

Issue 412

CONGRESSWOMAN TERRI SEWELL'S  
**GUIDE** *to* **GRANTS**  
ALABAMA'S 7<sup>TH</sup> DISTRICT

December 15, 2022

Welcome to the *Guide to Grants!*

*Happy Holidays!* I am honored to represent the 7<sup>th</sup> Congressional District of Alabama. As your representative, it is my top priority to provide you with the resources we need to keep our community safe and thriving. I will work diligently to provide you with the most current information about funding opportunities. Grant opportunities are vital to the success of our communities, and this guide will identify federal, corporate, and foundation grant opportunities to assist you in goals for our communities. This guide will include links to federal agencies and resources to help you make your proposals more successful. This guide will also describe new funding opportunities for economic development, infrastructure, healthcare, and educational projects. Also, I am pleased to provide a Letter of Support for grant application projects in the 7<sup>th</sup> Congressional District of Alabama. Stay up to date with the latest information at <http://sewell.house.gov> Please continue to let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit our website at <http://sewell.house.gov>. To subscribe to *Guide to Grants*, sign up on our [website](#) or call us at 205.254.1960. Previous editions of the *Guide to Grants* are archived and can be found [here](#).

CONGRESSWOMAN TERRI A. SEWELL – REPRESENTING ALABAMA'S 7<sup>TH</sup> DISTRICT

Washington D.C. Office | 2201 Rayburn House Office Building | Washington, D.C. 20515

<https://Sewell.House.Gov> | Phone: (202) 225-2665 | Fax (202) 226-9567

## **Rep. Sewell to Serve in Democratic Leadership in 118th Congress as Chief Deputy Whip**

Assistant Speaker and Incoming Democratic Whip Katherine M. Clark (MA-05) announced the selection of Rep. Terri A. Sewell (AL-07) to serve as a Chief Deputy Whip for the 118th Congress. Rep. Sewell has served as a Chief Deputy Whip since she was appointed in the 113th Congress in 2013.

“It is with great pride that I accept the honor of serving as a Chief Deputy Whip under the leadership of Democratic Whip Katherine Clark for the 118th Congress,” said Rep. Sewell. “I look forward to working alongside House Democrats’ strong and dynamic new leadership team to protect our progress, further strengthen our economy, and advance the needs of America’s working families. I am confident that working together, we can continue to deliver lower prices, safer communities, and more opportunities for communities in Alabama and across our nation.

“Congresswoman Sewell is a proven leader, and as a member of the Whip team, she will help House Democrats secure opportunity and justice for every American,” said Assistant Speaker and Incoming Democratic Whip Katherine Clark. “Our Chief Deputy Whips represent the incredible diversity of experience and perspectives that embody the House Democratic Caucus. Unified in our mission, we will harness the strength of House Democrats to advance the needs of working families and defeat the Republican extremist agenda.”

## **Reps. Sewell and Smucker and Sens. Hickenlooper and Tillis Introduce Bill to Expand Retirement Savings for Working Americans**

U.S. Reps. Terri Sewell (AL-07) and Lloyd Smucker (PA-11) introduced H.R. 9462, the Retirement Savings for Americans Act, a bipartisan, bicameral bill to improve retirement security and financial well-being for low- and middle-income American workers. Specifically, the bill would establish a new program that gives eligible workers access to portable, tax-advantaged retirement savings accounts. It would also offer federal matching contributions for low- and middle-income workers, with the match beginning to phase out at median income. Companion legislation was introduced by Sens. John Hickenlooper (D-CO) and Thom Tillis (R-NC) in the U.S. Senate.

“Every Alabamian and every American should be able to retire with dignity after a lifetime of work,” said Rep. Sewell. “This critical, bipartisan legislation would address serious gaps in our retirement system and make it easier for low- and middle-income workers to save for retirement. I was proud to work with my

House and Senate colleagues on both sides of the aisle to advance this commonsense bill which would level the playing field for working families and build a stronger economy for all Americans.”

“I appreciate the opportunity to advance meaningful bipartisan legislation to assist hardworking Americans save for their retirement,” said Rep. Lloyd Smucker. “Our legislation, the Retirement Savings for Americans Act, will create a pathway for millions of Americans to find financial security in their retirement. I look forward to continuing to advance this legislation in the next Congress and building upon the successes of SECURE 2.0 to help Americans become financially secure in their retirements.”

“Too many Americans are working their entire adult lives only to reach retirement and find they don’t have enough saved,” said Sen. Hickenlooper. “Helping people save is an easy, efficient way to cut income inequality while making sure all workers get the retirement they’ve earned.”

“Roughly 40 million Americans lack access to an employer-sponsored retirement plan, which represents a significant roadblock to achieving financial security for their retirement,” said Sen. Tillis. “The Retirement Savings for Americans Act tackles this real problem by establishing a pathway for savings for Americans lacking retirement options.”

Around one-third of private-sector workers lack access to a workplace retirement plan, and roughly half of households are at risk of taking a cut to their standard of living in retirement.

The bill contains the following provisions:

**Eligibility and Auto Enrollment:** Full- and part-time workers who lack access to an employer-sponsored retirement plan would be eligible for an account, and they would be automatically enrolled at 3% of their income. They could choose to increase or decrease their withholding, or opt out entirely at any time. Independent workers (including gig workers) would also be eligible.

**Federal Contribution:** Low- and moderate-income workers would be eligible for a 1% automatic contribution (as long as they remain employed) and up to a 4% matching contribution via a refundable federal tax credit. This would begin to phase out at median income.

**Portability:** Accounts would remain attached to workers throughout their lifetimes, and workers would be able to stop and start contributions at will.

**Private Assets:** The accounts would be the property of the worker and the assets could be passed down to future generations to help them build wealth and financial security.

Investment Options: Much like the current TSP, participants would be given a menu of simple, low-fee investment options to choose from, including lifecycle funds tied to a worker's estimated retirement date, or index funds made of stocks and bonds.

“Far too many Americans are unprepared for retirement. The Retirement Savings for Americans Act would tackle serious gaps in the U.S. retirement system that have hindered millions of workers from saving for a more certain and secure future,” said Economic Innovation Group (EIG) President and CEO John Lettieri. “By incorporating a range of proven features, this innovative legislation would greatly expand market access to high quality retirement plans and target savings incentives to workers who need them most. The result would be a healthier retirement system, a more secure workforce, and a stronger economy to the benefit of all Americans. EIG applauds Senators Hickenlooper and Tillis and Representatives Sewell and Smucker for their bipartisan dedication to empowering American workers.”

## [Rep. Sewell Votes for Fiscal Year 2023 National Defense Authorization Act](#)

U.S. Rep. Terri Sewell voted for H.R. 7776, the National Defense Authorization Act (NDAA) for Fiscal Year 2023. This legislation will strengthen America's national security, honor the heroism of Alabama service members, and make critical investments in research capabilities at HBCUs and minority-serving institutions (MSI). Notably, the package authorizes \$15 million for a commercial vehicle inspection gate at Maxwell Air Force Base and \$9.2 million for a F-35 weapons load crew training facility at Montgomery Regional Airport Base. Funding must still be appropriated in the end-of-year omnibus funding bill.

“The responsibility to ensure that our service members can keep our nation safe and free is one that I will never take lightly,” said Rep. Sewell. “I'm thrilled that this year's defense bill includes a hard-earned raise for our service members and authorizes millions of dollars for Maxwell Air Force Base and Montgomery Regional Airport Base. This NDAA will bolster America's national security and advance our leadership on the world stage, and I was proud to vote for it.”

Passed annually by Congress since 1961, the NDAA authorizes funding levels for the Department of Defense. This legislation allows the Armed Forces to pay, train and equip U.S. service members, support America's allies around the world, and carry out essential national security operations.

With this year's NDAA, House Democrats have advanced a range of key priorities:

Honoring America’s service members with a hard-earned 4.6 percent pay raise, child care support and commissary funding to help bring down military families’ kitchen table costs.

Combating sexual harassment in the military by requiring independently-trained investigators – outside the immediate chain of command – to investigate sexual harassment, as well as placing cases under the jurisdiction of the Special Trial counsel.

Supporting first responders by enacting the Federal Firefighters Fairness Act to ease firefighters’ access to workers’ compensation.

Investing in diversity and inclusion, including support for defense research activities at HBCUs and MSIs, as well as a new fellowship program expanding opportunities to serve at the Department of Defense.

Securing significant investments in clean energy and energy efficiency at the Department of Defense, harnessing solar and electric technologies to ensure that our defense facilities and vehicle fleets are resilient to climate disaster and energy disruptions.

Advancing the most consequential Oceans package in generations, focusing on conserving oceans, coasts and Great Lakes in order to protect jobs and businesses, ensure resilient access to clean water and preserve invaluable aquatic life and their natural habitat. At the same time, this package modernizes the NOAA Corps and secures more hurricane hunter aircraft to protect communities from extreme weather and climate disaster.

## **Rep. Sewell Votes to Enshrine Marriage Equality Under Federal Law**

U.S. Rep. Terri Sewell (AL-07) voted to send H.R. 8404, the Respect for Marriage Act, to President Biden’s desk. This landmark legislation, which passed the House today by a vote of 258 to 169, takes several key steps to defend marriage equality: officially repealing the unconstitutional “Defense of Marriage Act” (DOMA), upholding couples’ right to equal protection under federal law, and requiring states to recognize valid out-of-state marriages.

“No American should be discriminated against because of who they love,” said Rep. Sewell. “As the Supreme Court threatens to strip away more of Americans’ hard-fought personal liberties, I’m proud that

this Democratic Congress is standing up for the dignity and equality of every American by sending the Respect for Marriage Act to President Biden's desk. As the representative of America's Civil Rights District, I will always fight for the equal treatment of all Americans under the law!"

Since the Republican-appointed Supreme Court's outrageous Dobbs decision, right-wing extremists have set their sights on stripping away Americans' basic personal freedoms. In his concurring opinion, Justice Clarence Thomas explicitly called for the Court to reconsider its Obergefell decision upholding marriage equality.

The Respect for Marriage Act will take several steps to protect same-sex and interracial marriages:

**Repealing the "Defense of Marriage Act":** While the Supreme Court has effectively voided DOMA, this unconstitutional and discriminatory federal law still remains on the books. The Respect for Marriage Act will repeal this statute once and for all.

**Enshrining Marriage Equality Into Federal Law:** This legislation will uphold married couples' right to equal protection in all areas covered under federal law, such as Social Security, tax filings and veterans' benefits.

**Barring Discrimination By State Officials:** This legislation prohibits state officials from denying recognition of an out-of-state marriage on the basis of sex, race, ethnicity or national origin.

Previously passed by the House earlier this year, the Respect for Marriage Act was amended and advanced by the Senate last week. With today's vote in the House, the final bill now heads to the President's desk for his signature.

The Respect for Marriage Act is strongly supported by leading advocacy organizations, including the ACLU, Center for American Progress, Equality Federation, Family Equality, Freedom for All Americans, GLAD, Human Rights Campaign, Lambda Legal, National Black Justice Coalition, National Center for Lesbian Rights, National Women's Law Center and PFLAG.

## **Reps. Sewell, Arrington, Ruiz, and Hudson Lead Bipartisan Letter to House Leadership Urging Consideration of Medicare Multi-Cancer Early Detection Screening Coverage Act Before Year-End**

U.S. Reps. Terri Sewell (AL-07), Jodey Arrington (TX-19), Raul Ruiz (CA-36), and Richard Hudson (NC-08) led 116 of their House colleagues in a bipartisan letter urging House leadership to bring H.R. 1946 to the Floor for a vote during the remainder of the 117th Congress. The Medicare Multi-Cancer Early Detection Screening Coverage Act would create a pathway for Medicare to cover emerging blood-based cancer screenings which hold the potential to detect cancer earlier than ever before. Rep. Sewell introduced H.R. 1946 in March 2021. With 257 House co-sponsors and 54 Senate co-sponsors, it enjoys the support of a bipartisan majority of the House and Senate and over 400 organizations across the nation.

The letter reads in part: “No family in America has been spared the scourge of cancer. Indeed, for our nation’s seniors, the burden of cancer is highest, with more than 70% of all cancer deaths happening in the Medicare population. We must bring urgency and action to our fight against this terrible disease because the consequences of waiting are too great. We respectfully urge you to bring this bill to the floor this year and pave the way for a future where we win our war on cancer.”

Cancer is the second leading cause of death in the United States. However, detecting cancer early can result in less invasive treatments, reduced costs, and most importantly, better outcomes for patients. Fortunately, scientists are developing and testing innovative blood-based multi-cancer early detection tests that can screen for many cancers at the same time, including rare cancers. The companies engaged in multi-cancer screening have both received breakthrough device designation for their tests and are pursuing FDA approval. Unfortunately, under current law, it could take several years after FDA approval before Medicare beneficiaries could receive coverage for such tests.

The Medicare Multi-Cancer Early Detection Screening Coverage Act responds to a misalignment between advances in science and Medicare coverage by allowing for Medicare coverage of multi-cancer screening. It would significantly reduce delays for Medicare beneficiaries, while allowing the Centers for Medicare and Medicaid Services (CMS) to use its evidence-based process to determine coverage. Accordingly, these new multi-cancer screening tools will complement existing screenings and dramatically improve our nation’s cancer early detection capabilities.

Specifically, the legislation would:

Create the authority for CMS to cover blood-based multi-cancer early detection tests and future test methods (like urine or hair tests), once approved by the FDA. Congress has acted before to create coverage for other cancer screenings including mammography and colorectal screenings.

Maintain CMS' authority to use an evidence-based process to determine coverage parameters for these new tests.

State that these new tools will complement, not replace, existing screenings and coverage and cost sharing will not be impacted.

The letter is signed by: Reps. Terri Sewell (AL-07), Jodey Arrington (TX-19), Raul Ruiz (CA-36), Richard Hudson (NC-08), Colin Allred (TX-32), Mark Amodei (NV-02), Kelly Armstrong (ND-AL), Don Bacon (NE-02), Nanette Barragán (CA-44), Ami Bera (CA-07), Stephanie Bice (OK-22), Gus Bilirakis (FL-12), Earl Blumenauer (OR-03), Lisa Blunt Rochester (DE-AL), Brendan Boyle (PA-13), Shontel Brown (OH-09), Vern Buchanan (FL-13), Larry Bucshon (IN-08), Michael Burgess (TX-26), G. # ANNOUNCEMENTS

## GRANT ALERT!

### [Congressional Black Caucus Foundation Scholarships/Internships/Fellowships](#)

For more than three decades the CBCF has awarded scholarships to talented and deserving students. Each year, we award more than 300 scholarships to students that demonstrate leadership ability through exemplary community service and academic talent. Scholarship programs support current or upcoming college students across a variety of disciplines.

CBCF's internship programs prepare college students and young professionals to become principled leaders, skilled policy analysts, and informed advocates by exposing them to the processes that develop national policies and implement them – from Capitol Hill to federal field offices. Please see scholarship section for deadlines.

### [Legal Services for Homeless Veterans and Veterans At-Risk for Homelessness Grant CFDA 64.056](#)

The new Legal Services for Homeless Veterans and Veterans At-Risk for Homelessness Grant Program's purpose is to provide legal services grants to public or non-profit private entities who will provide legal services to eligible Veterans who are homeless or at risk for homelessness. The goal of the Grant Program is to assist homeless and at-risk Veterans who have unaddressed needs for legal services, which may create barriers to housing stability. Services provided to Veterans under this Grant Program are designed to help Veterans increase housing stability by providing legal services that will help Veterans avoid homelessness or help them return to permanent housing in the community.

**Deadline:** December 30, 2022

## Homeless Veteran Providers GPD Per Diem Only Grant Program (TIP) CFDA 64.024

The Department of Veterans Affairs (VA) is announcing the availability of funding for new grants under the Transition in Place (TIP) grant component of the VA Homeless Providers Grant and Per Diem (GPD) program in an effort to reduce homelessness among Veterans.

Applications for assistance are being accepted from eligible entities to provide per diem payments for the TIP transitional housing model to facilitate housing stabilization for Veterans experiencing homelessness. The TIP housing model offers Veteran residents housing in which supportive services transition out of the residence over time, rather than the resident. This allows the Veteran to remain in the unit instead of being forced to find other housing while stabilizing.

VA anticipates that the grants will be for a period of 3 years starting in fiscal year (FY) 2024 on October 1, 2023 and ending September 30, 2026. VA anticipates awarding approximately 600 TIP beds nationwide. Applications must include a minimum of 5 TIP beds and up to a maximum of 20 TIP beds, per VA medical facility catchment area, per each applicant's employer identification number (EIN).

**DATES:** Applications for grants must be received by the GPD National Program Office no later than 4:00 p.m. Eastern Time on Monday, January 30, 2023. In the interest of fairness to all, this deadline is firm as to date and hour. VA will treat any application received after the deadline as ineligible. Applicants should take this practice into account and submit their materials early to avoid the risk of unanticipated delays, computer service outages or other submission-related problems that might result in ineligibility.

**ADDRESSES:** Instructions for accessing the application are available at <https://www.va.gov/homeless/gpd.asp>. The required documentation for applications is outlined under the Content and Form of Application section of the Notice of Funding Opportunity (NOFO). Standard forms, which must be included as part of a complete application package, may be downloaded directly from VA's GPD National Program Website at <https://www.va.gov/homeless/gpd.asp>. Questions may be referred to the GPD National Program Office at [GPDGrants@va.gov](mailto:GPDGrants@va.gov). For detailed GPD program information and requirements, see 38 C.F.R. part 61.

**APPLICATION SUBMISSION:** Applications must be submitted by following instructions at <https://www.va.gov/homeless/gpd.asp>. Applications may not be submitted any other way. Applications must be submitted as a complete package. Materials arriving separately will not be included in the application package for consideration and may result in the application being rejected or not funded.

Applicants are advised to refer to the NOFO when completing the online application. NOFO content provides supplementary guidance for completing the online application.

TECHNICAL ASSISTANCE: Information regarding how to obtain technical assistance with the preparation of a grant application is available on the GPD National Program Website at <https://www.va.gov/homeless/gpd.asp>.

Applicants are encouraged to review the full NOFO in Grants.gov under the Related Documents tab, as well as the technical assistance materials on the GPD National Program Website.

**Deadline:** January 30, 2023

### [Funding Opportunity Department of Veteran Affairs Supportive Services for Veteran Families CFDA 64.033](#)

The Department of Veterans Affairs (VA) is announcing the availability of funds for supportive services grants under the Supportive Services for Veteran Families (SSVF) Program. This Notice of Funding Availability (NOFA) contains information concerning the SSVF Program; the renewal and new applicant supportive services grant application processes; and the amount of funding available. Awards made for supportive services grants will fund operations beginning October 1, 2023. Grant

awards may be renewed for up to 3 years pending the availability of funds and grantee performance. Please find additional information on the SSVF website at Supportive Services for Veteran Families ([va.gov](http://va.gov)). Applications can be placed through the VHA Homeless Program Grant Management System UDPaaS - VHA.

**Deadline:** February 10, 2023

### [GPD Per Diem Only Grant Program \(PDO\) CFDA 64.024](#)

The Department of Veterans Affairs (VA) is announcing the availability of funding for new grants under the Per Diem Only (PDO) grant component of the VA Homeless Providers Grant and Per Diem (GPD) program in an effort to reduce homelessness among Veterans.

Applications for assistance are being accepted from eligible entities to provide per diem payments for facilitating housing stabilization for Veterans experiencing homelessness. Funding will support PDO transitional supportive housing bed models and service centers. These PDO service models are designed to meet different Veteran populations at various stages as they move to stable housing.

VA anticipates that the grants will be for a period of 3 years starting in fiscal year (FY) 2024 on October 1, 2023 and ending September 30, 2026. VA anticipates awarding approximately 10,500 transitional

supportive housing beds and 15 service centers nationwide. Applications will be accepted either for transitional supportive housing beds or for a service center. Applications for transitional supportive housing may include one or a combination of bed models (i.e., Bridge Housing, Clinical Treatment, Hospital to Housing, Low Demand and/or Service Intensive Transitional Housing). Each application for transitional supportive housing beds must include a minimum of one housing model per application and a minimum of five beds per housing model. Applications may not request both transitional supportive housing beds and a service center within the same application.

**DATES:** Applications for grants must be received by the GPD National Program Office no later than 4:00 p.m. Eastern Time on Monday, February 6, 2023. In the interest of fairness to all, this deadline is firm as to date and hour. VA will treat any application received after the deadline as ineligible. Applicants should take this practice into account and submit their materials early to avoid the risk of unanticipated delays, computer service outages or other submission-related problems that might result in ineligibility.

**ADDRESSES:** Instructions for accessing the application are available at <https://www.va.gov/homeless/gpd.asp>. The required documentation for applications is outlined under the Content and Form of Application section of the Notice of Funding Opportunity (NOFO). Standard forms, which must be included as part of a complete application package, may be downloaded directly from VA's GPD National Program Website at <https://www.va.gov/homeless/gpd.asp>. Questions may be referred to the GPD National Program Office at [GPDGrants@va.gov](mailto:GPDGrants@va.gov). For detailed GPD program information and requirements, see 38 C.F.R. part 61.

**APPLICATION SUBMISSION:** Applications must be submitted by following instructions at <https://www.va.gov/homeless/gpd.asp>. Applications may not be submitted any other way. Applications must be submitted as a complete package. Materials arriving separately will not be included in the application package for consideration and may result in the application being rejected or not funded.

Applicants are advised to refer to the NOFO when completing the online application. NOFO content provides supplementary guidance for completing the online application.

**TECHNICAL ASSISTANCE:** Information regarding how to obtain technical assistance with the preparation of a grant application is available on the GPD National Program Website at <https://www.va.gov/homeless/gpd.asp>.

Applicants are encouraged to review the full NOFO in Grants.gov under the Related Documents tab, as well as the technical assistance materials on the GPD National Program Website.

## Section I GENERAL GRANT INFORMATION

- Grants and Federal Domestic Assistance - Guidance and key resources to help eligible constituents find information on federal grants, loans, and nonfinancial assistance for projects, as well as on private funding. Prepared by the Congressional Research Service for Members of Congress, updated May 2014. Website: <http://sewell.house.gov/grant-information/>
- A federal grant is an award of financial assistance from a federal agency to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States. Federal grants are not federal assistance or loans to individuals. A federal grant may not be used to acquire property or services for the federal government's direct benefit. The 26 federal agencies offer over 1,000 grant programs annually in various categories. Website: <http://www07.grants.gov/aboutgrants/grants.jsp>
- To learn about Federal grant opportunities, register your organization, and receive notices, please visit [www.grants.gov](http://www.grants.gov). It is the resource for all Federal grants.
- To apply for Federal Grants: [http://www.grants.gov/applicants/apply\\_for\\_grants.jsp](http://www.grants.gov/applicants/apply_for_grants.jsp)
- [Grants.gov](http://www.grants.gov) Applicant Training Video - Need a quick lesson on how to Register, Find, and Apply? Watch this short video to get tips on registering with Grants.gov; finding grant opportunities; understanding your search results; and, applying for opportunities.
- To learn about foundation grant opportunities, please visit <http://foundationcenter.org/>. The Foundation Center is a gateway to information about private funding sources and provides guidelines about how to write a grant proposal. It also provides links to state libraries with grants reference collections and links to other useful Internet websites.

[Alabama 211](#)

## **Department of Health and Human Services**

[SARS-CoV-2 \(COVID-19\) Program Activities CFDA 93.990](#)

The Office of the Assistant Secretary for Health (OASH) has established the Laboratory and Diagnostics Working Group (LDWG) seeking submissions to a Broad Agency Announcement (BAA) “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” (Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139)). OASH/LDWG seeks proposals for projects that will further enable the coordination and development of testing and associated products that meet the current and future needs, and the effective transition of technology into broad use without impediments. The primary areas of focus

should specifically include (1) Scaling and Networking of Technologies, and (2) Testing Demonstrations & Technical Assistance. Specifically, OASH is interested in submissions that will substantially increase our testing capacity and quality in the near term, and do not fall within the scope of other HHS programs.

When posted, the funding opportunity announcement (FOA) will provide guidance for applicants on the submission of short white papers, which after review, may be followed by full proposal submissions for consideration for funding. Applicants will have the option of forgoing the white paper submission for direct submission of a full proposals. Applications will be accepted and reviewed on a rolling basis to address immediate public needs. Applicants must submit white papers and applications through Grants.gov according to the instructions in the FOA. Applicants must have an active SAM registration at the time of submission and maintain an active registration throughout the review process and during any award that may result.

**BACKGROUND:** On January 31, 2020, HHS Secretary Alex M. Azar II declared a public health emergency in response to the 2019 novel coronavirus, now known as SARS-CoV-2, or COVID-19. Testing is vital to prevent and contain outbreaks that may occur as economic and social activities expand across the country. Accordingly, the Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139) provides funding to HHS to “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” As part of the response to this requirement, and in order to administer agency actions to mitigate the pandemic, the Office of the Assistant Secretary for Health (OASH) Laboratory and Diagnostics Working Group (LDWG) complements existing efforts within the Department. To meet current and future challenges with the least possible risk, the nation needs more testing - with increasingly diverse, accurate, and affordable platforms – that are tailored to specific use cases.

**Deadline:** TBD

### [Announcement to Support Novel, High-Impact Studies Evaluating Health System and Healthcare Professional Responsiveness to COVID-19 \(CFDA 93.226\)](#)

The health systems research community should prepare to submit applications to AHRQ to fund critical research focused on evaluating topics such as innovations and challenges encountered in the rapid expansion of telemedicine in response to COVID-19, effects on quality, safety, and value of health system response to COVID-19, and the role of primary care practices and professionals during the COVID-19 epidemic. AHRQ is particularly interested in understanding how digital health innovations contributed to health system and healthcare professional innovation and challenges and solutions to meeting the needs of vulnerable populations including older adults, people living with multiple chronic conditions, rural communities, and uninsured and underinsured populations.

**END COVID-19 SECTION**

# Corporation for National and Community Service

## Fiscal Year (FY) 2023 AmeriCorps Seniors Workforce Development CFDA 94.017

AmeriCorps improves lives, strengthens communities, and fosters civic engagement through service and volunteering. AmeriCorps brings people together to tackle some of the country's most pressing challenges through national service and volunteerism. AmeriCorps members and AmeriCorps Seniors volunteers serve with organizations dedicated to the improvement of communities and those serving. AmeriCorps helps make service a cornerstone of our national culture.

In addition, while AmeriCorps Seniors volunteers serve, there is the opportunity to build new skills, explore a variety of careers, and build strong networks to support employment goals after their service is complete. This combination of service, training, and follow-up mentoring together serve the basis of this exciting funding opportunity.

Older adult workers, those age 55 and older, may find it challenging to move to a new career of interest, or return to the workforce after being absent for a period of time. There are many reasons for this challenge – ranging from lack of support for older workers, to age discrimination, or the perception that older workers are not considered viable candidates for a position. Whatever the reason, there remain barriers to workers aged 55 and older securing and retaining employment.

AmeriCorps Seniors is publishing this funding notice with the purpose of creating the AmeriCorps Seniors Workforce Development Senior Demonstration Program (herein referred to as WFD) to support projects focused on supporting older adults as they seek to secure employment in professional, skilled labor, or para-professional careers. In addition, AmeriCorps Seniors is partnering with Public Health AmeriCorps, which seeks to support projects that address the public health needs of local communities, advance health equity and create pathways to public health careers for older adults. Applicants that propose public health careers programming would apply via the Public Health Careers Track. All other career programming will apply via the non-public health careers track. Through WFD funding opportunities, applicants must demonstrate how they will engage adults ages 55 and older, using service opportunities, certification, training, and mentoring as the avenue that will lead to employment in skilled, professional, and/or para-professional career employment.

**Deadline:** February 01, 2023

# Environmental Protection Agency

## [Understanding and Control of Municipal Solid Waste Landfill Air Emissions](#) [CFDA 66.509](#)

The U.S. Environmental Protection Agency (EPA) Office of Research and Development (ORD), as part of the Science to Achieve Results (STAR) program and in collaboration with the Air, Climate, and Energy (ACE) research program, is seeking applications proposing research on municipal solid waste landfill air emissions. Specifically, this request for applications (RFA) is soliciting research that addresses the following research priorities:

How can cost effective stationary, mobile, aerial, and remote sensing technologies be combined to more easily and accurately quantify landfill methane emissions, hazardous air pollutants (HAPs), and other air pollutant emissions from municipal solid waste (MSW) landfills?

How can cost effective stationary, mobile, aerial, and remote sensing measurements be used to increase ease of use and evaluate mitigation strategies and technologies to identify best landfill management practices?

The Science to Achieve Results (STAR) Program's goal is to stimulate and support scientific and engineering research that advances EPA's mission to protect human health and the environment. It is a competitive, peer-reviewed, extramural research program that provides access to the nation's best scientists and engineers in academic and other nonprofit research institutions.

**Deadline:** December 21, 2022

## [Understanding and Control of Municipal Solid Waste Landfill Air Emissions](#) [CFDA 66.509](#)

It is a competitive, peer-reviewed, extramural research program that provides access to the nation's best scientists and engineers in academic and other nonprofit research institutions.

**Deadline:** December 21, 2022

### [Center for Early Lifestage Vulnerabilities to Environmental Stressors - Cumulative Health Impacts for Children in Underserved Rural Agricultural Communities in the United States 66.509](#)

The EPA's Office of Children's Health Protection (OCHP) plays an essential role in carrying out the agency's mission to protect children where they live, learn, and play and works closely with EPA's program and regional offices to ensure that EPA actions and programs address the unique vulnerabilities of children. Exposures to mixtures of chemicals, along with non-chemical environmental stressors such as poverty, limited access to services, and changing conditions found in our everyday environment, may pose developmental and life-long health risks to children. Pollutant exposure during pregnancy and early childhood may be a crucial determinant of their lifetime health and has been associated with adverse neurodevelopment, childhood cancers, and other adverse health outcomes. Children in underserved, rural agricultural communities may be exposed to agricultural chemicals through ambient air, water, and soil, in addition to exposure to these chemicals via take-home and occupational routes (for adolescents). Moreover, adverse health outcomes in these children resulting from exposure to chemicals may be exacerbated by non-chemical stressors. There is an urgent research need to investigate adverse cumulative health impacts from exposures to chemical and non-chemical stressors for children in these communities in order to effectively reduce early childhood and lifetime health disparities.

EPA is interested in supporting a transdisciplinary research center that will investigate the cumulative health impacts of early lifestage (prenatal and childhood up to adolescence) exposures to pollutants in conjunction with other relevant non-chemical stressors among children in underserved, rural agricultural communities in the United States.

**Deadline:** January 11, 2023

# Institute of Museum and Library Services

## [National Leadership Grants for Libraries \(2023\) CFDA 45.312](#)

The National Leadership Grants for Libraries Program (NLG-L) supports projects that address critical needs of the library and archives fields and have the potential to advance practice and strengthen library and archival services for the American public. Successful proposals will generate results such as new models, tools, research findings, services, practices, and/or alliances that can be widely used, adapted, scaled, or replicated to extend and leverage the benefits of federal investment.

The goals for this program are to generate projects of far-reaching impact that:

- Build the workforce and institutional capacity for managing the national information infrastructure and serving the information and education needs of the public.
- Build the capacity of libraries and archives to lead and contribute to efforts that improve community well-being and strengthen civic engagement.
- Improve the ability of libraries and archives to provide broad access to and use of information and collections with an emphasis on collaboration to avoid duplication and maximize reach.
- Strengthen the ability of libraries to provide services to affected communities in the event of an emergency or disaster.
- Strengthen the ability of libraries, archives, and museums to work collaboratively for the benefit of the communities they serve.

The application process for the NLG-L program has two phases; applicants must begin by applying for Phase I. For Phase I, all applicants must submit preliminary proposals by the September 21st deadline listed for this Notice of Funding Opportunity. For Phase II, only selected applicants will be invited to submit Full Proposals. Invited Full Proposals will be due March 17, 2023. Make sure you are filling out the application for the correct phase; Grants.gov will not let you submit the application if you accidentally upload it to the wrong phase.

**Deadline:** March 17, 2023

# National Aeronautics and Space Administration

## [ROSES 2022: Applications-Oriented Augmentation for Research and Analysis CFDA 43.001](#)

This program element does not have a proposal due date. Proposals may be submitted at any time, pending certain eligibility timing issues related to resubmissions and duplicate proposal avoidance (see the program element text and appropriate overview appendix (e.g., B.1 or C.1)). The date shown of 3/29/2023 is the last day that proposals may be submitted subject to the ROSES-22 rules and the current Guidebook for Proposers. The ROSES-23 version of this program element is planned to overlap with this ROSES-22 version by a few weeks, allowing continuous submission of proposals across ROSES years.

Proposers must retrieve the instructions document (zip file) associated with the application package for this opportunity as there is at least one required form that must be attached to the submitted proposal package.

The National Aeronautics and Space Administration (NASA) Science Mission Directorate (SMD) released its annual omnibus Research Announcement (NRA), Research Opportunities in Space and Earth Sciences (ROSES) – 2022 (OMB Approval Number 2700-0092, CFDA Number 43.001) on February 14, 2022. In this case "omnibus" means that this NRA has many individual program elements, each with its own due dates and topics. All together these cover the wide range of basic and applied supporting research and technology in space and Earth sciences supported by SMD. Awards will be made as grants, cooperative agreements, contracts, and inter- or intra-agency transfers, depending on the nature of the work proposed, the proposing organization, and/or program requirements. However, most extramural research awards deriving from ROSES will be grants, and many program elements of ROSES specifically exclude contracts, because contracts would not be appropriate for the nature of the work solicited. The typical period of performance for an award is three years, but some programs may allow up to five years and others specify shorter periods. In most cases, organizations of every type, Government and private, for profit and not-for-profit, domestic, and foreign (with some caveats), may submit proposals without restriction on teaming arrangements. Tables listing the program elements and due dates, the full text of the ROSES-2022 solicitation, and the "Summary of Solicitation" as a stand-alone document, may all be found NSPIRES at <http://solicitation.nasaprs.com/ROSES2022>.

This synopsis is associated with one of the individual program elements within ROSES, but this is a generic summary that is posted for all ROSES elements. For specific information on this particular program element download and read the PDF of the text of this program element by going to Tables 2 or 3 of this NRA at <http://solicitation.nasaprs.com/ROSES2022table2> and <http://solicitation.nasaprs.com/ROSES2022table3>, respectively, click the title of the program element of interest, a hypertext link will take you to a page for that particular program element. On that page, on the right side under "Announcement Documents" the link on the bottom will be to the PDF of the text of the call for proposals. For example, if one were interested in

The Lunar Data Analysis Program (NNH22ZDA001N-LDAP) one would follow the link to the NSPIRES page for that program element and then to read the text of the call one would click on “C.8 Lunar Data Analysis (.PDF)” to download the text of the call. If one wanted to set it into the context of the goals, objectives and know the default rules for all elements within Appendix C, the planetary science division, one might download and read “C.1 Planetary Science Research Program Overview (.PDF)” from that same page. While the letters and numbers are different for each element within ROSES (A.12, B.7, etc.) the basic configuration is always the same, e.g., the letter indicates the Science Division (A is Earth Science, B is Heliophysics etc.) and whatever the letter, #1 is always the division overview.

Frequently asked questions for ROSES are posted at <http://science.nasa.gov/researchers/sara/faqs>. Questions concerning general ROSES-2022 policies and procedures may be directed to Max Bernstein, Lead for Research, Science Mission Directorate, at [sara@nasa.gov](mailto:sara@nasa.gov), but technical questions concerning specific program elements should be directed to the point(s) of contact for that particular element, who may be found either at the end of the individual program element in the summary table of key information or on the web list of topics and points of contact at: <http://science.nasa.gov/researchers/sara/program-officers-list>.

Not all program elements are known at the time of the release of ROSES. To be informed of new program elements or amendments to this NRA, proposers may subscribe to: (1) The SMD mailing lists (by logging in at <http://nspires.nasaprs.com> and checking the appropriate boxes under "Account Management" and "Email Subscriptions"), (2) The ROSES-2022 RSS feed for amendments, clarifications, and corrections to at <http://science.nasa.gov/researchers/sara/grant-solicitations/ROSES-2022>, and (3) The ROSES-2022 due date Google calendars (one for each science division). Instructions are at <https://science.nasa.gov/researchers/sara/library-and-useful-links> (link from the words due date calendar).

**Deadline:** March 29, 2023

## **National Archives and Records Administration**

### [Archives Leadership Institute CFDA 89.003](#)

The Commission seeks proposals from organizations to continue the Archives Leadership Institute, which it first funded in 2008. The Archives Leadership Institute seeks to build the capacity of mid-career archivists as leaders both in their own institutions and in the archives field.

The NHPRC envisions a program that will tailor contemporary best practices in leadership skills to issues specific to archives professionals. The Commission is especially interested in proposals that make creative use of meeting times and both face-to-face and virtual instruction. The grantee will be responsible for all project phases, from curriculum design and development through administering the program for the attendees it selects. Topics for the Institute may include issues in managing and leading change, cultural competency, strategic planning, fund raising, and advocacy. In addition, there should be opportunities for participants to develop solutions to the specific needs of their institutions. Institute faculty should be diverse in composition and include experts and educators in leadership development and organizational management, as well as experienced archival leaders.

Project plans (including staffing model and planned activities) must demonstrate a commitment to fostering an inclusive, respectful, and welcoming environment, and upholding core values of collaboration, experimentation, innovation, creativity, and diversity in all forms. Promotional plans and outreach activities must demonstrate an ongoing commitment to engaging, listening to, and supporting a diverse and inclusive community of archivists. The NHPRC strongly encourages project teams that include racially and ethnically diverse faculty, staff, and attendees.

There are models of such institutes in other fields that will be useful for applicants as they develop their proposals. Applicants may benefit from looking at these examples:

Getty Leadership Institute for museum professionals

Seminar for Historical Administration for administrators of historical sites and museums

Leading Change Institute (successor to Frye Leadership Institute) for librarians and library administrators

#### Award Information

The Commission expects to make one award for two to three years with the expectation that at least one cohort will meet each year. The total award will be up to \$450,000 for three years..

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all products and publicity that result from its support.

#### Eligibility

Eligible applicants:

Nonprofit organizations or institutions

Colleges, universities, and other academic institutions

State or local government agencies

Federally-recognized or -acknowledged or state-recognized Native American tribes or groups

Applications must include all required elements (SF424, Narrative, NHPRC Budget form, and Supplemental Materials). Applications lacking any of these elements will not be considered.

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

#### Cost Sharing

The total costs of a project are shared between the NHPRC and the applicant organization.

The Commission may support up to the entire direct costs of the project that do not exceed the total amount of the award. Cost sharing may include the program revenue, grantee's indirect costs, as well as any additional direct costs borne by the applicant. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101).

#### Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid Unique Entity Identifier (UEI) number in their application. Details on SAM registration and requesting a UEI number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF.

**Deadline:** December 08, 2022

### [Institutes for Historical Editing CFDA 89.003](#)

The National Historical Publications and Records Commission seeks proposals to advance inclusive participation, training, education, dialog, and collaborative exchange amongst a diverse and growing community of academic and non-academic practitioners in the editing and publishing of historical records, including the related practices of digital scholarly editing, digital ethnic studies, digital history, and digital humanities.

Applicants in this funding category must adhere to the following goals and objectives:

**Core Values:** Project plans (including staffing model and planned activities) must demonstrate a commitment to fostering an inclusive, respectful, and welcoming environment, and upholding core values of collaboration, experimentation, co-creation, innovation, creativity, and diversity in all forms—practitioner, profession, practice, perspective, and method.

**Technical and Institutional Infrastructure:** Must be committed to creating and sustaining an open and accessible online platform that can serve multiple purposes, including but not limited to hosting pertinent educational content, courses, discussions, and other resources and information.

**Staffing Model and Programming:** Plans must include an appropriate staffing model suited to organizing and hosting a suite of regular programming that advances diverse practitioner community conversations, and provides networking opportunities, workshops, and other professional development activities.

**Promotion and Outreach:** Promotional plans and outreach activities must demonstrate an ongoing commitment to engaging, listening to, and supporting a diverse and inclusive community of academic and non-academic practitioners.

**Collaboration:** Plans must include a diverse and collaborative team of core faculty and staff (including but not limited to scholar-editors, digital archivists, digital scholars, and/or data curators, as well as communications and technical support staff, as appropriate) who are knowledgeable in the practices and workflows associated with collecting, describing, preserving, compiling, transcribing, contextualizing, annotating, editing, encoding, and publishing historical records and other documentary source materials.

We strongly encourage collaborative teams that include racially and ethnically diverse faculty and staff in key positions, and that include editorial, archival, and technical staff at Historically Black Colleges and Universities, Hispanic-Serving Institutions, Tribal Colleges, and/or other Indigenous and Native American tribal scholars and community members, and members of the Asian American community.

Applicants are likewise encouraged to seek the input of community members as well as undergraduate and graduate students who may contribute to (and benefit from) participation in all phases of the project.

For a comprehensive list of Commission's limitations on funding, please see *What We Do and Do Not Fund*. Applications that consist entirely of ineligible activities will not be considered.

#### Award Information

A grant is for one to three years and for up to \$150,000 per year. The Commission expects to make one grant in this category for a total of up to \$450,000. The grant will begin no earlier than July 1, 2023.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications, publicity, and other products that result from its support.

#### Eligibility

U.S. nonprofit organizations or institutions

U.S. colleges, universities, and other academic institutions

State or local government agencies

Federally-recognized or -acknowledged or state-recognized Native American tribes or groups

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the *Administering an NHPRC Grant* section.

This program does not support requests from individuals for their own training, education, or professional advancement. Such requests will be ineligible.

## Cost Sharing

The Commission may support up to the entire direct costs of the project, not including program revenue. Cost sharing, while not a requirement in this funding category, may include the program revenue, grantee's indirect costs, as well as any additional direct costs borne by the applicant. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101).

## Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid Unique Entity ID (UEI) in their application. To register or request a UEI, go to <https://sam.gov>. Already manage an entity that does business with the federal government. You may want to consult this article on the transition from DUNS to the Unique Entity ID.

**Deadline:** December 08, 2022

## [NHPRC-Mellon Planning Grants for Collaborative Digital Editions CFDA 89.003](#)

The National Historical Publications and Records Commission (NHPRC), with funding provided by the Andrew W. Mellon Foundation, seeks proposals for its planning grant program for Collaborative Digital Editions in African American, Asian American, Hispanic American, and Native American History and Ethnic Studies. With an overarching goal to broaden participation in the production and publication of historical and scholarly digital editions, the program is designed:

? To provide opportunities that augment the preparation and training of Black, Indigenous, and People of Color new to the work of historical documentary editing, especially those currently working in history or related area and ethnic studies departments.

? To encourage the innovative and collaborative re-thinking of the historical and scholarly digital edition itself—how it is conceived, whose voices it centers, and for what purposes.

? To support planning activities essential for successful development of significant, innovative, and well-conceived digital edition projects rooted in African American, Asian American, Hispanic American, and Native American history and ethnic studies.

? To stimulate meaningful, mutually beneficial, and respectful collaborations that help to bridge longstanding institutional inequalities by promoting resource sharing and capacity building at all levels.

? To sustain projects that build meaningful community and user engagement into their plans.

## Collaboration

Grants are awarded to collaborative teams consisting of at least two scholar-editors, as well as one or more archivists, digital scholars, data curators, and/or other support and technical staff, as appropriate to fulfill the planning goals and prepare the project team for implementation at a later stage. We strongly encourage applications from collaborative teams that include diverse faculty and staff in key positions, and that include editorial, archival, and technical staff at Historically Black Colleges and Universities, Hispanic- and Minority-Serving Institutions, Tribal Colleges, and/or other Indigenous and Native American tribal scholars and community members, and members of the Asian American community. We also encourage projects to seek out community members as well as undergraduate and graduate students to contribute to (and benefit from) participation in all phases of the project planning.

What is a digital edition? How can I make the most of this planning opportunity?

Frequently based on a corpus of materials intentionally drawn from one or more (often dispersed) archival collections, digital edition projects do more than provide visual access through digitization and online publication. They provide intellectual access to and relevant contextualization for the specific documents and other historical materials that make up the edition's corpus. In the broadest sense, digital editions are intentional, contextualized research collections created for the purpose of raising new questions and advancing new research and teaching in their respective fields of study. Because of the size, complexity (both human and technical), and duration of such projects, which may require up to 10 years or longer to reach final completion, extensive planning is essential for successful development of a collaborative digital edition project.

Eligible projects in this category are encouraged to focus their planning activities on the essentials, beginning with project conception and scope (including plans for understanding and incorporating target user community input); establishing a mutually-beneficial, respectful, and sustainable collaboration; securing long-term institutional support; establishing editorial workflow processes and associated staffing needs (for collecting, describing, preserving, compiling, transcribing, annotating, encoding, and publishing the edition); as well as long-term technical and financial sustainability, among other planning issues (see below).

Eligible activities in this category may include:

Travel and related costs for planning meetings involving geographically-dispersed collaborations.

Relevant training for project directors, staff, and participating community members, including (but not limited to) NHPRC-supported training opportunities.

Associated costs for technical planning, wire-framing, and early testing, and evaluation with target audience(s) to determine needs and priorities.

For projects undertaking an extensive or supplementary document search, funds also may be used for initial surveying of undigitized collections, sample document imaging and collection, canvassing, community outreach, and related travel.

For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund" (<http://www.archives.gov/nhprc/apply/eligibility.html>).

#### Award Information

A grant is for up to two years and for up to \$60,000 per year. The Commission expects to make up to 10 grants in this category for a total of up to \$1,200,000. Planning Grants begin no earlier than January 1, 2024.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications, publicity, and other products that result from its support.

#### Eligibility

U.S. nonprofit organizations or institutions

U.S. colleges, universities, and other academic institutions

State or local government agencies

Federally-acknowledged or state-recognized Native American tribes or groups

Applications from and collaborations involving Historically Black Colleges and Universities (HBCUs), Hispanic-Serving Institutions (HSIs), Minority-Serving Institutions (MSIs), and Tribal Colleges are strongly encouraged.

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

#### Cost Sharing

Cost sharing is not a requirement. However, the applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project.

NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant's cost sharing contribution if they are included in the budget.

#### Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid Unique Entity ID (UEI) in their application. To register or request a Unique Entity ID, go to <https://sam.gov>. Already manage an entity that does business with the federal government. You may want to consult this article on the transition from DUNS to the Unique Entity ID. Ineligible applications will not be reviewed.

**Deadline:** June 07, 2023

# National Endowment for the Humanities

## [Publishing Historical Records in Collaborative Digital Editions 89.003](#)

The National Historical Publications and Records Commission seeks proposals to publish online editions of historical records. All types of historical records are eligible, including documents, photographs, born-digital records, and analog audio. Projects may focus on broad historical movements in U.S. history, including any aspect of African American, Asian American, Hispanic American, and Native American history, such as law (including the social and cultural history of the law), politics, social reform, business, military, the arts, and other aspects of the national experience.

Projects that center the voices and document the history of Black, Indigenous, and People of Color are especially welcome.

With the 250th anniversary of the Declaration of Independence approaching, the Commission also invites projects that promote discovery and access to collections that explore the ideals behind our nation's founding and the continuous debate over those ideals to the present day.

The goal of this program is to provide access to, and editorial context for, the historical documents and records that tell the American story. Applicants should demonstrate familiarity with the best practices recommended by the Association for Documentary Editing (ADE) or the Modern Language Association (MLA) Committee on Scholarly Editions.

This grant program does not support the production of film or video documentaries. For a comprehensive list of the Commission's limitations on funding, please see What We Do and Do Not Fund. Applications that consist entirely of ineligible activities will not be considered.

### New Projects

All new projects (those which have never received NHPRC funding) must have definitive plans for publishing and preserving a digital edition which provides online access to a searchable, fully-transcribed and annotated collection of documents. New projects may also prepare print editions as part of their overall publishing plan, but the contents of those volumes must be published in a fully-searchable digital edition within a reasonable period of time following print publication. The NHPRC encourages projects to provide free public access to online

editions. Projects that do not have suitable plans for digital dissemination and preservation in place at the time of application will not be considered.

### Collaboration

Grants are awarded to collaborative teams (including at least two scholar-editors, in addition to one or more archivists, digital scholars, data curators, and/or other support and technical staff, as necessary) for collecting, describing, preserving, compiling, transcribing, annotating, editing, encoding, and publishing documentary source materials online. We strongly encourage applications from collaborative teams that include diverse faculty and staff in key positions, and that include editorial, archival, and technical staff at Historically Black Colleges and Universities, Hispanic- and Minority-Serving Institutions, Tribal Colleges, and/or other Indigenous and Native American tribal scholars and community members, and institutions serving Asian American communities. We also encourage projects to seek out community members as well as undergraduate and graduate students to contribute to (and benefit from) participation in all phases of the project.

**\*\*Notice of Funding Renewal Limitation:** The NHPRC now limits the number of years it will support projects in this grant category. All projects seeking renewed funding are limited to a maximum of up to 10 years total funding support, beginning with and including any funds awarded for the FY 2022 funding year. (Funding years need not be consecutive.)

Applicants seeking renewed funding in this grant category must demonstrate that they have successfully achieved the performance objectives associated with previous NHPRC awards; provide updated, current information, including a description of the new activities; describe the content and historical significance of the specific materials to be edited during the proposed grant period; show progress towards completing the edition; and justify costs in a new budget.

#### Award Information

A grant is for one year and for up to \$125,000 per year. The Commission expects to make up to 35 grants in this category for a total of up to \$4,000,000, contingent on the availability of appropriated funds. Grants begin no earlier than January 1, 2024.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications, publicity, and other products that result from its support.

#### Eligibility

U.S. nonprofit organizations or institutions

U.S. colleges, universities, and other academic institutions

State or local government agencies

Federally-acknowledged or state-recognized Native American tribes or groups

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

#### Cost Sharing

The total costs of a project are shared between the NHPRC and the applicant organization.

Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant's cost sharing contribution if they are included in the budget.

The Commission provides no more than 75 percent of total project costs in the Publishing Historical Records in Collaborative Digital Editions category. For example, a request of \$75,000 in NHPRC grant funds means the applicant institution must provide at least \$25,000 in cost share.

#### Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid Unique Entity ID in their application. To register or request a Unique Entity ID, go to <https://sam.gov>. Already manage an entity that does business with the federal government? You may want to consult this article on the transition from DUNS to the Unique Entity ID.

Ensure your SAM.gov and Grants.gov registrations and passwords are current. It may take up to one month to register or reactivate your registration with SAM.gov and Grants.gov. NHPRC will not grant deadline extensions for lack of registration.

**Deadline:** May 03, 2023

### [Major Collaborative Archival Initiatives CFDA 89.003](#)

The National Historical Publications and Records Commission seeks projects that will significantly improve public discovery and use of major historical records collections.

All types of historical records are eligible, including documents, photographs, born-digital records, and analog audio and moving images.

Projects may focus on broad movements in U.S. history, such as law, politics, social reform, business, military, the arts, and other aspects of the national experience, or on the papers of an individual or figures in American history.

Collections that center the voices and document the history of Black, Indigenous, and People of Color are especially welcome.

With the 250th anniversary of the Declaration of Independence approaching, the Commission is also interested in projects that promote discovery and access to collections that explore the ideals behind our nation's founding and the continuous debate over those ideals to the present day.

Major Collaborative Archival Initiatives must be collaborations among multiple institutions that undertake either of these two eligible activities:

digitize and publish online historical records as a “virtual” collection around a common theme, organization, or important historical figure(s); or

create and test new tools and methods for the archival field to enhance public access, especially for born-digital records

Projects that actively engage the public in the work of the project will be more competitive.

If you have a project that is designed to process collections or digitize smaller collections, you should consult the Archival Projects program, which has different requirements and considers projects up to \$150,000

A successful Major Collaborative Archival Initiative proposal will:

demonstrate the value of the contents of the collections

outline a project that addresses best practices for the work

be appropriately staffed

propose a budget that accomplishes the project in a cost-effective manner, and

outline activities that bring researchers to the collections included in the project as well as the rest of the repository’s holdings.

#### Award Information

A grant is for one to three years. Awards will be between \$150,000 and \$350,000. The NHPRC expects to make up to five grants in this category for a total of up to \$1,000,000. Grants begin no earlier than January 1, 2024.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publicity, publications, and other products that result from its support.

#### Eligibility

Eligible applicants:

U.S. nonprofit organizations or institutions

U.S. colleges, universities, and other academic institutions

State or local government agencies

Federally-acknowledged or state-recognized Native American tribes or groups

Projects must be collaborations that include at least one of the eligible activities described for this program. Applications must include all required elements (SF424, Project Narrative, NHPRC Budget form, and Supplemental Materials). Applications that do not meet either of these criteria will not be considered.

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

#### Cost Sharing

The total costs of a project are shared between the NHPRC and the applicant organization.

Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant's cost sharing contribution if they are included in the budget.

The Commission provides no more than 50 percent of total project costs in the Major Collaborative Archival Initiatives program.

#### Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid Unique Entity Identifier (UEI) number in their application. Details on SAM registration and requesting a UEI number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF.

Ensure your SAM.gov and Grants.gov registrations and passwords are current. It may take up to one month to register or reactivate your registration with SAM.gov and Grants.gov. NHPRC will not grant deadline extensions for lack of registration.

**Deadline:** May 03, 2023

### [State Board Programming Grants CFDA 89.003](#)

The National Historical Publications and Records Commission seeks proposals that support the work of state historical records advisory boards through projects that engage the public, expand civic education, and promote understanding of the nation's history, democracy, and culture.

The Commission welcomes projects that commemorate the 250th anniversary of the Declaration of Independence and that use collections to examine the ideals behind the founding of the United States and

the continual interpretation and debate over these ideals over the past 250 years. Collections that center the voices and document the history of Black, Indigenous, and People of Color are especially encouraged.

The purpose of this grant program is to assist state boards to broaden preservation of, and increased online access to, historical records; develop and promote best practices; support activities that put the American people in touch with primary sources in their communities and online; promote the institutional advancement of organizations in underserved communities; and assist locally based repositories with training and tools to improve their stewardship abilities. The Commission will award grants to state historical records advisory boards to:

Operate state-based regrant programs that preserve historical records and make them available online

Carry out traveling archivist programs that provide onsite assistance and follow-up advice to repositories

Provide educational and outreach programs, workshops, and other activities that enhance citizen and student engagement with historical records

Offer scholarships, training opportunities, and other programs that support institutional advancement among records repositories, especially those in underserved communities

Collaborate on projects with other organizations to address common problems or shared opportunities within a state or among a consortium of state archives

Hold or participate in meetings and public forums on statewide or national archival issues.

State boards should review the NHPRC's strategic plan and consider its goals, objectives, and tactics when evaluating the board's current programming and considering new programs. Some tactics call on the NHPRC to partner with state boards to undertake particular activities, and other tactics relate to activities that are already common among state boards. Applications that outline programs that address the following tactics, and others that relate to the work of the state boards, will be more competitive:

Target institutional advancement for small and underserved local archives and repositories, including Historically Black Colleges and Universities, Hispanic-Serving Institutions, Minority-Serving Institutions, and tribal entities.

Develop outreach strategies to historical records collections that center the voices and perspectives of African Americans, Asian Americans, Hispanic Americans, and Native Americans.

Support opportunities for Black, Indigenous, and People of Color in professional development as archivists.

Offer workshops through a variety of sponsors to educate potential applicants about project design and the NHPRC application process.

Implement local and statewide projects that enhance public participation and engagement in the work of archives.

Projects utilizing traditional approaches with a proven record of success, as well as projects testing innovative approaches, are welcome. All applications should outline a process for

contacting institutions and individuals who participate in the board's programs (i.e., regrant and training scholarship recipients, workshop attendees, etc.) to determine how they benefited. Applications should also outline a process for evaluating the board's programs, determining their effectiveness, and proposing appropriate changes.

For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund" (<http://www.archives.gov/nhprc/apply/eligibility.html>). Applications that consist entirely of ineligible activities will not be considered.

State boards, as well as state archives, are encouraged to consider also applying under the Commission's Archival Collaboratives: Planning and Implementation Grants program. Funding from this program can be used to build on the current efforts of state archives and state boards to address the needs of small and underrepresented archives; utilize best practices, tools, and techniques; and implement management structures that will promote long-term sustainability and growth.

This program can provide the funding necessary to support the staffing, consultants, travel, and other expenses related to the development of archival collaboratives within the state or among several states. The development of collaboratives will provide a mechanism for repositories to work together on a continuing basis to expand on what they have learned through a regrant project, a workshop, or some other program opportunity. These collaboratives can also be used to expand the capabilities of institutions so that they are in a position to apply for a regrant or for funding directly from the NHPRC, either individually or as a collaborative.

#### Award Information

The Commission offers two levels of funding. A Level I grant is for one year and for up to \$12,000. A Level II grant is for one year and for up to \$40,000 or for two years and for up to \$80,000. Applicants may request either Level I or Level II funding, but not both. The Commission expects to make up to a total of 30 grants in this category for a total of up to \$800,000. Grants begin no earlier than January 1, 2024.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publicity, publications, and other products that result from its support.

#### Eligibility

These grants are awarded only to state historical records advisory boards in each state, or to the state agency responsible for the state board, ordinarily the state archives. Another state agency, or a non-profit organization, such as a foundation or university, acting on behalf of the designated state agency may apply. States also include the District of Columbia, the Commonwealth of Puerto Rico, and United States territories.

Projects must include at least one of the eligible activities described for the program. Applicants must include all required elements (SF 424, Narrative, NHPRC Budget Form, and Supplemental Materials). Applications that do not meet either of these criteria will not be considered.

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

## Cost Sharing

The total costs of a project are shared between the NHPRC and the applicant organization.

Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant's cost sharing contribution if they are included in the budget.

The Commission provides no more than 75 per cent of total project costs in the State Board Programming Grants category. For example, a request of \$40,000 in NHPRC grant funds means the applicant institution must provide at least \$13,334 in cost share.

## Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid Unique Entity Identifier (UEI) number in their application. Details on SAM registration and requesting a UEI number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF.

Ensure your SAM.gov and Grants.gov registrations and passwords are current. It may take up to one month to register or reactivate your registration with SAM.gov and Grants.gov. NHPRC will not grant deadline extensions for lack of registration.

**Deadline:** May 03, 2023

## [COLLABORATIVES-202305 Archives Collaboratives CFDA 89.003](#)

The National Historical Publications and Records Commission seeks Archives Collaboratives of three or more repositories working together to make their collections more readily available for public discovery and use. The grant program will fund Archives Collaboratives to share best practices, tools, and techniques; assess institutional strengths and opportunities; create replicable and sustainable digital platforms for historical collections; virtually unify records from multiple repositories; and promote management structures for long-term sustainability and growth.

The Commission welcomes collaborations that target institutional advancement for small and underserved local archives and repositories, especially those with collections that focus on the voices and perspectives of Black, Indigenous, and People of Color. Archives Collaboratives must consist of three or more organizations. They may:

be located in the same community, state, or geographic region

be “virtual” or online collaboratives

share affinities among the scope and subject matter of their collections

have similar organizational missions

serve similar types of user communities

#### Award Information

Applicants may apply for either a Planning Grant or an Implementation Grant. You need not have previously received an NHPRC Planning Grant in order to apply for an Implementation Grant.

Planning Grants are available to plan and develop a working collaborative of three or more partners designed to enhance the capacity of small and diverse organizations with historical records collections. Commitments to the Archives Collaborative should be secured from partners at the time that the application is submitted. Together, the partners would develop a mission, work plan, and timeline to carry out a shared project or develop a shared best practice, tool, or technique that will increase public access to historical records. Applicants are eligible to receive one-year grants up to \$25,000, shared by the consortia, to carry out the project. The NHPRC expects to make up to four grants in this category for up to \$100,000. Applications are due on May 3, 2023, with a start date for implementation of January 1, 2024.

Implementation Grants are available for Archives Collaboratives to put into practice the action items identified during their planning process, whether done independently or through a Planning Grant from the NHPRC. Projects that demonstrate commitments by member organizations to the Archives Collaborative, a work plan, and timeline are eligible to receive one- or two-year grants up to \$100,000, shared by the consortia, to carry out the project. The NHPRC expects to make up to four grants in this category for up to \$400,000. Applications are due on May 3, 2023, with a start date for implementation of January 1, 2024.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications and other products that result from its support.

#### Eligibility

Eligible applicants:

Nonprofit organizations or institutions

Colleges, universities, and other academic institutions

State or local government agencies

Federally-acknowledged or state-recognized Native American tribes or groups

For a comprehensive list of the Commission’s limitations on funding, please see “What we do and do not fund” (<http://www.archives.gov/nhprc/apply/eligibility.html>). Applications that consist entirely of ineligible activities will not be considered.

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

#### Cost Sharing

The total costs of a project are shared between the NHPRC and the applicant organization.

Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost sharing contribution. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant's cost sharing contribution.

The Commission provides no more than 75 percent of total project costs for the Planning and Implementation Grants. For example, a request of \$75,000 in NHPRC grant funds means the applicant institution must provide at least \$25,000 in cost share.

#### Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid Unique Entity Identifier (UEI) number in their application. Details on SAM registration and requesting a UEI number can be found at the System for Award Management website at [www.sam.gov](http://www.sam.gov).

Ensure your SAM.gov and Grants.gov registrations and passwords are current. It may take up to one month to register or reactivate your registration with SAM.gov and Grants.gov. NHPRC will not grant deadline extensions for lack of registration.

**Deadline:** May 03, 2023

### [Public Humanities Projects CFDA 45.164](#)

The National Endowment for the Humanities (NEH) Division of Public Programs is accepting applications for the Public Humanities Projects program. The purpose of this program is to support projects that bring the ideas and insights of the humanities to life for general audiences through in-person, hybrid, or virtual programming. Projects must engage humanities scholarship to analyze significant themes in disciplines such as history, literature, ethics, and art history.

**Deadline:** January 11, 2023

[Innovation Corps - National Innovation Network Teams Program \(I-Corps TM Teams\) – \(CFDA 47.041, 47.049, 47.050, 47.070, 47.074, 47.075, 47.076, 47.079, 47.083\)](#)

The National Science Foundation (NSF) seeks to develop and nurture a national innovation ecosystem that builds upon fundamental research to guide the output to facilitate the application of scientific discoveries closer to the development of technologies, products, and processes that benefit society. To maintain, strengthen and grow a national innovation ecosystem, NSF has established the Innovation Corps - National Innovation Network Teams Program (I-Corps Teams). The NSF I-Corps Teams Program's purpose is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate innovation that can attract subsequent third-party funding. The purpose of the I-Corps Teams program is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate the translation of knowledge derived from fundamental research into emerging products and services that can attract subsequent third-party funding. The outcomes of I-Corps Teams projects will be threefold: 1) a clear go/no go decision based on an assessment of the viability of the overall business model, 2) substantial first-hand evidence for or against a product-market fit, with a pithy definition of the customer segments and corresponding value propositions, and 3) a narrative of a compelling technology demonstration for potential partners. WEBINAR: A webinar will be held monthly to answer questions about this program. Details will be posted on the I-Corps website (see [http://www.nsf.gov/news/special\\_reports/i-corps/program.jsp](http://www.nsf.gov/news/special_reports/i-corps/program.jsp)) as they become available.

**Deadline:** Proposals accepted at anytime

[Cyberinfrastructure for Emerging Science and Engineering Research – \(CFDA 41.070\)](#)

The Cyberinfrastructure for Emerging Science and Engineering Research (CESER) program aims to catalyze new science and engineering discovery pathways through early-stage collaborative activities between disciplinary scientists and engineers as well as developers/implementers of innovative cyberinfrastructure (CI) capabilities, services, and approaches. Beginning in FY 2017, the CESER program replaced the Strategic Technologies for Cyberinfrastructure (STCI) program. CESER has retained STCI's focus on supporting innovation across the CI ecosystem with increased emphasis on addressing and enabling emerging areas of potentially transformative research, including NSF priority

areas, national strategic directions, and international collaborative research. CESER accepts proposals according to this Program Description year-round. From time to time, NSF may also issue Dear Colleague Letters according to CESER to signal special thematic interests and opportunities. CESER employs existing NSF funding mechanisms to accomplish the program's goals such as Early-concept Grants for Exploratory Research (EAGER) and Conference proposals. GUIDANCE TO POTENTIAL PROPOSERS Science/engineering-driven collaboration. A central feature of successful CESER projects is a strong, mutually-dependent collaborative team comprising expertise in the target science/engineering discipline(s) as well as expertise in CI development and implementation. Such a collaborative approach is critical to informing and guiding the development of requirements towards the eventual development and deployment of user-centric innovative CI that fosters new pathways to discovery. Proposals according to CESER should identify and describe the science and engineering goals and rationale, and explain and support the potential for transformative impacts on science/engineering research and broader impacts. Proposals for technical efforts that are not well-tied to identified science and engineering research challenges as well as utilization scenarios are unlikely to be supported. Exploratory and pilot activities. CESER supports early-stage exploratory efforts that may comprise analysis, community planning, and pilot-level activities that are preparatory or informative for eventual future development and deployment of science/engineering-driven CI. Proposals for full-scale technical efforts leading to development/deployment should be directed to other appropriate NSF programs. Integrative and accelerative approaches. Proposals have particularly welcomed that address identified common needs across multiple research disciplines; leverage and accelerate the impact of existing CI investments in resources and services in one or more application domains; aim to reduce barriers to broader adoption of CI-enabled science/engineering approaches, and integrate different aspects and elements of CI to achieve holistic solutions with transformative science/engineering impact. The requirement to contact NSF Cognizant Program Officers. CESER is an inherently collaborative science/engineering-CI program. Successful CESER projects typically involve co-funding from the relevant disciplinary research programs within NSF. Consequently, before submitting a proposal to CESER, proposers must first (1) discuss their ideas with a cognizant CESER Program Officer to ensure that CESER is the appropriate venue for the proposal and (2) discuss their ideas with the relevant NSF disciplinary science and engineering research program(s) to ensure there is adequate disciplinary interest in the proposed effort. Proposals that have been declined by CESER or any other NSF program may not be resubmitted to CESER without substantial revision. Proposals violating this restriction may be returned without review

**Deadline:** Proposals accepted anytime

### [High-Risk Research in Biological Anthropology and Archaeology – \(CFDA 47.075\)](#)

Anthropological research may be conducted under unusual circumstances, often in distant locations. As a result, the ability to conduct potentially important research may hinge on factors that are impossible to assess from a distance and some projects with potentially great payoffs may face difficulties in securing

funding. This program gives small awards that provide investigators with the opportunity to assess the feasibility of an anthropological research project. It is required that the proposed activity be high risk in nature. The information gathered may then be used as the basis for preparing a more fully developed research program. Investigators must contact the cognizant NSF Program Director before submitting an HRRBAA proposal. This will facilitate determining whether the proposed work is appropriate for HRRBAA support.

**Deadline:** Proposals accepted anytime

### [Broadening Participation in Engineering – \(CFDA 47.041\)](#)

NSF seeks to strengthen the future U.S. Engineering workforce by enabling the participation of all citizens through the support of research in the science of Broadening Participation in Engineering (BPE). The BPE program is dedicated to supporting the development of a diverse and well-prepared engineering workforce. BPE focuses on enhancing the diversity and inclusion of all underrepresented populations in engineering, including gender identity and expression, race, and ethnicity (African Americans/Blacks, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders), disability, LGBTQ+, first-generation college, and socio-economic status. BPE funds research to Understand and analyze the systemic barriers that prevent underrepresented groups from pursuing and succeeding in engineering, for example, understand the problem of insufficient interest and poorly sustained participation in engineering across underrepresented demographic groups; insignificant preparation and scarce opportunities for members of underrepresented groups to learn meaningful, relevant engineering content. Understand and analyze factors that enhance our ability to increase access to engineering by creating support systems and social networks that raise career awareness about different engineering pathways. Develop innovative methods and projects to significantly impact the recruitment and retention of engineering students from underrepresented groups. Activities must be supported by relevant data and have the capability to produce a model that can be replicated in other contexts. Develop innovative methods and projects to aggressively recruit and retain tenure track faculty from underrepresented groups. Design and transform a culture to make diversity, equity, and inclusion a priority in the engineering enterprise. BPE research activities will provide scientific evidence that engineering educators, employers, and policymakers need to make informed decisions to design effective programs that broaden the participation of persons from historically underrepresented groups in the engineering workforce. BPE is interested in funding research that spans K-12 to the workforce and offers the greatest return on investment. BPE funded research should produce outcomes that are scalable, sustainable, and applicable to various contexts, settings, and demographics within the engineering

enterprise. BPE is particularly interested in research that employs intersectional approaches in recognition that gender, race, and ethnicity do not exist in isolation from each other and other categories of social identity. BPE is equally interested in research activities that align with and provide meaningful connections to the NSF INCLUDES National Network. The overarching goal of NSF INCLUDES is to achieve a significant impact at scale in transforming STEM education and workforce development by educating a diverse, STEM-capable workforce that includes talented individuals from all sectors of the Nation & apos;s population. Collaborations are encouraged between BPE proposals and existing NSF INCLUDES projects, for example, the NSF INCLUDES Alliances and Coordination Hub, provided these collaborations to strengthen both the BPE and NSF INCLUDES projects. Before submitting a proposal to the BPE program, prospective Principal Investigators are strongly encouraged to speak to the program director to obtain guidance as to whether the proposed ideas are aligned with the strategic goals of the BPE program. Proposal Elements All BPE proposals should Be informed by the current theoretical and scientific literature as well as add to the extant knowledge base. Directly address how the work will broaden the participation of one or more underrepresented populations in engineering. Provide appropriate justification to support the selection of the targeted group(s), with specific and applicable objectives, and demonstrate applicable knowledge of the relevant literature on underrepresentation. Integrate a mechanism to assess and evaluate how well the project has achieved the stated objectives as part of the project management plan. Provide evidence of clear, measurable outcomes and consideration of how the strategy will advance knowledge beyond localized contexts. Incorporate a dissemination plan that goes beyond publishing research papers and presenting at conferences. PIs should think creatively about who needs to hear about the research for it to have an impact and develop a strategy to reach that audience. Describe how the outcomes have the potential to enhance the diversity and inclusion of underrepresented populations in engineering. The Project Summary must contain a list of 3-5 keywords. Place the keywords on a separate line at the end of the Overview section of the Project Summary.

**Deadline:** Proposals accepted anytime

### [Critical Aspects of Sustainability – \(CFDA 47.041, 47.049, 47.050\)](#)

Economic development and human progress have led to a proliferation of manufactured chemicals and materials made from limited resources found in nature (i.e., minerals and metals, petroleum-based products, and natural gas). Long-term sustainability requires consideration of the availability of specific natural resources, energy, and water usage. NSF continues to support efforts that seek to improve the efficiency with which natural resources are used to meet human needs for products and services. Sustainability research encompasses the design, manufacture, and use of efficient, effective, safe and more environmentally-benign products and processes; stimulates innovation across all sectors to design and discover new chemicals and materials, production processes, and product stewardship practices; and, increases performance and value while meeting the goals of protecting and enhancing human health and the environment. This program seeks to support basic research through core disciplinary programs aimed at improving the sustainability of resources for future generations while maintaining or improving current products to offer technologically-advanced, economically competitive, environmentally-benign and useful

materials to a global society. To address these challenges, the program aims to identify opportunities for innovation in a wide range of contributing disciplines as well as integrative activities. This program encourages the development of new experimental and theoretical/modeling approaches that will aid in both reductionist and whole-systems approaches. This program welcomes proposals in any area of research supported through the participating divisions that address the topics outlined below. The selected topics are of particular interest to core disciplinary programs in the participating divisions and do not include all funding opportunities and priorities in the area of sustainability at NSF. Proposals are submitted to the relevant core Programs indicated below in the participating Divisions, and all questions regarding proposals should be addressed by the cognizant Program Officers to which submission is contemplated. Proposals should be submitted with the "CAS:" prefix in the title. The Division of Chemistry (CHE/MPS) welcomes proposals to its Disciplinary Research Programs, including Chemical Catalysis (CAT), Chemical Measurement and Imaging (CMI), Chemical Structure, Dynamics and Mechanisms-A (CSDM-A), Chemical Structure Dynamics and Mechanisms-B (CSDM-B), Chemical Synthesis (SYN), Chemical Theory, Models and Computational Methods (CTMC), Chemistry of Life Processes (CLP), Environmental Chemical Sciences (ECS), and Macromolecular, Supramolecular and Nanochemistry (MSN). All proposals must be on the chemical aspects of sustainability. The design, preparation and reactivity studies associated with new catalysts and catalytic processes that employ earth-abundant and benign elements and raw materials; advanced catalytic methods for the reduction of dinitrogen to ammonia and water splitting are also invited; Grant Opportunities for Academic Liaison with Industry (GOALI) proposals, where such advances are connected directly to industrial considerations, are also encouraged. Understanding the molecular mechanisms of the two-way communication between the environment and living systems as well as between organisms situated in changing environments; design and test methods that could confer resilience and/or could foster adaptability of living systems subject to changing environments. Innovative measurement and imaging approaches that can improve the efficiency of manufacturing processes, including advances in separation science targeting reduced energy consumption or generation of less waste. Fundamental studies related to sustainable energy such as chromophores based on earth-abundant elements, advanced electrolytes for battery, water splitting, and carbon dioxide conversions. Understanding the environmental chemical degradation of contaminants, including emerging contaminants. Transformative approaches to the efficient and inexpensive synthesis of polymers or nanostructures using renewable feedstocks or earth-abundant elements; and innovative research that enhances the understanding of efficient use and recycling of polymers and critical elements or the conversion of energy from renewable sources. The development of new synthetic methods using earth-abundant and inexpensive chemicals, fundamental studies that improve our understanding of rare earth elements; the conversion of non-petroleum-based resources into useful building blocks; and new environmentally-friendly chemical syntheses that improve on current practice by requiring less energy, freshwater, reagents, and/or organic solvents. Other CHE programs also welcome proposals on this general topic, as long as the proposals fit the scope of the program. All questions regarding proposals to CHE should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see CHE Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CHE>). The Division of Materials Research (DMR/MPS) welcomes proposals to its Topical Materials Research Programs, including Biomaterials (BMAT), Ceramics (CER), Condensed Matter and Materials Theory (CMMT), Condensed Matter Physics (CMP), Electronic and Photonic Materials (EPM), Metals and Metallic Nanostructures (MMN), Polymers (POL), and Solid State and Materials Chemistry (SSMC). All proposals must be on materials aspects of

sustainability and focused on fundamental materials-research approaches. CER, CMMT, EPM, MMN, and SSMC will consider proposals on all materials aspects of sustainability. BMAT encourages proposals that take advantage of synthetic biology or other innovative and sustainable approaches (e.g., renewable, recyclable, environmentally benign). CMP encourages proposals on replacing rare-earth elements in magnetic materials with more abundant and accessible elements; also, proposals exploring materials alternatives to oxides for nuclear reactor fuel, aiming at improved stability and properties (e.g., thermal conductivity) and decreased environmental impact. POL welcomes proposals that address plastics waste accumulation through innovative materials approaches and environmentally benign polymeric materials having properties exceeding those of current commercial plastics. All proposals must be submitted through one of the active solicitations of the DMR Topical Materials Research Programs (currently NSF 17-580, 18-500, and 19-515) and must follow the deadlines, instructions, and limitations of these solicitations. Proposals that are not following these guidelines or that fall outside the scope of DMR and its Topical Materials Research Programs will be returned without review. All questions regarding proposals to DMR should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see DMR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=DMR>). The Chemical, Bioengineering, Environmental and Transport Systems Division (CBET/ENG) has several core programs that review proposals on research topics related to sustainability, including Molecular Separations (MoS), Biosensing, Environmental Sustainability (EnvS), Biological and Environmental Interactions of Nanoscale Materials (BioNano), Combustion and Fire Systems (CFS), and Particulate and Multiphase Processes (PMP). Within these programs, as noted, the following topics are of particular interest: Understanding the fundamental combustion properties of sustainable aviation fuels under engine relevant conditions. (CFS) Fundamental studies leading to effective methods of processing multiphase fluid systems that minimize waste, avoid contamination, enhance the purity, or lead to novel materials that benefit efficient energy utilization. (PMP) The development of innovative separation mechanisms, mass separating agents, or engineering processes that aim to substantially reduce energy and/or material consumption in the chemical process industries. (MoS) Fundamental mechanistic investigations for the development, sustainable production and use of nanomaterials, nanoparticles, nanodevices, and nanosystems. (BioNano) Biosensing systems with inherent capabilities of artificial intelligence, machine learning, and decision making for applications in real-time monitoring of environmental and living systems and in evaluating environmentally benign chemicals and materials. (Biosensing) Industrial Ecology: Topics of interest in Industrial Ecology include advancements in modeling such as life cycle assessment, materials flow analysis, input/output economic models, and novel metrics for measuring sustainable systems. Innovations in industrial ecology are encouraged. (EnvS) Green Engineering: Research is encouraged to advance the sustainability of manufacturing processes, green buildings, and infrastructure. Improvements in distribution and collection systems that will advance smart growth strategies and ameliorate effects of growth are supported. Innovations in the management of stormwater, recycling and reuse of drinking water, and other green engineering techniques to support sustainability may also be fruitful areas for research. (EnvS) Ecological Engineering: Topics should focus on the engineering aspects of restoring ecological function to natural systems. Engineering research in the enhancement of natural capital to foster sustainable development is encouraged. (EnvS) Earth Systems Engineering: Earth systems engineering considers aspects of large-scale engineering research that involve mitigation of greenhouse gas emissions, adaptation to climate change, and other global-scale concerns. (EnvS) All questions regarding proposals to CBET should be addressed to the cognizant Program Officers for the participating

Program to which submission is contemplated (see CBET Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CBET>). For the Division of Civil, Mechanical, and Manufacturing Innovation (CMMI/ENG), proposals addressing sustainable materials processing are welcome. Of interest are manufacturing processes with reduced use of toxic components, such as solvents, carbon emissions, and pollutants; processes under ambient conditions, as opposed to extreme temperatures, pressures or other harsh conditions; and increased conservation of natural resources, such as water, raw material, and energy. Proposals to CMMI must be submitted to the Advanced Manufacturing (AM) Program and align with the scope of the program. All questions regarding proposals to CMMI should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CMMI Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CMMI>). The Division of Earth Sciences (EAR/GEO) welcomes fundamental and transformational geosciences projects addressing the distribution of Critical Minerals and Materials in the Earth. The following programs in the division support research on this topic: Petrology and Geochemistry (CH), Geobiology and Low-Temperature Geochemistry (GG), and Frontier Research in Earth Sciences (FRES). Topics of particular interest include fundamental studies of the geochemistry of Critical Earth Minerals and Materials (CMM), such as: Identifying new sources of critical minerals on the Earth's surface; Constraining their pathways in the natural environment involving concentration by Earth and geobiological processes, and Developing methods for sustainable exploration of these CMMs. Studies can be based on laboratory, field, or modeling efforts, and should have a strong emphasis on training the next generation of geoscientists and educating the public on the importance of CMM. Proposals must be submitted through one of the active solicitations of the three programs and must follow the deadlines and guidelines of these solicitations. All questions regarding proposals to EAR should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see EAR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=EAR>).

**Deadline:** Proposals accepted anytime

## **Small Business Administration**

# U.S. Department of Agriculture

## [Landscape Scale Restoration Grant Program 2023 Tribes](#)

The purpose of the Landscape Scale Restoration competitive grant program is to encourage collaborative, science-based restoration of priority rural forest landscapes. This program supports high impact projects that lead to measurable outcomes on the landscape, leverage public and private resources, and further priorities identified in science-based restoration strategies.

**Deadline:** December 15, 2022

## [BIL State Capacity Program for Invasive Species \(Non-Federal Lands\)](#) [CFDA10.328](#)

States need to build and maintain capacity around invasive species work to accomplish the Bipartisan Infrastructure Law's (BIL) broader ecosystem restoration objective and the invasive species provision. For example, funds may be used to conduct forest health management, including detection surveys, monitoring, evaluation, prevention, and suppression of insect, disease, and invasive plant outbreaks on non-Federal lands to strategically sustain the health of forest ecosystems or tree species with high ecological value.

**Deadline:** December 16, 2022

## [2022 Wood Products Infrastructure Assistance Program CFDA 10.725](#)

The USDA Forest Service is announcing the availability of up to \$12.5 million in funding to provide financial assistance to facilities that purchase and process byproducts from ecosystem restoration projects from federal or Indian lands in areas at risk of unnaturally severe wildfire or insect and disease infestation. The intent is to substantially decrease the cost of conducting restoration projects involving vegetation removal on federal or Indian lands. These byproducts could include the trees and woody biomass harvested through timber sales, thinning, hazardous fuels reduction treatments, or other restoration management activities.

Funding priority will be to provide financial assistance to an entity seeking to establish, reopen, retrofit, expand, or improve a sawmill or other wood-processing facility that will utilize the byproducts from

projects on federal land of Indian land that have been identified as at risk for fire, insect, or disease and a high priority for ecological restoration. To be eligible for funding, the project facility must be in close proximity to federal or Indian lands and procure raw materials from federal or Indian lands. Successful applicants will address how financial support will enable increased utilization of byproducts from ecosystem restoration projects on federal or Indian lands that are in close proximity to a wood products processing facility or bioenergy facility and how this assistance will help reduce restoration costs.

The grants and agreements awarded under this announcement will support the Infrastructure Investment and Jobs Act Pub. L. 117-58 (11/15/2021), Sec. 40804(b)3.

**Deadline:** December 20, 2022

### [Assistive Technology Program for Farmers with Disabilities CFDA 10.500](#)

The AgrAbility program increases the likelihood that farmers, ranchers, farm workers and farm family members with disabilities will experience success in agricultural production. The program supports projects between State Cooperative Extension System and private, non-profit disability organizations who work in partnership to provide agricultural education and assistance directed at accommodating disability in farm operations for individuals with disabilities, and their families, who engage in farming and farm-related occupations.

**Deadline:** January 19, 2023

### [Food Safety Outreach Competitive Grants Program CFDA 10.328](#)

The Food Safety Outreach Program will complement and expand the national infrastructure of the National Food Safety Training, Education, Extension, Outreach, and Technical Assistance Competitive Grants Program. The Food Safety Outreach Program will build upon that national infrastructure, with a sustained focus on delivery of customized training to members of the target audiences. Awardees will develop and implement food safety training, education, extension, outreach and technical assistance projects that address the needs of owners and operators of small to mid-sized farms, beginning farmers, socially-disadvantaged farmers, small processors, or small fresh fruit and vegetable merchant wholesalers. Grant applications will be solicited directly from those in local communities to include those from community-based organizations, non-governmental organizations, food hubs, farm cooperatives, extension, and other local groups.

**Deadline:** February 16, 2023

### [Methyl Bromide Transition Program CFDA 10.303](#)

The Methyl Bromide Transition Program (MBT) addresses the immediate needs and the costs of transition that have resulted from the phase-out of the pesticide methyl bromide. Methyl bromide has been a pest and disease control tactic critical to pest management systems for decades for soilborne and postharvest pests. The program focuses on integrated commercial-scale research on methyl bromide alternatives and associated extension activity that will foster the adoption of these solutions. Projects should cover a broad range of new methodologies, technologies, systems, and strategies for controlling economically important pests for which methyl bromide has been the only effective pest control option. Research projects must address commodities with critical issues and include a focused economic analysis of the cost of implementing the transition on a commercial scale.

**Deadline:** February 13, 2022

### [Crop Protection and Pest Management Competitive Grants Program CFDA 10.329](#)

The purpose of the Crop Protection and Pest Management program is to address high priority issues related to pests and their management using IPM approaches at the state, regional and national levels. The CPPM program supports projects that will ensure food security and respond effectively to other major societal pest management challenges with comprehensive IPM approaches that are economically viable, ecologically prudent, and safe for human health. The CPPM program addresses IPM challenges for emerging issues and existing priority pest concerns that can be addressed more effectively with new and emerging technologies. The outcomes of the CPPM program are effective, affordable, and environmentally sound IPM practices and strategies needed to maintain agricultural productivity and healthy communities.

**Deadline:** February 13, 2023

### [2022 Temporary Bridge Funding Opportunity CFDA 10.721](#)

The USDA Forest Service is announcing the availability of up to \$8 million in funding to support the establishment of temporary bridge rental programs for portable skidder bridges, bridge mats, or other temporary water crossing structures, to minimize stream bed disturbance on non-Federal land and Federal land.

**Deadline:** December 20, 2022

## **U.S. Department of Commerce**

### [Climate Program Office FY 2023](#)

Climate variability and change present society with significant economic, health, safety, and security challenges. As part of the National Oceanic and Atmospheric Administration (NOAA) climate portfolio within the Office of Oceanic and Atmospheric Research (OAR), the Climate Program Office (CPO) addresses these climate challenges by managing competitive research programs through which high-

priority climate science, assessments, decision-support research, outreach, education, and capacity-building activities are funded to advance our understanding of the Earth's climate system, and to foster the application and use of this knowledge to improve the resilience of our Nation and its partners. Through this announcement, CPO is seeking applications for eight individual competitions in FY23. Several of these competitions are relevant to four high-priority climate risk areas CPO is focusing on to improve science understanding and/or capabilities that result in user-driven outcomes: Coastal Inundation, Marine Ecosystems, Water Resources, and Extreme Heat. More information about CPO's Climate Risk Areas Initiative can be found at <https://cpo.noaa.gov/News/ArtMID/7875/ArticleID/1945/NOAA%E2%80%99s-Climate-Program-Office-launches-Climate-Risk-Areas-Initiative>.

NOAA, OAR, and CPO require applicants and awardees to support the principles of diversity and inclusion when writing their proposals and performing their work; indeed, applicants will be evaluated, in part, on how well principles of diversity and inclusion are addressed. Diversity is defined as a collection of individual attributes that together help organizations achieve objectives. Inclusion is defined as a culture that connects each employee to the organization. Promoting diversity and inclusion improves creativity, productivity, and the vitality of the climate research community in which CPO engages.

**Deadline:** November 21, 2022

## [2023 International Marine Turtle Management and Conservation Program CFDA 11.545](#)

The National Marine Fisheries Service (NOAA/NMFS) Pacific Islands Regional Office (hereinafter, "PIRO") is soliciting competitive applications for the FY2023 International Marine Turtle Management and Conservation Program. This program supports conservation, protection, or management actions supporting recovery of Endangered Species Act (ESA) listed sea turtle species occurring within the Pacific Islands Region (PIR) or of aggregations (or species) with international linkages to the PIR. Such internationally-shared species may migrate through, forage within, or be impacted by PIR federally managed activities and are relevant to NOAA/NMFS management and recovery obligations.

For the FY2023 funding competition, we are soliciting internationally based projects to 1) monitor, protect and conserve western Pacific leatherback sea turtles occurring in Indonesia and Solomon Islands, and 2)

sea turtle management and conservation projects within Southeast Asia (Vietnam, Philippines, or Indonesia) and Japan with focus on fishery bycatch, nesting beach monitoring, poaching reduction, and/or the illegal sea turtle wildlife trade.

**Deadline:** January 21, 2023

### Fiscal Year 2023 NOAA Gulf of Mexico Bay Watershed Education and Training (B-WET) Program 11.008

The National Marine Fisheries Service Southeast Regional Office (Southeast Regional Office) is seeking proposals under the Gulf of Mexico Bay Watershed Education and Training (Gulf of Mexico B-WET) Program: <https://www.fisheries.noaa.gov/grant/noaa-gulf-mexico-bay-watershed-education-and-training-gulf-b-wet-program>.

The B-WET program is an environmental education program that promotes place-based experiential learning for K–12 students and related professional development for teachers. B-WET fosters the growth of new, innovative programs and encourages capacity-building and environmental education partnerships.

The primary delivery of B-WET is through competitive grants that promote Meaningful Watershed Educational Experiences (MWEEs). The MWEE is a learner-centered framework that focuses on investigations into local environmental issues and leads to informed action.

MWEEs are composed of multiple components that include learning both outdoors and, in the classroom, and are designed to increase the environmental literacy by actively engaging students in building knowledge and meaning through hands-on experiences. In these experiences, the core ideas of multiple disciplines are applied to make sense of the relationships between the natural world and society. MWEEs help connect students with their local environment and equip them to make decisions and take actions that contribute to stronger, sustainable, and equitable communities.

The FY22 Gulf of Mexico B-WET funding announcement focuses on the following priority areas: 1) Professional Development for Teachers related to Meaningful Watershed Educational Experiences, 2) Exemplary Programs combining Teacher Professional Development with Meaningful Watershed Educational Experiences for their students, 3) Systemic Meaningful Watershed Educational Experience Implementation, and 4) Capacity Building for Expanded Statewide K-12 Environmental Literacy Initiatives.

Again, this year, the Gulf of Mexico B-WET funding announcement emphasizes our strong commitment to expanding the participation of marginalized communities in watershed education and is interested in projects that partner specifically with organizations and institutions that serve marginalized groups, particularly minority communities. It continues to recognize the significant impact COVID-19 has had on

the ability of environmental education providers to engage with schools and is committed to responding to the immediate needs of this pandemic and supporting critical institutions that provide meaningful experiences for youth at all levels. And it suggests that the MWEE framework can contribute to one of the most pressing economic, social, and environmental issues of today - climate change - by directly fostering climate knowledge and competencies to contribute to climate solutions.

**Deadline:** January 27, 2023

### National Estuarine Research Reserve System (NERRS) Land Acquisition and Construction Program CFDA 11.420

The National Estuarine Research Reserve System (NERRS) consists of estuarine areas of the United States and its territories designated and managed for research and educational purposes (Reserve). Each Reserve within the NERRS is chosen to represent a different bio-geographic region and to include a variety of ecosystem types in accordance with the classification scheme of the national program as specified in 15 C.F.R. Part 921. By funding Reserve lead agencies and universities to conduct land acquisition and construction projects that support the NERRS mission, NOAA will strengthen protection of key land and water areas, enhance long-term protection of Reserve areas for research and education, and provide for facility and exhibit construction that meet the highest sustainable design standards possible.

NOAA anticipates approximately \$4.5 million in Fiscal Year 2023 will be available to designated lead Reserve agencies or universities in coastal states for approximately 5-20 construction and acquisition projects and expected to range from approximately \$20,000 to \$1,500,000 per project and with project periods typically covering 12-36 months, depending on the availability of funds.

The NOAA Office for Coastal Management (OCM) encourages applicants and awardees to support the principles of diversity and inclusion when writing their proposals and performing their work. Diversity is defined as a collection of individual attributes that together help organizations achieve objectives. Inclusion is defined as a culture that connects each employee to the organization. Promoting diversity and inclusion improves creativity, productivity, and the vitality of the climate research community in which OCM engages.

**Deadline:** February 10, 2023

## **U.S. Department of Defense**

## [AFPMB DWFP FY 23 Announcement CFDA 12.355](#)

The U. S. Army Contracting Command, Aberdeen Proving Ground Edgewood Contracting Division, Fort Detrick, invites applications for funding opportunities for the Fiscal Year 2023 Deployed War Fighter Protection (DWFP) Research Program, renewable for up to 3 years, administered by the Armed Forces Pest Management Board (AFPMB).

The AFPMB is soliciting pre-proposals for original, innovative research designed to develop new interventions for protection of deployed military personnel from medically relevant pests, including arthropod vectors of disease pathogens. Diseases of significant concern include Lyme disease, malaria, dengue virus and other arboviruses. The program supports development of: (1) new toxicants or the adaptation of existing toxicants to medically relevant pests; (2) new insecticide application techniques; (3) new personal protection tools that prevent human-vector contact; (4) new decision support tools and (5) surveillance tools that focus on improving vector control outcomes. The research should support the U. S. Department of Defense (DoD) “Advanced Technology Development” of new insecticides, improved formulations of existing insecticides for vector control, new technology or enhanced modalities of personal protection from biting arthropods, or improved efficacy and sustainability of equipment for application of pesticides in a military operational environment. For more information about “Advanced Technology Development”, refer to the DoD Research, Development, Testing and Evaluation (RDT&E) Budget Activity 3 in the DoD Financial Management Regulation Volume 2B, Chapter 5 (<https://comptroller.defense.gov/Portals/45/documents/fmr/archive/02barch/CHAPTER05.PDF>).

The research must be primarily applicable to the military, and products should be transferable to civilian uses. Research should be product-oriented, consisting of advanced research related to a particular technology or new capability, field evaluation of products for military uses, or research directed towards the development of an existing prototype product for commercialization. Research should include the semi-field or field evaluation of prototype products. Research should not include testing and evaluation of commercial products unless they are used in comparison with prototype products. End use products described in the proposed research should be destined for registration by the U. S. Environmental Protection Agency, as appropriate.

Up to \$4,500,000 may be awarded in FY23, subject to the availability of funds. The total proposed cost cannot exceed \$300,000 per year for up to 3 years (maximum \$900,000 for each project), inclusive of all direct and indirect costs. Proposals will be selected on the basis of peer-reviewed scientific merit and programmatic relevance determined by a technical committee representing the Armed Forces Pest Management Board and DoD Service components.

Pre-proposals will be accepted from investigators who are employed by or affiliated with an eligible institution. Eligible institutions include for-profit, non-profit, public, and private organizations. Federal Agencies may also respond to this request; however, federal submissions will be processed in accordance with applicable regulations.

The pre-proposal package is available at:

[https://www.acq.osd.mil/eie/afpmb/docs/dwfp/preproposal\\_form.docx](https://www.acq.osd.mil/eie/afpmb/docs/dwfp/preproposal_form.docx).

Applicants should follow the instructions in the pre-proposal form to complete both the form and a separate project summary (quad chart) slide. The pre-proposal form and quad chart are submitted together as 2 PDF files. Submissions are due to the AFPMB Webmaster no later than December 8, 2022 (11:59pm EDT). Late submissions will not be considered.

The estimated timeline for the FY23 DWFP Program is as follows:

- December 8, 2022: Deadline for pre-proposal submissions
- Approx. January 12, 2023: Invitation to submit full proposals
- Approx. March 8, 2023: Deadline for full proposal submissions
- Approx. April 25, 2023: Notification of full proposal selections
- Approx. August 2023: Awards funded

### Young Faculty Award (YFA) CFDA 12.910

The Defense Advanced Research Projects Agency (DARPA) Young Faculty Award (YFA) program aims to identify and engage rising stars in junior research positions in academia and equivalent positions at non-profit research institutions, particularly those without prior DARPA funding, to expose them to Department of Defense (DoD) needs and DARPA's mission to create and prevent technological surprise. The YFA program will provide high-impact funding to elite researchers early in their careers to develop innovative new research that enables transformative DoD capabilities. Ultimately, the YFA program is developing the next generations of researchers focused on national security issues.

Deadline: February 07, 2023

### Information Innovation Office (I2O) Office-wide CFDA 12.910

This Broad Agency Announcement (BAA) seeks revolutionary research ideas for topics not being addressed by ongoing I2O programs or other published solicitations. Potential proposers are highly encouraged to review the current I2O programs (<http://www.darpa.mil/about-us/offices/i2o>) and solicitations (<http://www.darpa.mil/work-with-us/opportunities>) to avoid proposing efforts that duplicate existing activities or that are responsive to other published I2O solicitations.

**Deadline:** October 27, 2023

## Carderock Research Projects CFDA 12.300

Naval Surface Warfare Center Carderock Division is interested in receiving proposals for the following Basic Research Opportunity Areas:

### 1. College - University Student and Faculty Research Projects

NSWCCD is interested in receiving proposals directed toward student or faculty general research projects where the focus is upon technologies and capabilities outlined in the Doing Business with Carderock website: <https://www.navsea.navy.mil/Home/Warfare-Centers/NSWC-Carderock/Business/> under the Partnering with Carderock tab. NSWCCD is especially, but not solely, interested in research projects dealing with Machine Learning, Data Analytics & Modeling, Data Visualizations, Cyber Security, Complex Systems & Organizational Dynamics, Operations Analysis and Military Utility/Impact Analysis, Knowledge Management & Retention, and Web Presence with Tool Implementation strategies (both for Business Operations and Technical applications). With the latest advances in machine learning and artificial intelligence, NSWCCD desires to begin to see how these advances may impact our activities, especially in relation to laboratory & range data acquisition & transmission, upgrades to our business operations & efficiency, and enhancing our internal communications capabilities by improving efficiency, as well as user experience. The goal of these research projects is to develop and implement innovative tools that will revolutionize our operations thus making us a more secure, efficient, and preferred supplier to our stakeholders.

### 2. College - University Student Capstone and Senior Research Projects

NSWCCD seeks proposals for novel research projects whose intent is the development of future naval scientists and engineers. NSWCCD is especially interested in technical projects dealing with Hydrodynamics (specifically the interaction of fluid flow over rough or bio-fouled surfaces), Unmanned Vehicle Dynamics & Control, tool development for Automated Ship Design, Extreme Environment Materials Development (e.g. Ultra-high Temperature Erosion & Corrosion), Automated & Advanced Materials Processing and Characterization (including Modeling & Simulation), and Structural Health Monitoring. Other technology areas will be evaluated on a case-by-case basis. More specific details of various areas of interest can be found at the Doing Business with Carderock website: <https://www.navsea.navy.mil/Home/Warfare-Centers/NSWC-Carderock/Business/> under the Partnering with Carderock tab. The primary goal of these projects is to develop student interests in naval engineering with an eye toward future employment.

**Deadline:** November 14, 2023

## Strategic Technology Office (STO) Office-wide CFDA 12.910

DARPA's Strategic Technology Office (STO) is seeking innovative ideas and disruptive technologies that provide the U.S. military and national security leaders trusted, disruptive capabilities to win in all physical domains (Air, Space, Sea, and Land) and across the spectrum of competition, from deterrence to high-end peer combat. STO seeks to carry out DARPA's mission of creating high-risk, high-reward "breakthrough" technologies with a focus on ambitious, difficult, and revolutionary projects that achieve significant changes or fundamental shifts in technical capabilities and give our warfighters new ways to fight. STO will develop and deliver solutions at a speed and scale to be operationally relevant in a relatively short time, just a few years, from the initiation of the project to proof of concept.

**Deadline:** April 30, 2024

## DEVCOM ARMY RESEARCH LABORATORY BROAD AGENCY ANNOUNCEMENT FOR FOUNDATIONAL RESEARCH CFDA 12.431

The purpose of this combined Broad Agency Announcement (BAA) under Federal Acquisition Regulation (FAR) Part 35 and Funding Opportunity Announcement (FOA) under 2 Code of Federal Regulations (CFR) 200.204 (henceforth referred to as "BAA") is to solicit research proposals for submission to the U.S. Army Combat Capabilities Development Command (DEVCOM) Army Research Laboratory (ARL) for funding consideration.

Prior to this announcement, ARL announced two separate BAAs to support the mission: 1) W911NF-17-S-0002 titled "Army Research Laboratory Army Research Office Broad Agency Announcement for Fundamental Research"; and 2) W911NF-17-S-0003 titled "Army Research Laboratory Broad Agency Announcement for Basic and Applied Scientific Research". This announcement succeeds BAA W911NF-17-S-0002 and BAA W911NF-17-S-0003 combining the opportunities into a single announcement.

ARL's mission as the Army's foundational research laboratory is to Operationalize Science to ensure overmatch in any future conflict. ARL's foundational research mission spans basic research (budget activity 6.1) and applied research (budget activity 6.2) as defined by 32 CFR 22.105 but may include advanced technology development (budget activity 6.3) and advanced component development and prototypes (budget activity 6.4) when opportunities arise to directly or indirectly help achieve ARL's mission. ARL partners across the national security enterprise to deliver fundamentally advantageous change that is rooted in the creation and exploitation of scientific knowledge.

This publication constitutes a BAA for awards as contemplated in FAR 6.102(d)(2) and 35.016 as well as a merit-based, competitive procedure in accordance with the Department of Defense Grant and Agreement Regulations (DoDGARS) at 32 CFR 22.315(a) and the Office of the Under Secretary of Defense for Acquisition and Sustainment Other Transaction Guide version 1.0 dated November, 2018.

This BAA document, and the online list of research topics found on the ARL BAA topics website at <https://www.arl.army.mil/opportunities/arl-baa/>, sets forth ARL's research topics of interest for whitepapers and proposals. This BAA is issued under FAR 6.102(d)(2), which provides for the competitive selection of basic and applied research proposals, and 10 U.S.C. 4001, 10 U.S.C. 4021, and 10 U.S.C. 4022, which provide the authorities for issuing awards under this announcement for basic and applied research. The definitions of basic and applied research may be found at 32 CFR 22.105.

Proposals submitted in response to this BAA and selected for award are considered to be the result of full and open competition and in full compliance with the provision of Public Law 98-369, "The Competition in Contracting Act of 1984" and subsequent amendments.

**Deadline:** November 20, 2027

## Department of Education

### [Office of Elementary and Secondary Education \(OESE\): Charter Schools Program \(CSP\): Grants to Charter Management Organizations for the Replication and Expansion of High-Quality Charter Schools \(CMO Grants\) CFDA 84.282M](#)

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Revised Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on December 27, 2021.

Purpose of Program: The CSP CMO Grant program (ALN 84.282M) is authorized under Title IV, Part C of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act (ESEA) (20 U.S.C. 7221-7221j). Through CSP CMO Grants, the Department awards grants to charter management organizations (CMOs)[1] on a competitive basis to enable them to replicate or expand one or more high-quality charter schools. Grant funds may be used to significantly increase the enrollment of, or add one or more grades to, an existing high-quality charter school or to open one or more new charter schools or new campuses of a high-quality charter school based on the educational model of an existing high-quality charter school. Charter schools that receive financial assistance through CSP CMO Grants

provide programs of elementary or secondary education, or both, and may also serve students in early childhood education programs or postsecondary students, consistent with the terms of their charter.

**Deadline:** January 03 ,2023

[Office of Elementary and Secondary Education \(OESE\): Safe & Supportive Schools: Mental Health Service Professional \(MHSP\) Demonstration Grant Program, CFDA 84.184](#)

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Revised Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on December 27, 2021.

Purpose of Program: The MHSP Program provides competitive grants to support and demonstrate innovative partnerships to train school-based mental health services providers (as defined in section 4102 of the Elementary and Secondary Education Act of 1965, as amended (ESEA)) (services providers) for employment in schools and local educational agencies (LEAs). The goal of this program is to increase the number and diversity of high-quality, trained providers available to address the shortages of mental health service professionals in schools served by high-need LEAs (as defined in this notice). The partnerships must include (1) one or more high-need LEAs or a State educational agency (SEA) on behalf of one or more high-need LEAs and (2) one or more eligible institutions of higher education (eligible IHE) (as defined in this notice).

Partnerships must provide opportunities to place postsecondary education graduate students in school-based mental health fields into high-need schools (as defined in this notice) served by the participating

high-need LEAs to complete required field work, credit hours, internships, or related training, as applicable, for the degree or credential program of each student. In addition to the placement of graduate students, grantees may also develop mental health career pathways as early as secondary school, through career and technical education opportunities, or through paraprofessional support degree programs at local community or technical colleges.

**Deadline:** January 27, 2023

[Office of Postsecondary Education \(OPE\): Higher Education Programs \(HEP\): Promoting Postbaccalaureate Opportunities for Hispanic Americans \(PPOHA\) Program, Assistance Listing Number \(ALN\) 84.031M, CFDA 84.031](#)[Office of Elementary & Secondary Education: Overview Information: Race to the Top Fund \(ARRA\) CFDA 84.395](#)

The Race to the Top is a \$4.35 billion competitive grant program designed to encourage and reward States that are creating the conditions for education innovation and reform and implementing ambitious plans in four core education reform areas: • Adopting internationally-benchmarked standards and assessments that prepare students for success in college and the workplace; • Recruiting, developing, retaining, and rewarding effective teachers and principals; • Building data systems that measure student success and inform teachers and principals how they can improve their practices; and • Turning around lowest-performing schools The overarching goals are to: • Drive substantial gains in student achievement • Improve high school graduation rates and prepare students for success in college and careers • Close achievement gaps The Department plans to make Race to the Top grants in two phases. States that are ready to apply may do so in Phase 1, which will open in late 2009. States that need more time may apply in Phase 2, which will open in spring 2010. States that apply in Phase 1 but are not awarded grants may reapply for funding in Phase 2, together with States that are applying for the first time in Phase 2. Phase 1 grantees may not apply for additional funding in Phase 2. We will announce specific deadlines for both Phase 1 and Phase 2 in subsequent notice(s) inviting applications for funds under this program.

**Deadline:** Rolling

Office of Elementary and Secondary Education (OESE): Project to Support  
America’s Families and Educators (Project SAFE) Grant Program Assistance  
Listing Number (ALN) 84.184N

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities, and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at [www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf](http://www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf)

The Project SAFE grant program is intended to improve students’ safety and well-being by providing resources to local educational agencies (LEAs) that adopt and implement strategies to prevent the spread of the Novel Coronavirus Disease 2019 (COVID-19) consistent with guidance from the Centers for Disease Control and Prevention (CDC) and that are financially penalized for doing so by their State educational agency (SEA) or other State entity.

Purpose of Program: The Project SAFE grant program provides grants to eligible LEAs to improve student safety and well-being by advancing strategies consistent with CDC guidance to reduce transmission of COVID-19 in schools.

To submit an application, please email the completed and signed application, along with required attachments, to [ProjectSAFE@ed.gov](mailto:ProjectSAFE@ed.gov).

**Deadline:** Rolling

## **U.S. Department of Energy**

CLEAN ENERGY TECHNOLOGY DEPLOYMENT ON TRIBAL LANDS -  
2022 CFDA 81.087

Under this Funding Opportunity Announcement (FOA), the DOE Office of Indian Energy is soliciting applications from Indian Tribes, which include Alaska Native Regional Corporations and Village Corporations (hereafter referred collectively as “Indian Tribes”), Intertribal Organizations, and Tribal Energy Development Organizations to:(1) install clean energy generating system(s) and energy efficiency measure(s) for Tribal Building(s) (Topic Area 1); or,(2) deploy community-scale clean energy generating system(s) or energy storage on Tribal Lands (Topic Area 2); or,(3) install integrated energy system(s) for

autonomous operation (independent of the traditional centralized electric power grid) to power a single or multiple essential tribal facilities during emergency situations or for tribal community resilience (Topic Area 3).DOE expects to make approximately \$20.0 million of federal funding available for new awards under this FOA, subject to the availability of appropriated funds. The actual level of funding, if any, depends on Congressional appropriations. DOE anticipates making approximately 6 to 15 awards under this FOA. DOE may issue awards in one, multiple, or none of the following topic areas.Please see full announcement at: <https://ie-exchange.energy.gov/>.

**Deadline:** February 09, 2023

### [Department of Energy Logo](#)    [CFDA 81.087](#)

"POWERING UNELECTRIFIED TRIBAL BUILDING(S) - 2022"The DOE Office of Indian Energy is soliciting applications from Indian Tribes, which include Alaska Native Regional Corporations and Village Corporations (hereafter referred collectively as "Indian Tribes"), Intertribal Organizations, and Tribal Energy Development Organizations to provide electric power to Tribal Buildings, which otherwise would be unelectrified, by deploying (1) integrated energy system(s) (Topic Area 1) or (2) energy infrastructure (Topic Area 2). For purposes of this Funding Opportunity Announcement (FOA), "unelectrified" means Tribal Buildings that are not connected to (1) the traditional centralized electric power grid, and not connected to (2) an integrated energy system(s) operating independent of the traditional centralized electric power grid.Please see full announcement at: <https://ie-exchange.energy.gov/>

**Deadline:** February 23, 2023

## **U.S. Department of Health and Human Services**

### [Registry of Medical Cannabis Use and Health Outcomes \(UM1 - Clinical Trial Optional\), CFDA 93.279](#)

As of May 18, 2021, 36 US states and four territories allow for the medical use of cannabis products. Current evidence from global database registries and other patient reported outcomes incorporate information from thousands of patients, but much of the evidence is based on anecdotal reports rather than

possessing the robustness of randomized clinical trials, and these different types of sources are not always in agreement. As many patients are already using cannabis products for medicinal applications, it is important to identify the evidence that exists and as it evolves, and to harmonize and coordinate this information to maximize the potential benefits to patients while minimizing harmful effects. The goal of this cannabis registry is to gather information regarding medicinal cannabis products used as well as timing of, reasons for, and outcomes of use and impacts on other non-cannabis medication (e.g., opioids) use. This coordinating center will also lead efforts in archiving and analyzing these data, as well as disseminating their findings.

**Deadline:** November 15, 2022

[Genome Research Experiences to Attract Talented Undergraduates into the Genomics Field to Enhance Diversity \(R25 Clinical Trial Not Allowed\) CFDA 93.172](#)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The overarching goal of this NHGRI R25 program is to support educational activities that encourage undergraduates from diverse backgrounds, including those from groups underrepresented in the biomedical workforce, to pursue further training and careers in the scientific, medical, ethical, social and/or legal areas of genomics research. To accomplish the stated over-arching goal, this FOA will support creative educational activities with a primary focus on: Research Experiences Courses for Skills Development Mentoring Activities This Genome Research Experiences to Attract Talented Undergraduates into the Genomic Field to Promote Diversity (GREAT) Program will support collaborative institutional partnerships that provide two-year research education programs for undergraduates enrolled at minority-serving institutions (MSIs) or Institutional Development Award (IDeA)-eligible institutions. A partnership will include a MSI or IDeA-eligible institution, and one or more research-intensive institutions or organizations with a suitable research base for graduate-level training in scientific areas of interest to NHGRI.

**Deadline:** July 01, 2023

[NINDS Research Education Opportunities \(R25 Clinical Trial Not Allowed\) CFDA 93.853](#)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The over-arching goal of this NINDS R25 program is to support educational activities that complement and/or enhance the training of a workforce to meet the nations biomedical, behavioral, and clinical research needs.

**Deadline:** July 13, 2023

[BRAIN Initiative: Research on the Ethical Implications of Advancements in Neurotechnology and Brain Science \(R01 Clinical Trial Optional\) CFDA 93.173](#)

Reissue of RFA-MH-19-400. This funding opportunity announcement (FOA), in support of the NIH Brain Research through Advancing Innovative Neurotechnologies (BRAIN) Initiative, is one of several FOAs aimed at supporting transformative discoveries that will lead to breakthroughs in understanding human brain function. Guided by the long-term scientific plan, BRAIN 2025: A Scientific Vision, this FOA specifically seeks to support efforts addressing core ethical issues associated with research focused on the human brain and resulting from emerging technologies and advancements supported by the BRAIN Initiative. The hope is that efforts supported under this FOA might be both complementary and integrative with the transformative, breakthrough neuroscience discoveries supported through the BRAIN Initiative.

**Deadline:** October 11, 2023

**Co-infection and Cancer (R01 Clinical Trial Not Allowed)-CFDA 93.393**

This initiative seeks to enhance our mechanistic and epidemiologic understanding of infection-related cancers, with a focus on the etiologic roles of co-infection in cancer. Preference will be given to investigations of co-infections with known oncogenic agents (e.g., *Helicobacter pylori* [*H. pylori*] and Epstein Barr virus [EBV]; excluding human immunodeficiency virus [HIV]) and of co-infections that engendered novel opportunities for prevention and treatment. Coinfection is defined as the occurrence of infections by two or more infectious (pathogenic or nonpathogenic) agents either concurrently or sequentially and includes both acute and chronic infections by viruses, bacteria, parasites, and/or other microorganisms.

**Deadline:** January 07, 2023

[EHR Core Research \(ECR\): Building Capacity in STEM Education Research-](#)  
CFDA 93.855

This Funding Opportunity Announcement (FOA), issued by the National Institute of Allergy and Infectious Diseases (NIAID), invites applications for investigator-initiated Resource-Related Research Projects (R24). The proposed resource must provide a significant benefit to currently funded high priority projects in need of further coordination and support in the areas specified. Under rare circumstances, this mechanism may be used to support the development of a new resource to the broader scientific community of the NIAID. It is anticipated that the request for resource support through the R24 activity code will occur on an infrequent

basis and only in circumstances where other mechanisms of support from the NIAID are not appropriate. The proposed resources should be relevant to the scientific areas of the NIAID mission including the biology, pathogenesis, and host response to microbes, including HIV; the mechanisms of normal immune function and immune dysfunction resulting in autoimmunity, immunodeficiency, allergy, asthma, and transplant rejection; and translational research to develop vaccines, therapeutics, and diagnostics to prevent and treat infectious, immune-mediated, and allergic diseases.

**Deadline:** January 07, 2023

[Archiving and Documenting Child Health and Human Development Data Sets](#)  
[\(R03 Clinical Trial Not Allowed\)-CFDA 93.865](#)

The purpose of this funding opportunity announcement (FOA) is to invite R03 applications to support archiving and documenting existing data sets to enable secondary analysis of these data by the scientific community. The priority of this program is to archive data sets within the scientific mission of the NICHD; the highest priority is to archive data collected with NICHD support.

**Deadline:** January 07, 2023

[NIDCR Predoctoral to Postdoctoral Transition Award for A Diverse Dental, Oral, and Craniofacial Research Workforce \(F99/K00 Clinical Trial Not Allowed\)-](#)  
[CFDA 93.121](#)

The purpose of this award is to support phased transition of outstanding graduate students from groups underrepresented in the biomedical, clinical, behavioral, and social sciences research enterprise from graduate work to postdoctoral research positions in Dental, Oral, and Craniofacial (DOC) research. The first phase (F99) will support the final two years of graduate research training for individuals in Ph.D. or dual degree clinician-scientist programs. Following graduation and attainment of a postdoctoral research position, the second phase (K00) will provide support for up to three years of mentored postdoctoral research.

**Deadline:** January 07, 2023

[Integration of Imaging and Fluid-Based Tumor Monitoring in Cancer Therapy \(R01 Clinical Trial Optional\) CFDA 93.393](#)

Through this funding opportunity announcement (FOA), the National Cancer Institute (NCI) seeks research project (R01) grant applications describing projects that integrate imaging and fluid-based tumor monitoring (liquid biopsy) assays during cancer therapy in patients to determine the optimal use of those modalities in the characterization of therapy response and/or emergence of resistance.

**Deadline:** September 07, 2024

[Utilizing Invasive Recording and Stimulating Opportunities in Humans to Advance Neural Circuitry Understanding of Mental Health Disorders \(R01 Clinical Trial Optional\) CFDA 93.242](#)

Reissue of RFA-20-350. The purpose of this Funding Opportunity Announcement (FOA) is to encourage applications to pursue invasive neural recording studies focused on mental health-relevant questions. Invasive neural recordings provide an unparalleled window into the human brain to explore the neural circuitry and neural dynamics underlying complex moods, emotions, cognitive functions, and behaviors with high spatial and temporal resolution. Additionally, the ability to stimulate, via the same electrodes, allows for direct causal tests by modulating network dynamics. This funding opportunity aims to target a gap in the scientific knowledge of neural circuit function related to mental health disorders. Researchers should target specific questions suited to invasive recording modalities that have high translational potential. Development of new technologies and therapies are outside the scope of this FOA.

**Deadline:** September 07, 2024

### [Investigator Initiated Research in Computational Genomics and Data Science \(R01 Clinical Trial Not Allowed\) CFDA 93.172](#)

The purpose of this funding opportunity announcement (FOA) is to invite applications for a broad range of research efforts in computational genomics, data science, statistics, and bioinformatics relevant to one or both of basic or clinical genomic science, and broadly applicable to human health and disease. This FOA supports fundamental genomics research developing innovative analytical methodologies and approaches, early-stage development of tools and software, and refinement or hardening of software and tools of high value to the biomedical genomics community. Work supported under this FOA should be enabling for genomics and be generalizable or broadly applicable across diseases and biological systems. All applications should address how the methods would scale to address increasingly larger data sets.

**Deadline:** September 07, 2024

### [Investigator Initiated Research in Computational Genomics and Data Science \(R21 Clinical Trial Not Allowed\) CFDA 93.173](#)

The purpose of this funding opportunity announcement (FOA) is to invite applications for a broad range of research efforts in computational genomics, data science, statistics, and bioinformatics relevant to one or both of basic or clinical genomic science, and broadly applicable to human health and disease. This FOA supports fundamental genomics research developing innovative analytical methodologies and approaches, early-stage development of tools and software, and refinement or hardening of software and tools of high value to the biomedical genomics community. Work supported under this FOA should be enabling for genomics and be generalizable or broadly applicable across diseases and biological systems. All applications should address how the methods would scale to address increasingly larger data sets.

**Deadline:** September 07, 2024

### [Imaging - Science Track Award for Research Transition \(I/START\) \(R03- Basic Experimental Studies with Humans Required\) CFDA 93.279](#)

This funding opportunity announcement (FOA) encourages Small Research Grant (R03) applications to facilitate the entry of investigators to the area of neuroimaging, including both new investigators and established investigators seeking to adopt neuroimaging methodologies in their research programs, to enable the conduct of small "proof of concept" studies. The R03 is intended to support research projects that can be carried out in a short period of time with limited resources.

**Deadline:** September 07, 2024

[Initiation of a Mental Health Family Navigator Model to Promote Early Access, Engagement and Coordination of Needed Mental Health Services for Children and Adolescents \(R01 Clinical Trial Required\) CFDA 93.242](#)

Reissue of PAR-18-428. The purpose of this Funding Opportunity Announcement (FOA) is to encourage research applications to develop and test the effectiveness and implementation of family navigator models designed to promote early access, engagement and coordination of mental health treatment and services for children and adolescents who are experiencing early symptoms of mental health problems. For the purposes of this FOA, NIMH defines a family navigator model as a health care professional or paraprofessional whose role is to deploy a set of strategies designed to rapidly engage youth and families in needed treatment and services, work closely with the family and other involved treatment and service providers to optimize care, and monitor the trajectory of mental health symptoms and outcomes over time. Applicants are encouraged to develop and test the navigator models ability to promote early access, engagement and coordination of mental health treatment and services for children and adolescents as soon as symptoms are detected. Of interest are navigator models that coordinate needed care strategies, determine the personalized match to the level of needed service amount, frequency and intensity, and harness novel technologies to track and monitor the trajectory of clinical, functional, and behavioral progress toward achieving intended services outcomes. This FOA is published in parallel to a companion R34.

**Deadline:** September 07, 2024

[Effectiveness of School-Based Health Centers to Advance Health Equity \(R01 Clinical Trial Optional\) CFDA 93.242](#)

The purpose of this Funding Opportunity Announcement is to support research that investigates the effectiveness of school-based health centers (SBHCs) as a health services care delivery model to address the needs of school-aged children from populations with health disparities (underserved youth).

**Deadline:** January 07, 2025

# U.S. Department of Housing and Urban Development

## [Indian Housing Block Grant \(IHBG\) Competitive Grant Program](#)

Under the program, eligible Indian tribes, and tribally designated housing entities (TDHEs) receive grants to carry out a range of affordable housing activities. Grant funds may be used to develop, maintain, and operate affordable housing in safe and healthy environments on Indian reservations and in other Indian areas and carry out other affordable housing activities. Grant funds must be used to primarily benefit low-income Indian families.

**Deadline:** November 17, 2022

## [FY22 HOPE VI Main Street Grant Program CFDA 14.878](#)

The purpose of the HOPE VI Main Street Program is to provide grants to small communities to assist in the renovation of an historic or traditional central business district, or “Main Street” area, by replacing unused, obsolete, commercial space in buildings with affordable housing units. The objectives of the program are to: Redevelop central business districts (Main Street areas); Preserve Historic or traditional Main Street area properties by replacing unused commercial space in buildings with affordable housing units; Enhance economic development efforts in Main Street areas; and Provide affordable housing in Main Street areas. Main Street grant funds can be used to build new affordable housing or reconfigure obsolete or surplus commercial space (or extremely substandard, vacant housing) into affordable housing units. The grant funds cannot be used on general infrastructure or commercial development. Main Street housing units must be affordable to the initial residents that occupy the Main Street housing project, as described in the Use Restrictions section of this NOFA. The funds in the NOFA must be used to assist Units of Local Government that have existing Main Street area rejuvenation projects and meet the population and public housing unit limits stated in the Eligibility section of this NOFA.

**Deadline:** January 31, 2023

## [Fiscal Year \(FY\) 2022 Presidential Residence Protection Assistance Grant \(PRPA\) CFDA 97.134](#)

The Fiscal Year (FY) 2022 Presidential Residence Protection Assistance (PRPA) Grant Program will provide federal funds to reimburse state and local law enforcement agencies (LEAs) and emergency management agencies (EMAs) for extraordinary law enforcement or other emergency personnel costs incurred while protecting any non-governmental residence of the President that is designated or identified to be secured by the United States Secret Service (USSS) in accordance with Section 528 of the Department of Homeland Security Appropriations Act, 2022, which states in part: SEC. 528. (a) For an additional amount for "Federal Emergency Management Agency --Federal Assistance", \$3,000,000, to remain available until September 30, 2023, exclusively for providing reimbursement of extraordinary law enforcement or other emergency personnel costs for protection activities directly and demonstrably associated with any residence of the President that is designated or identified to be secured by the United States Secret Service.

**Deadline:** December 30, 2022

## [Fiscal Year 2022 Building Resilient Infrastructure and Communities \(BRIC\)](#)

The Building Resilient Infrastructure and Communities (BRIC) program makes federal funds available to states, U.S territories, Indian tribal governments, and local communities for pre-disaster mitigation activities. With a general focus on disasters, risks, and hazards, including those associated with climate change, the guiding principles of the program are to: (1) support state and local governments, tribes, and territories through capability- and capacity-building to enable them to identify mitigation actions and implement projects that reduce risks posed by natural hazards; (2) encourage and enable innovation while allowing flexibility, consistency, and effectiveness; (3) promote partnerships and enable high-impact investments to reduce risk from natural hazards with a focus on critical services and facilities, public infrastructure, public safety, public health, and communities; (4) provide an opportunity to reduce future losses and minimize impacts on the Disaster Relief Fund; (5) promote equity, including by helping members of overburdened and underserved groups and prioritizing 40 percent of the benefits to disadvantaged communities as referenced in Executive Order (EO) 14008: Tackling the Climate Crisis at Home and Abroad in line with the Administration's Justice40 Initiative; and, (6) support the adoption and enforcement of building codes, standards, and policies that will protect the health, safety, and general welfare of the public, taking into account future conditions, prominently including the effects of climate change, and have long-lasting impacts on community risk reduction, including for critical services and facilities and for future disaster costs.

**Deadline:** January 27, 2023

# U.S. Department of the Interior

## Water Conservation Field Services Program: Financial Assistance for Fiscal Year 2023 CFDA 15.530

The Department of the Interior's (DOI's) WaterSMART (Sustain and Manage America's Resources for Tomorrow) Program provides a framework for Federal leadership and assistance to stretch and secure water supplies for future generations in support of DOI priorities. Through WaterSMART, the Bureau of Reclamation (Reclamation) leverages Federal and non-Federal funding to work cooperatively with states, Tribes, and local entities as they plan for and implement actions to increase water supply reliability through investments in existing infrastructure and attention to local water conflicts. The Water Conservation Field Services Program (WCFSP) provides support for priorities identified in Presidential Executive Order (E.O.) 14008: Tackling the Climate Crisis at Home and Abroad (E.O. 14008) and aligned with other priorities, such as those identified in Presidential Executive Order 13985: Advancing Racial Equity and Support for Underserved Communities Through the Federal Government (E.O. 13985).

Drought conditions across the Western United States impact a wide range of communities and sectors, including agriculture, cities, Tribes, the environment, recreation, hydropower producers, and others.

Reclamation established the Water Conservation Field Services Program (WCFSP) in 1996 to encourage recipients of water from Federal water projects to conserve water and to assist agricultural and urban water districts in preparing and implementing water conservation plans in accordance with the Reclamation Reform Act of 1982. Through the WCFSP, Reclamation makes cost-shared financial assistance available for developing water conservation plans, designing water management improvements, identifying water management improvements through System Optimization Reviews (SORs), and improving the understanding of water conservation techniques through demonstration activities.

This Water Conservation Field Services Program Notice of Funding Opportunity (NOFO)

provides funding for projects that result in water management planning. These planning projects support planning for water managers to plan, prioritize, and design projects that conserve and use water more efficiently; mitigate conflict risk in areas at a high risk of future water conflict; and accomplish other benefits that contribute to sustainability in the Western United States.

**Deadline:** January 31, 2023

[F23AS00035 FY 2023 Competitive State Wildlife Grant \(C-SWG\) Program](#)  
[CFDA 15.634](#)

The Competitive State Wildlife Grant (C-SWG) Program provides Federal grant funds to help State fish and wildlife agencies, the four eligible AFWA regional associations of fish and wildlife agencies, and their partners implement programs for the benefit of fish and wildlife and their habitats, especially declining or at-risk species. Eligible activities include conservation planning and implementation. Planning activities must contribute directly to the development or modification of a Wildlife Action Plan (Plan) approved by the Director of the U.S. Fish and Wildlife Service or other Service designee. Implementation activities are those actions that eligible applicants and their partners carry out to execute a Plan. Priority for use of these funds must be placed on Plan-identified species of greatest conservation need (SGCN) and their habitats, and should take into consideration the relative level of funding available for the conservation of these species.

**Deadline:** February 17, 2023

[2023 Native American Graves Protection and Repatriation Act](#)  
[Consultation/Documentation Grants CFDA 15.922](#)

Grant funds must be used for CONSULTATION and/or DOCUMENTATION projects under NAGPRA. Consultation projects support efforts related to revising a NAGPRA inventory and making or responding to requests for repatriation of items in a NAGPRA summary. Documentation projects support determining the geographical origin, cultural affiliation, and other basic facts surrounding the acquisition of Native American cultural items. Consultation and documentation projects should lead to determining control, treatment, repatriation, and disposition of NAGPRA cultural items.

**Deadline:** March 10, 2023

[FY2023 Native American Grave Protection and Repatriation Act Repatriation](#)  
[Grants CFDA 15.922](#)

Grant funds must be used for REPATRIATION under NAGPRA, which means the transfer of control of Native American human remains and/or cultural items to lineal descendants, Indian tribes, and Native Hawaiian organizations. Repatriation includes disposition of culturally unidentifiable Native American

human remains (CUI) according to 43 CFR § 10.11. Repatriation projects defray costs associated with the packaging, transportation, contamination removal, reburial, and/or storage of NAGPRA-related human remains and/or cultural items.

**Deadline:** May 12, 2023

### Land and Water Conservation Fund Outdoor Recreation Legacy Partnership Program

The LWCF State and Local Assistance Program was created by Congress in 1964 to assist in preserving, developing and assuring accessibility to present and future generations of U.S. citizens and visitors “such quality and quantity of outdoor recreation resources as may be available and are necessary and desirable for individual active participation in such recreation and to strengthen the health and vitality of the citizens of the United States[.]” This is accomplished in part by authorizing and providing grants to states, and through states to local units of government and federally-recognized Indian tribes, for projects that will provide outdoor recreation opportunities to the public through the acquisition of lands and waters for parks and other outdoor recreation areas, as well as through the development of new, or the renovation of existing, outdoor recreation facilities. The LWCF State and Local Assistance program is operated by the National Park Service (NPS) in partnership with designated lead agencies in each of the 50 states as well as American Samoa, the District of Columbia, Guam, Northern Marianas Islands, Puerto Rico, and the Virgin Islands. Congress allocates money from the LWCF for this program, which is then allocated to the states based on a legislative formula. To be eligible for LWCF grants, states must maintain an approved Statewide Comprehensive Outdoor Recreation Plan (SCORP), which must be updated at least once every five years. Among other things, SCORPs are used to assess the supply and demand for outdoor recreation resources and set priorities for the use of LWCF funds. In 2014, in coordination with Congress and the Secretary of the Interior, NPS created the Outdoor Recreation Legacy Partnership (ORLP) Program, a competitive grant program administered under the authority of the LWCF Act. NPS designed the ORLP with input from Congressional Committee staff, the States, and other interested parties. As designed, the goal of the ORLP Program is to provide new or significantly improve recreation opportunities for economically-disadvantaged communities in larger urbanized areas (as designated by the Census Bureau) that are under-served in terms of parks and other outdoor recreation resources. With Congressional support, the NPS has funded and issued grants pursuant to the ORLP each year. ORLP grants are selected through an NPS-lead national competition following a solicitation and nomination by the States, and such grants do not count against State apportionments.

**Deadline:** May 31, 2023

[F23AS00078 National Fish Passage Program Bipartisan Infrastructure Law Fiscal Year 2023 CFDA 15.685](#)

The Infrastructure Investment and Jobs Act of 2021 (Pub. L. 117-58, November 15, 2021, “Bipartisan Infrastructure Law,” or “BIL”) provided \$200 million for Federal Fiscal Years (FY) 2022 to 2026 to the U.S. Fish and Wildlife Service’s (Service) National Fish Passage Program (NFPP). This funding opportunity announcement outlines the criteria and process to select projects for NFPP BIL FY2023 funding. The NFPP is a voluntary program that provides direct technical and financial assistance to partners to remove instream barriers and restore aquatic organism passage and aquatic connectivity for the benefit of Federal trust resources. In doing so, NFPP aims to maintain or increase fish populations to improve ecosystem resiliency and provide quality fishing experiences for the American people. Activities that restore fish passage also support the modernization of the country’s infrastructure such as road culverts, bridges, and water diversions contributing to enhanced community resilience to the impacts from climate change and other public safety hazards. NFPP funds a variety of project types including, but not limited to, dam removals, culvert replacements, floodplain restoration, and the installation of fishways. The NFPP is delivered through the Fish and Aquatic Conservation Program (FAC) across all States and territories. FAC staff coordinate with project partners, stakeholders, and other Service programs to identify and collaboratively implement projects within regional priority areas. Project work plans are developed strategically, in coordination with partners, and with substantial involvement from FAC staff. Projects must be based upon sound scientific principles, advance the Service mission, and promote biological diversity. Applicants seeking funding under this program should contact the regional NFPP Coordinator that corresponds to the location of the project for additional information on regional priorities and coordination with FAC staff prior to applying for funding. Contact are listed at the end of the announcement.

**Deadline:** December 31, 2023

# U.S. Department of Justice

## [BJA FY 2022- 2023 Byrne State Crisis Intervention Program Formula Solicitation CFDA 16.738](#)

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety, and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The Byrne State Crisis Intervention Program (Byrne SCIP) provides funding for the creation and/or implementation of extreme risk protection order (ERPO) programs, state crisis intervention court proceedings, and related gun violence reduction programs/initiatives.

### Background

On June 25, 2022, President Biden signed the Bipartisan Safer Communities Act of 2022 into law to reduce gun violence and save lives, and to make progress toward keeping guns out of dangerous hands. In signing the bill into law, the President noted that this historic act "invests in antiviolence programs that work — that work directly with the people who are most likely to commit these crimes or become victims of gun crimes."

An extreme risk protection order (ERPO) is a common-sense, effective measure to empower family members, health care providers, school officials, or law enforcement officers to petition a court to temporarily prevent a person from accessing firearms if they are found to be a danger to themselves or others (see the June 7, 2022, Statement of Administration Policy). In 2021, the Department of Justice released model legislation to help states create their own extreme risk protection order systems and provide for such intervention before warning signs turn into tragedy. The Bipartisan Safer Communities Act also seeks to ensure that extreme risk protection order laws — commonly referred to as "red flag laws" — and programs are implemented in accordance with the Constitution and provide for adequate due process protections. Programs must ensure the accused has the right to an in-person hearing, the right to know opposing evidence, and the right to be represented by counsel at no expense to the government.

**Deadline:** December 12, 2023

# U.S. Department of Labor

## [Work Opportunity Tax Credit Funding Allotments for Fiscal Year 2023 CFDA 17.271](#)

This TEGL announces the availability of WOTC FY 2023 state allotments to conduct WOTC activities and grant award application requirements for grantees to receive Funding allocations. In addition, it provides general administrative policies and procedural guidance set forth by ETA and requirements outlined in the WOTC Statement of Work.

**Deadline:** December 14, 2022

## [National Farmworker Jobs Program Youth Grants CFDA 17.264](#)

Workforce Innovation and Opportunity Act (WIOA) section 127 requires that when the amount appropriated for WIOA Youth exceeds \$925,000,000, the Secretary shall reserve four percent of the excess amount to provide youth workforce investment activities under the National Farmworker Jobs Program (NFJP). The Program Year (PY) 2022 appropriation was \$933 million. Using the calculation for the set-aside designated in WIOA, \$325,200 is available for youth activities under NFJP. ETA is using a streamlined application process for these funds limiting the competition to existing NFJP grantees.

These additional funds will enable successful applicants to deliver more of the youth workforce investment activities described in the NFJP regulations at 20 CFR 685.310 to eligible MSFW youth. This funding provides additional resources so that selected NFJP grant recipients can increase access to education and providing career services and training resulting in high-quality, stable employment.

**Deadline:** December 22, 2022

[Supplemental Budget Request \(SBR\) Opportunity for Additional Administrative Costs under the Pandemic Unemployment Assistance \(PUA\) Program CFDA 17.225](#)

To announce the opportunity for states to receive up to \$61 million for PUA administrative costs in addition to those described in Section 4.b.i. of UIPL No. 28-20, Change 4.

**Deadline:** January 06, 2023

[National Dislocated Worker Grants Program Guidance-\(CFDA 17.277\)](#)

National Dislocated Worker Grants (DWGs) are discretionary grants awarded by the Secretary of Labor under Section 170 of the Workforce Innovation and Opportunity Act (WIOA) to provide employment-related services for dislocated workers. The Department funds two types of DWGs: Disaster Recovery and Employment Recovery.

Disaster Recovery DWGs provide funding to create temporary employment opportunities to assist with clean-up and recovery efforts when an area impacted by an emergency or major disaster is declared eligible for public assistance by the Federal Emergency Management Agency (FEMA) or is declared, or otherwise recognized, as an emergency or disaster of national significance by a Federal agency with authority or jurisdiction over Federal response to the disaster or emergency.

Employment Recovery DWGs temporarily expand capacity to serve dislocated workers and to meet the increased demand for employment and training services following a qualifying event. Qualifying events include major economic dislocations, such as plant closures, mass layoffs, or higher-than-average demand for employment and training activities for dislocated members of the Armed Forces and their spouses. Under 20 CFR 687.110(a)(5), the Secretary of Labor may determine other major dislocations eligible for Employment Recovery DWGs.

**Deadline:** Rolling grant

# U.S. Department of State

## U.S. Department of Transportation

### [FY 2023 Notice of Funding Opportunity: Bipartisan Infrastructure Law FAA Contract Tower \(FCT\) Competitive Grant Program CFDA 20.106](#)

The Department of Transportation (DOT), Federal Aviation Administration (FAA), announces the opportunity to apply for \$20 million in FY 2023 Airport Infrastructure Grant funds for the FAA Contract Tower (FCT) Competitive Grant Program, made available under the Infrastructure Investment and Jobs Act of 2021 (IIJA), Pub. L. 117-58, herein referred to as the Bipartisan Infrastructure Law (BIL). The purpose of the FCT Competitive Grant Program is to make annual grants available to eligible airports for airport-owned airport traffic control tower (ATCT) projects that address the aging infrastructure of the nation's airports. The FAA will consider ATCT projects that sustain, construct, repair, improve, rehabilitate, modernize, replace, or relocate nonapproach control towers; acquire and install air traffic control, communications, and related equipment to be used in those towers; or construct a remote tower certified by the FAA including acquisition and installation of air traffic control, communications, or related equipment.

In addition, FCT Competitive Grant Program grants will align with DOT's Strategic Framework FY2022-2026 at [www.transportation.gov/administrations/office-policy/fy2022-2026-strategic-framework](http://www.transportation.gov/administrations/office-policy/fy2022-2026-strategic-framework). The FY 2023 FCT Competitive Grant Program will be implemented consistent with law and in alignment with the priorities in Executive Order 14052, Implementation of the Infrastructure Investments and Jobs Act (86 FR 64355), which are to invest efficiently and equitably, promote the competitiveness of the U.S. economy, improve job opportunities by focusing on high labor standards, strengthen infrastructure resilience to all hazards, including climate change, and to effectively coordinate with State, local, Tribal, and territorial government partners. See NOFO for further details.

**Deadline:** December 06, 2023

[FY 2022 and FY 2023 Competitive Funding Opportunity: Competitive Grants for Rail Vehicle Replacement Program \(Rail Program\) CFDA 20.525](#)

The Federal Transit Administration (FTA) announces the opportunity to apply for \$600 million in Fiscal Year (FY) 2022 and 2023 Section 5337 State of Good Repair Program funds (Catalog of Federal Domestic Assistance #20.525) authorized for competitively selected rail vehicle replacement projects. As required by Federal public transportation law and subject to appropriations, funds will be awarded competitively to States and local governmental authorities to assist in the funding of capital projects to replace rail rolling stock.

**Deadline:** January 05, 2023

## **U.S. Department of Treasury**

[RESTORE Act Centers of Excellence Research Grants Program CFDA 21.015](#)

Treasury is publishing multiple funding opportunity notices for its RESTORE Act grant programs. This announcement applies only to the Centers of Excellence Research Grants Program.

Trust Fund amounts are available to establish one or more Centers of Excellence through competitive subawards to nongovernmental entities and consortia in the Gulf Coast Region, including institutions of higher education. Funds may be used to establish Centers of Excellence, and by those Centers of Excellence for science, technology, and monitoring in one or more of the following disciplines as described in the RESTORE Act and Treasury's implementing regulations at 31 CFR 34.704:

- 1) Coastal and deltaic sustainability, restoration, and protection, including solutions and technology that allow citizens to live in a safe and sustainable manner in a coastal delta in the Gulf Coast Region.
- 2) Coastal fisheries and wildlife ecosystem research and monitoring in the Gulf Coast Region.
- 3) Offshore energy development, including research and technology to improve the sustainable and safe development of energy resources in the Gulf of Mexico.

- 4) Sustainable and resilient growth, economic and commercial development in the Gulf Coast Region.
- 5) Comprehensive observation, monitoring, and mapping of the Gulf of Mexico.

Eligible applicants issuing subawards to Center(s) of Excellence must establish and implement a program to monitor compliance with its subaward agreements.

**Deadline:** October 21, 2023

### [RESTORE Act Direct Component - Non-Construction Activities CFDA 21.015](#)

Treasury is publishing multiple funding opportunity announcements (FOAs) for its RESTORE Act grant programs. This announcement applies only to the Direct Component and is only for applications for eligible non-construction activities, including projects with or without a non-federal cost-share for another federally funded project or program. This announcement also includes planning assistance needed to prepare the Multiyear Implementation Plan (Multiyear Plan) required by the RESTORE Act. To apply for eligible activities involving construction and/or acquisition of real property or any other activity that requires a permit from a federal or state agency, including natural resource restoration projects, applicants should use the construction and real property acquisition funding opportunity announcement (GR-RDC-23-002).

Trust Fund amounts are available to carry out eligible activities described in the RESTORE Act and Treasury's implementing regulations at 31 CFR 34.201. These are:

- 1) Restoration and protection of the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, and coastal wetlands of the Gulf Coast region.
- 2) Mitigation of damage to fish, wildlife, and natural resources.
- 3) Implementation of a Federally- approved marine, coastal, or comprehensive conservation management plan, including fisheries monitoring.
- 4) Workforce development and job creation.
- 5) Improvements to or on State parks located in coastal areas affected by the Deepwater Horizon oil spill.
- 6) Infrastructure projects benefitting the economy or ecological resources, including port infrastructure.
- 7) Coastal flood protection and related infrastructure.
- 8) Promotion of tourism in the Gulf Coast region, including promotion of recreational fishing.

- 9) Promotion of the consumption of seafood harvested from the Gulf Coast region.
- 10) Planning assistance.
- 11) Administrative costs.

Eligible activities 1 through 7 listed above must be carried out in the Gulf Coast region.

**Deadline:** October 31, 2023

### RESTORE Act Direct Component – Construction and Real Property Acquisition Activities CFDA 21.015

Treasury is publishing multiple funding opportunity announcements (FOAs) for its RESTORE Act grant programs. This announcement applies only to the Direct Component and is only for applications for eligible construction and real property acquisition activities, including environmental restoration projects and including projects with or without a non-federal cost-share for another federally funded project or program. To apply for eligible activities that do not involve any construction, land acquisition, or environmental restoration, applicants should use the non-construction funding opportunity announcement (GR-RDC-23-002). All construction and real property acquisition activities, and any activity that requires a permit from a federal or state agency, including natural resource restoration projects, should be submitted under this construction and real property acquisition funding opportunity announcement.

Trust Fund amounts are available to carry out eligible activities described in the RESTORE Act and Treasury's implementing regulations at 31 CFR 34.201. These are:

- 1) Restoration and protection of the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, and coastal wetlands of the Gulf Coast region.
- 2) Mitigation of damage to fish, wildlife, and natural resources.
- 3) Implementation of a Federally- approved marine, coastal, or comprehensive conservation management plan, including fisheries monitoring.
- 4) Workforce development and job creation.
- 5) Improvements to or on State parks located in coastal areas affected by the Deepwater Horizon oil spill.
- 6) Infrastructure projects benefitting the economy or ecological resources, including port infrastructure.

- 7) Coastal flood protection and related infrastructure.
- 8) Promotion of tourism in the Gulf Coast region, including promotion of recreational fishing.
- 9) Promotion of the consumption of seafood harvested from the Gulf Coast region.
- 10) Planning assistance.
- 11) Administrative costs.

Eligible activities 1 through 7 listed above must be carried out in the Gulf Coast region.

**Deadline:** October 31, 2023

## **U.S. Department of Veterans Affairs**

### [Legal Services for Homeless Veterans and Veterans At-Risk for Homelessness Grant CFDA 64.056](#)

The new Legal Services for Homeless Veterans and Veterans At-Risk for Homelessness Grant Program's purpose is to provide legal services grants to public or non-profit private entities who will provide legal services to eligible Veterans who are homeless or at risk for homelessness. The goal of the Grant Program is to assist homeless and at-risk Veterans who have unaddressed needs for legal services, which may create barriers to housing stability. Services provided to Veterans under this Grant Program are designed to help Veterans increase housing stability by providing legal services that will help Veterans avoid homelessness or help them return to permanent housing in the community.

**Deadline:** December 30, 2022

## Homeless Veteran Providers GPD Per Diem Only Grant Program (TIP) CFDA 64.024

The Department of Veterans Affairs (VA) is announcing the availability of funding for new grants under the Transition in Place (TIP) grant component of the VA Homeless Providers Grant and Per Diem (GPD) program in an effort to reduce homelessness among Veterans.

Applications for assistance are being accepted from eligible entities to provide per diem payments for the TIP transitional housing model to facilitate housing stabilization for Veterans experiencing homelessness. The TIP housing model offers Veteran residents housing in which supportive services transition out of the residence over time, rather than the resident. This allows the Veteran to remain in the unit instead of being forced to find other housing while stabilizing.

VA anticipates that the grants will be for a period of 3 years starting in fiscal year (FY) 2024 on October 1, 2023 and ending September 30, 2026. VA anticipates awarding approximately 600 TIP beds nationwide. Applications must include a minimum of 5 TIP beds and up to a maximum of 20 TIP beds, per VA medical facility catchment area, per each applicant's employer identification number (EIN).

**DATES:** Applications for grants must be received by the GPD National Program Office no later than 4:00 p.m. Eastern Time on Monday, January 30, 2023. In the interest of fairness to all, this deadline is firm as to date and hour. VA will treat any application received after the deadline as ineligible. Applicants should take this practice into account and submit their materials early to avoid the risk of unanticipated delays, computer service outages or other submission-related problems that might result in ineligibility.

**ADDRESSES:** Instructions for accessing the application are available at <https://www.va.gov/homeless/gpd.asp>. The required documentation for applications is outlined under the Content and Form of Application section of the Notice of Funding Opportunity (NOFO). Standard forms, which must be included as part of a complete application package, may be downloaded directly from VA's GPD National Program Website at <https://www.va.gov/homeless/gpd.asp>. Questions may be referred to the GPD National Program Office at [GPDGrants@va.gov](mailto:GPDGrants@va.gov). For detailed GPD program information and requirements, see 38 C.F.R. part 61.

**APPLICATION SUBMISSION:** Applications must be submitted by following instructions at <https://www.va.gov/homeless/gpd.asp>. Applications may not be submitted any other way. Applications must be submitted as a complete package. Materials arriving separately will not be included in the application package for consideration and may result in the application being rejected or not funded.

Applicants are advised to refer to the NOFO when completing the online application. NOFO content provides supplementary guidance for completing the online application.

**TECHNICAL ASSISTANCE:** Information regarding how to obtain technical assistance with the preparation of a grant application is available on the GPD National Program Website at <https://www.va.gov/homeless/gpd.asp>.

Applicants are encouraged to review the full NOFO in Grants.gov under the Related Documents tab, as well as the technical assistance materials on the GPD National Program Website.

**Deadline:** January 30, 2023

### [Funding Opportunity Department of Veteran Affairs Supportive Services for Veteran Families CFDA 64.033](#)

The Department of Veterans Affairs (VA) is announcing the availability of funds for supportive services grants under the Supportive Services for Veteran Families (SSVF) Program. This Notice of Funding Availability (NOFA) contains information concerning the SSVF Program; the renewal and new applicant supportive services grant application processes; and the amount of funding available. Awards made for supportive services grants will fund operations beginning October 1, 2023. Grant

awards may be renewed for up to 3 years pending the availability of funds and grantee performance. Please find additional information on the SSVF website at Supportive Services for Veteran Families (va.gov). Applications can be placed through the VHA Homeless Program Grant Management System UDPaaS - VHA.

**Deadline:** February 10, 2023

### [GPD Per Diem Only Grant Program \(PDO\) CFDA 64.024](#)

The Department of Veterans Affairs (VA) is announcing the availability of funding for new grants under the Per Diem Only (PDO) grant component of the VA Homeless Providers Grant and Per Diem (GPD) program in an effort to reduce homelessness among Veterans.

Applications for assistance are being accepted from eligible entities to provide per diem payments for facilitating housing stabilization for Veterans experiencing homelessness. Funding will support PDO transitional supportive housing bed models and service centers. These PDO service models are designed to meet different Veteran populations at various stages as they move to stable housing.

VA anticipates that the grants will be for a period of 3 years starting in fiscal year (FY) 2024 on October 1, 2023 and ending September 30, 2026. VA anticipates awarding approximately 10,500 transitional supportive housing beds and 15 service centers nationwide. Applications will be accepted either for transitional supportive housing beds or for a service center. Applications for transitional supportive housing may include one or a combination of bed models (i.e., Bridge Housing, Clinical Treatment, Hospital to Housing, Low Demand and/or Service Intensive Transitional Housing). Each application for transitional

supportive housing beds must include a minimum of one housing model per application and a minimum of five beds per housing model. Applications may not request both transitional supportive housing beds and a service center within the same application.

**DATES:** Applications for grants must be received by the GPD National Program Office no later than 4:00 p.m. Eastern Time on Monday, February 6, 2023. In the interest of fairness to all, this deadline is firm as to date and hour. VA will treat any application received after the deadline as ineligible. Applicants should take this practice into account and submit their materials early to avoid the risk of unanticipated delays, computer service outages or other submission-related problems that might result in ineligibility.

**ADDRESSES:** Instructions for accessing the application are available at <https://www.va.gov/homeless/gpd.asp>. The required documentation for applications is outlined under the Content and Form of Application section of the Notice of Funding Opportunity (NOFO). Standard forms, which must be included as part of a complete application package, may be downloaded directly from VA's GPD National Program Website at <https://www.va.gov/homeless/gpd.asp>. Questions may be referred to the GPD National Program Office at [GPDGrants@va.gov](mailto:GPDGrants@va.gov). For detailed GPD program information and requirements, see 38 C.F.R. part 61.

**APPLICATION SUBMISSION:** Applications must be submitted by following instructions at <https://www.va.gov/homeless/gpd.asp>. Applications may not be submitted any other way. Applications must be submitted as a complete package. Materials arriving separately will not be included in the application package for consideration and may result in the application being rejected or not funded.

Applicants are advised to refer to the NOFO when completing the online application. NOFO content provides supplementary guidance for completing the online application.

**TECHNICAL ASSISTANCE:** Information regarding how to obtain technical assistance with the preparation of a grant application is available on the GPD National Program Website at <https://www.va.gov/homeless/gpd.asp>.

Applicants are encouraged to review the full NOFO in Grants.gov under the Related Documents tab, as well as the technical assistance materials on the GPD National Program Website.

**Deadline:** February 06, 2023

## State Veterans Home Construction Grant Program CFDA 64.005

Grants are available to State Governments for construction or renovations of State operated Veterans Extended Care Facilities. The Department of Veterans Affairs participation may not exceed 65% of the total project costs. Review governing regulation before submitting an application (38 CFR Part 59). If the state is submitting a new grant application, it must submit a complete initial application (Section A of the project checklist) on Grants.gov by April 15th in order to be eligible for listing on the Priority List for the next fiscal year. Once the complete initial application is retrieved from Grants.gov by Program Staff, the grant applicant will receive 1) an automated notification from Grants.gov confirming receipt by the Program and 2) an email from Program Staff indicating the application's FAI number and corresponding project page in MAX.gov for submission of subsequent items. Note that Grants.gov is used only once to submit a new grant application. Applicants must submit complete initial applications on Grants.gov in order to be considered. Please contact Program Staff prior to submission if you need assistance understanding the requirements pertaining to an initial grant application, or if you need general assistance. Renovation or Life Safety initial grant applications require items A.1.-A.7. in Section A of the project checklist. Grant applicants, do not submit items A.8.-A.13 for Renovation of Life Safety grants. New Home Construction or Bed Replacement initial grant applications require all items in Section A (A.1.-A.13) of the project checklist.

Required for ALL applications

- A.1.A Project Scope
- A.1.B Form SF424
- A.1.C Form SF424D
- A.1.D Form SF424C
- A.1.E Budget Justification Worksheet (must align with SF424C budget form)
- A.2. Governor's designation of authorized state official and contact person
- A.3. Needs assessment (as outlined in VA Form 10-0388-1)
- A.4. State Clearinghouse Comments (E.O. 12372) single point of contact and compliance statement
- A.5. Schematics
- A.6. Signed Initial Application Certification VA Form 10-0388-1
- A.7. Safety citation/letter (Only Life Safety projects need to submit this).

Required for Bed Replacement or New Construction - Items A1-A6 and the below items

- A.8. Space program analysis (NHC use Form 10-0388-3, ADHC use Form 10-0388-4)
- A.9. Five-year capital plan for state's entire state home program
- A.10. Financial plan for state facility's first three years of operation
- A.11. Documentation that there is a reasonable basis to conclude that the facility when complete will be fully occupied
- A.12. Authorized state official's certification of the total number of state-operated nursing home and domiciliary beds and occupancy rate

A.13. Authorized state official's certification that the number of state home beds does not exceed the requirement in 38 CFR 59.40 or justification for number of state home beds exceeding 38 CFR 59.40 based on travel distance.

**Deadline:** Rolling (Applications should be submitted by April 15 of the fiscal year)

## **Section III PROGRAM FUNDING THROUGH PRIVATE, CORPORATE & COMMUNITY FOUNDATIONS**

### **Boat US Foundation Accepting Grant Applications for Safe and Clean Boating Projects**

The Boat US Foundation for Boating Safety and Clean Water is accepting applications for its Grassroots Grants Program, which awards funds on an annual basis to nonprofit organizations, boating clubs, and student groups in the United States for projects that utilize innovative approaches to education about safe and clean boating.

The foundation is looking for creative projects that promote safe and clean boating on local waterways. Past topics have ranged from PSAs on the effects of boating under the influence of hands-on education about the effects of marine debris.

Projects the foundation is most interested in funding will be unique (topic, methods, or delivery mechanism); include extensive outreach to boaters; use technology to educate boaters, including social media and the Web; have a widespread reach (not just a handful of boaters); include hands-on work with the boating community, and have a way to measure the success of the program.

Applicants can include boating groups, clubs and associations, student groups, and local nonprofit organizations, including local chapters of national organizations. Grants will not be awarded to government agencies, international organizations, for-profit businesses, or individuals.

Applicants may request up to \$10,000. Funded projects must be completed within a year.

**Deadline:** Open

## Baseball Tomorrow Fund

The Baseball Tomorrow Fund (BTF) awards grants to non-profit and tax-exempt organizations involved in the operation of youth baseball and/or softball programs and facilities. Organizations operating in the U.S. and international locations are eligible to apply. To date, an average of 400 requests are received annually; approximately 10 percent are awarded grants. Grants are awarded every quarter.

### **Review cycle deadlines:**

- January-March: January 1
- April-June: April 1
- July-September: July 1
- October-December: October 1

## Surdna Foundation Sustainable Environment Grants

The Sustainable Environments Program is working to overhaul our country's outdated and crumbling infrastructure with a new approach that will foster healthier, sustainable, and just communities. We believe in the potential of what we call "next-generation infrastructure" to improve transit systems, make buildings more energy-efficient, better manage our water systems and rebuild regional food systems. Focusing on urban areas and their surrounding suburbs, we seek solutions that connect and improve these infrastructure systems in ways that maximize positive impacts and minimize negative environmental, economic, and social consequences.

## JFNY Grant for Arts and Culture

The Japan Foundation New York office (JFNY) accepts applications for projects that take place within the 37 states east of Rocky Mountains listed below for the JFNY Grant throughout the year. This grant aims to support projects that will further understand of Japanese arts and culture. Successful projects may be granted up to \$5,000. Priority will be given to those projects that have secured additional funding from sources other than the Japan Foundation.

**Deadline:** Applications must be received at least 3 months before the beginning date of the project.

## CSX Beyond Our Rails Grant

CSX provides non-profit assistance and support through a variety of programs, including grants that typically range from \$2,500 to \$5,000 for projects focusing on safety, community, wellness, and/or the environment.

Examples given for environmental projects include:

- Teaching environmental stewardship
- Planting eco-friendly trees and plants
- Leading and supporting environmental cleanups
- Recycling and waste minimization
- Promoting energy efficiency and carbon reduction

**Deadline:** Ongoing

## Laboratory Equipment Donation Program for Colleges, Universities, and Museums

The Laboratory Equipment Donation Program (LEDP), formerly the Energy-Related Laboratory Equipment (ERLE) Grant Program, was established by the United States Department of Energy (DOE) to grant surplus and available used energy-related laboratory equipment to universities and colleges in the United States for use in energy-oriented educational programs.

**Deadline:** Ongoing

## Zayed Future Energy Global High Schools Prize

The primary aim of the Global High Schools category is to inspire future generations across the globe by instilling an ethos of sustainability from an early age, including an appreciation of issues in energy, and broader sustainability. Each school will submit a detailed proposal for a project, and the Prize will become a grant that enables the project's completion. While the main objective is to promote sustainability in schools, a special emphasis of the proposed project should be on specific measurable initiatives to promote renewable energy and sustainability, which may include improvements in energy or water efficiency or a reduction in waste.

## Waste Management Charitable Giving

Healthy thriving communities depend on involved citizens, organizations, and corporate partners for momentum. We lend our support and services to causes that promote civic pride, economic development, and revitalization. Every community has its challenges, and we strive always to be part of problem-solving initiatives. Programs that Waste Management is most motivated to support include environment, environmental education, and causes important to the areas where we operate. Applications are accepted year-round and are reviewed continuously. Given the large number of requests received, please anticipate an estimated two-month review period for each request.

## Clif Bar Foundation Small Grants

These grants are awarded for general organizational support as well as funding for specific projects. Small grants average approximately \$7,000 each. Priority is given to applicants that: Address our funding priorities from a holistic perspective; Protect Earth's beauty and bounty; Create a robust, healthy food system; Increase opportunities for outdoor activity; Reduce environmental health hazards; Build stronger communities; Operate with clearly defined objectives and viable plans to achieve them; Demonstrate strong community ties and operate at the community level; Promote positive change through both the projects and their implementation process.

**Deadline:** Applications are reviewed three times a year; the deadlines are the 1st of February, June, and October. Grants awarded during a particular cycle will be announced at the beginning of the following cycle.

## Foundation for Contemporary Art Accepting Applications for Emergency Grants

Since its inception in 1963, the mission of the Foundation for Contemporary Arts has been to encourage, sponsor, and promote innovative work in the arts created and presented by individuals, groups, and organizations.

Created in 1993, the foundation's Emergency Grants program provides grants of up to \$2,000 to innovative visual and performing artists who have unanticipated, sudden opportunities to present their work to the public when there is insufficient time to seek other sources of funding; or who incur unexpected or unbudgeted expenses for projects close to completion with committed exhibition or performance dates.

To be eligible, applicants must be living, working, and paying taxes in the United States; have committed to a performance or exhibition opportunity and be able to provide specific dates at the time of application;

and be an individual artist or an individual representing an artist collective, ensemble, or group. Curators, producers, workshop organizers, organizations, or arts presenters are not eligible to apply.

**Deadline:** OPEN

## Weyerhaeuser Giving Fund

We support the U.S. and Canadian communities where we have a significant presence or business interest. These communities range from rural to metropolitan, each with unique priorities and needs. Our employees serve on local advisory committees for our Giving Fund and develop funding priorities within four focus areas to support their particular communities. This provides a strong companywide framework for giving while allowing flexibility to meet unique needs in our different communities.

Through the Weyerhaeuser Giving Fund we concentrate the majority of our funding in four focus areas:

- Affordable Housing and Shelter
- Education and Youth Development
- Environmental Stewardship
- Human Services, Civic and Cultural Growth

To be eligible for funding, a program must:

- Serve a Weyerhaeuser community
- Be a tax-exempt, nonprofit public charity classified under Section 501(c)(3) of the U.S. Internal Revenue Code OR a registered charity in Canada with a Canada Revenue Agency Number, or registered as a provincial nonprofit society OR a public education institution or government entity qualified under Section 170(c)(1) of the U.S. Internal Revenue Code or qualified as a Canadian municipality.

## Wells Fargo Corporate Giving Programs

Wells Fargo supports nonprofit organizations that work on a community level in the areas of human services, arts and culture, community development, civic responsibility, education, environmental consciousness, and volunteerism.

**Deadline:** Applications accepted on an ongoing basis.

## Good Sports Accepting Applications for Sports Equipment Grant

Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization can focus on the respective needs of each program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for two years. During that time, organizations can make up to six separate donation requests — as long as the need is well documented, donations will be granted. There is no need to resubmit a full application again during the two years.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers a consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

**Deadline:** Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks before the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time.

## [Karma for Cara Foundation Invites Applications for Youth Microgrants](#)

The Karma for Cara Foundation is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the Johns Hopkins Kimmel Cancer Center. Cara and her two brothers began volunteering at a young age as part of their family's commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores.

**Deadline:** OPEN

## [VFW Accepting Applications From Veterans for Emergency Financial Assistance](#)

Veterans of Foreign Wars is accepting applications from active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. Since the program's inception, Unmet Needs has distributed more than \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The hardship must be the result of deployment, a military pay issue, or military-related illness or injury. It cannot be due to civil legal or domestic issues, misconduct, or any issues that are a result of spousal separation or divorce, financial mismanagement, or bankruptcy.

**Deadline:** OPEN

## [Start a Snowball Invites Applications for Youth Philanthropy Projects](#)

Start a Snowball, Inc. encourages kids of all ages to engage in philanthropic and community service activities. The organization believes that even one child with the right intentions and support can start a project that seems small in the beginning and eventually grows ("snowballs") into something that inspires and benefits an entire community.

To help kids, kick off their philanthropy efforts, start a Snowball awards \$100 in seed funding for projects taken on by individuals or organizations.

To be eligible, projects must be led by youth between the ages of 5 and 18 and have the intention of doing good.

Start a Snowball does not give directly to collection funds. The organization also does not provide support for fundraisers for sports teams, unless they serve an underserved or disadvantaged group or support projects that are discriminatory or political.

**Deadline:** Rolling

## [Craft Emergency Relief Fund Accepting Applications From Craftspeople in Need](#)

The Craft Emergency Relief Fund is a national nonprofit organization that awards small grants and loans to professional craftspeople experiencing career-threatening illness, accident, fire, theft, or natural disaster.

Financial assistance ranges from \$500 to \$8,000. Other services include referrals to craft suppliers who have agreed to offer discounts on materials and equipment to craftspeople eligible for CERF funds and booth fee waivers from specific craft show producers.

CERF loan recipients are expected to repay the loan in full within five years, enabling CERF to have funds readily available for future craftspeople in need.

Applicants must be a professional artist working in a craft discipline (e.g., a potter, metalsmith, glass artist, woodworker, fiber artist, or furniture maker) who has had a recent career-threatening emergency and a legal resident of the U.S.

**Deadline:** OPEN

## [Pollock-Krasner Foundation Accepting Applications From Artists With Financial Need](#)

The mission of the Pollock-Krasner Foundation is to aid those individuals who have worked as artists over a significant period. The foundation's dual criteria for grants are recognizable artistic merit and financial need, whether professional, personal or both.

Grants are intended for one year, with the size of the grant to be determined by the artist's circumstances and professional exhibition history. Artists applying for a grant must be actively exhibiting their current work in a professional artistic venue such as a gallery or museum space.

The foundation does not accept applications from commercial artists, video artists, performance artists, filmmakers, crafts-makers, computer artists, or any artist whose work primarily falls into these categories.

**Deadline:** OPEN

## [Pollination Project Invites Applications From Social Entrepreneurs for Seed Grants](#)

The Pollination Project is accepting applications from social entrepreneurs looking to make their communities and world a better place. Seed grants of up to \$1,000 will be awarded to projects in the early stages of development, including those that promote compassion toward all life (people, planet, animals), environmental sustainability, justice in all its forms, community health and wellness, and social change-oriented arts and culture. Only applications for seed funding, as opposed to ongoing operational or program costs of a nonprofit organization, will be accepted. To be eligible, applicants must be a passionate, committed individual with a social change vision that fits within one or more of the categories above. Established nonprofit organizations with paid staff will not be considered.

**Deadline:** OPEN

## [Hope for The Warriors Accepting Applications for Critical Care Support for Wounded Veterans](#)

Hope For The Warriors believes those touched by military service can succeed at home by restoring their sense of self, family, and hope. Nationally, the organization provides service members, veterans, and military families with comprehensive support programs focused on transition, health and wellness, peer engagement, and community resources.

Originally designed to meet short-term needs in the days following an injury, the Hope for The Warriors' Critical Care Coordination program has expanded to assist post-9/11 combat-wounded veterans and their families as they navigate through long-term recovery.

Program case coordinators work daily with post-9/11 combat-wounded service members and veterans, their families, and families of the fallen to meet immediate financial needs related to daily living including

utilities, groceries, rent, mortgage, and rental deposits. The program provides casework assistance and resource referrals that will help clients immediately and in the future. Payment is always made to a third party.

To be eligible, applicants must be seeking support for needs that are a direct result of a service member's post-9/11 combat-related injury.

**Deadline:** OPEN

## [Singing for Change Accepting LOIs for Projects to Address Social and Environmental Problems](#)

Created by Jimmy Buffett in 1995, Singing for Change initially was funded with contributions from the singer's summer concert tour. Since then, SFC has offered competitive grants to progressive nonprofit organizations working to address the root causes of social or environmental problems.

Priority will be given to organizations that keep their overhead low, include community members in planning, and collaborate with other groups to find innovative ways of solving common problems. SFC aims to advance the common good by empowering people to thrive and strengthen and sustain vibrant, diverse communities.

Grants will range in size from \$1,000 to \$10,000. Grants are made only to nonprofit organizations with tax-exempt status under section 501(c)(3) of the Internal Revenue Code, or to organizations that have a sponsoring agency with exempt status.

**Deadline:** Ongoing

## [A Little Hope Announces Youth Bereavement Support Services Grants](#)

A Little HOPE supports organizations that provide bereavement support services and grief counseling to children and teens who have experienced the death of a parent, sibling, or loved one.

To be considered, applicants must e-mail (no telephone calls) the name of their program, website address, names of the executive director and program director, and the location of the program. No other information is needed or will be processed. Strong preference will be given to applicants who demonstrate a commitment to the use of community trained volunteers. Grant award amounts are based on the scope and budget of the project.

**Deadline:** OPEN

## Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities

The mission of the Captain Planet Foundation is to promote and support high-quality educational programs that help children and youth understand and appreciate our world through hands-on learning experiences aimed at improving the environment in their schools and communities.

Grants are intended to serve as a means of bringing environment-based education to schools and inspiring youth and communities to participate in community service through environmental stewardship activities. The foundation will fund unique and innovative projects that do not precisely match the grant guidelines but otherwise promote the foundation's mission to advance hands-on environmental activities.

**Deadline:** January 31 (typically for fall and winter projects), September 30 (typically for spring and summer projects)

## Chambers of Commerce Invited to Start Young Entrepreneur Academies

The Young Entrepreneurs Academy today serves thousands of students across America. In 2011, the United States Chamber of Commerce Foundation became a national sponsor and partner of the academy to help celebrate the spirit of enterprise among today's youth and the future leaders of tomorrow.

To that end, YEA, in partnership with Sam's Club and the U.S. Chamber of Commerce Foundation, is accepting applications from chambers of commerce across the country to start Young Entrepreneurs academies of their own. The thirty-week program teaches students in grades 6-12 how to generate business ideas, conduct market research, write business plans, pitch to a panel of investors, and launch their own companies. In 2015, Sam's Club will award startup funds of up to \$2,500 each to thirty chambers of commerce across the country.

## Cornell Douglas Foundation Grant

The Cornell Douglas Foundation provides grants to organizations that advocate for environmental health and justice, encourage stewardship of the environment, and further respect for the sustainability of resources. The average grant amount is \$10,000.

**Deadline:** accepted all year

# Public Welfare Foundation

The Public Welfare Foundation has three programs, Criminal Justice, Juvenile Justice, and Workers' Rights, that support efforts to advance justice and opportunity for people in need. The Foundation looks for strategic points where its funds can make a significant difference and improve lives through policy and system reform that results in transformative change.

## **Criminal Justice Guidelines**

The Foundation's Criminal Justice Program supports groups that are working to end the over-incarceration of adults in the United States while also aiming to reduce racial disparities. In particular, the Program makes grants primarily to state-based groups that are working to:

- Reduce state incarceration levels and racial disparities through reforms in sentencing, charging, and supervision policies and procedures.
- Advance the redirection and prioritization of state and local resources toward targeted investments that support system-involved individuals in their communities, through research and strategic thought leadership.

## **Juvenile Justice Guidelines**

The Foundation's Juvenile Justice Program supports groups working to end the criminalization and reliance on the incarceration of youth in the United States. The Program makes grants to groups that are working to:

- Advance state policies that dramatically restrict juvenile justice systems' use of incarceration and out-of-home placements and prioritize the use of community-based programs for youth;
- End the practice of trying, sentencing, and incarcerating youth in the adult criminal justice system; and
- Promote the fair treatment of youth of color who come into contact with the juvenile justice system.

## **Workers' Rights Guidelines**

The Foundation's Workers' Rights Program supports policy and system reforms to improve the lives of low-wage working people in the United States, with a focus on securing their basic legal rights to safe, healthy, and fair conditions at work. Specifically, the Program makes grants to groups working to:

- Advance reforms to hold employers accountable for wage theft;
- Advance reforms to prevent severe illness, injury, and death on the job; and
- Advance workers' rights in complex, fissured employment arrangements through research and strategic thought leadership.
-

## [Ben & Jerry's Foundation Seeks Proposals for Social and Environmental Justice Projects](#)

One-year grants of up to \$20,000 will be awarded to nonprofit grassroots community-organizing groups in the United States working to further social and environmental justice and support sustainable and just-food systems. Grants can be used to support both program and operational costs.

## [KaBOOM! Invites Applications for Community Playground Grants](#)

KaBOOM!, a program that provides eligible communities with most of the funds, tools, and resources they need to build a custom-made playground in one day.

**Deadline:** OPEN

## [Binoculars for Young Citizen Scientists](#)

Cornell's BirdSleuth K-12 initiative is awarding binoculars to schools where educators have made outstanding efforts to engage their students in citizen science.

**Deadline:** OPEN

## [International Paper Environmental Education Grants](#)

The International Paper (IP) Foundation supports non-profit organizations in communities where its employees live and work. Environmental education is one of the primary areas the Foundation supports. The Foundation seeks programs that help generations understand a sustainable approach to business that balances environmental, social, and economic needs.

## [Lego Children's Fund](#)

The LEGO Children's Fund provides grants primarily in two focus areas: (1) early childhood education and development that is directly related to creativity and (2) technology and communication projects that

advance learning opportunities. Typical awards are between \$500 and \$5,000. Interested parties must complete an eligibility quiz, be approved, and invited to submit a grant proposal. Each grant will be subject to a specified time frame for completion.

**Deadline:** Applications accepted four times a year.

## Evidence for Action: Investigator-Initiated Research to Build a Culture of Health

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs, and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

**Deadline:** Open

## Pioneering Ideas Brief Proposals

The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted territory to better understand what new trends, opportunities, and breakthrough ideas can enable everyone in America to live the healthiest life possible.

While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health. Ultimately, we support work that will help us learn what a Culture of Health can look like—and how we can get there.

**Deadline:** Open

## Section IV STATE OF ALABAMA GRANTS

### Alabama Power Foundation Grant

The Alabama Power Foundation Grant offers funds to nonprofit organizations in Alabama working in one of the following areas:

- Health
- Human services
- Arts
- Community life
- Education
- Environment

Priority is given to projects that address underserved segments of the population and can be duplicated in other communities.

### Alabama Board of Medical Scholarship Awards

The Alabama Board of Medical Scholarship Awards offers forgivable loans to students enrolled in an Alabama medical school who agree to practice primary care in a pre-approved medically, underserved community in Alabama upon graduation.

Loans are repaid at the rate of one year of service per year of the loan.

**Deadline:** Applications accepted on an ongoing basis.

### Economic Development Fund

Land, facilities, and infrastructure to benefit an industry that will create jobs. Create a minimum of 15 permanent jobs to benefit 51% low to moderate-income beneficiaries. Continuous. Applications are taken throughout the year. Maximum request: \$250,000. Minimum Request: \$50,000. Note: Waiver of the match available for applicants with 2010 Census population of 1,000 or less. May also waive the grant ceiling for projects that demonstrate significant long-term economic benefit to the State.

**Contact:** Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, [shabbier.olia@adeca.alabama.gov](mailto:shabbier.olia@adeca.alabama.gov)

# Economic Development Incubator projects

Units of local government. Applicants must maintain active registration with SAM. The program must benefit 51% of low to moderate-income beneficiaries. The project must commit to creating jobs. Maximum request: \$250,000. Match request: 20%. Applications are taken throughout the year. Award upon approval and as funding is available. Application workshop held in April and compliance workshop held in the fall.

**Contact:** Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, [shabbier.olia@adeca.alabama.gov](mailto:shabbier.olia@adeca.alabama.gov)

## States' Economic Development Assistance Program (SEDAP)

Applicants: State and local units of governments, public bodies, and non-profit entities. Eligible counties in West Alabama: Bibb, Fayette, Hale, Lamar, Pickens, and Tuscaloosa.

**Activities:** Water and wastewater facilities, telecommunications, health care, planning activities, leadership development, education and training programs, business development, and entrepreneurship.

**Requirements:** Project must meet one of ARC's goals: increase job opportunities and per capita income, strengthen the capacity of people to compete in the global economy or develop and improve infrastructure to make the Region economically competitive. Construction projects funded by ARC must have an "Administering Agency" such as ADECA, USDA Rural Development or TVA. The project will be administered by and take on the requirements of that agency

**Deadline:** Pre-application due date in August. Applicant notified in late fall/winter if a full application is requested. Award announcements typically made in May.

**Contact:** Alabama Department of Economic and Community, Affairs (ADECA), Jimmy Lester, ARC Program Manager (334) 353-4490, [jimmy.lester@adeca.alabama.gov](mailto:jimmy.lester@adeca.alabama.gov)

## Alabama Humanities Foundation Grants

Applicants are encouraged to develop projects for a wide variety of audiences including library and museum patrons, teachers and scholars, youth, senior citizens, nursing home residents, hospital patients, the economically disadvantaged, the incarcerated, and the hearing and sight-impaired.

### **Application submission deadlines:**

- Major Grants (\$1,500 and up) – February 15, June 16, September 15
- Minor Grants (\$1,500 or less) – February 15, June 16, September 15

## Bank of America Grant

The Bank of America (BoA) offers grants that support high-impact initiatives, organizations, and the development of visionary leaders. Schools with farm-to-school type programs may be eligible under the funding areas:

- Developing Career Leadership and Skills: Opportunities that increase civic and community engagement, career exploration and youth employment, financial knowledge and life-skill and soft-skill development
- Assisting with Food Access: Food deserts, green/fresh food access, etc

BoA's Charitable Foundation provides philanthropic support to address needs vital to the health of communities through a focus on preserving neighborhoods, educating the workforce for 21st-century jobs, and addressing critical needs, such as hunger. **Deadline:** Requests for proposals are issued three times per year.

## Costco Wholesale Grants

Costco Wholesale grants support programs focusing on children, education and health and human services. They look to achieve the greatest impact where Costco's employees and members live and work. Only 501(c)(3) nonprofit organizations, which meet their giving guidelines and focus areas, are considered.

**Deadline:** Applications are accepted throughout the year on a rolling basis.

## Walmart Foundation National Giving Program Grants

Through its National Giving Program, the Walmart Foundation awards grants of \$250,000 and above to non-profit organizations that operate on a national scope through chapters/affiliates in many states around the country or through programs that operate regionally/locally but seek funding to replicate program activities nationally.

Areas of focus for the Foundation include:

- Hunger Relief & Healthy Eating
- Sustainability
- Women's Economic Empowerment
- Career Opportunity

**Deadline:** OPEN

# William G. McGowan Charitable Fund Issues Request for Proposals for Projects That Address Homelessness

The fund will award grants in support of initiatives that seek to correct circumstances contributing to homelessness, as well as initiatives designed to help eradicate the condition of homelessness in the long term.

**Deadline:** OPEN

## Financial Aid

### **[FAFSA \(Free Application for Federal Student Aid\)](#)** **[Federal Aid Website](#)**

## Fellowship Search

### **[National Endowment for the Humanities](#)**

Fellowships support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources in the humanities. Projects may be at any stage of development.

## Section VI RESOURCES

[THE UPDATED GRANT AND LOAN GUIDE FOR LOCAL GOVERNMENTS IN WEST ALABAMA IS AVAILABLE ONLINE NOW!](#)

*The guide is a quick reference to a variety of commonly used programs giving you the most important details you need to get started.*

Find the Guide at <http://warc.info/planning-a-development/documents><http://warc.info/planning-a-development/documents>. Scroll down to REGIONAL INFORMATION DOCUMENTS.

The guide is a free web-based resource designed to provide counties and municipalities in the West Alabama region with information about available grant and loan programs for community and economic development activities.

The guide provides program details on major Federal and State programs including agency contacts; award cycles; grant ceilings; matching requirements; and eligibility factors.

### Healthcare

Website: <https://sewell.house.gov/aca-you>

### **Alabama Additional Funding Sources**

## **Community Foundations in Alabama**

There are 13 community foundations in Alabama, covering 78 percent of the counties in the state and holding assets that total more than \$190 million.

### **Daniel Foundation**

The Daniel Foundation offers grants in four program areas: Civic and Community Improvement, Education, Health, and Arts and Culture. Applications are limited to 501 (c)(3) organizations that are located in Alabama.

### **Alabama Power Foundation**

The Alabama Power Foundation allocates funding in four categories: Improving Education, Strengthening Communities, Promoting Arts and Culture, and Restoring and Enhancing the Environment.

### **Alabama Humanities Foundation**

The AHF awards grants solely to support public humanities projects. Active public participation, the involvement of humanities scholars, and strong humanities content are the three essential components of AHF-funded projects.

### **Gwyn Turner Endowed Fund**

The fund is administered by the National Trust for Historic Preservation, in partnership with Alabama Trust. Nonprofits and governmental agencies can obtain funding for preservation planning, heritage education, workshops, conferences, and special interventions. Grants range from \$1,000 to \$5,000 and require a 1:1 cash match.

Applicants are encouraged to discuss their project with the National Trust Southern Office before applying. Contact the Southern Office at 843.722.8552, or e-mail [soro@nthp.org](mailto:soro@nthp.org).

## Sybil H. Smith Trust

Established in 1983, this trust funds organization in the First Congressional District only. Awards limited to arts, community development, education, and human services. No awards are given for individuals. For more information, call: 251.432.0208.

## Alabama State Council on the Arts

Grants awarded to nonprofit organizations and local governments in the following categories: Presenting Grants, Project Assistance, Operating Support, Technical Assistance, Collaborative Ventures, and Program Development.

## Historic Chattahoochee Commission

The Historic Chattahoochee Commission (HCC) promotes tourism and historic preservation in the Chattahoochee Trace, an 18-county region in Alabama and Georgia. The HCC supports preservation through two grant programs: Seed Grant and the Threatened Landmarks Program.

Veterans

## FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high-quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members, and spouses are connected to high-quality career choices by matching their identified skills with the available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

### **Veteran Applicant Resources:**

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

## Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden's Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans, and transitioning Service Members deserve a single, authoritative source for connecting. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at <https://www.ebenefits.va.gov/ebenefits/jobs%20%20>

For a tutorial video on how to use the Veterans Employment Center, please visit:
