

# Guide to Grants

From the Office of Congresswoman Terri A. Sewell

Proudly Representing Alabama's 7<sup>th</sup> Congressional District

March 1, 2022

Welcome to the *Guide to Grants!*

I am honored to represent the 7<sup>th</sup> Congressional District of Alabama. As your representative during this unprecedented crisis of the **COVID-19 Pandemic**, it remains my top priority to provide you with the resources we need to keep our community safe and thriving. I will work diligently to provide you with the most current information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our health and safety. This guide will identify federal, corporate, and foundation grant opportunities to assist you in goals for our communities. This guide will include links to federal agencies and resources to help you make your proposals more successful. This guide will also describe new funding opportunities for economic development, infrastructure, healthcare, and educational projects. Also, I am pleased to provide a Letter of Support for grant application projects in the 7<sup>th</sup> Congressional District of Alabama. Stay up to date with the latest information at <http://sewell.house.gov> Please continue to let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit our website at <http://sewell.house.gov>. To subscribe to *Guide to Grants*, sign up on our [website](#) or call us at 205.254.1960. Previous editions of the *Guide to Grants* are archived and can be found [here](#).

CONGRESSWOMAN TERRI A. SEWELL – REPRESENTING ALABAMA'S 7<sup>TH</sup> DISTRICT

Washington D.C. Office | 2201 Rayburn House Office Building | Washington, D.C. 20515

<https://Sewell.House.Gov> | Phone: (202) 225-2665 | Fax (202) 226-9567

## [Rep. Sewell Continues her “Building a Better Alabama” Infrastructure District Tour with Stop at Montgomery Regional Airport](#)

U.S. Rep. Terri Sewell (AL-07) kicked off the second leg of her “Building a Better Alabama” Infrastructure District Tour with a stop at the Montgomery Regional Airport (MGM) to highlight the transformational funding from President Biden’s \$1 trillion bipartisan Infrastructure Investment and Jobs Act. Sewell was the only member of the Alabama Congressional Delegation to vote in favor of the law which will deliver \$140 million to Alabama’s airports for infrastructure development over the next five years.

“Alabama’s airports help keep our communities connected and play a critical role in the economic well-being of our state,” said Rep. Sewell. “We must ensure they have the resources they need to deliver safe and efficient air travel for Alabamians and visitors alike. I’m so proud to stand here at the Montgomery Regional Airport to announce that Alabama’s airports will receive \$140 million from the Bipartisan Infrastructure Law, which I was proud to help pass. Together, we’re building a better Alabama for all our people!”

“The Montgomery Regional Airport is an important economic engine for the city and county, and we appreciate Congresswoman Terri Sewell’s commitment to improving the airport’s infrastructure and future improvement projects,” said MGM Executive Director, Wade A. Davis. “Her dedicated support will ensure that all travelers flying to and from the Montgomery region will have an easier and safer journey.”

Sewell began with a tour of the airport before hosting a press conference with MGM Executive Director Wade Davis and several stakeholders to highlight the over \$140 million in federal funding included in the infrastructure law that will help improve Alabama’s airports over five years.

Nationally, the Bipartisan Infrastructure Law will invest:

\$15 billion for airport infrastructure grants under the Airport Improvement Program;

\$5 billion for discretionary grants for terminal development projects to increase airport capacity, passenger access, and improve energy efficiency;

\$5 billion to replace and improve air traffic control facilities, including navigational equipment.

## **Rep. Sewell Statement on Russian Military Aggression Toward Ukraine**

U.S. Rep. Terri Sewell (AL-07) released the following statement regarding Russia's continued and unprovoked military aggression toward Ukraine:

"I have been closely watching the troubling situation in Ukraine. America must continue to stand for democratic values around the world, and I commend President Biden for standing up to Russian President Vladimir Putin and sending the clear message that America is committed to NATO.

"I was glad to see President Biden attempt to exhaust every diplomatic option possible to avoid a war in Ukraine and I applaud him for the strong sanctions he announced yesterday. If Russia chooses to continue on this path, there will be swift and severe consequences, including additional crippling sanctions.

"As Americans, we will continue to stand with the Ukrainian people and our European allies and support their sovereignty and democratic values."

## **Rep. Sewell Announces Alabama Gained 5,500 Manufacturing Jobs in 2021**

Rep. Sewell announced Alabama has added 5,500 manufacturing jobs, according to the latest data from the Bureau of Labor Statistics. Rep. Sewell helped local manufacturers create and restore jobs by passing the American Rescue Plan and the Infrastructure Investment and Jobs Act. Sewell continues working to help Alabama create even more jobs by passing the America COMPETES Act which will strengthen our supply chains and start making more critical domestic products here in the U.S.

"This week's jobs report shows that our economic plan, in partnership with President Biden, is working and we are getting Alabamians back to work," said Rep. Sewell. "Together, the Bipartisan Infrastructure Law and the America COMPETES Act will build off the momentum of the American Rescue Plan, creating millions more good-paying jobs by rebuilding America's infrastructure and investing in U.S. manufacturing."

Under President Biden, the U.S. has created 375,000 manufacturing jobs and a total of 6.6 million jobs nationwide. Notably, almost every state added manufacturing jobs in the first 11 months after President Biden came into office. By comparison, the entire U.S. economy added just 2,000 manufacturing jobs in 2019—including only 200 in Alabama—under the previous administration.

## **Rep. Sewell Joins President Biden and Vice President Harris in Atlanta, Releases Statement Following Voting Rights Speech**

U.S. Rep. Terri Sewell (AL-07) traveled to Atlanta, Georgia, with President Joe Biden and Vice President Kamala Harris as they delivered remarks about the need to protect the sacred right to vote. Following President Biden's address, Rep. Sewell released the following statement:

“President Biden’s strong and forceful speech made clear exactly what is at stake as we face the most coordinated effort to restrict the right to vote in a generation. I applaud him for his bold stance in support of reforming Senate rules to pass the John R. Lewis Voting Rights Advancement Act.

“Our nation is at an inflection point. Soon, voting rights legislation will go to the Senate floor and each Senator will have the chance to make their stance known to the American people. As President Biden said, history will judge each Senator for what they do in this critical moment. Will they choose to uphold the legacy of the Foot Soldiers like John Lewis who shed blood on a bridge in my hometown for the right of all Americans to vote? Or will they choose to enable the erosion of our democracy at the hands of those who have always sought to silence us?

“As we prepare to observe the birthday of the Reverend Dr. Martin Luther King Jr., let us remember that justice delayed is justice denied. The time for talk is over. The time to act is now.”

Rep. Terri Sewell is the author and lead sponsor of H.R. 4, the John R. Lewis Voting Rights Advancement Act, which would restore the full protections of the Voting Rights Act of 1965 after it was gutted by the Supreme Court in 2013. She also serves as Co-Chair of the Congressional Voting Rights Caucus. On August 24, 2021, H.R. 4 passed the House of Representatives by a vote of 219-213. On November 3, 2021, it failed in the Senate after nearly every Senate Republican voted to block debate on the bill. In the absence of robust

Republican support, Congresswoman Sewell has led her colleagues in calling on the Senate to reform its rules and pass H.R. 4.

## **Rep. Sewell Welcomes Interior Secretary Deb Haaland to Selma and Birmingham**

U.S. Rep. Terri Sewell (AL-07) welcomed Secretary of the Interior Deb Haaland to Alabama to meet with elected officials and community members and visit sites that uplift the significant role that individuals and events in Alabama played in the Civil Rights Movement. The visit was part of the Secretary's week-long multi-state tour to explore how the Department of the Interior can help tell America's story.

"It was my distinct honor to welcome my dear friend, Interior Secretary Deb Haaland, to Alabama today!" said Rep. Sewell. "During Black History Month, we are reminded of the importance of preserving our history. After all, Black History is American History. I'm honored to partner with the National Park Service to ensure that the rich legacy of Alabama's 7th District is preserved so that future generations can learn from the sacrifices of all those on whose shoulders we stand.

In Selma, Congresswoman Sewell, Secretary Haaland, Assistant Secretary Estenoz, and Selma Mayor James Perkins visited the Selma Interpretive Center where they met with key community leaders and Foot Soldiers who marched across the Edmund Pettus Bridge on Bloody Sunday for the equal right of all Americans to vote. The Center is part of the Selma-to-Montgomery National Historic Trail, which was established in 1996 as a unit of the National Park System to commemorate the people, events, and route of the 1965 voting rights marches in Alabama.

Last year, Rep. Sewell secured \$10 million to expand the Selma Interpretive Center in President Biden's FY2022 budget which is currently being negotiated in the House and Senate.

In addition to honoring the life and legacy of those who fought for equality, Secretary Haaland also heard about ongoing projects to expand the interpretive facilities of the Selma to Montgomery National Historic Trail. The Center underscores the National Park Service's commitment to building relationships with local and historically marginalized communities through academic pursuits, partnerships, historical recognitions, community service, and fostering environmental stewardship efforts.

Congresswoman Sewell, Secretary Haaland, and Assistant Secretary Estenoz then traveled to Birmingham where they met Mayor Randall Woodfin and visited the Birmingham Civil Rights National Monument. Established in 2017, the National Monument preserves and interprets the events, stories, and places associated with the nonviolent struggle against racial segregation in Birmingham, Alabama, during the mid-20th century.

The group visited various sites contained within the monument, including the historic 16th Street Baptist Church, St. Paul United Methodist Church, and the A.G. Gaston Motel, which served as the headquarters for the Birmingham campaign. The National Park Service has funded nearly \$4.7 million to the monument's sites through the Service's African American Civil Rights Grant Program for Preservation and Rehabilitation.

# ANNOUNCEMENTS

## GRANT ALERT!

### [FY2021 Historic Preservation Fund - Historically Black Colleges and Universities Grants CFDA 15.932](#)

The Southern Leadership for Voter Engagement (SOLVE) Coalition, with the support of the Mary Reynolds Babcock Foundation and others, is excited to announce Redistricting Mini grants for Coalition partners and other grassroots organizers engaging in redistricting advocacy in the South.

**Deadline:** March 08, 2022

### [Congressional Black Caucus Foundation Scholarships/Internships/Fellowships](#)

For more than three decades the CBCF has awarded scholarships to talented and deserving students. Each year, we award more than 300 scholarships to students that demonstrate leadership ability through exemplary community service and academic talent. Scholarship programs support current or upcoming college students across a variety of disciplines.

CBCF's internship programs prepare college students and young professionals to become principled leaders, skilled policy analysts, and informed advocates by exposing them to the processes that develop national policies and implement them – from Capitol Hill to federal field offices.

### COVID-19 Economic Injury Disaster Loan

This loan provides economic relief to small businesses and nonprofit organizations that are currently experiencing a temporary loss of revenue. In response to COVID-19, small business owners, including agricultural businesses, and nonprofit organizations in all U.S. states, Washington D.C., and territories can apply for the COVID-19 Economic Injury Disaster Loan (EIDL). ## **Section I GENERAL GRANT INFORMATION**

- Grants and Federal Domestic Assistance - Guidance and key resources to help eligible constituents find information on federal grants, loans, and nonfinancial assistance for projects, as well as on private funding. Prepared by the Congressional Research Service for Members of Congress, updated May 2014. Website: <http://sewell.house.gov/grant-information/>
- A federal grant is an award of financial assistance from a federal agency to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States. Federal grants are not federal assistance or loans to individuals. A federal grant may not be used to acquire property or services for the federal government's direct benefit. The 26 federal agencies offer over 1,000 grant programs annually in various categories. Website: <http://www07.grants.gov/aboutgrants/grants.jsp>
- To learn about Federal grant opportunities, register your organization, and receive notices, please visit [www.grants.gov](http://www.grants.gov). It is the resource for all Federal grants.
- To apply for Federal Grants: [http://www.grants.gov/applicants/apply\\_for\\_grants.jsp](http://www.grants.gov/applicants/apply_for_grants.jsp)

- [Grants.gov](#) Applicant Training Video - Need a quick lesson on how to Register, Find, and Apply? Watch this short video to get tips on registering with Grants.gov; finding grant opportunities; understanding your search results; and, applying for opportunities.
- To learn about foundation grant opportunities, please visit <http://foundationcenter.org/>. The Foundation Center is a gateway to information about private funding sources and provides guidelines about how to write a grant proposal. It also provides links to state libraries with grants reference collections and links to other useful Internet websites.

## **Local Assistance in your area**

### **Alabama 211**

## **Department of Health and Human Services**

### **SARS-CoV-2 (COVID-19) Program Activities CFDA 93.990**

The Office of the Assistant Secretary for Health (OASH) has established the Laboratory and Diagnostics Working Group (LDWG) seeking submissions to a Broad Agency Announcement (BAA) “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” (Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139)). OASH/LDWG seeks proposals for projects that will further enable the coordination and development of testing and associated products that meet the current and future needs, and the effective transition of technology into broad use without impediments. The primary areas of focus should specifically include (1) Scaling and Networking of Technologies, and (2) Testing Demonstrations & Technical Assistance. Specifically, OASH is interested in submissions that will substantially increase our testing capacity and quality in the near term, and do not fall within the scope of other HHS programs.

When posted, the funding opportunity announcement (FOA) will provide guidance for applicants on the submission of short white papers, which after review, may be followed by full proposal submissions for consideration for funding. Applicants will have the option of forgoing the white paper submission for direct submission of a full proposals. Applications will be accepted and reviewed on a rolling basis to address immediate public needs. Applicants must submit white papers and applications through Grants.gov according to the instructions in the FOA. Applicants must have an active SAM registration at the time of submission and maintain an active registration throughout the review process and during any award that may result.

**BACKGROUND:** On January 31, 2020, HHS Secretary Alex M. Azar II declared a public health emergency in response to the 2019 novel coronavirus, now known as SARS-CoV-2, or COVID-19. Testing is vital to prevent and contain outbreaks that may occur as economic and social activities expand across the country. Accordingly, the Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139) provides funding to HHS to “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” As part of the response to this requirement, and in order to administer agency actions to mitigate the pandemic, the Office of the Assistant Secretary for Health (OASH) Laboratory and Diagnostics Working Group (LDWG) complements existing efforts within the Department. To meet current and future challenges with the least possible risk, the nation needs more testing - with increasingly diverse, accurate, and affordable platforms – that are tailored to specific use cases.

**Deadline:** TBD

[Announcement to Support Novel, High-Impact Studies Evaluating Health System and Healthcare Professional Responsiveness to COVID-19 \(CFDA 93.226\)](#)

The health systems research community should prepare to submit applications to AHRQ to fund critical research focused on evaluating topics such as innovations and challenges encountered in the rapid expansion of telemedicine in response to COVID-19, effects on quality, safety, and value of health system response to COVID-19, and the role of primary care practices and professionals during the COVID-19 epidemic. AHRQ is particularly interested in understanding how digital health innovations contributed to health system and healthcare professional innovation and challenges and solutions to meeting the needs of vulnerable populations including older adults, people living with multiple chronic conditions, rural communities, and uninsured and underinsured populations.

## Environmental Protection Agency

### [FY2023 POLLUTION PREVENTION GRANT PROGRAM FUNDED BY THE BIPARTISAN INFRASTRUCTURE LAW CDFA 66.708](#)

EPA is announcing a grant competition to fund two-year Pollution Prevention assistance agreements for projects that provide technical assistance (e.g., information, training, tools) to businesses to help them develop and adopt source reduction practices (also known as “pollution prevention” or “P2”). P2 means reducing or eliminating pollutants from entering any waste stream or otherwise being released into the environment prior to recycling, treatment, or disposal. In keeping with the Pollution Prevention Act of 1990, EPA is encouraging P2 because implementing these practices can result in reductions in pollutants, and the use of water, energy, and other raw materials, while also lowering business costs. States, state entities, the District of Columbia, the U.S. Virgin Islands, the Commonwealth of Puerto Rico, any territory or possession of the U.S., federally-recognized tribes and intertribal consortia are eligible to apply.

**Deadline:** April 11, 2022

# Institute of Museum and Library Services

## [Native American Library Services Basic Grant \(2022\) CFDA 45.311](#)

This program is designed to assist Native American tribes in improving core library services for their communities. Reflecting IMLS's agency-level goals of championing lifelong learning, strengthening community engagement, and advancing collections stewardship and access, the goals for this program are to:

- Improve services for learning and accessing information in a variety of formats to support needs for education, workforce development, economic and business development, health information, critical thinking skills, digital literacy skills, and financial literacy, and other types of literacy skills.
- Enhance the skills of the current library workforce and leadership through training, continuing education, and opportunities for professional development.

**Deadline:** March 01, 2022

## [National Leadership Grants for Libraries \(2022\) CFDA 45.312](#)

The National Leadership Grants for Libraries Program (NLG-L) supports projects that address critical needs of the library and archives fields and have the potential to advance practice in these professions to strengthen library and archival services for the American public. Successful proposals will generate results such as new models, new tools, research findings, services, practices, and/or alliances that can be widely used, adapted, scaled, or replicated to extend and leverage the benefits of federal investment.

The application process for the NLG-L program consists of two phases. For Phase I, all applicants must submit preliminary proposals by the deadline listed for this Notice of Funding Opportunity. For Phase II, selected applicants will be invited to submit full proposals. Only Invited Full Proposals will be considered for funding. Invited Full Proposals will be due March 25, 2022.

**Deadline:** March 25, 2022

## [Laura Bush 21st Century Librarian Program \(2022\) CFDA 45.313](#)

The Laura Bush 21st Century Librarian Program (LB21) supports the development of a diverse workforce of librarians and archivists in order to meet the information needs of their communities by enhancing the training and professional development of library and archives professionals; developing faculty and

information leaders; and recruiting, educating, and retaining the next generation of library and archives professionals.

The application process for the LB21 program has two phases. For Phase I, all applicants must submit preliminary proposals by the deadline listed for this Notice of Funding Opportunity. For Phase II, selected applicants will be invited to submit full proposals. Only Invited Full Proposals will be considered for funding. Invited Full Proposals will be due March 25, 2022.

**Deadline:** March 25, 2022

### [Native American Library Services Enhancement Grants \(2022\) CFDA 45.311](#)

This program is designed to assist Native American tribes in improving core library services for their communities. Reflecting IMLS's agency-level goals of championing lifelong learning, strengthening community engagement, and advancing collections stewardship and access, the goals for this program are to:

- Improve digital services to support needs for education, workforce development, economic and business development, health information, critical thinking skills, and digital literacy skills.
- Improve educational programs related to specific topics and content areas of interest to library patrons and community-based users.
- Enhance the preservation and revitalization of Native American cultures and languages.

**Deadline:** April 01, 2022

## **National Aeronautics and Space Administration**

### [ROSES 2021: Land-Cover/Land-Use Change:SARI Synthesis CFDA 43.001](#)

The National Aeronautics and Space Administration (NASA) Science Mission Directorate (SMD) released its annual omnibus Research Announcement (NRA), Research Opportunities in Space and Earth Sciences (ROSES) – 2021 (OMB Approval Number 2700-0092, CFDA Number 43.001) on February 12, 2021. In this case "omnibus" means that this NRA has many individual program elements, each with its own due dates and topics. All together these cover the wide range of basic and applied supporting research and

technology in space and Earth sciences supported by SMD. Awards will be made as grants, cooperative agreements, contracts, and inter- or intra-agency transfers, depending on the nature of the work proposed, the proposing organization, and/or program requirements. However, most extramural research awards deriving from ROSES will be grants, and many program elements of ROSES specifically exclude contracts, because contracts would not be appropriate for the nature of the work solicited. The typical period of performance for an award is three years, but some programs may allow up to five years and others specify shorter periods. In most cases, organizations of every type, Government and private, for profit and not-for-profit, domestic and foreign (with some caveats), may submit proposals without restriction on teaming arrangements. Tables listing the program elements and due dates, the full text of the ROSES-2021 solicitation, and the "Summary of Solicitation" as a stand-alone document, may all be found NSPIRES at <http://solicitation.nasaprs.com/ROSES2021>

This synopsis is associated with one of the individual program elements within ROSES, but this is a generic summary that is posted for all ROSES elements. For specific information on this particular program element download and read the PDF of the text of this program element by going to Tables 2 or 3 of this NRA at <http://solicitation.nasaprs.com/ROSES2021table2> and <http://solicitation.nasaprs.com/ROSES2021table3>, respectively, click the title of the program element of interest, a hypertext link will take you to a page for that particular program element. On that page, on the right side under "Announcement Documents" the link on the bottom will be to the PDF of the text of the call for proposals. For example, if one were interested in The Lunar Data Analysis Program (NNH21ZDA001N-LDAP) one would follow the link to the NSPIRES page for that program element and then to read the text of the call one would click on "C.8 Lunar Data Analysis (.PDF)" to download the text of the call. If one wanted to set it into the context of the goals, objectives and know the default rules for all elements within Appendix C, the planetary science division, one might download and read "C.1 Planetary Science Research Program Overview (.PDF)" from that same page. While the letters and numbers are different for each element within ROSES (A.12, B.7, etc.) the basic configuration is always the same, e.g., the letter indicates the Science Division (A is Earth Science, B is Heliophysics etc.) and whatever the letter, #1 is always the overview.

**Deadline:** February 16, 2022

### [ROSES 2021: Earth Science Applications: Socioeconomic Assessments CFDA 43.001](#)

The National Aeronautics and Space Administration (NASA) Science Mission Directorate (SMD) released its annual omnibus Research Announcement (NRA), Research Opportunities in Space and Earth Sciences (ROSES) – 2021 (OMB Approval Number 2700-0092, CFDA Number 43.001) on February 12, 2021. In this case "omnibus" means that this NRA has many individual program elements, each with its own due dates and topics. All together these cover the wide range of basic and applied supporting research and technology in space and Earth sciences supported by SMD. Awards will be made as grants, cooperative

agreements, contracts, and inter- or intra-agency transfers, depending on the nature of the work proposed, the proposing organization, and/or program requirements. However, most extramural research awards deriving from ROSES will be grants, and many program elements of ROSES specifically exclude contracts, because contracts would not be appropriate for the nature of the work solicited. **Deadline:** March 22, 2022

## **National Archives and Records Administration**

### [State Board Programming Grants CFDA 89.003](#)

The National Historical Publications and Records Commission seeks proposals that support the work of state historical records advisory boards through projects that engage the public, expand civic education, and promote understanding of the nation's history, democracy, and culture.

The Commission welcomes projects that commemorate the 250th anniversary of the Declaration of Independence and that use collections to examine the ideals behind the founding of the United States and the continual interpretation and debate over these ideals over the past 250 years. Collections that center the voices and document the history of Black, Indigenous, and People of Color are especially encouraged.

The purpose of this grant program is to assist state boards to broaden preservation of, and increased online access to, historical records; develop and promote best practices; support activities that put the American people in touch with primary sources in their communities and online; promote the institutional advancement of organizations in underserved communities; and assist locally based repositories with training and tools to improve their stewardship abilities. The Commission will award grants to state historical records advisory boards to:

Operate state-based regrant programs that preserve historical records and make them available online

Carry out traveling archivist programs that provide onsite assistance and follow-up advice to repositories

Provide educational and outreach programs, workshops, and other activities that enhance citizen and student engagement with historical records

Offer scholarships, training opportunities, and other programs that support institutional advancement among records repositories, especially those in underserved communities

Collaborate on projects with other organizations to address common problems or shared opportunities within a state or among a consortium of state archives

Hold or participate in meetings and public forums on statewide or national archival issues.

State boards should review the NHPRC's strategic plan and consider its goals, objectives, and tactics when evaluating the board's current programming and considering new programs. Some tactics call on the NHPRC to partner with state boards to undertake particular activities, and other tactics relate to activities that are already common among state boards. Applications that outline programs that address the following tactics, and others that relate to the work of the state boards, will be more competitive:

Target institutional advancement for small and underserved local archives and repositories, including Historically Black Colleges and Universities, Hispanic-Serving Institutions, Minority-Serving Institutions, and tribal entities.

Develop outreach strategies to historical records collections that center the voices and perspectives of African Americans, Asian Americans, Hispanic Americans, and Native Americans.

Support opportunities for Black, Indigenous, and People of Color in professional development as archivists.

Offer workshops through a variety of sponsors to educate potential applicants about project design and the NHPRC application process.

Implement local and statewide projects that enhance public participation and engagement in the work of archives.

Projects utilizing traditional approaches with a proven record of success, as well as projects testing innovative approaches, are welcome. All applications should outline a process for contacting institutions and individuals who participate in the board's programs (i.e., regrant and training scholarship recipients, workshop attendees, etc.) to determine how they benefited. Applications should also outline a process for evaluating the board's programs, determining their effectiveness, and proposing appropriate changes.

For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund" (<http://www.archives.gov/nhprc/apply/eligibility.html>). Applications that consist entirely of ineligible activities will not be considered.

State boards, as well as state archives, are encouraged to consider also applying under the Commission's Archival Collaboratives: Planning and Implementation Grants program. Funding from this program can be used to build on the current efforts of state archives and state boards to address the needs of small and underrepresented archives; utilize best practices, tools, and techniques; and implement management structures that will promote long-term sustainability and growth.

This program can provide the funding necessary to support the staffing, consultants, travel, and other expenses related to the development of archival collaboratives within the state or among several states. The development of collaboratives will provide a mechanism for repositories to work together on a continuing basis to expand on what they have learned through a regrant project, a workshop, or some other program opportunity. These collaboratives can also be used to expand the capabilities of institutions so that they are in a position to apply for a regrant or for funding directly from the NHPRC, either individually or as a collaborative.

#### Award Information

The Commission offers two levels of funding. A Level I grant is for one year and for up to \$12,000. A Level II grant is for one year and for up to \$40,000 or for two years and for up to \$80,000. Applicants may request either Level I or Level II funding, but not both. The Commission expects to make up to a total of 30 grants in this category for a total of up to \$800,000. Grants begin no earlier than January 1, 2023.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publicity, publications, and other products that result from its support.

### Eligibility

These grants are awarded only to state historical records advisory boards in each state, or to the state agency responsible for the state board, ordinarily the state archives. Another state agency, or a non-profit organization, such as a foundation or university, acting on behalf of the designated state agency may apply. States also include the District of Columbia, the Commonwealth of Puerto Rico, and United States territories.

Projects must include at least one of the eligible activities described for the program. Applicants must include all required elements (SF 424, Narrative, NHPRC Budget Form, and Supplemental Materials). Applications that do not meet either of these criteria will not be considered.

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

### Cost Sharing

The total costs of a project are shared between the NHPRC and the applicant organization.

Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant's cost sharing contribution if they are included in the budget.

The Commission provides no more than 75 per cent of total project costs in the State Board Programming Grants category. For example, a request of \$40,000 in NHPRC grant funds means the applicant institution must provide at least \$13,334 in cost share.

### Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF.

**Deadline:** June 08, 2022

[COLLABORATIVES- CFDA 89.003](#)

The National Historical Publications and Records Commission seeks Archives Collaboratives of three or more repositories working together to make their collections more readily available for public discovery and use. The grant program will fund Archives Collaboratives to share best practices, tools, and techniques; assess institutional strengths and opportunities; create replicable and sustainable digital platforms for historical collections; virtually unify records from multiple repositories; and promote management structures for long-term sustainability and growth.

The Commission welcomes collaborations that target institutional advancement for small and underserved local archives and repositories, especially those with collections that focus on the voices and perspectives of Black, Indigenous, and People of Color. Archives Collaboratives must consist of three or more organizations. They may:

- ? be located in the same community, state, or geographic region
- ? be “virtual” or online collaboratives
- ? share affinities among the scope and subject matter of their collections
- ? have similar organizational missions
- ? serve similar types of user communities

#### Award Information

Applicants may apply for either a Planning Grant or an Implementation Grant. You need not have previously received an NHPRC Planning Grant in order to apply for an Implementation Grant.

Planning Grants are available to plan and develop a working collaborative of three or more partners designed to enhance the capacity of small and diverse organizations with historical records collections. Commitments to the Archives Collaborative should be secured from partners at the time that the application is submitted. Together, the partners would develop a mission, work plan, and timeline to carry out a shared project or develop a shared best practice, tool, or technique that will increase public access to historical records. Applicants are eligible to receive one-year grants up to \$25,000, shared by the consortia, to carry out the project. The NHPRC expects to make up to four grants in this category for up to \$100,000. Applications are due on June 8, 2022, with a start date for implementation of January 1, 2023.

Implementation Grants are available for Archives Collaboratives to put into practice the action items identified during their planning process, whether done independently or through a Planning Grant from the NHPRC. Projects that demonstrate commitments by member organizations to the Archives Collaborative, a work plan, and timeline are eligible to receive one- or two-year grants up to \$100,000, shared by the consortia, to carry out the project. The NHPRC expects to make up to four grants in this category for up to \$400,000. Applications are due on June 8, 2022, with a start date for implementation of January 1, 2023.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications and other products that result from its support.

#### Eligibility

Eligible applicants:

Nonprofit organizations or institutions

Colleges, universities, and other academic institutions

State or local government agencies

Federally-acknowledged or state-recognized Native American tribes or groups

For a comprehensive list of the Commission’s limitations on funding, please see “What we do and do not fund” (<http://www.archives.gov/nhprc/apply/eligibility.html>). Applications that consist entirely of ineligible activities will not be considered.

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

Cost Sharing

The total costs of a project are shared between the NHPRC and the applicant organization.

Cost sharing is required. The applicant’s financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant’s cost sharing contribution. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant’s cost sharing contribution.

The Commission provides no more than 75 percent of total project costs for the Planning and Implementation Grants. For example, a request of \$75,000 in NHPRC grant funds means the applicant institution must provide at least \$25,000 in cost share.

Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at [www.sam.gov](http://www.sam.gov).

**Deadline:** June 08, 2022

[Planning for Collaborative Digital Editions in African American, Asian American, Hispanic American, and Native American History and Ethnic Studies CFDA 89.003](#)

The National Historical Publications and Records Commission (NHPRC), with funding provided by the Andrew W. Mellon Foundation, seeks proposals for its planning grant program for Collaborative Digital Editions in African American, Asian American, Hispanic American, and Native American History and Ethnic Studies. With an overarching goal to broaden participation in the production and publication of historical and scholarly digital editions, the program is designed:

To provide opportunities that augment the preparation and training of Black, Indigenous, and People of Color (BIPOC) new to the work of historical documentary editing, especially those currently working in history or related area and ethnic studies departments.

To encourage and support the innovative and collaborative re-thinking of the historical and scholarly digital edition itself—how it is conceived, whose voices it centers, and for what purposes.

To encourage and support planning activities essential for successful development of significant, innovative, and well-conceived digital edition projects rooted in African American, Asian American, Hispanic American, and Native American history and ethnic studies.

To stimulate meaningful, mutually beneficial, and respectful collaborations that help to bridge longstanding institutional inequalities by promoting resource sharing and capacity building at all levels, and that build into their plans a variety of means for achieving meaningful community and user input and engagement.

## Collaboration

Grants are awarded to collaborative teams consisting of at least two scholar-editors, as well as one or more archivists, digital scholars, data curators, and/or other support and technical staff, as appropriate to fulfill the planning goals and prepare the project team for implementation at a later stage. We strongly encourage applications from collaborative teams that include BIPOC faculty and staff in key positions, and that include editorial, archival, and technical staff at Historically Black Colleges and Universities, Hispanic- and Minority-Serving Institutions, Tribal Colleges, and/or other Indigenous and Native American tribal scholars and community members, and members of the Asian American community. We also encourage projects to seek out community members as well as undergraduate and graduate students to contribute to (and benefit from) participation in all phases of the project planning.

What is a digital edition? How can I make the most of this planning opportunity?

Frequently based on a corpus of materials intentionally drawn from one or more (often dispersed) archival collections, digital edition projects do more than provide visual access through digitization and online publication. They provide intellectual access to and relevant contextualization for the specific documents and other historical materials that make up the edition's corpus. In the broadest sense, digital editions are intentional, contextualized research collections created for the purpose of raising new questions and advancing new research and teaching in their respective fields of study. Because of the size, complexity (both human and technical), and duration of such projects, which may require up to 10 years or longer to reach final completion, extensive planning is essential for successful development of a collaborative digital edition project.

Eligible projects in this category are encouraged to focus their planning activities on the essentials, beginning with project conception and scope (including plans for understanding and incorporating target user community input); establishing a mutually-beneficial, respectful, and sustainable collaboration; securing long-term institutional support; establishing editorial workflow processes and associated staffing needs (for collecting, describing, preserving, compiling, transcribing, annotating, encoding, and publishing the edition); as well as long-term technical and financial sustainability, among other planning issues (see below).

Eligible activities in this category may include:

Travel and related costs for planning meetings involving geographically-dispersed collaborations.

Relevant training for project directors, staff, and participating community members, including (but not limited to) NHPRC-supported training opportunities.

Associated costs for technical planning, wire-framing, and early testing and evaluation with target audience(s) to determine needs and priorities.

For projects undertaking an extensive or supplementary document search, funds also may be used for initial surveying of undigitized collections, sample document imaging and collection, canvassing, community outreach, and related travel.

For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund" (<http://www.archives.gov/nhprc/apply/eligibility.html>).

#### Award Information

A grant is for up to two years and for up to \$60,000 per year. The Commission expects to make up to 6 grants in this category for a total of up to \$720,000. Planning Grants begin no earlier than January 1, 2023.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications, publicity, and other products that result from its support.

#### Eligibility

U.S. nonprofit organizations or institutions

U.S. colleges, universities, and other academic institutions

State or local government agencies

Federally-acknowledged or state-recognized Native American tribes or groups

Applications from and collaborations involving Historically Black Colleges and Universities (HBCUs), Hispanic-Serving Institutions (HSIs), Minority-Serving Institutions (MSIs), and Tribal Colleges are strongly encouraged.

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

#### Cost Sharing

Cost sharing is not a requirement. However, the applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project.

NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant's cost sharing contribution if they are included in the budget.

#### Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF.

Ineligible applications will not be reviewed.

**Deadline:** June 08, 2022

## National Endowment for the Humanities

### [Institutes for K-12 Educators CFDA 45.163](#)

The National Endowment for the Humanities (NEH) Division of Education Programs is accepting applications for the Institutes for K-12 Educators program. NEH Institutes are professional development programs that convene K-12 educators from across the nation in order to deepen and enrich their understanding of significant topics in the humanities and enrich their capacity for effective teaching and scholarship.

**Deadline:** February 22, 2022

### [Landmarks of American History and Culture CFDA 45.163](#)

The National Endowment for the Humanities (NEH) Division of Education Programs is accepting applications for the Landmarks of American History and Culture program. The purpose of this program is to support a series of one-week workshops for K-12 educators across the nation to enhance and strengthen humanities teaching at the K-12 level.

**Deadline:** February 22, 2022

### [State and Jurisdictional Humanities Councils General Operating Support Grants 45.129](#)

The National Endowment for the Humanities (NEH) Office of Federal/State Partnership is accepting applications for State and Jurisdictional Humanities Councils General Operating Support Grants. The purpose of this program is to provide general operating support grants to humanities councils in the United States and its jurisdictions. State and jurisdictional humanities councils tailor their grantmaking and programs to the needs, resources, and interests of their state or jurisdiction, while also extending the reach of NEH-funded projects and further strengthening NEH's connection to local communities throughout the U.S. and its jurisdictions. NEH determines annual funding for each state and jurisdictional humanities council according to a legislatively mandated formula.

**Deadline:** May 02, 2022

### [Humanities Initiatives CFDA 45.162](#)

The National Endowment for the Humanities (NEH) Division of Education Programs is accepting applications for the five Humanities Initiatives programs: Humanities Initiatives at Colleges and Universities, Humanities Initiatives at Historically Black Colleges and Universities, Humanities Initiatives at Hispanic-Serving Institutions, Humanities Initiatives at Tribal Colleges and Universities, and Humanities Initiatives at Community Colleges. The purpose of these programs is to strengthen the teaching and study of the humanities at institutions of higher education by developing new humanities programs, resources (including those in digital format), or courses, or by enhancing existing ones.

**Deadline:** May 09, 2022

## [Fellowships Open Book Program CFDA 45.169](#)

The National Endowment for the Humanities (NEH) Office of Digital Humanities, in partnership with the NEH Division of Research Programs, is accepting applications for the Fellowships Open Book Program. This limited competition aims to award publishers a \$5,500 grant to release open access digital editions of books whose underlying research was funded by one of the following NEH programs: Fellowships; NEH-Mellon Fellowships for Digital Publication; Awards for Faculty at Hispanic-Serving Institutions; Awards for Faculty at Historically Black Colleges and Universities; Awards for Faculty at Tribal Colleges and Universities; Summer Stipends; Fellowships for Advanced Social Science Research on Japan; or Public Scholars. Each e-book will be released under a Creative Commons license, making those books free for anyone to download. The book could be a forthcoming title (to be open access upon first release) or it could be a book that was first released at any time during or after calendar year 2015. NEH-supported books that were reissued or published in new editions during this period are also permitted.

Deadline: November 15, 2022

## [Innovation Corps - National Innovation Network Teams Program \(I-Corps TM Teams\) – \(CFDA 47.041, 47.049, 47.050, 47.070, 47.074, 47.075, 47.076, 47.079, 47.083\)](#)

The National Science Foundation (NSF) seeks to develop and nurture a national innovation ecosystem that builds upon fundamental research to guide the output to facilitate the application of scientific discoveries closer to the development of technologies, products, and processes that benefit society. To maintain, strengthen and grow a national innovation ecosystem, NSF has established the Innovation Corps - National Innovation Network Teams Program (I-Corps Teams). The NSF I-Corps Teams Program's purpose is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate innovation that can attract subsequent third-party funding. The purpose of the I-Corps Teams program is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate the translation of knowledge derived from fundamental research into emerging products and services that can attract subsequent third-party funding. The outcomes of I-Corps Teams projects will be threefold: 1) a clear go/no go decision based on an assessment of the viability of the overall business model, 2) substantial first-hand evidence for or against a product-market fit, with a pithy definition of the customer segments and corresponding value propositions, and 3) a narrative of a compelling technology demonstration for potential partners. WEBINAR: A webinar will be held monthly to answer questions about this program. Details will be posted on the I-Corps website (see [http://www.nsf.gov/news/special\\_reports/i-corps/program.jsp](http://www.nsf.gov/news/special_reports/i-corps/program.jsp)) as they become available.

**Deadline:** Proposals accepted at anytime

## Cyberinfrastructure for Emerging Science and Engineering Research – (CFDA 41.070)

The Cyberinfrastructure for Emerging Science and Engineering Research (CESER) program aims to catalyze new science and engineering discovery pathways through early-stage collaborative activities between disciplinary scientists and engineers as well as developers/implementers of innovative cyberinfrastructure (CI) capabilities, services, and approaches. Beginning in FY 2017, the CESER program replaced the Strategic Technologies for Cyberinfrastructure (STCI) program. CESER has retained STCI's focus on supporting innovation across the CI ecosystem with increased emphasis on addressing and enabling emerging areas of potentially transformative research, including NSF priority areas, national strategic directions, and international collaborative research. CESER accepts proposals according to this Program Description year-round. From time to time, NSF may also issue Dear Colleague Letters according to CESER to signal special thematic interests and opportunities. CESER employs existing NSF funding mechanisms to accomplish the program's goals such as Early-concept Grants for Exploratory Research (EAGER) and Conference proposals. GUIDANCE TO POTENTIAL PROPOSERS Science/engineering-driven collaboration. A central feature of successful CESER projects is a strong, mutually-dependent collaborative team comprising expertise in the target science/engineering discipline(s) as well as expertise in CI development and implementation. Such a collaborative approach is critical to informing and guiding the development of requirements towards the eventual development and deployment of user-centric innovative CI that fosters new pathways to discovery. Proposals according to CESER should identify and describe the science and engineering goals and rationale, and explain and support the potential for transformative impacts on science/engineering research and broader impacts. Proposals for technical efforts that are not well-tied to identified science and engineering research challenges as well as utilization scenarios are unlikely to be supported. Exploratory and pilot activities. CESER supports early-stage exploratory efforts that may comprise analysis, community planning, and pilot-level activities that are preparatory or informative for eventual future development and deployment of science/engineering-driven CI. Proposals for full-scale technical efforts leading to development/deployment should be directed to other appropriate NSF programs. Integrative and accelerative approaches. Proposals have particularly welcomed that address identified common needs across multiple research disciplines; leverage and accelerate the impact of existing CI investments in resources and services in one or more application domains; aim to reduce barriers to broader adoption of CI-enabled science/engineering approaches, and integrate different aspects and elements of CI to achieve holistic solutions with transformative science/engineering impact. The requirement to contact NSF Cognizant Program Officers. CESER is an inherently collaborative science/engineering-CI program. Successful CESER projects typically involve co-funding from the relevant disciplinary research programs within NSF. Consequently, before submitting a proposal to CESER, proposers must first (1) discuss their ideas with a cognizant CESER Program Officer to ensure that CESER is the appropriate venue for the proposal and (2) discuss their ideas with the relevant NSF disciplinary science and engineering research program(s) to ensure there is adequate disciplinary interest in the proposed effort. Proposals that have been declined by CESER or any other NSF program may not be resubmitted to CESER without substantial revision. Proposals violating this restriction may be returned without review

**Deadline:** Proposals accepted anytime

## High-Risk Research in Biological Anthropology and Archaeology – (CFDA 47.075)

Anthropological research may be conducted under unusual circumstances, often in distant locations. As a result, the ability to conduct potentially important research may hinge on factors that are impossible to assess from a distance and some projects with potentially great payoffs may face difficulties in securing funding. This program gives small awards that provide investigators with the opportunity to assess the feasibility of an anthropological research project. It is required that the proposed activity be high risk in nature. The information gathered may then be used as the basis for preparing a more fully developed research program. Investigators must contact the cognizant NSF Program Director before submitting an HRRBAA proposal. This will facilitate determining whether the proposed work is appropriate for HRRBAA support.

**Deadline:** Proposals accepted anytime

## Broadening Participation in Engineering – (CFDA 47.041)

NSF seeks to strengthen the future U.S. Engineering workforce by enabling the participation of all citizens through the support of research in the science of Broadening Participation in Engineering (BPE). The BPE program is dedicated to supporting the development of a diverse and well-prepared engineering workforce. BPE focuses on enhancing the diversity and inclusion of all underrepresented populations in engineering, including gender identity and expression, race and ethnicity (African Americans/Blacks, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders), disability, LGBTQ+, first-generation college, and socio-economic status. BPE funds research to Understand and analyze the systemic barriers that prevent underrepresented groups from pursuing and succeeding in engineering, for example, understand the problem of insufficient interest and poorly sustained participation in engineering across underrepresented demographic groups; insignificant preparation and scarce opportunities for members of underrepresented groups to learn meaningful, relevant engineering content. Understand and analyze factors that enhance our ability to increase access to engineering by creating support systems and social networks that raise career awareness about different engineering pathways. Develop innovative methods and projects to significantly impact the recruitment and retention of engineering students from underrepresented groups. Activities must be supported by relevant data and have the capability to produce a model that can be replicated in other contexts. Develop innovative methods and projects to aggressively recruit and retain tenure track faculty from underrepresented groups. Design and transform a culture to make diversity, equity, and inclusion a priority in the engineering enterprise. BPE research activities will provide scientific evidence that engineering educators, employers, and policymakers need to make informed decisions to design effective programs that broaden the participation of persons from historically underrepresented groups in the engineering workforce. BPE is interested in funding research that spans K-12 to the workforce and offers the greatest return on investment. BPE funded research should produce outcomes that are scalable, sustainable, and applicable to various contexts, settings, and demographics within the engineering enterprise. BPE is particularly interested in research that employs intersectional approaches in recognition that gender, race, and ethnicity do not exist in isolation from each other and other categories of social

identity. BPE is equally interested in research activities that align with and provide meaningful connections to the NSF INCLUDES National Network. The overarching goal of NSF INCLUDES is to achieve a significant impact at scale in transforming STEM education and workforce development by educating a diverse, STEM-capable workforce that includes talented individuals from all sectors of the Nation & apos;s population. Collaborations are encouraged between BPE proposals and existing NSF INCLUDES projects, for example, the NSF INCLUDES Alliances and Coordination Hub, provided these collaborations to strengthen both the BPE and NSF INCLUDES projects. Before submitting a proposal to the BPE program, prospective Principal Investigators are strongly encouraged to speak to the program director to obtain guidance as to whether the proposed ideas are aligned with the strategic goals of the BPE program. Proposal Elements All BPE proposals should Be informed by the current theoretical and scientific literature as well as add to the extant knowledge base. Directly address how the work will broaden the participation of one or more underrepresented populations in engineering. Provide appropriate justification to support the selection of the targeted group(s), with specific and applicable objectives, and demonstrate applicable knowledge of the relevant literature on underrepresentation. Integrate a mechanism to assess and evaluate how well the project has achieved the stated objectives as part of the project management plan. Provide evidence of clear, measurable outcomes and consideration of how the strategy will advance knowledge beyond localized contexts. Incorporate a dissemination plan that goes beyond publishing research papers and presenting at conferences. PIs should think creatively about who needs to hear about the research for it to have an impact and develop a strategy to reach that audience. Describe how the outcomes have the potential to enhance the diversity and inclusion of underrepresented populations in engineering. The Project Summary must contain a list of 3-5 keywords. Place the keywords on a separate line at the end of the Overview section of the Project Summary.

**Deadline:** Proposals accepted anytime

### [Critical Aspects of Sustainability – \(CFDA 47.041, 47.049, 47.050\)](#)

Economic development and human progress have led to a proliferation of manufactured chemicals and materials made from limited resources found in nature (i.e., minerals and metals, petroleum-based products and natural gas). Long-term sustainability requires consideration of the availability of specific natural resources, energy, and water usage. NSF continues to support efforts that seek to improve the efficiency with which natural resources are used to meet human needs for products and services. Sustainability research encompasses the design, manufacture, and use of efficient, effective, safe and more environmentally-benign products and processes; stimulates innovation across all sectors to design and discover new chemicals and materials, production processes, and product stewardship practices; and, increases performance and value while meeting the goals of protecting and enhancing human health and the environment. This program seeks to support basic research through core disciplinary programs aimed at improving the sustainability of resources for future generations while maintaining or improving current products to offer technologically-advanced, economically competitive, environmentally-benign and useful materials to a global society. To address these challenges, the program aims to identify opportunities for innovation in a wide range of contributing disciplines as well as integrative activities. This program encourages the development of new experimental and theoretical/modeling approaches that will aid in both reductionist and whole-systems approaches. This program welcomes proposals in any area of research supported through the participating divisions that address the topics outlined below. The selected

topics are of particular interest to core disciplinary programs in the participating divisions and do not include all funding opportunities and priorities in the area of sustainability at NSF. Proposals are submitted to the relevant core Programs indicated below in the participating Divisions, and all questions regarding proposals should be addressed by the cognizant Program Officers to which submission is contemplated. Proposals should be submitted with the "CAS:" prefix in the title. The Division of Chemistry (CHE/MPS) welcomes proposals to its Disciplinary Research Programs, including Chemical Catalysis (CAT), Chemical Measurement and Imaging (CMI), Chemical Structure, Dynamics and Mechanisms-A (CSDM-A), Chemical Structure Dynamics and Mechanisms-B (CSDM-B), Chemical Synthesis (SYN), Chemical Theory, Models and Computational Methods (CTMC), Chemistry of Life Processes (CLP), Environmental Chemical Sciences (ECS), and Macromolecular, Supramolecular and Nanochemistry (MSN). All proposals must be on the chemical aspects of sustainability. The design, preparation and reactivity studies associated with new catalysts and catalytic processes that employ earth-abundant and benign elements and raw materials; advanced catalytic methods for the reduction of dinitrogen to ammonia and water splitting are also invited; Grant Opportunities for Academic Liaison with Industry (GOALI) proposals, where such advances are connected directly to industrial considerations, are also encouraged. Understanding the molecular mechanisms of the two-way communication between the environment and living systems as well as between organisms situated in changing environments; design and test methods that could confer resilience and/or could foster adaptability of living systems subject to changing environments. Innovative measurement and imaging approaches that can improve the efficiency of manufacturing processes, including advances in separation science targeting reduced energy consumption or generation of less waste. Fundamental studies related to sustainable energy such as chromophores based on earth-abundant elements, advanced electrolytes for battery, water splitting, and carbon dioxide conversions. Understanding the environmental chemical degradation of contaminants, including emerging contaminants. Transformative approaches to the efficient and inexpensive synthesis of polymers or nanostructures using renewable feedstocks or earth-abundant elements; and innovative research that enhances the understanding of efficient use and recycling of polymers and critical elements or the conversion of energy from renewable sources. The development of new synthetic methods using earth-abundant and inexpensive chemicals, fundamental studies that improve our understanding of rare earth elements; the conversion of non-petroleum-based resources into useful building blocks; and new environmentally-friendly chemical syntheses that improve on current practice by requiring less energy, freshwater, reagents, and/or organic solvents. Other CHE programs also welcome proposals on this general topic, as long as the proposals fit the scope of the program. All questions regarding proposals to CHE should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see CHE Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CHE>). The Division of Materials Research (DMR/MPS) welcomes proposals to its Topical Materials Research Programs, including Biomaterials (BMAT), Ceramics (CER), Condensed Matter and Materials Theory (CMMT), Condensed Matter Physics (CMP), Electronic and Photonic Materials (EPM), Metals and Metallic Nanostructures (MMN), Polymers (POL), and Solid State and Materials Chemistry (SSMC). All proposals must be on materials aspects of sustainability and focused on fundamental materials-research approaches. CER, CMMT, EPM, MMN, and SSMC will consider proposals on all materials aspects of sustainability. BMAT encourages proposals that take advantage of synthetic biology or other innovative and sustainable approaches (e.g., renewable, recyclable, environmentally benign). CMP encourages proposals on replacing rare-earth elements in magnetic materials with more abundant and accessible elements; also, proposals exploring materials

alternatives to oxides for nuclear reactor fuel, aiming at improved stability and properties (e.g., thermal conductivity) and decreased environmental impact. POL welcomes proposals that address plastics waste accumulation through innovative materials approaches and environmentally benign polymeric materials having properties exceeding those of current commercial plastics. All proposals must be submitted through one of the active solicitations of the DMR Topical Materials Research Programs (currently NSF 17-580, 18-500, and 19-515) and must follow the deadlines, instructions, and limitations of these solicitations. Proposals that are not following these guidelines or that fall outside the scope of DMR and its Topical Materials Research Programs will be returned without review. All questions regarding proposals to DMR should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see DMR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=DMR>). The Chemical, Bioengineering, Environmental and Transport Systems Division (CBET/ENG) has several core programs that review proposals on research topics related to sustainability, including Molecular Separations (MolS), Biosensing, Environmental Sustainability (EnvS), Biological and Environmental Interactions of Nanoscale Materials (BioNano), Combustion and Fire Systems (CFS), and Particulate and Multiphase Processes (PMP). Within these programs, as noted, the following topics are of particular interest: Understanding the fundamental combustion properties of sustainable aviation fuels under engine relevant conditions. (CFS) Fundamental studies leading to effective methods of processing multiphase fluid systems that minimize waste, avoid contamination, enhance the purity, or lead to novel materials that benefit efficient energy utilization. (PMP) The development of innovative separation mechanisms, mass separating agents, or engineering processes that aim to substantially reduce energy and/or material consumption in the chemical process industries. (MolS) Fundamental mechanistic investigations for the development, sustainable production and use of nanomaterials, nanoparticles, nanodevices, and nanosystems. (BioNano) Biosensing systems with inherent capabilities of artificial intelligence, machine learning, and decision making for applications in real-time monitoring of environmental and living systems and in evaluating environmentally benign chemicals and materials. (Biosensing) Industrial Ecology: Topics of interest in Industrial Ecology include advancements in modeling such as life cycle assessment, materials flow analysis, input/output economic models, and novel metrics for measuring sustainable systems. Innovations in industrial ecology are encouraged. (EnvS) Green Engineering: Research is encouraged to advance the sustainability of manufacturing processes, green buildings, and infrastructure. Improvements in distribution and collection systems that will advance smart growth strategies and ameliorate effects of growth are supported. Innovations in the management of stormwater, recycling and reuse of drinking water, and other green engineering techniques to support sustainability may also be fruitful areas for research. (EnvS) Ecological Engineering: Topics should focus on the engineering aspects of restoring ecological function to natural systems. Engineering research in the enhancement of natural capital to foster sustainable development is encouraged. (EnvS) Earth Systems Engineering: Earth systems engineering considers aspects of large-scale engineering research that involve mitigation of greenhouse gas emissions, adaptation to climate change, and other global-scale concerns. (EnvS) All questions regarding proposals to CBET should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CBET Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CBET>). For the Division of Civil, Mechanical, and Manufacturing Innovation (CMMI/ENG), proposals addressing sustainable materials processing are welcome. Of interest are manufacturing processes with reduced use of toxic components, such as solvents, carbon emissions, and pollutants; processes under ambient conditions, as opposed to extreme

temperatures, pressures or other harsh conditions; and increased conservation of natural resources, such as water, raw material, and energy. Proposals to CMMI must be submitted to the Advanced Manufacturing (AM) Program and align with the scope of the program. All questions regarding proposals to CMMI should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CMMI Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CMMI>). The Division of Earth Sciences (EAR/GEO) welcomes fundamental and transformational geosciences projects addressing the distribution of Critical Minerals and Materials in the Earth. The following programs in the division support research on this topic: Petrology and Geochemistry (CH), Geobiology and Low-Temperature Geochemistry (GG), and Frontier Research in Earth Sciences (FRES). Topics of particular interest include fundamental studies of the geochemistry of Critical Earth Minerals and Materials (CMM), such as: Identifying new sources of critical minerals on the Earth's surface; Constraining their pathways in the natural environment involving concentration by Earth and geobiological processes, and Developing methods for sustainable exploration of these CMMs. Studies can be based on laboratory, field, or modeling efforts, and should have a strong emphasis on training the next generation of geoscientists and educating the public on the importance of CMM. Proposals must be submitted through one of the active solicitations of the three programs and must follow the deadlines and guidelines of these solicitations. All questions regarding proposals to EAR should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see EAR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=EAR>).

**Deadline:** Proposals accepted anytime

## Small Business Administration

### [Cybersecurity for Small Business Pilot Program CFDA 59.079](#)

Cyber-attacks are a growing threat for small businesses and the U.S. economy. According to the FBI's Internet Crime Report, the cost of cybercrimes reached \$2.7 billion in 2020 alone. Small businesses are attractive targets because they have information that cybercriminals want, and they typically lack the security infrastructure of larger businesses.

According to a recent SBA survey, 88% of small business owners felt their business was vulnerable to a cyber-attack. Yet many businesses can't afford professional IT solutions, have limited time to devote to cybersecurity, or they don't know where to begin.

The Consolidated Appropriations Act, 2021, authorized the US Small Business Administration to make grants to States, and the equivalent thereof, to carry out projects that help new small business concerns with tools to combat cybersecurity threats during their formative and most vulnerable years.

**Deadline:** March 03, 2022

[US Small Business Administration Office of Entrepreneurial Development CFDA  
59.043](#)

The purpose of this FOA is to provide funding for up to ten (10) private, non-profit organizations that are or affiliated with Minority Serving Institutions (MSI) (MSIs are Historically Black Colleges and Universities [HBCUs], Hispanic-Serving Institutions [HSIs] from the Hispanic Association of Colleges and Universities [HACU], and Asian American Native American Pacific Islander Institutions [AANAPISIs])) that will provide entrepreneurial development services to women, with an emphasis on socially and economically disadvantaged entrepreneurs in locations that are outside of the geographical areas of existing WBCs.

Eligible applicants must be private, non-profit organizations with 501(c) tax exempt status from the U.S. Treasury's Internal Revenue Service. An organization that is operating, or has operated an SBA funded WBC, within the past five (5) years, if selected, will be awarded as an Initial Phase Project. Likewise, an organization that previously operated an SBA-funded WBC (but that is no longer operating), if eligible to apply and selected, will also be awarded as an Initial Phase Project since this application will be treated as an effort to re-establish the WBC.

Additionally, religious organizations are encouraged to apply, if eligible. Such organizations are not required to alter their religious character to participate in a government program, nor to cease engaging in explicitly religious activities outside the program, nor effectively to relinquish their Federal statutory protections for religious hiring decisions. Likewise, other organizations meeting the WBC program eligibility criteria, as well as other organizations serving socially and economically disadvantaged entrepreneurs, are also encouraged to apply. Proposals responding to this FOA must be posted to [www.Grants.gov](http://www.Grants.gov) by no later than 11:59:59 p.m. Eastern Daylight Time, on March 14, 2022. No other methods of submission are permitted. Proposals submitted after the stipulated deadline will be rejected without evaluation. Unless the applicant can clearly demonstrate through documentation obtained from [Grants.gov](http://Grants.gov) that they attempted to submit their proposal in a timely manner but were unable to do so solely due to [Grants.gov](http://Grants.gov) system issues.

**Deadline:** March 14, 2022

[US Small Business Administration Entrepreneurial Development Services to  
Women CFDA 59.043](#)

The purpose of this FOA is to provide funding for up to one (1) private, non-profit organizations that will provide entrepreneurial development services to women, with an emphasis on socially and economically

disadvantaged entrepreneurs in locations that are outside of the geographical areas of existing WBCs for the State of Alaska (AK). Eligible applicants must be private, non-profit organizations with 501(c) tax exempt status from the U.S. Treasury's Internal Revenue Service and must provide services to the State of Alaska (AK).

An organization that is operating, or has operated an SBA funded WBC, within the past five (5) years, if selected, will be awarded as an Initial Phase Project. Likewise, an organization that previously operated an SBA-funded WBC (but that is no longer operating), if eligible to apply and selected, will also be awarded as an Initial Phase Project since this application will be treated as an effort to re-establish the WBC.

Furthermore, recognizing the important role that Minority Serving Institutions (MSIs) (e.g., Historically Black Colleges and Universities [HBCUs], Hispanic-Serving Institutions [HSIs] from the Hispanic Association of Colleges and Universities [HACU], and Asian American Native American Pacific Islander Institutions [AANAPISIs]) play in meeting the needs of socially and economically disadvantaged markets, this program announcement seeks to encourage MSIs to provide entrepreneurial development services to socially and economically disadvantaged entrepreneurs.

MSIs, HBCUs, HSIs, HACU, AANAPISIs and their auxiliary entities are encouraged to apply.

Additionally, religious organizations are encouraged to apply. Such organizations are not required to alter their religious character to participate in a government program, nor to cease engaging in explicitly religious activities outside the program, nor effectively to relinquish their Federal statutory protections for religious hiring decisions. Likewise, other organizations meeting the WBC program eligibility criteria, as well as other organizations serving socially and economically disadvantaged entrepreneurs, are also encouraged to apply.

Proposals responding to this FOA must be posted to [www.Grants.gov](http://www.Grants.gov) by no later than 11:59:59 p.m. Eastern Daylight Time, on March 14, 2022.

No other methods of submission are permitted. Proposals submitted after the stipulated deadline will be rejected without evaluation. Unless the applicant can clearly demonstrate through documentation obtained from [Grants.gov](http://Grants.gov) that they attempted to submit their proposal in a timely manner but were unable to do so solely due to [Grants.gov](http://Grants.gov) system issues.

**Deadline:** March 14, 2022

### [Program for Investment in Microentrepreneurs \(PRIME\) – CFDA 59.050](#)

SBA intends to award a discretionary grant to the National Association of Government Guaranteed Lenders (NAGGL) to provide SBA 7(a) training to nonprofit lenders participating in the SBA Community Advantage Pilot Loan Program (CA). NAGGL has extensive experience with providing training to lenders on SBA's 7(a) loan product in the areas of loan origination, loan servicing, and loan liquidation. This discretionary grant will serve as a proof of concept to explore the success of regional training to mission lenders participating in CA. These training needs have been identified by SBA's

Office of Credit Risk Management to increase the performance level of lenders participating in the CA program. SBA will work closely with NAGGL in shaping the project as it is implemented and will draw lessons learned from its implementation and use that insight and experience in deciding whether or not to continue the initiative in a permanent form, which we would then do via the standard competitive process for awarding grants.

**Deadline:** Open

[HS 2021-2 Omnibus Solicitation of the NIH, CDC and FDA for Small Business Innovation Research Grant Applications \(Parent SBIR \[R43/R44\] Clinical Trial Not Allowed\)](#)

This Funding Opportunity Announcement (FOA), issued by the National Institutes of Health (NIH), the Centers for Disease Control and Prevention (CDC), and the Food and Drug Administration (FDA), invites eligible United States small businesses to submit Small Business Innovation Research (SBIR) grant applications. United States small businesses that have the research capabilities and technological expertise to contribute to the R and D mission(s) of the NIH, CDC, and FDA awarding components identified in this FOA are encouraged to submit SBIR grant applications in response to identified topics (see PHS 2021-2 SBIR/STTR Program Descriptions and Research Topics for NIH, CDC, and FDA. This Parent Funding Opportunity Announcement does not accept clinical trials.

CFDA Number(s): 93.068 -- Chronic Diseases: Research, Control, and Prevention

## **U.S. Department of Agriculture**

### [REAP Energy Audit and Renewable Energy Development Assistance Program](#) [CFDA 10.868](#)

This program assists rural small businesses and agricultural producers by conducting and promoting energy audits and providing Renewable Energy Development Assistance (REDA).

#### **Who may apply for this program?**

State and local governments.

Federally-recognized tribes.

A land-grant college or university or other institutions of higher education.

Rural electric cooperatives.

Public power entities.

An instrumentality of a state, tribal or local government.

A Resource Conservation & Development Council (as defined in 16 USC §3451).

How may funds be used?

The assistance must be provided to agricultural producers and rural small businesses. Rural small businesses must be located in eligible rural areas. This restriction does not apply to agricultural producers. Assistance provided must consist of:

Energy audits.

Renewable energy technical assistance.

Renewable energy site assessments.  
Eligible project costs may include:

Salaries directly related to the project.

Travel expenses directly related to conducting energy audits or renewable energy development assistance.

Office supplies.

Administrative expenses, up to a maximum of 5 percent of the grant, which include but are not limited to utilities, office space, operation expenses of office and other project-related equipment.

Funds may NOT be used for:

Payment for construction-related activities.

Purchase or lease of equipment.

Payment of judgments or debt owed the government.

Goods or services provided by a person or entity who has a conflict of interest.

Costs incurred by preparing an application package.

Funding political or lobbying activities.

What are the grant terms?

Applicants must submit separate applications, limited to one energy audit and one Renewable Energy Development Assistance (REDA) per fiscal year. The maximum aggregate amount of an energy audit and REDA grant in a Federal fiscal year is \$100,000.

**Deadline:** February 21, 2022

### [Crop Protection and Pest Management Competitive Grants Program CFDA 10.329](#)

The purpose of the Crop Protection and Pest Management program is to address high priority issues related to pests and their management using IPM approaches at the state, regional and national levels. The CPPM program supports projects that will ensure food security and respond effectively to other major societal pest management challenges with comprehensive IPM approaches that are economically viable, ecologically prudent, and safe for human health. The CPPM program addresses IPM challenges for emerging issues and existing priority pest concerns that can be addressed more effectively with new and emerging technologies. The outcomes of the CPPM program are effective, affordable, and environmentally sound IPM practices and strategies needed to maintain agricultural productivity and healthy communities.

**Deadline:** February 28, 2022

### [Women and Minorities in Science, Technology, Engineering, and Mathematics Fields Program CFDA 10.318](#)

The purpose of this program is to support research, education/teaching, and extension projects that increase participation by women and underrepresented minorities from rural areas in STEM. NIFA intends this program to address educational needs within broadly defined areas of food and agricultural sciences. Applications recommended for funding must highlight and emphasize the development of a competent and qualified workforce in the food and agricultural sciences. WAMS-funded projects improve the economic health and viability of rural communities by developing research and extension initiatives that focus on new and emerging employment opportunities in STEM occupations. Projects that contribute to the economic viability of rural communities are also encouraged.

**Deadline:** March 31, 2022

### [Rural Innovation Stronger Economy Grant Program CFDA 10.755](#)

The primary objective of the RISE program is to support jobs accelerator partnerships to improve the ability of distressed rural and energy communities to create high wage jobs, accelerate the formation of new businesses, and help rural communities identify and maximize local assets. Grants are awarded on a competitive basis. The minimum award per grant is \$500,000 and the maximum award amount per grant is \$2,000,000. Grant funds may be used to pay for up to 80 percent of eligible project costs. Grant funds may be used to pay for costs directly related to the purchase or construction of an innovation center located in a rural area; costs directly related to operations of an innovation center including purchase of equipment, office supplies, and administrative costs including salaries directly related to the project; costs directly associated with support programs to be carried out at or in direct partnership with job accelerators; reasonable and customary travel expenses directly related to job accelerators and at rates in compliance with 2 CFR 200.474; utilities, operating expenses of the innovation center and job accelerator programs and associated programs; and administrative costs of the grantee not exceeding 10% of the grant amount for the duration of the project.

**Deadline:** April 19, 2022

### [Department of Agriculture Acer Access Development Program CFDA 10.147](#)

The U.S. Department of Agriculture (USDA), Agricultural Marketing Service (AMS), requests applications for the fiscal year (FY) 2022 Acer Access and Development Program (Acer Program). AMS will competitively award grants to eligible applicants for projects that support the efforts of States, Tribal

governments, and research institutions to promote the domestic maple syrup industry through activities associated with: promotion of research and education related to maple syrup production; promotion of natural resource sustainability in the maple syrup industry; market promotion for maple syrup and maple-sap products; encouragement of owners and operators of privately held land containing species of trees in the genus *Acer* to initiate or expand maple-sugaring activities on the land; or to voluntarily make the land available, including by lease or other means, for access by the public for maple-sugaring activities.

**Deadline:** April 26, 2022

### [Rural Microentrepreneur Assistance Program \(RMAP\) CFDA 10.870](#)

The purpose of RMAP is to support the development and ongoing success of rural Microentrepreneurs and Microenterprises, each as defined in 7 CFR 4280.302. The regulation can be accessed online at <https://www.ecfr.gov>. To accomplish this purpose, RMAP provides direct loans and grants to Microenterprise Development Organizations (MDO). Grant funds are used by the MDO to provide technical assistance and entrepreneurship training to rural individuals and businesses.

**Deadline:** June 30, 2022

## **U.S. Department of Commerce**

### [FY 2021 American Rescue Plan Act Indigenous Communities Notice of Funding Opportunity CFDA 11.307](#)

Through this Indigenous Communities NOFO, EDA aims to assist indigenous communities to recover economically from the coronavirus pandemic. Even before the pandemic, indigenous communities faced high levels of economic distress and unique economic development challenges, resulting in severe inequalities in opportunity for members of these communities. The pandemic greatly exacerbated those challenges and inequities and will continue to cause deep economic injury to indigenous communities in unprecedented ways.

EDA's American Rescue Plan Indigenous Communities NOFO is designed to support indigenous communities as they respond to, and recover from, the economic impacts of the coronavirus pandemic, including long-term recovery and resilience to future economic disasters. Under this announcement, EDA solicits applications under the authority of its Economic Adjustment Assistance (EAA) program, which is intended to be flexible and responsive to the economic development needs and priorities of indigenous communities.

Competitive applications for funding under this NOFO will propose projects designed to create the conditions for economic growth in indigenous communities and to accelerate economic recovery from the pandemic. These projects can include foundational economic infrastructure projects, such as such as broadband, energy, road, water, and wastewater infrastructure (including community water facilities); vocational and higher education facilities; and community health facilities that are necessary for future job creation. Projects can also include non-construction projects to provide technical assistance to support business development, entrepreneurship assistance, economic development planning, rural prosperity, and workforce training in indigenous communities. Further, EDA seeks to fund projects representing diverse geographies, from rural and urban settings to projects on or near tribal lands.

EDA plans on funding construction and non-construction projects that cost between approximately \$500,000 and \$5,000,000 under this NOFO.

**Deadline:** September 30, 2022

## **U.S. Department of Defense**

### [Research Associateship Program \(RAP\) CFDA 12.630](#)

The U.S. Army Combat Capabilities Development Command Army Research Laboratory (DEVCOM ARL) is the Army's corporate research laboratory strategically placed in the Army Futures Command. DEVCOM ARL is the Army's sole corporate research laboratory, focused on cutting-edge disruptive foundational research, shaping and informing the future operating environment, and serving as the primary link to the world-wide scientific community. The DEVCOM ARL Mission is to operationalize science for transformational overmatch.

DEVCOM ARL is the Army's corporate, or central, laboratory for materiel technology. Its diverse assortment of unique facilities and its workforce of government engineers and scientists comprise the largest source of world class integrated research and analysis in the Army. DEVCOM ARL's programs consist of foundational research as well as human factors analysis. These programs are focused on key non-system specific science and technology that will enable the transformation of the Army into a more versatile, agile, survivable, lethal, deployable, and sustainable force. DEVCOM ARL consists of four

directorates and the Army Research Office. These organizations focus on technology areas critical to strategic dominance across the entire spectrum of military operations.

By combining its in-house technical expertise with those from academic and industry partners, DEVCOM ARL is able to maximize each dollar invested to provide the best technologies for our Soldiers. DEVCOM ARL also applies the extensive research and analysis tools developed in its direct mission program to support ongoing development and acquisition programs in the DEVCOM Centers, Program Executive Offices (PEOs)/Program Manager (PM) Offices, and Industry. DEVCOM ARL has consistently developed the enabling technologies found in many of the Army's most important weapons systems.

The DEVCOM ARL Research Associateship Program (RAP) will help to introduce selected Fellows to the roles and needs of the Warfighter as well as provide access to DEVCOM ARL's world class research facilities, while allowing the Selected Fellows to pursue fundamental research of mutual interest to the Army and the Fellows. Selected Fellows will bring new ideas, expertise, approaches, and techniques to DEVCOM ARL. The RAP allows the United States Government to rapidly build a critical mass of talent in specific research and technology areas. Being involved with research at DEVCOM ARL broadens the Fellows' experience, under the mentorship of DEVCOM ARL's excellent scientific staff, thus also enhancing the Fellows' credentials.

**Deadline:** March 01, 2022

### [Procurement Technical Assistance Program - New Applicants CFDA 12.002](#)

This funding opportunity seeks to receive applications from eligible entities who will operate a Procurement Technical Assistance Center (PTAC), providing government contracting assistance to U.S. large and small businesses to (1) American Indian-Owned businesses, Indian Tribes, and Alaska Natives in any Bureau of Indian Affairs region with a particular need in Maine, North Carolina, Virginia, South Dakota, Alaska, Washington, and Oregon; and (2) Any business in unserved or underserved counties in North Carolina, New York, California, Washington, and the Commonwealth of the Northern Marianas will be considered.

**Deadline:** May 25, 2022

### [Fiscal Year \(FY\) 2023 Department of Defense Multidisciplinary Research Program of the University Research Initiative \(MURI\)- Army Submission CFDA 12.431](#)

The Department of Defense (DoD) Multidisciplinary University Research Initiative (MURI), one element of the University Research Initiative (URI), is sponsored by the DoD research offices. Those offices include

the Office of Naval Research (ONR), the Army Research Office (ARO), and the Air Force Office of Scientific Research (AFOSR) (hereafter collectively referred to as "DoD agencies" or "DoD").

This publication constitutes a Funding Opportunity Announcement (FOA) as contemplated in the Department of Defense Grants and Agreements regulations (DoDGARS) 32 CFR 22.315(a). The DoD agencies reserve the right to fund all, some, or none of the proposals received under this FOA. The DoD agencies provides no funding for direct reimbursement of proposal development costs. Technical and budget proposals (or any other material) submitted in response to this FOA will not be returned. It is the policy of the DoD agencies to treat all white papers and proposals submitted under this FOA as sensitive competitive information and to disclose their contents only for the purposes of evaluation.

Hyperlinks have been embedded within this document and appear as underlined, blue-colored words. The reader may "jump" to the linked section by clicking the hyperlink. A formal Request for Proposals (RFP), solicitation, and/or additional information regarding this announcement will not be issued.

DoD's MURI program addresses high-risk basic research and attempts to understand or achieve something that has never been done before. The program was initiated over 25 years ago and it has regularly produced significant scientific breakthroughs with far reaching consequences to the fields of science, economic growth, and revolutionary new military technologies. Key to the program's success is the close management of the MURI projects by Service program officers and their active role in providing research guidance.

The DoD agencies involved in this program reserve the right to select for award all, some or none of the proposals submitted in response to this announcement. The DoD agencies provide no funding for direct reimbursement of proposal development costs. Technical and cost proposals (or any other material) submitted in response to this FOA will not be returned. It is the policy of the DoD agencies to treat all proposals as competition sensitive information and to disclose their contents only for the purposes of evaluation.

Awards will take the form of grants. FOR ARO SUBMISSIONS ONLY, awards will take the form of grants and/or cooperative agreements. Any assistance instrument awarded under this announcement will be governed by the award terms and conditions that conform to DoD's implementation of the Office of Management and Budget (OMB) circulars applicable to financial assistance. Terms and conditions will reflect DoD implementation of OMB guidance in 2 CFR Part 200, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards."

**Deadline:** September 09, 2022

### [Information Innovation Office \(I2O\) Office-Wide CFDA 12.910](#)

This Broad Agency Announcement (BAA) seeks revolutionary research ideas for topics not being addressed by ongoing I2O programs or other published solicitations. Potential proposers are highly encouraged to review the current I2O programs (<http://www.darpa.mil/about-us/offices/i2o>) and solicitations (<http://www.darpa.mil/work-with-us/opportunities>) to avoid proposing efforts that duplicate existing activities or that are responsive to other published I2O solicitations.

**Deadline:** October 28, 2022

## **U.S. Department of Education**

### [Institute of Education Sciences \(IES\): Improving Pandemic Recovery Efforts in Education Agencies, CFDA 84.305X](#)

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at [www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf](http://www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf).

Purpose of Program: Through the National Center for Education Research (NCER), the Institute of Education Sciences (Institute) provides support for programs of research in areas of demonstrated national need. The Institute's research grant programs are designed to provide interested individuals and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all learners.

Through the Research Networks Focused on Critical Problems of Education Policy and Practice grant program, NCER focuses resources and

attention on specific education problems or issues that are a high priority for the Nation. NCER also establishes both a structure and process for researchers who are working on these issues to share ideas, build new knowledge, and strengthen their research and dissemination capacity. Through this program, NCER seeks to establish the Leveraging Evidence to Accelerate Recovery Nationwide Network.

Through the Improving Pandemic Recovery Efforts in Education Agencies grant program, NCER seeks to establish two research networks, with one examining recovery activities in prekindergarten through grade 12 and the other examining recovery activities in community colleges.

Competitions in This Notice: The Institute's NCER is announcing two competitions--one focused on leveraging evidence to accelerate recovery and one on improving pandemic recovery activities in education agencies.

**Deadline:** March 10, 2022

[Office of Elementary and Secondary Education \(OESE\): Rural Education Achievement Program \(REAP\): Small, Rural School Achievement \(SRSA\) Program, CFDA 84.358A](#)

Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-

application and application requirements, application submission information, performance measures, priorities and program contact information.

Under the Small, Rural School Achievement (SRSA) program, Assistance Listing Number 84.358A, the U.S. Department of Education (Department) awards grants on a formula basis to eligible local educational agencies (LEAs) to address the unique needs of rural school districts. In this notice, we establish the deadline and describe the submission procedures for fiscal year (FY) 2022 SRSA grant applications.

The Department will email each LEA eligible for FY 2022 SRSA grant funds a uniquely identifiable application link on February 9, 2022. The email will include customized instructions for completing the electronic application via the Office of Management and Budget (OMB) MAX Survey platform.

An eligible LEA must submit an electronic application via OMB MAX Survey by April 15, 2022, to be assured of receiving an FY 2022 SRSA grant award. The Department may consider applications submitted after the deadline to the extent practicable and contingent upon the availability of funding.

**Deadline:** April 15, 2022

[Office of Elementary and Secondary Education \(OESE\): Office of Indian Education \(OIE\): Formula Grants to Local Educational Agencies, CFDA 84.060A](#)

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

**Purpose of Program:** The OIE Formula Grants to Local Educational Agencies (Formula Grants) program provides grants to support local educational agencies (LEAs), Indian Tribes and organizations, and other eligible entities in developing and implementing elementary and secondary school programs that serve Indian students. These funds must be used to support comprehensive programs that are designed to meet the unique cultural, language, and educational needs of American Indian and Alaska Native (AI/AN) students and ensure that all students meet challenging State academic standards. The information gathered from the project's final annual performance report (APR) will be utilized to complete OIE's required annual Department reporting under 34 CFR 75.110. Specifically, that report covers the Secretary's established key performance measures for assessing the effectiveness and efficiency of the Formula Grants program as

detailed in this notice. How to Request an Application Package: You can obtain an entity-specific link for the electronic application for grants under this program by contacting the PSC listed under FOR FURTHER INFORMATION CONTACT.

Content and Form of Application Submission: (a) Requirements concerning the content of an application, together with the forms you must submit and technical assistance resources, are located on the EASIE Communities of Practice website at <https://easie.communities.ed.gov/>.

Note: The OIE and PSC will create dedicated technical assistance documentation to support applicants and grantees with accessing, navigating, entering data, and submitting their responses into the OMB MAX Survey. Prior to the opening of EASIE Part I, this documentation will be announced and posted on the EASIE Communities of Practice website at: <https://easie.communities.ed.gov/>.

**Deadline:** May 13, 2022

### [Office of Elementary & Secondary Education; Overview Information: Race to the Top Fund \(ARRA\) CFDA 84.395](#)

The Race to the Top is a \$4.35 billion competitive grant program designed to encourage and reward States that are creating the conditions for education innovation and reform and implementing ambitious plans in four core education reform areas: • Adopting internationally-benchmarked standards and assessments that prepare students for success in college and the workplace; • Recruiting, developing, retaining, and rewarding effective teachers and principals; • Building data systems that measure student success and inform teachers and principals how they can improve their practices; and • Turning around lowest-performing schools The overarching goals are to: • Drive substantial gains in student achievement • Improve high school graduation rates and prepare students for success in college and careers • Close achievement gaps The Department plans to make Race to the Top grants in two phases. States that are ready to apply may do so in Phase 1, which will open in late 2009. States that need more time may apply in Phase 2, which will open in spring 2010. States that apply in Phase 1 but are not awarded grants may reapply for funding in Phase 2, together with States that are applying for the first time in Phase 2. Phase 1 grantees may not apply for additional funding in Phase 2. We will announce specific deadlines for both Phase 1 and Phase 2 in subsequent notice(s) inviting applications for funds under this program.

**Deadline:** Rolling

Office of Elementary and Secondary Education (OESE): Project to Support  
America's Families and Educators (Project SAFE) Grant Program Assistance  
Listing Number (ALN) 84.184N

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at [www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf](http://www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf)

The Project SAFE grant program is intended to improve students' safety and well-being by providing resources to local educational agencies (LEAs) that adopt and implement strategies to prevent the spread of the Novel Coronavirus Disease 2019 (COVID-19) consistent with guidance from the Centers for Disease Control and Prevention (CDC) and that are financially penalized for doing so by their State educational agency (SEA) or other State entity.

Purpose of Program: The Project SAFE grant program provides grants to eligible LEAs to improve student safety and well-being by advancing strategies consistent with CDC guidance to reduce transmission of COVID-19 in schools.

To submit an application, please email the completed and signed application, along with required attachments, to [ProjectSAFE@ed.gov](mailto:ProjectSAFE@ed.gov).

**Deadline:** Rolling

## **U.S. Department of Energy**

### [Notice of Intent to Issue Funding Opportunity Announcement No. DE-FOA-0002598 titled University Training and Research for Fossil Energy and Carbon Management – Minority Serving Institutions \(MSIs\) CFDA 81.089](#)

Notice of Intent to Issue Funding Opportunity Announcement No. DE-FOA-0002598 titled University Training and Research for Fossil Energy and Carbon Management – Minority Serving Institutions (MSIs)

The objective of the planned Funding Opportunity Announcement is to solicit and award research and development grants

### [UNIVERSITY-BASED CYBERSECURITY CENTERS CFDA 81.008](#)

This FOA seeks to establish a network of university-based, regional electric power cybersecurity centers. These centers should address interrelated research and development challenges of cybersecurity and critical energy infrastructure, while considering the distinctive characteristics of each region's electricity system, network of infrastructure, and workforce expertise. It is envisioned that this initiative will result in multiple new tools and training for the energy sector.

**Deadline:** March 15, 2022

## **U.S. Department of Health and Human Services**

### [Novel Synthetic Nucleic Acid Technology Development \(R21 Clinical Trial not allowed\)-\(CFDA 93.172\)](#)

This Funding Opportunity Announcement (FOA) solicits R21 grant applications to develop novel technologies that will enable substantive (no less than one order of magnitude) improvement in synthetic nucleic acids. The goal is to improve the quality, capabilities, and efficiency of nucleic acid synthesis and synthetic constructs at reasonable and decreased costs. Applicants may propose to develop novel complete synthesis and/or synthetic constructs systems, investigate challenges underlying key novel system components, or propose substantive improvements of at least an order of magnitude improvement to existing systems. Exploration of methods other than those currently in use is highly encouraged. High-risk/high-payoff applications are appropriate to achieve the goals of this FOA.

**Deadline:** June 24, 2022

### Interactive Digital Media STEM Resources for Pre-College and Informal Science Education Audiences (SBIR) (R43/R44 Clinical Trial Not Allowed) CFDA 93.859

The purpose of this Funding Opportunity Announcement (FOA) is to provide opportunities for eligible small business concerns (SBCs) to submit NIH Small Business Innovation Research (SBIR) grant applications to develop interactive digital media science, technology, engineering and mathematics (STEM) resources that address student career choice and health and medicine topics for: (1) pre-kindergarten to grade 12 (P-12) students, and pre- and in-service teachers and families ("Teachers") or (2) Informal science education (ISE), i.e., outside the classroom resources for the general public. Interactive digital media (IDM) are defined as products and services on digital computer-based systems which respond to the user's actions by presenting content such as text, moving image, animation, video, audio, and video games. There is a large body of evidence that IDM technology has the potential to support learning in a variety of contexts from primary and secondary schools, to universities, adult education and workplace training. IDM is widely used to train, educate, and encourage behavioral changes in a virtual world format where progressive learning, feedback on success and user control are combined into an interactive and engaging experience. It is anticipated that this SBIR FOA will facilitate the translation of new or existing health and medicine-based, P-12 STEM curricula and museum exhibits into educational Interactive Digital Media STEM (IDM STEM) resources that will provide a hands-on, inquiry-based and learning-by-doing experience for students, teachers and the community.

**Deadline:** September 02, 2022

### [Palliative Care in Home and Community Settings \(R01 Clinical Trial Optional\) – \(CFDA 93.361\)](#)

The purpose of this funding opportunity is to stimulate research aimed at determining needs and best practices for the integration of palliative care into home and community settings. Home and community in this FOA refer to the place where an individual resides or lives. Home- and community-based palliative care programs ensure those with serious, advanced illness who do not require hospitalization but are not appropriate for hospice have access to high-quality end-of-life and palliative care.

**Deadline:** September 7, 2022

[Core Infrastructure Support for Cancer Epidemiology Cohorts \(U01 Clinical Trial Not Allowed\) CFDA 93.393](#)

Through this Funding Opportunity Announcement (FOA), the National Cancer Institute (NCI) encourages grant applications for support of the core functions of Cancer Epidemiology Cohorts (CECs), as well as methodological research. This FOA is intended to support maintenance of existing CECs infrastructure and resource sharing with broader scientific communities.

Deadline: November 09, 2022

[Advancing Validated Drug Targets for Substance Use Disorders \(R41/R42 - Clinical Trial Not Allowed\) CFDA 93.279](#)

This Funding Opportunity Announcement (FOA) solicits grant applications from small business concerns (SBCs) to continue research projects with robustly validated targets for Substance Use Disorders (SUDs). This FOA will provide funding for projects entering at either assay development (AD), lead identification (LI), lead optimization (LO), or preclinical development (PCD) stages to allow for the ultimate goal of successfully completing Investigational New Drug-enabling activities.

**Deadline:** February 18, 2022

[Advancing Validated Drug Targets for Substance Use Disorders \(R43/R44 - Clinical Trial Not Allowed\) CFDA 93.279](#)

This Funding Opportunity Announcement (FOA) solicits grant applications from small business concerns (SBCs) to continue research projects with robustly validated targets for Substance Use Disorders (SUDs). This FOA will provide funding for projects entering at either assay development (AD), lead identification (LI), lead optimization (LO), or preclinical development (PCD) stages to allow for the ultimate goal of successfully completing Investigational New Drug-enabling activities.

**Deadline:** February 18, 2022

[New Investigators to Promote Workforce Diversity in Genomics, Bioinformatics, or Bioengineering and Biomedical Imaging Research \(R01 Clinical Trial Optional\) CFDA 93.837](#)

This Funding Opportunity Announcement (FOA) solicits R01 grant applications that propose independent research projects that are within the scientific mission areas of the National Human Genome Research Institute (NHGRI), National Institute of Biomedical Imaging and Bioengineering (NIBIB), and All of Us Research Program (All of Us). This program is intended to support Early Stage Investigators and New Investigators (<https://grants.nih.gov/policy/early-investigators/index.htm>) from diverse backgrounds, including those from groups underrepresented in the health-related sciences.

**Deadline:** February 22, 2021

[Pilot and Feasibility Studies to Improve Technology Adoption and Reduce Health Disparities in Type 1 Diabetes Mellitus \(R01 Clinical Trial Required\) CFDA 93.847](#)

The purpose of this Funding Opportunity Announcement (FOA) is to support pilot and feasibility trials of interventions designed to improve technology adoption in individuals from underrepresented backgrounds with type 1 diabetes mellitus (T1D). Through successful execution, these pilot and feasibility trials should provide feasibility data for larger, pragmatic trials with the overarching goal of reducing health disparity in T1D through improving technology usage in individuals from minority racial and ethnic backgrounds.

**Deadline:** March 03, 2022

[Limited Competition Emergency Awards: Shared Personal Protective Equipment Resources for COVID-19 Related Vaccine and Treatment Clinical Trials and Clinical Studies \(S10 Clinical Trial Not Allowed\) CFDA 93.855](#)

The purpose of this public health emergency funding opportunity is to provide Personal Protective Equipment (PPE) to directly support the needs of the NIAIDs vaccine and treatment clinical trials and clinical studies for COVID-19. This program will ensure that adequate protective equipment is available to directly assist in safely carrying out the clinical activities and direct interactions with the patients participating in the trial. Eligibility is limited to recipients conducting COVID-related clinical research and clinical studies supported by NIAIDs emergency appropriation provided by The Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 ,and The Coronavirus Aid, Relief and Economic Security (CARES) Act, The Coronavirus Response and Relief Supplemental Appropriations Act, 2021 and The American Rescue Plan Act of 2021.

**Deadline:** July 15, 2022

[Genome Research Experiences to Attract Talented Undergraduates into the Genomics Field to Enhance Diversity \(R25 Clinical Trial Not Allowed\) CFDA 93.172](#)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The overarching goal of this NHGRI R25 program is to support educational activities that encourage undergraduates from diverse backgrounds, including those from groups underrepresented in the biomedical workforce, to pursue further training and careers in the scientific, medical, ethical, social and/or legal areas of genomics research. To accomplish the stated over-arching goal, this FOA will support creative educational activities with a primary focus on: Research Experiences Courses for Skills Development Mentoring Activities This Genome Research Experiences to Attract Talented Undergraduates into the Genomic Field to Promote Diversity (GREAT) Program will support collaborative institutional partnerships that provide two-year research education programs for undergraduates enrolled at minority-serving institutions (MSIs) or Institutional Development Award (IDeA)-eligible institutions. A partnership will include a MSI or IDeA-eligible institution, and one or more research-intensive institutions or organizations with a suitable research base for graduate-level training in scientific areas of interest to NHGRI.

**Deadline:** July 01, 2023

[NINDS Research Education Opportunities \(R25 Clinical Trial Not Allowed\) CFDA 93.853](#)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The over-arching goal of this NINDS R25 program is to support educational activities that complement and/or enhance the training of a workforce to meet the nations biomedical, behavioral and clinical research needs.

**Deadline:** July 13, 2023

[BRAIN Initiative: Research on the Ethical Implications of Advancements in Neurotechnology and Brain Science \(R01 Clinical Trial Optional\) CFDA 93.173](#)

Reissue of RFA-MH-19-400. This funding opportunity announcement (FOA), in support of the NIH Brain Research through Advancing Innovative Neurotechnologies (BRAIN) Initiative, is one of several FOAs aimed at supporting transformative discoveries that will lead to breakthroughs in understanding human brain function. Guided by the long-term scientific plan, BRAIN 2025: A Scientific Vision, this FOA specifically seeks to support efforts addressing core ethical issues associated with research focused on the human brain and resulting from emerging technologies and advancements supported by the BRAIN Initiative. The hope is that efforts supported under this FOA might be both complementary and integrative with the transformative, breakthrough neuroscience discoveries supported through the BRAIN Initiative.

**Deadline:** October 11, 2023

[Co-infection and Cancer \(R01 Clinical Trial Not Allowed\)-CFDA 93.393](#)

This initiative seeks to enhance our mechanistic and epidemiologic understanding of infection-related cancers, with a focus on the etiologic roles of co-infection in cancer. Preference will be given to investigations of co-infections with known oncogenic agents (e.g., *Helicobacter pylori* [*H. pylori*] and Epstein Barr virus [EBV]; excluding human immunodeficiency virus [HIV]) and of co-infections that engendered novel opportunities for prevention and treatment. Coinfection is defined as the occurrence of infections by two or more infectious (pathogenic or nonpathogenic) agents either concurrently or sequentially and includes both acute and chronic infections by viruses, bacteria, parasites, and/or other microorganisms.

**Deadline:** January 07, 2023

[EHR Core Research \(ECR\): Building Capacity in STEM Education Research-CFDA 93.855](#)

This Funding Opportunity Announcement (FOA), issued by the National Institute of Allergy and Infectious Diseases (NIAID), invites applications for investigator-initiated Resource-Related Research Projects (R24). The proposed resource must provide a significant benefit to currently funded high priority projects in need of further coordination and support in the areas specified. Under rare circumstances, this mechanism may be used to support the development of a new resource to the broader scientific community of the NIAID. It is anticipated that the request for resource support through the R24 activity code will occur on an infrequent basis and only in circumstances where other mechanisms of support from the NIAID are not appropriate. The proposed resources should be relevant to the scientific areas of the NIAID mission including the biology, pathogenesis, and host response to microbes, including HIV; the mechanisms of normal immune function and immune dysfunction resulting in autoimmunity, immunodeficiency, allergy, asthma, and transplant rejection; and translational research to develop vaccines, therapeutics, and diagnostics to prevent and treat infectious, immune-mediated, and allergic diseases.

**Deadline:** January 07, 2023

[Archiving and Documenting Child Health and Human Development Data Sets  
\(R03 Clinical Trial Not Allowed\)-CFDA 93.865](#)

The purpose of this funding opportunity announcement (FOA) is to invite R03 applications to support archiving and documenting existing data sets to enable secondary analysis of these data by the scientific community. The priority of this program is to archive data sets within the scientific mission of the NICHD; the highest priority is to archive data collected with NICHD support.

**Deadline:** January 07, 2023

[NIDCR Predoctoral to Postdoctoral Transition Award for A Diverse Dental, Oral,  
and Craniofacial Research Workforce \(F99/K00 Clinical Trial Not Allowed\)-  
CFDA 93.121](#)

The purpose of this award is to support phased transition of outstanding graduate students from groups underrepresented in the biomedical, clinical, behavioral and social sciences research enterprise from graduate work to postdoctoral research positions in Dental, Oral, and Craniofacial (DOC) research. The first phase (F99) will support the final two years of graduate research training for individuals in Ph.D. or dual degree clinician-scientist programs. Following graduation and attainment of a postdoctoral research position, the second phase (K00) will provide support for up to three years of mentored postdoctoral research.

**Deadline:** January 07, 2023

[Integration of Imaging and Fluid-Based Tumor Monitoring in Cancer Therapy  
\(R01 Clinical Trial Optional\) CFDA 93.393](#)

Through this funding opportunity announcement (FOA), the National Cancer Institute (NCI) seeks research project (R01) grant applications describing projects that integrate imaging and fluid-based tumor monitoring (liquid biopsy) assays during cancer therapy in patients to determine the optimal use of those modalities in the characterization of therapy response and/or emergence of resistance.

**Deadline:** September 07, 2024

[Utilizing Invasive Recording and Stimulating Opportunities in Humans to Advance  
Neural Circuitry Understanding of Mental Health Disorders \(R01 Clinical Trial  
Optional\) CFDA 93.242](#)

Reissue of RFA-20-350. The purpose of this Funding Opportunity Announcement (FOA) is to encourage applications to pursue invasive neural recording studies focused on mental health-relevant questions. Invasive neural recordings provide an unparalleled window into the human brain to explore the neural circuitry and neural dynamics underlying complex moods, emotions, cognitive functions, and behaviors with high spatial and temporal resolution. Additionally, the ability to stimulate, via the same electrodes, allows for direct causal tests by modulating network dynamics. This funding opportunity aims to target a gap in the scientific knowledge of neural circuit function related to mental health disorders. Researchers should target specific questions suited to invasive recording modalities that have high translational potential. Development of new technologies and therapies are outside the scope of this FOA.

**Deadline:** September 07, 2024

### [Investigator Initiated Research in Computational Genomics and Data Science \(R01 Clinical Trial Not Allowed\) CFDA 93.172](#)

The purpose of this funding opportunity announcement (FOA) is to invite applications for a broad range of research efforts in computational genomics, data science, statistics, and bioinformatics relevant to one or both of basic or clinical genomic science, and broadly applicable to human health and disease. This FOA supports fundamental genomics research developing innovative analytical methodologies and approaches, early-stage development of tools and software, and refinement or hardening of software and tools of high value to the biomedical genomics community. Work supported under this FOA should be enabling for genomics and be generalizable or broadly applicable across diseases and biological systems. All applications should address how the methods would scale to address increasingly larger data sets.

**Deadline:** September 07, 2024

### [Investigator Initiated Research in Computational Genomics and Data Science \(R21 Clinical Trial Not Allowed\) CFDA 93.173](#)

The purpose of this funding opportunity announcement (FOA) is to invite applications for a broad range of research efforts in computational genomics, data science, statistics, and bioinformatics relevant to one or both of basic or clinical genomic science, and broadly applicable to human health and disease. This FOA supports fundamental genomics research developing innovative analytical methodologies and approaches, early-stage development of tools and software, and refinement or hardening of software and tools of high value to the biomedical genomics community. Work supported under this FOA should be enabling for genomics and be generalizable or broadly applicable across diseases and biological systems. All applications should address how the methods would scale to address increasingly larger data sets.

**Deadline:** September 07, 2024

[Imaging - Science Track Award for Research Transition \(I/START\) \(R03- Basic Experimental Studies with Humans Required\) CFDA 93.279](#)

This funding opportunity announcement (FOA) encourages Small Research Grant (R03) applications to facilitate the entry of investigators to the area of neuroimaging, including both new investigators and established investigators seeking to adopt neuroimaging methodologies in their research programs, to enable the conduct of small "proof of concept" studies. The R03 is intended to support research projects that can be carried out in a short period of time with limited resources.

**Deadline:** September 07, 2024

[Initiation of a Mental Health Family Navigator Model to Promote Early Access, Engagement and Coordination of Needed Mental Health Services for Children and Adolescents \(R01 Clinical Trial Required\) CFDA 93.242](#)

Reissue of PAR-18-428. The purpose of this Funding Opportunity Announcement (FOA) is to encourage research applications to develop and test the effectiveness and implementation of family navigator models designed to promote early access, engagement and coordination of mental health treatment and services for children and adolescents who are experiencing early symptoms of mental health problems. For the purposes of this FOA, NIMH defines a family navigator model as a health care professional or paraprofessional whose role is to deploy a set of strategies designed to rapidly engage youth and families in needed treatment and services, work closely with the family and other involved treatment and service providers to optimize care and monitor the trajectory of mental health symptoms and outcomes over time. Applicants are encouraged to develop and test the navigator models ability to promote early access, engagement and coordination of mental health treatment and services for children and adolescents as soon as symptoms are detected. Of interest are navigator models that coordinate needed care strategies, determine the personalized match to the level of needed service amount, frequency and intensity, and harness novel technologies to track and monitor the trajectory of clinical, functional and behavioral progress toward achieving intended services outcomes. This FOA is published in parallel to a companion R34.

**Deadline:** September 07, 2024

[Effectiveness of School-Based Health Centers to Advance Health Equity \(R01 Clinical Trial Optional\) CFDA 93.242](#)

The purpose of this Funding Opportunity Announcement is to support research that investigates the effectiveness of school-based health centers (SBHCs) as a health services care delivery model to address the needs of school-aged children from populations with health disparities (underserved youth).

**Deadline:** January 07, 2025

# U.S. Department of Housing and Urban Development

## [FY 2021 Choice Neighborhoods Implementation Grant Program CFDA 14.889](#)

Choice Neighborhoods Implementation Grants support the implementation of comprehensive neighborhood revitalization plans that are expected to achieve the following three core goals: 1. Housing: Replace distressed public and assisted housing with high-quality mixed-income housing that is well-managed and responsive to the needs of the surrounding neighborhood; 2. People: Improve outcomes of households living in the target housing related to employment and income, health, and children's education; and 3. Neighborhood: Create the conditions necessary for public and private reinvestment in distressed neighborhoods to offer the kinds of amenities and assets, including safety, good schools, and commercial activity, that are important to families' choices about their community.

**Deadline:** February 15, 2022

## [Radon Testing and Mitigation Demonstration for Public Housing CFDA 14.901](#)

The purpose of this NOFO is to provide funds to public housing agencies (PHAs) to conduct testing and as-needed mitigation of radon in the units that they manage and to support the development of a plan for future testing and mitigation. The work supported through this NOFO will also provide HUD with important information on method and costs for radon testing and mitigation in public housing.

Radon is an odorless, colorless radioactive gas which is a decay product of elements in soil and rock and is present in every part of the country. Low levels of radon are found in the outside air; however, radon gas can move through the soil and enter buildings through small openings in the foundation or basement and become concentrated in the indoor air. When radon is inhaled it releases radiation that can damage lung tissue, and in doing so, increase the risk of developing lung cancer. The U.S. Environmental Protection Agency (EPA) estimates that approximately 21,000 people die in the U.S. annually due to lung cancer from radon exposure[1].

**Deadline:** March 28, 2022

[Authority to Accept Unsolicited Proposals for Research Partnerships CFDA  
14.506](#)

This Notice announces that HUD's Office of Policy Development and Research (PD&R) has the authority to accept unsolicited research proposals that address current research priorities. In accordance with statutory requirements, the research proposals must be submitted by eligible applicants and provide cost sharing at least 50 percent of total project cost from philanthropic entities or Federal, state, or local government agencies. This Notice announces that HUD is accepting research proposals for such research partnerships and provides a general description of information that should be included in any research proposal.

**Deadline:** June 30, 2022

## **U.S. Department of Homeland Security**

[Fiscal Year 2021 Staffing for Adequate Fire and Emergency Response \(SAFER\)  
Grant CFDA 97.083](#)

The Department of Homeland Security (DHS) Federal Emergency Management Agency's (FEMA) Grant Programs Directorate implements and administers the Staffing for Adequate Fire and Emergency Response (SAFER) Grants. SAFER grants provide financial assistance to help fire departments increase frontline firefighters. SAFER offers grants to support activities in two activities:

1. Hiring of Firefighters
2. Recruitment and Retention of Volunteer Firefighters

The authority for SAFER is derived from Section 34 of the Federal Fire Prevention and Control Act of 1974 (Pub. L. No. 93-498, as amended) (15 U.S.C. § 2229a).

The notice of funding opportunity document provides potential applicants with the details of the requirements, processing, and evaluation of an application for financial assistance for both of these activity areas.

Grant applications are processed in FEMA GO, not Grants.gov; refer to the NOFO document in the “Related Documents” section of this posting for details on how to apply.

**Deadline:** February 04, 2022

### [Assistance to Firefighters Grant Program, Fire Prevention and Safety Grants CFDA 97.044](#)

The Department of Homeland Security (DHS) Federal Emergency Management Agency's (FEMA) Grants Programs Directorate is responsible for the implementation and administrations of the Assistance to Firefighters Grant (AFG) Programs. The purpose of the AFG Program is to enhance the safety of the public and firefighters with respect to fire and fire-related hazards. The Grants Programs Directorate administers the Fire Prevention and Safety (FP&S) grants as part of the AFG Program. FP&S offers grants to support activities in two categories: (1) activities designed to reach high-risk target groups and mitigate incidences of death and injuries caused by fire and fire-related hazards ("Fire Prevention and Safety Activity") and (2) research and development activities aimed at improving firefighter safety ("Firefighter Safety Research and Development Activity"). The program guidance document provides potential applicants with the details of the requirements, processing, and evaluation of an application for financial assistance for both of these activity areas.

Grant applications are processed in FEMA GO, not Grants.gov; refer to the NOFO document in the “Related Documents” section of this posting for details on how to apply.

**Deadline:** February 18, 2022

# U.S. Department of the Interior

## [FY2021 Historic Preservation Fund - Historically Black Colleges and Universities Grants CFDA 15.932](#)

The Southern Leadership for Voter Engagement (SOLVE) Coalition, with the support of the Mary Reynolds Babcock Foundation and others, is excited to announce Redistricting Mini grants for Coalition partners and other grassroots organizers engaging in redistricting advocacy in the South.

**Deadline:** March 08, 2022

## [FY2021 Historic Preservation Fund - Paul Bruhn Historic Revitalization Subgrant Program CFDA 15.904](#)

The goal of the Paul Bruhn Historic Revitalization Grants Program is to fund subgrant PROGRAMS that support the rehabilitation of historic properties to foster economic development of rural communities. These subgrant programs, managed by States, Tribes, Certified Local Governments, and non-profits will fund preservation projects for historic sites to include architectural/engineering services and physical preservation.

**Deadline:** February 22, 2022

## [WaterSMART: Applied Science Grants for Fiscal Year 2022 CFDA 15.557](#)

The WaterSMART Applied Science Grants provide support for priorities identified in Presidential Executive Order (E.O.) 14008: Tackling the Climate Crisis at Home and Abroad and aligned with other priorities, such as those identified in E.O. 13985: Advancing Racial Equity and Support for Underserved Communities Through the Federal Government. Applied Science projects also support the goals of the Interagency Drought Relief Working Group established in March 2021 and the National Drought Resiliency Partnership.

The objective of this NOFO is to invite eligible non-Federal entities to leverage their money and resources by cost sharing with Reclamation on applied science projects (Project) to improve access to and use of hydrologic data as well as to develop and improve water management tools and improve modeling and forecasting capabilities. Results from these projects will be used by water managers to increase water supply reliability, provide flexibility in water operations, and improve water management. Project results must be readily applicable by water managers—resulting in tools and information that can be used to support: water

supply reliability, water delivery management, water marketing activities, drought management activities, conjunctive use of ground and surface water, water rights administration, ability to meet endangered species requirements, watershed health, conservation and efficiency, and other water management objectives.

**Deadline:** April 14, 2022

### [FY2022 - Historic Preservation Fund- Annual State Historic Preservation Office Grants CFDA 15.904](#)

This funding program supports the operation of State Historic Preservation Offices (SHPOs) in the 50 states, 5 territories, 3 Freely Associated States, and District of Columbia within allowable program areas described in the Historic Preservation Fund Grants Manual. Where relevant, staff and projects must comply with the appropriate Secretary of the Interior's Standards.

The purposes of this program are to provide matching grants to States for the identification, evaluation, and protection of historic properties by such means as: survey, planning, technical assistance, physical preservation, Federal tax incentives available for historic properties, nominations to the National Register of Historic Places, distribution of funding to Certified Local Governments, and to assist Federal, State, and Local Government agencies, nonprofit organizations and private individuals in carrying out historic preservation activities. Awards under this program must comply with and support 54 USC 301 et seq. (commonly known as the National Historic Preservation Act).

**Deadline:** April 30, 2022

## **U.S. Department of Justice**

### [OVW Fiscal Year 2022 Justice for Families Program Solicitation CFDA 16.021](#)

This program is authorized by 34 U.S.C. § 12464. The Grants to Support Families in the Justice System program (referred to as the Justice for Families Program) (CFDA # 16.021) was authorized in the Violence Against Women Reauthorization Act of 2013 (VAWA 2013) to improve the response of the civil and criminal justice system to families with a history of domestic violence, dating violence, sexual assault, and

stalking, or in cases involving allegations of child sexual abuse. The program supports the following activities for improving the capacity of courts and communities to respond to families affected by the targeted crimes: court-based and court-related programs; supervised visitation and safe exchange by and between parents; training for people who work with families in the court system; civil legal services; and the provision of resources in juvenile court matters. For additional information about this program and related performance measures, including how awards contribute to the achievement of program goals and objectives, see: OVW grant program information: OVW Grants and Programs Webpage. Program performance measures under the Measuring Effectiveness Initiative: VAWA Measuring Effectiveness Initiative webpage. Examples of successful projects in OVW's most recent report to Congress on the effectiveness of VAWA grant programs.

**Deadline:** March 07, 2022

[U.S. Department of Justice Coordinated Tribal Assistance Solicitation Fiscal year 2022 CFDA 16.583 -- Children's Justice Act Partnerships for Indian Communities 16.585 -- Drug Court Discretionary Grant Program 16.596 -- Justice System Infrastructure Program for Indian Tribes 16.608 -- Tribal Justice Systems and Alcohol and Substance Abuse](#)

CTAS combines many of the Department of Justice's (DOJ's) existing tribal government-specific competitive solicitations into a single solicitation requiring only one application from each tribe or tribal consortium. This approach reduces the number of applications required to access funds and provides federally recognized tribes, tribal consortia, and tribal designees the opportunity to develop a comprehensive approach to public safety and victimization issues. Note: CTAS is not a program but a single solicitation under which tribes can apply to seven separate grant programs from four grant-making offices. DOJ has incorporated feedback from tribes and made the following changes to CTAS for FY 2022:

Applications to CTAS will continue to be completed and submitted through Grants.gov and the Justice Grants system, JustGrants. Information on this process is outlined in section H. How to Apply.

Purpose Area 9 has added a new category. Proposal abstracts will be completed in the JustGrants web-based form. Each tribe or tribal consortium may submit only one CTAS application. This application can include proposals for project funding under one or more purpose areas. As such, multiple awards may be made in response to a single application. In addition to applying for FY 2022 CTAS funding, federally recognized tribes and tribal consortia are encouraged to submit separate applications to any DOJ grant program for which they may be eligible. For information on additional funding sources, visit [www.grants.gov](http://www.grants.gov) and the websites of individual federal agencies. The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community. For all Fiscal Year 2022 solicitations, applicants should consider these priorities, and address them within their applications as applicable. The four DOJ components offering tribal government-specific grants through CTAS are listed below. For more information, visit [www.justice.gov/tribal/](http://www.justice.gov/tribal/). Office of Community Oriented Policing Services (COPS Office) Office of Justice Programs, Bureau of Justice

Assistance (BJA) Office of Justice Programs, Office for Victims of Crime (OVC) Office of Justice Programs, Office of Juvenile Justice and Delinquency Prevention (OJJDP)

**Deadline:** March 10, 2022

### [Fiscal Year 2022 Legal Assistance for Victims \(LAV\) Grant Program Solicitation CFDA 16.524](#)

This program is authorized by 34 U.S.C. § 20121. The LAV Grant Program (CFDA 16.524) is intended to increase the availability of civil and criminal legal assistance needed to effectively aid adult and youth (ages 11 and older) victims of domestic violence, dating violence, sexual assault, and stalking by providing funds for comprehensive direct legal services to victims in legal matters relating to or arising out of that abuse or violence. "Legal assistance" includes assistance to adult and youth victims of domestic violence, dating violence, sexual assault, and stalking in: a) family, tribal, territorial, immigration, employment, administrative agency, housing matters, campus administrative or protection or stay away order proceedings, and other similar matters; and b) criminal justice investigations, prosecutions, and post-trial matters (including sentencing, parole, and probation) that impact the victim's safety and privacy. Intake or referral, by itself, does not constitute legal assistance. 34 U.S.C. § 12291(a)(19). Comprehensive legal services should address the broad spectrum of legal issues that victims encounter and help promote economic independence for victims. In addition to representation in emergency and non-emergency protection order hearings, this includes representation in family matters (divorce, child custody, or child support), consumer or housing matters, and credit restoration. Services must include legal representation by a licensed attorney. For additional information about this program and related performance measures, including how awards contribute to the achievement of program goals and objectives, see: OVC grant program information: OVC Grants and Programs Webpage. Program performance measures under the Measuring Effectiveness Initiative: VAWA Measuring Effectiveness Initiative webpage.

Examples of successful projects in OVC's most recent report to Congress on the effectiveness of VAWA grant programs.

**Deadline:** March 10, 2022

### [Fiscal Year 2022 Grants for Outreach and Services to Underserved Populations Solicitation CFDA 16.889](#)

The Grants for Outreach and Services to Underserved Populations Program (Underserved Program, CFDA# 16.889) is authorized by 34 U.S.C. § 20123 to develop and implement outreach strategies targeted at, and provide victim services to, adult or youth victims of domestic violence, dating violence, sexual assault, or stalking in underserved populations. Survivors from underserved populations face challenges in accessing comprehensive and effective victim services that are accessible, culturally relevant, and responsive. As a result, survivors from underserved communities often do not receive appropriate services. The Underserved

Program supports projects that address these gaps. Funds may be used to: develop or enhance population specific victim services; develop or enhance outreach strategies to reach underserved survivors; build the capacity of population specific organizations to serve survivors of these crimes; build the capacity of victim service providers to provide victim services that are population specific; train and educate community partners and the criminal justice system on the needs of survivors from underserved populations; and develop culturally and linguistically appropriate materials for underserved survivors. For additional information about this program and related performance measures, including how awards contribute to the achievement of program goals and objectives, see:

OVW grant program information: [OVW Grants and Programs Webpage](#).

Program performance measures under the Measuring Effectiveness Initiative: [VAWA Measuring Effectiveness Initiative webpage](#). Examples of successful projects in OVW's most recent report to Congress on the effectiveness of VAWA grant programs.

**Deadline:** March 28, 2022

## **U.S. Department of Labor**

### [Homeless Veterans' Reintegration Program \(HVRP\), Incarcerated Veterans' Transition Program \(IVTP\), and the Homeless Female Veterans' and Veterans' with Children Program \(HFVWC\) \(referred to collectively as HVRP\) CFDA 17.805](#)

The intent of the HVRP grant program is to obtain high-quality career outcomes for veterans experiencing homelessness. The Department encourages applicants to propose strategies to achieve economic opportunity, address historical inequities, and provide equitable access and outcomes to marginalized groups.

To meet the fluctuations in the population and changing needs of veterans experiencing homelessness, VETS requires grant recipients to provide an array of client-centered services utilizing a case management approach that directly assists homeless veterans and provides critical linkages to a variety of support services available in their local communities. The HVRP approach is focused on obtaining high-quality career outcomes for the veteran. Veterans are to receive the job training and employment services required to re-enter and be successful in the labor force. To realize long-term benefits for veterans experiencing homelessness, grant recipients must address the complex employment-related requirements and support

services necessary to meet the needs of this population. This can be achieved either through direct services or through a robust referral system establishing tools, resources, and partnerships to identify, recruit, prepare, and support veterans experiencing homelessness for employment success. Through one of these methods, grant recipients will provide job placement, job training, job development, career counseling, and resume preparation services among other services to assist with obtaining high-quality career outcomes.

The HVRP grant prioritizes ensuring fair and equitable treatment for all workers, providing opportunities for marginalized communities and ensuring accessibility for underserved communities. Grant recipients will be better able to deliver more outcomes that are equitable for marginalized veterans by understanding the inequities that exist and by embedding equity into decision-making processes. Applicants are encouraged to address systemic and programmatic barriers that have created employment and economic inequities for historically marginalized populations, particularly Black, Indigenous, Latinx/Hispanic, Pacific Islander, other people of color, women of color, as well as other communities disproportionately impacted by the COVID-19 pandemic.

**Deadline:** February 23, 2022

### [National Dislocated Worker Grants Program Guidance-\(CFDA 17.277\)](#)

National Dislocated Worker Grants (DWGs) are discretionary grants awarded by the Secretary of Labor under Section 170 of the Workforce Innovation and Opportunity Act (WIOA) to provide employment-related services for dislocated workers. The Department funds two types of DWGs: Disaster Recovery and Employment Recovery.

Disaster Recovery DWGs provide funding to create temporary employment opportunities to assist with clean-up and recovery efforts when an area impacted by an emergency or major disaster is declared eligible for public assistance by the Federal Emergency Management Agency (FEMA) or is declared, or otherwise recognized, as an emergency or disaster of national significance by a Federal agency with authority or jurisdiction over Federal response to the disaster or emergency.

Employment Recovery DWGs temporarily expand capacity to serve dislocated workers and to meet the increased demand for employment and training services following a qualifying event. Qualifying events include major economic dislocations, such as plant closures, mass layoffs, or higher-than-average demand for employment and training activities for dislocated members of the Armed Forces and their spouses. Under 20 CFR 687.110(a)(5), the Secretary of Labor may determine other major dislocations eligible for Employment Recovery DWGs.

**Deadline:** Rolling grant

# U.S. Department of State

## [Combatting COVID-19 Grant Program CFDA 19.040](#)

The U.S. Embassy and Consulates in Canada invites proposals from non-governmental organizations, think tanks, government institutions, academic institutions, and individuals for programs that strengthen the bilateral ties between the United States and Canada and support the Roadmap for a Renewed U.S.-Canada Partnership Pillar Combatting COVID-19, including, but not limited to:

- Programs and initiatives to combat mis- and dis-information around COVID-19 and vaccinations and promote the importance of science-based public health measures in response to the pandemic.
- Messaging, information, and educational programs and campaigns that engage youth and underserved communities, and that address information and other disparities between communities and rural and urban audiences.

**Deadline:** July 06, 2022

# U.S. Department of Transportation

## [FY2022 Commercial Driver's License Program Implementation CFDA 20.232](#)

The CDLPI program objective is to provide financial assistance to States and other eligible entities to improve the national CDL program. The national CDL program focuses on the concept that each driver has only one driving record and only one licensing document, commonly referred to as "One Driver — One License — One Record." Further, the national CDL program requires States to conduct knowledge and skills testing before issuing a Commercial Learner's Permit (CLP) and/or CDL; to maintain a complete and accurate driver history record for anyone who obtains a CLP and/or CDL; and to impose driver disqualifications, as appropriate.

**Deadline:** February 28, 2022

## [FY21 Federal-State Partnership for State of Good Repair CFDA 20.326](#)

The purpose of the Partnership Program is to assist in funding capital projects to repair, replace, or rehabilitate qualified railroad assets to reduce the state of good repair backlog and improve intercity passenger rail performance.

**Deadline:** March 07, 2022

### [Small Community Air Service Development Program CFDA 20.930](#)

Description:

#### A. PROGRAM DESCRIPTION

The Small Community Program was established by the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (Pub. L. No. 106-181), reauthorized by the Vision 100-Century of Aviation Reauthorization Act (Pub. L. No. 108-176), and subsequently reauthorized by the FAA Modernization and Reform Act of 2012 (Pub. L. No. 112-95) as amended, the Disaster Tax Relief and Airport and Airway Extension Act of 2017 (Pub. L. No. 115-63), and the FAA Reauthorization Act of 2018 (Pub. L. No. 115-254) (FAA 2018). The program is codified at 49 U.S.C. § 41743. The program is designed to provide financial assistance to small communities to help them enhance their air service. The Department provides this assistance in the form of grants that are disbursed on a reimbursable basis.

The Small Community Program is authorized to receive appropriations under 49 U.S.C. § 41743(e)(2). Appropriations are provided for this program for award selection in FY 2021 pursuant to the Consolidated Appropriations Act, 2020 (Pub. L. No. 116-94), and the Consolidated Appropriations Act, 2021 (Pub. L. No. 116-260).

#### B. FEDERAL AWARD INFORMATION

No more than four communities or consortia of communities, or a combination thereof, from the same State may be selected to participate in the program in any fiscal year. No more than 40 communities or consortia of communities, or a combination thereof, may be selected to participate in the program in each year for which the funds are appropriated. Applications for renewal or supplementation of existing projects are not eligible to compete.

Pursuant to the authorities described above, the Department has up to \$17 million available for FY 2021 grant awards to carry out this program. There is no minimum or maximum individual award amount, and

the amounts awarded will vary depending upon the features and merits of the selected applications. In past years, the Department's individual grant sizes have ranged from \$20,000 to nearly \$1.6 million. Funding amounts made available for reimbursement may be impacted by future limitations placed on the spending authority and appropriations enacted for the Department. The Department may, at its discretion, issue partial funding awards up to the level authorized and provided that the above conditions are met. Additional information on the budget process may be found in OMB A-11: <https://www.whitehouse.gov/omb/information-for-agencies/circulars/>.

**Deadline:** March 15, 2022

### [FY21 Federal-State Partnership for State of Good Repair CFDA 20.326](#)

The purpose of the Partnership Program is to assist in funding capital projects to repair, replace, or rehabilitate qualified railroad assets to reduce the state of good repair backlog and improve intercity passenger rail performance.

**Deadline:** March 07, 2022

### [FY 2022 High Priority Program – Innovative Technology Deployment \(HP-ITD\) CFDA 30.237](#)

These activities are supported in alignment with the U.S. Department of Transportation's strategic goals of:

- **SAFETY:** Reduce transportation-related fatalities and serious injuries across the transportation system.
- **INFRASTRUCTURE:** Invest in infrastructure to ensure safety, mobility and accessibility and to stimulate economic growth, productivity and competitiveness for American workers and businesses.
- **INNOVATION:** Lead in the development and deployment of innovative practices and technologies that improve the safety and performance of the Nation's transportation system.
- **ACCOUNTABILITY:** Serve the Nation with reduced regulatory burden and greater efficiency, effectiveness and accountability.

This NOFO provides important information about the HP-ITD safety priorities, highlighting the critical information related to preparing and submitting an application.

**Deadline:** March 31, 2022

### [FY 2022 National Infrastructure Investments CFDA 20.933](#)

Agency Name: Department of Transportation

Description:

The Infrastructure Investment and Jobs Act of 2021 (“Bipartisan Infrastructure Law,” or “BIL”) authorized and appropriated \$1.5 billion to be awarded by the Department of Transportation (“DOT”) for Local and Regional Project Assistance Program Grants under National Infrastructure Investments. This Notice of Funding Opportunity (NOFO) solicits applications for projects funded under the Local and Regional Project Assistance Program, known as the RAISE Grants program. The Department intends to amend this NOFO to provide more details on or before January 30, 2022. Additionally, if the FY 2022 Appropriations Act provides additional funding for the RAISE grants program and/or significantly different requirements for National Infrastructure Investment funds, the Department will amend this Notice with guidance on additional requirements.

As with previous rounds, funds for the FY 2022 RAISE Transportation program are to be awarded on a competitive basis for projects that will have a significant local or regional impact.

The BIL specifies that RAISE Transportation Discretionary Grants may not be less than \$5 million and not greater than \$25 million, except that for projects located in rural areas the minimum RAISE Transportation Discretionary Grant size is \$1 million.

**Deadline:** April 14, 2022

[Commuter Authority Rail Safety Improvement \(CARSI\) Grants Round 2 CFDA 20.205](#)

1/6/2022 (Update 1 to Forecast Notice): UPDATE on NOFO SCHEDULE: Estimated NOFO release date is DELAYED from 1/6/2022 to 1/31/2022. Estimated application due date is 60 days after NOFO release. These are estimated dates only. Applicants should refer to the issued NOFO for final official dates, and applicants should subscribe to this notice to receive updates and/or changes. The USDOT/FHWA will host an Informational Webinar regarding this funding opportunity. Date of the Informational Webinar is now TBD, estimated to occur 2 weeks after NOFO release.

12/7/2021 (Original Notice): USDOT/FHWA anticipates release of the CARSI Round 2 Notice of Funding Opportunity (NOFO) No. 693JJ322NF00002 on JANUARY 6, 2022, at [www.Grants.gov](http://www.Grants.gov), with an estimated application due date of MARCH 7, 2022, and estimated selection announcements by JUNE 2022. These are estimated dates only. Applicants should refer to the issued NOFO for final official dates. The USDOT/FHWA will host an Informational Webinar regarding this funding opportunity, to help potential applicants understand the opportunity requirements and answer applicant questions. Participation in this

session is not mandatory in order to submit an application under this solicitation. Webinar Date: January 20, 2022 from 12 noon to 1:30 pm Eastern Time. To Register: Send participant name, title, email, and organization name to Sarah.Tarpgaard@dot.gov by January 14, 2022 to receive Meeting Invite with webinar link.

This forecast announces the upcoming availability of up to \$59,744,250 in Federal funding for award of multiple CARS Round 2 grants. The purpose of the CARS Round 2 grant program is to improve safety at public railway-highway crossings. The program provides funding to eligible entities for the construction of projects for the elimination of hazards at railway-highway crossings.

Specific program goals include:

- 1) Improve safety at railway-highway crossings through the elimination of hazards at public railway-highway crossings;
- 2) Reduce fatalities, serious injuries, and crashes at public railway-highway crossings;
- 3) Reduce the number of existing public at-grade crossings by closure or grade separation; and
- 4) Reduce delays or improve system performance by eliminating hazards posed by blocked grade crossings due to idling trains.

Eligible Projects: Eligible projects under this grant program are limited to the following: (1) the separation or protection of grades at crossings; (2) the reconstruction of existing railroad grade crossing structures; (3) the relocation of highways to eliminate grade crossings; or (4) projects at grade crossings to eliminate hazards posed by blocked grade crossings due to idling trains. NOTE: The proposed location of the

project is not required to be the location of the accident previously investigated by the NTSB. The proposed location of the project is up to the discretion of the applicant.

Eligible Applicants: To be eligible, an applicant must be a “commuter authority” as defined in 49 U.S.C. 24102, which is a State, local, or regional entity established to provide, or make a contract for, commuter

rail passenger transportation. An eligible commuter authority must have experienced at least one accident investigated by the National Transportation Safety Board (NTSB) between January 1, 2008, and December 31, 2018, and for which the NTSB issued an accident report. The applicant must be either: (1) a commuter authority that meets the eligibility requirements listed above; OR (2) a public or non-profit entity partnering with an eligible commuter authority. NOTE: Applicants are encouraged to partner with their State DOT and are encouraged to have their State DOT apply as the prime applicant for receipt of DOT Federal funding. As appropriate, awards may be made to State DOTs as pass-through grantees for administration of the funds to a commuter authority as a subawardee. Per 2 CFR 200.1, a pass-through entity is a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

**Deadline:** April 14, 2022

### [2022 Port Infrastructure Development Program Grants CFDA 20.823](#)

Port Infrastructure Development Program Background: The National Defense Authorization Act for Fiscal Year 2022 and the Infrastructure Investment and Jobs Act authorized and appropriated \$450 million for the Port Infrastructure Development Program (PIDP) to make grants to improve facilities within, or outside of and directly related to operations of, or an intermodal connection to, coastal seaports, inland river ports, and Great Lakes ports.

Deadline: May 16, 2022

## **U.S. Department of Treasury**

### [Fiscal Year 2022 CDFI Program CFDA 21.020](#)

Through the CDFI Program, the CDFI Fund provides (i) Base-FA awards of up to \$1 million to Certified Community Development Financial Institutions (CDFIs) to build their financial capacity to lend to their Eligible Markets and/or Target Markets, and (ii) TA grants of up to \$125,000 to build Certified and Emerging CDFIs' organizational capacity to serve their Eligible Markets and/or Target Markets. For more detailed information, please refer to the NOFA found on the CDFI Fund's website.

**Deadline:** March 14, 2022

### Fiscal Year 2022 NACA Program CFDA 21.012

Through the Native American CDFI Assistance Program (NACA Program), the CDFI Fund provides (i) Base-FA awards of up to \$1 million to Certified, Native CDFIs to build their financial capacity to lend to their Eligible Markets and/or Target Markets and (ii) TA grants of up to \$150,000 to entities that are, will become, or will create a Native CDFI. For more detailed information, please refer to the Notice of Funds Availability (NOFA) found on the CDFI Fund's website.

**Deadline:** March 14, 2022

## **U.S. Department of Veterans Affairs**

### Specially Adapted Housing Assistive Technology (SAHAT) Grant Program CFDA 64.051

The Loan Guaranty Service (LGY), which is an office of the Veterans Benefits Administration (VBA), Department of Veterans Affairs (VA), is announcing the availability of funds for the Specially Adapted Housing Assistive Technology (SAHAT) Grant Program. The objective of the grant is to encourage the development of new assistive technologies for specially adapted housing. Veterans Affairs acknowledges there are many emerging technologies that could improve home adaptations or otherwise enhance a Veteran's or Servicemember's ability to live independently. Therefore, VA has defined "new assistive technology" as an advancement the Secretary determines could aid or enhance the ability of a Veteran or Servicemember to live in an adapted home. PLEASE NOTE: SAHAT funding does not support the construction or modification of residential dwellings for accessibility. Veterans and Servicemembers interested in receiving assistance to adapt a home are encouraged to contact their local Veterans Affairs Regional Benefits Office, Regional Loan Center, or Medical Center for more information, or visit:<http://www.benefits.va.gov/homeloans/adaptedhousing.asp>

**Deadline:** March 11, 2022

### Grants for Adaptive Sports Programs for Disabled Veterans and Disabled Members of the Armed Forces CFDA 64.034

The Adaptive Sports Grant Program provides grants to eligible adaptive sports entities to plan, develop, manage, and implement programs to provide adaptive sports activities for Veterans and members of the Armed Forces with disabilities. For the purpose of this program, adaptive sports activities include: (1) instruction, participation, and competition in adaptive sports; (2) training and technical assistance to program administrators, coaches, recreation therapists, instructors, VA employees, and other appropriate individuals; (3) coordination, Paralympic classification of athletes, athlete assessment, sport-specific training techniques, program development (including programs at the local level), sports equipment,

supplies, program evaluation, and other activities related to the implementation and operation of the program.

The primary goal for this Notice of Funding Opportunity (NOFO) is to ensure that appropriate levels of resources are provided to eligible adaptive sports entities with capabilities that are well-suited to meet the needs and priorities for Veterans with disabilities and members of the Armed Forces with disabilities.

This NOFO announces the availability of up to \$14,500,000 for initial grants to provide adaptive sports activities under the Adaptive Sports Grant Program to Veterans, and members of the Armed Forces, with disabilities. Proposals with a focus on providing equine therapy targeted for Veterans and members of the Armed Forces should apply to VA-EQUINE-22.

**Deadline:** April 01, 2022

### [Grants for Adaptive Sports Programs for Disabled Veterans and Disabled Members of the Armed Forces \(Equine Assisted Therapy\) CFDA 64.034](#)

The Adaptive Sports Grant Program provides grants to eligible adaptive sports entities to plan, develop, manage, and implement programs to provide adaptive sports activities for Veterans and members of the Armed Forces with disabilities. For the purpose of this program, adaptive sports activities include: (1) instruction, participation, and competition in adaptive sports; (2) training and technical assistance to program administrators, coaches, recreation therapists, instructors, VA employees, and other appropriate individuals; (3) coordination, Paralympic classification of athletes, athlete assessment, sport-specific training techniques, program development (including programs at the local level), sports equipment, supplies, program evaluation, and other activities related to the implementation and operation of the program.

The primary goal for this Notice of Funding Opportunity (NOFO) is to ensure that appropriate levels of resources are provided to eligible adaptive sports entities with capabilities that are well-suited to meet the needs and priorities for Veterans with disabilities and members of the Armed Forces with disabilities.

This NOFO announces the availability of \$1,500,000 to be awarded for proposals providing equine therapy targeted for Veterans and members of the Armed Forces with disabilities related to mental health issues. Adaptive Sports proposals not focused on equine therapy should apply to VA-SPORTS-22.

**Deadline:** April 01, 2022

## State Veterans Home Construction Grant Program CFDA 64.005

Grants are available to State Governments for construction or renovations of State operated Veterans Extended Care Facilities. The Department of Veterans Affairs participation may not exceed 65% of the total project costs. Review governing regulation before submitting an application (38 CFR Part 59). If the state is submitting a new grant application, it must submit a complete initial application (Section A of the project checklist) on Grants.gov by April 15th in order to be eligible for listing on the Priority List for the next fiscal year. Once the complete initial application is retrieved from Grants.gov by Program Staff, the grant applicant will receive 1) an automated notification from Grants.gov confirming receipt by the Program and 2) an email from Program Staff indicating the application's FAI number and corresponding project page in MAX.gov for submission of subsequent items. Note that Grants.gov is used only once to submit a new grant application. Applicants must submit complete initial applications on Grants.gov in order to be considered. Please contact Program Staff prior to submission if you need assistance understanding the requirements pertaining to an initial grant application, or if you need general assistance. Renovation or Life Safety initial grant applications require items A.1.-A.7. in Section A of the project checklist. Grant applicants, do not submit items A.8.-A.13 for Renovation of Life Safety grants. New Home Construction or Bed Replacement initial grant applications require all items in Section A (A.1.-A.13) of the project checklist.

Required for ALL applications

- A.1.A Project Scope
- A.1.B Form SF424
- A.1.C Form SF424D
- A.1.D Form SF424C
- A.1.E Budget Justification Worksheet (must align with SF424C budget form)
- A.2. Governor's designation of authorized state official and contact person
- A.3. Needs assessment (as outlined in VA Form 10-0388-1)
- A.4. State Clearinghouse Comments (E.O. 12372) single point of contact and compliance statement
- A.5. Schematics
- A.6. Signed Initial Application Certification VA Form 10-0388-1
- A.7. Safety citation/letter (Only Life Safety projects need to submit this).

Required for Bed Replacement or New Construction - Items A1-A6 and the below items

- A.8. Space program analysis (NHC use Form 10-0388-3, ADHC use Form 10-0388-4)
- A.9. Five-year capital plan for state's entire state home program
- A.10. Financial plan for state facility's first three years of operation
- A.11. Documentation that there is a reasonable basis to conclude that the facility when complete will be fully occupied
- A.12. Authorized state official's certification of the total number of state-operated nursing home and domiciliary beds and occupancy rate

A.13. Authorized state official's certification that the number of state home beds does not exceed the requirement in 38 CFR 59.40 or justification for number of state home beds exceeding 38 CFR 59.40 based on travel distance.

**Deadline:** Rolling (Applications should be submitted by April 15 of the fiscal year)

## **Section III PROGRAM FUNDING THROUGH PRIVATE, CORPORATE & COMMUNITY FOUNDATIONS**

### **Boat US Foundation Accepting Grant Applications for Safe and Clean Boating Projects**

The Boat US Foundation for Boating Safety and Clean Water is accepting applications for its Grassroots Grants Program, which awards funds on an annual basis to nonprofit organizations, boating clubs, and student groups in the United States for projects that utilize innovative approaches to education about safe and clean boating.

The foundation is looking for creative projects that promote safe and clean boating on local waterways. Past topics have ranged from PSAs on the effects of boating under the influence of hands-on education about the effects of marine debris.

Projects the foundation is most interested in funding will be unique (topic, methods, or delivery mechanism); include extensive outreach to boaters; use technology to educate boaters, including social media and the Web; have a widespread reach (not just a handful of boaters); include hands-on work with the boating community, and have a way to measure the success of the program.

Applicants can include boating groups, clubs and associations, student groups, and local nonprofit organizations, including local chapters of national organizations. Grants will not be awarded to government agencies, international organizations, for-profit businesses, or individuals.

Applicants may request up to \$10,000. Funded projects must be completed within a year.

**Deadline:** Open

### **Baseball Tomorrow Fund**

The Baseball Tomorrow Fund (BTF) awards grants to non-profit and tax-exempt organizations involved in the operation of youth baseball and/or softball programs and facilities. Organizations operating in the U.S.

and international locations are eligible to apply. To date, an average of 400 requests are received annually; approximately 10 percent are awarded grants. Grants are awarded every quarter.

**Review cycle deadlines:**

- January-March: January 1
- April-June: April 1
- July-September: July 1
- October-December: October 1

## **Surdna Foundation Sustainable Environment Grants**

The Sustainable Environments Program is working to overhaul our country's outdated and crumbling infrastructure with a new approach that will foster healthier, sustainable, and just communities. We believe in the potential of what we call "next-generation infrastructure" to improve transit systems, make buildings more energy-efficient, better manage our water systems and rebuild regional food systems. Focusing on urban areas and their surrounding suburbs, we seek solutions that connect and improve these infrastructure systems in ways that maximize positive impacts and minimize negative environmental, economic and social consequences.

## **JFNY Grant for Arts and Culture**

The Japan Foundation New York office (JFNY) accepts applications for projects that take place within the 37 states east of Rocky Mountains listed below for the JFNY Grant throughout the year. This grant aims to support projects that will further understand of Japanese arts and culture. Successful projects may be granted up to \$5,000. Priority will be given to those projects that have secured additional funding from sources other than the Japan Foundation.

**Deadline:** Applications must be received at least 3 months before the beginning date of the project.

## **CSX Beyond Our Rails Grant**

CSX provides non-profit assistance and support through a variety of programs, including grants that typically range from \$2,500 to \$5,000 for projects focusing on safety, community, wellness, and/or the environment.

Examples given for environmental projects include:

- Teaching environmental stewardship
- Planting eco-friendly trees and plants
- Leading and supporting environmental cleanups
- Recycling and waste minimization
- Promoting energy efficiency and carbon reduction

**Deadline:** Ongoing

## Laboratory Equipment Donation Program for Colleges, Universities, and Museums

The Laboratory Equipment Donation Program (LEDP), formerly the Energy-Related Laboratory Equipment (ERLE) Grant Program, was established by the United States Department of Energy (DOE) to grant surplus and available used energy-related laboratory equipment to universities and colleges in the United States for use in energy-oriented educational programs.

**Deadline:** Ongoing

## Zayed Future Energy Global High Schools Prize

The primary aim of the Global High Schools category is to inspire future generations across the globe by instilling an ethos of sustainability from an early age, including an appreciation of issues in energy, and broader sustainability. Each school will submit a detailed proposal for a project, and the Prize will become a grant that enables the project's completion. While the main objective is to promote sustainability in schools, a special emphasis of the proposed project should be on specific measurable initiatives to promote renewable energy and sustainability, which may include improvements in energy or water efficiency or a reduction in waste.

## Waste Management Charitable Giving

Healthy thriving communities depend on involved citizens, organizations and corporate partners for momentum. We lend our support and services to causes that promote civic pride, economic development, and revitalization. Every community has its challenges, and we strive always to be part of problem-solving initiatives. Programs that Waste Management is most motivated to support include environment, environmental education, and causes important to the areas where we operate. Applications are accepted year-round and are reviewed continuously. Given the large number of requests received, please anticipate an estimated two-month review period for each request.

## Clif Bar Foundation Small Grants

These grants are awarded for general organizational support as well as funding for specific projects. Small grants average approximately \$7,000 each. Priority is given to applicants that: Address our funding priorities from a holistic perspective; Protect Earth's beauty and bounty; Create a robust, healthy food system; Increase opportunities for outdoor activity; Reduce environmental health hazards; Build stronger communities; Operate with clearly defined objectives and viable plans to achieve them; Demonstrate strong community ties and operate at the community level; Promote positive change through both the projects and their implementation process.

**Deadline:** Applications are reviewed three times a year; the deadlines are the 1st of February, June, and October. Grants awarded during a particular cycle will be announced at the beginning of the following cycle.

## Foundation for Contemporary Art Accepting Applications for Emergency Grants

Since its inception in 1963, the mission of the Foundation for Contemporary Arts has been to encourage, sponsor, and promote innovative work in the arts created and presented by individuals, groups, and organizations.

Created in 1993, the foundation's Emergency Grants program provides grants of up to \$2,000 to innovative visual and performing artists who have unanticipated, sudden opportunities to present their work to the public when there is insufficient time to seek other sources of funding; or who incur unexpected or unbudgeted expenses for projects close to completion with committed exhibition or performance dates.

To be eligible, applicants must be living, working, and paying taxes in the United States; have committed to a performance or exhibition opportunity and be able to provide specific dates at the time of application; and be an individual artist or an individual representing an artist collective, ensemble, or group. Curators, producers, workshop organizers, organizations, or arts presenters are not eligible to apply.

**Deadline:** OPEN

## Weyerhaeuser Giving Fund

We support the U.S. and Canadian communities where we have a significant presence or business interest. These communities range from rural to metropolitan, each with unique priorities and needs. Our employees serve on local advisory committees for our Giving Fund and develop funding priorities within four focus areas to support their particular communities. This provides a strong companywide framework for giving while allowing flexibility to meet unique needs in our different communities.

Through the Weyerhaeuser Giving Fund we concentrate the majority of our funding in four focus areas:

- Affordable Housing and Shelter
- Education and Youth Development
- Environmental Stewardship
- Human Services, Civic and Cultural Growth

To be eligible for funding, a program must:

- Serve a Weyerhaeuser community
- Be a tax-exempt, nonprofit public charity classified under Section 501(c)(3) of the U.S. Internal Revenue Code OR a registered charity in Canada with a Canada Revenue Agency Number, or registered as a provincial nonprofit society OR a public education

institution or government entity qualified under Section 170(c)(1) of the U.S. Internal Revenue Code or qualified as a Canadian municipality.

## Wells Fargo Corporate Giving Programs

Wells Fargo supports nonprofit organizations that work on a community level in the areas of human services, arts and culture, community development, civic responsibility, education, environmental consciousness, and volunteerism.

**Deadline:** Applications accepted on an ongoing basis.

## Good Sports Accepting Applications for Sports Equipment Grant

Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization can focus on the respective needs of each program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for two years. During that time, organizations can make up to six separate donation requests — as long as the need is well documented, donations will be granted. There is no need to resubmit a full application again during the two years.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers a consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

**Deadline:** Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks before the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time.

## [Karma for Cara Foundation Invites Applications for Youth Microgrants](#)

The Karma for Cara Foundation is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the Johns Hopkins Kimmel Cancer Center. Cara and her two brothers began volunteering at a young age as part of their family's commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores.

**Deadline:** OPEN

## [VFW Accepting Applications From Veterans for Emergency Financial Assistance](#)

Veterans of Foreign Wars is accepting applications from active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. Since the program's inception, Unmet Needs has distributed more than \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The hardship must be the result of deployment, a military pay issue, or military-related illness or injury. It cannot be due to civil legal or domestic issues, misconduct, or any issues that are a result of spousal separation or divorce, financial mismanagement, or bankruptcy.

**Deadline:** OPEN

## [Start a Snowball Invites Applications for Youth Philanthropy Projects](#)

Start a Snowball, Inc. encourages kids of all ages to engage in philanthropic and community service activities. The organization believes that even one child with the right intentions and support can start a project that seems small in the beginning and eventually grows ("snowballs") into something that inspires and benefits an entire community.

To help kids, kick off their philanthropy efforts, start a Snowball awards \$100 in seed funding for projects taken on by individuals or organizations.

To be eligible, projects must be led by youth between the ages of 5 and 18 and have the intention of doing good.

Start a Snowball does not give directly to collection funds. The organization also does not provide support for fundraisers for sports teams, unless they serve an underserved or disadvantaged group or support projects that are discriminatory or political.

**Deadline:** Rolling

## [Craft Emergency Relief Fund Accepting Applications From Craftspeople in Need](#)

The Craft Emergency Relief Fund is a national nonprofit organization that awards small grants and loans to professional craftspeople experiencing career-threatening illness, accident, fire, theft, or natural disaster.

Financial assistance ranges from \$500 to \$8,000. Other services include referrals to craft suppliers who have agreed to offer discounts on materials and equipment to craftspeople eligible for CERF funds and booth fee waivers from specific craft show producers.

CERF loan recipients are expected to repay the loan in full within five years, enabling CERF to have funds readily available for future craftspeople in need.

Applicants must be a professional artist working in a craft discipline (e.g., a potter, metalsmith, glass artist, woodworker, fiber artist, or furniture maker) who has had a recent career-threatening emergency and a legal resident of the U.S.

**Deadline:** OPEN

## [Pollock-Krasner Foundation Accepting Applications From Artists With Financial Need](#)

The mission of the Pollock-Krasner Foundation is to aid those individuals who have worked as artists over a significant period. The foundation's dual criteria for grants are recognizable artistic merit and financial need, whether professional, personal or both.

Grants are intended for one year, with the size of the grant to be determined by the artist's circumstances and professional exhibition history. Artists applying for a grant must be actively exhibiting their current work in a professional artistic venue such as a gallery or museum space.

The foundation does not accept applications from commercial artists, video artists, performance artists, filmmakers, crafts-makers, computer artists, or any artist whose work primarily falls into these categories.

**Deadline:** OPEN

## [Pollination Project Invites Applications From Social Entrepreneurs for Seed Grants](#)

The Pollination Project is accepting applications from social entrepreneurs looking to make their communities and world a better place. Seed grants of up to \$1,000 will be awarded to projects in the early stages of development, including those that promote compassion toward all life (people, planet, animals), environmental sustainability, justice in all its forms, community health and wellness, and social change-oriented arts and culture. Only applications for seed funding, as opposed to ongoing operational or program costs of a nonprofit organization, will be accepted. To be eligible, applicants must be a passionate, committed individual with a social change vision that fits within one or more of the categories above. Established nonprofit organizations with paid staff will not be considered.

**Deadline:** OPEN

## [Hope for The Warriors Accepting Applications for Critical Care Support for Wounded Veterans](#)

Hope For The Warriors believes those touched by military service can succeed at home by restoring their sense of self, family, and hope. Nationally, the organization provides service members, veterans, and military families with comprehensive support programs focused on transition, health and wellness, peer engagement, and community resources.

Originally designed to meet short-term needs in the days following an injury, the Hope for The Warriors' Critical Care Coordination program has expanded to assist post-9/11 combat-wounded veterans and their families as they navigate through long-term recovery.

Program case coordinators work daily with post-9/11 combat-wounded service members and veterans, their families, and families of the fallen to meet immediate financial needs related to daily living including utilities, groceries, rent, mortgage, and rental deposits. The program provides casework assistance and resource referrals that will help clients immediately and in the future. Payment is always made to a third party.

To be eligible, applicants must be seeking support for needs that are a direct result of a service member's post-9/11 combat-related injury.

**Deadline:** OPEN

## Singing for Change Accepting LOIs for Projects to Address Social and Environmental Problems

Created by Jimmy Buffett in 1995, Singing for Change initially was funded with contributions from the singer's summer concert tour. Since then, SFC has offered competitive grants to progressive nonprofit organizations working to address the root causes of social or environmental problems.

Priority will be given to organizations that keep their overhead low, include community members in planning, and collaborate with other groups to find innovative ways of solving common problems. SFC aims to advance the common good by empowering people to thrive and strengthen and sustain vibrant, diverse communities.

Grants will range in size from \$1,000 to \$10,000. Grants are made only to nonprofit organizations with tax-exempt status under section 501(c)(3) of the Internal Revenue Code, or to organizations that have a sponsoring agency with exempt status.

**Deadline:** Ongoing

## A Little Hope Announces Youth Bereavement Support Services Grants

A Little HOPE supports organizations that provide bereavement support services and grief counseling to children and teens who have experienced the death of a parent, sibling, or loved one.

To be considered, applicants must e-mail (no telephone calls) the name of their program, website address, names of the executive director and program director, and the location of the program. No other information is needed or will be processed. Strong preference will be given to applicants who demonstrate a commitment to the use of community trained volunteers. Grant award amounts are based on the scope and budget of the project.

**Deadline:** OPEN

## Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities

The mission of the Captain Planet Foundation is to promote and support high-quality educational programs that help children and youth understand and appreciate our world through hands-on learning experiences aimed at improving the environment in their schools and communities.

Grants are intended to serve as a means of bringing environment-based education to schools and inspiring youth and communities to participate in community service through environmental stewardship activities. The foundation will fund unique and innovative projects that do not precisely match the grant guidelines but otherwise promote the foundation's mission to advance hands-on environmental activities.

**Deadline:** January 31 (typically for fall and winter projects), September 30 (typically for spring and summer projects)

## Chambers of Commerce Invited to Start Young Entrepreneur Academies

The Young Entrepreneurs Academy today serves thousands of students across America. In 2011, the United States Chamber of Commerce Foundation became a national sponsor and partner of the academy to help celebrate the spirit of enterprise among today's youth and the future leaders of tomorrow.

To that end, YEA, in partnership with Sam's Club and the U.S. Chamber of Commerce Foundation, is accepting applications from chambers of commerce across the country to start Young Entrepreneurs academies of their own. The thirty-week program teaches students in grades 6-12 how to generate business ideas, conduct market research, write business plans, pitch to a panel of investors, and launch their own companies. In 2015, Sam's Club will award startup funds of up to \$2,500 each to thirty chambers of commerce across the country.

## Cornell Douglas Foundation Grant

The Cornell Douglas Foundation provides grants to organizations that advocate for environmental health and justice, encourage stewardship of the environment, and further respect for the sustainability of resources. The average grant amount is \$10,000.

**Deadline:** accepted all year

## Public Welfare Foundation

The Public Welfare Foundation has three programs, Criminal Justice, Juvenile Justice, and Workers' Rights, that support efforts to advance justice and opportunity for people in need. The Foundation looks for strategic points where its funds can make a significant difference and improve lives through policy and system reform that results in transformative change.

### **Criminal Justice Guidelines**

The Foundation's Criminal Justice Program supports groups that are working to end the over-incarceration of adults in the United States while also aiming to reduce racial disparities. In particular, the Program makes grants primarily to state-based groups that are working to:

- Reduce state incarceration levels and racial disparities through reforms in sentencing, charging, and supervision policies and procedures.

- Advance the redirection and prioritization of state and local resources toward targeted investments that support system-involved individuals in their communities, through research and strategic thought leadership.

### **Juvenile Justice Guidelines**

The Foundation’s Juvenile Justice Program supports groups working to end the criminalization and reliance on the incarceration of youth in the United States. The Program makes grants to groups that are working to:

- Advance state policies that dramatically restrict juvenile justice systems’ use of incarceration and out-of-home placements and prioritize the use of community-based programs for youth;
- End the practice of trying, sentencing, and incarcerating youth in the adult criminal justice system; and
- Promote the fair treatment of youth of color who come into contact with the juvenile justice system.

### **Workers’ Rights Guidelines**

The Foundation’s Workers’ Rights Program supports policy and system reforms to improve the lives of low-wage working people in the United States, with a focus on securing their basic legal rights to safe, healthy, and fair conditions at work. Specifically, the Program makes grants to groups working to:

- Advance reforms to hold employers accountable for wage theft;
- Advance reforms to prevent severe illness, injury, and death on the job; and
- Advance workers’ rights in complex, fissured employment arrangements through research and strategic thought leadership.

## [\*\*Ben & Jerry's Foundation Seeks Proposals for Social and Environmental Justice Projects\*\*](#)

One-year grants of up to \$20,000 will be awarded to nonprofit grassroots community-organizing groups in the United States working to further social and environmental justice and support sustainable and just-food systems. Grants can be used to support both program and operational costs.

## [\*\*KaBOOM! Invites Applications for Community Playground Grants\*\*](#)

KaBOOM!, a program that provides eligible communities with most of the funds, tools, and resources they need to build a custom-made playground in one day.

**Deadline:** OPEN

## [\*\*Binoculars for Young Citizen Scientists\*\*](#)

Cornell's BirdSleuth K-12 initiative is awarding binoculars to schools where educators have made outstanding efforts to engage their students in citizen science.

**Deadline:** OPEN

## International Paper Environmental Education Grants

The International Paper (IP) Foundation supports non-profit organizations in communities where its employees live and work. Environmental education is one of the primary areas the Foundation supports. The Foundation seeks programs that help generations understand a sustainable approach to business that balances environmental, social and economic needs.

## Lego Children's Fund

The LEGO Children's Fund provides grants primarily in two focus areas: (1) early childhood education and development that is directly related to creativity and (2) technology and communication projects that advance learning opportunities. Typical awards are between \$500 and \$5,000. Interested parties must complete an eligibility quiz, be approved and invited to submit a grant proposal. Each grant will be subject to a specified time frame for completion.

**Deadline:** Applications accepted four times a year.

## Evidence for Action: Investigator-Initiated Research to Build a Culture of Health

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs, and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

**Deadline:** Open

## Pioneering Ideas Brief Proposals

The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted

territory to better understand what new trends, opportunities, and breakthrough ideas can enable everyone in America to live the healthiest life possible.

While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health. Ultimately, we support work that will help us learn what a Culture of Health can look like—and how we can get there.

**Deadline:** Open

## Section IV STATE OF ALABAMA GRANTS

### Alabama Power Foundation Grant

The Alabama Power Foundation Grant offers funds to nonprofit organizations in Alabama working in one of the following areas:

- Health
- Human services
- Arts
- Community life
- Education
- Environment

Priority is given to projects that address underserved segments of the population and can be duplicated in other communities.

### Alabama Board of Medical Scholarship Awards

The Alabama Board of Medical Scholarship Awards offers forgivable loans to students enrolled in an Alabama medical school who agree to practice primary care in a pre-approved medically, underserved community in Alabama upon graduation.

Loans are repaid at the rate of one year of service per year of the loan.

**Deadline:** Applications accepted on an ongoing basis.

### Economic Development Fund

Land, facilities, and infrastructure to benefit an industry that will create jobs. Create a minimum of 15 permanent jobs to benefit 51% low to moderate-income beneficiaries. Continuous. Applications are taken throughout the year. Maximum request: \$250,000. Minimum Request: \$50,000. Note: Waiver of the match available for applicants with 2010 Census population of 1,000 or less. May also waive the grant ceiling for projects that demonstrate significant long-term economic benefit to the State.

**Contact:** Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, [shabbier.olia@adeca.alabama.gov](mailto:shabbier.olia@adeca.alabama.gov)

### Economic Development Incubator projects

Units of local government. Applicants must maintain active registration with SAM. The program must benefit 51% of low to moderate-income beneficiaries. The project must commit to creating jobs. Maximum

request: \$250,000. Match request: 20%. Applications are taken throughout the year. Award upon approval and as funding is available. Application workshop held in April and compliance workshop held in the fall.

**Contact:** Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, [shabbier.olia@adeca.alabama.gov](mailto:shabbier.olia@adeca.alabama.gov)

## States' Economic Development Assistance Program (SEDAP)

Applicants: State and local units of governments, public bodies, and non-profit entities. Eligible counties in West Alabama: Bibb, Fayette, Hale, Lamar, Pickens, and Tuscaloosa.

**Activities:** Water and wastewater facilities, telecommunications, health care, planning activities, leadership development, education and training programs, business development, and entrepreneurship.

**Requirements:** Project must meet one of ARC's goals: increase job opportunities and per capita income, strengthen the capacity of people to compete in the global economy or develop and improve infrastructure to make the Region economically competitive. Construction projects funded by ARC must have an "Administering Agency" such as ADECA, USDA Rural Development or TVA. The project will be administered by and take on the requirements of that agency

**Deadline:** Pre-application due date in August. Applicant notified in late fall/winter if a full application is requested. Award announcements typically made in May.

**Contact:** Alabama Department of Economic and Community, Affairs (ADECA), Jimmy Lester, ARC Program Manager (334) 353-4490, [jimmy.lester@adeca.alabama.gov](mailto:jimmy.lester@adeca.alabama.gov)

## Alabama Humanities Foundation Grants

Applicants are encouraged to develop projects for a wide variety of audiences including library and museum patrons, teachers and scholars, youth, senior citizens, nursing home residents, hospital patients, the economically disadvantaged, the incarcerated, and the hearing and sight-impaired.

### **Application submission deadlines:**

- Major Grants (\$1,500 and up) – February 15, June 16, September 15
- Minor Grants (\$1,500 or less) – February 15, June 16, September 15

## Bank of America Grant

The Bank of America (BoA) offers grants that support high-impact initiatives, organizations and the development of visionary leaders. Schools with farm-to-school type programs may be eligible under the funding areas:

- Developing Career Leadership and Skills: Opportunities that increase civic and community engagement, career exploration and youth employment, financial knowledge and life-skill and soft-skill development
- Assisting with Food Access: Food deserts, green/fresh food access, etc

BoA's Charitable Foundation provides philanthropic support to address needs vital to the health of communities through a focus on preserving neighborhoods, educating the workforce for 21st-century jobs

and addressing critical needs, such as hunger. **Deadline:** Requests for proposals are issued three times per year.

## Costco Wholesale Grants

Costco Wholesale grants support programs focusing on children, education and health and human services. They look to achieve the greatest impact where Costco's employees and members live and work. Only 501(c)(3) nonprofit organizations, which meet their giving guidelines and focus areas, are considered.

**Deadline:** Applications are accepted throughout the year on a rolling basis.

## Walmart Foundation National Giving Program Grants

Through its National Giving Program, the Walmart Foundation awards grants of \$250,000 and above to non-profit organizations that operate on a national scope through chapters/affiliates in many states around the country or through programs that operate regionally/locally but seek funding to replicate program activities nationally.

Areas of focus for the Foundation include:

- Hunger Relief & Healthy Eating
- Sustainability
- Women's Economic Empowerment
- Career Opportunity

**Deadline:** OPEN

## William G. McGowan Charitable Fund Issues Request for Proposals for Projects That Address Homelessness

The fund will award grants in support of initiatives that seek to correct circumstances contributing to homelessness, as well as initiatives designed to help eradicate the condition of homelessness in the long term.

**Deadline:** OPEN

# **Section V (NEW) FELLOWSHIPS / INTERNSHIPS / SCHOLARSHIPS / FINANCIAL AID / AWARDS**

## **March Scholarships**

[March Scholarships](#)

### **Scholarship Resources**

- [HBCU Scholarship Directory](#)
- [Alabama's Scholarship and Grant Programs](#)
- [Alabama Scholarships](#)
- [Nerd Wallet](#)
- [Fast Web](#)

### Alabama Additional Funding Sources

## Community Foundations in Alabama

There are 13 community foundations in Alabama, covering 78 percent of the counties in the state and holding assets that total more than \$190 million.

### Daniel Foundation

The Daniel Foundation offers grants in four program areas: Civic and Community Improvement, Education, Health, and Arts and Culture. Applications are limited to 501 (c)(3) organizations that are located in Alabama.

### Alabama Power Foundation

The Alabama Power Foundation allocates funding in four categories: Improving Education, Strengthening Communities, Promoting Arts and Culture, and Restoring and Enhancing the Environment.

### Alabama Humanities Foundation

The AHF awards grants solely to support public humanities projects. Active public participation, the involvement of humanities scholars, and strong humanities content are the three essential components of AHF-funded projects.

### Gwyn Turner Endowed Fund

The fund is administered by the National Trust for Historic Preservation, in partnership with Alabama Trust. Nonprofits and governmental agencies can obtain funding for preservation planning, heritage education, workshops, conferences, and special interventions. Grants range from \$1,000 to \$5,000 and require a 1:1 cash match.

Applicants are encouraged to discuss their project with the National Trust Southern Office before applying. Contact the Southern Office at 843.722.8552, or e-mail [soro@nthp.org](mailto:soro@nthp.org).

## Sybil H. Smith Trust

Established in 1983, this trust funds organization in the First Congressional District only. Awards limited to arts, community development, education, and human services. No awards are given for individuals. For more information, call: 251.432.0208.

## Alabama State Council on the Arts

Grants awarded to nonprofit organizations and local governments in the following categories: Presenting Grants, Project Assistance, Operating Support, Technical Assistance, Collaborative Ventures, and Program Development.

## Historic Chattahoochee Commission

The Historic Chattahoochee Commission (HCC) promotes tourism and historic preservation in the Chattahoochee Trace, an 18-county region in Alabama and Georgia. The HCC supports preservation through two grant programs: Seed Grant and the Threatened Landmarks Program.

### Veterans

## FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high-quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members, and spouses are connected to high-quality career choices by matching their identified skills with the available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

### **Veteran Applicant Resources:**

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

## Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden's Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans, and transitioning Service Members deserve a single, authoritative source for connecting. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at <https://www.ebenefits.va.gov/ebenefits/jobs%20%20>

For a tutorial video on how to use the Veterans Employment Center, please visit:
