

Guide to Grants

From the Office of Congresswoman Terri A. Sewell

Proudly Representing Alabama's 7th Congressional District

June 1, 2021

Welcome to the *Guide to Grants!*

I am honored to represent the 7th Congressional District of Alabama. As your representative during this unprecedented crisis of the **COVID-19 Pandemic**, it remains my top priority to provide you with the resources we need to keep our community safe and thriving. I will work diligently to provide you with the most current information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our health and safety. This guide will identify federal, corporate, and foundation grant opportunities to assist you in goals for our communities. This guide will include links to federal agencies and resources to help you make your proposals more successful. This guide will also describe new funding opportunities for economic development, infrastructure, healthcare, and educational projects. Also, I am pleased to provide a Letter of Support for grant application projects in the 7th Congressional District of Alabama. Stay up to date with the latest information at <http://sewell.house.gov> Please continue to let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit our website at <http://sewell.house.gov>. To subscribe to *Guide to Grants*, sign up on our [website](#) or call us at 205.254.1960. Previous editions of the *Guide to Grants* are archived and can be found [here](#).

[Reps. Sewell, Bilirakis Introduce Legislation to Ensure Timely Access to Treatment for Patients with Cancer](#)

This Congress, U.S. Reps. Terri Sewell (AL-07) and Gus Bilirakis (FL-12), introduced H.R. 3258, the Timely Access to Cancer Treatment (TACT) Act of 2021. This legislation would require that patients with cancer be provided their oral cancer drugs within an acceptable time frame.

CONGRESSWOMAN TERRI A. SEWELL – REPRESENTING ALABAMA'S 7TH DISTRICT

Washington D.C. Office | 2201 Rayburn House Office Building | Washington, D.C. 20515

<https://Sewell.House.Gov> | Phone: (202) 225-2665 | Fax (202) 226-9567

“Undergoing treatment for cancer is difficult enough. No patient should also have to worry about delays in receiving potentially life-saving medication,” said Rep. Sewell. “The TACT Act is a simple, commonsense solution that would remove unnecessary roadblocks and empower doctors to get their patients the critical care that they need in a timely manner. I am proud to introduce this bill and urge my colleagues to support it.”

“This bill is about removing the red tape within our healthcare system and ensuring that cancer patients have timely access to their medications,” said Rep. Gus Bilirakis, lead Republican co-sponsor. “Doctors, not bureaucrats, best understand the needs of their patients and should be empowered with the tools needed to provide the best possible care—especially when time is of the essence.”

Background on the TACT Act

Patients’ access to the appropriate cancer treatment within a reasonable time frame is increasingly challenged by our complex health care delivery system. This is especially true for oral cancer drugs. Pharmacy benefit managers (PBMs), health insurance plan sponsors, and specialty and mail order pharmacies are notorious for slowing down the process by which patients receive their oral cancer drugs, even in cases where an oncology practice can provide those drugs at the site of care via an in-house pharmacy or dispensing facility. In some cases, PBMs etc. even disallow the drugs prescribed.

The TACT Act provides a simple solution by requiring that patients be provided their oral cancer drugs within an acceptable time frame of 72 hours, allowing for situations – such as acquiring financial support – that are understandable and acceptable.

Specifically, the bill will:

Require PBMs, plan sponsors, insurers, and pharmacies, including specialty and mail order pharmacies, to ensure that a cancer patient is able to receive his or her prescription medication within 72 hours of having the prescription submitted to the patient’s pharmacy benefit plan provider in order to ensure that there is not undo delay in the initiation of the patient’s cancer treatment;

Allow patients who are not able to receive their prescription from a pharmacy benefit plan provider within 72 hours to seek pharmacy services and receive their prescription medication from any other duly-licensed entity that can fill the patient’s prescription and require that it be covered under the patient’s plan with full use of the patient’s applicable benefit(s);

Require pharmacy benefit plan providers receiving the prescription to confirm within 24 hours to the patient’s prescriber receipt of the prescription and the ability to fill it within the 72-hour period; and

Require that any prior authorization required by the pharmacy benefit plan provider take place in such a time that the 72-hour time limit is not exceeded.

“Patients facing cancer must be able to receive the medications their doctors prescribe in a timely manner, without unnecessary delays by PBMs. The TACT Act of 2021 helps overcome the tremendous barriers to patient care that oncologists have, unfortunately, become all too familiar with,” said Kashyap Patel, M.D., President of the Community Oncology Alliance (COA) and a practicing medical oncologist at Carolina Blood and Cancer Care in Rock Hill, South Carolina. “Cancer is deadly and can evolve quickly. Patients

have enough on their hands dealing with the disease without fighting middlemen to get their drugs. Thanks to Congresswoman Sewell for her leadership along with Congressman Bilirakis in introducing a bipartisan bill that empowers patients with cancer. I hope others in Congress will join them in supporting this important legislation.”

[Rep. Sewell Votes to Create Independent, Bipartisan Commission to Investigate January 6th Insurrection](#)

U.S. Rep. Terri Sewell (AL-07) voted to pass H.R. 3233, the National Commission to Investigate the January 6th Attack on the U.S. Capitol Complex Act, which would establish a bipartisan, 9/11-style commission of experts to investigate the events of January 6th when an armed mob of insurrectionists incited by then-President Trump stormed the United States Capitol Building to stop the certification of the 2020 Presidential election.

“The violent assault on the U.S. Capitol that occurred on January 6th marked a dark day in America’s history,” said Rep. Sewell. “As I was lying on the floor in the House Chamber huddled with other Members of Congress, struggling to fit on a gas mask and fearing the impending violence, I trembled and wept not only for our safety but for the future of our democracy. While we managed to escape unharmed, I was devastated to learn that the mob, incited by President Trump, caused the deaths of five Americans including one Capitol Police officer.”

“While hundreds of prosecutions are underway, many unanswered questions remain about how such an attack could have happened,” continued Sewell. “For months, scores of national security professionals and patriotic Americans on both sides of the aisle have been calling for a 9/11-style commission to investigate this attack, and I am proud to join my colleagues in voting to make such a commission a reality. Such an unprecedented assault on our democracy demands nothing less.”

On January 6th, the U.S. Capitol was attacked by hundreds of insurrectionists as the Congress voted to certify the results of the presidential election. The storming of the Capitol threatened the lives of Members of Congress, staff, workers and D.C. and Capitol Police – resulting in five deaths, more than 140 injuries to law enforcement officers and lasting terror and trauma. In the wake of the worst attack on our Capitol since the British set the Capitol on fire in 1814, many unanswered questions remain.

That is why the bipartisan leadership of the House Homeland Security Committee worked hard to reach a bipartisan agreement on an independent and impartial commission to investigate the attack and recommend improvements to Capitol security. This Commission closely mirrors the 9/11 Commission and has the endorsement of the bipartisan 9/11 Commission Chairs, Governor Tom Kean and Congressman Lee Hamilton.

Key Features of the Commission:

Like the 9/11 Commission, it will be a 10-person bipartisan commission with five commissioners, including the Chair, appointed by the Speaker of the House and the Majority Leader of the Senate and five commissioners, including the Vice Chair, appointed by the Minority Leaders of the House and Senate.

Commissioners must have significant expertise in the areas of law enforcement, civil rights, civil liberties, privacy, intelligence, and cybersecurity.

Current government officers or employees are prohibited from appointment.

Like the 9/11 Commission, the Commission will be granted authority to issue subpoenas to secure information to carry out its investigation but only upon agreement between the Chair and the Vice Chair or a vote by a majority of Commission members.

It has an explicitly narrow focus to investigate the January 6 attack and the events that led to it.

The Commission will be required to issue a final report with findings regarding the facts and causes of the attack, along with recommendations to prevent future attacks on our democratic institutions, by December 31, 2021.

Reps. Sewell, McKinley, Kuster, and Fitzpatrick Introduce Legislation to Expand Access to Non-Opioid Medication, Stem Opioid Epidemic

U.S. Rep. Terri Sewell (AL-07) along with Reps. David McKinley (WV-01), Ann Kuster (NH-02), and Brian Fitzpatrick (PA-01), introduced H.R. 3259, the Non-Opioids Prevent Addiction in the Nation (NOPAIN) Act. This legislation would help break down barriers to non-opioid pain management for those enrolled in Medicare, thereby helping stem the country's opioid epidemic.

Specifically, the bill would address payment disincentives for practitioners to prescribe non-opioid treatment alternatives in surgical settings by requiring the Centers for Medicare and Medicaid Services (CMS) to place non-opioid treatments on par with other separately paid drugs and devices in Medicare Part B.

“The opioid epidemic has devastated families and communities across this Nation, and it is incumbent upon all of us in Congress to make addressing this crisis a priority,” said Rep. Sewell. “Fortunately, many non-opioid treatments and therapies exist that can successfully replace, delay, or reduce the use of opioids in treating post-surgical pain and lessen the risk of addiction.”

“The NOPAIN Act would make critical changes to the way Medicare classifies non-addictive opioid alternatives and would empower doctors to prescribe treatments that are best-suited for their patients' needs,” continued Sewell. “I am proud to introduce this critical legislation to prevent the continued needless loss of life.”

“While most of the attention has been paid to the Covid pandemic in the last year, our nation’s substance abuse epidemic has grown event worse. Yet, our healthcare system still unnecessarily encourages the use of opioids,” said Rep. McKinley, lead Republican co-sponsor. “Our bill would ensure that non-opioid drugs and devices to treat and manage pain are not put at a disadvantage. While pain management for all patients should be handled between a patient and doctor, opioids should not be the first or only option given.”

“I am pleased to help introduce this bipartisan legislation which will expand access to non-opioid pain management alternatives for patients,” said Rep. Kuster, lead Democratic co-sponsor. “The NOPAIN Act marks a critical step in our national efforts to curb the opioid epidemic and ensure that patients have viable non-opioid alternatives that present a lower risk of addiction and misuse. I look forward to working with my colleagues on both sides of the aisle in advancing this bipartisan legislation.”

“The substance and opioid use disorder crises have affected countless families and communities across the United States,” said Rep. Fitzpatrick, lead Republican co-sponsor. “I am proud to cosponsor the bipartisan NOPAIN Act, which would limit unnecessary exposure to opioids by ensuring access to non-addictive therapy alternatives for Americans who have undergone outpatient surgical procedures. Now, more than ever, Americans should have access to medical treatment without fear of developing a substance use disorder as a result.”

According to the Centers for Disease Control and Prevention (CDC), opioids are the main driver of drug overdose deaths in the United States, accounting for 70,630 deaths in 2019 which comprise 70% of the total drug overdoses that year. Additionally, the CDC estimates that the economic costs associated with prescription opioid misuse exceed \$78.5 billion annually. These costs include those associated with health care, lost productivity, addiction treatment, and the judicial system.

Research shows that patients receiving an opioid prescription after short-stay surgeries have a 44% increased risk of opioid use. One 2018 study showed that 12 percent of patients who had a soft tissue or orthopedic operation in the year prior reported that they had become addicted to or dependent on opioids.

“The United States continues to battle a wide-ranging drug overdose epidemic fueled by illicitly manufactured fentanyl and fentanyl analogs, methamphetamine, cocaine, and heroin. Deaths related to prescription opioids also remain too high,” said Susan R. Bailey, M.D., President of the American Medical Association. “To counter this grim reality, the AMA supports a comprehensive approach to help patients with pain, including removing barriers to non-opioid alternatives. The AMA applauds Reps. Sewell, McKinley, Kuster, and Fitzpatrick for introducing the NOPAIN Act. Providing separate payments for non-opioid alternatives is a vital part of the overarching strategy of offering patients options for coping with pain while simultaneously aiding the fight against the epidemic of drug overdose and death.”

[Rep. Sewell Announces Winner of the Congressional Art Competition for Alabama's 7th Congressional District](#)

U.S. Rep. Terri Sewell (AL-07) announced the winner of the Congressional Art Competition for Alabama's 7th Congressional District. The announcement comes following a virtual reception held Thursday, May 13, where Rep. Sewell joined participants and judges in celebrating the artwork submitted. This year, 14 pieces were submitted from talented high school students across Alabama's 7th District. Demetrius Hill, a 9th grader at Center Point High School, was awarded first place for his submission entitled "Art and Activism: Stop Taking Our Fur."

"This year's winner, Demetrius Hill, did a wonderful job of creating a piece that not only captured this year's theme, 'Imagine Alabama - Dreaming the Unthinkable,' but also served as a powerful political statement," said Rep. Sewell. "His piece truly speaks to the power of our youth and their dedication to activism. It is my honor each year to host this competition and although I wish that I could display all of the amazing artwork submitted, I am still filled with pride to have Demetrius' work displayed in the Halls of Congress over the next year."

"It is a great honor that I have placed first in this contest. I didn't expect to win or even place at such a high rank," said Demetrius Hill. "For my artwork to win makes me very happy and motivates me to continue making art. What inspired me for this piece is my love of bears and how I thought it is bad that they are sometimes killed in order to become a rug for someone's house. I decided to draw a bear protesting against these events and that is also how I came up with the name 'Stop Taking Our Fur.' Thank you so much for this honor of having my art on display in the U.S. Capitol Building and for the scholarship! I can't wait to face my fear of heights and fly on a plane for the first time ever when I come to Washington D.C. for the show!"

"I am so honored and proud as his teacher that Demetrius' artwork has received the first-place selection for the Congressional Art Competition. In our Art and Activism Unit, we explored many different causes and movements throughout history up to current day that have been catalysts to positive social change," said Leah Hamel, Visual Arts teacher at Center Point High School. "Each student selected a cause that they believe in to create their artwork about, and Demetrius was very interested in the idea of man's influence

on the wild and animal rights. Through his research, he decided to focus on animals that are hunted for luxury fur. He developed this piece over a month, learning new techniques and practicing daily. Center Point High School is so proud of Demetrius, and we look forward to being a part of his educational growth over the next few years of his high school career.”

Hill’s artwork will be matted, framed, and displayed in the Cannon Tunnel in Washington, D.C. for one year. He and a guardian will receive roundtrip airfare to Washington, D.C. to attend the National Congressional Art Competition Reception.

Contingent upon enrolling, Savannah College of Art and Design will award the winner a scholarship of \$12,000.

The other students that placed were:

2nd Place- KB Hawkins, 9th grader at McAdory High School in McCalla, Alabama.

3rd Place- Kursty Robinson, 12th grader at Thomasville High School in Thomasville, Alabama.

Honorable Mention- JinWoo Brian Jeong, 9th grader at Northridge High School in Tuscaloosa, Alabama.

Photos of each participant's artwork and information on each artist and judge can be found [here](#).

GRANT ALERT!

COVID-19 Economic Injury Disaster Loan

This loan provides economic relief to small businesses and nonprofit organizations that are currently experiencing a temporary loss of revenue. In response to COVID-19, small business owners, including agricultural businesses, and nonprofit organizations in all U.S. states, Washington D.C., and territories can apply for the COVID-19 Economic Injury Disaster Loan (EIDL). Click [here](#)

Shuttered Venue Operators Grant

This grant provides emergency assistance for eligible venues affected by COVID-19. The Shuttered Venue Operators Grant (SVOG) program was established by the Economic Aid to Hard-Hit Small Businesses, Nonprofits, and Venues Act, and amended by the American Rescue Plan Act. The program includes over \$16 billion in grants to shuttered venues, to be administered by SBA’s Office of Disaster Assistance.

Eligible applicants may qualify for grants equal to 45% of their gross earned revenue, with the maximum amount available for a single grant award of \$10 million. \$2 billion is reserved for eligible applications with up to 50 full-time employees. Click [here](#)

Section I GENERAL GRANT INFORMATION

- Grants and Federal Domestic Assistance - Guidance and key resources to help eligible constituents find information on federal grants, loans, and nonfinancial assistance for projects, as well as on private funding. Prepared by the Congressional Research Service for Members of Congress, updated May 2014. Website: <http://sewell.house.gov/grant-information/>
- A federal grant is an award of financial assistance from a federal agency to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States. Federal grants are not federal assistance or loans to individuals. A federal grant may not be used to acquire property or services for the federal government's direct benefit. The 26 federal agencies offer over 1,000 grant programs annually in various categories. Website: <http://www07.grants.gov/aboutgrants/grants.jsp>
- To learn about Federal grant opportunities, register your organization, and receive notices, please visit www.grants.gov. It is the resource for all Federal grants.
- To apply for Federal Grants: http://www.grants.gov/applicants/apply_for_grants.jsp
- [Grants.gov](http://www.grants.gov) Applicant Training Video - Need a quick lesson on how to Register, Find, and Apply? Watch this short video to get tips on registering with Grants.gov; finding grant opportunities; understanding your search results; and, applying for opportunities.
- To learn about foundation grant opportunities, please visit <http://foundationcenter.org/>. The Foundation Center is a gateway to information about private funding sources and provides guidelines about how to write a grant proposal. It also provides links to state libraries with grants reference collections and links to other useful Internet websites.

SARS-CoV-2 (COVID-19) Program Activities CFDA 93.990

The Office of the Assistant Secretary for Health (OASH) has established the Laboratory and Diagnostics Working Group (LDWG) seeking submissions to a Broad Agency Announcement (BAA) “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” (Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139)). OASH/LDWG seeks proposals for projects that will further enable the coordination and development of testing and associated products that meet the current and future needs, and the effective transition of technology into broad use without impediments. The primary areas of focus should specifically include (1) Scaling and Networking of Technologies, and (2) Testing Demonstrations & Technical Assistance. Specifically, OASH is interested in submissions that will substantially increase our testing capacity and quality in the near term, and do not fall within the scope of other HHS programs.

When posted, the funding opportunity announcement (FOA) will provide guidance for applicants on the submission of short white papers, which after review, may be followed by full proposal submissions for consideration for funding. Applicants will have the option of forgoing the white paper submission for direct submission of a full proposals. Applications will be accepted and reviewed on a rolling basis to address immediate public needs. Applicants must submit white papers and applications through Grants.gov according to the instructions in the FOA. Applicants must have an active SAM registration at the time of submission and maintain an active registration throughout the review process and during any award that may result.

BACKGROUND: On January 31, 2020, HHS Secretary Alex M. Azar II declared a public health emergency in response to the 2019 novel coronavirus, now known as SARS-CoV-2, or COVID-19. Testing is vital to prevent and contain outbreaks that may occur as economic and social activities expand across the country. Accordingly, the Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139) provides funding to HHS to “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” As part of the response to this requirement, and in order to administer agency actions to mitigate the pandemic, the Office of the Assistant Secretary for Health (OASH) Laboratory and Diagnostics Working Group (LDWG) complements existing efforts within the Department. To meet current and future challenges with the least possible risk, the nation needs more testing - with increasingly diverse, accurate, and affordable platforms – that are tailored to specific use cases.

Deadline: TBD

[Announcement to Support Novel, High-Impact Studies Evaluating Health System and Healthcare Professional Responsiveness to COVID-19 \(CFDA 93.226\)](#)

The health systems research community should prepare to submit applications to AHRQ to fund critical research focused on evaluating topics such as innovations and challenges encountered in the rapid expansion of telemedicine in response to COVID-19, effects on quality, safety, and value of health system response to COVID-19, and the role of primary care practices and professionals during the COVID-19 epidemic. AHRQ is particularly interested in understanding how digital health innovations contributed to health system and healthcare professional innovation and challenges and solutions to meeting the needs of vulnerable populations including older adults, people living with multiple chronic conditions, rural communities, and uninsured and underinsured populations.

[Limited Competition Emergency Awards: Shared Personal Protective Equipment Resources for COVID-19 Related Vaccine and Treatment Clinical Trials and Clinical Studies \(S10 Clinical Trial Not Allowed\) CFDA 93.855](#)

The purpose of this public health emergency funding opportunity is to provide Personal Protective Equipment (PPE) to directly support the needs of the NIAIDs vaccine and treatment clinical trials and clinical studies for COVID-19. This program will ensure that adequate protective equipment is available to directly assist in safely carrying out the clinical activities and direct interactions with the patients participating in the trial. Eligibility is limited to recipients conducting COVID-related clinical research and clinical studies supported by NIAIDs emergency appropriation provided by The Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 and The Coronavirus Aid, Relief and Economic Security (CARES) Act.

Environmental Protection Agency

Environmental Justice Collaborative Problem-Solving (EJCPS) Cooperative Agreement Program **CFDA 66.306**

The U.S. Environmental Protection Agency (EPA) is working to improve the environment and public health conditions of low-income communities and communities of color through the advancement of racial equity and environmental justice. This funding announcement supports the priorities detailed in President Biden’s Executive Order 13985 titled Advancing Racial Equity and Support for Underserved Communities Through the Federal Government and Executive Order 14008 titled Tackling the Climate Crisis at Home and Abroad. EPA continues to make effective responses to the Novel Coronavirus (COVID-19) and the climate crisis top priorities. To address these multiple crises, this announcement places emphasis on projects focusing on COVID-19 impacts, as well as climate and disaster resiliency. EPA continues to make effective responses to the Novel Coronavirus (COVID-19) and the climate crisis top priorities. To address these multiple crises, this announcement prioritizes projects focusing on COVID-19 impacts, as well as climate and disaster resiliency. The Environmental Justice Collaborative Problem-Solving (EJCPS) Cooperative Agreement Program provides funding to support community-based organizations in their efforts to collaborate and partner with local stakeholder groups (e.g., local businesses and industry, local government, medical service providers, and academia) as they develop community-driven solutions that address environmental and/or public health issues for underserved communities. For purposes of this announcement, the term “underserved community” refers to a community with environmental justice concerns and/or vulnerable populations, including people of color, low income, rural, tribal, indigenous, and homeless populations. Eligible projects must demonstrate use of the Environmental Justice Collaborative Problem-Solving Model to support their collaborative efforts during the project period. Applying organizations should have a direct connection to the underserved community impacted by the environmental harms and risks detailed in the workplan.

Deadline: June 01, 2021

Environmental Justice Small Grants Program CFDA 66.604

The U.S. Environmental Protection Agency (EPA) is working to improve the environment and public health conditions of low-income communities and communities of color through the advancement of racial equity and environmental justice. This funding announcement supports the priorities detailed in President Biden’s Executive Order 13985 titled Advancing Racial Equity and Support for Underserved Communities Through the Federal Government and Executive Order 14008 titled Tackling the Climate Crisis at Home and Abroad. EPA continues to make effective responses to the Novel Coronavirus (COVID-19) and the climate crisis top priorities. To address these multiple crises, this announcement places emphasis on projects focusing on COVID-19 impacts, as well as climate and disaster resiliency. Additionally, EPA is emphasizing projects addressing diesel pollution in underserved communities living near ports and railyards as part of EPA’s Ports Initiative (see details further described in this solicitation). Finally, to promote equitable accessibility to EPA grant funding and to assist small entities, approximately half of the total available funding under this announcement is intended to be reserved for small non-profit organizations with 10 or fewer full-time

employees subject to the quality of applications received and other relevant considerations. Under this solicitation, therefore, there will be two separate ranking lists developed- one for small non-profit organizations of 10 or fewer full-time employees and one for all other eligible applicants as further described in this solicitation.

Deadline: June 01, 2021

Institute of Museum and Library Services

National Aeronautics and Space Administration

ROSES 2021: Earth Science Applications: Health and Air Quality

The National Aeronautics and Space Administration (NASA) Science Mission Directorate (SMD) released its annual omnibus Research Announcement (NRA), Research Opportunities in Space and Earth Sciences (ROSES) – 2021 (OMB Approval Number 2700-0092, CFDA Number 43.001) on February 12, 2021. In this case "omnibus" means that this NRA has many individual program elements, each with its own due dates and topics. All together these cover the wide range of basic and applied supporting research and technology in space and Earth sciences supported by SMD. Awards will be made as grants, cooperative agreements, contracts, and inter- or intra-agency transfers, depending on the nature of the work proposed, the proposing organization, and/or program requirements. However, most extramural research awards deriving from ROSES will be grants, and many program elements of ROSES specifically exclude contracts, because contracts would not be appropriate for the nature of the work solicited. The typical period of performance for an award is three years, but some programs may allow up to five years and others specify shorter periods. In most cases, organizations of every type, Government and private, for profit and not-for-profit, domestic and foreign (with some caveats), may submit proposals without restriction on teaming arrangements. Tables listing the program elements and due dates, the full text of the ROSES-2021 solicitation, and the "Summary of Solicitation" as a stand-alone document, may all be found NSPIRES at <http://solicitation.nasaprs.com/ROSES2021>.

This synopsis is associated with one of the individual program elements within ROSES, but this is a generic summary that is posted for all ROSES elements. For specific information on this particular program element download and read the PDF of the text of this program element by going to Tables 2 or 3 of this NRA at <http://solicitation.nasaprs.com/ROSES2021table2> and <http://solicitation.nasaprs.com/ROSES2021table3>, respectively, click the title of the program element of interest, a hypertext link will take you to a page for that particular program element. On that page, on the right side under "Announcement Documents" the link on the bottom will be to the PDF of the text of the call for proposals. For example, if one were interested in The Lunar Data Analysis Program (NNH21ZDA001N-LDAP) one would follow the link to the NSPIRES page for that program element and then to read the text of the call one would click on "C.8 Lunar Data Analysis (.PDF)" to download the text of the call. If one wanted to set it into the context of the goals, objectives and know the default rules for all elements within Appendix C, the planetary science division,

one might download and read “C.1 Planetary Science Research Program Overview (.PDF)” from that same page. While the letters and numbers are different for each element within ROSES (A.12, B.7, etc.) the basic configuration is always the same, e.g., the letter indicates the Science Division (A is Earth Science, B is Heliophysics etc.) and whatever the letter, #1 is always the overview.

Frequently asked questions for ROSES are posted at <http://science.nasa.gov/researchers/sara/faqs>. Questions concerning general ROSES-2021 policies and procedures may be directed to Max Bernstein, Lead for Research, Science Mission Directorate, at sara@nasa.gov, but technical questions concerning specific program elements should be directed to the point(s) of contact for that particular element, who may be found either at the end of the individual program element in the summary table of key information or on the web list of topics and points of contact at: <http://science.nasa.gov/researchers/sara/program-officers-list>.

Deadline: June 18, 2021

ROSES 2021: Precipitation Measurement Missions Science Team

Please note that this program requests optional Notices of Intent, which are due via NSPIRES by May 13, 2021. See the full posting on NSPIRES for details.

The National Aeronautics and Space Administration (NASA) Science Mission Directorate (SMD) released its annual omnibus Research Announcement (NRA), Research Opportunities in Space and Earth Sciences (ROSES) – 2021 (OMB Approval Number 2700-0092, CFDA Number 43.001) on February 12, 2021. Deadline: June 24, 2021

National Archives and Records Administration

[NHPRC-Mellon Start-Up Grants for Collaborative Digital Editions in African American, Asian American, Hispanic American, and Native American History CFDA 89.003](#)

The National Historical Publications and Records Commission (NHPRC), with funding provided by the Andrew W. Mellon Foundation, seeks proposals for its new program for Collaborative Digital Editions in African American, Asian American, Hispanic American, and Native American History. With an overarching goal to broaden participation in the production and publication of historical and scholarly digital editions, the Start-Up grants program is designed:

To provide opportunities that augment the preparation and training of Black, Indigenous, and People of Color (BIPOC) new to the work of historical documentary editing, especially those currently working in history or related area and ethnic studies departments.

To encourage and support the innovative and collaborative re-thinking of the historical and scholarly digital edition itself—how it is conceived, whose voices it centers, and for what purposes.

To encourage and support the early planning and development of significant, innovative, and well-conceived digital edition projects rooted in African American, Asian American, Hispanic American, and Native American history and ethnic studies.

To stimulate meaningful, mutually beneficial, and respectful collaborations that help to bridge longstanding institutional inequalities by promoting resource sharing and capacity building at all levels, and that build into their plans a variety of means for achieving meaningful community and user input and engagement.

Grants are awarded to collaborative teams consisting of at least two scholar-editors, as well as one or more archivists, digital scholars, data curators, and/or other support and technical staff, as appropriate to fulfill the planning goals and early-implementation needs of the proposed edition. We strongly encourage applications from collaborative teams that include BIPOC faculty and staff in key positions, and that include editorial, archival, and technical staff at Historically Black Colleges and Universities, Hispanic-Serving Institutions, Tribal Colleges, and/or other Indigenous and Native American tribal scholars and community members, and members of the Asian American community. We also encourage projects to seek out community members as well as undergraduate and graduate students to contribute to (and benefit from) participation in all phases of the project.

Eligible projects in this category typically focus on collecting, describing, preserving, compiling, transcribing, annotating, editing, encoding, and publishing original manuscript or typewritten documents, and/or historical records in other formats, such as analog audio and/or born-digital records.

Eligible activities in this category may include:

Travel and related costs for planning meetings (intended for geographically-dispersed collaborations).

Relevant training for project directors and staff, including but not limited to NHPRC-supported training opportunities through its Institutes for Historical Editing program.

Associated costs for technical planning, wire-framing, and testing and evaluation with target audience(s) to determine needs and priorities.

For projects undertaking an extensive or supplementary document search, funds also may be used for initial surveying of collections, document imaging and collection, canvassing, community outreach, and related travel.

This grant program does not support the production of film or video documentaries. For a comprehensive list of the Commission's limitations on funding, please see What We Do and Do Not Fund. Applications that consist entirely of ineligible activities will not be considered.

For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund" (<http://www.archives.gov/nhprc/apply/eligibility.html>).

Award Information

A grant is for up to two years and for up to \$60,000 per year. The Commission expects to make up to 6 grants in this category for a total of up to \$720,000. Start-Up Grants begin no earlier than January 1, 2022.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications, publicity, and other products that result from its support.

Eligibility

U.S. nonprofit organizations or institutions

U.S. colleges, universities, and other academic institutions

State or local government agencies

Federally-acknowledged or state-recognized Native American tribes or groups

Applications from and collaborations involving Historically Black Colleges and Universities (HBCUs), Hispanic-Serving Institutions (HSIs), and Tribal Colleges are strongly encouraged.

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

Cost Sharing

Cost sharing is not a requirement. However, the applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project.

NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant's cost sharing contribution if they are included in the budget.

Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF.

Ineligible applications will not be reviewed.

Deadline: June 09, 2021

National Endowment for the Humanities

[Innovation Corps - National Innovation Network Teams Program \(I-Corps TM Teams\) – \(CFDA 47.041, 47.049, 47.050, 47.070, 47.074, 47.075, 47.076, 47.079, 47.083\)](#)

The National Science Foundation (NSF) seeks to develop and nurture a national innovation ecosystem that builds upon fundamental research to guide the output to facilitate the application of scientific discoveries closer to the development of technologies, products, and processes that benefit society. To maintain, strengthen and grow a national innovation ecosystem, NSF has established the Innovation Corps - National Innovation Network Teams Program (I-Corps Teams). The NSF I-Corps Teams Program's purpose is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate innovation that can attract subsequent third-party funding. The purpose of the I-Corps Teams program is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate the translation of knowledge derived from fundamental research into emerging products and services that can attract subsequent third-party funding. The outcomes of I-Corps Teams projects will be threefold: 1) a clear go/no go decision based on an assessment of the viability of the overall business model, 2) substantial first-hand evidence for or against a product-market fit, with a pithy definition of the customer segments and corresponding value propositions, and 3) a narrative of a compelling technology demonstration for potential partners. WEBINAR: A webinar will be held monthly to answer questions about this program. Details will be posted on the I-Corps website (see http://www.nsf.gov/news/special_reports/i-corps/program.jsp) as they become available.

Deadline: Proposals accepted at anytime

[Cyberinfrastructure for Emerging Science and Engineering Research – \(CFDA 41.070\)](#)

The Cyberinfrastructure for Emerging Science and Engineering Research (CESER) program aims to catalyze new science and engineering discovery pathways through early-stage collaborative activities between disciplinary scientists and engineers as well as developers/implementers of innovative cyberinfrastructure (CI) capabilities, services, and approaches. Beginning in FY 2017, the CESER program replaced the Strategic Technologies for Cyberinfrastructure (STCI) program. CESER has retained STCI's focus on supporting innovation across the CI ecosystem with increased emphasis on addressing and enabling emerging areas of potentially transformative research, including NSF priority areas, national strategic directions, and international collaborative research. CESER accepts proposals according to this Program Description year-round. From time to time, NSF may also issue Dear Colleague Letters according to CESER to signal special thematic interests and opportunities. CESER employs existing NSF funding mechanisms to accomplish the program's goals such as Early-concept Grants for Exploratory Research (EAGER) and Conference proposals. GUIDANCE TO POTENTIAL PROPOSERS Science/engineering-driven collaboration. A central feature of successful CESER projects is a strong, mutually-dependent collaborative team comprising expertise in the target science/engineering discipline(s) as well as expertise in CI development and implementation. Such a collaborative approach is critical to informing and guiding the development of requirements towards the eventual development and deployment of user-centric innovative CI that fosters new pathways to discovery. Proposals according to CESER should identify and describe the science and engineering goals and rationale, and explain and support the potential for transformative impacts on science/engineering research and broader impacts. Proposals for technical efforts that are not well-tied to identified science and engineering research challenges as well as utilization scenarios are unlikely to be supported. Exploratory and pilot activities.

CESER supports early-stage exploratory efforts that may comprise analysis, community planning, and pilot-level activities that are preparatory or informative for eventual future development and deployment of science/engineering-driven CI. Proposals for full-scale technical efforts leading to development/deployment should be directed to other appropriate NSF programs. Integrative and accelerative approaches. Proposals have particularly welcomed that address identified common needs across multiple research disciplines; leverage and accelerate the impact of existing CI investments in resources and services in one or more application domains; aim to reduce barriers to broader adoption of CI-enabled science/engineering approaches, and integrate different aspects and elements of CI to achieve holistic solutions with transformative science/engineering impact. The requirement to contact NSF Cognizant Program Officers. CESER is an inherently collaborative science/engineering-CI program. Successful CESER projects typically involve co-funding from the relevant disciplinary research programs within NSF. Consequently, before submitting a proposal to CESER, proposers must first (1) discuss their ideas with a cognizant CESER Program Officer to ensure that CESER is the appropriate venue for the proposal and (2) discuss their ideas with the relevant NSF disciplinary science and engineering research program(s) to ensure there is adequate disciplinary interest in the proposed effort. Proposals that have been declined by CESER or any other NSF program may not be resubmitted to CESER without substantial revision. Proposals violating this restriction may be returned without review

Deadline: Proposals accepted anytime

[High-Risk Research in Biological Anthropology and Archaeology – \(CFDA 47.075\)](#)

Anthropological research may be conducted under unusual circumstances, often in distant locations. As a result, the ability to conduct potentially important research may hinge on factors that are impossible to assess from a distance and some projects with potentially great payoffs may face difficulties in securing funding. This program gives small awards that provide investigators with the opportunity to assess the feasibility of an anthropological research project. It is required that the proposed activity be high risk in nature. The information gathered may then be used as the basis for preparing a more fully developed research program. Investigators must contact the cognizant NSF Program Director before submitting an HRRBAA proposal. This will facilitate determining whether the proposed work is appropriate for HRRBAA support.

Deadline: Proposals accepted anytime

[Broadening Participation in Engineering – \(CFDA 47.041\)](#)

NSF seeks to strengthen the future U.S. Engineering workforce by enabling the participation of all citizens through the support of research in the science of Broadening Participation in Engineering (BPE). The BPE program is dedicated to supporting the development of a diverse and well-prepared engineering workforce. BPE focuses on enhancing the diversity and inclusion of all underrepresented populations in engineering, including gender identity and expression, race and ethnicity (African Americans/Blacks, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders), disability, LGBTQ+, first-generation college, and socio-economic status. BPE funds research to

Understand and analyze the systemic barriers that prevent underrepresented groups from pursuing and succeeding in engineering, for example, understand the problem of insufficient interest and poorly sustained participation in engineering across underrepresented demographic groups; insignificant preparation and scarce opportunities for members of underrepresented groups to learn meaningful, relevant engineering content. Understand and analyze factors that enhance our ability to increase access to engineering by creating support systems and social networks that raise career awareness about different engineering pathways. Develop innovative methods and projects to significantly impact the recruitment and retention of engineering students from underrepresented groups. Activities must be supported by relevant data and have the capability to produce a model that can be replicated in other contexts. Develop innovative methods and projects to aggressively recruit and retain tenure track faculty from underrepresented groups. Design and transform a culture to make diversity, equity, and inclusion a priority in the engineering enterprise. BPE research activities will provide scientific evidence that engineering educators, employers, and policymakers need to make informed decisions to design effective programs that broaden the participation of persons from historically underrepresented groups in the engineering workforce. BPE is interested in funding research that spans K-12 to the workforce and offers the greatest return on investment. BPE funded research should produce outcomes that are scalable, sustainable, and applicable to various contexts, settings, and demographics within the engineering enterprise. BPE is particularly interested in research that employs intersectional approaches in recognition that gender, race, and ethnicity do not exist in isolation from each other and other categories of social identity. BPE is equally interested in research activities that align with and provide meaningful connections to the NSF INCLUDES National Network. The overarching goal of NSF INCLUDES is to achieve a significant impact at scale in transforming STEM education and workforce development by educating a diverse, STEM-capable workforce that includes talented individuals from all sectors of the Nation & apos;s population. Collaborations are encouraged between BPE proposals and existing NSF INCLUDES projects, for example, the NSF INCLUDES Alliances and Coordination Hub, provided these collaborations to strengthen both the BPE and NSF INCLUDES projects. Before submitting a proposal to the BPE program, prospective Principal Investigators are strongly encouraged to speak to the program director to obtain guidance as to whether the proposed ideas are aligned with the strategic goals of the BPE program. Proposal Elements All BPE proposals should Be informed by the current theoretical and scientific literature as well as add to the extant knowledge base. Directly address how the work will broaden the participation of one or more underrepresented populations in engineering. Provide appropriate justification to support the selection of the targeted group(s), with specific and applicable objectives, and demonstrate applicable knowledge of the relevant literature on underrepresentation. Integrate a mechanism to assess and evaluate how well the project has achieved the stated objectives as part of the project management plan. Provide evidence of clear, measurable outcomes and consideration of how the strategy will advance knowledge beyond localized contexts. Incorporate a dissemination plan that goes beyond publishing research papers and presenting at conferences. PIs should think creatively about who needs to hear about the research for it to have an impact and develop a strategy to reach that audience. Describe how the outcomes have the potential to enhance the diversity and inclusion of underrepresented populations in engineering. The Project Summary must contain a list of 3-5 keywords. Place the keywords on a separate line at the end of the Overview section of the Project Summary.

Deadline: Proposals accepted anytime

Critical Aspects of Sustainability – (CFDA 47.041, 47.049, 47.050)

Economic development and human progress have led to a proliferation of manufactured chemicals and materials made from limited resources found in nature (i.e., minerals and metals, petroleum-based products and natural gas). Long-term sustainability requires consideration of the availability of specific natural resources, energy, and water usage. NSF continues to support efforts that seek to improve the efficiency with which natural resources are used to meet human needs for products and services. Sustainability research encompasses the design, manufacture, and use of efficient, effective, safe and more environmentally-benign products and processes; stimulates innovation across all sectors to design and discover new chemicals and materials, production processes, and product stewardship practices; and, increases performance and value while meeting the goals of protecting and enhancing human health and the environment. This program seeks to support basic research through core disciplinary programs aimed at improving the sustainability of resources for future generations while maintaining or improving current products to offer technologically-advanced, economically competitive, environmentally-benign and useful materials to a global society. To address these challenges, the program aims to identify opportunities for innovation in a wide range of contributing disciplines as well as integrative activities. This program encourages the development of new experimental and theoretical/modeling approaches that will aid in both reductionist and whole-systems approaches. This program welcomes proposals in any area of research supported through the participating divisions that address the topics outlined below. The selected topics are of particular interest to core disciplinary programs in the participating divisions and do not include all funding opportunities and priorities in the area of sustainability at NSF. Proposals are submitted to the relevant core Programs indicated below in the participating Divisions, and all questions regarding proposals should be addressed by the cognizant Program Officers to which submission is contemplated. Proposals should be submitted with the "CAS:" prefix in the title. The Division of Chemistry (CHE/MPS) welcomes proposals to its Disciplinary Research Programs, including Chemical Catalysis (CAT), Chemical Measurement and Imaging (CMI), Chemical Structure, Dynamics and Mechanisms-A (CSDM-A), Chemical Structure Dynamics and Mechanisms-B (CSDM-B), Chemical Synthesis (SYN), Chemical Theory, Models and Computational Methods (CTMC), Chemistry of Life Processes (CLP), Environmental Chemical Sciences (ECS), and Macromolecular, Supramolecular and Nanochemistry (MSN). All proposals must be on the chemical aspects of sustainability. The design, preparation and reactivity studies associated with new catalysts and catalytic processes that employ earth-abundant and benign elements and raw materials; advanced catalytic methods for the reduction of dinitrogen to ammonia and water splitting are also invited; Grant Opportunities for Academic Liaison with Industry (GOALI) proposals, where such advances are connected directly to industrial considerations, are also encouraged. Understanding the molecular mechanisms of the two-way communication between the environment and living systems as well as between organisms situated in changing environments; design and test methods that could confer resilience and/or could foster adaptability of living systems subject to changing environments. Innovative measurement and imaging approaches that can improve the efficiency of manufacturing processes, including advances in separation science targeting reduced energy consumption or generation of less waste. Fundamental studies related to sustainable energy such as chromophores based on earth-abundant elements, advanced electrolytes for battery, water splitting, and carbon dioxide conversions. Understanding the environmental chemical degradation of contaminants, including emerging contaminants. Transformative approaches to the efficient and inexpensive synthesis of polymers or nanostructures using renewable feedstocks or earth-abundant elements; and innovative research that enhances the understanding of efficient use and recycling

of polymers and critical elements or the conversion of energy from renewable sources. The development of new synthetic methods using earth-abundant and inexpensive chemicals, fundamental studies that improve our understanding of rare earth elements; the conversion of non-petroleum-based resources into useful building blocks; and new environmentally-friendly chemical syntheses that improve on current practice by requiring less energy, freshwater, reagents, and/or organic solvents. Other CHE programs also welcome proposals on this general topic, as long as the proposals fit the scope of the program. All questions regarding proposals to CHE should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see CHE Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CHE>). The Division of Materials Research (DMR/MPS) welcomes proposals to its Topical Materials Research Programs, including Biomaterials (BMAT), Ceramics (CER), Condensed Matter and Materials Theory (CMMT), Condensed Matter Physics (CMP), Electronic and Photonic Materials (EPM), Metals and Metallic Nanostructures (MMN), Polymers (POL), and Solid State and Materials Chemistry (SSMC). All proposals must be on materials aspects of sustainability and focused on fundamental materials-research approaches. CER, CMMT, EPM, MMN, and SSMC will consider proposals on all materials aspects of sustainability. BMAT encourages proposals that take advantage of synthetic biology or other innovative and sustainable approaches (e.g., renewable, recyclable, environmentally benign). CMP encourages proposals on replacing rare-earth elements in magnetic materials with more abundant and accessible elements; also, proposals exploring materials alternatives to oxides for nuclear reactor fuel, aiming at improved stability and properties (e.g., thermal conductivity) and decreased environmental impact. POL welcomes proposals that address plastics waste accumulation through innovative materials approaches and environmentally benign polymeric materials having properties exceeding those of current commercial plastics. All proposals must be submitted through one of the active solicitations of the DMR Topical Materials Research Programs (currently NSF 17-580, 18-500, and 19-515) and must follow the deadlines, instructions, and limitations of these solicitations. Proposals that are not following these guidelines or that fall outside the scope of DMR and its Topical Materials Research Programs will be returned without review. All questions regarding proposals to DMR should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see DMR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=DMR>). The Chemical, Bioengineering, Environmental and Transport Systems Division (CBET/ENG) has several core programs that review proposals on research topics related to sustainability, including Molecular Separations (MoIS), Biosensing, Environmental Sustainability (EnvS), Biological and Environmental Interactions of Nanoscale Materials (BioNano), Combustion and Fire Systems (CFS), and Particulate and Multiphase Processes (PMP). Within these programs, as noted, the following topics are of particular interest: Understanding the fundamental combustion properties of sustainable aviation fuels under engine relevant conditions. (CFS) Fundamental studies leading to effective methods of processing multiphase fluid systems that minimize waste, avoid contamination, enhance the purity, or lead to novel materials that benefit efficient energy utilization. (PMP) The development of innovative separation mechanisms, mass separating agents, or engineering processes that aim to substantially reduce energy and/or material consumption in the chemical process industries. (MoIS) Fundamental mechanistic investigations for the development, sustainable production and use of nanomaterials, nanoparticles, nanodevices, and nanosystems. (BioNano) Biosensing systems with inherent capabilities of artificial intelligence, machine learning, and decision making for applications in real-time monitoring of environmental and living systems and in evaluating environmentally benign chemicals and materials. (Biosensing) Industrial Ecology: Topics of

interest in Industrial Ecology include advancements in modeling such as life cycle assessment, materials flow analysis, input/output economic models, and novel metrics for measuring sustainable systems. Innovations in industrial ecology are encouraged. (EnvS) Green Engineering: Research is encouraged to advance the sustainability of manufacturing processes, green buildings, and infrastructure. Improvements in distribution and collection systems that will advance smart growth strategies and ameliorate effects of growth are supported. Innovations in the management of stormwater, recycling and reuse of drinking water, and other green engineering techniques to support sustainability may also be fruitful areas for research. (EnvS) Ecological Engineering: Topics should focus on the engineering aspects of restoring ecological function to natural systems. Engineering research in the enhancement of natural capital to foster sustainable development is encouraged. (EnvS) Earth Systems Engineering: Earth systems engineering considers aspects of large-scale engineering research that involve mitigation of greenhouse gas emissions, adaptation to climate change, and other global-scale concerns. (EnvS) All questions regarding proposals to CBET should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CBET Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CBET>). For the Division of Civil, Mechanical, and Manufacturing Innovation (CMMI/ENG), proposals addressing sustainable materials processing are welcome. Of interest are manufacturing processes with reduced use of toxic components, such as solvents, carbon emissions, and pollutants; processes under ambient conditions, as opposed to extreme temperatures, pressures or other harsh conditions; and increased conservation of natural resources, such as water, raw material, and energy. Proposals to CMMI must be submitted to the Advanced Manufacturing (AM) Program and align with the scope of the program. All questions regarding proposals to CMMI should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CMMI Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CMMI>). The Division of Earth Sciences (EAR/GEO) welcomes fundamental and transformational geosciences projects addressing the distribution of Critical Minerals and Materials in the Earth. The following programs in the division support research on this topic: Petrology and Geochemistry (CH), Geobiology and Low-Temperature Geochemistry (GG), and Frontier Research in Earth Sciences (FRES). Topics of particular interest include fundamental studies of the geochemistry of Critical Earth Minerals and Materials (CMM), such as: Identifying new sources of critical minerals on the Earth's surface; Constraining their pathways in the natural environment involving concentration by Earth and geobiological processes, and Developing methods for sustainable exploration of these CMMs. Studies can be based on laboratory, field, or modeling efforts, and should have a strong emphasis on training the next generation of geoscientists and educating the public on the importance of CMM. Proposals must be submitted through one of the active solicitations of the three programs and must follow the deadlines and guidelines of these solicitations. All questions regarding proposals to EAR should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see EAR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=EAR>).

Deadline: Proposals accepted anytime

Small Business Administration

Program for Investment in Microentrepreneurs (PRIME) – CFDA 59.050

SBA intends to award a discretionary grant to the National Association of Government Guaranteed Lenders (NAGGL) to provide SBA 7(a) training to nonprofit lenders participating in the SBA Community Advantage Pilot Loan Program (CA). NAGGL has extensive experience with providing training to lenders on SBA's 7(a) loan product in the areas of loan origination, loan servicing, and loan liquidation. This discretionary grant will serve as a proof of concept to explore the success of regional training to mission lenders participating in CA. These training needs have been identified by SBA's Office of Credit Risk Management to increase the performance level of lenders participating in the CA program. SBA will work closely with NAGGL in shaping the project as it is implemented and will draw lessons learned from its implementation and use that insight and experience in deciding whether or not to continue the initiative in a permanent form, which we would then do via the standard competitive process for awarding grants.

Deadline: Open

U.S. Department of Agriculture

Distance Learning and Telemedicine Grants CFDA 10.855

Authorized by 7 U.S.C. 950aaa, the DLT Program provides financial assistance to enable and improve distance learning and telemedicine services in rural areas. DLT grant funds support the use of telecommunications-enabled information, audio and video equipment, and related advanced technologies by students, teachers, medical professionals, and rural residents. These grants are intended to increase rural access to education, training, and health care resources that are otherwise unavailable or limited in scope.

The regulation for the DLT Program can be found at 7 CFR part 1734. All applicants should carefully review and prepare their applications according to instructions in the FY 2021 DLT Grant Program Application Guide (Application Guide) and program resources. This Application Guide can be found in this entry on [grants.gov](https://www.grants.gov) as well as at <https://www.rd.usda.gov/programs-services/distance-learning-telemedicine-grants>. Expenses incurred in developing applications will be at the applicant's own risk.

Deadline: June 04, 2021

USDA Market Access Program CFDA 10.601

The MAP is designed to encourage the development, maintenance, or expansion of commercial export markets for United States agricultural commodities and products through cost-share assistance. Assistance may be provided for either generic or brand promotion activities. While activities generally take place overseas, reimbursable activities may also take place in the United States. Financial assistance under the MAP is made available on a competitive basis, and applications are reviewed against the evaluation criteria

contained herein and in the MAP regulations. Under the MAP, FAS enters into agreements with eligible Participants to share the cost of certain marketing and promotion activities covering a broad array of agricultural commodity sectors. All U.S. agricultural commodities, except tobacco, are eligible for consideration.

FAS allocates funds in a manner that effectively supports the strategic decision-making initiatives of the Government Performance and Results Act (GPRA) of 1993. In deciding whether a proposed project will contribute to the effective creation, expansion, or maintenance of foreign markets, FAS considers whether the applicant provides a clear, long-term agricultural trade strategy, has the broadest producer representation and affiliated industry participation of the commodity being promoted, and includes an effective program time line against which results can be measured at specific intervals using quantifiable product or country goals. FAS enters into agreements with eligible Participants where benefits generated are available throughout the relevant agricultural sector and that no single entity gains an undue advantage or sole benefit from program activities. These factors are part of the FAS resource allocation strategy to fund applicants who can best demonstrate performance and address USDA and FAS goals and objectives. MAP Participants must adhere to GPRA and USDA Monitoring and Evaluation guidance.

Deadline: June 25, 2021

[USDA Emerging Markets Program CFDA 10.603](#)

The EMP is established to develop, maintain, or expand markets for exports of United States agricultural commodities and to promote cooperation and exchange of information between agricultural institutions and agribusinesses in the United States and emerging markets. The EMP assists U.S. entities in developing, maintaining, or expanding exports of U.S. agricultural commodities and products by funding activities that enhance emerging markets' food and rural business systems, including reducing trade barriers. The EMP is intended primarily to support export market development efforts of the private sector, but EMP resources may also be used to assist public organizations. The EMP is administered by personnel of the Foreign Agricultural Service (FAS) on behalf of the Commodity Credit Corporation (CCC).

Deadline: June 25, 2021

[Announcement for Program Funding for NRCS's Conservation Innovation Grants \(CIG\) Classic Program CFDA 10.912](#)

NRCS is announcing the availability of up to \$15 million in Conservation Innovation Grants (CIG) funding to stimulate the development and adoption of innovative conservation approaches and technologies in conjunction with agricultural production. CIG projects are expected to lead to the transfer of conservation technologies, management systems, and innovative approaches (such as market-based systems) to agricultural producers, into technical manuals and guides, or to the private sector. Projects may be between 1 and 3 years in duration.

A webinar for CIG Classic applicants is scheduled for June 8, 2021 at 3 p.m. Eastern Time. Information on how to participate in the webinar will be posted to the CIG Applicant website. Applicants are encouraged to visit the CIG website to learn more about the CIG program. Questions about this announcement can be directed to: nrcsig@usda.gov. A “Frequently Asked Question” document based on questions submitted during the webinar or submitted to the Federal awarding agency contact will be posted on Grants.gov at least 2 weeks before the proposal due date.

See the notice of funding opportunity (NFO) under the Related Documents Tab for further details regarding eligibility information, application and submission information, application review information, etc.

Deadline: July 19, 2021

[FY 2021 FFPr Standing NOFO](#)

The FFPr program provides for the donation of U.S. agricultural commodities to developing countries and emerging democracies committed to introducing and expanding free enterprise in the agricultural sector. The commodities are generally sold on the local market and the proceeds are used to support agricultural development activities.

Program Objectives

The FFPr program has two principal objectives:

- To improve agricultural productivity; and
- To expand trade of agricultural products.

Program Priorities

The program funding priorities of this NOFO are to support active FFPr agreements experiencing monetization shortfalls by providing additional current year commodity and or freight funds.

Deadline: August 02, 2021

U.S. Department of Commerce

[NIST Rapid Assistance for Coronavirus Economic Response \(RACER\) CFDA 11.619](#)

NIST invites Manufacturing USA institutes to propose high-impact projects designed to fund awards for research, development, and testbeds to prevent, prepare for, and respond to coronavirus.

Deadline: July 26, 2021

U.S. Department of Defense

U.S. Department of Education

Office of Postsecondary Education (OPE): Higher Education Programs (HEP): Gaining Early Awareness and Readiness for Undergraduate Programs (State Grants) Assistance Listing Number 84.334S

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf.

Purpose of Program: The GEAR UP program is a discretionary grant program that encourages eligible entities to provide support, and maintain a commitment to, eligible low-income students, including students with disabilities, to assist the students in obtaining a secondary school diploma (or its recognized equivalent) and to prepare for and succeed in postsecondary education. Under the GEAR UP program, the Department awards grants to two types of entities: (1) States and (2) eligible partnerships.

Deadline: June 28, 2021

U.S. Department of Energy

ASSISTING FEDERAL FACILITIES WITH ENERGY CONSERVATION TECHNOLOGIES (AFFECT) 2021 CFDA 81.117

Building a clean energy economy and addressing the climate crisis is a top priority of the Biden Administration. This Federal Agency Call (FAC) will advance the Biden Administration’s goals to achieve carbon pollution-free electricity by 2035 and “deliver an equitable, clean energy future, and put the United States on a path to achieve net-zero emissions, economy-wide, by no later than 2050“ to the benefit of all Americans. The Department of Energy (DOE) is committed to pushing the frontiers of science and engineering, catalyzing clean energy jobs through research, development, demonstration, and deployment (RDD&D), and ensuring environmental justice and inclusion of disadvantaged communities.

As part of the DOE Office of Energy Efficiency and Renewable Energy (EERE), the Federal Energy Management Program’s (FEMP) priority is to help federal agencies advance the energy efficiency and resilience of their operations, while addressing climate change and minimizing the carbon footprint. FEMP assists Federal agencies in meeting energy- and climate change-related goals by bringing expertise from all levels of project and policy implementation to identify affordable solutions and facilitate public-private partnerships.

DOE and FEMP intend to play a leading role in meeting the challenge facing our nation and our planet from climate change through advancing a plan to lead the world in building a clean energy economy to address the climate emergency. DOE and FEMP will use its resources to turn the threat of climate change into an opportunity by catalyzing our partners across the Federal government to lead through the power of example toward the goal of building a 100% clean energy economy with net-zero emissions.

FEMP’s Assisting Federal Facilities with Energy Conservation Technologies (AFFECT) 2021 FAC will provide direct funding to Federal agencies for the development of energy and water efficiency projects and processes that address climate change mitigation and/or adaptation. The purpose of the AFFECT 2021 FAC funding is to initiate, supplement, improve or otherwise increase the viability and adoption of climate change mitigation and adaptation actions entailing energy efficiency, clean energy, and operational resilience at U.S. Federal government-owned facilities. This is accomplished through leveraging the use of a privately financed performance contract in the form of an Energy Savings Performance Contract (ESPC), ENABLE contract, or Utility Energy Service Contract (UESC) to enhance Federal agency climate change mitigation via energy efficiency, clean energy, and adaptation at mission critical sites. The AFFECT 2021 FAC is expected to provide ‘value added’ additions to projects allowing for greater impact from the projects in terms of energy cost savings and greenhouse gas (GHG) mitigation, enhanced climate change adaptation and resilience. FEMP also intends for the AFFECT 2021 FAC to provide demonstrated opportunities for replication of projects at other Federal facilities, while building a diversified workforce within the clean energy economy in construction, skilled trades, and engineering to enhance American infrastructure.

Applications must address either or both of the Climate Change Adaptation-Resilient and/or Efficient Areas of Interest, and describe a Replicability Plan highlighting (a) how replication and/or scalability across the agencies' enterprises will be promoted, and (b) agree to develop a Government Use Case for leveraging across applicable U.S. Federal government-owned facilities

Through the AFFECT 2021 FAC, FEMP intends to facilitate and promote the use of energy performance contracts to leverage a wider adoption of Climate Change Adaptation-Resilient and/or Efficient projects and processes at all Federal facilities.

The full FAC is posted on the EERE Exchange website at <https://eere-exchange.energy.gov>. To apply to this FAC, Applicants must register with and submit application materials through EERE Exchange, EERE's online application portal.

Information on where to submit questions regarding the content of the announcement and where to submit questions regarding submission of applications is found in the full FAC posted on the EERE Exchange website.

Deadline: July 17, 2021

U.S. Department of Health and Human Services

[Immune Development in Early Life \(IDEaL\) \(U19 Clinical Trial Not Allowed\) CFDA 93.113, CFDA 93.855](#)

The purpose of this Funding Opportunity Announcement is to support research to define the mechanisms regulating the establishment, development, and maintenance of immunity throughout childhood (from birth to less than 18 years of age), including the impact of pathogenic or non-pathogenic microbes or vaccination against infectious diseases, allergens, and environmental pollutants on immune ontogeny and function. This program will establish collaborations among immunologists, neonatologists, pediatricians, systems biologists, and microbiologists to expand our knowledge of the developing immune system. Knowledge obtained through this program may be applied to the design of improved vaccines and immunotherapies to combat infections or treat/prevent immune-mediated diseases in this vulnerable population.

Deadline: June 4, 2021

[Transitional Living Program 93.550](#)

The Administration for Children and Families, Administration on Children, Youth and Families' Family and Youth Services Bureau (FYSB) announces the availability of funds under the Transitional Living Program (TLP). The Purpose of FYSB's TLP grant program is to implement, enhance, and/or support effective strategies for successful transition to sustainable living for runaway and homeless youth ages 16

to under 22 and/or pregnant and parenting youth ages 16 to under 22 and their dependent child(ren). Projects must provide safe, stable, and appropriate shelter for up to 18 months and, under extenuating circumstances, can be extended to 21 months and provide comprehensive services that support the transition of homeless youth to self-sufficiency and stable, independent living. Through the provision of shelter and an array of comprehensive services, TLP youth will realize improvements in four core outcome areas (i.e., safe and stable housing, education/employment, permanent connections, and social and emotional well-being).

Deadline: June 28, 2021

[Cutting Edge Informatics Tools for Illuminating the Druggable Genome \(U01 Clinical Trial Not Allowed\) CFDA 93.310](#)

The purpose of this specific FOA is to solicit applications to build a set of Cutting Edge Informatics Tools (CEITs) that will augment the capability of the KMC as well as the broader IDG Consortium in the following ways: (1) by developing and deploying tools to enhance the community's ability to process, analyze, and visualize IDG data, (2) to prioritize new data resources and methods to be incorporated into Pharos <https://pharos.nih.gov/idg/index> that will strengthen predictions about physiological and disease associations around the understudied proteins, and (3) by developing methods to prioritize understudied IDG families (non-olfactory GPCRs, protein kinases, and ion channels) for deeper study using experimental assays both within the IDG pipeline or by the larger community.

Deadline: July 15, 2021

[Annual Estimates of Influenza Vaccine Effectiveness for Preventing Medically Attended Laboratory-Confirmed Influenza in the United States CFDA 93.185](#)

Influenza and other respiratory illnesses, including COVID-19, are important causes of morbidity, mortality, and healthcare burden across all age groups. For influenza vaccines, and for novel vaccines such as for COVID-19, estimates of vaccine effectiveness in preventing illness and associated complications are needed to evaluate the protection provided by nationwide vaccination programs. The goal of this notice of funding opportunity is to: a) support a network of US institutions that can obtain reliable vaccination information for a population, or cohort of individuals; b) provide accurate estimates of the effectiveness of vaccines against respiratory viruses including influenza, SARS-CoV-2 and other respiratory viruses that may emerge; and c) prevent medically attended influenza-associated illness in the population for whom influenza vaccination is recommended.

Deadline: August 01, 2021

[Clinical Training and Technical Assistance for Title X Family Planning Service Delivery Grantees](#)

The Office of the Assistant Secretary for Health, Office of Population Affairs, announces the availability of funds for Fiscal Year (FY) 2021 under the authority of section 1003 of the Public Health Service (PHS) Act (42 U.S.C. § 300a-1) to provide the training for personnel to carry out family planning service programs described in section 1001 of this title.

The primary focus of the Office of the Assistant Secretary for Health is leading America to healthier lives, especially for those who are most vulnerable, including those who have suffered historic disparities. In support of this vision, the Office of Population Affairs (OPA) promotes health across the reproductive lifespan through innovative, evidence-based adolescent health and family planning programs, services, strategic partnerships, evaluation, and research. OPA administers the Title X program, the Teen Pregnancy Prevention (TPP) Program, and the Embryo Adoption Awareness program. OPA advises the Secretary of HHS and the Assistant Secretary for Health on a wide range of topics, including adolescent health, family planning, sterilization, and other population issues.

Deadline: August 03, 2021

[Engaging Men in HIV Testing, Prevention, and Care \(R21 Clinical Trial Optional\) – \(CFDA 93.242\)](#)

The purpose of this Funding Opportunity Announcement (FOA) is to develop and test strategies to increase the engagement of men in HIV prevention and care within global settings and among US domestic populations who have evidenced lower rates of engagement and retention in HIV prevention and care. The R21 Exploratory/Developmental Grant supports studies that may involve considerable risk but may lead to a breakthrough in a particular area; or to the development of novel techniques, agents, methodologies, models; or applications that could have a major impact on a field of biomedical, behavioral, or clinical research.

Deadline: September 07, 2021

[Mechanistic Studies on the Impact of Social Inequality on the Substance Use Trajectory \(R01 Clinical Trial Not Allowed\) CFDA 93.279](#)

This FOA invites investigations into neurocognitive mechanisms by which socioeconomic inequality impacts various points in the substance use trajectory.

Deadline: October 14, 2021

[Non-Viral Technologies for in vivo Delivery of Genome Editors \(R43/R44 Clinical Trial Not Allowed\)-\(CFDA 93.350\)](#)

The purpose of this PAR is to support the development and evaluation of non-viral technologies to deliver genome editors to disease-relevant somatic cells and tissues in vivo. The ultimate goal of these technologies is a translation into clinical trials of genome editing to treat human disease.

Deadline: January 05, 2022

Postbaccalaureate Research Education Program (R25 - Independent Clinical Trial Not Allowed) CFDA-93.859

This funding opportunity announcement (FOA) provides support to eligible, domestic institutions to develop and implement effective, evidence-informed approaches to biomedical research education and mentoring that will keep pace with the rapid evolution of the research enterprise. NIGMS expects that the proposed research education programs will incorporate extensive research experiences, well-designed courses for skills development, mentoring, cohort building activities, and career development elements to prepare recent baccalaureates from diverse backgrounds to transition into and complete rigorous research-focused doctoral degree programs (e.g., Ph.D. or M.D./Ph.D.) in biomedical fields. This program is limited to applications from doctoral degree-granting research-intensive institutions. This Funding Opportunity Announcement (FOA) does not allow appointed participants to lead an independent clinical trial but does allow them to obtain research experience in a clinical trial led by a mentor or co-mentor.

Deadline: January 27, 2022

Novel Synthetic Nucleic Acid Technology Development (R21 Clinical Trial not allowed)-(CFDA 93.172)

This Funding Opportunity Announcement (FOA) solicits R21 grant applications to develop novel technologies that will enable substantive (no less than one order of magnitude) improvement in synthetic nucleic acids. The goal is to improve the quality, capabilities, and efficiency of nucleic acid synthesis and synthetic constructs at reasonable and decreased costs. Applicants may propose to develop novel complete synthesis and/or synthetic constructs systems, investigate challenges underlying key novel system components, or propose substantive improvements of at least an order of magnitude improvement to existing systems. Exploration of methods other than those currently in use is highly encouraged. High-risk/high-payoff applications are appropriate to achieve the goals of this FOA.

Deadline: June 24, 2022

Interactive Digital Media STEM Resources for Pre-College and Informal Science Education Audiences (SBIR) (R43/R44 Clinical Trial Not Allowed) CFDA 93.859

The purpose of this Funding Opportunity Announcement (FOA) is to provide opportunities for eligible small business concerns (SBCs) to submit NIH Small Business Innovation Research (SBIR) grant applications to develop interactive digital media science, technology, engineering and mathematics (STEM)

resources that address student career choice and health and medicine topics for: (1) pre-kindergarten to grade 12 (P-12) students, and pre- and in-service teachers and families ("Teachers") or (2) Informal science education (ISE), i.e., outside the classroom resources for the general public. Interactive digital media (IDM) are defined as products and services on digital computer-based systems which respond to the user's actions by presenting content such as text, moving image, animation, video, audio, and video games. There is a large body of evidence that IDM technology has the potential to support learning in a variety of contexts from primary and secondary schools, to universities, adult education and workplace training. IDM is widely used to train, educate, and encourage behavioral changes in a virtual world format where progressive learning, feedback on success and user control are combined into an interactive and engaging experience. It is anticipated that this SBIR FOA will facilitate the translation of new or existing health and medicine-based, P-12 STEM curricula and museum exhibits into educational Interactive Digital Media STEM (IDM STEM) resources that will provide a hands-on, inquiry-based and learning-by-doing experience for students, teachers and the community.

Deadline: September 02, 2022

Palliative Care in Home and Community Settings (R01 Clinical Trial Optional) – (CFDA 93.361)

The purpose of this funding opportunity is to stimulate research aimed at determining needs and best practices for the integration of palliative care into home and community settings. Home and community in this FOA refer to the place where an individual resides or lives. Home- and community-based palliative care programs ensure those with serious, advanced illness who do not require hospitalization but are not appropriate for hospice have access to high-quality end-of-life and palliative care.

Deadline: September 7, 2022

Core Infrastructure Support for Cancer Epidemiology Cohorts (U01 Clinical Trial Not Allowed) CFDA 93.393

Through this Funding Opportunity Announcement (FOA), the National Cancer Institute (NCI) encourages grant applications for support of the core functions of Cancer Epidemiology Cohorts (CECs), as well as methodological research. This FOA is intended to support maintenance of existing CECs infrastructure and resource sharing with broader scientific communities.

Deadline: November 09, 2022

Co-infection and Cancer (R01 Clinical Trial Not Allowed)-CFDA 93.393

This initiative seeks to enhance our mechanistic and epidemiologic understanding of infection-related cancers, with a focus on the etiologic roles of co-infection in cancer. Preference will be given to investigations of co-infections with known oncogenic agents (e.g., *Helicobacter pylori* [*H. pylori*] and Epstein Barr virus [EBV]; excluding human immunodeficiency virus [HIV]) and of co-infections that engendered novel opportunities for prevention and treatment. Coinfection is defined as the occurrence of infections by two or more infectious (pathogenic or nonpathogenic) agents either concurrently or sequentially and includes both acute and chronic infections by viruses, bacteria, parasites, and/or other microorganisms.

Deadline: January 07, 2023

[EHR Core Research \(ECR\): Building Capacity in STEM Education Research-CFDA 93.855](#)

This Funding Opportunity Announcement (FOA), issued by the National Institute of Allergy and Infectious Diseases (NIAID), invites applications for investigator-initiated Resource-Related Research Projects (R24). The proposed resource must provide a significant benefit to currently funded high priority projects in need of further coordination and support in the areas specified. Under rare circumstances, this mechanism may be used to support the development of a new resource to the broader scientific community of the NIAID. It is anticipated that the request for resource support through the R24 activity code will occur on an infrequent basis and only in circumstances where other mechanisms of support from the NIAID are not appropriate. The proposed resources should be relevant to the scientific areas of the NIAID mission including the biology, pathogenesis, and host response to microbes, including HIV; the mechanisms of normal immune function and immune dysfunction resulting in autoimmunity, immunodeficiency, allergy, asthma, and transplant rejection; and translational research to develop vaccines, therapeutics, and diagnostics to prevent and treat infectious, immune-mediated, and allergic diseases.

Deadline: January 07, 2023

[Archiving and Documenting Child Health and Human Development Data Sets \(R03 Clinical Trial Not Allowed\)-CFDA 93.865](#)

The purpose of this funding opportunity announcement (FOA) is to invite R03 applications to support archiving and documenting existing data sets to enable secondary analysis of these data by the scientific community. The priority of this program is to archive data sets within the scientific mission of the NICHD; the highest priority is to archive data collected with NICHD support.

Deadline: January 07, 2023

NIDCR Predoctoral to Postdoctoral Transition Award for A Diverse Dental, Oral, and Craniofacial Research Workforce (F99/K00 Clinical Trial Not Allowed)-CFDA 93.121

The purpose of this award is to support phased transition of outstanding graduate students from groups underrepresented in the biomedical, clinical, behavioral and social sciences research enterprise from graduate work to postdoctoral research positions in Dental, Oral, and Craniofacial (DOC) research. The first phase (F99) will support the final two years of graduate research training for individuals in Ph.D. or dual degree clinician-scientist programs. Following graduation and attainment of a postdoctoral research position, the second phase (K00) will provide support for up to three years of mentored postdoctoral research.

Deadline: January 07, 2023

U.S. Department of Housing and Urban Development

Fair Housing Initiative Program - Private Enforcement Initiative CFDA 14.418

Funding of approximately \$10,755,507 is available through this NOFO and any carryover funds.

Additional funds will be available for award under this NOFO, because of carryover funds. Funds may be available from recapture funds or from additional appropriated funds. Use of these funds is subject to statutory constraints. All awards are subject to the funding restrictions contained in this NOFO.

However, subject to statutory constraints at its discretion, HUD may limit the amount and actual awards made under this NOFO.

Funding of approximately \$10,755,507 is available through this NOFO to fund new FY2021 grantees. The remaining \$27,375,000 will be used to fund continuing (second and third year) FY 2019 and FY 2020 PEI Multi-year (PEI-MY) grantees outside of this NOFO. Funding for the second and third year of FY 2020 and FY 2021 PEI-MY grantees is subject to the availability of future appropriated funds by Congress.

Deadline: June 14, 2021

Fair Housing Initiative Program - Education and Outreach Initiative - Tester Coordinator Training CFDA 14.416

The Fair Housing Initiatives Program is a significant source of funding for FHIP grantees that conduct fair housing testing in local communities across the country. Fair housing testing refers to the use of testers

who, without any bona fide intent to rent or purchase property, pose as prospective renters or buyers of real estate for the purpose of determining whether housing providers and others are complying with the federal Fair Housing Act.

The Department continues to be vigilant about ensuring that testing performed by testers with FHIP funds adhere to HUD's investigatory standards so that it yields credible, objective and admissible evidence to aid in the enforcement of the federal Fair Housing Act. The Department acknowledges that great variation exists in the quality of fair housing testing performed by FHIP grantees. Some grantees have consistently demonstrated that testing produces strong evidence that can be used to forge effective legal challenges to discriminatory housing practices. Still some grantees exhibit lesser capabilities and uneven or less accomplished tract record. HUD recognizes the need to continually improve and standardized the quality of testing provided by testers employed by FHIP grantees.

Deadline: June 14, 2021

[Youth Homelessness Demonstration Program CFDA 14.276](#)

HUD will select up to 50 communities to participate in the Youth Homelessness Demonstration Program (YHDP) to develop and execute a coordinated community approach to preventing and ending youth homelessness.

8 of the 50 selected communities must be rural communities. [Section I.A.1]

Only CoC Collaborative Applicants may apply to this NOFO [Section III.A]

Applications are submitted through grants.gov, and are due by July 27, 2021

Communities represented by the CoC Collaborative Applicant must include a youth action board, the local or state public child welfare agency, and a broad array of other partners [V.A]

The rating and ranking criteria included in this NOFO will be used to competitively select the communities [Section V.A]

The selection of the selected communities will be announced in September 2021

Selected Communities will:

Develop and implement a CCP to prevent and end youth homelessness [Section III.F.b]

Apply for project funding up to an amount between \$1 million and \$15 million per community, based on each community's youth population size and poverty rate, for a total demonstration amount of approximately \$145 million [Section II.C]

Requests for funding for all project types allowed under the CoC Program to support homeless and at risk youth, as well as innovative project types that may require a waiver or exception of CoC Program or McKinney-Vento Act requirements [Appendix A]

Request funding for a 2-year grant term that will be eligible for renewal under the CoC Program, as long as the project meets statutory CoC Program requirements [Section II.D]

Receive technical assistance to advise the development and implementation of the CCP [Section 1.A.1]

Participate in an evaluation that will inform the federal strategy for preventing and ending youth homelessness [Section I.A and VI.C.]

NOFO Priority

The purpose of the YHDP is to implement projects that demonstrate how a comprehensive approach to serving homeless youth age 24 and under can dramatically reduce youth homelessness. The population to be served by this demonstration program is youth experiencing homelessness, including unaccompanied and pregnant or parenting youth. In order to effectively implement a system that addresses the needs of youth experiencing homelessness, Continuums of Care (CoCs) must understand the subgroups of unaccompanied youth and incorporate those understandings into the YHDP CCP and awarded projects. This will require CoCs to use innovative practices to design better projects and strong comprehensive plans to prevent and end youth homelessness.

Deadline: July 27, 2021

U.S. Department of Homeland Security

[Fiscal Year \(FY\) 2021 Individual State Earthquake Assistance \(ISEA\) - Region 4 CFDA 97.082](#)

The National Earthquake Hazards Reduction Program (NEHRP) seeks to mitigate earthquake losses in the United States through basic and directed research and implementation activities in the fields of earthquake science and engineering. The NEHRP program supports the mission area of the Quadrennial Homeland Security Review titled "Strengthen National Preparedness and Resilience," as well as the national preparedness goal of mitigation, as provided in the Presidential Policy Directive (PPD-8). NEHRP also supports the FEMA 2018-2022 Strategic Plan, by contributing to the accomplishment of Strategic Goal 1: Build a Culture of Preparedness and Strategic Goal 2: Ready the Nation for Catastrophic Disasters. Participation in the FEMA NEHRP State Assistance program (and the Individual State Earthquake Assistance funding opportunity) is limited to those States and Territories that have been determined to be at a High to Very High risk of earthquakes. Participation in this funding opportunity is further limited to those States and Territories that can provide the statutory 25% non-Federal cost share. The Cost Share requirement does not apply to those Territories that are considered "Insular Areas" (Guam, the Commonwealth of the Northern Mariana Islands (CNMI) and the U.S. Virgin Islands), and otherwise eligible for program participation. All activities funded by the FEMA NEHRP, Individual State Earthquake Assistance grant program must be consistent with NEHRP Vision, Mission, Goals and FEMA Program

Responsibilities (See Appendix C.), of the NOFO, and ultimately result in a measurable enhancement of National seismic safety and earthquake risk awareness.

Deadline: June 15, 2021

U.S. Department of the Interior

U.S. Department of Justice

[OVW Fiscal Year 2021 National Tribal Clearinghouse on Sexual Assault \(NTCSA\) Solicitation CFDA 16.027](#)

This program is authorized by Consolidated Appropriations Act, 2021, Pub. L. No. 116-260 (CDA #16.027). Beginning in 2012, Congress appropriated funds for a national clearinghouse to provide TTA on issues related to sexual assault of American Indian and Alaska Native (AI/AN) women, designed to improve victim services for AI/AN sexual assault victims as well as increase offender accountability for such crimes. For additional information about OVW technical assistance performance measures, including how awards contribute to the achievement of program goals and objectives, see:

OVW grant program information: [OVW Grants and Programs webpage](#)

Program performance measures under the Measuring Effectiveness Initiative: [VAWA Measuring Effectiveness Initiative webpage](#)

Examples of successful projects in OVW's most recent report to Congress on the effectiveness of VAWA grant programs: [2018 Biennial Report](#)

Deadline: June 03, 2021

[OVC FY 2021 Transforming America's Response to Elder Abuse: Enhanced Multidisciplinary Teams \(E-MDTs\) for Older Victims of Financial Exploitation and Abuse CFDA 16.582](#)

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community. Under this program, OVC seeks applications to support the development and/or enhancement of multidisciplinary teams (MDT) and to strengthen the capacity of "enhanced MDTs" to better identify and respond to cases of elder abuse and more comprehensively serve and support victims of financial exploitation. Through these enhanced MDTs (E-MTD), OVC hopes to improve case outcomes while minimizing additional trauma and restoring safety and security to older adult victims of crime, and to potentially hold more offenders accountable.

Deadline: June 14, 2021

[OVC FY 2021 Advancing the Use of Technology to Assist Victims of Crime CFDA 16.582](#)

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

Through this solicitation, OVC seeks to provide funding to organizations that demonstrate innovative strategies to create, expand, or enhance the use of technology in innovative ways to interact directly with crime victims and/or to provide information, referrals, crisis assistance, and longer-term help.

Deadline: June 14, 2021

[OVC FY 2021 Addressing Female Genital Mutilation and Cutting CFDA 16.582](#)

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

This program will support projects to build or enhance a community response to female genital mutilation and cutting (FGMC). Grantees will work to increase services, education, and community partner engagement to stop the victimization of girls through FGMC, at the community level.

Deadline: June 15, 2021

[OVC FY 2021 Emergency and Transitional Pet Shelter and Housing Assistance Grant Program CFDA 16.582](#)

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

This program will provide funding for shelter and transitional housing and other assistance to victims of domestic violence and their companion animals, which under this program means pets, service animals, emotional support animals, and horses.

The term "domestic violence victim" means a victim of domestic violence, dating violence, sexual assault, or stalking, as established in Public Law 115-334.

The following definitions, set out in 34 U.S.C. 20127(b)(9), apply to this solicitation:

DOMESTIC VIOLENCE VICTIM. The term "domestic violence victim" means a victim of domestic violence, dating violence, sexual assault, or stalking.

EMOTIONAL SUPPORT ANIMAL. The term "emotional support animal" means an animal that is covered by the exclusion specified in 24 C.F.R. section 5.303 (or a successor regulation), and that is not a service animal.

PET. The term "pet" means a domesticated animal, such as a dog, cat, bird, rodent, fish, turtle, or other animal that is kept for pleasure rather than for commercial purposes.

SERVICE ANIMAL. The term "service animal" has the meaning given the term in 28 C.F.R. section 36.104 (or a successor regulation).

OTHER TERMS. Except as otherwise provided, terms have the meaning given such terms in section 40002(a) of the Violence Against Women Act of 1994 (34 U.S.C. 12291(a)).

Deadline: June 15, 2021

[OVC FY 2021 Expanding Sexual Assault Nurse Examiner \(SANE\) Services to Victims of Sexual Assault CFDA 16.560](#)

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The Office for Victims of Crime (OVC) is committed to enhancing the Nation's capacity to assist crime victims and provide leadership in changing policies and practices to promote justice and healing for all victims of crime. OVC is seeking applications to establish or expand sexual assault examination programs, including sexual assault nurse examiner (SANE) programs and sexual assault forensic examiner (SAFE) programs that focus on improving the provision of sexual assault care using a community-based approach, such as through a campus community, nonprofit, community-based, and/or tribe-affiliated victim services

provider. This solicitation will also fund one applicant to provide technical assistance (TA) to all awarded recipients under Purpose Area 1 and previously funded Fiscal Year 2020 OVC SANE Campus grantees. This program furthers the Department's mission by increasing the quality and quantity of services available to victims of sexual assault.

Deadline: June 15, 2021

OVC FY 2021 Improving Outcomes for Child and Youth Victims of Human Trafficking CFDA 16.320

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The purpose of this program is to improve outcomes for children and youth who are victims of human trafficking by integrating human trafficking policy and programming at the state or tribal level and enhancing coordinated, multidisciplinary, and statewide approaches to serving trafficked youth.

Deadline: June 15, 2021

OVC FY 2021 Enhanced Collaborative Model Task Force To Combat Human Trafficking CFDA 16.320

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

This solicitation's purpose is to support enhanced collaborative model task forces to combat human trafficking, as defined by the Trafficking Victims Protection Act (TVPA) of 2000 and its reauthorizations. This program will provide funding for services to victims of human trafficking, as defined by 22 U.S.C. 7102.

Deadline: June 15, 2021

OJJDP FY 2021 Second Chance Act Youth Offender Reentry Program CFDA 16.812

This program furthers the Department's mission by reducing the number of crimes committed by people under community supervision while promoting the fair administration of justice and advancing public safety.

The Second Chance Act Youth Offender Reentry Program encourages collaboration between state agencies, local government, and community- and faith-based organizations to address the challenges that reentry and

recidivism reduction pose for moderate to high-risk juvenile offenders returning to their communities from juvenile residential or correctional facilities.

This solicitation has two categories—Category 1: Youth Offender Reentry Program and Category 2: Community-Based Youth Reentry Program.

Deadline: June 15, 2021

OJJDP FY 2021 Juvenile Drug Treatment Court Program CFDA 16.585

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community

The Juvenile Drug Treatment Court Program builds the capacity of states, state and local courts, units of local government, and federally recognized tribal governments to implement new juvenile drug treatment courts (JDTCs) and enhance existing JDTCs for individuals with substance abuse problems or co-occurring mental health disorders, including histories of trauma.

When describing substance abuse, the Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition, uses the term "substance use disorder" for the clinical and functional assessment of an individual's recurrent use of alcohol and/or drugs that causes significant impairment, such as health problems; disabilities; or failure to meet work, school, or home responsibilities. For more information, see <https://www.samhsa.gov/disorders/substance-use>.

Deadline: June 15, 2021

BJA FY 21 Smart Suite Training and Technical Assistance Program CFDA 16.738

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The Smart Suite Training and Technical Assistance Program provides assistance and training and translates knowledge to enhance the use of data and research to understand and target priority crime issues, identify and implement proven and effective practices with fidelity, analyze performance and outcomes to enhance approaches, and advance knowledge and research. This program is managed in coordination with other BJA TTA partners in the Smart Suite programs and supports building partnerships between researchers and practitioners locally to improve outcomes, programs, and communities, working with a set of Smart Suite site-based programs.

Deadline: June 22, 2021

U.S. Department of Labor

Women in Apprenticeship and Nontraditional Occupations (WANTO) Technical Assistance Grant Program CFDA 17.701

This program aims to provide technical assistance (TA) to employers and labor unions to encourage employment of women in both apprenticeable occupations and nontraditional occupations (A/NTO), specifically in the following ways:

- Developing (establishing, expanding, and/or enhancing) pre-apprenticeship, youth apprenticeship, Registered Apprenticeship, or other nontraditional skills training programs designed to prepare women for careers in A/NTO;
- Providing ongoing orientations or other resources for employers, unions, and workers on creating a successful environment for women in A/NTO; and/or
- Setting up support groups, facilitating networks, and/or providing supportive services (as defined in section IV.E.3) for women in A/NTO to improve their retention.

Deadline: June 04, 2021

Byrne Criminal Justice Innovation Program (BCJI) CFDA 16.817

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The Byrne Criminal Justice Innovation (BCJI) Program supports Department priorities to reduce serious and violent crime, including gun violence; dismantle gang activity; and strengthen local capacity to combat drug abuse. BCJI helps communities build trust and support law enforcement agencies working with these communities by integrating enforcement strategies into community-based crime reduction efforts and using this information to understand and target the issues.

A critical pillar of the BCJI Program is neighborhood empowerment. Community-oriented approaches build trust, facilitate a mutually beneficial exchange of knowledge and resources, enhance the community's perception of the fairness and effectiveness of policies and interventions, and increase the willingness of the community and those in the criminal justice system to comply with the social mores in the community. Implementing these approaches without strong community collaboration will likely be unsuccessful and may overlook a community or neighborhood's unique needs and challenges as well as the ability to develop and implement sustainable change. Community leaders and residents are often in the best position to motivate, implement, and sustain change over time; therefore, applications should be developed in collaboration with community members to build community support for community needs as they evolve over time and indicate how community residents will be involved as full partners throughout the project.

Deadline: June 22, 2021

OVC FY 2021 Fostering Resilience and Hope: Bridging the Gap Between Law Enforcement and the Community CFDA 16.582

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

This program will support demonstration sites in implementing a hope-centered framework to 1) address trauma experienced by law enforcement and 2) build trust with the communities they serve. Collective hope is a "shared desire for a better society articulated through a broad set of agreed upon goals and principles and elaborated through socially inclusive dialogue," (Braithwaite V. Collective Hope. *The ANNALS of the American Academy of Political and Social Science*. 2004;592(1):6-15. doi:10.1177/0002716203262049). This initiative will increase training, capacity, advocacy, outreach around Hope Theory as an organizing framework in order to repair and rebuild trusted relationships between law enforcement and the communities they serve. Ultimately, this work is intended to result in increased trust between law enforcement and the communities they serve, enhancing law enforcement officers' ability to effectively engage with community members, as well as increasing the likelihood that the community will assist in investigations to make communities safer and hold offenders accountable, and make it more likely that crime victims will report their victimizations to the police, reducing the likelihood of re-victimization.

Under this program, OVC will augment OVC-funded work done by the Healing Justice Alliance Initiative, which explored demonstrated strategies for implementing a trauma-informed and collaborative approach to build trust between communities of color and law enforcement agencies. Informed by young men of color who are survivors of violence, the project's outcomes improved lives, by pointing to ways to manage trauma, and focusing on changing community conditions that produce trauma.

Deadline: July 06, 2021

BJA FY 21 Smart Policing Initiative CFDA 16.738

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The Smart Policing Initiative (SPI, formerly Strategies for Policing Innovation) provides funding to enable police agencies to effectively use evidence-based practices, data, and technology. Recipients of funding under the FY 2021 SPI Program will establish police-researcher partnerships; test promising crime prevention, response, and reduction practices; improve police accountability and build their capacity to analyze and use crime intelligence and data; implement and test justice information-sharing technology; and evaluate their effectiveness. For this solicitation, "justice information-sharing technology" refers to any technology (hardware and/or software, hosted residentially or remotely) that plays a role in the collection, storage, sharing, and analysis of criminal justice data.

Deadline: July 06, 2021

Community Policing Development (CPD) Crisis Intervention Teams Solicitation CFDA 16.710

Community policing is a philosophy that promotes organizational strategies that support the systematic use of partnerships and problem-solving techniques to proactively address the immediate conditions that give rise to public safety issues such as violent crime, nonviolent crime, and fear of crime.

Community Policing Development (CPD) funds are used to develop the capacity of law enforcement to implement community policing strategies by providing guidance on promising practices through the development and testing of innovative strategies; building knowledge about effective practices and outcomes; and supporting new, creative approaches to preventing crime and promoting safe communities.

With this funding, the COPS Office supports projects that allow for the identification and expansion of promising practices and produces knowledge products that follow the principles of good guidance:

Quality-driven, with an emphasis on action statements to drive promising practices and reduce variations in performance

Evidence-based, with recommendations that are consistent with the weight of the best available evidence identified through systematic review

Accessible, with clear language and manageable lengths that are appropriate and relevant for the law enforcement field

Memorable, to encourage immediate actions or aid for the complex situations law enforcement professionals face

To read an overview of the principles of community policing, please see the COPS Office publication *Community Policing Defined*.

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community. Law enforcement plays a vital role in each of these areas, through developing and maintaining meaningful relationships with all segments of their communities, and working in partnership with those communities to provide effective crime prevention, intervention, and response services and resources. For all Fiscal Year 2021 COPS Office grant solicitations, applicants should consider these priorities when applying for COPS Office funding to advance community policing, and address these strategic planning priorities within their applications as applicable.

Statutory authority

This program is authorized under the Omnibus Crime Control and Safe Streets Act of 1968, as amended, and the Violent Crime Control and Law Enforcement Act of 1994, Title I, Part Q, Public Law 103-322, 34 U.S.C. § 10381 et seq.

All awards are subject to the availability of appropriated funds and any modifications or additional requirements that may be imposed by law.

Program-specific information

The 2021 CPD program has been established to fund specific projects related to the following subcategory areas:

Implementation of Crisis Intervention Teams

Crisis Intervention Training Provider

This solicitation is being announced as an open competition.

When applying, please be sure to select the most appropriate subcategory under which to apply. Please note that applicants may submit multiple applications, but you must submit a separate application for each project. Any application that does not clearly state the solicitation, and where applicable, the subcategory on the cover page of the project narrative or selects the incorrect subcategory may not pass the basic minimum requirement phase of the review process.

The following sections will provide further details on the background, requirements, and details for your application. In addition, all applicants should keep the following general requirements in mind:

All award recipients will be expected to begin work immediately upon selection and notification of award.

For all identified deliverables, the applicant must adhere to the requirements set forth in the COPS Office Curriculum Standards and Review Process Guides, which can be found at <https://cops.usdoj.gov/training>.

For all identified deliverables, the applicant must adhere to the requirements set forth in the COPS Office conference request approval process.

For all identified deliverables, the applicant should adhere to the COPS Office Editorial and Style Manual.

For projects that propose site-specific work, letters of support from the targeted agencies are strongly encouraged.

With any programmatic questions, please contact the COPS Office Response Center at 800-421-6770 or send questions via email to AskCopsRC@usdoj.gov. The COPS Office Response Center operates Monday through Friday, 9:00 a.m. to 5:00 p.m. ET, except on federal holidays.

Deadline: July 07, 2021

[Community Policing Development \(CPD\) Microgrants Solicitation CFDA 16.710](#)

Community policing is a philosophy that promotes organizational strategies that support the systematic use of partnerships and problem-solving techniques to proactively address the immediate conditions that give rise to public safety issues such as violent crime, nonviolent crime, and fear of crime.

Community Policing Development (CPD) Microgrants funds are used to develop the capacity of law enforcement to implement community policing strategies by providing guidance on promising practices through the development and testing of innovative strategies; building knowledge about effective practices and outcomes; and supporting new, creative approaches to preventing crime and promoting safe communities.

With this funding, the COPS Office supports projects that allow for the identification and expansion of promising practices and produces knowledge products that follow the principles of good guidance:

Deadline: July 07, 2021

National Dislocated Worker Grants Program Guidance-(CFDA 17.277)

National Dislocated Worker Grants (DWGs) are discretionary grants awarded by the Secretary of Labor under Section 170 of the Workforce Innovation and Opportunity Act (WIOA) to provide employment-related services for dislocated workers. The Department funds two types of DWGs: Disaster Recovery and Employment Recovery.

Disaster Recovery DWGs provide funding to create temporary employment opportunities to assist with clean-up and recovery efforts when an area impacted by an emergency or major disaster is declared eligible for public assistance by the Federal Emergency Management Agency (FEMA) or is declared, or otherwise recognized, as an emergency or disaster of national significance by a Federal agency with authority or jurisdiction over Federal response to the disaster or emergency.

Employment Recovery DWGs temporarily expand capacity to serve dislocated workers and to meet the increased demand for employment and training services following a qualifying event. Qualifying events include major economic dislocations, such as plant closures, mass layoffs, or higher-than-average demand for employment and training activities for dislocated members of the Armed Forces and their spouses. Under 20 CFR 687.110(a)(5), the Secretary of Labor may determine other major dislocations eligible for Employment Recovery DWGs.

Deadline: Rolling grant

U.S. Department of State

U.S. Department of Transportation

FAA Aviation Research Grants Program CFDA 20.108

The FAA hereby announces its continuing interest in receiving applications for aviation research grants and cooperative agreements to pursue the long-term growth and short-term technical needs of civil aviation, under this funding opportunity. Eligibility of applicants for the award of an aviation research grant varies depending on the nature of the proposer's organization, as well as the character of the research being proposed. In general, colleges, universities, and other non-profit research institutions under Section 501(c)(3) of Title 26 of United States Code, are eligible to apply for an aviation research grant.

The FAA Aviation Research Grants Program encourages and supports innovative, advanced research of potential benefit to the long-term growth of civil aviation and commercial space transportation. The pursuit

of basic and applied research in scientific and engineering disciplines that have the potential to further knowledge and understanding on a broad front of emerging technologies is crucial to the realization of this goal. The intent is to encourage applied

research and development to enhance technology assimilation, transfer, and development in the FAA. The FAA Aviation Research Grants Program does not require the immediate application to Research and Development (R&D) programs, although this may occur in some cases. The FAA encourages the

submission of proposals that embrace the entire spectrum of physical, chemical, biological, medical, psychological, mathematical, and engineering sciences.

The following list illustrates topics of interest to those who may consider applying for a grant under this funding opportunity:

1. Capacity and Air Traffic Control Technology
2. Communications, Navigation, and Surveillance
3. Aviation Weather
4. Airports
5. Aircraft Safety Technology
6. Human Factors and Aviation Medicine
7. Systems Science/Operations Research
8. Unmanned Aircraft System (UAS) Unmanned Traffic Management (UTM), Class E Upper Airspace Traffic Management (ETM), and Urban Air Mobility (UAM)

Deadline: September 27, 2027

Deadline: June 18, 2021

U.S. Department of Veterans Affairs

Grants for Transportation in Highly Rural Areas 64.035

This Notice of Funding Availability (NOFA) is for current grantees under the Grants for Transportation of Veterans in Highly Rural Areas for the fiscal year 2021. Approximately \$2.8 million is authorized to be appropriated for this fiscal year.***This notice only applies to current HRTG recipients.***

Deadline: June 22, 2021

VETERANS CEMETERY GRANTS CFDA 64.203

Cemetery Grants are only available to states, territories and federally recognized tribal governments. This program operates in accordance to 38 CFR Part 39

Deadline: July 01, 2021

Section III PROGRAM FUNDING THROUGH PRIVATE, CORPORATE & COMMUNITY FOUNDATIONS

Boat US Foundation Accepting Grant Applications for Safe and Clean Boating Projects

The Boat US Foundation for Boating Safety and Clean Water is accepting applications for its Grassroots Grants Program, which awards funds on an annual basis to nonprofit organizations, boating clubs, and student groups in the United States for projects that utilize innovative approaches to education about safe and clean boating.

The foundation is looking for creative projects that promote safe and clean boating on local waterways. Past topics have ranged from PSAs on the effects of boating under the influence of hands-on education about the effects of marine debris.

Projects the foundation is most interested in funding will be unique (topic, methods, or delivery mechanism); include extensive outreach to boaters; use technology to educate boaters, including social media and the Web; have a widespread reach (not just a handful of boaters); include hands-on work with the boating community, and have a way to measure the success of the program.

Applicants can include boating groups, clubs and associations, student groups, and local nonprofit organizations, including local chapters of national organizations. Grants will not be awarded to government agencies, international organizations, for-profit businesses, or individuals.

Applicants may request up to \$10,000. Funded projects must be completed within a year.

Deadline: Open

Baseball Tomorrow Fund

The Baseball Tomorrow Fund (BTF) awards grants to non-profit and tax-exempt organizations involved in the operation of youth baseball and/or softball programs and facilities. Organizations operating in the U.S. and international locations are eligible to apply. To date, an average of 400 requests are received annually; approximately 10 percent are awarded grants. Grants are awarded every quarter.

Review cycle deadlines:

- January-March: January 1
- April-June: April 1
- July-September: July 1
- October-December: October 1

Surdna Foundation Sustainable Environment Grants

The Sustainable Environments Program is working to overhaul our country's outdated and crumbling infrastructure with a new approach that will foster healthier, sustainable, and just communities. We believe in the potential of what we call "next-generation infrastructure" to improve transit systems, make buildings more energy-efficient, better manage our water systems and rebuild regional food systems. Focusing on urban areas and their surrounding suburbs, we seek solutions that connect and improve these infrastructure systems in ways that maximize positive impacts and minimize negative environmental, economic and social consequences.

JFNY Grant for Arts and Culture

The Japan Foundation New York office (JFNY) accepts applications for projects that take place within the 37 states east of Rocky Mountains listed below for the JFNY Grant throughout the year. This grant aims to support projects that will further understand of Japanese arts and culture. Successful projects may be granted up to \$5,000. Priority will be given to those projects that have secured additional funding from sources other than the Japan Foundation.

Deadline: Applications must be received at least 3 months before the beginning date of the project.

CSX Beyond Our Rails Grant

CSX provides non-profit assistance and support through a variety of programs, including grants that typically range from \$2,500 to \$5,000 for projects focusing on safety, community, wellness, and/or the environment.

Examples given for environmental projects include:

- Teaching environmental stewardship
- Planting eco-friendly trees and plants
- Leading and supporting environmental cleanups
- Recycling and waste minimization
- Promoting energy efficiency and carbon reduction

Deadline: Ongoing

Laboratory Equipment Donation Program for Colleges, Universities, and Museums

The Laboratory Equipment Donation Program (LEDP), formerly the Energy-Related Laboratory Equipment (ERLE) Grant Program, was established by the United States Department of Energy (DOE) to

grant surplus and available used energy-related laboratory equipment to universities and colleges in the United States for use in energy-oriented educational programs.

Deadline: Ongoing

Zayed Future Energy Global High Schools Prize

The primary aim of the Global High Schools category is to inspire future generations across the globe by instilling an ethos of sustainability from an early age, including an appreciation of issues in energy, and broader sustainability. Each school will submit a detailed proposal for a project, and the Prize will become a grant that enables the project's completion. While the main objective is to promote sustainability in schools, a special emphasis of the proposed project should be on specific measurable initiatives to promote renewable energy and sustainability, which may include improvements in energy or water efficiency or a reduction in waste.

Waste Management Charitable Giving

Healthy thriving communities depend on involved citizens, organizations and corporate partners for momentum. We lend our support and services to causes that promote civic pride, economic development, and revitalization. Every community has its challenges, and we strive always to be part of problem-solving initiatives. Programs that Waste Management is most motivated to support include environment, environmental education, and causes important to the areas where we operate. Applications are accepted year-round and are reviewed continuously. Given the large number of requests received, please anticipate an estimated two-month review period for each request.

Clif Bar Foundation Small Grants

These grants are awarded for general organizational support as well as funding for specific projects. Small grants average approximately \$7,000 each. Priority is given to applicants that: Address our funding priorities from a holistic perspective; Protect Earth's beauty and bounty; Create a robust, healthy food system; Increase opportunities for outdoor activity; Reduce environmental health hazards; Build stronger communities; Operate with clearly defined objectives and viable plans to achieve them; Demonstrate strong community ties and operate at the community level; Promote positive change through both the projects and their implementation process.

Deadline: Applications are reviewed three times a year; the deadlines are the 1st of February, June, and October. Grants awarded during a particular cycle will be announced at the beginning of the following cycle.

Foundation for Contemporary Art Accepting Applications for Emergency Grants

Since its inception in 1963, the mission of the Foundation for Contemporary Arts has been to encourage, sponsor, and promote innovative work in the arts created and presented by individuals, groups, and organizations.

Created in 1993, the foundation's Emergency Grants program provides grants of up to \$2,000 to innovative visual and performing artists who have unanticipated, sudden opportunities to present their work to the public when there is insufficient time to seek other sources of funding; or who incur unexpected or unbudgeted expenses for projects close to completion with committed exhibition or performance dates.

To be eligible, applicants must be living, working, and paying taxes in the United States; have committed to a performance or exhibition opportunity and be able to provide specific dates at the time of application; and be an individual artist or an individual representing an artist collective, ensemble, or group. Curators, producers, workshop organizers, organizations, or arts presenters are not eligible to apply.

Deadline: OPEN

Weyerhaeuser Giving Fund

We support the U.S. and Canadian communities where we have a significant presence or business interest. These communities range from rural to metropolitan, each with unique priorities and needs. Our employees serve on local advisory committees for our Giving Fund and develop funding priorities within four focus areas to support their particular communities. This provides a strong companywide framework for giving while allowing flexibility to meet unique needs in our different communities.

Through the Weyerhaeuser Giving Fund we concentrate the majority of our funding in four focus areas:

- Affordable Housing and Shelter
- Education and Youth Development
- Environmental Stewardship
- Human Services, Civic and Cultural Growth

To be eligible for funding, a program must:

- Serve a Weyerhaeuser community
- Be a tax-exempt, nonprofit public charity classified under Section 501(c)(3) of the U.S. Internal Revenue Code OR a registered charity in Canada with a Canada Revenue Agency Number, or registered as a provincial nonprofit society OR a public education institution or government entity qualified under Section 170(c)(1) of the U.S. Internal Revenue Code or qualified as a Canadian municipality.

Wells Fargo Corporate Giving Programs

Wells Fargo supports nonprofit organizations that work on a community level in the areas of human services, arts and culture, community development, civic responsibility, education, environmental consciousness, and volunteerism.

Deadline: Applications accepted on an ongoing basis.

Good Sports Accepting Applications for Sports Equipment Grant

Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization can focus on the respective needs of each program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for two years. During that time, organizations can make up to six separate donation requests — as long as the need is well documented, donations will be granted. There is no need to resubmit a full application again during the two years.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers a consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

Deadline: Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks before the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time.

[Karma for Cara Foundation Invites Applications for Youth Microgrants](#)

The Karma for Cara Foundation is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the Johns Hopkins Kimmel Cancer Center. Cara and her two brothers began volunteering at a young age as part of their family's commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores.

Deadline: OPEN

[VFW Accepting Applications From Veterans for Emergency Financial Assistance](#)

Veterans of Foreign Wars is accepting applications from active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. Since the program's inception, Unmet Needs has distributed more than \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The hardship must be the result of deployment, a military pay issue, or military-related illness or injury. It cannot be due to civil legal or domestic issues, misconduct, or any issues that are a result of spousal separation or divorce, financial mismanagement, or bankruptcy.

Deadline: OPEN

[Start a Snowball Invites Applications for Youth Philanthropy Projects](#)

Start a Snowball, Inc. encourages kids of all ages to engage in philanthropic and community service activities. The organization believes that even one child with the right intentions and support can start a project that seems small in the beginning and eventually grows ("snowballs") into something that inspires and benefits an entire community.

To help kids, kick off their philanthropy efforts, start a Snowball awards \$100 in seed funding for projects taken on by individuals or organizations.

To be eligible, projects must be led by youth between the ages of 5 and 18 and have the intention of doing good.

Start a Snowball does not give directly to collection funds. The organization also does not provide support for fundraisers for sports teams, unless they serve an underserved or disadvantaged group or support projects that are discriminatory or political.

Deadline: Rolling

[Craft Emergency Relief Fund Accepting Applications From Craftspeople in Need](#)

The Craft Emergency Relief Fund is a national nonprofit organization that awards small grants and loans to professional craftspeople experiencing career-threatening illness, accident, fire, theft, or natural disaster.

Financial assistance ranges from \$500 to \$8,000. Other services include referrals to craft suppliers who have agreed to offer discounts on materials and equipment to craftspeople eligible for CERF funds and booth fee waivers from specific craft show producers.

CERF loan recipients are expected to repay the loan in full within five years, enabling CERF to have funds readily available for future craftspeople in need.

Applicants must be a professional artist working in a craft discipline (e.g., a potter, metalsmith, glass artist, woodworker, fiber artist, or furniture maker) who has had a recent career-threatening emergency and a legal resident of the U.S.

Deadline: OPEN

[Pollock-Krasner Foundation Accepting Applications From Artists With Financial Need](#)

The mission of the Pollock-Krasner Foundation is to aid those individuals who have worked as artists over a significant period. The foundation's dual criteria for grants are recognizable artistic merit and financial need, whether professional, personal or both.

Grants are intended for one year, with the size of the grant to be determined by the artist's circumstances and professional exhibition history. Artists applying for a grant must be actively exhibiting their current work in a professional artistic venue such as a gallery or museum space.

The foundation does not accept applications from commercial artists, video artists, performance artists, filmmakers, crafts-makers, computer artists, or any artist whose work primarily falls into these categories.

Deadline: OPEN

[Pollination Project Invites Applications From Social Entrepreneurs for Seed Grants](#)

The Pollination Project is accepting applications from social entrepreneurs looking to make their communities and world a better place. Seed grants of up to \$1,000 will be awarded to projects in the early stages of development, including those that promote compassion toward all life (people, planet, animals), environmental sustainability, justice in all its forms, community health and wellness, and social change-oriented arts and culture. Only applications for seed funding, as opposed to ongoing operational or program costs of a nonprofit organization, will be accepted. To be eligible, applicants must be a passionate, committed individual with a social change vision that fits within one or more of the categories above. Established nonprofit organizations with paid staff will not be considered.

Deadline: OPEN

[Hope for The Warriors Accepting Applications for Critical Care Support for Wounded Veterans](#)

Hope For The Warriors believes those touched by military service can succeed at home by restoring their sense of self, family, and hope. Nationally, the organization provides service members, veterans, and military families with comprehensive support programs focused on transition, health and wellness, peer engagement, and community resources.

Originally designed to meet short-term needs in the days following an injury, the Hope for The Warriors' Critical Care Coordination program has expanded to assist post-9/11 combat-wounded veterans and their families as they navigate through long-term recovery.

Program case coordinators work daily with post-9/11 combat-wounded service members and veterans, their families, and families of the fallen to meet immediate financial needs related to daily living including utilities, groceries, rent, mortgage, and rental deposits. The program provides casework assistance and resource referrals that will help clients immediately and in the future. Payment is always made to a third party.

To be eligible, applicants must be seeking support for needs that are a direct result of a service member's post-9/11 combat-related injury.

Deadline: OPEN

Singing for Change Accepting LOIs for Projects to Address Social and Environmental Problems

Created by Jimmy Buffett in 1995, Singing for Change initially was funded with contributions from the singer's summer concert tour. Since then, SFC has offered competitive grants to progressive nonprofit organizations working to address the root causes of social or environmental problems.

Priority will be given to organizations that keep their overhead low, include community members in planning, and collaborate with other groups to find innovative ways of solving common problems. SFC aims to advance the common good by empowering people to thrive and strengthen and sustain vibrant, diverse communities.

Grants will range in size from \$1,000 to \$10,000. Grants are made only to nonprofit organizations with tax-exempt status under section 501(c)(3) of the Internal Revenue Code, or to organizations that have a sponsoring agency with exempt status.

Deadline: Ongoing

A Little Hope Announces Youth Bereavement Support Services Grants

A Little HOPE supports organizations that provide bereavement support services and grief counseling to children and teens who have experienced the death of a parent, sibling, or loved one.

To be considered, applicants must e-mail (no telephone calls) the name of their program, website address, names of the executive director and program director, and the location of the program. No other information is needed or will be processed. Strong preference will be given to applicants who demonstrate a commitment to the use of community trained volunteers. Grant award amounts are based on the scope and budget of the project.

Deadline: OPEN

Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities

The mission of the Captain Planet Foundation is to promote and support high-quality educational programs that help children and youth understand and appreciate our world through hands-on learning experiences aimed at improving the environment in their schools and communities.

Grants are intended to serve as a means of bringing environment-based education to schools and inspiring youth and communities to participate in community service through environmental stewardship activities. The foundation will fund unique and innovative projects that do not precisely match the grant guidelines but otherwise promote the foundation's mission to advance hands-on environmental activities.

Deadline: January 31 (typically for fall and winter projects), September 30 (typically for spring and summer projects)

Chambers of Commerce Invited to Start Young Entrepreneur Academies

The Young Entrepreneurs Academy today serves thousands of students across America. In 2011, the United States Chamber of Commerce Foundation became a national sponsor and partner of the academy to help celebrate the spirit of enterprise among today's youth and the future leaders of tomorrow.

To that end, YEA, in partnership with Sam's Club and the U.S. Chamber of Commerce Foundation, is accepting applications from chambers of commerce across the country to start Young Entrepreneurs academies of their own. The thirty-week program teaches students in grades 6-12 how to generate business ideas, conduct market research, write business plans, pitch to a panel of investors, and launch their own companies. In 2015, Sam's Club will award startup funds of up to \$2,500 each to thirty chambers of commerce across the country.

Cornell Douglas Foundation Grant

The Cornell Douglas Foundation provides grants to organizations that advocate for environmental health and justice, encourage stewardship of the environment, and further respect for the sustainability of resources. The average grant amount is \$10,000.

Deadline: accepted all year

Public Welfare Foundation

The Public Welfare Foundation has three programs, Criminal Justice, Juvenile Justice, and Workers' Rights, that support efforts to advance justice and opportunity for people in need. The Foundation looks for strategic points where its funds can make a significant difference and improve lives through policy and system reform that results in transformative change.

Criminal Justice Guidelines

The Foundation's Criminal Justice Program supports groups that are working to end the over-incarceration of adults in the United States while also aiming to reduce racial disparities. In particular, the Program makes grants primarily to state-based groups that are working to:

- Reduce state incarceration levels and racial disparities through reforms in sentencing, charging, and supervision policies and procedures.

- Advance the redirection and prioritization of state and local resources toward targeted investments that support system-involved individuals in their communities, through research and strategic thought leadership.

Juvenile Justice Guidelines

The Foundation’s Juvenile Justice Program supports groups working to end the criminalization and reliance on the incarceration of youth in the United States. The Program makes grants to groups that are working to:

- Advance state policies that dramatically restrict juvenile justice systems’ use of incarceration and out-of-home placements and prioritize the use of community-based programs for youth;
- End the practice of trying, sentencing, and incarcerating youth in the adult criminal justice system; and
- Promote the fair treatment of youth of color who come into contact with the juvenile justice system.

Workers’ Rights Guidelines

The Foundation’s Workers’ Rights Program supports policy and system reforms to improve the lives of low-wage working people in the United States, with a focus on securing their basic legal rights to safe, healthy, and fair conditions at work. Specifically, the Program makes grants to groups working to:

- Advance reforms to hold employers accountable for wage theft;
- Advance reforms to prevent severe illness, injury, and death on the job; and
- Advance workers’ rights in complex, fissured employment arrangements through research and strategic thought leadership.

[**Ben & Jerry's Foundation Seeks Proposals for Social and Environmental Justice Projects**](#)

One-year grants of up to \$20,000 will be awarded to nonprofit grassroots community-organizing groups in the United States working to further social and environmental justice and support sustainable and just-food systems. Grants can be used to support both program and operational costs.

[**KaBOOM! Invites Applications for Community Playground Grants**](#)

KaBOOM!, a program that provides eligible communities with most of the funds, tools, and resources they need to build a custom-made playground in one day.

Deadline: OPEN

[**Binoculars for Young Citizen Scientists**](#)

Cornell's BirdSleuth K-12 initiative is awarding binoculars to schools where educators have made outstanding efforts to engage their students in citizen science.

Deadline: OPEN

International Paper Environmental Education Grants

The International Paper (IP) Foundation supports non-profit organizations in communities where its employees live and work. Environmental education is one of the primary areas the Foundation supports. The Foundation seeks programs that help generations understand a sustainable approach to business that balances environmental, social and economic needs.

Lego Children's Fund

The LEGO Children's Fund provides grants primarily in two focus areas: (1) early childhood education and development that is directly related to creativity and (2) technology and communication projects that advance learning opportunities. Typical awards are between \$500 and \$5,000. Interested parties must complete an eligibility quiz, be approved and invited to submit a grant proposal. Each grant will be subject to a specified time frame for completion.

Deadline: Applications accepted four times a year.

Evidence for Action: Investigator-Initiated Research to Build a Culture of Health

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs, and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

Deadline: Open

Pioneering Ideas Brief Proposals

The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted

territory to better understand what new trends, opportunities, and breakthrough ideas can enable everyone in America to live the healthiest life possible.

While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health. Ultimately, we support work that will help us learn what a Culture of Health can look like—and how we can get there.

Deadline: Open

Section IV STATE OF ALABAMA GRANTS

Alabama Power Foundation Grant

The Alabama Power Foundation Grant offers funds to nonprofit organizations in Alabama working in one of the following areas:

- Health
- Human services
- Arts
- Community life
- Education
- Environment

Priority is given to projects that address underserved segments of the population and can be duplicated in other communities.

Alabama Board of Medical Scholarship Awards

The Alabama Board of Medical Scholarship Awards offers forgivable loans to students enrolled in an Alabama medical school who agree to practice primary care in a pre-approved medically, underserved community in Alabama upon graduation.

Loans are repaid at the rate of one year of service per year of the loan.

Deadline: Applications accepted on an ongoing basis.

Economic Development Fund

Land, facilities, and infrastructure to benefit an industry that will create jobs. Create a minimum of 15 permanent jobs to benefit 51% low to moderate-income beneficiaries. Continuous. Applications are taken throughout the year. Maximum request: \$250,000. Minimum Request: \$50,000. Note: Waiver of the match available for applicants with 2010 Census population of 1,000 or less. May also waive the grant ceiling for projects that demonstrate significant long-term economic benefit to the State.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbier.olia@adeca.alabama.gov

Economic Development Incubator projects

Units of local government. Applicants must maintain active registration with SAM. The program must benefit 51% of low to moderate-income beneficiaries. The project must commit to creating jobs. Maximum

request: \$250,000. Match request: 20%. Applications are taken throughout the year. Award upon approval and as funding is available. Application workshop held in April and compliance workshop held in the fall.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbier.olia@adeca.alabama.gov

States' Economic Development Assistance Program (SEDAP)

Applicants: State and local units of governments, public bodies, and non-profit entities. Eligible counties in West Alabama: Bibb, Fayette, Hale, Lamar, Pickens, and Tuscaloosa.

Activities: Water and wastewater facilities, telecommunications, health care, planning activities, leadership development, education and training programs, business development, and entrepreneurship.

Requirements: Project must meet one of ARC's goals: increase job opportunities and per capita income, strengthen the capacity of people to compete in the global economy or develop and improve infrastructure to make the Region economically competitive. Construction projects funded by ARC must have an "Administering Agency" such as ADECA, USDA Rural Development or TVA. The project will be administered by and take on the requirements of that agency

Deadline: Pre-application due date in August. Applicant notified in late fall/winter if a full application is requested. Award announcements typically made in May.

Contact: Alabama Department of Economic and Community, Affairs (ADECA), Jimmy Lester, ARC Program Manager (334) 353-4490, jimmy.lester@adeca.alabama.gov

Alabama Humanities Foundation Grants

Applicants are encouraged to develop projects for a wide variety of audiences including library and museum patrons, teachers and scholars, youth, senior citizens, nursing home residents, hospital patients, the economically disadvantaged, the incarcerated, and the hearing and sight-impaired.

Application submission deadlines:

- Major Grants (\$1,500 and up) – February 15, June 16, September 15
- Minor Grants (\$1,500 or less) – February 15, June 16, September 15

Bank of America Grant

The Bank of America (BoA) offers grants that support high-impact initiatives, organizations and the development of visionary leaders. Schools with farm-to-school type programs may be eligible under the funding areas:

- Developing Career Leadership and Skills: Opportunities that increase civic and community engagement, career exploration and youth employment, financial knowledge and life-skill and soft-skill development
- Assisting with Food Access: Food deserts, green/fresh food access, etc

BoA's Charitable Foundation provides philanthropic support to address needs vital to the health of communities through a focus on preserving neighborhoods, educating the workforce for 21st-century jobs

and addressing critical needs, such as hunger. **Deadline:** Requests for proposals are issued three times per year.

Costco Wholesale Grants

Costco Wholesale grants support programs focusing on children, education and health and human services. They look to achieve the greatest impact where Costco's employees and members live and work. Only 501(c)(3) nonprofit organizations, which meet their giving guidelines and focus areas, are considered.

Deadline: Applications are accepted throughout the year on a rolling basis.

Walmart Foundation National Giving Program Grants

Through its National Giving Program, the Walmart Foundation awards grants of \$250,000 and above to non-profit organizations that operate on a national scope through chapters/affiliates in many states around the country or through programs that operate regionally/locally but seek funding to replicate program activities nationally.

Areas of focus for the Foundation include:

- Hunger Relief & Healthy Eating
- Sustainability
- Women's Economic Empowerment
- Career Opportunity

Deadline: OPEN

William G. McGowan Charitable Fund Issues Request for Proposals for Projects That Address Homelessness

The fund will award grants in support of initiatives that seek to correct circumstances contributing to homelessness, as well as initiatives designed to help eradicate the condition of homelessness in the long term.

Deadline: OPEN

Alabama Additional Funding Sources

Community Foundations in Alabama

There are 13 community foundations in Alabama, covering 78 percent of the counties in the state and holding assets that total more than \$190 million.

Daniel Foundation

The Daniel Foundation offers grants in four program areas: Civic and Community Improvement, Education, Health, and Arts and Culture. Applications are limited to 501 (c)(3) organizations that are located in Alabama.

Alabama Power Foundation

The Alabama Power Foundation allocates funding in four categories: Improving Education, Strengthening Communities, Promoting Arts and Culture, and Restoring and Enhancing the Environment.

Alabama Humanities Foundation

The AHF awards grants solely to support public humanities projects. Active public participation, the involvement of humanities scholars, and strong humanities content are the three essential components of AHF-funded projects.

Gwyn Turner Endowed Fund

The fund is administered by the National Trust for Historic Preservation, in partnership with Alabama Trust. Nonprofits and governmental agencies can obtain funding for preservation planning, heritage education, workshops, conferences, and special interventions. Grants range from \$1,000 to \$5,000 and require a 1:1 cash match.

Applicants are encouraged to discuss their project with the National Trust Southern Office before applying. Contact the Southern Office at 843.722.8552, or e-mail soro@nthp.org.

Sybil H. Smith Trust

Established in 1983, this trust funds organization in the First Congressional District only. Awards limited to arts, community development, education, and human services. No awards are given for individuals. For more information, call: 251.432.0208.

Alabama State Council on the Arts

Grants awarded to nonprofit organizations and local governments in the following categories: Presenting Grants, Project Assistance, Operating Support, Technical Assistance, Collaborative Ventures, and Program Development.

Historic Chattahoochee Commission

The Historic Chattahoochee Commission (HCC) promotes tourism and historic preservation in the Chattahoochee Trace, an 18-county region in Alabama and Georgia. The HCC supports preservation through two grant programs: Seed Grant and the Threatened Landmarks Program.

Veterans

FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high-quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members, and spouses are connected to high-quality career choices by matching their identified skills with the available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden’s Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans, and transitioning Service Members deserve a single, authoritative source for connecting. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at <https://www.ebenefits.va.gov/ebenefits/jobs%20%20>

For a tutorial video on how to use the Veterans Employment Center, please visit:
