the patients

participating in the trial. Eligibility is limited to recipients conducting COVID-related clinical research and clinical studies supported by NIAIDs emergency appropriation provided by The Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 ,and The Coronavirus Aid, Relief and Economic Security (CARES) Act, The Coronavirus Response and Relief Supplemental Appropriations Act, 2021 and The American Rescue Plan Act of 2021.

Deadline: July 15, 2022

[Genome Research Experiences to Attract Talented Undergraduates into the Genomics Field to Enhance Diversity \(R25 Clinical Trial Not Allowed\) CFDA 93.172](#)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The overarching goal of this NHGRI R25 program is to support educational activities that encourage undergraduates from diverse backgrounds, including those from groups underrepresented in the biomedical workforce, to pursue further training and careers in the scientific, medical, ethical, social and/or legal areas of genomics research. To accomplish the stated over-arching goal, this FOA will support creative educational activities with a primary focus on: Research Experiences Courses for Skills Development Mentoring Activities This Genome Research Experiences to Attract Talented Undergraduates into the Genomic Field to Promote Diversity (GREAT) Program will support collaborative institutional partnerships that provide two-year research education programs for undergraduates enrolled at minority-serving institutions (MSIs) or Institutional Development Award (IDeA)-eligible institutions. A partnership will include a MSI or IDeA-eligible institution, and one or more research-intensive institutions or organizations with a suitable research base for graduate-level training in scientific areas of interest to NHGRI.

Deadline: July 01, 2023

[NINDS Research Education Opportunities \(R25 Clinical Trial Not Allowed\) CFDA 93.853](#)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The over-arching goal of this NINDS R25 program is to support educational activities that complement and/or enhance the training of a workforce to meet the nations biomedical, behavioral and clinical research needs.

Deadline: July 13, 2023

[BRAIN Initiative: Research on the Ethical Implications of Advancements in Neurotechnology and Brain Science \(R01 Clinical Trial Optional\) CFDA 93.173](#)

Reissue of RFA-MH-19-400. This funding opportunity announcement (FOA), in support of the NIH Brain Research through Advancing Innovative Neurotechnologies (BRAIN) Initiative, is one of several FOAs aimed at supporting transformative discoveries that will lead to breakthroughs in understanding human brain function. Guided by the long-term scientific plan, BRAIN 2025: A Scientific Vision, this FOA specifically seeks to support efforts addressing core ethical issues associated with research focused on the human brain and resulting from emerging technologies and advancements supported by the BRAIN Initiative. The hope is that efforts supported under this FOA might be both complementary and integrative with the transformative, breakthrough neuroscience discoveries supported through the BRAIN Initiative.

Deadline: October 11, 2023

[Co-infection and Cancer \(R01 Clinical Trial Not Allowed\)-CFDA 93.393](#)

This initiative seeks to enhance our mechanistic and epidemiologic understanding of infection-related cancers, with a focus on the etiologic roles of co-infection in cancer. Preference will be given to investigations of co-infections with known oncogenic agents (e.g., *Helicobacter pylori* [*H. pylori*] and Epstein Barr virus [EBV]; excluding human immunodeficiency virus [HIV]) and of co-infections that engendered novel opportunities for prevention and treatment. Coinfection is defined as the occurrence of infections by two or more infectious (pathogenic or nonpathogenic) agents either concurrently or sequentially and includes both acute and chronic infections by viruses, bacteria, parasites, and/or other microorganisms.

Deadline: January 07, 2023

[EHR Core Research \(ECR\): Building Capacity in STEM Education Research- CFDA 93.855](#)

This Funding Opportunity Announcement (FOA), issued by the National Institute of Allergy and Infectious Diseases (NIAID), invites applications for investigator-initiated Resource-Related Research Projects (R24). The proposed resource must provide a significant benefit to currently funded high priority projects in need of further coordination and support in the areas specified. Under rare circumstances, this mechanism may be used to support the development of a new resource to the broader scientific community of the NIAID. It is anticipated that the request for resource support through the R24 activity code will occur on an infrequent basis and only in circumstances where other mechanisms of support from the NIAID are not appropriate.

The proposed resources should be relevant to the scientific areas of the NIAID mission including the biology, pathogenesis, and host response to microbes, including HIV; the mechanisms of normal immune function and immune dysfunction resulting in autoimmunity, immunodeficiency, allergy, asthma, and transplant rejection; and translational research to develop vaccines, therapeutics, and diagnostics to prevent and treat infectious, immune-mediated, and allergic diseases.

Deadline: January 07, 2023

[Archiving and Documenting Child Health and Human Development Data Sets
\(R03 Clinical Trial Not Allowed\)-CFDA 93.865](#)

The purpose of this funding opportunity announcement (FOA) is to invite R03 applications to support archiving and documenting existing data sets to enable secondary analysis of these data by the scientific community. The priority of this program is to archive data sets within the scientific mission of the NICHD; the highest priority is to archive data collected with NICHD support.

Deadline: January 07, 2023

[NIDCR Predoctoral to Postdoctoral Transition Award for A Diverse Dental, Oral,
and Craniofacial Research Workforce \(F99/K00 Clinical Trial Not Allowed\)-
CFDA 93.121](#)

The purpose of this award is to support phased transition of outstanding graduate students from groups underrepresented in the biomedical, clinical, behavioral and social sciences research enterprise from graduate work to postdoctoral research positions in Dental, Oral, and Craniofacial (DOC) research. The first phase (F99) will support the final two years of graduate research training for individuals in Ph.D. or dual degree clinician-scientist programs. Following graduation and attainment of a postdoctoral research position, the second phase (K00) will provide support for up to three years of mentored postdoctoral research.

Deadline: January 07, 2023

[Integration of Imaging and Fluid-Based Tumor Monitoring in Cancer Therapy
\(R01 Clinical Trial Optional\) CFDA 93.393](#)

Through this funding opportunity announcement (FOA), the National Cancer Institute (NCI) seeks research project (R01) grant applications describing projects that integrate imaging and fluid-based tumor monitoring (liquid biopsy) assays during cancer therapy in patients to determine the optimal use of those modalities in the characterization of therapy response and/or emergence of resistance.

Deadline: September 07, 2024

[Utilizing Invasive Recording and Stimulating Opportunities in Humans to Advance Neural Circuitry Understanding of Mental Health Disorders \(R01 Clinical Trial Optional\) CFDA 93.242](#)

Reissue of RFA-20-350. The purpose of this Funding Opportunity Announcement (FOA) is to encourage applications to pursue invasive neural recording studies focused on mental health-relevant questions. Invasive neural recordings provide an unparalleled window into the human brain to explore the neural circuitry and neural dynamics underlying complex moods, emotions, cognitive functions, and behaviors with high spatial and temporal resolution. Additionally, the ability to stimulate, via the same electrodes, allows for direct causal tests by modulating network dynamics. This funding opportunity aims to target a gap in the scientific knowledge of neural circuit function related to mental health disorders. Researchers should target specific questions suited to invasive recording modalities that have high translational potential. Development of new technologies and therapies are outside the scope of this FOA.

Deadline: September 07, 2024

[Investigator Initiated Research in Computational Genomics and Data Science \(R01 Clinical Trial Not Allowed\) CFDA 93.172](#)

The purpose of this funding opportunity announcement (FOA) is to invite applications for a broad range of research efforts in computational genomics, data science, statistics, and bioinformatics relevant to one or both of basic or clinical genomic science, and broadly applicable to human health and disease. This FOA supports fundamental genomics research developing innovative analytical methodologies and approaches, early-stage development of tools and software, and refinement or hardening of software and tools of high value to the biomedical genomics community. Work supported under this FOA should be enabling for genomics and be generalizable or broadly applicable across diseases and biological systems. All applications should address how the methods would scale to address increasingly larger data sets.

Deadline: September 07, 2024

Deadline: September 07, 2024

[Imaging - Science Track Award for Research Transition \(I/START\) \(R03- Basic Experimental Studies with Humans Required\) CFDA 93.279](#)

This funding opportunity announcement (FOA) encourages Small Research Grant (R03) applications to facilitate the entry of investigators to the area of neuroimaging, including both new investigators and established investigators seeking to adopt neuroimaging methodologies in their research programs, to enable the conduct of small "proof of concept" studies. The R03 is intended to support research projects that can be carried out in a short period of time with limited resources.

Deadline: September 07, 2024

[Initiation of a Mental Health Family Navigator Model to Promote Early Access, Engagement and Coordination of Needed Mental Health Services for Children and Adolescents \(R01 Clinical Trial Required\) CFDA 93.242](#)

Reissue of PAR-18-428. The purpose of this Funding Opportunity Announcement (FOA) is to encourage research applications to develop and test the effectiveness and implementation of family navigator models designed to promote early access, engagement and coordination of mental health treatment and services for children and adolescents who are experiencing early symptoms of mental health problems. For the purposes of this FOA, NIMH defines a family navigator model as a health care professional or paraprofessional whose role is to deploy a set of strategies designed to rapidly engage youth and families in needed treatment and services, work closely with the family and other involved treatment and service providers to optimize care and monitor the trajectory of mental health symptoms and outcomes over time. Applicants are encouraged to develop and test the navigator models ability to promote early access, engagement and coordination of mental health treatment and services for children and adolescents as soon as symptoms are detected. Of interest are navigator models that coordinate needed care strategies, determine the personalized match to the level of needed service amount, frequency and intensity, and harness novel technologies to track and monitor the trajectory of clinical, functional and behavioral progress toward achieving intended services outcomes. This FOA is published in parallel to a companion R34.

Deadline: September 07, 2024

[Effectiveness of School-Based Health Centers to Advance Health Equity \(R01 Clinical Trial Optional\) CFDA 93.242](#)

The purpose of this Funding Opportunity Announcement is to support research that investigates the effectiveness of school-based health centers (SBHCs) as a health services care delivery model to address the needs of school-aged children from populations with health disparities (underserved youth).

Deadline: January 07, 2025

U.S. Department of Housing and Urban Development

[Notice of Funding Opportunity \(NOFO\) for Fiscal Year \(FY\) 2021 Continuum of Care Competition and Noncompetitive Award of Youth Homeless Demonstration Program Renewal and Replacement Grants CFDA 14.267](#)

The CoC Program (24 CFR part 578) is designed to promote a community-wide commitment to the goal of ending homelessness; to provide funding for efforts by nonprofit organizations, state governments, local governments, instrumentalities of state and local governments, Indian Tribes, tribally designated housing entities, as defined in section 4 of the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4103), and public housing agencies, as such term is defined in 24 CFR 5.100, are eligible without limitation or exclusion, to quickly re-house homeless individuals, families, persons fleeing domestic violence, and youth while minimizing the trauma and dislocation caused by homelessness; to promote access to and effective utilization of mainstream programs by homeless; and to optimize self-sufficiency among those experiencing homelessness.

Deadline: November 16, 2021

U.S. Department of Homeland Security

[Fiscal Year 2021 Flood Mitigation Assistance \(FMA\) CFDA 97.029](#)

The Flood Mitigation Assistance (FMA) program makes federal funds available to states, U.S. territories, federally recognized tribal governments, and local communities to reduce or eliminate the risk of repetitive flood damage to buildings and structures insured under the National Flood Insurance Program (NFIP). It does so with a recognition of the growing flood hazards associated with climate change¹, and of the need for flood hazard risk mitigation activities that promote climate adaptation and resilience with respect to flooding. These include both acute extreme weather events and chronic stressors which have been observed and are expected to increase in the future.

Deadline: January 28, 2022

[Fiscal Year 2021 Building Resilient Infrastructure and Communities \(BRIC\)](#)
[CFDA 97.047](#)

The Building Resilient Infrastructure and Communities (BRIC) program makes federal funds available to states, U.S. territories, federally recognized tribal governments, and local communities for hazard mitigation activities. It does so with a recognition of the growing hazards associated with climate change¹, and of the need for natural hazard risk mitigation activities that promote climate adaptation and resilience with respect to those hazards. These include both acute extreme weather events and chronic stressors which have been observed and are expected to increase in the future.

Deadline: January 28, 2022

U.S. Department of the Interior

[FY 2022 Clean Vessel Act \(CVA\) CFDA 15.616](#)

The Clean Vessel Act of 1992 was signed November 4, 1992 (106 Stat. 5039) and codified in 33 U.S.C. 1322. The Act amended the Dingell-Johnson Sport Fish Restoration Act (Wallop-Breaux Act; 16 U.S.C. 777) and established the Clean Vessel Act Grant Program (CVA) to provide funding to the 50 States, the District of Columbia, Commonwealths, and territories of the United States of America (States). Funding allows States to construct, renovate, operate, and maintain pumpout stations and waste reception facilities for recreational boaters and to inform boaters about the use, benefits, and availability of pumpout stations and waste reception facilities. Subsequent reauthorizations of the Acts have allowed for the continuation of the CVA.

Deadline: November 24, 2021

[FY2021 Historic Preservation Fund- African American Civil Rights- History](#)
[Grants CFDA 15.904](#)

The National Park Service's (NPS) African American Civil Rights Grant Program (AACR) will document, interpret, and preserve the sites and stories related to the African American struggle to gain equal rights as citizens as well as the transatlantic slave trade. The NPS 2008 report, Civil Rights in America, A Framework for Identifying Significant Sites, will serve as a guide in determining the appropriateness of proposed projects and properties. AACR Preservation Grants are funded by the Historic Preservation Fund (HPF), administered by the NPS, and will fund a broad range of history projects for historic sites including survey and inventory, National Register nominations, oral histories and more. Grants are awarded through a competitive process and do not require non-Federal match. There are separate funding announcements for physical preservation projects and for historical research/documentation projects. Funding announcement P21AS00431 is for physical preservation of historic sites only; P21AS00432 is for historical research/documentation/survey/nomination projects. Please ensure you apply under the correct opportunity number for your project. There is a new Historic Equal Rights grant program under P21AS00430 for physical preservation only of sites involved in the struggle for all Americans civil rights. FY2021 Public Law 116-260 provides \$16,750,000 million for the AACR Grant Program.

Deadline: December 1, 2021

[FY2021 Historic Preservation Fund- African American Civil Rights- Preservation Grants CFDA 15.904](#)

The National Park Service's (NPS) African American Civil Rights Grant Program (AACR) will document, interpret, and preserve the sites and stories of the full history of the African American struggle to gain equal rights as citizens. The NPS 2008 report, Civil Rights in America, A Framework for Identifying Significant Sites, will serve as a guide in determining the appropriateness of proposed projects and properties. AACR Preservation Grants are funded by the Historic Preservation Fund (HPF), administered by the NPS, and will fund a broad range of preservation projects for historic sites including architectural services, historic structure reports, preservation plans, and physical preservation to structures. Grants are awarded through a competitive process and do not require non-Federal match. There are separate funding announcements for physical preservation projects and for historical research/documentation projects. Funding announcement P21AS00431 is for physical preservation of historic sites only; P21AS00432 is for historical research/documentation/survey/nomination projects. Please ensure you apply under the correct opportunity number for your project. There is a new Historic Equal Rights grant program under P21AS00430 for physical preservation only of sites involved in the struggle for All American's civil rights. FY2021 Public Law 116-260 provides \$16.75 million for the AACR Grant Program.

Deadline: December 1, 2021

[FY2021 Historic Preservation Fund- History of Equal Rights- Preservation Grants](#)
[CFDA 15.904](#)

The National Park Service's (NPS) History of Equal Rights Grant Program (HER) will preserve sites related to the struggle of all American's to achieve equal rights. HER grants are funded by the Historic Preservation Fund (HPF), administered by the NPS, and will fund a broad range of preservation projects for historic sites including: architectural services, historic structure reports, preservation plans, and physical preservation to structures. Grants are awarded through a competitive process and do not require non-Federal match. The HER opportunity number is P21AS00430. There are separate funding announcements for African American Civil Rights physical preservation projects and for historical research/documentation projects. Funding announcement P21AS00431 is for physical preservation of African American historic sites only; P21AS00432 is for African American historical research/documentation projects only. Ensure you apply under the correct opportunity number for your project.

Deadline: December 1, 2021

[FY2021 Historic Preservation Fund- Save America's Treasures Preservation Grants](#)
[CFDA 15.929](#)

Save America's Treasures grants from the Historic Preservation Fund provide preservation and/or conservation assistance to nationally significant historic properties and collections. Grants are awarded through a competitive process and require a dollar-for-dollar, non-Federal match, which can be cash or documented in-kind. The grant program is administered by the National Park Service (NPS) in partnership with the National Endowment for the Arts (NEA), the National Endowment for the Humanities (NEH), and the Institute of Museum and Library Services (IMLS). There are separate opportunities for preservation and collections projects. The preservation opportunity can be found under opportunity number P21AS00433. The collections opportunity can be found under opportunity Number P21AS00434. FY2021 Public Law 116-260 provides \$25 million for the SAT Grant Program.

Deadline: December 14, 2021

Deadline: December 14, 2021

U.S. Department of Justice

[NIJ Multisite Impact and Cost-Efficiency Evaluation of Veterans Treatment Courts, Fiscal Year 2022 CFDA 16.560](#)

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

With this solicitation, NIJ, in collaboration with the Bureau of Justice Assistance (BJA), seeks applications for funding to conduct a multisite impact and cost-efficiency evaluation of veterans treatment courts (VTCs). NIJ proposes to make one award as a cooperative agreement under this solicitation. The awardee will lead a cross-site evaluation involving court and research partners in up to six VTCs across the U.S. Incorporating experimental design and other research methods, the process, impact, and cost study will examine:

Program impact on relapse, recidivism, and other outcomes

For whom are programs effective

Which program elements are effective

Whether programs are cost-efficient

Topics of interest include veterans with violent offense histories, mental health and comorbidity, leveraging technology, peer mentoring, and equitable service access. The 5-year period of performance will begin with a planning phase to confirm the research protocol including VTC site selection.

In the case of partnerships that will involve the use of federal award funds by multiple partnering agencies to carry out the proposed project, only one entity/partnering agency may be the applicant (as is the case with any application submitted in response to this solicitation); any others must be proposed as subrecipients.

This solicitation supports DOJ Strategic Objective 3.1: Combat violent crime, promote safe communities, and uphold the rights of victims of crime. It also supports the National Institute of Justice Courts Strategic Research Plan, 2020-2024.

NIJ plans to post on its website a webinar that will provide information on the cross-site evaluation, research solicitation, and research partner site eligibility.

Deadline: January 13, 2022

[W.E.B. Du Bois Program of Research on Reducing Racial and Ethnic Disparities in the Justice System, Fiscal Year 2021 CFDA 16.560](#)

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The W.E.B. Du Bois Program supports quantitative and qualitative research that furthers the Department's mission by advancing knowledge regarding the intersections of race, crime, violence, and the administration of justice within the United States. In FY 2021 under the W.E.B. Program, NIJ seeks applications for funding of investigator-initiated research examining how observed racial and ethnic disparities in the justice system might be reduced through public policy interventions at any point during the administration of justice. NIJ seeks applications for funding from two categories of researchers:

W.E.B. Du Bois Scholars - Researchers who are advanced in their careers (awarded a terminal degree at least seven years prior to December 31, 2021) may apply for grants for research, evaluation, and mentoring less-experienced researchers.

W.E.B. Du Bois Fellows - Researchers who are early in their careers (awarded a terminal degree within seven years of December 31, 2021) may apply for grants for research and evaluation.

Under this solicitation, NIJ will only consider applications for research on public policy interventions that may reduce racial and ethnic disparities in the justice system.

Prospective applicants from all racial and ethnic backgrounds are eligible to apply to the W.E.B. Du Bois Program. Researchers of color and women are strongly encouraged to apply. Applications must identify under which Category a proposal is submitted. NIJ will accept proposals to examine how observed racial and ethnic disparities in the justice system might be reduced through public policy in either the criminal and juvenile justice context or both.

Although not required, NIJ encourages applicants to consider researcher-practitioner partnerships in responding to this solicitation. Research can provide practical solutions to the obstacles faced by criminal justice practitioners as they work to reduce racial and ethnic disparities. Through these partnerships, criminal justice practitioners can independently assess their programs and measure outcomes. Likewise, criminal justice researchers can better understand the goals and purposes criminal justice practitioners seek to achieve, and therefore provide more practical solutions for practitioners. Ultimately, these partnerships provide criminal justice practitioners with practice- and policy-relevant information, while affording researchers the opportunity to contribute to the current body of knowledge.

Applications proposing research involving partnerships with criminal justice or other agencies should include a strong letter of support, signed (hard/wet, electronic, digital signature) by an appropriate decision-making authority from each proposed partnering agency. A letter of support should include the partnering agency's acknowledgment that de-identified data derived from, provided to, or obtained through this project will be archived by the grant recipient with the National Archive of Criminal Justice Data (NACJD) at the conclusion of the award. Applicants and their potential partners are encouraged to review the NACJD's policies and protections. If selected for an award, grantees will be expected to have a formal agreement in place with partnering agencies by July 1, 2022. That formal agreement must include a provision to meet the data archiving requirements of the award.

In the case of partnerships that will involve the use of federal award funds from multiple partnering agencies to carry out the proposed project, only one entity/partnering agency may be the applicant (as is the case with any application submitted in response to this solicitation); any others must be proposed as subrecipients.

Deadline: December 30, 2021

U.S. Department of Labor

[National Dislocated Worker Grants Program Guidance-\(CFDA 17.277\)](#)

National Dislocated Worker Grants (DWGs) are discretionary grants awarded by the Secretary of Labor under Section 170 of the Workforce Innovation and Opportunity Act (WIOA) to provide employment-related services for dislocated workers. The Department funds two types of DWGs: Disaster Recovery and Employment Recovery.

Disaster Recovery DWGs provide funding to create temporary employment opportunities to assist with clean-up and recovery efforts when an area impacted by an emergency or major disaster is declared eligible for public assistance by the Federal Emergency Management Agency (FEMA) or is declared, or otherwise recognized, as an emergency or disaster of national significance by a Federal agency with authority or jurisdiction over Federal response to the disaster or emergency.

Employment Recovery DWGs temporarily expand capacity to serve dislocated workers and to meet the increased demand for employment and training services following a qualifying event. Qualifying events include major economic dislocations, such as plant closures, mass layoffs, or higher-than-average demand for employment and training activities for dislocated members of the Armed Forces and their spouses. Under 20 CFR 687.110(a)(5), the Secretary of Labor may determine other major dislocations eligible for Employment Recovery DWGs.

Deadline: Rolling grant

U.S. Department of State

[DRL Internet Freedom Annual Program Statement CFDA 19.345](#)

The Bureau of Democracy, Human Rights and Labor (DRL) announces a Request for Statements of Interest (RSOI) from organizations interested in submitting Statements of Interest (SOI) for programs that support the policy objective to support the Internet Freedom.

Deadline: November 15, 2021

U.S. Department of Transportation

[2021 Surface Transportation System Funding Alternatives \(STSFA\) Grants CFDA 20.200](#)

The Fixing America's Surface Transportation (FAST) Act of 2015, Pub. L. No. 114-94, § 6020, authorized the Secretary of Transportation to establish the Surface Transportation System Funding Alternatives (STSFA) Program. The purpose of the STSFA Program is to provide grants to States to demonstrate user-based alternative revenue mechanisms that utilize a user-fee structure to maintain the long-term solvency of the Highway Trust Fund. The FAST Act authorized \$15 million in FY 2016, and \$20 million annually from FY 2017 through 2020 from the Highway Research and Development Program for grants for the STSFA demonstration projects.

The grants are only available to States; however, groups of States can form partnerships for regional or national proposals.[3] Section 6020 of the FAST Act authorizes DOT to enter into agreements with State authorities to demonstrate user-based alternative revenue mechanisms.

Deadline: November 1, 2021

[FY21-CRS-Consolidated Rail Infrastructure and Safety Improvements CFDA 20.325](#)

This program funds projects that improve the safety, efficiency, and reliability of intercity passenger and freight rail.

Deadline: November 29, 2021

U.S. Department of Treasury

[RESTORE Act Direct Component - Construction and Real Property Activities CFDA 21.015](#)

Under the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012 (RESTORE Act), Subtitle F of P.L. 112-141, the Gulf Coast Restoration Trust Fund (Trust Fund) was established in the Treasury of the United States. Eighty percent of the civil penalties paid after July 6, 2012, under the Federal Water Pollution Control Act in connection with the Deepwater Horizon oil spill will be deposited into the Trust Fund and invested. The RESTORE Act created five components through which funds will be disbursed.

Treasury is publishing multiple funding opportunity notices as part of the RESTORE Act. This announcement applies only to the Direct Component, and is only for applications for eligible non-construction activities, including projects with or without a non-federal share for another federally funded project. This announcement also includes planning assistance needed to prepare the Multiyear

Implementation Plan (Multiyear Plan) required by the RESTORE Act. For eligible activities involving construction and/or acquisition of real property, applicants should refer to the construction and real property acquisition funding opportunity announcement.

Trust Fund amounts are available to carry out eligible activities described in the RESTORE Act. These are:

1. Restoration and protection of the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches and coastal wetlands of the Gulf Coast region.
2. Mitigation of damage to fish, wildlife and natural resources.
3. Implementation of a federally approved marine, coastal, or comprehensive conservation management plan, including fisheries monitoring.
4. Workforce development and job creation.
5. Improvements to or on State parks located in coastal areas affected by the Deepwater Horizon oil spill.
6. Infrastructure projects benefitting the economy or ecological resources, including port infrastructure.
7. Coastal flood protection and related infrastructure.
8. Planning assistance.
9. Administrative costs.
10. Promotion of tourism in the Gulf Coast region, including recreational fishing.
11. Promotion of the consumption of seafood harvested from the Gulf Coast region.

Deadline: January 30, 2022

Deadline: January 30, 2022

U.S. Department of Veterans Affairs

[State Veterans Home Construction Grant Program CFDA 64.005](#)

Grants are available to State Governments for construction or renovations of State operated Veterans Extended Care Facilities. The Department of Veterans Affairs participation may not exceed 65% of the total project costs. Review governing regulation before submitting an application (38 CFR Part 59). If the state is submitting a new grant application, it must submit a complete initial application (Section A of the project checklist) on Grants.gov by April 15th in order to be eligible for listing on the Priority List for the next fiscal year. Once the complete initial application is retrieved from Grants.gov by Program Staff, the grant applicant will receive 1) an automated notification from Grants.gov confirming receipt by the Program and 2) an email from Program Staff indicating the application's FAI number and corresponding project page in MAX.gov for submission of subsequent items. Note that Grants.gov is used only once to submit a new

grant application. Applicants must submit complete initial applications on Grants.gov in order to be considered. Please contact Program Staff prior to submission if you need assistance understanding the requirements pertaining to an initial grant application, or if you need general assistance. Renovation or Life Safety initial grant applications require items A.1.-A.7. in Section A of the project checklist. Grant applicants, do not submit items A.8.-A.13 for Renovation of Life Safety grants. New Home Construction or Bed Replacement initial grant applications require all items in Section A (A.1.-A.13) of the project checklist.

Required for ALL applications

- A.1.A Project Scope
- A.1.B Form SF424
- A.1.C Form SF424D
- A.1.D Form SF424C
- A.1.E Budget Justification Worksheet (must align with SF424C budget form)
- A.2. Governor's designation of authorized state official and contact person
- A.3. Needs assessment (as outlined in VA Form 10-0388-1)
- A.4. State Clearinghouse Comments (E.O. 12372) single point of contact and compliance statement
- A.5. Schematics
- A.6. Signed Initial Application Certification VA Form 10-0388-1
- A.7. Safety citation/letter (Only Life Safety projects need to submit this).

Required for Bed Replacement or New Construction - Items A1-A6 and the below items

- A.8. Space program analysis (NHC use Form 10-0388-3, ADHC use Form 10-0388-4)
- A.9. Five-year capital plan for state's entire state home program
- A.10. Financial plan for state facility's first three years of operation
- A.11. Documentation that there is a reasonable basis to conclude that the facility when complete will be fully occupied
- A.12. Authorized state official's certification of the total number of state-operated nursing home and domiciliary beds and occupancy rate
- A.13. Authorized state official's certification that the number of state home beds does not exceed the requirement in 38 CFR 59.40 or justification for number of state home beds exceeding 38 CFR 59.40 based on travel distance.

Deadline: Rolling (Applications should be submitted by April 15 of the fiscal year)

Section III PROGRAM FUNDING THROUGH PRIVATE, CORPORATE & COMMUNITY FOUNDATIONS

Boat US Foundation Accepting Grant Applications for Safe and Clean Boating Projects

The Boat US Foundation for Boating Safety and Clean Water is accepting applications for its Grassroots Grants Program, which awards funds on an annual basis to nonprofit organizations, boating clubs, and student groups in the United States for projects that utilize innovative approaches to education about safe and clean boating.

The foundation is looking for creative projects that promote safe and clean boating on local waterways. Past topics have ranged from PSAs on the effects of boating under the influence of hands-on education about the effects of marine debris.

Projects the foundation is most interested in funding will be unique (topic, methods, or delivery mechanism); include extensive outreach to boaters; use technology to educate boaters, including social media and the Web; have a widespread reach (not just a handful of boaters); include hands-on work with the boating community, and have a way to measure the success of the program.

Applicants can include boating groups, clubs and associations, student groups, and local nonprofit organizations, including local chapters of national organizations. Grants will not be awarded to government agencies, international organizations, for-profit businesses, or individuals.

Applicants may request up to \$10,000. Funded projects must be completed within a year.

Deadline: Open

Baseball Tomorrow Fund

The Baseball Tomorrow Fund (BTF) awards grants to non-profit and tax-exempt organizations involved in the operation of youth baseball and/or softball programs and facilities. Organizations operating in the U.S. and international locations are eligible to apply. To date, an average of 400 requests are received annually; approximately 10 percent are awarded grants. Grants are awarded every quarter.

Review cycle deadlines:

- January-March: January 1
- April-June: April 1
- July-September: July 1
- October-December: October 1

Surdna Foundation Sustainable Environment Grants

The Sustainable Environments Program is working to overhaul our country's outdated and crumbling infrastructure with a new approach that will foster healthier, sustainable, and just communities. We believe in the potential of what we call "next-generation infrastructure" to improve transit systems, make buildings more energy-efficient, better manage our water systems and rebuild regional food systems. Focusing on urban areas and their surrounding suburbs, we seek solutions that connect and improve these infrastructure systems in ways that maximize positive impacts and minimize negative environmental, economic and social consequences.

JFNY Grant for Arts and Culture

The Japan Foundation New York office (JFNY) accepts applications for projects that take place within the 37 states east of Rocky Mountains listed below for the JFNY Grant throughout the year. This grant aims to support projects that will further understand of Japanese arts and culture. Successful projects may be granted up to \$5,000. Priority will be given to those projects that have secured additional funding from sources other than the Japan Foundation.

Deadline: Applications must be received at least 3 months before the beginning date of the project.

CSX Beyond Our Rails Grant

CSX provides non-profit assistance and support through a variety of programs, including grants that typically range from \$2,500 to \$5,000 for projects focusing on safety, community, wellness, and/or the environment.

Examples given for environmental projects include:

- Teaching environmental stewardship
- Planting eco-friendly trees and plants
- Leading and supporting environmental cleanups
- Recycling and waste minimization
- Promoting energy efficiency and carbon reduction

Deadline: Ongoing

Laboratory Equipment Donation Program for Colleges, Universities, and Museums

The Laboratory Equipment Donation Program (LEDP), formerly the Energy-Related Laboratory Equipment (ERLE) Grant Program, was established by the United States Department of Energy (DOE) to

grant surplus and available used energy-related laboratory equipment to universities and colleges in the United States for use in energy-oriented educational programs.

Deadline: Ongoing

Zayed Future Energy Global High Schools Prize

The primary aim of the Global High Schools category is to inspire future generations across the globe by instilling an ethos of sustainability from an early age, including an appreciation of issues in energy, and broader sustainability. Each school will submit a detailed proposal for a project, and the Prize will become a grant that enables the project's completion. While the main objective is to promote sustainability in schools, a special emphasis of the proposed project should be on specific measurable initiatives to promote renewable energy and sustainability, which may include improvements in energy or water efficiency or a reduction in waste.

Waste Management Charitable Giving

Healthy thriving communities depend on involved citizens, organizations and corporate partners for momentum. We lend our support and services to causes that promote civic pride, economic development, and revitalization. Every community has its challenges, and we strive always to be part of problem-solving initiatives. Programs that Waste Management is most motivated to support include environment, environmental education, and causes important to the areas where we operate. Applications are accepted year-round and are reviewed continuously. Given the large number of requests received, please anticipate an estimated two-month review period for each request.

Clif Bar Foundation Small Grants

These grants are awarded for general organizational support as well as funding for specific projects. Small grants average approximately \$7,000 each. Priority is given to applicants that: Address our funding priorities from a holistic perspective; Protect Earth's beauty and bounty; Create a robust, healthy food system; Increase opportunities for outdoor activity; Reduce environmental health hazards; Build stronger communities; Operate with clearly defined objectives and viable plans to achieve them; Demonstrate strong community ties and operate at the community level; Promote positive change through both the projects and their implementation process.

Deadline: Applications are reviewed three times a year; the deadlines are the 1st of February, June, and October. Grants awarded during a particular cycle will be announced at the beginning of the following cycle.

Foundation for Contemporary Art Accepting Applications for Emergency Grants

Since its inception in 1963, the mission of the Foundation for Contemporary Arts has been to encourage, sponsor, and promote innovative work in the arts created and presented by individuals, groups, and organizations.

Created in 1993, the foundation's Emergency Grants program provides grants of up to \$2,000 to innovative visual and performing artists who have unanticipated, sudden opportunities to present their work to the public when there is insufficient time to seek other sources of funding; or who incur unexpected or unbudgeted expenses for projects close to completion with committed exhibition or performance dates.

To be eligible, applicants must be living, working, and paying taxes in the United States; have committed to a performance or exhibition opportunity and be able to provide specific dates at the time of application; and be an individual artist or an individual representing an artist collective, ensemble, or group. Curators, producers, workshop organizers, organizations, or arts presenters are not eligible to apply.

Deadline: OPEN

Weyerhaeuser Giving Fund

We support the U.S. and Canadian communities where we have a significant presence or business interest. These communities range from rural to metropolitan, each with unique priorities and needs. Our employees serve on local advisory committees for our Giving Fund and develop funding priorities within four focus areas to support their particular communities. This provides a strong companywide framework for giving while allowing flexibility to meet unique needs in our different communities.

Through the Weyerhaeuser Giving Fund we concentrate the majority of our funding in four focus areas:

- Affordable Housing and Shelter
- Education and Youth Development
- Environmental Stewardship
- Human Services, Civic and Cultural Growth

To be eligible for funding, a program must:

- Serve a Weyerhaeuser community
- Be a tax-exempt, nonprofit public charity classified under Section 501(c)(3) of the U.S. Internal Revenue Code OR a registered charity in Canada with a Canada Revenue Agency Number, or registered as a provincial nonprofit society OR a public education institution or government entity qualified under Section 170(c)(1) of the U.S. Internal Revenue Code or qualified as a Canadian municipality.

Wells Fargo Corporate Giving Programs

Wells Fargo supports nonprofit organizations that work on a community level in the areas of human services, arts and culture, community development, civic responsibility, education, environmental consciousness, and volunteerism.

Deadline: Applications accepted on an ongoing basis.

Good Sports Accepting Applications for Sports Equipment Grant

Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization can focus on the respective needs of each program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for two years. During that time, organizations can make up to six separate donation requests — as long as the need is well documented, donations will be granted. There is no need to resubmit a full application again during the two years.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers a consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

Deadline: Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks before the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time.

[Karma for Cara Foundation Invites Applications for Youth Microgrants](#)

The Karma for Cara Foundation is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the Johns Hopkins Kimmel Cancer Center. Cara and her two brothers began volunteering at a young age as part of their family's commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores.

Deadline: OPEN

[VFW Accepting Applications From Veterans for Emergency Financial Assistance](#)

Veterans of Foreign Wars is accepting applications from active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. Since the program's inception, Unmet Needs has distributed more than \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The hardship must be the result of deployment, a military pay issue, or military-related illness or injury. It cannot be due to civil legal or domestic issues, misconduct, or any issues that are a result of spousal separation or divorce, financial mismanagement, or bankruptcy.

Deadline: OPEN

[Start a Snowball Invites Applications for Youth Philanthropy Projects](#)

Start a Snowball, Inc. encourages kids of all ages to engage in philanthropic and community service activities. The organization believes that even one child with the right intentions and support can start a project that seems small in the beginning and eventually grows ("snowballs") into something that inspires and benefits an entire community.

To help kids, kick off their philanthropy efforts, start a Snowball awards \$100 in seed funding for projects taken on by individuals or organizations.

To be eligible, projects must be led by youth between the ages of 5 and 18 and have the intention of doing good.

Start a Snowball does not give directly to collection funds. The organization also does not provide support for fundraisers for sports teams, unless they serve an underserved or disadvantaged group or support projects that are discriminatory or political.

Deadline: Rolling

[Craft Emergency Relief Fund Accepting Applications From Craftspeople in Need](#)

The Craft Emergency Relief Fund is a national nonprofit organization that awards small grants and loans to professional craftspeople experiencing career-threatening illness, accident, fire, theft, or natural disaster.

Financial assistance ranges from \$500 to \$8,000. Other services include referrals to craft suppliers who have agreed to offer discounts on materials and equipment to craftspeople eligible for CERF funds and booth fee waivers from specific craft show producers.

CERF loan recipients are expected to repay the loan in full within five years, enabling CERF to have funds readily available for future craftspeople in need.

Applicants must be a professional artist working in a craft discipline (e.g., a potter, metalsmith, glass artist, woodworker, fiber artist, or furniture maker) who has had a recent career-threatening emergency and a legal resident of the U.S.

Deadline: OPEN

[Pollock-Krasner Foundation Accepting Applications From Artists With Financial Need](#)

The mission of the Pollock-Krasner Foundation is to aid those individuals who have worked as artists over a significant period. The foundation's dual criteria for grants are recognizable artistic merit and financial need, whether professional, personal or both.

Grants are intended for one year, with the size of the grant to be determined by the artist's circumstances and professional exhibition history. Artists applying for a grant must be actively exhibiting their current work in a professional artistic venue such as a gallery or museum space.

The foundation does not accept applications from commercial artists, video artists, performance artists, filmmakers, crafts-makers, computer artists, or any artist whose work primarily falls into these categories.

Deadline: OPEN

[Pollination Project Invites Applications From Social Entrepreneurs for Seed Grants](#)

The Pollination Project is accepting applications from social entrepreneurs looking to make their communities and world a better place. Seed grants of up to \$1,000 will be awarded to projects in the early stages of development, including those that promote compassion toward all life (people, planet, animals), environmental sustainability, justice in all its forms, community health and wellness, and social change-oriented arts and culture. Only applications for seed funding, as opposed to ongoing operational or program costs of a nonprofit organization, will be accepted. To be eligible, applicants must be a passionate, committed individual with a social change vision that fits within one or more of the categories above. Established nonprofit organizations with paid staff will not be considered.

Deadline: OPEN

[Hope for The Warriors Accepting Applications for Critical Care Support for Wounded Veterans](#)

Hope For The Warriors believes those touched by military service can succeed at home by restoring their sense of self, family, and hope. Nationally, the organization provides service members, veterans, and military families with comprehensive support programs focused on transition, health and wellness, peer engagement, and community resources.

Originally designed to meet short-term needs in the days following an injury, the Hope for The Warriors' Critical Care Coordination program has expanded to assist post-9/11 combat-wounded veterans and their families as they navigate through long-term recovery.

Program case coordinators work daily with post-9/11 combat-wounded service members and veterans, their families, and families of the fallen to meet immediate financial needs related to daily living including utilities, groceries, rent, mortgage, and rental deposits. The program provides casework assistance and resource referrals that will help clients immediately and in the future. Payment is always made to a third party.

To be eligible, applicants must be seeking support for needs that are a direct result of a service member's post-9/11 combat-related injury.

Deadline: OPEN

Singing for Change Accepting LOIs for Projects to Address Social and Environmental Problems

Created by Jimmy Buffett in 1995, Singing for Change initially was funded with contributions from the singer's summer concert tour. Since then, SFC has offered competitive grants to progressive nonprofit organizations working to address the root causes of social or environmental problems.

Priority will be given to organizations that keep their overhead low, include community members in planning, and collaborate with other groups to find innovative ways of solving common problems. SFC aims to advance the common good by empowering people to thrive and strengthen and sustain vibrant, diverse communities.

Grants will range in size from \$1,000 to \$10,000. Grants are made only to nonprofit organizations with tax-exempt status under section 501(c)(3) of the Internal Revenue Code, or to organizations that have a sponsoring agency with exempt status.

Deadline: Ongoing

A Little Hope Announces Youth Bereavement Support Services Grants

A Little HOPE supports organizations that provide bereavement support services and grief counseling to children and teens who have experienced the death of a parent, sibling, or loved one.

To be considered, applicants must e-mail (no telephone calls) the name of their program, website address, names of the executive director and program director, and the location of the program. No other information is needed or will be processed. Strong preference will be given to applicants who demonstrate a commitment to the use of community trained volunteers. Grant award amounts are based on the scope and budget of the project.

Deadline: OPEN

Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities

The mission of the Captain Planet Foundation is to promote and support high-quality educational programs that help children and youth understand and appreciate our world through hands-on learning experiences aimed at improving the environment in their schools and communities.

Grants are intended to serve as a means of bringing environment-based education to schools and inspiring youth and communities to participate in community service through environmental stewardship activities. The foundation will fund unique and innovative projects that do not precisely match the grant guidelines but otherwise promote the foundation's mission to advance hands-on environmental activities.

Deadline: January 31 (typically for fall and winter projects), September 30 (typically for spring and summer projects)

Chambers of Commerce Invited to Start Young Entrepreneur Academies

The Young Entrepreneurs Academy today serves thousands of students across America. In 2011, the United States Chamber of Commerce Foundation became a national sponsor and partner of the academy to help celebrate the spirit of enterprise among today's youth and the future leaders of tomorrow.

To that end, YEA, in partnership with Sam's Club and the U.S. Chamber of Commerce Foundation, is accepting applications from chambers of commerce across the country to start Young Entrepreneurs academies of their own. The thirty-week program teaches students in grades 6-12 how to generate business ideas, conduct market research, write business plans, pitch to a panel of investors, and launch their own companies. In 2015, Sam's Club will award startup funds of up to \$2,500 each to thirty chambers of commerce across the country.

Cornell Douglas Foundation Grant

The Cornell Douglas Foundation provides grants to organizations that advocate for environmental health and justice, encourage stewardship of the environment, and further respect for the sustainability of resources. The average grant amount is \$10,000.

Deadline: accepted all year

Public Welfare Foundation

The Public Welfare Foundation has three programs, Criminal Justice, Juvenile Justice, and Workers' Rights, that support efforts to advance justice and opportunity for people in need. The Foundation looks for strategic points where its funds can make a significant difference and improve lives through policy and system reform that results in transformative change.

Criminal Justice Guidelines

The Foundation's Criminal Justice Program supports groups that are working to end the over-incarceration of adults in the United States while also aiming to reduce racial disparities. In particular, the Program makes grants primarily to state-based groups that are working to:

- Reduce state incarceration levels and racial disparities through reforms in sentencing, charging, and supervision policies and procedures.

- Advance the redirection and prioritization of state and local resources toward targeted investments that support system-involved individuals in their communities, through research and strategic thought leadership.

Juvenile Justice Guidelines

The Foundation’s Juvenile Justice Program supports groups working to end the criminalization and reliance on the incarceration of youth in the United States. The Program makes grants to groups that are working to:

- Advance state policies that dramatically restrict juvenile justice systems’ use of incarceration and out-of-home placements and prioritize the use of community-based programs for youth;
- End the practice of trying, sentencing, and incarcerating youth in the adult criminal justice system; and
- Promote the fair treatment of youth of color who come into contact with the juvenile justice system.

Workers’ Rights Guidelines

The Foundation’s Workers’ Rights Program supports policy and system reforms to improve the lives of low-wage working people in the United States, with a focus on securing their basic legal rights to safe, healthy, and fair conditions at work. Specifically, the Program makes grants to groups working to:

- Advance reforms to hold employers accountable for wage theft;
- Advance reforms to prevent severe illness, injury, and death on the job; and
- Advance workers’ rights in complex, fissured employment arrangements through research and strategic thought leadership.

[Ben & Jerry's Foundation Seeks Proposals for Social and Environmental Justice Projects](#)

One-year grants of up to \$20,000 will be awarded to nonprofit grassroots community-organizing groups in the United States working to further social and environmental justice and support sustainable and just-food systems. Grants can be used to support both program and operational costs.

[KaBOOM! Invites Applications for Community Playground Grants](#)

KaBOOM!, a program that provides eligible communities with most of the funds, tools, and resources they need to build a custom-made playground in one day.

Deadline: OPEN

[Binoculars for Young Citizen Scientists](#)

Cornell's BirdSleuth K-12 initiative is awarding binoculars to schools where educators have made outstanding efforts to engage their students in citizen science.

Deadline: OPEN

International Paper Environmental Education Grants

The International Paper (IP) Foundation supports non-profit organizations in communities where its employees live and work. Environmental education is one of the primary areas the Foundation supports. The Foundation seeks programs that help generations understand a sustainable approach to business that balances environmental, social and economic needs.

Lego Children's Fund

The LEGO Children's Fund provides grants primarily in two focus areas: (1) early childhood education and development that is directly related to creativity and (2) technology and communication projects that advance learning opportunities. Typical awards are between \$500 and \$5,000. Interested parties must complete an eligibility quiz, be approved and invited to submit a grant proposal. Each grant will be subject to a specified time frame for completion.

Deadline: Applications accepted four times a year.

Evidence for Action: Investigator-Initiated Research to Build a Culture of Health

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs, and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

Deadline: Open

Pioneering Ideas Brief Proposals

The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted

territory to better understand what new trends, opportunities, and breakthrough ideas can enable everyone in America to live the healthiest life possible.

While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health. Ultimately, we support work that will help us learn what a Culture of Health can look like—and how we can get there.

Deadline: Open

Section IV STATE OF ALABAMA GRANTS

Alabama Power Foundation Grant

The Alabama Power Foundation Grant offers funds to nonprofit organizations in Alabama working in one of the following areas:

- Health
- Human services
- Arts
- Community life
- Education
- Environment

Priority is given to projects that address underserved segments of the population and can be duplicated in other communities.

Alabama Board of Medical Scholarship Awards

The Alabama Board of Medical Scholarship Awards offers forgivable loans to students enrolled in an Alabama medical school who agree to practice primary care in a pre-approved medically, underserved community in Alabama upon graduation.

Loans are repaid at the rate of one year of service per year of the loan.

Deadline: Applications accepted on an ongoing basis.

Economic Development Fund

Land, facilities, and infrastructure to benefit an industry that will create jobs. Create a minimum of 15 permanent jobs to benefit 51% low to moderate-income beneficiaries. Continuous. Applications are taken throughout the year. Maximum request: \$250,000. Minimum Request: \$50,000. Note: Waiver of the match available for applicants with 2010 Census population of 1,000 or less. May also waive the grant ceiling for projects that demonstrate significant long-term economic benefit to the State.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbier.olia@adeca.alabama.gov

Economic Development Incubator projects

Units of local government. Applicants must maintain active registration with SAM. The program must benefit 51% of low to moderate-income beneficiaries. The project must commit to creating jobs. Maximum

request: \$250,000. Match request: 20%. Applications are taken throughout the year. Award upon approval and as funding is available. Application workshop held in April and compliance workshop held in the fall.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbier.olia@adeca.alabama.gov

States' Economic Development Assistance Program (SEDAP)

Applicants: State and local units of governments, public bodies, and non-profit entities. Eligible counties in West Alabama: Bibb, Fayette, Hale, Lamar, Pickens, and Tuscaloosa.

Activities: Water and wastewater facilities, telecommunications, health care, planning activities, leadership development, education and training programs, business development, and entrepreneurship.

Requirements: Project must meet one of ARC's goals: increase job opportunities and per capita income, strengthen the capacity of people to compete in the global economy or develop and improve infrastructure to make the Region economically competitive. Construction projects funded by ARC must have an "Administering Agency" such as ADECA, USDA Rural Development or TVA. The project will be administered by and take on the requirements of that agency

Deadline: Pre-application due date in August. Applicant notified in late fall/winter if a full application is requested. Award announcements typically made in May.

Contact: Alabama Department of Economic and Community, Affairs (ADECA), Jimmy Lester, ARC Program Manager (334) 353-4490, jimmy.lester@adeca.alabama.gov

Alabama Humanities Foundation Grants

Applicants are encouraged to develop projects for a wide variety of audiences including library and museum patrons, teachers and scholars, youth, senior citizens, nursing home residents, hospital patients, the economically disadvantaged, the incarcerated, and the hearing and sight-impaired.

Application submission deadlines:

- Major Grants (\$1,500 and up) – February 15, June 16, September 15
- Minor Grants (\$1,500 or less) – February 15, June 16, September 15

Bank of America Grant

The Bank of America (BoA) offers grants that support high-impact initiatives, organizations and the development of visionary leaders. Schools with farm-to-school type programs may be eligible under the funding areas:

- Developing Career Leadership and Skills: Opportunities that increase civic and community engagement, career exploration and youth employment, financial knowledge and life-skill and soft-skill development
- Assisting with Food Access: Food deserts, green/fresh food access, etc

BoA's Charitable Foundation provides philanthropic support to address needs vital to the health of communities through a focus on preserving neighborhoods, educating the workforce for 21st-century jobs

and addressing critical needs, such as hunger. **Deadline:** Requests for proposals are issued three times per year.

Costco Wholesale Grants

Costco Wholesale grants support programs focusing on children, education and health and human services. They look to achieve the greatest impact where Costco's employees and members live and work. Only 501(c)(3) nonprofit organizations, which meet their giving guidelines and focus areas, are considered.

Deadline: Applications are accepted throughout the year on a rolling basis.

Walmart Foundation National Giving Program Grants

Through its National Giving Program, the Walmart Foundation awards grants of \$250,000 and above to non-profit organizations that operate on a national scope through chapters/affiliates in many states around the country or through programs that operate regionally/locally but seek funding to replicate program activities nationally.

Areas of focus for the Foundation include:

- Hunger Relief & Healthy Eating
- Sustainability
- Women's Economic Empowerment
- Career Opportunity

Deadline: OPEN

William G. McGowan Charitable Fund Issues Request for Proposals for Projects That Address Homelessness

The fund will award grants in support of initiatives that seek to correct circumstances contributing to homelessness, as well as initiatives designed to help eradicate the condition of homelessness in the long term.

Deadline: OPEN

Section V (NEW) FELLOWSHIPS / INTERNSHIPS / SCHOLARSHIPS / FINANCIAL AID / AWARDS

November Scholarships

Alabama Additional Funding Sources

Community Foundations in Alabama

There are 13 community foundations in Alabama, covering 78 percent of the counties in the state and holding assets that total more than \$190 million.

Daniel Foundation

The Daniel Foundation offers grants in four program areas: Civic and Community Improvement, Education, Health, and Arts and Culture. Applications are limited to 501 (c)(3) organizations that are located in Alabama.

Alabama Power Foundation

The Alabama Power Foundation allocates funding in four categories: Improving Education, Strengthening Communities, Promoting Arts and Culture, and Restoring and Enhancing the Environment.

Alabama Humanities Foundation

The AHF awards grants solely to support public humanities projects. Active public participation, the involvement of humanities scholars, and strong humanities content are the three essential components of AHF-funded projects.

Gwyn Turner Endowed Fund

The fund is administered by the National Trust for Historic Preservation, in partnership with Alabama Trust. Nonprofits and governmental agencies can obtain funding for preservation planning, heritage education, workshops, conferences, and special interventions. Grants range from \$1,000 to \$5,000 and require a 1:1 cash match.

Applicants are encouraged to discuss their project with the National Trust Southern Office before applying. Contact the Southern Office at 843.722.8552, or e-mail soro@nthp.org.

Sybil H. Smith Trust

Established in 1983, this trust funds organization in the First Congressional District only. Awards limited to arts, community development, education, and human services. No awards are given for individuals. For more information, call: 251.432.0208.

Alabama State Council on the Arts

Grants awarded to nonprofit organizations and local governments in the following categories: Presenting Grants, Project Assistance, Operating Support, Technical Assistance, Collaborative Ventures, and Program Development.

Historic Chattahoochee Commission

The Historic Chattahoochee Commission (HCC) promotes tourism and historic preservation in the Chattahoochee Trace, an 18-county region in Alabama and Georgia. The HCC supports preservation through two grant programs: Seed Grant and the Threatened Landmarks Program.

Veterans

FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high-quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members, and spouses are connected to high-quality career choices by matching their identified skills with the available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden's Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans, and transitioning Service Members deserve a single, authoritative source for connecting. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at <https://www.ebenefits.va.gov/ebenefits/jobs%20%20>

For a tutorial video on how to use the Veterans Employment Center, please visit:
