

Guide to Grants

From the Office of Congresswoman Terri A. Sewell

Proudly Representing Alabama's 7th Congressional District

September 1, 2021

Welcome to the *Guide to Grants!*

I am honored to represent the 7th Congressional District of Alabama. As your representative during this unprecedented crisis of the **COVID-19 Pandemic**, it remains my top priority to provide you with the resources we need to keep our community safe and thriving. I will work diligently to provide you with the most current information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our health and safety. This guide will identify federal, corporate, and foundation grant opportunities to assist you in goals for our communities. This guide will include links to federal agencies and resources to help you make your proposals more successful. This guide will also describe new funding opportunities for economic development, infrastructure, healthcare, and educational projects. Also, I am pleased to provide a Letter of Support for grant application projects in the 7th Congressional District of Alabama. Stay up to date with the latest information at <http://sewell.house.gov> Please continue to let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit our website at <http://sewell.house.gov>. To subscribe to *Guide to Grants*, sign up on our [website](#) or call us at 205.254.1960. Previous editions of the *Guide to Grants* are archived and can be found [here](#).

CONGRESSWOMAN TERRI A. SEWELL – REPRESENTING ALABAMA'S 7TH DISTRICT

Washington D.C. Office | 2201 Rayburn House Office Building | Washington, D.C. 20515

<https://Sewell.House.Gov> | Phone: (202) 225-2665 | Fax (202) 226-9567

Rep. Sewell Praises Passage of H.R. 4, the John R. Lewis Voting Rights Advancement Act

U.S. Rep. Terri Sewell (AL-07) praised the House passage of H.R. 4, the John R. Lewis Voting Rights Advancement Act, which she introduced last week. This critical legislation would restore the full protections of the Voting Rights Act of 1965 and keep the promise of our democracy for all Americans. Amid the most coordinated state-level effort to restrict the right to vote in generations, H.R. 4 would prevent states and localities with a recent history of voter discrimination from restricting the right to vote by requiring these jurisdictions to obtain federal preclearance before changing their voting laws. Supported by every House Democrat, H.R. 4 passed in the House of Representatives today by a vote of 219-212.

“Today, the House took an important step in our continued struggle to keep the promise of our democracy alive for all Americans,” said Rep. Sewell. “With the passage of the John R. Lewis Voting Rights Advancement Act today, we’re preserving and advancing the legacy of those brave Foot Soldiers like John Lewis who shed blood on that bridge for the right of all Americans to vote.”

“The passage of H.R. 4 couldn’t come at a more critical time,” continued Sewell. “As states and localities erect deliberate barriers to the ballot box at an unprecedented pace, the need for federal oversight has never been more urgent. The Senate must now use every tool at its disposal to pass this bill and ensure it lands on President Biden’s desk. There is absolutely no time to waste.”

For decades, the Voting Rights Act of 1965 (VRA) prevented states and localities from restricting the right to vote. However, in its disastrous *Shelby County v. Holder* decision in 2013, the Supreme Court gutted the law, invalidating Section 4 and striking down the formula used to determine which jurisdictions are subject to federal oversight. In July 2021, the Court further weakened the law in its decision in *Brnovich v. DNC*, making it more difficult to challenge discriminatory voting laws under Section 2.

Since 2013, there has been a steady increase in the number of restrictive voting laws that disproportionately suppress turnout among minorities, young adults, and the elderly. This accelerated in 2021 with the Big Lie of a “stolen election.” Just this year, 18 states have enacted at least 30 laws to restrict access to the vote.

Named for the late Congressman and civil rights icon John Robert Lewis, H.R. 4 restores Section 4 of the VRA by establishing a modern-day formula that requires states and localities with a recent history of voter discrimination to seek approval from the U.S. Department of Justice before making changes to their voting laws.

For areas to qualify for judicial pre-clearance, they must have the following qualifications:

States with a history of 15 or more violations at any level in the previous 25 years

States with a history of 10 or more violations, if one violation occurs at the state level in the previous 25 years

Subdivisions with 3 or more violations in the subdivision in the previous 25 years

H.R. 4 also restores Section 2 of the VRA by clarifying congressional intent and eliminating the heightened standard created by the Supreme Court in *Brnovich v. DNC* that makes it more difficult to challenge discriminatory voting laws.

The John R. Lewis Voting Rights Advancement Act also:

Allows federal courts to immediately halt questionable voting practices until a final ruling is made. This provision recognizes that when voting rights are at stake, prohibiting a discriminatory practice after the election has concluded is too late to truly protect voters' rights.

Gives the Attorney General authority to request that federal observers be present anywhere in the country where discriminatory voting practices pose a serious threat.

Increases transparency by requiring reasonable public notice for voting changes.

Includes a retrogression standard for already-enacted but not-yet-implemented measures.

Help plaintiffs to seek injunctive relief for voting rights violations in the lead-up to an election.

Establishes a grant program for small jurisdictions to help them comply with the bill's various notice requirements.

Rep. Sewell Introduces Bipartisan Legislation to Preserve Patient Access to Home Infusion Services

U.S. Rep. Terri Sewell (AL-07) joined Reps. Fred Upton (R-MI), Debbie Dingell (D-MI), and Vern Buchanan (R-FL) in introducing H.R. 5067, the Preserving Patient Access to Home Infusion Act. This bipartisan bill would ensure patients with serious viral and fungal infections, heart failure, immune diseases, cancer, and other conditions receive the intravenous (IV) medications they need while at home.

“Countless Alabamians, especially those in rural communities, rely on home infusion services for life-saving care,” said Rep. Sewell. “With the risks posed by the COVID-19 pandemic, it has never been more critical to ensure that patients continue to receive this care safely in their homes. I’m so proud to introduce this bipartisan bill and urge my colleagues on both sides of the aisle to give it their full support.”

“While the COVID-19 pandemic certainly took so much from so many, it also gave us the opportunity to rethink the way that we care for the most vulnerable among us,” said Rep. Upton, lead Republican co-sponsor. “Home infusion, in particular, is a perfect example of how we can bring healthcare services into folks’ homes while keeping both patients, their families, and medical professionals safe and healthy. I am proud to cosponsor this important legislation and will continue to work with my colleagues on both sides of the aisle to expand access to quality, affordable healthcare.”

“The COVID-19 pandemic has highlighted the importance of access to quality, affordable health care – especially in home health care,” said Rep. Dingell, lead Democratic co-sponsor. “The legislation’s commonsense reforms will expand access to home infusion services for Medicare beneficiaries, saving the Medicare program millions of dollars, cutting patient costs, and ensuring people receive safe and adequate care in the comfort of their own home. I look forward to working with my colleagues to move this bipartisan legislation forward so we can effectively care for people and save money by doing so in a home setting.”

“As we have learned from the coronavirus pandemic, home health services have proven to be invaluable for seniors in my district and across the country,” said Rep. Buchanan, lead Republican co-sponsor. “The aptly-named Preserving Patient Access to Home Infusion Act will ensure that Medicare recipients are able to continue to receive life-saving drugs in a safe and effective way from the comfort of their own home.”

Background

Patients with serious infections, cancer, heart failure, immune system diseases, and other conditions who need medications such as IV therapies, can receive these medications in their home rather than institutional settings like hospitals or nursing homes. When given the option, patients would overwhelmingly prefer to receive their infused drugs at home where they are most comfortable and can resume their personal and professional lives. In fact, research shows that up to 95% of patients would prefer receiving their infusions at home.

Congress included provisions in the 21st Century Cures Act and the Bipartisan Budget Act of 2018 to create a professional services benefit for Medicare Part B home infusion drugs. The purpose of this benefit was to maintain patient access to home infusion by covering professional services including assessments, education on administration and access device care, monitoring and remote monitoring, coordination with the patient, caregivers and other health care providers, and nursing visits.

Despite Congress' intent—as detailed in multiple letters to the agency—the Centers for Medicare and Medicaid Services (CMS) improperly implemented the benefit by requiring a nurse to be physically present in the patient's home in order for providers to be reimbursed. As a practical matter, the current home infusion therapy benefit only acknowledges face-to-face visits from a nurse and fails to account for the extensive clinical and administrative services that are provided remotely by home infusion clinicians. As a result, provider participation in Medicare's home infusion benefit has dropped sharply and beneficiaries have experienced reduced access to home infusion over the last several years.

The Preserving Patient Access to Home Infusion Act provides technical clarifications that will remove the physical presence requirement, ensuring payment regardless of whether a health care professional is present in the patient's home. The legislation also acknowledges the full scope of professional services provided in home infusion—including essential pharmacist services—into the reimbursement structure.

The Congressional Budget Office (CBO) has consistently concluded that enhanced patient access to home infusion will create savings for the Medicare program. An analysis from The Moran Company estimates that the bill would save \$93 million over 10 years. Cost savings generated through site of care optimization are passed on to the patient in the form of lower copays and reduced out-of-pocket costs. This is especially important in Medicare Part B, where patients pay 20% coinsurance.

“Home-based infusion services stand out as high-value resources that improve patient quality of life and add capacity to the health care system while providing cost-savings for the Medicare program,” said NHIA President and CEO Connie Sullivan, BSPHarm. “Passage of the Preserving Patient Access to Home Infusion Act is critical to ensuring the Medicare program maintains access to home infusion, allowing beneficiaries to safely receive treatment in the setting they overwhelmingly prefer: their homes.”

“Providing IV medications in patients' homes allows individuals to receive their treatments without major sacrifices in their quality of life and without having to rely on transportation to travel to a facility for their treatments,” said Logan Davis, PharmD, MBA of Vital Care Infusion Services. “This legislation will ensure that the Medicare home infusion therapy benefit is accessible to patients, including many who are located in Alabama's rural or historically underserved communities.”

Companion legislation was introduced in the U.S. Senate by Sens. Mark Warner (D-VA) and Tim Scott (R-SC).

Rep. Sewell Introduces H.R. 4, the John R. Lewis Voting Rights Advancement Act, to Restore Protections of the Voting Rights Act of 1965

U.S. Rep. Terri Sewell (AL-07) introduced H.R. 4, the John R. Lewis Voting Rights Advancement Act. This critical legislation would restore key protections of the Voting Rights Act of 1965 (VRA) which were gutted by the Supreme Court in the 2013 *Shelby County v. Holder* decision and more recently in the 2021 *Brnovich v. DNC* decision. The bill aims to protect voters from discrimination by restoring and strengthening the protections of the VRA. The introduction of H.R. 4 comes amid the most coordinated state-level effort to restrict the right to vote in generations and follows a months-long investigation by the House Committee on Administration and House Committee on the Judiciary into the status of voting rights in America. The bill enjoys support from over 190 original co-sponsors including all members of House Democratic leadership. The House is expected to vote on H.R. 4 next week.

“The right to vote is the most sacred and fundamental right we enjoy as American citizens and one that the Foot Soldiers fought, bled, and died for in my hometown of Selma, Alabama,” said Rep. Sewell. “Today, old battles have become new again as we face the most pernicious assault on the right to vote in generations. It’s clear: federal oversight is urgently needed. With the John R. Lewis Voting Rights Advancement Act, we’re standing up and fighting back. By preventing states with a recent history of voter discrimination from restricting the right to vote, this bill restores the full promise of our democracy and advances the legacy of those brave Foot Soldiers like John Lewis who dedicated their lives for the sacred right to vote. I’m proud to be introducing this bill today and look forward to its swift passage. Our democracy is at stake.”

For decades, the Voting Rights Act of 1965 (VRA) ensured equal access to the ballot box for Black and minority voters by requiring states and localities with a history of voter discrimination—as determined in Section 4—to obtain pre-clearance from the Department of Justice before making changes to their voting laws. However, in its infamous 2013 decision in *Shelby County v. Holder*, the Supreme Court’s conservative majority struck down Section 4, arguing that voter discrimination was an issue of the past and that the formula used to determine which states and localities were subject to preclearance was outdated.

On July 1, 2021, in its decision in *Brnovich v. DNC*, the Supreme Court struck another devastating blow to the VRA, upholding Arizona’s voting laws targeting Latino and other minority voters and making it more difficult for parties to challenge racially discriminatory voting laws under Section 2.

Beginning in April, the House Committee on Administration Subcommittee on Elections held a series of investigatory hearings and collected numerous reports and documents regarding the status of voting rights in America. The hearings culminated in a report which the Committee released on Friday, August 6, detailing modern-day efforts to restrict the right to vote. Meanwhile, the House Committee on the Judiciary also held hearings on the need to protect the right to vote.

Informed by these findings, the John R. Lewis Voting Rights Advancement Act would restore protections of the VRA gutted by the Supreme Court. It would once again prohibit states and localities with a recent history of voter discrimination from restricting the right to vote by including an updated formula for determining which states and localities are subject to federal oversight. It would also amend Section 2 of the VRA to eliminate the heightened standard for challenging voter discrimination that the Supreme Court created in its decision in *Brnovich v. DNC*.

The introduction of H.R. 4 comes amid the most coordinated state-level effort to restrict the right to vote in generations. Driven by the Big Lie, 18 states have enacted at least 30 new restrictive, anti-voter laws just this year.

A previous version of H.R. 4 passed in the House of Representatives during the 116th Congress by a vote of 228-187, but stalled in the Republican-controlled Senate. Last year, the bill was renamed the John R. Lewis Voting Rights Advancement Act to honor the legacy of civil rights icon and former Congressman John Robert Lewis who passed away on July 17, 2020.

“The House today is taking a momentous step to secure the sacred right to vote for generations to come,” said House Speaker Nancy Pelosi. “With the John R. Lewis Voting Rights Advancement Act, proudly introduced today by Congresswoman Terri Sewell alongside Judiciary Committee Chairman Jerry Nadler, Democrats are fighting back against an anti-democratic tide, protecting access to the ballot box for every American and carrying on the cause to which our beloved John Lewis devoted his entire life. When the House returns on August 23rd, Democrats plan to pass H.R. 4 – and we hope it can secure the bipartisan support this vital legislation deserves.”

“I am honored to join Rep. Terri Sewell and colleagues in introducing a long-standing priority for House Democrats and a vital tool for the long-term strength of our democracy: the John Lewis Voting Rights

Advancement Act,” said House Majority Leader Steny Hoyer. “Across the country, we continue to bear witness to GOP attacks on voting rights with restrictive laws and voter-ID rules to prevent people of color, students, and others from having their voices heard at the ballot box. H.R. 4 takes the necessary steps to respond to the flawed Supreme Court challenges to the 1965 Voting Rights Act, and ensures federal standards to stop these dangerous laws in their tracks. House Democrats will not falter in the fight for the right to vote, and we remain committed to ensuring our democracy can prosper and continue to deliver for the people.”

“Enabled by Supreme Court decisions weakening the 1965 Voting Rights Act, state legislatures across the country are attempting to make it more difficult to vote and easier to overturn election results. These undemocratic measures disproportionately impact communities of color,” said House Majority Whip James E. Clyburn. “That is why I am proud to join with my colleagues Congresswoman Terri Sewell and Judiciary Committee Chairman Jerry Nadler to introduce the John R. Lewis Voting Rights Advancement Act. This critical bill will ensure that voting remains a fundamental right of every American citizen and a touchstone of the greatest democracy the world have ever known. Nothing else will matter if we lose the right to vote. H.R. 4 will help prevent that from happening.”

“With dozens of states actively seeking to make it harder for millions of Americans to vote, there has never been a more important time to strengthen the Voting Rights Act of 1965, one of the most sacred texts of our nation’s civic religion,” said House Judiciary Committee Chairman Jerrold Nadler. “The John R. Lewis Voting Rights Advancement Act of 2021 will not only restore critically important parts of the Voting Rights Act that were dangerously weakened by the Supreme Court, it modernizes the VRA to further protect our citizens’ right to vote from the cynical attacks of governors and state legislators. This legislation is the product of countless hours of hearings in the House Judiciary Committee as well as our colleagues on the House Committee on Administration that documented in exhaustive detail the myriad ways that the right to vote remains under threat for too many Americans. Congress now has the opportunity to make it harder for states seeking to limit voting rights and protect access to the ballot for all Americans. I thank Congresswoman Sewell and the dozens of other members who have worked tirelessly to make the John Lewis Voting Rights Advancement Act a reality.”

“The right to vote is the most fundamental right in our democracy, and it must be protected,” said Congressman Steve Cohen, Chairman of the Judiciary Subcommittee on the Constitution, Civil Rights and Civil Liberties. “When jurisdictions enact laws that discriminate against minority voters, we know why. H.R. 4 would restore the power of the Voting Rights Act to ensure that every American -- regardless of race, color, or language-minority status -- can cast a meaningful ballot. This bill would update the pre-clearance coverage formula in Section 5, clarify the standards for Section 2, and strengthen the Voting Rights Act in numerous other ways. When more eligible citizens can participate in our elections, our democracy is more representative of and responsive to the people.”

“Today’s introduction of H.R. 4 is an important step forward in fighting for voting rights for all Americans. The Supreme Court’s 2013 Shelby County decision took the heart of the Voting Rights Act of 1965,” said House Administration Committee Chairperson Zoe Lofgren. “It opened the floodgates to new voter laws across many states that will make it harder to vote. My Subcommittee on Elections colleagues, led by Chairman G. K. Butterfield, recently released the report on their substantial hearings on voting in America. H.R. 4 is needed to restore the full strength and protections of the Voting Rights Act and, working alongside H.R. 1, the promise of our democracy.”

“H.R. 4 upholds the legacy of our dear friend Congressman John Lewis and continues his work and the work of generations of Americans like him who fought and sacrificed to ensure equal access to the ballot,” said Congressman G. K. Butterfield, Chairman of the Subcommittee on Elections of the Committee on House Administration. “On the recent 56th anniversary of the enactment of the Voting Rights Act of 1965, the Subcommittee on Elections of the Committee on House Administration released an evidence-based report detailing the ongoing and escalating wave of suppressive voting laws in many states across the country. The report made unequivocally clear that discrimination in voting has intensified since the Supreme Court’s decision in Shelby County and that voters of color face disproportionate barriers to vote in America. Today’s introduction of H.R. 4 honors our obligation to democracy – and to those who have been denied a voice in it – by seeking to restore the full protections of the Voting Rights Act.”

“Access to the ballot box is under unprecedented threat, 56 years after enactment of the Voting Rights Act,” said Congressional Black Caucus Chairwoman Joyce Beatty. “Since last November, we have seen numerous statewide voter suppression laws spring up across America, threatening to silence the most vulnerable and underrepresented communities. As Chair of the Congressional Black Caucus, I’m proud to join my colleagues in introducing H.R. 4, the John R. Lewis Voting Rights Advancement Act of 2021. The right to vote is the very foundation of our democracy. Generations of brave, patriotic Americans have fought, marched, and shed blood to safeguard and expand that right. In introducing this legislation, House Democrats are honoring our promises ‘for the people’ to safeguard the right to vote for generations to come.”

“Every American should be able to exercise their fundamental right to vote, and it is critical that we protect this sacred right. It is alarming that multiple states have been ramping up efforts to pass restrictive laws that would undermine voting rights and actively create barriers that would keep many Americans, especially minority communities, from the voting booth,” said Congressional Hispanic Caucus Chairman Dr. Raul Ruiz. “I’m proud to support the John R. Lewis Voting Rights Advancement Act of 2021 (H.R. 4), which would prevent voter suppression, safeguard the integrity of our democratic process, and ensure all Americans have a voice in our democracy, regardless of where they live.”

“In the 2020 elections, Asian American and Pacific Islander voter turnout increased from less than 2.8 million in 2016 to around 4 million,” said Chairwoman of the Congressional Asian Pacific American

Caucus Judy Chu. “This surge in AAPI turnout was significant enough to be the margin of difference in a number of swing states, but it was only possible thanks to support for alternatives to in-person voting. In fact, in 2020, AAPI early and absentee voting increased by 300% in the 13 most contested presidential battleground states. That is why voter suppression laws meant to make it harder to vote are such a threat to AAPIs and all communities of color. At a time when census data prove that our communities are growing, voter suppression laws are increasingly being used to ensure we stay marginalized and silenced. And all of these attacks were made possible by the Supreme Court’s decision to gut Section 5 of the landmark Voting Rights Act. But with HR 4, we can ensure that our government has the tools needed to protect all voters from disenfranchisement. We know that the increase in restrictions on who can vote are directly related to an increase in voting from communities of color. But we will not allow another Jim Crow era. That is why we need to pass HR 4 immediately.”

“No matter our race, background, or zip code, we all value the freedom to vote and believe that all Americans should have a say in key decisions that impact our lives,” said Wade Henderson, Interim President and CEO of The Leadership Conference on Civil and Human Rights. “Yet, with more than 400 state bills attempting to erect barriers to the ballot box for millions of Americans and a Supreme Court decision making it more difficult for voters to challenge discriminatory laws in the future, the promise of democracy is at risk. We absolutely must come together to pass the John Lewis Voting Rights Advancement Act and restore the federal government’s ability to block state and local governments from passing racially discriminatory bills.

“For decades the Voting Rights Act stood as a singularly effective bulwark against the threat of voting discrimination,” said Wendy R. Weiser, Vice President, Democracy, Brennan Center for Justice at NYU Law. “At a moment when states across the country are passing laws that make it harder to vote — many of them targeted at voters of color — the need for a robust, revitalized VRA could not be starker. By restoring the law’s core protections, The John Lewis Voting Rights Advancement Act would safeguard the right of every citizen to participate in our democracy on an equal footing.”

“Since the Supreme Court’s 2013 *Shelby County v. Holder* decision, we have seen a wave of changes to voting policies in states across the country that have had a discriminatory impact on Black voters and other voters of color,” said Lisa Cylar Barrett, Director of Policy NAACP Legal Defense and Educational Fund, Inc. “This year alone, we have seen the Court weaken Section 2 of the Voting Rights Act and 30 voter suppression bills enacted in 18 states, with hundreds more still under consideration. This crisis needs federal action. We commend the U.S. House of Representatives for introducing H.R. 4, the John Lewis Voting Rights Advancement Act, as a first step in addressing the challenges voters face today. The preclearance provision in the bill essential to slow the spread of voter suppression legislation that denies access to the ballot box for racial, ethnic, or language minorities. We encourage members of the House to swiftly pass H.R. 4.”

“Through our collaborative, intersectional work with community partners around the Deep South, the SPLC has witnessed first-hand continued efforts to suppress the vote and undermine the democratic process particularly for communities of color since the *Shelby County v. Holder* decision in 2013,” said Margaret Huang, President and CEO of the Southern Poverty Law Center and SPLC Action Fund. “For generations after 1965, legislators of both parties and Americans across all ideologies have supported the Voting Rights Act because they understand that for our democracy to be healthy, every voter in the country must have safe, easy, and equitable access to their fundamental right to vote. Facing Supreme Court decisions that have significantly weakened the landmark law, and a proliferation of state anti-voter laws – primarily in the South – Congress must act to restore the Voting Rights Act to its full vigor and promise. With the John Lewis Voting Rights Advancement Act in place, the federal government will again act as a barrier to prevent racially discriminatory voting changes before they can harm voters in jurisdictions with records of present discrimination in voting – like Alabama, Georgia, Florida, Louisiana, and Mississippi – and finally build a democracy that works for us all no matter where we live. Congress should utilize every legislative tool in its capacity to get this done; democracy is too important to be subject to a minority veto.”

GRANT ALERT!

Congressional Black Caucus Foundation Scholarships/Internships

For more than three decades the CBCF has awarded scholarships to talented and deserving students. Each year, we award more than 300 scholarships to students that demonstrate leadership ability through exemplary community service and academic talent. Scholarship programs support current or upcoming college students across a variety of disciplines.

CBCF's internship programs prepare college students and young professionals to become principled leaders, skilled policy analysts, and informed advocates by exposing them to the processes that develop national policies and implement them – from Capitol Hill to federal field offices.

COVID-19 Economic Injury Disaster Loan

This loan provides economic relief to small businesses and nonprofit organizations that are currently experiencing a temporary loss of revenue. In response to COVID-19, small business owners, including agricultural businesses, and nonprofit organizations in all U.S. states, Washington D.C., and territories can apply for the COVID-19 Economic Injury Disaster Loan (EIDL). Section I GENERAL GRANT INFORMATION

- Grants and Federal Domestic Assistance - Guidance and key resources to help eligible constituents find information on federal grants, loans, and nonfinancial assistance for projects, as well as on private funding. Prepared by the Congressional Research Service for Members of Congress, updated May 2014. Website: <http://sewell.house.gov/grant-information/>
- A federal grant is an award of financial assistance from a federal agency to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States. Federal grants are not federal assistance or loans to individuals. A federal grant may not be used to acquire property or services for the federal government's direct benefit. The 26 federal agencies offer over 1,000 grant programs annually in various categories. Website: <http://www07.grants.gov/aboutgrants/grants.jsp>
- To learn about Federal grant opportunities, register your organization, and receive notices, please visit www.grants.gov. It is the resource for all Federal grants.
- To apply for Federal Grants: http://www.grants.gov/applicants/apply_for_grants.jsp
- [Grants.gov](http://www.grants.gov) Applicant Training Video - Need a quick lesson on how to Register, Find, and Apply? Watch this short video to get tips on registering with Grants.gov; finding grant opportunities; understanding your search results; and, applying for opportunities.
- To learn about foundation grant opportunities, please visit <http://foundationcenter.org/>. The Foundation Center is a gateway to information about private funding sources and provides guidelines about how to write a grant proposal. It also provides links to state libraries with grants reference collections and links to other useful Internet websites.

Department of Health and Human Services

SARS-CoV-2 (COVID-19) Program Activities CFDA 93.990

The Office of the Assistant Secretary for Health (OASH) has established the Laboratory and Diagnostics Working Group (LDWG) seeking submissions to a Broad Agency Announcement (BAA) “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” (Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139)). OASH/LDWG seeks proposals for projects that will further enable the coordination and development of testing and associated products that meet the current and future needs, and the effective transition of technology into broad use without impediments. The primary areas of focus should specifically include (1) Scaling and Networking of Technologies, and (2) Testing Demonstrations & Technical Assistance. Specifically, OASH is interested in submissions that will substantially increase our testing capacity and quality in the near term, and do not fall within the scope of other HHS programs.

When posted, the funding opportunity announcement (FOA) will provide guidance for applicants on the submission of short white papers, which after review, may be followed by full proposal submissions for consideration for funding. Applicants will have the option of forgoing the white paper submission for direct submission of a full proposals. Applications will be accepted and reviewed on a rolling basis to address immediate public needs. Applicants must submit white papers and applications through Grants.gov according to the instructions in the FOA. Applicants must have an active SAM registration at the time of submission and maintain an active registration throughout the review process and during any award that may result.

BACKGROUND: On January 31, 2020, HHS Secretary Alex M. Azar II declared a public health emergency in response to the 2019 novel coronavirus, now known as SARS-CoV-2, or COVID-19. Testing is vital to prevent and contain outbreaks that may occur as economic and social activities expand across the country. Accordingly, the Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139) provides funding to HHS to “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” As part of the response to this requirement, and in order to administer agency actions to mitigate the pandemic, the Office of the Assistant Secretary for Health (OASH) Laboratory and Diagnostics Working Group (LDWG) complements existing efforts within the Department. To meet current and future challenges with the least possible risk, the nation needs more testing - with increasingly diverse, accurate, and affordable platforms – that are tailored to specific use cases.

Deadline: TBD

[Announcement to Support Novel, High-Impact Studies Evaluating Health System and Healthcare Professional Responsiveness to COVID-19 \(CFDA 93.226\)](#)

The health systems research community should prepare to submit applications to AHRQ to fund critical research focused on evaluating topics such as innovations and challenges encountered in the rapid expansion of telemedicine in response to COVID-19, effects on quality, safety, and value of health system response to COVID-19, and the role of primary care practices and professionals during the COVID-19 epidemic. AHRQ is particularly interested in understanding how digital health innovations contributed to health system and healthcare professional innovation and challenges and solutions to meeting the needs of vulnerable populations including older adults, people living with multiple chronic conditions, rural communities, and uninsured and underinsured populations.

Corporation for National and Community Service

Americorps NCCC Traditional

If you are interested in applying to sponsor an NCCC team, please complete a Project Concept Form. Follow the guidance provided in the Project Concept Form and Applications Instructions document to fill out and complete the Project Concept Form and submit it to your Regional Office with a digital signature.

Deadline: December 31, 2021

Americorp NCCC Traditional Disaster Response

If you are interested in applying to sponsor an AmeriCorps NCCC team in order to participate in a response to a recent disaster, please complete the Project Application for Disaster Response. No Project Concept Form is required. Follow the guidance provided in the Project Application for Disaster Response Instructions document to fill out and complete the Project Application for Disaster Response. Submit this completed application to your Regional Office, with a digital signature, for consideration.

Deadline: December 31, 2021

Americorps NCCC FEMA Corps

The FEMA Corps Section Office is located at FEMA Headquarters in Washington, DC. If you are a representative of an office within the Federal Emergency Management Agency (FEMA) interested in hosting an AmeriCorps FEMA Corps team to support capacity building efforts, please contact the FEMA Corps Section directly to submit a service project application.

Deadline: December 31, 2021

Environmental Protection Agency

[19TH ANNUAL P3 AWARDS: A NATIONAL STUDENT DESIGN COMPETITION FOCUSING ON PEOPLE, PROSPERITY AND THE PLANET CFDA 66.516](#)

The U.S. Environmental Protection Agency (EPA), as part of its People, Prosperity and the Planet (P3) Award Program – is seeking applications proposing to research, develop, design, and demonstrate solutions to real world challenges. The P3 competition highlights the use of scientific principles in creating innovative technology-based projects that achieve the mutual goals of improved quality of life, economic prosperity and environmental protection. The EPA offers the P3 competition in response to the environmental and public health challenges in the United States, including those in small, rural, tribal and/or underserved communities. Proposed projects must embody the P3 approach, which is that they have the intention and capability to simultaneously improve the quality of people’s lives, provide economic benefits and protect the environment.

Funding Opportunity Numbers (FONs) and Associated Research Areas:

EPA-G2022-P3-Q1 – Air Quality

Institute of Museum and Library Services

[National Leadership Grants for Libraries \(2022\) CFDA 45.312](#)

The National Leadership Grants for Libraries Program (NLG-L) supports projects that address critical needs of the library and archives fields and have the potential to advance practice in these professions to strengthen library and archival services for the American public. Successful proposals will generate results such as new models, new tools, research findings, services, practices, and/or alliances that can be widely used, adapted, scaled, or replicated to extend and leverage the benefits of federal investment.

The application process for the NLG-L program consists of two phases. For Phase I, all applicants must submit preliminary proposals by the deadline listed for this Notice of Funding Opportunity. For Phase II, selected applicants will be invited to submit full proposals. Only Invited Full Proposals will be considered for funding. Invited Full Proposals will be due March 25, 2022.

Deadline: September 24, 2021

[Laura Bush 21st Century Librarian Program \(2022\) CFDA 45.313](#)

The Laura Bush 21st Century Librarian Program (LB21) supports the development of a diverse workforce of librarians and archivists in order to meet the information needs of their communities by enhancing the training and professional development of library and archives professionals; developing faculty and information leaders; and recruiting, educating, and retaining the next generation of library and archives professionals.

The application process for the LB21 program has two phases. For Phase I, all applicants must submit preliminary proposals by the deadline listed for this Notice of Funding Opportunity. For Phase II, selected applicants will be invited to submit full proposals. Only Invited Full Proposals will be considered for funding. Invited Full Proposals will be due March 25, 2022.

Deadline: September 24, 2021

National Aeronautics and Space Administration

[Technology Advancement Utilizing Suborbital Flight Opportunities "Tech Flights" CFDA 43.012](#)

The National Aeronautics and Space Administration (NASA) Headquarters released a solicitation, titled Technology Advancement Utilizing Suborbital Flight Opportunities "Tech Flights", as an Appendix to the Space Technology Mission Directorate (STMD) umbrella NASA Research Announcement (NRA) titled "Space Technology Research, Development, Demonstration, and Infusion 2021 (SpaceTech-REDDI-

2021), on July 1, 2021. The solicitation is available by opening the NSPIRES homepage at <http://nspires.nasaprs.com/>, selecting "Solicitations," then selecting "Open Solicitations," and, finally, selecting "Technology Advancement Utilizing Suborbital Flight Opportunities "Tech Flights"."

STMD's Flight Opportunities program rapidly demonstrates promising technologies for space exploration, discovery, and the expansion of space commerce through suborbital testing with industry flight providers. The program matures capabilities needed for NASA missions and commercial applications while strategically investing in the growth of the U.S. commercial spaceflight industry. All U.S. private entities (for-profit & non-profit), Federally Funded Research & Development Centers (except NASA Jet Propulsion Laboratory (JPL)), and U.S. universities may propose under this Appendix. JPL and other government agencies such as the Federal Aviation Administration (FAA) and DoD are not eligible to be the lead proposer for this solicitation and may contact the Flight Opportunities program for more information on how to participate. Proposing U.S. entities may include a participating foreign entity but shall not transfer any awarded funds to their foreign partner. NASA will not consider proposals that do not include a domestic entity as the lead proposer. Any foreign entity prohibited from participation by the eligibility information in the NRA or by U.S. law is prohibited from proposing to this Appendix. International Traffic in Arms Regulations (ITAR) and Export Administration Regulations (EAR) may apply to foreign partners.

This Appendix is applicable to external, non-NASA Principal Investigators. Employees of NASA, JPL, other government agencies, and their contractors may, however, participate as Co-Investigators and/or Collaborator.

See Appendix Section 3.0 for complete eligibility restrictions. Awards to this Appendix will be accomplished via grants and/or cooperative agreements. See Appendix for cost share requirements.

The financial and programmatic support for the Flight Opportunities program comes from the STMD. Awards are planned to start in February 2022. NASA plans to make approximately 7-10 awards as a result of this Flight Opportunities solicitation, subject to the receipt of meritorious proposals and the availability of funds. The actual number of awards will depend on the quality of the proposals received; NASA reserves the right to make no awards under this solicitation.

All proposals must be submitted electronically through NSPIRES by an Authorized Organizational Representative (AOR). A Mandatory Preliminary Proposal is due July 21, 2021 at 5:00 pm ET with Full Proposals due on or before October 4, 2021. Note that the submission of a Mandatory Preliminary Proposal is a prerequisite to be invited to submit a Full Proposal. Detailed submission instructions are provided in the solicitation. Potential proposers and their proposing organizations are urged to familiarize themselves with the submission system(s), ensure they are registered in NSPIRES, and submit the required abstract and proposal materials well in advance of the deadlines.

Technical and programmatic comments and questions may be addressed by email to the Flight Opportunities Program Executive, Christopher Baker at HQ-STMD-FO@nasaprs.com. Responses to inquiries will be answered by email and may also be included in the Frequently Asked Questions (FAQ) documents located on the NSPIRES page associated with the solicitation. Anonymity of persons/institutions who submit questions will be preserved.

Deadline: October 04, 2021

National Archives and Records Administration

[Access to Historical Records: Archival Projects CFDA 89.003](#)

The NHPRC seeks projects that will significantly improve online public discovery and use of historical records collections. The Commission encourages projects centered on collections of America's early legal records, such as the records of colonial, territorial, county, and early statehood and tribal proceedings that document the evolution of the nation's legal history. Additionally, the Commission is especially interested in projects to commemorate the 250th anniversary of the Declaration of Independence. We encourage applications that use collections to examine the ideals behind the founding of the United States and the continual interpretation and debate over those ideals over the past 250 years. We welcome projects that engage the public, expand civic education, and promote understanding of the nation's history, democracy, and culture from the founding era to the present day. Projects, to preserve and process historical records, may:

- Convert existing description for online access
- Create new online finding aids to collections
- Digitize historical records collections and make them freely available online

All types of historical records are eligible, including documents, photographs, born-digital records, and analog audio and moving images. The successful application will demonstrate the value of the contents of the collections; will outline a project that addresses best practices for the work, and that is appropriately staffed; will propose a budget that accomplishes the project in a cost-effective manner; and, will outline activities that bring researchers to the collections included in the project as well as the rest of the repository's holdings. For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund". Award Information A grant is for one to two years and for up to \$150,000. The Commission expects to make up to 10 grants in this category for a total of up to \$1,000,000. The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publicity, publications, and other products that result from its support. Eligible applicants:

- Nonprofit organizations or institutions
- Colleges, universities, and other academic institutions
- State or local government agencies
- Federally-recognized or -acknowledged or state-recognized Native American tribes or groups

Projects must include at least one of the eligible activities described for this program. Applications must include all required elements (SF424, Narrative, NHPRC Budget form, and Supplemental Materials). Applications that do not meet either of these criteria will not be considered. In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section. Cost Sharing The total costs of a project are shared between the NHPRC and the applicant organization. Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant's cost sharing contribution if they are included in the budget. The Commission provides no more than 75 per cent of total project costs in the Access to Historical Records: Archival Projects category. For example, a request of \$75,000 in NHPRC grant funds means the applicant institution must provide at least \$25,000 in cost share. Other Requirements Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application,

maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF.

Deadline: October 07, 2021

Public Engagement with Historical Records CFDA 89.003

The National Historical Publications and Records Commission seeks projects that encourage public engagement with historical records, including the development of new tools that enable people to engage online. The NHPRC is looking for projects that create models and technologies that other institutions can freely adopt. In general, collaborations between archivists, documentary editors, historians, educators, and/or community-based individuals are more likely to create a competitive proposal. Projects that focus on innovative methods to introduce primary source materials and how to use them in multiple locations also are more likely to create a competitive proposal. Projects might create and develop programs to engage people in the study and use of historical records for institutional, educational or personal reasons. For example, an applicant can:

- Enlist volunteer “citizen archivists” in projects to accelerate access to historical records, especially those online. This may include, but is not limited to, efforts to identify, tag, transcribe, annotate, or otherwise enhance digitized historical records.
- Develop educational programs for K-12 students, undergraduate classes, or community members that encourage them to engage with historical records already in repositories or that are collected as part of the project.
- Collect primary source material from people through public gatherings and sponsor discussions or websites about the results.
- Use historical records in workshops for artistic endeavors. This could include K-12 students, undergraduate classes, or community members. Examples include projects that encourage researching and writing life stories for performance; using record facsimiles in painting, sculpture, or audiovisual collages; or using text as lyrics for music or as music.
- Develop technologies that encourage the sharing of information about historical records.

For a comprehensive list of the Commission’s limitations on funding, please see “What we do and do not fund”. Applications that consist entirely of ineligible activities will not be considered. Award Information A grant normally is for one to three years. The Commission expects to make up to five grants of between \$50,000 and \$150,000. The total amount allocated for this program is up to \$400,000. Grants begin no earlier than July 1, 2022. The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications and other products that result from its support.

Eligibility Eligible applicants:

- Nonprofit organizations or institutions
- Colleges, universities, and other academic institutions
- State or local government agencies
- Federally-recognized or -acknowledged or state-recognized Native American tribes or groups

Projects must include at least one of the eligible activities described for this program. Applications must include all required elements (SF424, Narrative, NHPRC Budget form, and Supplemental Materials). Applications that do not meet either of these criteria will not be considered. In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section. Cost Sharing The total costs of a project are shared between the NHPRC and the applicant organization. Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-

Federal third-party contributions, and any income earned directly by the project. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant's cost sharing contribution if they are included in the budget. The Commission provides no more than 75 per cent of total project costs in the Public Engagement with Historical Records category. For example, a request of \$75,000 in NHPRC grant funds means the applicant institution must provide at least \$25,000 in cost share. Other Requirements Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at www.sam.gov. Please refer to the User Guides section and the Grants Registrations PDF.

Deadline: October 07, 2021

National Endowment for the Humanities

[Joint DMS/NIGMS Initiative to Support Research at the Interface of the Biological and Mathematical Sciences CFDA 47.049](#)

The Division of Mathematical Sciences (DMS) in the Directorate for Mathematical and Physical Sciences (MPS) at the National Science Foundation (NSF) and the National Institute of General Medical Sciences (NIGMS) at the National Institutes of Health (NIH) plan to support fundamental research in mathematics and statistics necessary to answer questions in the biological and biomedical sciences. Both agencies recognize the need to promote research at the interface between mathematical and life sciences. This program is designed to encourage new collaborations, as well as to support innovative activities by existing teams. The joint DMS/NIGMS initiative offers two submission tracks: Track 1 - for projects with a total budget of up to \$600,000 and an award duration of 3 years, and Track 2 - for projects with a total budget of up to \$1,200,000 and award duration of 3-4 years.

Deadline: September 20, 2021

[EAR Postdoctoral Fellowships CFDA 47.050](#)

The Division of Earth Sciences (EAR) awards Postdoctoral Fellowships to recent recipients of doctoral degrees to conduct an integrated program of independent research and professional development. Fellowship proposals must address scientific questions within the scope of EAR disciplinary programs and must align with the overall theme for the postdoctoral program. Fellowship proposals that address questions at the intersections of several EAR disciplinary programs, such as interdisciplinary critical zone (CZ) science or topics related to Cooperative Studies of Earth's Deep Interior (CSEDI), are also appropriate. The program supports researchers for a period of up to two years with fellowships that can be taken to the institution of their choice (including institutions abroad). The program is intended to recognize beginning investigators of significant potential, and provide them with research experience, mentorship, and training that will establish them in leadership positions in the Earth Sciences community. Because the fellowships are offered only to postdoctoral scientists early in their career, doctoral advisors are encouraged to discuss the availability of EAR postdoctoral fellowships with their graduate students early in their doctoral programs. Fellowships are awards to individuals, not institutions, and are administered by the Fellows. EAR has made it a priority to address challenges in creating an inclusive geoscience discipline through activities that increase belonging, accessibility, justice, equity, diversity, and inclusion (BAJEDI). Proposers are encouraged to explicitly address this particular priority in their proposed activities. Applicants who are women, veterans, persons with disabilities, and underrepresented minorities in science, technology, engineering, and mathematics (STEM), or who have attended two-year colleges and minority-serving institutions for undergraduate or graduate school, or plan to conduct their fellowship activities at one of these institutions (e.g. Historically Black Colleges and Universities, Tribal Colleges and Universities, Hispanic Serving Institutions, Alaska Native Serving Institutions, and Hawaiian Native and Pacific Islander Serving Institutions) are especially encouraged to apply.

Deadline: November 03, 2021

[Innovation Corps - National Innovation Network Teams Program \(I-Corps TM Teams\) – \(CFDA 47.041, 47.049, 47.050, 47.070, 47.074, 47.075, 47.076, 47.079, 47.083\)](#)

The National Science Foundation (NSF) seeks to develop and nurture a national innovation ecosystem that builds upon fundamental research to guide the output to facilitate the application of scientific discoveries closer to the development of technologies, products, and processes that benefit society. To maintain, strengthen and grow a national innovation ecosystem, NSF has established the Innovation Corps - National Innovation Network Teams Program (I-Corps Teams). The NSF I-Corps Teams Program's purpose is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate innovation that can attract subsequent third-party funding. The purpose of the I-Corps Teams program is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate the translation of knowledge derived from fundamental research into emerging products and services that can attract subsequent third-party funding. The outcomes of I-Corps Teams projects will be threefold: 1) a clear go/no go decision based on an assessment of the viability of the overall business model, 2) substantial first-hand evidence for or against a product-market fit, with a pithy definition of the customer segments and corresponding value propositions, and 3) a narrative of a compelling technology demonstration for potential partners. WEBINAR: A webinar will be held monthly to answer questions

about this program. Details will be posted on the I-Corps website (see http://www.nsf.gov/news/special_reports/i-corps/program.jsp) as they become available.

Deadline: Proposals accepted at anytime

Cyberinfrastructure for Emerging Science and Engineering Research – (CFDA 41.070)

The Cyberinfrastructure for Emerging Science and Engineering Research (CESER) program aims to catalyze new science and engineering discovery pathways through early-stage collaborative activities between disciplinary scientists and engineers as well as developers/implementers of innovative cyberinfrastructure (CI) capabilities, services, and approaches. Beginning in FY 2017, the CESER program replaced the Strategic Technologies for Cyberinfrastructure (STCI) program. CESER has retained STCI's focus on supporting innovation across the CI ecosystem with increased emphasis on addressing and enabling emerging areas of potentially transformative research, including NSF priority areas, national strategic directions, and international collaborative research. CESER accepts proposals according to this Program Description year-round. From time to time, NSF may also issue Dear Colleague Letters according to CESER to signal special thematic interests and opportunities. CESER employs existing NSF funding mechanisms to accomplish the program's goals such as Early-concept Grants for Exploratory Research (EAGER) and Conference proposals. GUIDANCE TO POTENTIAL PROPOSERS Science/engineering-driven collaboration. A central feature of successful CESER projects is a strong, mutually-dependent collaborative team comprising expertise in the target science/engineering discipline(s) as well as expertise in CI development and implementation. Such a collaborative approach is critical to informing and guiding the development of requirements towards the eventual development and deployment of user-centric innovative CI that fosters new pathways to discovery. Proposals according to CESER should identify and describe the science and engineering goals and rationale, and explain and support the potential for transformative impacts on science/engineering research and broader impacts. Proposals for technical efforts that are not well-tied to identified science and engineering research challenges as well as utilization scenarios are unlikely to be supported. Exploratory and pilot activities. CESER supports early-stage exploratory efforts that may comprise analysis, community planning, and pilot-level activities that are preparatory or informative for eventual future development and deployment of science/engineering-driven CI. Proposals for full-scale technical efforts leading to development/deployment should be directed to other appropriate NSF programs. Integrative and accelerative approaches. Proposals have particularly welcomed that address identified common needs across multiple research disciplines; leverage and accelerate the impact of existing CI investments in resources and services in one or more application domains; aim to reduce barriers to broader adoption of CI-enabled science/engineering approaches, and integrate different aspects and elements of CI to achieve holistic solutions with transformative science/engineering impact. The requirement to contact NSF Cognizant Program Officers. CESER is an inherently collaborative science/engineering-CI program. Successful CESER projects typically involve co-funding from the relevant disciplinary research programs within NSF. Consequently, before submitting a proposal to CESER, proposers must first (1) discuss their ideas with a cognizant CESER Program Officer to ensure that CESER is the appropriate venue for the proposal and (2) discuss their ideas with the relevant NSF disciplinary science and engineering research program(s) to ensure there is adequate disciplinary interest in the proposed effort. Proposals that have

been declined by CESER or any other NSF program may not be resubmitted to CESER without substantial revision. Proposals violating this restriction may be returned without review

Deadline: Proposals accepted anytime

High-Risk Research in Biological Anthropology and Archaeology – (CFDA 47.075)

Anthropological research may be conducted under unusual circumstances, often in distant locations. As a result, the ability to conduct potentially important research may hinge on factors that are impossible to assess from a distance and some projects with potentially great payoffs may face difficulties in securing funding. This program gives small awards that provide investigators with the opportunity to assess the feasibility of an anthropological research project. It is required that the proposed activity be high risk in nature. The information gathered may then be used as the basis for preparing a more fully developed research program. Investigators must contact the cognizant NSF Program Director before submitting an HRRBAA proposal. This will facilitate determining whether the proposed work is appropriate for HRRBAA support.

Deadline: Proposals accepted anytime

Broadening Participation in Engineering – (CFDA 47.041)

NSF seeks to strengthen the future U.S. Engineering workforce by enabling the participation of all citizens through the support of research in the science of Broadening Participation in Engineering (BPE). The BPE program is dedicated to supporting the development of a diverse and well-prepared engineering workforce. BPE focuses on enhancing the diversity and inclusion of all underrepresented populations in engineering, including gender identity and expression, race and ethnicity (African Americans/Blacks, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders), disability, LGBTQ+, first-generation college, and socio-economic status. BPE funds research to Understand and analyze the systemic barriers that prevent underrepresented groups from pursuing and succeeding in engineering, for example, understand the problem of insufficient interest and poorly sustained participation in engineering across underrepresented demographic groups; insignificant preparation and scarce opportunities for members of underrepresented groups to learn meaningful, relevant engineering content. Understand and analyze factors that enhance our ability to increase access to engineering by creating support systems and social networks that raise career awareness about different engineering pathways. Develop innovative methods and projects to significantly impact the recruitment and retention of engineering students from underrepresented groups. Activities must be supported by relevant data and have the capability to produce a model that can be replicated in other contexts. Develop innovative methods and projects to aggressively recruit and retain tenure track faculty from underrepresented groups. Design and transform a culture to make diversity, equity, and inclusion a priority in the engineering enterprise. BPE research activities will provide scientific evidence that engineering educators, employers, and policymakers need to make informed decisions to design effective

programs that broaden the participation of persons from historically underrepresented groups in the engineering workforce. BPE is interested in funding research that spans K-12 to the workforce and offers the greatest return on investment. BPE funded research should produce outcomes that are scalable, sustainable, and applicable to various contexts, settings, and demographics within the engineering enterprise. BPE is particularly interested in research that employs intersectional approaches in recognition that gender, race, and ethnicity do not exist in isolation from each other and other categories of social identity. BPE is equally interested in research activities that align with and provide meaningful connections to the NSF INCLUDES National Network. The overarching goal of NSF INCLUDES is to achieve a significant impact at scale in transforming STEM education and workforce development by educating a diverse, STEM-capable workforce that includes talented individuals from all sectors of the Nation & apos;s population. Collaborations are encouraged between BPE proposals and existing NSF INCLUDES projects, for example, the NSF INCLUDES Alliances and Coordination Hub, provided these collaborations to strengthen both the BPE and NSF INCLUDES projects. Before submitting a proposal to the BPE program, prospective Principal Investigators are strongly encouraged to speak to the program director to obtain guidance as to whether the proposed ideas are aligned with the strategic goals of the BPE program. Proposal Elements All BPE proposals should Be informed by the current theoretical and scientific literature as well as add to the extant knowledge base. Directly address how the work will broaden the participation of one or more underrepresented populations in engineering. Provide appropriate justification to support the selection of the targeted group(s), with specific and applicable objectives, and demonstrate applicable knowledge of the relevant literature on underrepresentation. Integrate a mechanism to assess and evaluate how well the project has achieved the stated objectives as part of the project management plan. Provide evidence of clear, measurable outcomes and consideration of how the strategy will advance knowledge beyond localized contexts. Incorporate a dissemination plan that goes beyond publishing research papers and presenting at conferences. PIs should think creatively about who needs to hear about the research for it to have an impact and develop a strategy to reach that audience. Describe how the outcomes have the potential to enhance the diversity and inclusion of underrepresented populations in engineering. The Project Summary must contain a list of 3-5 keywords. Place the keywords on a separate line at the end of the Overview section of the Project Summary.

Deadline: Proposals accepted anytime

Critical Aspects of Sustainability – (CFDA 47.041, 47.049, 47.050)

Economic development and human progress have led to a proliferation of manufactured chemicals and materials made from limited resources found in nature (i.e., minerals and metals, petroleum-based products and natural gas). Long-term sustainability requires consideration of the availability of specific natural resources, energy, and water usage. NSF continues to support efforts that seek to improve the efficiency with which natural resources are used to meet human needs for products and services. Sustainability research encompasses the design, manufacture, and use of efficient, effective, safe and more environmentally-benign products and processes; stimulates innovation across all sectors to design and discover new chemicals and materials, production processes, and product stewardship practices; and, increases performance and value while meeting the goals of protecting and enhancing human health and the environment. This program seeks to support basic research through core disciplinary programs aimed at improving the sustainability of resources for future generations while maintaining or improving current

products to offer technologically-advanced, economically competitive, environmentally-benign and useful materials to a global society. To address these challenges, the program aims to identify opportunities for innovation in a wide range of contributing disciplines as well as integrative activities. This program encourages the development of new experimental and theoretical/modeling approaches that will aid in both reductionist and whole-systems approaches. This program welcomes proposals in any area of research supported through the participating divisions that address the topics outlined below. The selected topics are of particular interest to core disciplinary programs in the participating divisions and do not include all funding opportunities and priorities in the area of sustainability at NSF. Proposals are submitted to the relevant core Programs indicated below in the participating Divisions, and all questions regarding proposals should be addressed by the cognizant Program Officers to which submission is contemplated. Proposals should be submitted with the "CAS:" prefix in the title. The Division of Chemistry (CHE/MPS) welcomes proposals to its Disciplinary Research Programs, including Chemical Catalysis (CAT), Chemical Measurement and Imaging (CMI), Chemical Structure, Dynamics and Mechanisms-A (CSDM-A), Chemical Structure Dynamics and Mechanisms-B (CSDM-B), Chemical Synthesis (SYN), Chemical Theory, Models and Computational Methods (CTMC), Chemistry of Life Processes (CLP), Environmental Chemical Sciences (ECS), and Macromolecular, Supramolecular and Nanochemistry (MSN). All proposals must be on the chemical aspects of sustainability. The design, preparation and reactivity studies associated with new catalysts and catalytic processes that employ earth-abundant and benign elements and raw materials; advanced catalytic methods for the reduction of dinitrogen to ammonia and water splitting are also invited; Grant Opportunities for Academic Liaison with Industry (GOALI) proposals, where such advances are connected directly to industrial considerations, are also encouraged. Understanding the molecular mechanisms of the two-way communication between the environment and living systems as well as between organisms situated in changing environments; design and test methods that could confer resilience and/or could foster adaptability of living systems subject to changing environments. Innovative measurement and imaging approaches that can improve the efficiency of manufacturing processes, including advances in separation science targeting reduced energy consumption or generation of less waste. Fundamental studies related to sustainable energy such as chromophores based on earth-abundant elements, advanced electrolytes for battery, water splitting, and carbon dioxide conversions. Understanding the environmental chemical degradation of contaminants, including emerging contaminants. Transformative approaches to the efficient and inexpensive synthesis of polymers or nanostructures using renewable feedstocks or earth-abundant elements; and innovative research that enhances the understanding of efficient use and recycling of polymers and critical elements or the conversion of energy from renewable sources. The development of new synthetic methods using earth-abundant and inexpensive chemicals, fundamental studies that improve our understanding of rare earth elements; the conversion of non-petroleum-based resources into useful building blocks; and new environmentally-friendly chemical syntheses that improve on current practice by requiring less energy, freshwater, reagents, and/or organic solvents. Other CHE programs also welcome proposals on this general topic, as long as the proposals fit the scope of the program. All questions regarding proposals to CHE should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see CHE Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CHE>). The Division of Materials Research (DMR/MPS) welcomes proposals to its Topical Materials Research Programs, including Biomaterials (BMAT), Ceramics (CER), Condensed Matter and Materials Theory (CMMT), Condensed Matter Physics (CMP), Electronic and Photonic Materials (EPM), Metals and Metallic Nanostructures (MMN), Polymers (POL),

and Solid State and Materials Chemistry (SSMC). All proposals must be on materials aspects of sustainability and focused on fundamental materials-research approaches. CER, CMMT, EPM, MMN, and SSMC will consider proposals on all materials aspects of sustainability. BMAT encourages proposals that take advantage of synthetic biology or other innovative and sustainable approaches (e.g., renewable, recyclable, environmentally benign). CMP encourages proposals on replacing rare-earth elements in magnetic materials with more abundant and accessible elements; also, proposals exploring materials alternatives to oxides for nuclear reactor fuel, aiming at improved stability and properties (e.g., thermal conductivity) and decreased environmental impact. POL welcomes proposals that address plastics waste accumulation through innovative materials approaches and environmentally benign polymeric materials having properties exceeding those of current commercial plastics. All proposals must be submitted through one of the active solicitations of the DMR Topical Materials Research Programs (currently NSF 17-580, 18-500, and 19-515) and must follow the deadlines, instructions, and limitations of these solicitations. Proposals that are not following these guidelines or that fall outside the scope of DMR and its Topical Materials Research Programs will be returned without review. All questions regarding proposals to DMR should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see DMR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=DMR>). The Chemical, Bioengineering, Environmental and Transport Systems Division (CBET/ENG) has several core programs that review proposals on research topics related to sustainability, including Molecular Separations (MoIS), Biosensing, Environmental Sustainability (EnvS), Biological and Environmental Interactions of Nanoscale Materials (BioNano), Combustion and Fire Systems (CFS), and Particulate and Multiphase Processes (PMP). Within these programs, as noted, the following topics are of particular interest: Understanding the fundamental combustion properties of sustainable aviation fuels under engine relevant conditions. (CFS) Fundamental studies leading to effective methods of processing multiphase fluid systems that minimize waste, avoid contamination, enhance the purity, or lead to novel materials that benefit efficient energy utilization. (PMP) The development of innovative separation mechanisms, mass separating agents, or engineering processes that aim to substantially reduce energy and/or material consumption in the chemical process industries. (MoIS) Fundamental mechanistic investigations for the development, sustainable production and use of nanomaterials, nanoparticles, nanodevices, and nanosystems. (BioNano) Biosensing systems with inherent capabilities of artificial intelligence, machine learning, and decision making for applications in real-time monitoring of environmental and living systems and in evaluating environmentally benign chemicals and materials. (Biosensing) Industrial Ecology: Topics of interest in Industrial Ecology include advancements in modeling such as life cycle assessment, materials flow analysis, input/output economic models, and novel metrics for measuring sustainable systems. Innovations in industrial ecology are encouraged. (EnvS) Green Engineering: Research is encouraged to advance the sustainability of manufacturing processes, green buildings, and infrastructure. Improvements in distribution and collection systems that will advance smart growth strategies and ameliorate effects of growth are supported. Innovations in the management of stormwater, recycling and reuse of drinking water, and other green engineering techniques to support sustainability may also be fruitful areas for research. (EnvS) Ecological Engineering: Topics should focus on the engineering aspects of restoring ecological function to natural systems. Engineering research in the enhancement of natural capital to foster sustainable development is encouraged. (EnvS) Earth Systems Engineering: Earth systems engineering considers aspects of large-scale engineering research that involve mitigation of greenhouse gas emissions, adaptation to climate change, and other global-scale concerns. (EnvS) All questions

regarding proposals to CBET should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CBET Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CBET>). For the Division of Civil, Mechanical, and Manufacturing Innovation (CMMI/ENG), proposals addressing sustainable materials processing are welcome. Of interest are manufacturing processes with reduced use of toxic components, such as solvents, carbon emissions, and pollutants; processes under ambient conditions, as opposed to extreme temperatures, pressures or other harsh conditions; and increased conservation of natural resources, such as water, raw material, and energy. Proposals to CMMI must be submitted to the Advanced Manufacturing (AM) Program and align with the scope of the program. All questions regarding proposals to CMMI should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CMMI Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CMMI>). The Division of Earth Sciences (EAR/GEO) welcomes fundamental and transformational geosciences projects addressing the distribution of Critical Minerals and Materials in the Earth. The following programs in the division support research on this topic: Petrology and Geochemistry (CH), Geobiology and Low-Temperature Geochemistry (GG), and Frontier Research in Earth Sciences (FRES). Topics of particular interest include fundamental studies of the geochemistry of Critical Earth Minerals and Materials (CMM), such as: Identifying new sources of critical minerals on the Earth's surface; Constraining their pathways in the natural environment involving concentration by Earth and geobiological processes, and Developing methods for sustainable exploration of these CMMs. Studies can be based on laboratory, field, or modeling efforts, and should have a strong emphasis on training the next generation of geoscientists and educating the public on the importance of CMM. Proposals must be submitted through one of the active solicitations of the three programs and must follow the deadlines and guidelines of these solicitations. All questions regarding proposals to EAR should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see EAR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=EAR>).

Deadline: Proposals accepted anytime

Small Business Administration

Program for Investment in Microentrepreneurs (PRIME) – CFDA 59.050

SBA intends to award a discretionary grant to the National Association of Government Guaranteed Lenders (NAGGL) to provide SBA 7(a) training to nonprofit lenders participating in the SBA Community Advantage Pilot Loan Program (CA). NAGGL has extensive experience with providing training to lenders on SBA's 7(a) loan product in the areas of loan origination, loan servicing, and loan liquidation. This discretionary grant will serve as a proof of concept to explore the success of regional training to mission lenders participating in CA. These training needs have been identified by SBA's Office of Credit Risk Management to increase the performance level of lenders participating in the CA program. SBA will work closely with NAGGL in shaping the project as it is implemented and will draw lessons learned from its implementation and use that insight and experience in deciding whether or not to

continue the initiative in a permanent form, which we would then do via the standard competitive process for awarding grants.

Deadline: Open

[HS 2021-2 Omnibus Solicitation of the NIH, CDC and FDA for Small Business Innovation Research Grant Applications \(Parent SBIR \[R43/R44\] Clinical Trial Not Allowed\)](#)

This Funding Opportunity Announcement (FOA), issued by the National Institutes of Health (NIH), the Centers for Disease Control and Prevention (CDC), and the Food and Drug Administration (FDA), invites eligible United States small businesses to submit Small Business Innovation Research (SBIR) grant applications. United States small businesses that have the research capabilities and technological expertise to contribute to the R and D mission(s) of the NIH, CDC, and FDA awarding components identified in this FOA are encouraged to submit SBIR grant applications in response to identified topics (see PHS 2021-2 SBIR/STTR Program Descriptions and Research Topics for NIH, CDC, and FDA. This Parent Funding Opportunity Announcement does not accept clinical trials.

U.S. Department of Agriculture

FARM OF THE FUTURE CFDA 10.230

Farm of the Future is a competitive grant program that will be implemented by USDA NIFA to establish an agricultural test bed and demonstration site. It seeks to launch this rural test bed for precision agriculture, smart automation, data connectivity and transfer, and to demonstrate best practices in climate-smart agriculture, forestry, and animal production systems that enhance sustainability and farm profitability. The test bed will evaluate digital and smart technologies to provide accessible, data-driven solutions that support resilient agricultural and value-added practices.

Deadline: October 15, 2021

Conservation Outreach: Racial Equity and Justice Conservation Cooperative Agreements CFDA 10.902

Funding Opportunity Summary (For more information, download from the Related Documents tab of this opportunity the Request for Applications (RFA) titled "Request for Applications_USDA-NRCS-NHQ-REJ-21-NOFO0001121")

The Office of Outreach and Partnerships Division (OPD) within the U.S. Department of Agriculture's Natural Resources Conservation Service (NRCS) provides leadership and funding to ensure that all programs and services are made accessible to all NRCS customers, fairly and equitably, with emphasis on reaching the underserved and socially disadvantaged farmers or ranchers and landowners. In this Request for Applications (RFA), NRCS requests applications for four OPD priority areas through the Racial Equity and Justice Conservation Cooperative Agreements. The goal of this outreach is for NRCS in collaboration with partners to expand the delivery of conservation assistance to historically underserved farmers and ranchers, including socially disadvantaged, limited resource, beginning, tribal and veteran. Proposals should support activities that introduce the concepts of climate-smart agriculture and to assist producers with planning and implementation of conservation practices and principles.

In accordance with 2 CFR §415.1(d), this is a non-competitive RFA restricted to eligible entities listed in section C.1. NRCS has determined that noncompetitive awards under this RFA are in the best interest of the Government and necessary to the accomplishment of the goals of the program to provide outreach and technical assistance to historically underserved communities. The anticipated amount for cooperative agreements under this solicitation is approximately \$50 million in fiscal year (FY) 2022.

Key Dates

This RFA solicits applications for eligible entities to enter into cooperative agreements with NRCS. Applications must be received by 11:59p.m. Eastern Time on October 25, 2021. Applications received after this deadline will not be considered for funding.

Webinar

A webinar for potential applicants will be scheduled for late September. When available, instructions regarding how to access the webinar will be posted in the opportunity on Grants.gov in the Synopsis tab and added to this RFA.

Application Package

NRCS expects applicants to read the entire RFA prior to submitting their application to ensure that they understand the program's requirements. This application checklist provides the required and conditionally required documents for an application package. Conservation Outreach: Racial Equity and Justice Conservation Cooperative Agreements requires that all application packages include the following, which can be found in the Related Documents tab of the opportunity in Grants.gov:

- Project Proposal Template
 - o Ensure the required format and does not exceed the page limit.
 - o Ensure project excludes unallowable costs and activities per Section D, Part 6, Funding Restrictions.
- SF 424 – Application for Federal Assistance
- SF 424A – Budget Information - Non-Construction Programs.
- Grants.gov Lobbying Form, Certification and Disclosure of Lobbying

If applicable, packages may also be required to include the following documents:

- Negotiated Indirect Cost Rate Agreement (NICRA) or De Minimis Indirect Cost Rate

Agreement

Federal Financial Assistance Training

The funding available through this NFO is Federal financial assistance. Grants 101 Training is highly recommended for those seeking knowledge about Federal financial assistance. The training is free and available to the public via <https://www.cfo.gov/grants-training/>. It consists of

five modules covering each of the following topics: 1) laws, regulations, and guidance; 2) financial assistance mechanisms; 3) uniform guidance administrative requirements; 4) cost principles; and 5) risk management and single audit. FPAC agencies also apply Federal financial assistance regulations to certain non-assistance awards (e.g., non-assistance cooperative agreements).

Deadline: October 25, 2021

REAP Energy Audit and Renewable Energy Development Assistance Program **CFDA 10.868**

This program assists rural small businesses and agricultural producers by conducting and promoting energy audits and providing Renewable Energy Development Assistance (REDA).

Who may apply for this program?

State and local governments.

Federally-recognized tribes.

A land-grant college or university or other institutions of higher education.

Rural electric cooperatives.

Public power entities.

An instrumentality of a state, tribal or local government.

A Resource Conservation & Development Council (as defined in 16 USC §3451).

How may funds be used?

The assistance must be provided to agricultural producers and rural small businesses. Rural small businesses must be located in eligible rural areas. This restriction does not apply to agricultural producers. Assistance provided must consist of:

Energy audits.

Renewable energy technical assistance.

Renewable energy site assessments.

Eligible project costs may include:

Salaries directly related to the project.

Travel expenses directly related to conducting energy audits or renewable energy development assistance.

Office supplies.

Administrative expenses, up to a maximum of 5 percent of the grant, which include but are not limited to utilities, office space, operation expenses of office and other project-related equipment.

Funds may NOT be used for:

Payment for construction-related activities.

Purchase or lease of equipment.

Payment of judgments or debt owed the government.

Goods or services provided by a person or entity who has a conflict of interest.

Costs incurred by preparing an application package.

Funding political or lobbying activities.

What are the grant terms?

Applicants must submit separate applications, limited to one energy audit and one Renewable Energy Development Assistance (REDA) per fiscal year. The maximum aggregate amount of an energy audit and REDA grant in a Federal fiscal year is \$100,000.

Deadline: February 21, 2022

Rural Microentrepreneur Assistance Program (RMAP) CFDA 10.870

The purpose of RMAP is to support the development and ongoing success of rural Microentrepreneurs and Microenterprises, each as defined in 7 CFR 4280.302. The regulation can be accessed online at <https://www.ecfr.gov>. To accomplish this purpose, RMAP provides direct loans and grants to Microenterprise Development Organizations (MDO). Grant funds are used by the MDO to provide technical assistance and entrepreneurship training to rural individuals and businesses.

Deadline: June 30, 2022

U.S. Department of Commerce

FY 2021 American Rescue Plan Act Build Back Better Regional Challenge CFDA 11.307

Through this American Rescue Plan Act Build Back Better Regional Challenge Notice of Funding Opportunity (ARPA BBBRC NOFO), EDA aims to assist communities and regions impacted by the coronavirus pandemic. The pandemic has caused, and continues to cause, economic injury to U.S. communities and regions in devastating and unprecedented ways. This ARPA BBBRC NOFO is designed as a two-phase competition to (1) help regions develop transformational economic development strategies and (2) fund the implementation of those strategies that will create and grow regional growth clusters. Such efforts will help regional economies recover from the pandemic and build economic diversity and resiliency to mitigate impacts of future economic disasters.

In Phase 1, EDA will provide technical assistance grants to approximately 50-60 coalitions (through a lead institution). These coalitions will be considered “finalists” and the grants will be used by the finalists to

prepare more detailed applications for transformational projects that benefit their respective geographic regions and are aligned around a holistic approach to building and scaling a strategic industry.

In Phase 2, EDA will award each of the 20-30 finalist coalitions \$25-75 million (and potentially up to \$100 million) to fund the collection of projects they identified. The projects will be funded through grants to coalition members.

This particular Funding Opportunity is for Phase 1 Concept Proposals ONLY.

Funding Amount Information

EDA anticipates up to \$30,000,000 in total being awarded in Phase 1, in technical assistance grants of up to \$500,000 each. In Phase 2, EDA anticipates funding regional growth clusters with component projects that collectively cost between approximately \$25,000,000 and \$75,000,000, though EDA will consider regional growth clusters above and below these amounts depending on the strength of the Proposal and quality of the individual component projects. EDA anticipates that the cost of individual non-construction and construction component projects within regional growth clusters will range from approximately \$750,000 to \$25,000,000, or more if the cluster or project warrants it.

Deadline: October 19, 2021

[FY 2021 American Rescue Plan Act \(ARPA\) Statewide Planning, Research, and Networks CFDA 11.307](#)

The ARPA Statewide Planning, Research, and Networks NOFO is part of EDA's multi-phase effort to respond to the coronavirus pandemic as directed by the American Rescue Plan Act of 2021. Specifically, this NOFO seeks to build regional economies for the future through two primary avenues: a) Statewide Planning and b) Research and Networks.

Subject to the availability of funds, awards made under this NOFO will help develop coordinated state-wide plans for economic development and data, tools, and institutional capacity to evaluate and scale evidence-based economic development efforts, including through communities of practice and provision of technical assistance among existing and new EDA grantees.

While EDA encourages eligible applicants to submit their applications as soon as possible, EDA strongly advises eligible applicants to submit complete applications no later than October 31, 2021 so that EDA can review and process the application in time to achieve the objectives of the grant program. Submission by October 31, 2021 is not a guarantee of funding. Any award is subject to the availability of funds. See Section E of this NOFO regarding EDA's review process.

For Statewide Planning grants, States must accept or reject the grant within 45 days of the date of transmission from EDA of an invitation letter.

Deadline: October 31, 2021

[FY 2021 American Rescue Plan Act Good Jobs Challenge CFDA 11.307](#)

Through this American Rescue Plan Act Good Jobs Challenge Notice of Funding Opportunity (ARPA Good Jobs Challenge NOFO), EDA aims to assist communities and regions impacted by the coronavirus pandemic. The pandemic has caused, and continues to cause, economic injury to U.S. communities and regions in devastating and unprecedented ways.

This ARPA Good Jobs Challenge NOFO is designed to help get Americans back to work by developing and strengthening regional systems to develop and execute sectoral partnerships that will lead to well-paying jobs. The goal of regional workforce training systems is to create and implement effective employer-driven training programs that will connect the existing and emerging skills needs of employers with workers and will help workers find and keep quality jobs and advance along their chosen career path. Regional workforce training systems and sectoral partnerships funded under this NOFO should connect employers in an industry with key regional stakeholders, including state and local governmental entities, economic development organizations, workforce development boards, employer-facing organizations, education and training providers, community-based organizations (CBOs), worker-serving organizations (WSOs), and/or labor unions. The system or partnership should be led by a System Lead Entity or Backbone Organization, respectively, serving as an intermediary that has convening power in the region and the capacity to coordinate all necessary stakeholders. EDA also encourages systems and partnerships to address populations with labor market barriers such as persons with disabilities, at-risk youth, individuals in recovery, individuals with past criminal records including justice-impacted and reentry participants, and veterans.

EDA anticipates making approximately 25 to 50 awards under this ARPA Jobs Training NOFO and scaling awards as appropriate to the proposed geographic, industry, and worker role coverage of a given regional system.

Deadline: January 26, 2021

[FY 2021 American Rescue Plan Act Indigenous Communities Notice of Funding Opportunity CFDA 11.307](#)

Through this Indigenous Communities NOFO, EDA aims to assist indigenous communities to recover economically from the coronavirus pandemic. Even before the pandemic, indigenous communities faced high levels of economic distress and unique economic development challenges, resulting in severe inequalities in opportunity for members of these communities. The pandemic greatly exacerbated those challenges and inequities and will continue to cause deep economic injury to indigenous communities in unprecedented ways.

EDA's American Rescue Plan Indigenous Communities NOFO is designed to support indigenous communities as they respond to, and recover from, the economic impacts of the coronavirus pandemic, including long-term recovery and resilience to future economic disasters. Under this announcement, EDA

solicits applications under the authority of its Economic Adjustment Assistance (EAA) program, which is intended to be flexible and responsive to the economic development needs and priorities of indigenous communities.

Competitive applications for funding under this NOFO will propose projects designed to create the conditions for economic growth in indigenous communities and to accelerate economic recovery from the pandemic. These projects can include foundational economic infrastructure projects, such as such as broadband, energy, road, water, and wastewater infrastructure (including community water facilities); vocational and higher education facilities; and community health facilities that are necessary for future job creation. Projects can also include non-construction projects to provide technical assistance to support business development, entrepreneurship assistance, economic development planning, rural prosperity, and workforce training in indigenous communities. Further, EDA seeks to fund projects representing diverse geographies, from rural and urban settings to projects on or near tribal lands.

EDA plans on funding construction and non-construction projects that cost between approximately \$500,000 and \$5,000,000 under this NOFO.

Deadline: September 30, 2022

U.S. Department of Defense

[DoD Traumatic Brain Injury and Psychological Health, Investigator-Initiated Research Award CFDA 12.420](#)

The FY21 TBIPHRP IIRA is intended to support studies that will make an important contribution toward understanding, preventing, and treating TBI and/or psychological health conditions. Research projects may focus on any phase of research from basic laboratory research through translational research, including preclinical studies in animal models and human subjects, as well as correlative studies associated with an existing clinical trial. Research involving human subjects and human anatomical substances is permitted; however, this FY21 TBIPHRP IIRA may not be used to conduct clinical trials.

The IIRA is designed to support research with the potential to yield highly impactful discoveries or major advancements. The application should clearly demonstrate the project's potential near-term and long-term outcome(s)/product(s) (knowledge and/or materiel) and how they will impact a critical problem or question in the field of research and/or patient care in the FY21 TBIPHRP IIRA Focus Areas(s) addressed.

A clinical trial is defined as a research study in which one or more human subjects are prospectively assigned to one or more interventions (which may include placebo or other control) to evaluate the effects

of the interventions on biomedical or behavioral health-related outcomes. This award may not be used to conduct clinical trials.

Applications proposing clinical trials may be submitted to the following FY21 TBIPHRP funding opportunities:

- Clinical Trial Award (Funding Opportunity Number: W81XWH-21-S-TBIPH1)
- Focused Program Award (Funding Opportunity Number: W81XWH-21-S-TBIPH2)
- Translational Research Award (Funding Opportunity Number: W81XWH-21-TBIPHRP-TRA)

Clinical research is defined as: (1) patient-oriented research. Research conducted with human subjects (or on material of human origin such as tissues, specimens, and cognitive phenomena) for which an investigator (or colleague) directly interacts with human subjects. Excluded from this definition are in vitro studies that utilize human tissues that cannot be linked to a living individual. Patient-oriented research includes: (a) mechanisms of human disease, (b) therapeutic interventions, (c) clinical trials, and (d) development of new technologies; (2) epidemiologic and behavioral studies; and (3) outcomes research and health services research. Note: Studies that meet the requirements for Institutional Review Board (IRB) Exemption 4 are not considered CDMRP-defined clinical research. IRB Exemption 4 refers to research involving the collection or study of existing de-identified specimens or data, if these sources are publicly available.

The FY21 TBIPHRP IIRA may not be used to support studies requiring an exception from informed consent.

For more information on how to distinguish clinical research from clinical trials, see the Human Subject Resource Document at <https://ebrap.org/eBRAP/public/Program.htm>.

Preliminary data are required. The rationale for a research idea may be derived from a laboratory discovery, population-based studies, a clinician's firsthand knowledge of patients, or anecdotal data. Applications must include relevant data that support the rationale for the proposed study. These data may be unpublished or from published literature. Any unpublished, preliminary data provided should originate from the laboratory of the Principal Investigator (PI) or members of the research team.

Relevance to Military Health: Relevance to the healthcare needs of Service Members, Veterans, military beneficiaries, and the American public is a key feature of this award. Investigators are encouraged to consider the following characteristics as examples of how a project may demonstrate relevance to military health:

- Explanation of how the project addresses an aspect of TBI and/or psychological health that has direct relevance to the health and/or readiness of Service Members, Veterans, military beneficiaries, and the American public
- Description of how the knowledge, information, products, or technologies gained from the proposed research could be implemented in a dual-use capacity to benefit the civilian population and also address a military need
- Use of military or Veteran populations, samples, or datasets in the proposed research, if appropriate
- Collaboration with DOD or Department of Veterans Affairs (VA) investigators or consultants

Applicants are encouraged to integrate and/or align their research projects with DOD and/or VA research laboratories and programs. Collaborations between researchers at military or Veterans institutions and non-military institutions are strongly encouraged. These relationships can leverage knowledge, infrastructure, and access to unique data and research resources that the partners bring to the research effort, ultimately advancing TBI and psychological health research of significance to Service Members, Veterans, military beneficiaries, and the American public. A list of websites that may be useful in identifying additional information about ongoing DOD and VA areas of research interest or potential opportunities for collaboration can be found in Appendix 2.

Early-Career Investigator Partnering Option: The FY21 TBIPHRP encourages applications that include meaningful and productive collaborations between investigators. The FY21 TBIPHRP IIRA includes a partnering option with a PI who is an Early-Career Investigator. The PIs may have experience in similar or disparate scientific disciplines, but each PI is expected to bring distinct contributions to the application. The Partnering PI Option is structured to accommodate two PIs. One PI will be identified as the Initiating PI and will be responsible for the majority of the administrative tasks associated with application submission. The other investigator will be the Partnering PI. Either the Initiating or Partnering PI may be the Early-Career Investigator. Both PIs should contribute significantly to the development of the proposed research project, including the Project Narrative, Statement of Work (SOW), and other required components. The application is expected to describe how the PIs' unique experience/ expertise combined as a partnership will better address the research question, how the unique experience/expertise that each individual brings to the application is critical for the research strategy and completion of the SOW, and why the work should be done together rather than through separate efforts. If recommended for funding, each PI will be named to an individual award within the recipient organizations. For individual submission requirements for the Initiating and Partnering PI, refer to Section II.D.2, Content and Form of the Application Submission.

The types of awards made under the program announcement will be assistance agreements. An assistance agreement is appropriate when the federal government transfers a "thing of value" to a "state, local government," or "other recipient" to carry out a public purpose of support or stimulation authorized by a law of the United States instead of acquiring property or service for the direct benefit and use of the U.S. government. An assistance agreement can take the form of a grant or cooperative agreement. The level of involvement on the part of the DOD during project performance is the key factor in determining whether to award a grant or cooperative agreement. If "no substantial involvement" on the part of the funding agency

is anticipated, a grant award will be made (31 USC 6304). Conversely, if substantial involvement on the part of the funding agency is anticipated, a cooperative agreement will be made (31 USC 6305), and the award will identify the specific substantial involvement. Substantial involvement may include, but is not limited to, collaboration, participation, or intervention in the research to be performed under the award. The award type, along with the start date, will be determined during the negotiation process.

The anticipated total costs budgeted for the entire period of performance for an FY21 TBIPHRP IIRA will not exceed \$750,000. Refer to Section II.D.5, Funding Restrictions, for detailed funding information.

Awards will be made no later than September 30, 2022. For additional information refer to Section II.F.1, Federal Award Notices.

The CDMRP expects to allot approximately \$11.25M to fund approximately 15 FY21 TBIPHRP Investigator-Initiated Research Award applications. Funding of applications received is contingent upon the availability of federal funds for this program as well as the number of applications received, the quality and merit of the applications as evaluated by scientific and programmatic review, and the requirements of the government. Funds to be obligated on any award resulting from this funding opportunity will be available for use for a limited time period based on the fiscal year of the funds. It is anticipated that awards made from this FY21 funding opportunity will be funded with FY21 funds, which will expire for use on September 30, 2027.

Deadline: September 30, 2021

FY22 Young Investigator Program CFDA 12.300

The Office of Naval Research (ONR) is interested in receiving proposals for its Young Investigator Program (YIP). ONR's Young Investigator Program seeks to identify and support academic scientists and engineers who are in their first or second full-time tenure-track or tenure-track-equivalent academic appointment, who have received their PhD or equivalent degree on or after 01 January 2014, and who show exceptional promise for doing creative research. The objectives of this program are to attract outstanding faculty members of Institutions of Higher Education (hereafter also called "universities") to the Department of the Navy's Science and Technology (S&T) research program, to support their research, and to encourage their teaching and research careers. Individuals who are holding U.S. non-profit equivalent positions are also encouraged to apply.

Proposals addressing research areas (as described in the ONR Science and Technology Department section of ONR's website at www.onr.navy.mil) which are of interest to ONR Program Officers will be considered. Contact information for each division (a subgroup of an S&T Department) is also listed within the S&T section of the website.

Applicants are **STRONGLY ENCOURAGED** to contact the appropriate Program Officer who is the point of contact for a specific technical area to discuss their research ideas before submitting a proposal. A list of most Program Officers and their contact information can be found at:

<https://www.onr.navy.mil/our-research/technology-areas> or at:

<https://www.onr.navy.mil/our-research/our-program-managers>.

Please see full text of FOA for more details.

Deadline: October 29, 2021

Reimagining Protein Manufacturing (RPM) CFDA 12.910

The Reimagining Protein Manufacturing (RPM) program aims to ensure timely DoD access to critical medical countermeasures (MCMs) by establishing the foundational technologies needed for fully distributed, on-demand manufacturing of protein-based MCMs and associated raw materials. To achieve this goal, RPM will develop technologies to enable immediate synthesis (lead time approximately 24 hours) of bioactive protein MCMs and raw material production enzymes at a yield corresponding to > 500 doses per week. This technology will allow the DoD to rapidly secure access to both therapeutic proteins and enzymes needed for nucleic acid-based MCM synthesis, and reduce reliance on complex supply chains.

Deadline: November 16, 2021

FY2022 Department of the Navy (DoN) Historically Black Colleges and Universities/Minority Institutions (HBCU/MI) Program CFDA 12.300

The Department of Navy (DoN) Historically Black Colleges and Universities/Minority Institutions (HBCU/MI) Program aims to increase the quantity and quality of minority professionals in science, technology, engineering, and mathematics (STEM) in the defense community. Research conducted at Minority-Serving Institutions (MSIs) for the DoN HBCU/MI Program:

- Enhances the research and educational capabilities of HBCU/MIs in scientific and engineering disciplines critical to the defense mission of the U.S. Navy and U.S. Marine Corps
- Encourages cross-institutional, collaborative efforts that explore innovative solutions to naval science and technology (S&T) challenges, and
- Increases the engagement of students, including underrepresented minorities, in STEM fields important to the U.S. Navy and U.S. Marine Corps.

This FOA is executed under policy and guidance of the DoN HBCU/MI Program and is administered by the Office of Naval Research (ONR). Competitive white papers and full invited proposals submitted to this FOA must clearly and succinctly describe efforts that advance basic naval-relevant S&T, engage faculty and students in STEM discovery, and expand the research capacity of participant institutions.

Deadline: December 01, 2021

U.S. Department of Education

Office of Elementary and Secondary Education (OESE): Office of Indian Education (OIE): American Rescue Plan (ARP)-American Indian Resilience in Education (ARP-AIRE) Assistance Listing Number 84.299C

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf.

Purpose of Program: The purpose of the ARP-AIRE program is to support Tribal educational agencies (TEAs) in the provision of direct services to Indian children and youth. Projects must include one or more of the activities authorized under section 6121(c) of the Elementary and Secondary Education Act of 1965, as amended (ESEA)

Background: ARP-AIRE is a one-time discretionary grant competition authorized under Section 11006(1) of the American Rescue Plan Act of 2021 (ARP) to provide awards to TEAs for activities authorized under section 6121(c) of the ESEA in order to meet the urgent needs of students in response to the Coronavirus 2019 (COVID-19) pandemic. Those activities include a broad range of direct services to Indian children and youth, their teachers, and families.

In accordance with the Department's commitment to engage in regular and meaningful consultation and collaboration with Indian Tribes, the Office of Elementary and Secondary Education's (OESE) Office of Indian Education (OIE) and the White House Initiative on American Indian and Alaska Native Education (WHIAIANE) conducted a virtual Tribal consultation session regarding the ARP-AIRE program on April 26, 2021. Consistent with the Department's trust responsibility to Tribes and its Tribal consultation Policy, the Department consulted with elected officials of federally recognized Tribes to ensure that their views inform the Department's policy decisions related to the priorities, requirements, and definitions that govern

this competition. In addition to the virtual Tribal consultation, Tribal leaders and others had an opportunity to submit written comments to the Department by email. We solicited feedback on specific questions related to the design of this grant program during this Tribal consultation opportunity.

Deadline: September 13, 2021

U.S. Department of Energy

Optimizing Nuclear Waste and Advanced Reactor Disposal Systems (ONWARDS) CFDA 81.135

To obtain a copy of the Funding Opportunity Announcement (FOA) please go to the ARPA-E website at <https://arpa-e-foa.energy.gov>. To apply to this FOA, Applicants must register with and submit application materials through ARPA-E eXCHANGE (<https://arpa-e-foa.energy.gov/Registration.aspx>). For detailed guidance on using ARPA-E eXCHANGE, please refer to the ARPA-E eXCHANGE User Guide (<https://arpa-e-foa.energy.gov/Manuals.aspx>). ARPA-E will not review or consider concept papers submitted through other means. For problems with ARPA-E eXCHANGE, email ExchangeHelp@hq.doe.gov (with FOA name and number in the subject line).

Questions about this FOA? Check the Frequently Asked Questions available at <http://arpa-e.energy.gov/faq>. For questions that have not already been answered, email ARPA-E-CO@hq.doe.gov.

To read this FOA in its entirety, please go to the ARPA-E website at <https://arpa-e-foa.energy.gov>. Questions about this FOA? Check the Frequently Asked Questions available at <http://arpa-e.energy.gov/faq>. For questions that have not already been answered, email ARPA-E-CO@hq.doe.gov.

The purpose of this modification is to incorporate changes to Funding Opportunity Announcement.

Accordingly this modification,

- Inserted certain deadlines, including the deadlines for submitting questions and Full Applications. See Cover Page and Required Documents Checklist.
- Clarified Unit Measurement. See Section I.D.II of the FOA.
- Included additional information on Technical Performance Targets. See Section I.E of the FOA.
- Revised the following sections of the FOA to provide guidance on required application forms and the content and form of Full Applications and Replies to Reviewer Comments: Required Documents Checklist and Sections IV.D, IV.E, and IV.G of the FOA. Applicants are strongly encouraged to use the templates provided on ARPA-E eXCHANGE (<https://arpa-e-foa.energy.gov>).
- Inserted criteria that ARPA-E will use to evaluate Full Applications, see Section V.A.2 of the FOA.

- Inserted criteria that ARPA-E will use to evaluate Replies to Reviewer Comments in Section V.A.3 of the FOA.
- Inserted information on the anticipated announcement and award dates, see Section V.C of the FOA.
- Inserted information concerning Full Application Notifications, see Section VI.A.3 of the FOA.
- Inserted Administrative and National Policy Requirements, see Section VI.B of the FOA.
- Inserted Reporting Requirements, see Section VI.C of the FOA.
- Updated information on Title to Subject Inventions, see Section VIII.A of the FOA.

Deadline: October 07, 2021

U.S. Department of Health and Human Services

[Community Health Aide Program: Tribal Assessment & Planning 93.382](#)

The purpose of the Tribal Assessment & Planning (TAP) program is to support the assessment and planning of Tribes and Tribal Organizations (T/TO) in determining the feasibility of implementing Community Health Aide Program (CHAP) in their respective communities. The program is designed to support the regional flexibility required for T/TO to design a program unique to the needs of their individual communities across the country through the identification of feasibility factors. The focus of the program is to:

1. Assess whether the T/TO can integrate CHAP into the Tribal health system, including the health care workforce.

2. Identify systemic barriers that prohibit the complete integration of CHAP into an existing health care system. The barriers should be related to:

Clinical infrastructure.

Workforce barriers.

Certification of providers.

Training of providers.

Inclusion of culture in the services provided by a CHAP provider.

3. Plan partnerships across the T/TO geographic region to address the barriers, including reimbursement, training, education, clinical infrastructure, implementation cost, and determination of system integration.

Deadline: September 6, 2021

[Community Health Aide Program: Tribal Planning & Implementation CFDA 93.382](#)

The purpose of the Tribal Planning & Implementation (TPI) program is to support the planning and implementation for Tribes and Tribal Organizations (T/TO) positioned to begin operating a Community Health Aide Program (CHAP) or support a growing CHAP in the contiguous 48 states. The grant program is designed to support the regional flexibility required for T/TO to implement a CHAP unique to the needs of their individual communities across the country through the identification of feasibility factors. The focus of the program is to:

Develop clinical supervisor support for primary care, behavioral health, and dental health clinicians providing both direct and indirect supervision of prospective health aides;

Identify area and community-specific health care needs of patients that can be addressed by the health aides;

Identify and develop a technology infrastructure plan for the mobility and success of health aides in anticipation of providing services;

Develop a training plan to include partners across the T/TO's geographic region to enhance the training opportunities available to prospective health aides to include continuing education and clinical practice;

Identify best practices for integrating a CHAP workforce into an existing Tribal health system;

Address social determinants of health that impact the recruitment and retention of prospective health aides; and

Identify the total cost of full implementation of a CHAP within an existing Tribal health system.

Deadline: September 06, 2021

[Engaging Men in HIV Testing, Prevention, and Care \(R21 Clinical Trial Optional\) – \(CFDA 93.242\)](#)

The purpose of this Funding Opportunity Announcement (FOA) is to develop and test strategies to increase the engagement of men in HIV prevention and care within global settings and among US domestic populations who have evidenced lower rates of engagement and retention in HIV prevention and care. The R21 Exploratory/Developmental Grant supports studies that may involve considerable risk but may lead to a breakthrough in a particular area; or to the development of novel techniques, agents, methodologies, models; or applications that could have a major impact on a field of biomedical, behavioral, or clinical research.

Deadline: September 07, 2021

[Teaching Health Center Graduate Medical Education \(THCGME\) Program CFDA 93.530](#)

The purpose of the THCGME Program is to support the training of residents in primary care residency training programs in community-based ambulatory patient care centers. Programs will prepare residents to provide high quality care, particularly in rural and underserved communities, and develop competencies to serve these diverse populations and communities. Two award types are available:

1. Expansion awards for an expanded number of resident FTE positions at existing HRSA THCGME Programs.
2. New awards to support new resident FTE positions at new Teaching Health Centers (THCs), as funding permits. New THCs are those applicants that have never received payment under the HRSA THCGME Program for the applicable residency program in any previous fiscal year (FY).

Awards made through this announcement may be utilized to support the costs associated with resident FTE training only. THCGME Program funds may not be used for residency program development (e.g. the costs associated with accreditation). Applicants interested in applying for development funds to achieve accreditation to begin a new community-based primary care residency program should refer to the FY 2021 Teaching Health Center Planning and Development (THCPD) NOFO (HRSA-21-138), which is accessible via Grants.gov.

Deadline: September 21, 2021

[Service Area Competition CFDA 93.224](#)

This notice announces the opportunity to apply for funding under the Health Center Program's Service Area Competition (SAC). The Health Center Program supports domestic public or private, nonprofit community-based and patient-directed organizations that provide primary health care services to the Nation's medically underserved populations. The purpose of the SAC notice of funding opportunity (NOFO) is to ensure continued access to comprehensive, culturally competent, high-quality primary health care services for communities and populations currently served by the Health Center Program.

Deadline: October 04, 2021

[Mechanistic Studies on the Impact of Social Inequality on the Substance Use Trajectory \(R01 Clinical Trial Not Allowed\) CFDA 93.279](#)

This FOA invites investigations into neurocognitive mechanisms by which socioeconomic inequality impacts various points in the substance use trajectory.

Deadline: October 14, 2021

[Non-Viral Technologies for in vivo Delivery of Genome Editors \(R43/R44 Clinical Trial Not Allowed\)-\(CFDA 93.350\)](#)

The purpose of this PAR is to support the development and evaluation of non-viral technologies to deliver genome editors to disease-relevant somatic cells and tissues in vivo. The ultimate goal of these technologies is a translation into clinical trials of genome editing to treat human disease.

Deadline: January 05, 2022

[Postbaccalaureate Research Education Program \(R25 - Independent Clinical Trial Not Allowed\) CFDA-93.859](#)

This funding opportunity announcement (FOA) provides support to eligible, domestic institutions to develop and implement effective, evidence-informed approaches to biomedical research education and mentoring that will keep pace with the rapid evolution of the research enterprise. NIGMS expects that the proposed research education programs will incorporate extensive research experiences, well-designed courses for skills development, mentoring, cohort building activities, and career development elements to prepare recent baccalaureates from diverse backgrounds to transition into and complete rigorous research-focused doctoral degree programs (e.g., Ph.D. or M.D./Ph.D.) in biomedical fields. This program is limited to applications from doctoral degree-granting research-intensive institutions. This Funding Opportunity

Announcement (FOA) does not allow appointed participants to lead an independent clinical trial but does allow them to obtain research experience in a clinical trial led by a mentor or co-mentor.

Deadline: January 27, 2022

Novel Synthetic Nucleic Acid Technology Development (R21 Clinical Trial not allowed)-(CFDA 93.172)

This Funding Opportunity Announcement (FOA) solicits R21 grant applications to develop novel technologies that will enable substantive (no less than one order of magnitude) improvement in synthetic nucleic acids. The goal is to improve the quality, capabilities, and efficiency of nucleic acid synthesis and synthetic constructs at reasonable and decreased costs. Applicants may propose to develop novel complete synthesis and/or synthetic constructs systems, investigate challenges underlying key novel system components, or propose substantive improvements of at least an order of magnitude improvement to existing systems. Exploration of methods other than those currently in use is highly encouraged. High-risk/high-payoff applications are appropriate to achieve the goals of this FOA.

Deadline: June 24, 2022

Interactive Digital Media STEM Resources for Pre-College and Informal Science Education Audiences (SBIR) (R43/R44 Clinical Trial Not Allowed) CFDA 93.859

The purpose of this Funding Opportunity Announcement (FOA) is to provide opportunities for eligible small business concerns (SBCs) to submit NIH Small Business Innovation Research (SBIR) grant applications to develop interactive digital media science, technology, engineering and mathematics (STEM) resources that address student career choice and health and medicine topics for: (1) pre-kindergarten to grade 12 (P-12) students, and pre- and in-service teachers and families ("Teachers") or (2) Informal science education (ISE), i.e., outside the classroom resources for the general public. Interactive digital media (IDM) are defined as products and services on digital computer-based systems which respond to the user's actions by presenting content such as text, moving image, animation, video, audio, and video games. There is a large body of evidence that IDM technology has the potential to support learning in a variety of contexts from primary and secondary schools, to universities, adult education and workplace training. IDM is widely used to train, educate, and encourage behavioral changes in a virtual world format where progressive learning, feedback on success and user control are combined into an interactive and engaging experience. It is anticipated that this SBIR FOA will facilitate the translation of new or existing health and medicine-based, P-12 STEM curricula and museum exhibits into educational Interactive Digital Media STEM (IDM STEM) resources that will provide a hands-on, inquiry-based and learning-by-doing experience for students, teachers and the community.

Deadline: September 02, 2022

Palliative Care in Home and Community Settings (R01 Clinical Trial Optional) – (CFDA 93.361)

The purpose of this funding opportunity is to stimulate research aimed at determining needs and best practices for the integration of palliative care into home and community settings. Home and community in this FOA refer to the place where an individual resides or lives. Home- and community-based palliative care programs ensure those with serious, advanced illness who do not require hospitalization but are not appropriate for hospice have access to high-quality end-of-life and palliative care.

Deadline: September 7, 2022

Core Infrastructure Support for Cancer Epidemiology Cohorts (U01 Clinical Trial Not Allowed) CFDA 93.393

Through this Funding Opportunity Announcement (FOA), the National Cancer Institute (NCI) encourages grant applications for support of the core functions of Cancer Epidemiology Cohorts (CECs), as well as methodological research. This FOA is intended to support maintenance of existing CECs infrastructure and resource sharing with broader scientific communities.

Deadline: November 09, 2022

AIDS Drug Assistance Program (ADAP) Emergency Relief Funds (ERF) CFDA 93.917

This notice announces the opportunity to apply for funding under the Ryan White HIV/AIDS Program (RWHAP) Part B AIDS Drug Assistance Program (ADAP) Emergency Relief Funds (ERF). The Health Resources and Services Administration (HRSA), HIV/AIDS Bureau (HAB), Division of State HIV/AIDS Programs (DSHAP) administers this program.

ADAP ERF awards are intended for states/territories that demonstrate the need for additional resources to prevent, reduce, or eliminate ADAP waiting lists, including through cost-containment measures (for example, the provision of health care coverage assistance). HRSA will base ADAP ERF awards upon your ability to successfully demonstrate need for additional funding. An external objective review committee (ORC) will evaluate this need based on criteria published in this notice of funding opportunity (NOFO), with priority given to addressing existing waiting lists.

HRSA first funded the ERF initiative in August 2010, when numerous states/territories were experiencing ADAP waiting lists. At the time of this NOFO publication, there are no ADAP waiting lists. States/territories that establish a waiting list after the publication of this NOFO must report the waiting list to HRSA immediately and use funding awarded under this NOFO to remove clients from the waiting list. Previously, eligibility for this funding was limited to states/territories that had historically imposed waiting

lists. HRSA continues to anticipate an increase in potential clients in need of ADAP services due to loss of income and/or loss of health care coverage among people with HIV resulting from the economic downturn within states/territories. States/territories may use ERF funds to address current or projected increases in treatment needs aligned with ending the HIV epidemic in the U.S. or other unanticipated increases in the number of clients in their ADAP.

Deadline: October 25, 2021

[NCI Research Specialist \(Laboratory-based Scientist\) Award \(R50 Clinical Trial Not Allowed\) CFDA 93.393](#)

This Funding Opportunity Announcement (FOA) invites grant applications for the Research Specialist Award (R50) in any area of NCI-funded cancer research. This FOA is specifically for laboratory-based scientists. The Research Specialist Award is designed to encourage the development of stable research career opportunities for exceptional scientists who want to continue to pursue research within the context of an existing NCI-funded basic, translational, clinical, or population science cancer research program, but not serve as independent investigators. These non-tenure track scientists, such as researchers within a research program, are vital to sustaining the biomedical research enterprise. It is anticipated that only exceptional scientists who want to pursue research within the context of an existing NCI-funded cancer research program, but not serve as independent investigators, will be competitive for this award.

Deadline: November 01, 2021

[Ryan White HIV/AIDS Program HIV Care Grant Program – Part B States/Territories Formula and AIDS Drug Assistance Program Formula and ADAP Supplemental Awards CFDA 93.917](#)

This notice announces the opportunity to apply for funding under the Ryan White HIV/AIDS Program (RWHAP) Part B Base, AIDS Drug Assistance Program (ADAP) Base, ADAP Supplemental, Minority AIDS Initiative (MAI), and Emerging Communities (EC) program. The purpose of this program is to assist states and territories in developing and/or enhancing access to a comprehensive continuum of high quality HIV care and treatment for low-income people with HIV. For the purposes of this program, “states/territories” include the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

Deadline: November 08, 2021

[Advancing Validated Drug Targets for Substance Use Disorders \(R41/R42 - Clinical Trial Not Allowed\) CFDA 93.279](#)

This Funding Opportunity Announcement (FOA) solicits grant applications from small business concerns (SBCs) to continue research projects with robustly validated targets for Substance Use Disorders (SUDs). This FOA will provide funding for projects entering at either assay development (AD), lead identification (LI), lead optimization (LO), or preclinical development (PCD) stages to allow for the ultimate goal of successfully completing Investigational New Drug-enabling activities.

Deadline: February 18, 2022

[Advancing Validated Drug Targets for Substance Use Disorders \(R43/R44 - Clinical Trial Not Allowed\) CFDA 93.279](#)

This Funding Opportunity Announcement (FOA) solicits grant applications from small business concerns (SBCs) to continue research projects with robustly validated targets for Substance Use Disorders (SUDs). This FOA will provide funding for projects entering at either assay development (AD), lead identification (LI), lead optimization (LO), or preclinical development (PCD) stages to allow for the ultimate goal of successfully completing Investigational New Drug-enabling activities.

Deadline: February 18, 2022

[New Investigators to Promote Workforce Diversity in Genomics, Bioinformatics, or Bioengineering and Biomedical Imaging Research \(R01 Clinical Trial Optional\) CFDA 93.837](#)

This Funding Opportunity Announcement (FOA) solicits R01 grant applications that propose independent research projects that are within the scientific mission areas of the National Human Genome Research Institute (NHGRI), National Institute of Biomedical Imaging and Bioengineering (NIBIB), and All of Us Research Program (All of Us). This program is intended to support Early Stage Investigators and New Investigators (<https://grants.nih.gov/policy/early-investigators/index.htm>) from diverse backgrounds, including those from groups underrepresented in the health-related sciences.

Deadline: February 22, 2021

Pilot and Feasibility Studies to Improve Technology Adoption and Reduce Health Disparities in Type 1 Diabetes Mellitus (R01 Clinical Trial Required) CFDA 93.847

The purpose of this Funding Opportunity Announcement (FOA) is to support pilot and feasibility trials of interventions designed to improve technology adoption in individuals from underrepresented backgrounds with type 1 diabetes mellitus (T1D). Through successful execution, these pilot and feasibility trials should provide feasibility data for larger, pragmatic trials with the overarching goal of reducing health disparity in T1D through improving technology usage in individuals from minority racial and ethnic backgrounds.

Deadline: March 03, 2022

Limited Competition Emergency Awards: Shared Personal Protective Equipment Resources for COVID-19 Related Vaccine and Treatment Clinical Trials and Clinical Studies (S10 Clinical Trial Not Allowed) CFDA 93.855

The purpose of this public health emergency funding opportunity is to provide Personal Protective Equipment (PPE) to directly support the needs of the NIAIDs vaccine and treatment clinical trials and clinical studies for COVID-19. This program will ensure that adequate protective equipment is available to directly assist in safely carrying out the clinical activities and direct interactions with the patients participating in the trial. Eligibility is limited to recipients conducting COVID-related clinical research and clinical studies supported by NIAIDs emergency appropriation provided by The Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 ,and The Coronavirus Aid, Relief and Economic Security (CARES) Act, The Coronavirus Response and Relief Supplemental Appropriations Act, 2021 and The American Rescue Plan Act of 2021.

Deadline: July 15, 2022

Genome Research Experiences to Attract Talented Undergraduates into the Genomics Field to Enhance Diversity (R25 Clinical Trial Not Allowed) CFDA 93.172

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The overarching goal of this NHGRI R25 program is to support educational activities that encourage undergraduates from diverse backgrounds, including those from groups underrepresented in the biomedical workforce, to pursue further training and careers in the scientific, medical, ethical, social and/or legal areas of genomics research. To accomplish the stated over-arching goal, this FOA will support creative educational activities with a primary focus on: Research Experiences Courses for Skills Development Mentoring Activities This Genome Research Experiences to Attract Talented Undergraduates into the Genomic Field to Promote Diversity (GREAT) Program will support collaborative institutional

partnerships that provide two-year research education programs for undergraduates enrolled at minority-serving institutions (MSIs) or Institutional Development Award (IDeA)-eligible institutions. A partnership will include a MSI or IDeA-eligible institution, and one or more research-intensive institutions or organizations with a suitable research base for graduate-level training in scientific areas of interest to NHGRI.

Deadline: July 01, 2023

[NINDS Research Education Opportunities \(R25 Clinical Trial Not Allowed\) CFDA 93.853](#)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The over-arching goal of this NINDS R25 program is to support educational activities that complement and/or enhance the training of a workforce to meet the nations biomedical, behavioral and clinical research needs.

Deadline: July 13, 2023

[BRAIN Initiative: Research on the Ethical Implications of Advancements in Neurotechnology and Brain Science \(R01 Clinical Trial Optional\) CFDA 93.173](#)

Reissue of RFA-MH-19-400. This funding opportunity announcement (FOA), in support of the NIH Brain Research through Advancing Innovative Neurotechnologies (BRAIN) Initiative, is one of several FOAs aimed at supporting transformative discoveries that will lead to breakthroughs in understanding human brain function. Guided by the long-term scientific plan, BRAIN 2025: A Scientific Vision, this FOA specifically seeks to support efforts addressing core ethical issues associated with research focused on the human brain and resulting from emerging technologies and advancements supported by the BRAIN Initiative. The hope is that efforts supported under this FOA might be both complementary and integrative with the transformative, breakthrough neuroscience discoveries supported through the BRAIN Initiative.

Deadline: October 11, 2023

[Co-infection and Cancer \(R01 Clinical Trial Not Allowed\)-CFDA 93.393](#)

This initiative seeks to enhance our mechanistic and epidemiologic understanding of infection-related cancers, with a focus on the etiologic roles of co-infection in cancer. Preference will be given to

investigations of co-infections with known oncogenic agents (e.g., *Helicobacter pylori* [*H. pylori*] and Epstein Barr virus [EBV]; excluding human immunodeficiency virus [HIV]) and of co-infections that engendered novel opportunities for prevention and treatment. Coinfection is defined as the occurrence of infections by two or more infectious (pathogenic or nonpathogenic) agents either concurrently or sequentially and includes both acute and chronic infections by viruses, bacteria, parasites, and/or other microorganisms.

Deadline: January 07, 2023

EHR Core Research (ECR): Building Capacity in STEM Education Research-CFDA 93.855

This Funding Opportunity Announcement (FOA), issued by the National Institute of Allergy and Infectious Diseases (NIAID), invites applications for investigator-initiated Resource-Related Research Projects (R24). The proposed resource must provide a significant benefit to currently funded high priority projects in need of further coordination and support in the areas specified. Under rare circumstances, this mechanism may be used to support the development of a new resource to the broader scientific community of the NIAID. It is anticipated that the request for resource support through the R24 activity code will occur on an infrequent basis and only in circumstances where other mechanisms of support from the NIAID are not appropriate. The proposed resources should be relevant to the scientific areas of the NIAID mission including the biology, pathogenesis, and host response to microbes, including HIV; the mechanisms of normal immune function and immune dysfunction resulting in autoimmunity, immunodeficiency, allergy, asthma, and transplant rejection; and translational research to develop vaccines, therapeutics, and diagnostics to prevent and treat infectious, immune-mediated, and allergic diseases.

Deadline: January 07, 2023

Archiving and Documenting Child Health and Human Development Data Sets (R03 Clinical Trial Not Allowed)-CFDA 93.865

The purpose of this funding opportunity announcement (FOA) is to invite R03 applications to support archiving and documenting existing data sets to enable secondary analysis of these data by the scientific community. The priority of this program is to archive data sets within the scientific mission of the NICHD; the highest priority is to archive data collected with NICHD support.

Deadline: January 07, 2023

[NIDCR Predoctoral to Postdoctoral Transition Award for A Diverse Dental, Oral, and Craniofacial Research Workforce \(F99/K00 Clinical Trial Not Allowed\)-CFDA 93.121](#)

The purpose of this award is to support phased transition of outstanding graduate students from groups underrepresented in the biomedical, clinical, behavioral and social sciences research enterprise from graduate work to postdoctoral research positions in Dental, Oral, and Craniofacial (DOC) research. The first phase (F99) will support the final two years of graduate research training for individuals in Ph.D. or dual degree clinician-scientist programs. Following graduation and attainment of a postdoctoral research position, the second phase (K00) will provide support for up to three years of mentored postdoctoral research.

Deadline: January 07, 2023

[Integration of Imaging and Fluid-Based Tumor Monitoring in Cancer Therapy \(R01 Clinical Trial Optional\) CFDA 93.393](#)

Through this funding opportunity announcement (FOA), the National Cancer Institute (NCI) seeks research project (R01) grant applications describing projects that integrate imaging and fluid-based tumor monitoring (liquid biopsy) assays during cancer therapy in patients to determine the optimal use of those modalities in the characterization of therapy response and/or emergence of resistance.

Deadline: September 07, 2024

[Utilizing Invasive Recording and Stimulating Opportunities in Humans to Advance Neural Circuitry Understanding of Mental Health Disorders \(R01 Clinical Trial Optional\) CFDA 93.242](#)

Reissue of RFA-20-350. The purpose of this Funding Opportunity Announcement (FOA) is to encourage applications to pursue invasive neural recording studies focused on mental health-relevant questions. Invasive neural recordings provide an unparalleled window into the human brain to explore the neural circuitry and neural dynamics underlying complex moods, emotions, cognitive functions, and behaviors with high spatial and temporal resolution. Additionally, the ability to stimulate, via the same electrodes, allows for direct causal tests by modulating network dynamics. This funding opportunity aims to target a gap in the scientific knowledge of neural circuit function related to mental health disorders. Researchers should target specific questions suited to invasive recording modalities that have high translational potential. Development of new technologies and therapies are outside the scope of this FOA.

Deadline: September 07, 2024

Investigator Initiated Research in Computational Genomics and Data Science (R01 Clinical Trial Not Allowed) CFDA 93.172

The purpose of this funding opportunity announcement (FOA) is to invite applications for a broad range of research efforts in computational genomics, data science, statistics, and bioinformatics relevant to one or both of basic or clinical genomic science, and broadly applicable to human health and disease. This FOA supports fundamental genomics research developing innovative analytical methodologies and approaches, early-stage development of tools and software, and refinement or hardening of software and tools of high value to the biomedical genomics community. Work supported under this FOA should be enabling for genomics and be generalizable or broadly applicable across diseases and biological systems. All applications should address how the methods would scale to address increasingly larger data sets.

Deadline: September 07, 2024

Investigator Initiated Research in Computational Genomics and Data Science (R21 Clinical Trial Not Allowed) CFDA 93.173

The purpose of this funding opportunity announcement (FOA) is to invite applications for a broad range of research efforts in computational genomics, data science, statistics, and bioinformatics relevant to one or both of basic or clinical genomic science, and broadly applicable to human health and disease. This FOA supports fundamental genomics research developing innovative analytical methodologies and approaches, early-stage development of tools and software, and refinement or hardening of software and tools of high value to the biomedical genomics community. Work supported under this FOA should be enabling for genomics and be generalizable or broadly applicable across diseases and biological systems. All applications should address how the methods would scale to address increasingly larger data sets.

Deadline: September 07, 2024

Imaging - Science Track Award for Research Transition (I/START) (R03-Basic Experimental Studies with Humans Required) CFDA 93.279

This funding opportunity announcement (FOA) encourages Small Research Grant (R03) applications to facilitate the entry of investigators to the area of neuroimaging, including both new investigators and established investigators seeking to adopt neuroimaging methodologies in their research programs, to enable the conduct of small "proof of concept" studies. The R03 is intended to support research projects that can be carried out in a short period of time with limited resources.

Deadline: September 07, 2024

[Initiation of a Mental Health Family Navigator Model to Promote Early Access, Engagement and Coordination of Needed Mental Health Services for Children and Adolescents \(R01 Clinical Trial Required\) CFDA 93.242](#)

Reissue of PAR-18-428. The purpose of this Funding Opportunity Announcement (FOA) is to encourage research applications to develop and test the effectiveness and implementation of family navigator models designed to promote early access, engagement and coordination of mental health treatment and services for children and adolescents who are experiencing early symptoms of mental health problems. For the purposes of this FOA, NIMH defines a family navigator model as a health care professional or paraprofessional whose role is to deploy a set of strategies designed to rapidly engage youth and families in needed treatment and services, work closely with the family and other involved treatment and service providers to optimize care and monitor the trajectory of mental health symptoms and outcomes over time. Applicants are encouraged to develop and test the navigator models ability to promote early access, engagement and coordination of mental health treatment and services for children and adolescents as soon as symptoms are detected. Of interest are navigator models that coordinate needed care strategies, determine the personalized match to the level of needed service amount, frequency and intensity, and harness novel technologies to track and monitor the trajectory of clinical, functional and behavioral progress toward achieving intended services outcomes. This FOA is published in parallel to a companion R34.

Deadline: September 07, 2024

[Effectiveness of School-Based Health Centers to Advance Health Equity \(R01 Clinical Trial Optional\) CFDA 93.242](#)

The purpose of this Funding Opportunity Announcement is to support research that investigates the effectiveness of school-based health centers (SBHCs) as a health services care delivery model to address the needs of school-aged children from populations with health disparities (underserved youth).

Deadline: January 07, 2025

**U.S. Department of Housing and Urban
Development**

[Eviction Protection Grant Program CFDA 14.537](#)

The overall purpose of the Eviction Protection Grant Program is to support experienced legal service providers, not limited to legal service corporations, in providing legal assistance at no cost to low-income tenants at risk of or subject to eviction. HUD's Office of Policy Development and Research is making available grant funds to non-profit or governmental entities to provide services in areas with high rates of evictions or prospective evictions, including rural areas. This grant program plays an integral role in helping individuals and families, including people of color who are disproportionately represented among those evicted, people with limited English proficiency and people with disabilities, avoid eviction or minimize the disruption and damage caused by the eviction process.

Deadline: September 10, 2021

Resident Opportunity and Self-Sufficiency Service Coordinator Program CFDA 14.870

The Resident Opportunity & Self Sufficiency Service Coordinator (ROSS-SC) program is designed to assist residents of Public and Indian Housing make progress towards economic and housing self-sufficiency by removing the educational, professional and health barriers they face. Self-sufficiency is defined as an individual's ability to support their household by maintaining financial, housing, and personal/family stability. To achieve self-sufficiency, an individual moves along a continuum towards economic independence and stability; such movement is facilitated by the achievement of individual educational, professional, and health-related goals.

To help residents make progress towards self-sufficiency, HUD provides ROSS-SC grant funding to eligible applicants to hire a Service Coordinator who assesses the needs of Public and Indian housing residents and links them to local training and supportive services that will enable participants to move along the self-sufficiency continuum. In the case of elderly/residents with disabilities, the Service Coordinator also links them to congregate and other supportive services which enable them to age/remain in place in addition to providing other desired training and support services which are made available to other residents. Through the ROSS-SC grant, HUD also provides funding for grantees to provide direct services to further support the work of the ROSS-SC and ultimately, the goals of the ROSS program.

Deadline: September 17, 2021

U.S. Department of Homeland Security

Fiscal Year 2021 Flood Mitigation Assistance (FMA) CFDA 97.029

The Flood Mitigation Assistance (FMA) program makes federal funds available to states, U.S. territories, federally recognized tribal governments, and local communities to reduce or eliminate the risk of repetitive flood damage to buildings and structures insured under the National Flood Insurance Program (NFIP). It does so with a recognition of the growing flood hazards associated with climate change¹, and of the need for flood hazard risk mitigation activities that promote climate adaptation and resilience with respect to flooding. These include both acute extreme weather events and chronic stressors which have been observed and are expected to increase in the future.

Deadline: January 28, 2022

[Fiscal Year 2021 Building Resilient Infrastructure and Communities \(BRIC\) CFDA 97.047](#)

The Building Resilient Infrastructure and Communities (BRIC) program makes federal funds available to states, U.S. territories, federally recognized tribal governments, and local communities for hazard mitigation activities. It does so with a recognition of the growing hazards associated with climate change¹, and of the need for natural hazard risk mitigation activities that promote climate adaptation and resilience with respect to those hazards. These include both acute extreme weather events and chronic stressors which have been observed and are expected to increase in the future.

Deadline: January 28, 2022

U.S. Department of the Interior

[Watershed Cooperative Agreement Program \(WCAP\) Not- for-Profit Acid Mine Drainage \(AMD\) Reclamation Projects CFDA 15.253](#)

Deadline: September 07, 2021

[FY 2022 Clean Vessel Act \(CVA\) CFDA 15.616](#)

The Clean Vessel Act of 1992 was signed November 4, 1992 (106 Stat. 5039) and codified in 33 U.S.C. 1322. The Act amended the Dingell-Johnson Sport Fish Restoration Act (Wallop-Breaux Act; 16 U.S.C. 777) and established the Clean Vessel Act Grant Program (CVA) to provide funding to the 50 States, the District of Columbia, Commonwealths, and territories of the United States of America (States). Funding allows States to construct, renovate, operate, and maintain pumpout stations and waste reception facilities for recreational boaters and to inform boaters about the use, benefits, and availability of pumpout stations and waste reception facilities. Subsequent reauthorizations of the Acts have allowed for the continuation of the CVA.

Deadline: November 24, 2021

U.S. Department of Justice

OVW Fiscal Year 2021 Firearms Technical Assistance Project Pilot Sites Initiative Solicitation CFDA 16.526

Abusers often use or threaten to use firearms against victims of domestic violence, as well as threatening the victim's children, friends, and relatives. Research demonstrates that when an abuser has access to a firearm, domestic violence is far more likely to be deadly; in fact, an abuser's access to firearms is the single greatest risk factor for intimate partner homicide, with the risk increasing five-fold. Unfortunately, this risk is widespread. National data describe firearms as the overwhelming weapon of choice in intimate partner homicides. According to the FBI's most recent Supplementary Homicide Report, more than half (55%) of intimate partner homicides were committed with a firearm in 2015. This figure has remained the same over the past decade; from 2001 to 2012, 55% of women killed by intimate partners were shot with a firearm. In addition to their lethality, firearms are used by abusers to inflict fear, intimidation, and coercive control over victims.

Beginning in FY 2012, the appropriation for OVW's Improving Criminal Justice Responses (ICJR) Program (CFDA# 16.590) has included a \$4,000,000 allocation to address domestic violence homicide prevention interventions (DVHPI). In FY 2016 and FY 2018, DVHPI funds were used to support the National Council of Juvenile and Family Court Judges' (NCJFCJ) Domestic Violence Homicide Prevention Firearms Technical Assistance Project (FTAP), which helps communities identify challenges limiting a more robust implementation of domestic violence firearms laws in their jurisdictions and assists them in establishing a localized response that is best suited to their communities' unique needs and characteristics. In 2019, six firearms sites were selected to receive intensive training and technical assistance under the FTAP. The FTAP focuses on ICJR purpose area 22 (domestic violence homicide reduction), and will help inform the ICJR Program on best and promising practices for jurisdictions implementing firearms relinquishment policies and practices throughout the civil and criminal justice system. DVHPI funds currently support intensive training and technical assistance through FTAP for six non-funded sites: Birmingham, AL; Columbus, OH; Muskogee Creek Nation, OK; Brooklyn, NY; the state of Vermont; and Spokane, WA (FTAP Sites). In order to deepen this work, in FY 2021, OVW will provide non-competitive funding directly to the six initial FTAP sites and offer competitive funding to support up to six additional sites to participate in the FTAP Initiative.

Deadline: September 20, 2021

U.S. Department of Labor

National Dislocated Worker Grants Program Guidance-(CFDA 17.277)

National Dislocated Worker Grants (DWGs) are discretionary grants awarded by the Secretary of Labor under Section 170 of the Workforce Innovation and Opportunity Act (WIOA) to provide employment-related services for dislocated workers. The Department funds two types of DWGs: Disaster Recovery and Employment Recovery.

Disaster Recovery DWGs provide funding to create temporary employment opportunities to assist with clean-up and recovery efforts when an area impacted by an emergency or major disaster is declared eligible for public assistance by the Federal Emergency Management Agency (FEMA) or is declared, or otherwise recognized, as an emergency or disaster of national significance by a Federal agency with authority or jurisdiction over Federal response to the disaster or emergency.

Employment Recovery DWGs temporarily expand capacity to serve dislocated workers and to meet the increased demand for employment and training services following a qualifying event. Qualifying events include major economic dislocations, such as plant closures, mass layoffs, or higher-than-average demand for employment and training activities for dislocated members of the Armed Forces and their spouses. Under 20 CFR 687.110(a)(5), the Secretary of Labor may determine other major dislocations eligible for Employment Recovery DWGs.

Deadline: Rolling grant

U.S. Department of State

U.S. Department of Transportation

FAA Aviation Research Grants Program CFDA 20.108

The FAA hereby announces its continuing interest in receiving applications for aviation research grants and cooperative agreements to pursue the long-term growth and short-term technical needs of civil aviation, under this funding opportunity. Eligibility of applicants for the award of an aviation research grant varies depending on the nature of the proposer's organization, as well as the character of the research being

proposed. In general, colleges, universities, and other non-profit research institutions under Section 501(c)(3) of Title 26 of United States Code, are eligible to apply for an aviation research grant.

The FAA Aviation Research Grants Program encourages and supports innovative, advanced research of potential benefit to the long-term growth of civil aviation and commercial space transportation. The pursuit of basic and applied research in scientific and engineering disciplines that have the potential to further knowledge and understanding on a broad front of emerging technologies is crucial to the realization of this goal. The intent is to encourage applied

research and development to enhance technology assimilation, transfer, and development in the FAA. The FAA Aviation Research Grants Program does not require the immediate application to Research and Development (R&D) programs, although this may occur in some cases. The FAA encourages the

submission of proposals that embrace the entire spectrum of physical, chemical, biological, medical, psychological, mathematical, and engineering sciences.

The following list illustrates topics of interest to those who may consider applying for a grant under this funding opportunity:

1. Capacity and Air Traffic Control Technology
2. Communications, Navigation, and Surveillance
3. Aviation Weather
4. Airports
5. Aircraft Safety Technology
6. Human Factors and Aviation Medicine
7. Systems Science/Operations Research
8. Unmanned Aircraft System (UAS) Unmanned Traffic Management (UTM), Class E Upper Airspace Traffic Management (ETM), and Urban Air Mobility (UAM)

Deadline: September 27, 2027

[Accelerated Innovation Deployment \(AID\) Demonstration Program CFDA 20.200](#)

The FHWA continues the Accelerated Innovation Deployment (AID) Demonstration authorized within the Technology and Innovation Deployment Program (TIDP) under the Fixing America's Surface Transportation (FAST) Act. The AID Demonstration provides incentive funding for any project activities eligible for assistance under title 23, U.S.C. in any phase of a highway transportation project between project planning and project delivery including planning, financing, operation, structures, materials, pavements, environment, and construction that address the TIDP goals. This Notice of Funding Opportunity (693JJ321NF-AIDDP) requests grant applications during the identified solicitation period, provides selection criteria, application requirements, and the evaluation process.

Deadline: September 28, 2021

FY 2021 Competitive Funding Opportunity: Research to Practice (R2P) Program CFDA 20.531

The Federal Transit Administration (FTA) announces the availability of \$545,000 of fiscal year (FY) 2014 and FY 2015 funds to develop a dissemination plan to share successful findings from FTA-funded research projects. A synopsis and the full announcement are posted on GRANTS.GOV site as opportunity FTA-2021-011-TRI-R2P. Proposals must be submitted electronically through GRANTS.GOV by 11:59 PM Eastern Time on 10/12/2021.

Deadline: October 12, 2021

2021 Surface Transportation System Funding Alternatives (STSFA) Grants CFDA 20.200

The Fixing America's Surface Transportation (FAST) Act of 2015, Pub. L. No. 114-94, § 6020, authorized the Secretary of Transportation to establish the Surface Transportation System Funding Alternatives (STSFA) Program. The purpose of the STSFA Program is to provide grants to States to demonstrate user-based alternative revenue mechanisms that utilize a user-fee structure to maintain the long-term solvency of the Highway Trust Fund. The FAST Act authorized \$15 million in FY 2016, and \$20 million annually from FY 2017 through 2020 from the Highway Research and Development Program for grants for the STSFA demonstration projects.

The grants are only available to States; however, groups of States can form partnerships for regional or national proposals.[3] Section 6020 of the FAST Act authorizes DOT to enter into agreements with State authorities to demonstrate user-based alternative revenue mechanisms.

Deadline: November 1, 2021

FY21-CRS-Consolidated Rail Infrastructure and Safety Improvements CFDA 20.325

This program funds projects that improve the safety, efficiency, and reliability of intercity passenger and freight rail.

Deadline: November 29, 2021

U.S. Department of Treasury

[RESTORE Act Direct Component - Construction and Real Property Activities CFDA 21.015](#)

Under the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012 (RESTORE Act), Subtitle F of P.L. 112-141, the Gulf Coast Restoration Trust Fund (Trust Fund) was established in the Treasury of the United States. Eighty percent of the civil penalties paid after July 6, 2012, under the Federal Water Pollution Control Act in connection with the Deepwater Horizon oil spill will be deposited into the Trust Fund and invested. The RESTORE Act created five components through which funds will be disbursed.

Treasury is publishing multiple funding opportunity notices as part of the RESTORE Act. This announcement applies only to the Direct Component, and is only for applications for eligible non-construction activities, including projects with or without a non-federal share for another federally funded project. This announcement also includes planning assistance needed to prepare the Multiyear Implementation Plan (Multiyear Plan) required by the RESTORE Act. For eligible activities involving construction and/or acquisition of real property, applicants should refer to the construction and real property acquisition funding opportunity announcement.

Trust Fund amounts are available to carry out eligible activities described in the RESTORE Act. These are:

1. Restoration and protection of the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches and coastal wetlands of the Gulf Coast region.
2. Mitigation of damage to fish, wildlife and natural resources.
3. Implementation of a federally approved marine, coastal, or comprehensive conservation management plan, including fisheries monitoring.
4. Workforce development and job creation.
5. Improvements to or on State parks located in coastal areas affected by the Deepwater Horizon oil spill.
6. Infrastructure projects benefitting the economy or ecological resources, including port infrastructure.
7. Coastal flood protection and related infrastructure.
8. Planning assistance.
9. Administrative costs.
10. Promotion of tourism in the Gulf Coast region, including recreational fishing.
11. Promotion of the consumption of seafood harvested from the Gulf Coast region.

Deadline: January 30, 2022

[RESTORE Act Direct Component-- Non-Construction Activities CFDA 21.015](#)

Under the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012 (RESTORE Act), Subtitle F of P.L. 112-141, the Gulf Coast Restoration Trust Fund (Trust Fund) was established in the Treasury of the United States. Eighty percent of the civil penalties paid after July 6, 2012, under the Federal Water Pollution Control Act in connection with the Deepwater Horizon oil spill will be deposited into the Trust Fund and invested. The RESTORE Act created five components through which funds will be disbursed.

Treasury is publishing multiple funding opportunity notices as part of the RESTORE Act. This announcement applies only to the Direct Component, and is only for applications for eligible non-construction activities, including projects with or without a non-federal share for another federally funded project. This announcement also includes planning assistance needed to prepare the Multiyear Implementation Plan (Multiyear Plan) required by the RESTORE Act. For eligible activities involving construction and/or acquisition of real property, applicants should refer to the construction and real property acquisition funding opportunity announcement.

Trust Fund amounts are available to carry out eligible activities described in the RESTORE Act. These are:

1. Restoration and protection of the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches and coastal wetlands of the Gulf Coast region.
2. Mitigation of damage to fish, wildlife and natural resources.
3. Implementation of a federally approved marine, coastal, or comprehensive conservation management plan, including fisheries monitoring.
4. Workforce development and job creation.
5. Improvements to or on State parks located in coastal areas affected by the Deepwater Horizon oil spill.
6. Infrastructure projects benefitting the economy or ecological resources, including port infrastructure.
7. Coastal flood protection and related infrastructure.
8. Planning assistance.
9. Administrative costs.
10. Promotion of tourism in the Gulf Coast region, including recreational fishing.
11. Promotion of the consumption of seafood harvested from the Gulf Coast region.

Deadline: January 30, 2022

U.S. Department of Veterans Affairs

State Veterans Home Construction Grant Program CFDA 64.005

Grants are available to State Governments for construction or renovations of State operated Veterans Extended Care Facilities. The Department of Veterans Affairs participation may not exceed 65% of the total project costs. Review governing regulation before submitting an application (38 CFR Part 59). If the state is submitting a new grant application, it must submit a complete initial application (Section A of the project checklist) on Grants.gov by April 15th in order to be eligible for listing on the Priority List for the next fiscal year. Once the complete initial application is retrieved from Grants.gov by Program Staff, the grant applicant will receive 1) an automated notification from Grants.gov confirming receipt by the Program and 2) an email from Program Staff indicating the application's FAI number and corresponding project page in MAX.gov for submission of subsequent items. Note that Grants.gov is used only once to submit a new grant application. Applicants must submit complete initial applications on Grants.gov in order to be considered. Please contact Program Staff prior to submission if you need assistance understanding the requirements pertaining to an initial grant application, or if you need general assistance. Renovation or Life Safety initial grant applications require items A.1.-A.7. in Section A of the project checklist. Grant applicants, do not submit items A.8.-A.13 for Renovation of Life Safety grants. New Home Construction or Bed Replacement initial grant applications require all items in Section A (A.1.-A.13) of the project checklist.

Required for ALL applications

- A.1.A Project Scope
- A.1.B Form SF424
- A.1.C Form SF424D
- A.1.D Form SF424C
- A.1.E Budget Justification Worksheet (must align with SF424C budget form)
- A.2. Governor's designation of authorized state official and contact person
- A.3. Needs assessment (as outlined in VA Form 10-0388-1)
- A.4. State Clearinghouse Comments (E.O. 12372) single point of contact and compliance statement
- A.5. Schematics
- A.6. Signed Initial Application Certification VA Form 10-0388-1
- A.7. Safety citation/letter (Only Life Safety projects need to submit this).

Required for Bed Replacement or New Construction - Items A1-A6 and the below items

- A.8. Space program analysis (NHC use Form 10-0388-3, ADHC use Form 10-0388-4)
- A.9. Five-year capital plan for state's entire state home program
- A.10. Financial plan for state facility's first three years of operation
- A.11. Documentation that there is a reasonable basis to conclude that the facility when complete will be fully occupied
- A.12. Authorized state official's certification of the total number of state-operated nursing home and domiciliary beds and occupancy rate

A.13. Authorized state official's certification that the number of state home beds does not exceed the requirement in 38 CFR 59.40 or justification for number of state home beds exceeding 38 CFR 59.40 based on travel distance.

Deadline: Rolling (Applications should be submitted by April 15 of the fiscal year)

Section III PROGRAM FUNDING THROUGH PRIVATE, CORPORATE & COMMUNITY FOUNDATIONS

Boat US Foundation Accepting Grant Applications for Safe and Clean Boating Projects

The Boat US Foundation for Boating Safety and Clean Water is accepting applications for its Grassroots Grants Program, which awards funds on an annual basis to nonprofit organizations, boating clubs, and student groups in the United States for projects that utilize innovative approaches to education about safe and clean boating.

The foundation is looking for creative projects that promote safe and clean boating on local waterways. Past topics have ranged from PSAs on the effects of boating under the influence of hands-on education about the effects of marine debris.

Projects the foundation is most interested in funding will be unique (topic, methods, or delivery mechanism); include extensive outreach to boaters; use technology to educate boaters, including social media and the Web; have a widespread reach (not just a handful of boaters); include hands-on work with the boating community, and have a way to measure the success of the program.

Applicants can include boating groups, clubs and associations, student groups, and local nonprofit organizations, including local chapters of national organizations. Grants will not be awarded to government agencies, international organizations, for-profit businesses, or individuals.

Applicants may request up to \$10,000. Funded projects must be completed within a year.

Deadline: Open

Baseball Tomorrow Fund

The Baseball Tomorrow Fund (BTF) awards grants to non-profit and tax-exempt organizations involved in the operation of youth baseball and/or softball programs and facilities. Organizations operating in the U.S.

and international locations are eligible to apply. To date, an average of 400 requests are received annually; approximately 10 percent are awarded grants. Grants are awarded every quarter.

Review cycle deadlines:

- January-March: January 1
- April-June: April 1
- July-September: July 1
- October-December: October 1

Surdna Foundation Sustainable Environment Grants

The Sustainable Environments Program is working to overhaul our country’s outdated and crumbling infrastructure with a new approach that will foster healthier, sustainable, and just communities. We believe in the potential of what we call “next-generation infrastructure” to improve transit systems, make buildings more energy-efficient, better manage our water systems and rebuild regional food systems. Focusing on urban areas and their surrounding suburbs, we seek solutions that connect and improve these infrastructure systems in ways that maximize positive impacts and minimize negative environmental, economic and social consequences.

JFNY Grant for Arts and Culture

The Japan Foundation New York office (JFNY) accepts applications for projects that take place within the 37 states east of Rocky Mountains listed below for the JFNY Grant throughout the year. This grant aims to support projects that will further understand of Japanese arts and culture. Successful projects may be granted up to \$5,000. Priority will be given to those projects that have secured additional funding from sources other than the Japan Foundation.

Deadline: Applications must be received at least 3 months before the beginning date of the project.

CSX Beyond Our Rails Grant

CSX provides non-profit assistance and support through a variety of programs, including grants that typically range from \$2,500 to \$5,000 for projects focusing on safety, community, wellness, and/or the environment.

Examples given for environmental projects include:

- Teaching environmental stewardship
- Planting eco-friendly trees and plants
- Leading and supporting environmental cleanups
- Recycling and waste minimization
- Promoting energy efficiency and carbon reduction

Deadline: Ongoing

Laboratory Equipment Donation Program for Colleges, Universities, and Museums

The Laboratory Equipment Donation Program (LEDP), formerly the Energy-Related Laboratory Equipment (ERLE) Grant Program, was established by the United States Department of Energy (DOE) to grant surplus and available used energy-related laboratory equipment to universities and colleges in the United States for use in energy-oriented educational programs.

Deadline: Ongoing

Zayed Future Energy Global High Schools Prize

The primary aim of the Global High Schools category is to inspire future generations across the globe by instilling an ethos of sustainability from an early age, including an appreciation of issues in energy, and broader sustainability. Each school will submit a detailed proposal for a project, and the Prize will become a grant that enables the project's completion. While the main objective is to promote sustainability in schools, a special emphasis of the proposed project should be on specific measurable initiatives to promote renewable energy and sustainability, which may include improvements in energy or water efficiency or a reduction in waste.

Waste Management Charitable Giving

Healthy thriving communities depend on involved citizens, organizations and corporate partners for momentum. We lend our support and services to causes that promote civic pride, economic development, and revitalization. Every community has its challenges, and we strive always to be part of problem-solving initiatives. Programs that Waste Management is most motivated to support include environment, environmental education, and causes important to the areas where we operate. Applications are accepted year-round and are reviewed continuously. Given the large number of requests received, please anticipate an estimated two-month review period for each request.

Clif Bar Foundation Small Grants

These grants are awarded for general organizational support as well as funding for specific projects. Small grants average approximately \$7,000 each. Priority is given to applicants that: Address our funding priorities from a holistic perspective; Protect Earth's beauty and bounty; Create a robust, healthy food system; Increase opportunities for outdoor activity; Reduce environmental health hazards; Build stronger communities; Operate with clearly defined objectives and viable plans to achieve them; Demonstrate strong community ties and operate at the community level; Promote positive change through both the projects and their implementation process.

Deadline: Applications are reviewed three times a year; the deadlines are the 1st of February, June, and October. Grants awarded during a particular cycle will be announced at the beginning of the following cycle.

Foundation for Contemporary Art Accepting Applications for Emergency Grants

Since its inception in 1963, the mission of the Foundation for Contemporary Arts has been to encourage, sponsor, and promote innovative work in the arts created and presented by individuals, groups, and organizations.

Created in 1993, the foundation's Emergency Grants program provides grants of up to \$2,000 to innovative visual and performing artists who have unanticipated, sudden opportunities to present their work to the public when there is insufficient time to seek other sources of funding; or who incur unexpected or unbudgeted expenses for projects close to completion with committed exhibition or performance dates.

To be eligible, applicants must be living, working, and paying taxes in the United States; have committed to a performance or exhibition opportunity and be able to provide specific dates at the time of application; and be an individual artist or an individual representing an artist collective, ensemble, or group. Curators, producers, workshop organizers, organizations, or arts presenters are not eligible to apply.

Deadline: OPEN

Weyerhaeuser Giving Fund

We support the U.S. and Canadian communities where we have a significant presence or business interest. These communities range from rural to metropolitan, each with unique priorities and needs. Our employees serve on local advisory committees for our Giving Fund and develop funding priorities within four focus areas to support their particular communities. This provides a strong companywide framework for giving while allowing flexibility to meet unique needs in our different communities.

Through the Weyerhaeuser Giving Fund we concentrate the majority of our funding in four focus areas:

- Affordable Housing and Shelter
- Education and Youth Development
- Environmental Stewardship
- Human Services, Civic and Cultural Growth

To be eligible for funding, a program must:

- Serve a Weyerhaeuser community
- Be a tax-exempt, nonprofit public charity classified under Section 501(c)(3) of the U.S. Internal Revenue Code OR a registered charity in Canada with a Canada Revenue Agency Number, or registered as a provincial nonprofit society OR a public education

institution or government entity qualified under Section 170(c)(1) of the U.S. Internal Revenue Code or qualified as a Canadian municipality.

Wells Fargo Corporate Giving Programs

Wells Fargo supports nonprofit organizations that work on a community level in the areas of human services, arts and culture, community development, civic responsibility, education, environmental consciousness, and volunteerism.

Deadline: Applications accepted on an ongoing basis.

Good Sports Accepting Applications for Sports Equipment Grant

Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization can focus on the respective needs of each program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for two years. During that time, organizations can make up to six separate donation requests — as long as the need is well documented, donations will be granted. There is no need to resubmit a full application again during the two years.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers a consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

Deadline: Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks before the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time.

[Karma for Cara Foundation Invites Applications for Youth Microgrants](#)

The Karma for Cara Foundation is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the Johns Hopkins Kimmel Cancer Center. Cara and her two brothers began volunteering at a young age as part of their family's commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores.

Deadline: OPEN

[VFW Accepting Applications From Veterans for Emergency Financial Assistance](#)

Veterans of Foreign Wars is accepting applications from active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. Since the program's inception, Unmet Needs has distributed more than \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The hardship must be the result of deployment, a military pay issue, or military-related illness or injury. It cannot be due to civil legal or domestic issues, misconduct, or any issues that are a result of spousal separation or divorce, financial mismanagement, or bankruptcy.

Deadline: OPEN

[Start a Snowball Invites Applications for Youth Philanthropy Projects](#)

Start a Snowball, Inc. encourages kids of all ages to engage in philanthropic and community service activities. The organization believes that even one child with the right intentions and support can start a project that seems small in the beginning and eventually grows ("snowballs") into something that inspires and benefits an entire community.

To help kids, kick off their philanthropy efforts, start a Snowball awards \$100 in seed funding for projects taken on by individuals or organizations.

To be eligible, projects must be led by youth between the ages of 5 and 18 and have the intention of doing good.

Start a Snowball does not give directly to collection funds. The organization also does not provide support for fundraisers for sports teams, unless they serve an underserved or disadvantaged group or support projects that are discriminatory or political.

Deadline: Rolling

[Craft Emergency Relief Fund Accepting Applications From Craftspeople in Need](#)

The Craft Emergency Relief Fund is a national nonprofit organization that awards small grants and loans to professional craftspeople experiencing career-threatening illness, accident, fire, theft, or natural disaster.

Financial assistance ranges from \$500 to \$8,000. Other services include referrals to craft suppliers who have agreed to offer discounts on materials and equipment to craftspeople eligible for CERF funds and booth fee waivers from specific craft show producers.

CERF loan recipients are expected to repay the loan in full within five years, enabling CERF to have funds readily available for future craftspeople in need.

Applicants must be a professional artist working in a craft discipline (e.g., a potter, metalsmith, glass artist, woodworker, fiber artist, or furniture maker) who has had a recent career-threatening emergency and a legal resident of the U.S.

Deadline: OPEN

[Pollock-Krasner Foundation Accepting Applications From Artists With Financial Need](#)

The mission of the Pollock-Krasner Foundation is to aid those individuals who have worked as artists over a significant period. The foundation's dual criteria for grants are recognizable artistic merit and financial need, whether professional, personal or both.

Grants are intended for one year, with the size of the grant to be determined by the artist's circumstances and professional exhibition history. Artists applying for a grant must be actively exhibiting their current work in a professional artistic venue such as a gallery or museum space.

The foundation does not accept applications from commercial artists, video artists, performance artists, filmmakers, crafts-makers, computer artists, or any artist whose work primarily falls into these categories.

Deadline: OPEN

[Pollination Project Invites Applications From Social Entrepreneurs for Seed Grants](#)

The Pollination Project is accepting applications from social entrepreneurs looking to make their communities and world a better place. Seed grants of up to \$1,000 will be awarded to projects in the early stages of development, including those that promote compassion toward all life (people, planet, animals), environmental sustainability, justice in all its forms, community health and wellness, and social change-oriented arts and culture. Only applications for seed funding, as opposed to ongoing operational or program costs of a nonprofit organization, will be accepted. To be eligible, applicants must be a passionate, committed individual with a social change vision that fits within one or more of the categories above. Established nonprofit organizations with paid staff will not be considered.

Deadline: OPEN

[Hope for The Warriors Accepting Applications for Critical Care Support for Wounded Veterans](#)

Hope For The Warriors believes those touched by military service can succeed at home by restoring their sense of self, family, and hope. Nationally, the organization provides service members, veterans, and military families with comprehensive support programs focused on transition, health and wellness, peer engagement, and community resources.

Originally designed to meet short-term needs in the days following an injury, the Hope for The Warriors' Critical Care Coordination program has expanded to assist post-9/11 combat-wounded veterans and their families as they navigate through long-term recovery.

Program case coordinators work daily with post-9/11 combat-wounded service members and veterans, their families, and families of the fallen to meet immediate financial needs related to daily living including utilities, groceries, rent, mortgage, and rental deposits. The program provides casework assistance and resource referrals that will help clients immediately and in the future. Payment is always made to a third party.

To be eligible, applicants must be seeking support for needs that are a direct result of a service member's post-9/11 combat-related injury.

Deadline: OPEN

Singing for Change Accepting LOIs for Projects to Address Social and Environmental Problems

Created by Jimmy Buffett in 1995, Singing for Change initially was funded with contributions from the singer's summer concert tour. Since then, SFC has offered competitive grants to progressive nonprofit organizations working to address the root causes of social or environmental problems.

Priority will be given to organizations that keep their overhead low, include community members in planning, and collaborate with other groups to find innovative ways of solving common problems. SFC aims to advance the common good by empowering people to thrive and strengthen and sustain vibrant, diverse communities.

Grants will range in size from \$1,000 to \$10,000. Grants are made only to nonprofit organizations with tax-exempt status under section 501(c)(3) of the Internal Revenue Code, or to organizations that have a sponsoring agency with exempt status.

Deadline: Ongoing

A Little Hope Announces Youth Bereavement Support Services Grants

A Little HOPE supports organizations that provide bereavement support services and grief counseling to children and teens who have experienced the death of a parent, sibling, or loved one.

To be considered, applicants must e-mail (no telephone calls) the name of their program, website address, names of the executive director and program director, and the location of the program. No other information is needed or will be processed. Strong preference will be given to applicants who demonstrate a commitment to the use of community trained volunteers. Grant award amounts are based on the scope and budget of the project.

Deadline: OPEN

Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities

The mission of the Captain Planet Foundation is to promote and support high-quality educational programs that help children and youth understand and appreciate our world through hands-on learning experiences aimed at improving the environment in their schools and communities.

Grants are intended to serve as a means of bringing environment-based education to schools and inspiring youth and communities to participate in community service through environmental stewardship activities. The foundation will fund unique and innovative projects that do not precisely match the grant guidelines but otherwise promote the foundation's mission to advance hands-on environmental activities.

Deadline: January 31 (typically for fall and winter projects), September 30 (typically for spring and summer projects)

Chambers of Commerce Invited to Start Young Entrepreneur Academies

The Young Entrepreneurs Academy today serves thousands of students across America. In 2011, the United States Chamber of Commerce Foundation became a national sponsor and partner of the academy to help celebrate the spirit of enterprise among today's youth and the future leaders of tomorrow.

To that end, YEA, in partnership with Sam's Club and the U.S. Chamber of Commerce Foundation, is accepting applications from chambers of commerce across the country to start Young Entrepreneurs academies of their own. The thirty-week program teaches students in grades 6-12 how to generate business ideas, conduct market research, write business plans, pitch to a panel of investors, and launch their own companies. In 2015, Sam's Club will award startup funds of up to \$2,500 each to thirty chambers of commerce across the country.

Cornell Douglas Foundation Grant

The Cornell Douglas Foundation provides grants to organizations that advocate for environmental health and justice, encourage stewardship of the environment, and further respect for the sustainability of resources. The average grant amount is \$10,000.

Deadline: accepted all year

Public Welfare Foundation

The Public Welfare Foundation has three programs, Criminal Justice, Juvenile Justice, and Workers' Rights, that support efforts to advance justice and opportunity for people in need. The Foundation looks for strategic points where its funds can make a significant difference and improve lives through policy and system reform that results in transformative change.

Criminal Justice Guidelines

The Foundation's Criminal Justice Program supports groups that are working to end the over-incarceration of adults in the United States while also aiming to reduce racial disparities. In particular, the Program makes grants primarily to state-based groups that are working to:

- Reduce state incarceration levels and racial disparities through reforms in sentencing, charging, and supervision policies and procedures.

- Advance the redirection and prioritization of state and local resources toward targeted investments that support system-involved individuals in their communities, through research and strategic thought leadership.

Juvenile Justice Guidelines

The Foundation’s Juvenile Justice Program supports groups working to end the criminalization and reliance on the incarceration of youth in the United States. The Program makes grants to groups that are working to:

- Advance state policies that dramatically restrict juvenile justice systems’ use of incarceration and out-of-home placements and prioritize the use of community-based programs for youth;
- End the practice of trying, sentencing, and incarcerating youth in the adult criminal justice system; and
- Promote the fair treatment of youth of color who come into contact with the juvenile justice system.

Workers’ Rights Guidelines

The Foundation’s Workers’ Rights Program supports policy and system reforms to improve the lives of low-wage working people in the United States, with a focus on securing their basic legal rights to safe, healthy, and fair conditions at work. Specifically, the Program makes grants to groups working to:

- Advance reforms to hold employers accountable for wage theft;
- Advance reforms to prevent severe illness, injury, and death on the job; and
- Advance workers’ rights in complex, fissured employment arrangements through research and strategic thought leadership.

Ben & Jerry's Foundation Seeks Proposals for Social and Environmental Justice Projects

One-year grants of up to \$20,000 will be awarded to nonprofit grassroots community-organizing groups in the United States working to further social and environmental justice and support sustainable and just-food systems. Grants can be used to support both program and operational costs.

KaBOOM! Invites Applications for Community Playground Grants

KaBOOM!, a program that provides eligible communities with most of the funds, tools, and resources they need to build a custom-made playground in one day.

Deadline: OPEN

Binoculars for Young Citizen Scientists

Cornell's BirdSleuth K-12 initiative is awarding binoculars to schools where educators have made outstanding efforts to engage their students in citizen science.

Deadline: OPEN

International Paper Environmental Education Grants

The International Paper (IP) Foundation supports non-profit organizations in communities where its employees live and work. Environmental education is one of the primary areas the Foundation supports. The Foundation seeks programs that help generations understand a sustainable approach to business that balances environmental, social and economic needs.

Lego Children's Fund

The LEGO Children's Fund provides grants primarily in two focus areas: (1) early childhood education and development that is directly related to creativity and (2) technology and communication projects that advance learning opportunities. Typical awards are between \$500 and \$5,000. Interested parties must complete an eligibility quiz, be approved and invited to submit a grant proposal. Each grant will be subject to a specified time frame for completion.

Deadline: Applications accepted four times a year.

Evidence for Action: Investigator-Initiated Research to Build a Culture of Health

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs, and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

Deadline: Open

Pioneering Ideas Brief Proposals

The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted

territory to better understand what new trends, opportunities, and breakthrough ideas can enable everyone in America to live the healthiest life possible.

While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health. Ultimately, we support work that will help us learn what a Culture of Health can look like—and how we can get there.

Deadline: Open

Section IV STATE OF ALABAMA GRANTS

Alabama Power Foundation Grant

The Alabama Power Foundation Grant offers funds to nonprofit organizations in Alabama working in one of the following areas:

- Health
- Human services
- Arts
- Community life
- Education
- Environment

Priority is given to projects that address underserved segments of the population and can be duplicated in other communities.

Alabama Board of Medical Scholarship Awards

The Alabama Board of Medical Scholarship Awards offers forgivable loans to students enrolled in an Alabama medical school who agree to practice primary care in a pre-approved medically, underserved community in Alabama upon graduation.

Loans are repaid at the rate of one year of service per year of the loan.

Deadline: Applications accepted on an ongoing basis.

Economic Development Fund

Land, facilities, and infrastructure to benefit an industry that will create jobs. Create a minimum of 15 permanent jobs to benefit 51% low to moderate-income beneficiaries. Continuous. Applications are taken throughout the year. Maximum request: \$250,000. Minimum Request: \$50,000. Note: Waiver of the match available for applicants with 2010 Census population of 1,000 or less. May also waive the grant ceiling for projects that demonstrate significant long-term economic benefit to the State.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbier.olia@adeca.alabama.gov

Economic Development Incubator projects

Units of local government. Applicants must maintain active registration with SAM. The program must benefit 51% of low to moderate-income beneficiaries. The project must commit to creating jobs. Maximum

request: \$250,000. Match request: 20%. Applications are taken throughout the year. Award upon approval and as funding is available. Application workshop held in April and compliance workshop held in the fall.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbier.olia@adeca.alabama.gov

States' Economic Development Assistance Program (SEDAP)

Applicants: State and local units of governments, public bodies, and non-profit entities. Eligible counties in West Alabama: Bibb, Fayette, Hale, Lamar, Pickens, and Tuscaloosa.

Activities: Water and wastewater facilities, telecommunications, health care, planning activities, leadership development, education and training programs, business development, and entrepreneurship.

Requirements: Project must meet one of ARC's goals: increase job opportunities and per capita income, strengthen the capacity of people to compete in the global economy or develop and improve infrastructure to make the Region economically competitive. Construction projects funded by ARC must have an "Administering Agency" such as ADECA, USDA Rural Development or TVA. The project will be administered by and take on the requirements of that agency

Deadline: Pre-application due date in August. Applicant notified in late fall/winter if a full application is requested. Award announcements typically made in May.

Contact: Alabama Department of Economic and Community, Affairs (ADECA), Jimmy Lester, ARC Program Manager (334) 353-4490, jimmy.lester@adeca.alabama.gov

Alabama Humanities Foundation Grants

Applicants are encouraged to develop projects for a wide variety of audiences including library and museum patrons, teachers and scholars, youth, senior citizens, nursing home residents, hospital patients, the economically disadvantaged, the incarcerated, and the hearing and sight-impaired.

Application submission deadlines:

- Major Grants (\$1,500 and up) – February 15, June 16, September 15
- Minor Grants (\$1,500 or less) – February 15, June 16, September 15

Bank of America Grant

The Bank of America (BoA) offers grants that support high-impact initiatives, organizations and the development of visionary leaders. Schools with farm-to-school type programs may be eligible under the funding areas:

- Developing Career Leadership and Skills: Opportunities that increase civic and community engagement, career exploration and youth employment, financial knowledge and life-skill and soft-skill development
- Assisting with Food Access: Food deserts, green/fresh food access, etc

BoA's Charitable Foundation provides philanthropic support to address needs vital to the health of communities through a focus on preserving neighborhoods, educating the workforce for 21st-century jobs

and addressing critical needs, such as hunger. **Deadline:** Requests for proposals are issued three times per year.

Costco Wholesale Grants

Costco Wholesale grants support programs focusing on children, education and health and human services. They look to achieve the greatest impact where Costco's employees and members live and work. Only 501(c)(3) nonprofit organizations, which meet their giving guidelines and focus areas, are considered.

Deadline: Applications are accepted throughout the year on a rolling basis.

Walmart Foundation National Giving Program Grants

Through its National Giving Program, the Walmart Foundation awards grants of \$250,000 and above to non-profit organizations that operate on a national scope through chapters/affiliates in many states around the country or through programs that operate regionally/locally but seek funding to replicate program activities nationally.

Areas of focus for the Foundation include:

- Hunger Relief & Healthy Eating
- Sustainability
- Women's Economic Empowerment
- Career Opportunity

Deadline: OPEN

William G. McGowan Charitable Fund Issues Request for Proposals for Projects That Address Homelessness

The fund will award grants in support of initiatives that seek to correct circumstances contributing to homelessness, as well as initiatives designed to help eradicate the condition of homelessness in the long term.

Deadline: OPEN

Section V (NEW) FELLOWSHIPS / INTERNSHIPS / SCHOLARSHIPS / FINANCIAL AID / AWARDS

September Scholarships

[Congressional Black Caucus Foundation Scholarships/Internships](#)

For more than three decades the CBCF has awarded scholarships to talented and deserving students. Each year, we award more than 300 scholarships to students that demonstrate leadership ability through exemplary community service and academic talent. Scholarship programs support current or upcoming college students across a variety of disciplines.

CBCF's internship programs prepare college students and young professionals to become principled leaders, skilled policy analysts, and informed advocates by exposing them to the processes that develop national policies and implement them – from Capitol Hill to federal field offices.

Fellowship Search

National Endowment for the Humanities

Fellowships support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources in the humanities. Projects may be at any stage of development.

Section VI RESOURCES

[THE UPDATED GRANT AND LOAN GUIDE FOR LOCAL GOVERNMENTS IN WEST ALABAMA IS AVAILABLE ONLINE NOW!](#)

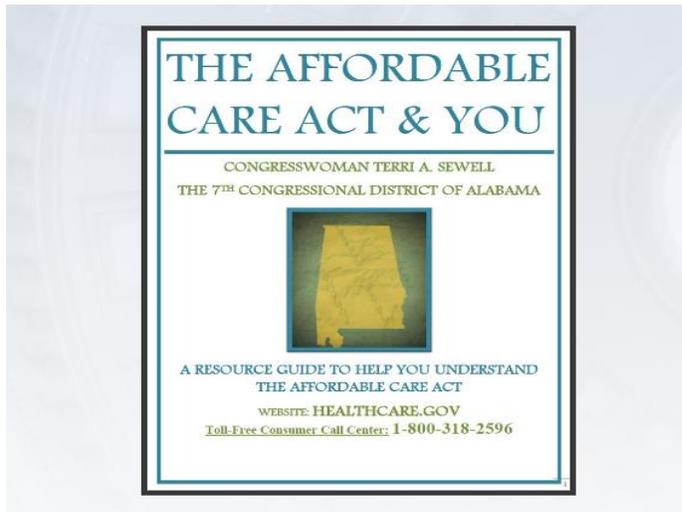

The guide is a quick reference to a variety of commonly used programs giving you the most important details you need to get started.

Find the Guide at <http://warc.info/planning-a-development/documents><http://warc.info/planning-a-development/documents>. Scroll down to REGIONAL INFORMATION DOCUMENTS.

The guide is a free web-based resource designed to provide counties and municipalities in the West Alabama region with information about available grant and loan programs for community and economic development activities.

The guide provides program details on major Federal and State programs including agency contacts; award cycles; grant ceilings; matching requirements; and eligibility factors.

Healthcare

Alabama Additional Funding Sources

Community Foundations in Alabama

There are 13 community foundations in Alabama, covering 78 percent of the counties in the state and holding assets that total more than \$190 million.

Daniel Foundation

The Daniel Foundation offers grants in four program areas: Civic and Community Improvement, Education, Health, and Arts and Culture. Applications are limited to 501 (c)(3) organizations that are located in Alabama.

Alabama Power Foundation

The Alabama Power Foundation allocates funding in four categories: Improving Education, Strengthening Communities, Promoting Arts and Culture, and Restoring and Enhancing the Environment.

Alabama Humanities Foundation

The AHF awards grants solely to support public humanities projects. Active public participation, the involvement of humanities scholars, and strong humanities content are the three essential components of AHF-funded projects.

Gwyn Turner Endowed Fund

The fund is administered by the National Trust for Historic Preservation, in partnership with Alabama Trust. Nonprofits and governmental agencies can obtain funding for preservation planning, heritage education, workshops, conferences, and special interventions. Grants range from \$1,000 to \$5,000 and require a 1:1 cash match.

Applicants are encouraged to discuss their project with the National Trust Southern Office before applying. Contact the Southern Office at 843.722.8552, or e-mail soro@nthp.org.

Sybil H. Smith Trust

Established in 1983, this trust funds organization in the First Congressional District only. Awards limited to arts, community development, education, and human services. No awards are given for individuals. For more information, call: 251.432.0208.

Alabama State Council on the Arts

Grants awarded to nonprofit organizations and local governments in the following categories: Presenting Grants, Project Assistance, Operating Support, Technical Assistance, Collaborative Ventures, and Program Development.

Historic Chattahoochee Commission

The Historic Chattahoochee Commission (HCC) promotes tourism and historic preservation in the Chattahoochee Trace, an 18-county region in Alabama and Georgia. The HCC supports preservation through two grant programs: Seed Grant and the Threatened Landmarks Program.

Veterans

FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high-quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members, and spouses are connected to high-quality career choices by matching their identified skills with the available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden's Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans, and transitioning Service Members deserve a single, authoritative source for connecting. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at <https://www.ebenefits.va.gov/ebenefits/jobs%20%20>

For a tutorial video on how to use the Veterans Employment Center, please visit:
