

Guide to Grants

From the Office of Congresswoman Terri A. Sewell

Proudly Representing Alabama's 7th Congressional District

February 15, 2021

Welcome to the *Guide to Grants!*

I am honored to represent the 7th Congressional District of Alabama. As your representative during this unprecedented crisis of the **COVID-19 Pandemic**, it remains my top priority to provide you with the resources we need to keep our community safe and thriving. As we embark upon a new year with renewed hope; I will work diligently to provide you with the most current information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our health and safety. This guide will identify federal, corporate, and foundation grant opportunities to assist you in goals for our communities. This guide will include links to federal agencies and resources to help you make your proposals more successful. This guide will also describe new funding opportunities for economic development, infrastructure, healthcare, and educational projects. Also, I am pleased to provide a Letter of Support for grant application projects in the 7th Congressional District of Alabama. Stay up to date with the latest information at <http://sewell.house.gov> Please continue to let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit our website at <http://sewell.house.gov>. To subscribe to *Guide to Grants*, sign up on our [website](#) or call us at 205.254.1960. Previous editions of the *Guide to Grants* are archived and can be found [here](#).

[Rep. Sewell Votes for Budget Resolution Required to Pass Urgently Needed Coronavirus Relief Package](#)

U.S. Rep. Terri Sewell (AL-07), voted in favor of H. Con. Res. 11, the Concurrent Resolution on the Budget for Fiscal Year 2021, giving Congress an additional tool to pass the COVID relief legislation that enacts President Biden and Congressional Democrats' comprehensive American Rescue Plan into law.

“Today I voted in favor of the Budget Resolution so that we can move forward on a process to deliver on President Biden and Congressional Democrats' American Rescue Plan,” said Rep. Terri Sewell. “I hope Republicans will respond to President Biden's calls for renewed bipartisanship and work with us to pass a relief bill quickly. However, if Republicans refuse to negotiate in good faith, we must move forward to get critical relief to Alabama families.”

“Our American Rescue Plan will expand coronavirus testing and treatment, provide resources to schools, and support small businesses. It will also provide direct stimulus payments to working families and expand eligibility for adult dependents,” continued Sewell. “The cost of inaction is growing every day, particularly for the millions of Americans who have lost their jobs as a result of this pandemic. With Emergency Unemployment Assistance set to expire on March 14th, there is no time for delay!”

This budget resolution gives Congress the option of using a budget reconciliation measure to get crucial relief to the American people as quickly as possible. Reconciliation provides fast-track procedures that will allow President Biden's American Rescue Plan to pass with a simple majority in the Senate.

The President's American Rescue Plan takes a multifaceted approach to tackling the public health and economic crises stemming from the COVID-19 pandemic:

Beat the virus and safely reopen schools: The plan will mount a national vaccination program that includes setting up community vaccination sites nationwide. It will also take complementary measures to combat the virus, including scaling up testing and tracing, addressing shortages of personal protective equipment and other critical supplies, investing in high-quality treatments, and addressing health care disparities. The plan will also make the investments necessary to safely reopen schools.

Deliver immediate relief to working families bearing the brunt of the crisis: The plan will provide direct assistance to households across America. The plan will also provide direct housing and nutrition assistance to families struggling to get by, expand access to safe and reliable child care and affordable health care, extend and expand unemployment insurance so American workers can pay their bills, and give families with children as well as childless workers a boost through enhanced tax credits.

Support communities struggling with the economic fallout: The plan will provide crucial support for the hardest-hit small businesses, especially those owned by entrepreneurs from racial and ethnic backgrounds that have experienced systemic discrimination. The plan also provides crucial resources to protect the jobs of first responders, frontline public health workers, teachers, transit workers, and other essential workers that all Americans depend on.

Rep. Sewell Votes in Favor of National Apprenticeship Act of 2021

U.S. Rep. Terri Sewell (AL-07), voted in favor of the National Apprenticeship Act of 2021, a bipartisan proposal that will create nearly 1 million additional apprenticeship opportunities over the next five years. This bill reauthorizes our nation's most successful federal workforce training program, providing registered apprenticeships with paid, on-the job training.

“As a long-time supporter of expanding apprenticeship programs, I am thrilled to support today’s legislation to accelerate the economy with an expansion of our federal apprenticeship program. During this time of economic turmoil, we must invest in our workers and prepare them for jobs in growing industries, ranging from construction and building trades to information technology and health care,” said Rep. Terri Sewell. “I am especially proud that this legislation will increase diversity in apprenticeship programs, including upholding equal opportunity standards and recruiting individuals with barriers to employment. These bold investments will expand opportunity for workers in my district and across the country.”

By increasing investments in the national apprenticeship system, the National Apprenticeship Act of 2021 will begin to bring America’s investments in apprenticeship more in line with countries around the world.

The National Apprenticeship Act was first signed into law in 1937 during the Great Depression. In addition to creating pathways to the middle class and beyond, this reauthorization would help our nation recover from deepest economic decline since that time. Investing in this proven workforce system now will provide more Americans with a paid pathway to high-quality employment opportunities.

The National Apprenticeship Act of 2021:

Authorizes \$400 million for fiscal year (FY) 2022, increasing by \$100 million annually to \$800 million for FY 2026, to:

Support the creation or expansion of registered apprenticeships, youth apprenticeships and pre-apprenticeship programs, including in non-traditional apprenticeship occupations and for nontraditional populations

Encourage employer participation and recruitment for individuals with barriers to employment, including individuals impacted by the criminal justice system and individuals with disabilities

Support national industry and equity intermediaries, and intermediaries at the regional or local level

Establish or expand educational alignment with programs under the national apprenticeship system

Strengthen the connections between the Department of Education and Department of Labor through an interagency agreement to support the creation and expansion of youth apprenticeships, college consortiums, and data sharing agreements.

Rep. Sewell Introduces Maternal Vaccination Act to Protect the Health and Safety of Moms and Babies

Maternal Vaccination Act

Representative Terri Sewell

Senator Tim Kaine

Ensures pregnant people get accurate information about vaccines that will protect themselves and their babies

Provides important information about maternal vaccinations to perinatal health workers to share with pregnant people

Raises awareness about maternal vaccinations through community-based organizations and public health departments

Black Maternal Health Omnibus Act

Learn more: [@BMHCaucus](#) | [bmhc-underwood.house.gov](#)

U.S. Rep. Terri Sewell (AL-07), a member of the Black Maternal Health Caucus, introduced the Maternal Vaccination Act, which will provide funding to increase maternal vaccination rates and reduce vaccination disparities. The bill joins a larger historic legislative “Omnibus” package to address the United States’ urgent maternal health crisis.

“The reality is that in this nation of so much wealth and prosperity, there is no reason that African American women should be dying at rates three times that of white women in pregnancy and childbirth,” said Rep. Terri Sewell. “The COVID-19 pandemic has only exacerbated the maternal mortality crisis affecting Black women, especially in Alabama, which ranks third highest in the nation in maternal death rates. I remain committed to doing everything in my power to ensure every Black woman has equal access to maternal healthcare, and the Maternal Vaccination Act will help get this done!”

The Black Maternal Health Omnibus Act of 2021 will build on existing maternal health legislation, like policies to extend postpartum Medicaid coverage, with 12 bills to comprehensively address every dimension of America’s maternal health crisis.

The United States has the highest pregnancy-related death rate in the developed world. The maternal mortality rate is significantly higher among Black women, who are three to four times more likely than white women to die from pregnancy-related complications. Other birthing people of color, including Hispanic, Native American, and Asian American and Pacific Islander women, also suffer from disproportionate rates of adverse maternal health outcomes.

The Black Maternal Health Momnibus Act of 2020 includes several provisions that will:

Make critical investments in social determinants of health that influence maternal health outcomes, like housing, transportation, and nutrition.

Provide funding to community-based organizations that are working to improve maternal health outcomes and promote equity.

Comprehensively study the unique maternal health risks facing pregnant veterans and support VA maternity care coordination.

Grow and diversify the perinatal workforce to ensure every mom in America receives maternity care and support from people they can trust.

Improve data collection processes and quality measures to better understand the causes of the maternal health crisis in the United States and inform solutions to address it.

Invest in programs to expand access to treatments and support for maternal mental health conditions and substance use disorders.

Improve maternal health care and support for incarcerated moms.

Invest in digital tools like telehealth to improve maternal health outcomes in underserved areas.

Promote innovative payment models to incentivize high-quality maternity care and continuity of health insurance coverage from pregnancy through labor and delivery and up to 1 year postpartum.

Strengthen programs to improve maternal health during COVID-19 and future public health emergencies.

Invest in community-based initiatives to reduce levels of and exposure to climate change-related risks for moms and babies.

Rep. Sewell Statement on Senate Acquittal of Former President Donald J. Trump

U.S. Rep. Terri Sewell (AL-07) released the following statement after the United States Senate voted 57-43 in the impeachment trial to acquit Former President Donald J. Trump for inciting a violent insurrection at the U.S. Capitol:

“There is no doubt that President Donald Trump sowed the seeds of disinformation, hatred and violence that was directly responsible for the armed insurgents who stormed the U.S. Capitol on January 6th,” said Rep. Terri Sewell. “It is a sad day for our democracy when the majority of Senate Republicans choose not to hold President Trump accountable simply because of a technical process argument that has been debunked by constitutional scholars. GOP Senators chose party and loyalty over the Constitution and OUR democracy. History will not look favorably upon those who refused their constitutional and moral obligation to convict Donald Trump of his seditious actions. Justice has not been served, and our failure to meet this historic moment will be judged by future generations. As we move forward as a Nation, we must remember that there is no healing without accountability.

GRANT ALERT!

Department of Interior-National Parks Service HBCU Preservation Grant

FY2020 Historic Preservation Fund - Historically Black Colleges and Universities Grants CFDA 15.932

In 1988, the National Park Service established the Historically Black Colleges and Universities (HBCU) Preservation grant program to document, preserve, and stabilize structures on HBCU campuses. The HBCU grant program exists to repair historic structures on campuses of Historically Black Colleges and Universities that are listed in the National Register of Historic Places either individually or as contributing to a National Register or National Historic Landmark historic district. Projects must meet major program selection criteria and all work must meet the Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation.

Deadline: March 31, 2021

Congressional Black Caucus Scholarships

CBC Spouses Education Scholarship

Amount Varies

This scholarship was established in 1988 by the spouses of Congressional Black Caucus members to address the educational need in the congressional districts in response to federal cuts in spending for education programs and scholarships, which disproportionately affect people of color. This opportunity awards scholarships to academically talented and highly motivated African-American or Black students pursuing an undergraduate, graduate, or doctoral degrees in a variety of fields.

Deadline: April 30, 2021

CBC Spouses Performing Arts Scholarship

Amount \$3,000

This scholarship was established in 2000, in honor of the late Curtis Mayfield to ensure that African American or Black students pursuing a degree in the performing arts receive financial assistance. Performing arts include theater, drama, comedy, music, dance, opera, marching bands, etc.

Deadline: April 30, 2021

CBC Spouses Visual Arts Scholarship

Amount \$3,000

This scholarship was established in 2006 to provide financial assistance to African American or Black students pursuing a degree in the visual arts. Visual arts include architecture, ceramics, drawing, fashion, graphic design, illustration, interior design, painting, photography, sketching, video production, etc.

Deadline: April 30, 2021

CBCF Congressional Summer Internship Program

Amount-\$3,000

The CBCF Congressional Summer Internship Program (will be a Virtual Professional Development Program) offers undergraduate students the opportunity to learn about the legislative process, leadership and careers in the policy making process.

Deadline: April 30, 2021

CBCF Louis Stokes Health Scholars Program, sponsored by United Health Foundation

Amount Varies

The Congressional Black Caucus Foundation's Louis Stokes Health Scholars Program, sponsored by United Health Foundation, seeks to increase the number of qualified, competitive African-American or Black students entering — internal medicine, family medicine and pediatrics. This program offers a scholarship award to offset scholars' cost of attendance. The multi-year award supports these scholars throughout their undergraduate and graduate academic journey.

Deadline: April 30, 2021

CBCF NREI Historically Black Colleges and Universities (HBCU) Scholarship

Amount-\$8,000

The Congressional Black Caucus Foundation's National Racial Equity Initiative for Social Justice (NREI) HBCU Social Justice Scholarships were created to encourage and recognize necessary student exposure, experience, and engagement in organizing, political mobilization, and civic participation aimed at advancing equity, freedom, and justice for all, especially the Black community and racial minorities. The funds will be disbursed on an annual basis to undergraduate students attending Historically Black Colleges or Universities with demonstrated experience in social justice, student activism, and/or community service.

Deadline: April 30, 2021

Section I GENERAL GRANT INFORMATION

- Grants and Federal Domestic Assistance - Guidance and key resources to help eligible constituents find information on federal grants, loans, and nonfinancial assistance for projects, as well as on private funding. Prepared by the Congressional Research Service for Members of Congress, updated May 2014. Website: <http://sewell.house.gov/grant-information/>
- A federal grant is an award of financial assistance from a federal agency to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States. Federal grants are not federal assistance or loans to individuals. A federal grant may not be used to acquire property or services for the federal government's direct benefit. The 26 federal agencies offer over 1,000 grant programs annually in various categories. Website: <http://www07.grants.gov/aboutgrants/grants.jsp>
- To learn about Federal grant opportunities, register your organization, and receive notices, please visit www.grants.gov. It is the resource for all Federal grants.

- To apply for Federal Grants: http://www.grants.gov/applicants/apply_for_grants.jsp
- [Grants.gov](#) Applicant Training Video - Need a quick lesson on how to Register, Find, and Apply? Watch this short video to get tips on registering with Grants.gov; finding grant opportunities; understanding your search results; and, applying for opportunities.
- To learn about foundation grant opportunities, please visit <http://foundationcenter.org/>. The Foundation Center is a gateway to information about private funding sources and provides guidelines about how to write a grant proposal. It also provides links to state libraries with grants reference collections and links to other useful Internet websites.

SARS-CoV-2 (COVID-19) Program Activities
CFDA 93.990

The Office of the Assistant Secretary for Health (OASH) has established the Laboratory and Diagnostics Working Group (LDWG) seeking submissions to a Broad Agency Announcement (BAA) “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” (Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139)). OASH/LDWG seeks proposals for projects that will further enable the coordination and development of testing and associated products that meet the current and future needs, and the effective transition of technology into broad use without impediments. The primary areas of focus should specifically include (1) Scaling and Networking of Technologies, and (2) Testing Demonstrations & Technical Assistance. Specifically, OASH is interested in submissions that will substantially increase our testing capacity and quality in the near term, and do not fall within the scope of other HHS programs.

When posted, the funding opportunity announcement (FOA) will provide guidance for applicants on the submission of short white papers, which after review, may be followed by full proposal submissions for consideration for funding. Applicants will have the option of forgoing the white paper submission for direct submission of a full proposals. Applications will be accepted and reviewed on a rolling basis to address immediate

public needs. Applicants must submit white papers and applications through Grants.gov according to the instructions in the FOA. Applicants must have an active SAM registration at the time of submission and maintain an active registration throughout the review process and during any award that may result.

BACKGROUND: On January 31, 2020, HHS Secretary Alex M. Azar II declared a public health emergency in response to the 2019 novel coronavirus, now known as SARS-CoV-2, or COVID-19. Testing is vital to prevent and contain outbreaks that may occur as economic and social activities expand across the country. Accordingly, the Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139) provides funding to HHS to “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” As part of the response to this requirement, and in order to administer agency actions to mitigate the pandemic, the Office of the Assistant Secretary for Health (OASH) Laboratory and Diagnostics Working Group (LDWG) complements existing efforts within the Department. To meet current and future challenges with the least possible risk, the nation needs more testing - with increasingly diverse, accurate, and affordable platforms – that are tailored to specific use cases.

Deadline: TBD

[Announcement to Support Novel, High-Impact Studies Evaluating Health System and Healthcare Professional Responsiveness to COVID-19 \(CFDA 93.226\)](#)

The health systems research community should prepare to submit applications to AHRQ to fund critical research focused on evaluating topics such as innovations and challenges encountered in the rapid expansion of telemedicine in response to COVID-19, effects on quality, safety, and value of health system response to COVID-19, and the role of primary care practices and professionals during the COVID-19 epidemic. AHRQ is particularly interested in understanding how digital health innovations contributed to health system and healthcare professional innovation and challenges and solutions to meeting the needs of vulnerable populations including older adults, people living with multiple chronic conditions, rural communities, and uninsured and underinsured populations.

Emergency Awards: Rapid Investigation of Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) and Coronavirus Disease 2019 (COVID-19) (R21 Clinical Trial Not Allowed)(CFDA 93.855)

The purpose of this Funding Opportunity Announcement (FOA) is to provide an expedited (rapid) funding mechanism for research on Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) and Coronavirus Disease 2019 (COVID-19)

Deadline: April 29, 2021

Limited Competition Emergency Awards: Shared Personal Protective Equipment Resources for COVID-19 Related Vaccine and Treatment Clinical Trials and Clinical Studies (S10 Clinical Trial Not Allowed) CFDA 93.855

The purpose of this public health emergency funding opportunity is to provide Personal Protective Equipment (PPE) to directly support the needs of the NIAIDs vaccine and treatment clinical trials and clinical studies for COVID-19. This program will ensure that adequate protective equipment is available to directly assist in safely carrying out the clinical activities and direct interactions with the patients participating in the trial. Eligibility is limited to recipients conducting COVID-related clinical research and clinical studies supported by NIAIDs emergency appropriation provided by The Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 and The Coronavirus Aid, Relief and Economic Security (CARES) Act.

COVID-19 Private Sector Engagement & Partnership Fund

The U.S. Department of State, Office of Global Partnerships (E/GP) is pleased to announce the COVID-19 Private Sector Engagement & Partnership Fund (Fund) Annual Program Statement (APS) that will be used to make assistance awards. This APS is being done in partnership with the U.S. Agency for International Development and concept papers may be transferred to the Agency based upon a determination of suitability for award and administration. USAID's policies and procedures will apply to concept papers that are transferred to the Agency. This APS utilizes a two-step process. Applicants must first submit a concise (5-page) concept paper designed to clearly communicate their program idea and objectives. This is not a full proposal. The purpose of the concept paper is to allow applicants to submit program ideas for evaluation prior to requiring the development of a full proposal application. After merit review of eligible concept papers, selected applicants will be invited to expand on their program idea(s) by submitting a full proposal application. Full proposals will go through a second merit review before a final funding decision is made. E/GP has outlined the process through which potential applicants may apply in Appendix 1 to this APS.

FY 2020 Training and Technical Assistance to Improve Water Quality and Enable Small Public Water Systems to Provide Safe Drinking Water CFDA 66.424

The U.S. Environmental Protection Agency (EPA) is soliciting applications under the authority of the Safe Drinking Water Act (SDWA) and the Clean Water Act (CWA) from eligible applicants as described in Section III.A of the announcement to provide training and technical assistance for small public water systems, small publicly owned wastewater systems, communities served by onsite/decentralized wastewater systems, and private drinking water well owners.

Training and technical assistance activities provided to these systems, communities, and private drinking water well owners should be made available nationally in rural and urban communities and to personnel of tribally-owned and -operated systems.

Deadline: February 12, 2021

Innovative Water Infrastructure Workforce Development Grant Program CFDA 66.445

The U.S. Environmental Protection Agency (EPA) is soliciting applications from eligible applicants to (1) assist in the development and use of innovative activities relating to water workforce development and career opportunities in the drinking water and wastewater utility sector, and (2) expand public awareness about drinking water and wastewater utilities and to connect individuals to careers in the drinking water and wastewater utility sector.

Deadline: March 26, 2021

FY 2021 HAZARDOUS WASTE MANAGEMENT GRANT PROGRAM FOR TRIBES CFDA 66.812

This notice announces the availability of funds and solicits applications from federally recognized tribes or intertribal consortia for the development and implementation of hazardous waste programs and for building capacity to address hazardous waste management in Indian country. In accordance with the EPA Indian Policy of 1984, EPA recognizes tribal governments as the primary parties for managing programs for reservations.

National Aeronautics and Space Administration

ROSES 2020: Heliophysics Flight Opportunities in Research and Technology CFDA 43.001

The National Aeronautics and Space Administration (NASA) Science Mission Directorate (SMD) released its annual omnibus Research Announcement (NRA), Research Opportunities in Space and Earth Sciences (ROSES) – 2020 (OMB Approval Number 2700-0092, CFDA Number 43.001) on February 14, 2020. In this case "omnibus" means that this NRA has many individual program elements, each with its own due dates and topics. All together these cover the wide range of basic and applied supporting research and technology in space and Earth sciences supported by SMD. Awards will be made as grants, cooperative agreements, contracts, and inter-

or intra-agency transfers, depending on the nature of the work proposed, the proposing organization, and/or program requirements. However, most extramural research awards deriving from ROSES will be grants, and many program elements of ROSES specifically exclude contracts, because contracts would not be appropriate for the nature of the work solicited. The typical period of performance for an award is three years, but some programs may allow up to five years and others specify shorter periods. In most cases, organizations of every type, Government and private, for profit and not-for-profit, domestic and foreign (with some caveats), may submit proposals without restriction on teaming arrangements. Tables listing the program elements and due dates, the full text of the ROSES-2020 solicitation, and the "Summary of Solicitation" as a stand-alone document, may all be found NSPIRES at <http://solicitation.nasaprs.com/ROSES2020>.

This synopsis is associated with one of the individual program elements within ROSES, but this is a generic summary that is posted for all ROSES elements. For specific information on this particular program element download and read the PDF of the text of this program element by going to Tables 2 or 3 of this NRA at <http://solicitation.nasaprs.com/ROSES2020table2> and <http://solicitation.nasaprs.com/ROSES2020table3>, respectively, click the title of the program element of interest, a hypertext link will take you to a page for that particular program element. On that page, on the right side under "Announcement Documents" the link on the bottom will be to the PDF of the text of the call for proposals. For example, if one were interested in The Lunar Data Analysis Program (NNH20ZDA001N-LDAP) one would follow the link to the NSPIRES page for that program element and then to read the text of the call one would click on "C.8 Lunar Data Analysis (.PDF)" to download the text of the call. If one wanted to set it into the context of the goals, objectives and know the default rules for all elements within Appendix C, the planetary science division, one might download and read "C.1 Planetary Science Research Program Overview (.PDF)" from that same page. While the letters and numbers are different for each element within ROSES (A.12, B.7, etc.) the basic configuration is always the same, e.g., the letter indicates the Science Division (A is Earth Science, B is Heliophysics etc.) and whatever the letter, #1 is always the overview.

Frequently asked questions for ROSES are posted at <http://science.nasa.gov/researchers/sara/faqs>. Questions concerning general ROSES-2020 policies and procedures may be directed to Max Bernstein, Lead for Research, Science Mission Directorate, at sara@nasa.gov, but technical questions concerning specific program elements should be directed to the point(s) of contact for that particular element, who may be found either at the end of the individual program element in the summary table of key information or on the web list of topics and points of contact at: <http://science.nasa.gov/researchers/sara/program-officers-list>.

Not all program elements are known at the time of the release of ROSES. To be informed of new program elements or amendments to this NRA, proposers may subscribe to: (1) The SMD mailing lists (by logging in at <http://nspires.nasaprs.com> and checking the appropriate boxes under "Account Management" and "Email Subscriptions"), (2) The ROSES-2020 RSS feed for amendments, clarifications, and corrections to at <http://science.nasa.gov/researchers/sara/grant-solicitations/ROSES-2020>, and (3) The ROSES-2020 due date Google calendar. Instructions are at <https://science.nasa.gov/researchers/sara/library-and-useful-links> (link from the words due date calendar).

Deadline: March 26, 2021

ROSES 2021: Heliophysics Guest Investigator Open

The close date above is the date for the Step-1 proposal submission. See the solicitation for the Step-2 due date. Step-2 proposals cannot be submitted if a Step-1 proposal was not submitted.

The National Aeronautics and Space Administration (NASA) Science Mission Directorate (SMD) released its annual omnibus Research Announcement (NRA), Research Opportunities in Space and Earth Sciences (ROSES) – 2021 (OMB Approval Number 2700-0092, CFDA Number 43.001) on February 12, 2021. In this case "omnibus" means that this NRA has many individual program elements, each with its own due dates and topics. All together these cover the wide range of basic and applied supporting research and technology in space and Earth sciences supported by SMD. National Archives and Records Administration

NHPRC-Mellon Start-Up Grants for Collaborative Digital Editions in African American, Asian American, Hispanic American, and Native American History CFDA 89.003

The National Historical Publications and Records Commission (NHPRC), with funding provided by the Andrew W. Mellon Foundation, seeks proposals for its new program for Collaborative Digital Editions in African American, Asian American, Hispanic American, and Native American History. With an overarching goal to broaden participation in the production and publication of historical and scholarly digital editions, the Start-Up grants program is designed:

To provide opportunities that augment the preparation and training of Black, Indigenous, and People of Color (BIPOC) new to the work of historical documentary editing, especially those currently working in history or related area and ethnic studies departments.

To encourage and support the innovative and collaborative re-thinking of the historical and scholarly digital edition itself—how it is conceived, whose voices it centers, and for what purposes.

To encourage and support the early planning and development of significant, innovative, and well-conceived digital edition projects rooted in African American, Asian American, Hispanic American, and Native American history and ethnic studies.

To stimulate meaningful, mutually beneficial, and respectful collaborations that help to bridge longstanding institutional inequalities by promoting resource sharing and capacity building at all levels, and that build into their plans a variety of means for achieving meaningful community and user input and engagement.

Grants are awarded to collaborative teams consisting of at least two scholar-editors, as well as one or more archivists, digital scholars, data curators, and/or other support and technical staff, as appropriate to fulfill the planning goals and early-implementation needs of the proposed edition. We strongly encourage applications from collaborative teams that include BIPOC faculty and staff in key positions, and that include editorial, archival, and technical staff at Historically Black Colleges and Universities, Hispanic-Serving Institutions, Tribal Colleges, and/or other Indigenous and Native American tribal scholars and community members, and members of the Asian American community. We also encourage projects to seek out community members as well as undergraduate and graduate students to contribute to (and benefit from) participation in all phases of the project.

Eligible projects in this category typically focus on collecting, describing, preserving, compiling, transcribing, annotating, editing, encoding, and publishing original manuscript or typewritten documents, and/or historical records in other formats, such as analog audio and/or born-digital records.

Eligible activities in this category may include:

Travel and related costs for planning meetings (intended for geographically-dispersed collaborations).

Relevant training for project directors and staff, including but not limited to NHPRC-supported training opportunities through its Institutes for Historical Editing program.

Associated costs for technical planning, wire-framing, and testing and evaluation with target audience(s) to determine needs and priorities.

For projects undertaking an extensive or supplementary document search, funds also may be used for initial surveying of collections, document imaging and collection, canvassing, community outreach, and related travel.

This grant program does not support the production of film or video documentaries. For a comprehensive list of the Commission's limitations on funding, please see What We Do and Do Not Fund. Applications that consist entirely of ineligible activities will not be considered.

For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund" (<http://www.archives.gov/nhprc/apply/eligibility.html>).

Award Information

A grant is for up to two years and for up to \$60,000 per year. The Commission expects to make up to 6 grants in this category for a total of up to \$720,000. Start-Up Grants begin no earlier than January 1, 2022.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications, publicity, and other products that result from its support.

Eligibility

U.S. nonprofit organizations or institutions

U.S. colleges, universities, and other academic institutions

State or local government agencies

Federally-acknowledged or state-recognized Native American tribes or groups

Applications from and collaborations involving Historically Black Colleges and Universities (HBCUs), Hispanic-Serving Institutions (HSIs), and Tribal Colleges are strongly encouraged.

In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

Cost Sharing

Cost sharing is not a requirement. However, the applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project.

NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Indirect costs must be listed under the applicant's cost sharing contribution if they are included in the budget.

Other Requirements

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF.

Ineligible applications will not be reviewed.

Deadline: June 09, 2021

National Endowment for the Humanities

Formal Methods in the Field

The Formal Methods in the Field (FMitF) program aims to bring together researchers in formal methods with researchers in other areas of computer and information science and engineering to jointly develop rigorous and reproducible methodologies for designing and implementing correct-by-construction systems and applications with provable guarantees. FMitF encourages close collaboration between two groups of researchers. The first group consists of researchers in the area of formal methods, which, for the purposes of this solicitation, is broadly defined as principled approaches based on mathematics and logic to system modeling, specification, design, analysis, verification, and synthesis. The second group consists of researchers in the “field,” which, for the purposes of this solicitation, is defined as a subset of areas within computer and information science and engineering that currently do not benefit from having established communities already developing and applying formal methods in their research. This solicitation limits the field to the following areas that stand to directly benefit from a grounding in formal methods: computer networks, distributed/operating systems, embedded systems, human centered computing, and machine learning. A proposal pursuing a different field area must make a strong case for why the field area of interest is one that does not currently benefit from formal methods but would be a strong candidate for inclusion as a field area.

The FMitF program solicits two classes of proposals:

Track I: Research proposals: Each proposal must have at least one Principal Investigator (PI) or co-PI with expertise in formal methods and at least one with expertise in one or more of these fields: computer networks, distributed/operating systems, embedded systems, human centered computing, and machine learning. Proposals are expected to address fundamental contributions to both formal methods and the respective field(s) and should include a proof of concept in the field along with a detailed evaluation plan that discusses intended scope of applicability, trade-offs, and limitations. All proposals are expected to contain a detailed collaboration plan that clearly highlights and justifies the complementary expertise of the PIs/co-PIs in the designated areas and describes the mechanisms for continuous bi-directional interaction. Projects are limited to \$750,000 in total budget, with durations of up to four years.

Track II: Transition to Practice (TTP) proposals: The objective of this track is to support the ongoing development of extensible and robust formal-methods research prototypes/tools to facilitate usability and accessibility to a larger and more diverse community of users. These proposals are expected to support the development, implementation, and deployment of later-stage successful formal methods research and tools into operational environments in order to bridge the gap between research and practice. A TTP proposal must include a project plan that addresses major tasks and system development milestones as well as an evaluation plan for the working system. Proposals are expected to identify a target user community or organization that will serve as an early adopter of the technology. Collaborations with industry are strongly encouraged. Projects are limited to \$100,000 in total budget, with durations of up to 18 months.

Deadline: February 14, 2021

NEA Research Grants in the Arts, FY2022 CFDA 45.024

Our support of a project may start on or after January 1, 2022. Grants generally may cover a period of performance of up to two years, with an exception for projects that include primary data collection as part of the proposed activity. Projects that include primary data collection may request up to three years.

A grantee may not receive more than one National Endowment for the Arts grant for the same project during the same period of performance.

Grant Program Description

The National Endowment for the Arts invites applicants to engage with the agency's five-year research agenda through two funding opportunities for research projects:

- Research Grants in the Arts funds research that investigates the value and/or impact of the arts, either as individual components of the U.S. arts ecology or as they interact with each other and/or with other domains of American life. Matching/cost share grants of \$10,000 to \$100,000 will be awarded.
- NEA Research Labs funds transdisciplinary research teams grounded in the social and behavioral sciences, yielding empirical insights about the arts for the benefit of arts and non-arts sectors alike. Matching/cost share cooperative agreements of up to \$150,000 will be awarded.

Research Grants in the Arts offers grants, and NEA Research Labs offers cooperative agreements. The difference between grants and cooperative agreements is the Arts Endowment's involvement. The Arts Endowment is substantially involved with cooperative agreements. Therefore, the Arts Endowment will be substantially involved in the direction and accomplishments of NEA Research Labs.

Deadline: March 29, 2021

Innovation Corps - National Innovation Network Teams Program (I-Corps TM Teams) – (CFDA 47.041, 47.049, 47.050, 47.070, 47.074, 47.075, 47.076, 47.079, 47.083)

The National Science Foundation (NSF) seeks to develop and nurture a national innovation ecosystem that builds upon fundamental research to guide the output to facilitate the application of scientific discoveries closer to the development of technologies, products, and processes that benefit society. To maintain, strengthen and grow a national innovation ecosystem, NSF has established the Innovation Corps - National Innovation Network Teams Program (I-Corps Teams). The NSF I-Corps Teams Program's purpose is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate innovation that can attract subsequent third-party funding. The purpose of the I-Corps

Teams program is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate the translation of knowledge derived from fundamental research into emerging products and services that can attract subsequent third-party funding. The outcomes of I-Corps Teams projects will be threefold: 1) a clear go/no go decision based on an assessment of the viability of the overall business model, 2) substantial first-hand evidence for or against a product-market fit, with a pithy definition of the customer segments and corresponding value propositions, and 3) a narrative of a compelling technology demonstration for potential partners. WEBINAR: A webinar will be held monthly to answer questions about this program. Details will be posted on the I-Corps website (see http://www.nsf.gov/news/special_reports/i-corps/program.jsp) as they become available.

Deadline: Proposals accepted at anytime

Cyberinfrastructure for Emerging Science and Engineering Research – (CFDA 41.070)

The Cyberinfrastructure for Emerging Science and Engineering Research (CESER) program aims to catalyze new science and engineering discovery pathways through early-stage collaborative activities between disciplinary scientists and engineers as well as developers/implementers of innovative cyberinfrastructure (CI) capabilities, services, and approaches. Beginning in FY 2017, the CESER program replaced the Strategic Technologies for Cyberinfrastructure (STCI) program. CESER has retained STCI's focus on supporting innovation across the CI ecosystem with increased emphasis on addressing and enabling emerging areas of potentially transformative research, including NSF priority areas, national strategic directions, and international collaborative research. CESER accepts proposals according to this Program Description year-round. From time to time, NSF may also issue Dear Colleague Letters according to CESER to signal special thematic interests and opportunities. CESER employs existing NSF funding mechanisms to accomplish the program's goals such as Early-concept Grants for Exploratory Research (EAGER) and Conference proposals. GUIDANCE TO POTENTIAL PROPOSERS Science/engineering-driven collaboration. A central feature of successful CESER projects is a strong, mutually-dependent collaborative team comprising expertise in the target science/engineering discipline(s) as well as expertise in CI development and implementation. Such a collaborative approach is critical to informing and guiding the development of requirements towards the eventual development and deployment of user-centric innovative CI that fosters new pathways to discovery. Proposals according to CESER should identify and describe the science and engineering goals and rationale, and explain and support the potential for transformative impacts on science/engineering research and broader impacts. Proposals for technical efforts that are not well-tied to identified science and engineering research challenges as well as utilization scenarios are unlikely to be supported. Exploratory and pilot activities. CESER supports early-stage exploratory efforts that may comprise analysis, community planning, and pilot-level activities that are preparatory or informative for eventual future development and deployment of science/engineering-driven CI. Proposals for full-scale technical efforts leading to development/deployment should be directed to other appropriate NSF programs. Integrative and accelerative approaches. Proposals have particularly welcomed that address identified common needs across multiple research disciplines; leverage and accelerate the impact of existing CI investments in resources and services in one or more application domains; aim to reduce barriers to broader adoption of CI-enabled science/engineering approaches, and integrate different aspects and elements of CI to achieve holistic solutions with transformative science/engineering impact. The

requirement to contact NSF Cognizant Program Officers. CESER is an inherently collaborative science/engineering-CI program. Successful CESER projects typically involve co-funding from the relevant disciplinary research programs within NSF. Consequently, before submitting a proposal to CESER, proposers must first (1) discuss their ideas with a cognizant CESER Program Officer to ensure that CESER is the appropriate venue for the proposal and (2) discuss their ideas with the relevant NSF disciplinary science and engineering research program(s) to ensure there is adequate disciplinary interest in the proposed effort. Proposals that have been declined by CESER or any other NSF program may not be resubmitted to CESER without substantial revision. Proposals violating this restriction may be returned without review

Deadline: Proposals accepted anytime

High-Risk Research in Biological Anthropology and Archaeology – (CFDA 47.075)

Anthropological research may be conducted under unusual circumstances, often in distant locations. As a result, the ability to conduct potentially important research may hinge on factors that are impossible to assess from a distance and some projects with potentially great payoffs may face difficulties in securing funding. This program gives small awards that provide investigators with the opportunity to assess the feasibility of an anthropological research project. It is required that the proposed activity be high risk in nature. The information gathered may then be used as the basis for preparing a more fully developed research program. Investigators must contact the cognizant NSF Program Director before submitting an HRRBAA proposal. This will facilitate determining whether the proposed work is appropriate for HRRBAA support.

Deadline: Proposals accepted anytime

Broadening Participation in Engineering – (CFDA 47.041)

NSF seeks to strengthen the future U.S. Engineering workforce by enabling the participation of all citizens through the support of research in the science of Broadening Participation in Engineering (BPE). The BPE program is dedicated to supporting the development of a diverse and well-prepared engineering workforce. BPE focuses on enhancing the diversity and inclusion of all underrepresented populations in engineering, including gender identity and expression, race and ethnicity (African Americans/Blacks, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders), disability, LGBTQ+, first-generation college, and socio-economic status. BPE funds research to Understand and analyze the systemic barriers that prevent underrepresented groups from pursuing and succeeding in engineering, for example, understand the problem of insufficient interest and poorly sustained participation in engineering across underrepresented demographic groups; insignificant preparation and scarce opportunities for members of underrepresented groups to learn meaningful, relevant engineering content. Understand and analyze factors that enhance our ability to increase access to engineering by creating support systems and social networks that raise career awareness about different engineering pathways. Develop innovative methods and projects to significantly impact the

recruitment and retention of engineering students from underrepresented groups. Activities must be supported by relevant data and have the capability to produce a model that can be replicated in other contexts. Develop innovative methods and projects to aggressively recruit and retain tenure track faculty from underrepresented groups. Design and transform a culture to make diversity, equity, and inclusion a priority in the engineering enterprise. BPE research activities will provide scientific evidence that engineering educators, employers, and policymakers need to make informed decisions to design effective programs that broaden the participation of persons from historically underrepresented groups in the engineering workforce. BPE is interested in funding research that spans K-12 to the workforce and offers the greatest return on investment. BPE funded research should produce outcomes that are scalable, sustainable, and applicable to various contexts, settings, and demographics within the engineering enterprise. BPE is particularly interested in research that employs intersectional approaches in recognition that gender, race, and ethnicity do not exist in isolation from each other and other categories of social identity. BPE is equally interested in research activities that align with and provide meaningful connections to the NSF INCLUDES National Network. The overarching goal of NSF INCLUDES is to achieve a significant impact at scale in transforming STEM education and workforce development by educating a diverse, STEM-capable workforce that includes talented individuals from all sectors of the Nation & apos;s population. Collaborations are encouraged between BPE proposals and existing NSF INCLUDES projects, for example, the NSF INCLUDES Alliances and Coordination Hub, provided these collaborations to strengthen both the BPE and NSF INCLUDES projects. Before submitting a proposal to the BPE program, prospective Principal Investigators are strongly encouraged to speak to the program director to obtain guidance as to whether the proposed ideas are aligned with the strategic goals of the BPE program.

Proposal Elements All BPE proposals should Be informed by the current theoretical and scientific literature as well as add to the extant knowledge base. Directly address how the work will broaden the participation of one or more underrepresented populations in engineering. Provide appropriate justification to support the selection of the targeted group(s), with specific and applicable objectives, and demonstrate applicable knowledge of the relevant literature on underrepresentation. Integrate a mechanism to assess and evaluate how well the project has achieved the stated objectives as part of the project management plan. Provide evidence of clear, measurable outcomes and consideration of how the strategy will advance knowledge beyond localized contexts. Incorporate a dissemination plan that goes beyond publishing research papers and presenting at conferences. PIs should think creatively about who needs to hear about the research for it to have an impact and develop a strategy to reach that audience. Describe how the outcomes have the potential to enhance the diversity and inclusion of underrepresented populations in engineering. The Project Summary must contain a list of 3-5 keywords. Place the keywords on a separate line at the end of the Overview section of the Project Summary.

Deadline: Proposals accepted anytime

[Critical Aspects of Sustainability – \(CFDA 47.041, 47.049, 47.050\)](#)

Economic development and human progress have led to a proliferation of manufactured chemicals and materials made from limited resources found in nature (i.e., minerals and metals, petroleum-based products and natural gas). Long-term sustainability requires consideration of the availability of specific natural resources, energy, and water usage. NSF continues to support efforts that seek to improve the efficiency with which natural resources are used to meet human needs for products and services. Sustainability research encompasses

the design, manufacture, and use of efficient, effective, safe and more environmentally-benign products and processes; stimulates innovation across all sectors to design and discover new chemicals and materials, production processes, and product stewardship practices; and, increases performance and value while meeting the goals of protecting and enhancing human health and the environment. This program seeks to support basic research through core disciplinary programs aimed at improving the sustainability of resources for future generations while maintaining or improving current products to offer technologically-advanced, economically competitive, environmentally-benign and useful materials to a global society. To address these challenges, the program aims to identify opportunities for innovation in a wide range of contributing disciplines as well as integrative activities. This program encourages the development of new experimental and theoretical/modeling approaches that will aid in both reductionist and whole-systems approaches. This program welcomes proposals in any area of research supported through the participating divisions that address the topics outlined below. The selected topics are of particular interest to core disciplinary programs in the participating divisions and do not include all funding opportunities and priorities in the area of sustainability at NSF. Proposals are submitted to the relevant core Programs indicated below in the participating Divisions, and all questions regarding proposals should be addressed by the cognizant Program Officers to which submission is contemplated. Proposals should be submitted with the "CAS:" prefix in the title. The Division of Chemistry (CHE/MPS) welcomes proposals to its Disciplinary Research Programs, including Chemical Catalysis (CAT), Chemical Measurement and Imaging (CMI), Chemical Structure, Dynamics and Mechanisms-A (CSDM-A), Chemical Structure Dynamics and Mechanisms-B (CSDM-B), Chemical Synthesis (SYN), Chemical Theory, Models and Computational Methods (CTMC), Chemistry of Life Processes (CLP), Environmental Chemical Sciences (ECS), and Macromolecular, Supramolecular and Nanochemistry (MSN). All proposals must be on the chemical aspects of sustainability. The design, preparation and reactivity studies associated with new catalysts and catalytic processes that employ earth-abundant and benign elements and raw materials; advanced catalytic methods for the reduction of dinitrogen to ammonia and water splitting are also invited; Grant Opportunities for Academic Liaison with Industry (GOALI) proposals, where such advances are connected directly to industrial considerations, are also encouraged. Understanding the molecular mechanisms of the two-way communication between the environment and living systems as well as between organisms situated in changing environments; design and test methods that could confer resilience and/or could foster adaptability of living systems subject to changing environments. Innovative measurement and imaging approaches that can improve the efficiency of manufacturing processes, including advances in separation science targeting reduced energy consumption or generation of less waste. Fundamental studies related to sustainable energy such as chromophores based on earth-abundant elements, advanced electrolytes for battery, water splitting, and carbon dioxide conversions. Understanding the environmental chemical degradation of contaminants, including emerging contaminants. Transformative approaches to the efficient and inexpensive synthesis of polymers or nanostructures using renewable feedstocks or earth-abundant elements; and innovative research that enhances the understanding of efficient use and recycling of polymers and critical elements or the conversion of energy from renewable sources. The development of new synthetic methods using earth-abundant and inexpensive chemicals, fundamental studies that improve our understanding of rare earth elements; the conversion of non-petroleum-based resources into useful building blocks; and new environmentally-friendly chemical syntheses that improve on current practice by requiring less energy, freshwater, reagents, and/or organic solvents. Other CHE programs also welcome proposals on this general topic, as long as the proposals fit the scope of the program. All questions regarding proposals to CHE should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see CHE Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CHE>). The Division of Materials Research (DMR/MPS)

welcomes proposals to its Topical Materials Research Programs, including Biomaterials (BMAT), Ceramics (CER), Condensed Matter and Materials Theory (CMMT), Condensed Matter Physics (CMP), Electronic and Photonic Materials (EPM), Metals and Metallic Nanostructures (MMN), Polymers (POL), and Solid State and Materials Chemistry (SSMC). All proposals must be on materials aspects of sustainability and focused on fundamental materials-research approaches. CER, CMMT, EPM, MMN, and SSMC will consider proposals on all materials aspects of sustainability. BMAT encourages proposals that take advantage of synthetic biology or other innovative and sustainable approaches (e.g., renewable, recyclable, environmentally benign). CMP encourages proposals on replacing rare-earth elements in magnetic materials with more abundant and accessible elements; also, proposals exploring materials alternatives to oxides for nuclear reactor fuel, aiming at improved stability and properties (e.g., thermal conductivity) and decreased environmental impact. POL welcomes proposals that address plastics waste accumulation through innovative materials approaches and environmentally benign polymeric materials having properties exceeding those of current commercial plastics. All proposals must be submitted through one of the active solicitations of the DMR Topical Materials Research Programs (currently NSF 17-580, 18-500, and 19-515) and must follow the deadlines, instructions, and limitations of these solicitations. Proposals that are not following these guidelines or that fall outside the scope of DMR and its Topical Materials Research Programs will be returned without review. All questions regarding proposals to DMR should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see DMR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=DMR>). The Chemical, Bioengineering, Environmental and Transport Systems Division (CBET/ENG) has several core programs that review proposals on research topics related to sustainability, including Molecular Separations (MolS), Biosensing, Environmental Sustainability (EnvS), Biological and Environmental Interactions of Nanoscale Materials (BioNano), Combustion and Fire Systems (CFS), and Particulate and Multiphase Processes (PMP). Within these programs, as noted, the following topics are of particular interest: Understanding the fundamental combustion properties of sustainable aviation fuels under engine relevant conditions. (CFS) Fundamental studies leading to effective methods of processing multiphase fluid systems that minimize waste, avoid contamination, enhance the purity, or lead to novel materials that benefit efficient energy utilization. (PMP) The development of innovative separation mechanisms, mass separating agents, or engineering processes that aim to substantially reduce energy and/or material consumption in the chemical process industries. (MolS) Fundamental mechanistic investigations for the development, sustainable production and use of nanomaterials, nanoparticles, nanodevices, and nanosystems. (BioNano) Biosensing systems with inherent capabilities of artificial intelligence, machine learning, and decision making for applications in real-time monitoring of environmental and living systems and in evaluating environmentally benign chemicals and materials. (Biosensing) Industrial Ecology: Topics of interest in Industrial Ecology include advancements in modeling such as life cycle assessment, materials flow analysis, input/output economic models, and novel metrics for measuring sustainable systems. Innovations in industrial ecology are encouraged. (EnvS) Green Engineering: Research is encouraged to advance the sustainability of manufacturing processes, green buildings, and infrastructure. Improvements in distribution and collection systems that will advance smart growth strategies and ameliorate effects of growth are supported. Innovations in the management of stormwater, recycling and reuse of drinking water, and other green engineering techniques to support sustainability may also be fruitful areas for research. (EnvS) Ecological Engineering: Topics should focus on the engineering aspects of restoring ecological function to natural systems. Engineering research in the enhancement of natural capital to foster sustainable development is encouraged. (EnvS) Earth Systems Engineering: Earth systems engineering considers aspects of large-scale engineering research that involve mitigation of greenhouse gas emissions, adaptation to climate change, and other global-scale concerns. (EnvS) All questions regarding proposals

toCBET should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (seeCBET Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CBET>). For the Division of Civil, Mechanical, and Manufacturing Innovation (CMMI/ENG), proposals addressing sustainable materials processing are welcome. Of interest are manufacturing processes with reduced use of toxic components, such as solvents, carbon emissions, and pollutants; processes under ambient conditions, as opposed to extreme temperatures, pressures or other harsh conditions; and increased conservation of natural resources, such as water, raw material, and energy. Proposals to CMMI must be submitted to the Advanced Manufacturing (AM) Program and align with the scope of the program. All questions regarding proposals to CMMI should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CMMI Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CMMI>). The Division of Earth Sciences (EAR/GEO) welcomes fundamental and transformational geosciences projects addressing the distribution of Critical Minerals and Materials in the Earth. The following programs in the division support research on this topic: Petrology and Geochemistry (CH), Geobiology and Low-Temperature Geochemistry (GG), and Frontier Research in Earth Sciences (FRES). Topics of particular interest include fundamental studies of the geochemistry of Critical Earth Minerals and Materials (CMM), such as: Identifying new sources of critical minerals on the Earth's surface; Constraining their pathways in the natural environment involving concentration by Earth and geobiological processes, and Developing methods for sustainable exploration of these CMMs. Studies can be based on laboratory, field, or modeling efforts, and should have a strong emphasis on training the next generation of geoscientists and educating the public on the importance of CMM. Proposals must be submitted through one of the active solicitations of the three programs and must follow the deadlines and guidelines of these solicitations. All questions regarding proposals to EAR should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see EAR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=EAR>).

Deadline: Proposals accepted anytime

Small Business Administration

Program for Investment in Microentrepreneurs (PRIME) – CFDA 59.050

SBA intends to award a discretionary grant to the National Association of Government Guaranteed Lenders (NAGGL) to provide SBA 7(a) training to nonprofit lenders participating in the SBA Community Advantage Pilot Loan Program (CA). NAGGL has extensive experience with providing training to lenders on SBA's 7(a) loan product in the areas of loan origination, loan servicing, and loan liquidation. This discretionary grant will serve as a proof of concept to explore the success of regional training to mission lenders participating in CA.

These training needs have been identified by SBA's Office of Credit Risk Management to increase the performance level of lenders participating in the CA program. SBA will work closely with NAGGL in shaping the project as it is implemented and will draw lessons learned from its implementation and use that insight and experience in deciding whether or not to continue the initiative in a permanent form, which we would then do via the standard competitive process for awarding grants.

Deadline: Open

U.S. Department of Agriculture

Crop Protection and Pest Management Competitive Grants Program CFDA 10.329

The purpose of the Crop Protection and Pest Management program is to address high priority issues related to pests and their management using IPM approaches at the state, regional and national levels. The CPPM program supports projects that will ensure food security and respond effectively to other major societal pest management challenges with comprehensive IPM approaches that are economically viable, ecologically prudent, and safe for human health. The CPPM program addresses IPM challenges for emerging issues and existing priority pest concerns that can be addressed more effectively with new and emerging technologies. The outcomes of the CPPM program are effective, affordable, and environmentally sound IPM practices and strategies needed to maintain agricultural productivity and healthy communities. In FY 2020, NIFA will only accept competitive applications for funding in the Applied Research and Development program area (ARDP) of the CPPM program.

Deadline: March 15, 2021

New Beginning for Tribal Students Programs (NBTS) CFDA 10.527

Section 7120 of the Agriculture Improvement Act of 2018 (P.L. 115-334) amends the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3221 et seq.) to add section 1450, 7 U.S.C. § 3222e, to authorize the New Beginning for Tribal Students (NBTS) competitive grants program. General Provision 773 of the Fiscal Year 2020 Further Consolidated Appropriations Act (P.L. 116-94) provided \$5 million in discretionary funds to carry out this program. This legislation authorized the Secretary to make competitive grants to land-grant colleges and universities to provide support targeted at Tribal students. Land-grant colleges and universities includes 1862, 1890 and 1994 land-grant institutions. Tribal student is defined in this legislation as a student at a land-grant college or university that is a member of an Indian tribe as defined in section 4 of the

Indian Self-Determination and Education Assistance Act (25 U.S.C 5304). The maximum amount allowable per state is \$500,000 per year.

Deadline: March 15, 2021

Equipment Grants Program CFDA 10.519

The Equipment Grant Program (EGP) serves to increase access to shared-use special purpose equipment/instruments for fundamental and applied research for use in the food and agricultural sciences programs at institutions of higher education, including State Cooperative Extension Systems. The program seeks to strengthen the quality and expand the scope of fundamental and applied research at eligible institutions, by providing them with opportunities to acquire one major piece of equipment/instruments that support their research, training, and extension goals and may be too costly and/or not appropriate for support through other NIFA grant programs.

The EGP does not support the acquisition of suites of equipment to outfit research laboratories /facilities or to conduct independent experiments simultaneously. Similarly, the EGP does not fund common, general purpose ancillary equipment that would normally be found in a laboratory and/or is relatively easily procured by the organization or through other NIFA grant programs. Rather, it is intended to help fund items of equipment that will upgrade infrastructure. Moreover, EGP does not fund research projects, including research that uses the equipment acquired with support from the program nor does it support the operation and maintenance of facilities.

Deadline: March 16, 2021

Community Facilities Technical Assistance and Training Grant CFDA 10.766

The Agency will make grants to public bodies and private nonprofit corporations, (such as States, counties, cities, townships, and incorporated towns and villages, boroughs, authorities, districts, and Indian tribes on Federal and State reservations) to provide associations Technical Assistance and/or training with respect to essential community facilities programs. The Technical Assistance and/or training will assist communities, Indian Tribes, and Nonprofit Corporations to identify and plan for community facility needs that exist in their area. Once those needs have been identified, the Grantee can assist in identifying public and private resources to finance those identified community facility needs.

Deadline: March 22, 2021

Enhancing Agricultural Opportunities for Military Veterans Competitive Grants Program CFDA 10.334

The Enhancing Agricultural Opportunities for Military Veterans Program provides grants to non-profits to increase the number of military veterans gaining knowledge and skills through comprehensive, hands-on and immersive model farm and ranch programs offered regionally that lead to successful careers in the food and agricultural sector. The program encourages the development of training opportunities specifically designed for military veterans. AgVets projects will offer onsite, hands-on training and classroom education leading to a comprehensive understanding of successful farm and ranch operations and management practices. Projects may also offer workforce readiness and employment prospects for service-disabled veterans. Ensuring there are pathways for military veterans interested in pursuing careers in agriculture — regardless of age or production choice — strengthens agricultural production and rural economies across the United States. NIFA requests applications for the AgVets to provide grants to nonprofit organizations for training programs and services to establish and enhance farming and ranching opportunities for military veterans.

Deadline: March 23, 2021

Beginning Farmer and Rancher Development Program (BFRDP) CFDA 10.311

Beginning farmer education for adult and young audiences in the United States can generally be traced back to the advent of the 1862 and 1890 Morrill Land-Grant Acts.

But, for the first time, the Food, Conservation, and Energy Act of 2008 (Pub .L. No. 110-234, Section 7410) appropriated \$75 million for FY 2009 to FY 2012 to develop and offer education, training, outreach and mentoring programs to enhance the sustainability of the next generation of farmers.

The Agriculture Act of 2014 provided an additional \$20 million per year for 2014 through 2018. The reasons for the renewed interest in beginning farmer and rancher programs are as follows: the rising average age of U.S. farmers; the 8% projected decrease in the number of farmers and ranchers between 2008 and 2018; and the growing recognition that new programs are needed to address the needs of the next generation of beginning farmers and ranchers.

The Agriculture Improvement Act of 2018 (aka the 2018 Farm Bill) reauthorized the Beginning Farmer and Rancher Development Program and provides mandatory funds for which supports education, mentoring, and technical assistance initiatives for beginning farmers and ranchers.

Deadline: March 25, 2021

Food Safety Outreach Competitive Grants Program CFDA 10.328

The Food Safety Outreach Program will complement and expand the national infrastructure of the National Food Safety Training, Education, Extension, Outreach, and Technical Assistance Competitive Grants Program. The Food Safety Outreach Program will build upon that national infrastructure, with a sustained focus on delivery of customized training to members of the target audiences. Awardees will develop and implement food safety training, education, extension, outreach and technical assistance projects that address the needs of owners and operators of small to mid-sized farms, beginning farmers, socially-disadvantaged farmers, small processors, or small fresh fruit and vegetable merchant wholesalers. Grant applications will be solicited directly from those in local communities to include those from community-based organizations, non-governmental organizations, food hubs, farm cooperatives, extension, and other local groups.

Deadline: April 01, 2021

Small Business Innovation Research (SBIR) Program Phase II CFDA 10.212

All Phase II projects must have previously completed a successful USDA Phase I project before applying for a Phase II grant. Success rates for applicants have been 50-60% for Phase II. Projects dealing with agriculturally-related manufacturing and alternative and renewable energy technologies are encouraged across all 2018 SBIR topic areas. USDA SBIR's flexible research areas ensure innovative projects consistent with USDA's vision of a healthy and productive nation in harmony with the land, air, and water. USDA SBIR has awarded over 2000 research and development projects since 1983, allowing hundreds of small businesses to explore their technological potential and providing an incentive to profit from the commercialization of innovative ideas. Click below for more SBIR information.

Deadline: May 03, 2021

Team Nutrition Training Grant for School Meal Recipe Development, Cohort B CFDA 10.574

The Food and Nutrition Service (FNS) administers the nutrition assistance programs of the United States Department of Agriculture (USDA). The mission of FNS is to work with partners to provide food and nutrition education to people in need in a way that inspires public confidence and supports American agriculture. Among these nutrition assistance programs are the Child Nutrition Programs, including the National School Lunch Program (NSLP), School Breakfast Program (SBP), the Child and Adult Care Food Program (CACFP), and the Summer Food Service Program (SFSP). Administered by State agencies, the Child Nutrition Programs help fight

hunger and obesity by reimbursing organizations such as schools, child care centers, and afterschool programs for providing nutritionally balanced meals to children at low or no cost.

Team Nutrition Training Grants are authorized under Public Law 111–296, which amended Section 19 of the Child Nutrition Act of 1966. As authorized under Section 6(a)(3) of the Richard B. Russell National School Lunch Act, 42 USC 1755(a)(3), FNS provides training and technical assistance for school nutrition professionals, nutrition education for children and their caregivers, and encourages school and community support for healthy eating and physical activity. These activities are implemented under the Agency’s Team Nutrition initiative. Team Nutrition Training Grants have been a part of the Team Nutrition initiative since its inception in 1995. These grants have provided State agencies with funds to implement training and nutrition education within the Child Nutrition Programs in their State.

On October 16, 2020, the USDA FNS awarded over 4.1 million in funding to the Fiscal Year (FY) 2021 Team Nutrition Training Grant for School Meal Development (Cohort A) Grantees consisting of fifteen State agencies that administer the NSLP. The FY2021 Team Nutrition Training Grant for School Meal Recipe Development (Cohort B) focuses on the same grant purpose and objectives as the Cohort A grant, and is open to State agencies administering the NSLP that did not receive a FY2021 Team Nutrition Training Grant for School Meal Development in October 2020 as part of Cohort A.

The FY 2021 Team Nutrition Training Grant for School Meal Recipe Development supports States in understanding, developing, and using standardized recipes within the School Meal Programs. Using grant funds, States will be able to develop nutritious and tasty recipes that incorporate local agricultural products and appeal to students’ taste preferences. States will build their capacity to standardize recipes, show how standardized recipes credit towards school meal pattern requirements, and assist School Food Authorities in engaging students in menu development. Standardized recipes are critical to the success of school meals because they provide consistent results in quality, quantity, and nutrient contribution, while helping to reduce food waste and food costs. FNS intends to share the recipes States develop under this grant via the FNS Team Nutrition website and the Institute of Child Nutrition’s online resource center known as the Child Nutrition Recipe Box (<https://theicn.org/cnrb>).

Deadline: April 19, 2021

FY 2021 FFPr Standing NOFO

The FFPr program provides for the donation of U.S. agricultural commodities to developing countries and emerging democracies committed to introducing and expanding free enterprise in the agricultural sector. The commodities are generally sold on the local market and the proceeds are used to support agricultural development activities.

Program Objectives

The FFPr program has two principal objectives:

- To improve agricultural productivity; and
- To expand trade of agricultural products.

Program Priorities

The program funding priorities of this NOFO are to support active FFPr agreements experiencing monetization shortfalls by providing additional current year commodity and or freight funds.

Deadline: August 02, 2021

U.S. Department of Commerce

Climate Program Office (CPO), Regional Integrated Sciences and Assessments (RISA) Program CFDA 11.431

The Regional Integrated Science and Assessments (RISA) Program resides in the Climate Program Office's (CPO) Climate and Societal Interactions Division (CSI). CSI has traditionally been a home for high-impact science, catalyzing some of the earliest U.S. government investments in regionally scaled, societally relevant, interdisciplinary climate research and engagement focused on reducing vulnerability and risk through the use of climate knowledge and information. Today, CSI continues to work with partners to enhance community and national resilience in the face of climatic changes, through research and engagement activities designed to connect innovative science directly to complex and dynamic preparedness, adaptation and resilience challenges. Programs managed by CSI are a key component of NOAA's cutting-edge research enterprise, which has evolved over time to include the private sector, NGOs, interdisciplinary teams and the social sciences at large. Moving forward, the CSI Division is reorganizing to include the new Adaptation Science Program as well as continuing to support the RISA Program, in order to streamline, expand and build upon past investments, and address cutting-edge topics in adaptation science - a critical cornerstone to a more resilient future.

The RISA Program

The RISA program supports the development of knowledge, expertise, and abilities of decision-makers to plan and prepare for climate variability and change. Through regionally-focused and interdisciplinary research and engagement teams, RISA builds and expands the Nation's capacity to adapt and become resilient to extreme weather events and climate change. RISA teams accomplish this through co-developed applied research and partnerships with public and private communities. A central tenet of the RISA program is that learning about climate adaptation and resilience is facilitated by and sustained across a wide range of experts, practitioners, and

the public. As such, the RISA program supports a network of people, prioritizing wide participation in learning by doing, learning through adapting, and managing risk with uncertain information. Early decades of the program focused on understanding the use of climate information at regional scales (e.g., through experimental seasonal outlooks), improving predictions and scenarios, building capacity for drought early warning, and advancing the science of climate impact assessments. More recently, emphasis has shifted to address the growing urgency to advance approaches that tackle the complex societal issues surrounding adaptation planning, implementation, and building community resilience. To do so, RISA continues to prioritize collaborative approaches that incorporate multiple knowledge sources and integrate social, physical, and natural science, resulting in long-term support of and increased capacity for communities. As the adaptation community in the United States advances and evolves, RISA seeks to support new creative, solution-oriented approaches that are both responsive to communities and that integrate across silos of scientific knowledge and expertise. Central to achieving the RISA mission are:

- Regional Relevance, Local Expertise
- Integrated Scientific Approaches
- Knowledge-to-Action Partnerships
- A National Network of Resilience Researchers and Adaptation Science Specialists

The RISA program encourages applicants and awardees to support the principles of justice, equity, diversity, and inclusion when writing their proposals and performing their work. Ensuring justice and equity -means paying particular attention to the most vulnerable populations, which are often low-income, those already overburdened by pollution, those who lack economic or social opportunity, and people facing disenfranchisement. Diversity here is defined as a collection of individual attributes that together help organizations achieve objectives. Inclusion is defined as a culture that connects each person to the larger organizing structure. Promoting justice, equity, diversity, and inclusion improves the creativity, productivity, and vitality of the communities in which the program engages.

The RISA program is holding two competitions under this Federal Funding Opportunity:

1. Competition for one RISA team in each of the following nine regions with existing RISA activities: Northeast, MidAtlantic, Intermountain West, Carolinas, Great Lakes, Alaska, Pacific Islands, South Central, and Pacific Northwest
2. Competition for collaborative planning activities in the Southeast and the U.S. Caribbean

Deadline:February 16, 2021

Market Development Cooperator Program 2021

ITA requests that eligible organizations submit proposals (applications) for the fiscal year (FY) 2021 competition for MDCP awards. ITA creates economic opportunity for U.S. workers and firms by promoting international trade and investment, strengthening industry competitiveness, and ensuring fair trade.

Deadline: May 25, 2021

U.S. Department of Defense

Enhanced Night Vision in eyeglass form factors (ENVision) CFDA 12.910

The Defense Sciences Office (DSO) at the Defense Advanced Research Projects Agency (DARPA) is soliciting innovative research proposals in the area of direct-view night vision (NV) systems in eyeglass form factors. Proposed research should investigate innovative approaches that enable revolutionary advances in science, devices, or systems. Specifically excluded is research that primarily results in evolutionary improvements to the existing state of practice.

Deadline: March 23, 2021

U.S. Department of Education

Office of Postsecondary Education (OPE): Talent Search Program Assistance CFDA 84.044A

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf.

Purpose of Program: The purpose of the Talent Search Program is to identify qualified individuals from disadvantaged backgrounds with potential for education at the postsecondary level and encourage them to

complete secondary school and undertake postsecondary education. Talent Search projects publicize the availability of, and facilitate the application for, student financial assistance for persons who seek to pursue postsecondary education, and encourage persons who have not completed programs at the secondary or postsecondary level to enter or reenter and complete these programs.

Deadline: February 26, 2021

U.S. Department of Energy

Computational Chemical Sciences CFDA 81.049

The DOE SC program in Basic Energy Sciences (BES) hereby announces its interest in receiving new and renewal applications from small groups (2-3 principal investigators) and integrated multidisciplinary teams (typically from multiple institutions) in Computational Chemical Sciences (CCS). Single-investigator applications are not responsive to the objectives of this FOA. CCS will support basic research to develop validated, open-source codes for modeling and simulation of complex chemical processes and phenomena that allow full use of emerging exascale and future planned DOE leadership-class computing capabilities. The focus for CCS is on developing capabilities that allow modeling and simulation of new or previously inaccessible complex chemical systems and/or provide dramatic improvement in fidelity, scalability, and throughput. Teams should bring together expertise in domain areas (e.g., electronic structure, chemical dynamics, statistical mechanics, etc.) and other areas important to advance computational tools such as data science, algorithm development, and software architectures. Priority will be given to efforts that address reaction chemistry across multiple scales in complex environments important in geosciences, catalysis, biochemistry, or electrochemistry.

Deadline: February 08, 2021

CCS will continue to support the DOE Exascale Computing Initiative (ECI). The ECI aims to accelerate the research and development needed to overcome key exascale challenges and maximize benefits of high-performance computing. This funding opportunity continues the BES commitment to ECI by developing open-source codes that can take full advantage of emerging exascale and future planned DOE leadership-class computing facilities.

U.S. Department of Health and Human Services

State Pilot Grant Program for Treatment for Pregnant and Postpartum Women CFDA 93.243

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Treatment (CSAT) is accepting applications for fiscal year (FY) 2021 State Pilot Grant Program for Treatment for Pregnant and Postpartum Women (Short Title: PPW-PLT). The purpose of the program is to enhance flexibility in the use of funds designed to:

support family-based services for pregnant and postpartum women with a primary diagnosis of a substance use disorder, including opioid use disorders;

help state substance abuse agencies address the continuum of care, including services provided to pregnant and postpartum women in nonresidential-based settings; and

promote a coordinated, effective and efficient state system managed by state substance abuse agencies by encouraging new approaches and models of service delivery.

Deadline: February 16, 2021

Rural Emergency Medical Services Training Grant CFDA 93.243

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Treatment, is accepting applications for fiscal year (FY) 2021 Rural Emergency Medical Services Training grants (Short Title: EMS Training). The purpose of this program is to recruit and train emergency medical services (EMS) personnel in rural areas. SAMHSA recognizes the great need for emergency services in rural areas and the critical role EMS personnel serve across the country.

Deadline: February 16, 2021

Cohort Studies To Improve Our Understanding of Influenza Immunity, Vaccine Response and Effectiveness in Older Adults

This initiative will support the use of longitudinal cohorts to develop greater understanding of important elements of influenza immunity that impact vaccine response and vaccine effectiveness in older adults (those 65 and older). In addition, this work will increase our understanding of how these elements relate to severe outcomes from influenza virus infection in older adults (i.e., hospitalization and death).

Deadline: February 04, 2021

Tribal Opioid Response Grants CFDA 93.788

The Substance Abuse and Mental Health Services Administration (SAMHSA) is accepting applications for fiscal year (FY) 2021 Tribal Opioid Response grants (Short Title: TOR). The program aims to address the opioid crisis in tribal communities by increasing access to culturally appropriate and evidence-based treatment, including medication-assisted treatment (MAT) using Food and Drug Administration (FDA)-approved medications for the treatment of opioid use disorder (OUD). In addition to focusing on OUD, recipients may also address stimulant misuse and use disorders, including cocaine and methamphetamine. The intent is to reduce unmet treatment need and opioid overdose-related deaths through the provision of prevention, treatment, and recovery support services for OUD and, if so desired, stimulant misuse and use disorders.

Deadline: February 16, 2021

Elimination of lymphatic filariasis and elimination and control of other neglected tropical diseases (NTDs) in an effort to improve the quality and coverage of local programs CFDA 93.084

Globally, neglected tropical diseases (NTDs) affect more than one billion people, primarily in the world's poorest nations. CDC, together with other U.S. government and global partners, is supporting elimination/control of six NTDs (lymphatic filariasis, onchocerciasis, trachoma, soil-transmitted helminths, schistosomiasis, Guinea worm) through community mass drug administration (MDA), water filters, or other tool-ready public health interventions such as vector control or improved water, sanitation and hygiene (WASH). Among these, lymphatic filariasis (LF), a mosquito-borne disease that can lead to permanent disability from elephantiasis or hydrocele, was targeted

for elimination by 2020. Although the global target was not met, 16 countries have eliminated LF as a public health problem, and many others are close to achieving elimination. Achieving global targets is challenging in many settings, such as highly urban areas. Control of LF usually depends on provision of antiparasitic drugs through MDA with high (>65%) community coverage for at least five years in order to break the cycle of transmission. Locally relevant strategies ensuring sufficiently high MDA community coverage and low levels of systematic non-compliance are needed. New data support that addition of a third drug, ivermectin, in some settings to the traditional dual drug (dethylcarbazine [DEC] plus albendazole) regimen can shorten the number of annual MDAs required for LF elimination if high community MDA coverage is achieved. After reaching MDA targets, country programs must develop feasible and sustainable surveillance systems able to identify LF recrudescence, as well as processes that effectively manage areas of persistent transmission in order to limit LF spread. Other NTDs have potential to be eradicated (Guinea worm), eliminated (onchocerciasis, trachoma) or controlled (schistosomiasis, soil transmitted helminths) through well-conducted quality community campaigns over a sustained period.

The Division of Parasitic Diseases and Malaria (DPDM) at the Centers for Disease Control and Prevention (CDC) has provided technical assistance on NTD elimination/control for national programs in Africa, the Americas, Asia and the Pacific over many decades, working closely with the World Health Organization (WHO) and national health ministries.

The purpose of this announcement is to support endemic countries in strengthening their program capacity for elimination/control of LF and other NTDs through achieving MDA coverage targets; establishing ongoing, systematic surveillance systems that can identify recrudescence of infection; establishing standard procedures for responding promptly to persistent or recrudescence transmission; and supporting integrated health services for LF and other NTDs within national health systems. For LF, measurable outcomes of the program will be: improved quality of, access to, and participation in MDA campaigns; better understanding of community participation (and non-participation) in MDAs by countries and other stakeholders; improved management of chronic disease in communities; identification of appropriate MDA stopping points and hotspot management; and establishment of feasible yet high-quality monitoring, evaluation and surveillance before, during and after MDAs. For other NTDs, measurable outcomes will be improved quality of MDAs; understanding of MDA starting and stopping points (e.g., onchocerciasis); high quality conduct of NTD monitoring, evaluation and surveillance, including post-elimination surveillance; and integration of NTD surveillance and services within existing health systems. This announcement is only for non-research activities supported by CDC. If research is proposed, the application will not be reviewed. For the definition of research, please see the CDC Web site at the following Internet address: <http://www.cdc.gov/od/science/integrity/docs/cdc-policy-distinguishing-public-health-research-nonresearch.pdf>.

Deadline: February 19, 2021

**Strengthening Public Health Research and
Implementation Science (Operations Research) to
Control and Eliminate Infectious Diseases Globally**
CFDA 93.326

The purpose of this notice of funding opportunity is to:

- Conduct and monitor epidemiologic and laboratory-based science, surveillance, and research related to COVID-19 and other global public health threats in Africa, Southeast Asia, Eastern Europe and Central Asia, and the Middle East and North Africa (MENA), including, but not limited to, assessments of the extent of pathogen exposures or transmission based on serologic testing, improved understanding of immune responses to infectious pathogens, and assessments of various approaches to collecting and analyzing the results of serologic testing; and,
- Incorporate the results of these public health activities into operational disease detection, prevention, and response or control programs in regions noted above, strengthen public health capacity as outlined in the Global Health Security Agenda, and disseminate findings across the region, with partners, and globally.

Deadline: February 22, 2021

Using Innovative Intervention Strategies to Improve Health Outcomes among People with HIV - Coordinating Center

This notice announces the opportunity to apply for fiscal year 2021 (FY21) Health Resources and Services Administration (HRSA) Special Projects of National Significance (SPNS) Program funding for the initiative Using Innovative Intervention Strategies to Improve Health Outcomes among People with HIV – Coordinating Center. The purpose of this initiative is to use an implementation science framework¹ to identify innovative intervention strategies in four (4) focus areas, pilot test the intervention strategies at subawarded sites and provide technical assistance (TA), and develop replication tools and products. HRSA will provide funding in the form of a cooperative agreement to support one (1) organization for up to four (4) years to serve as the Innovative Intervention Strategies Coordinating Center for Technical Assistance (2iS CCTA). The 2iS CCTA will solicit and subaward up to 20 Ryan White HIV/AIDS Program (RWHAP)-funded recipients/subrecipients (approximately five sites per focus area) to serve as implementation sites where one intervention strategy per site will be piloted. The piloted intervention strategies will be evaluated through the companion funding opportunity announcement titled Using Innovative Intervention Strategies to Improve Health Outcomes among People with HIV – Evaluation Center (2iS EC; HRSA-21-068). Ultimately, the 2iS EC’s evaluation findings will determine dissemination plans for the replication tools developed by the 2iS CCTA. Please review this companion announcement for more information about the role of the 2iS EC. You may also review the previous initiative for which this is a competing continuation (HRSA-17-044; HRSA-17-049). 2iS Focus Areas This initiative will focus on three (3) priority populations and one (1) area of opportunity to improve service delivery. Combined, these four (4) focus areas are: 1) Improving HIV health outcomes for people with substance use disorder 2) Improving HIV health outcomes for lesbian, gay, bisexual, transgender, or queer (LGBTQ+) youth 3) Improving HIV health outcomes for people who are or have been incarcerated 4) Improving HIV health outcomes by using telehealth services To identify implementation sites to pilot test the intervention strategies identified across the four (4) focus areas, the 2iS CCTA will be responsible for soliciting, selecting, issuing, and monitoring subawards of up to \$190,000/year each for up to twenty (20) RWHAP recipients or subrecipients (hereafter referred to as “subawardees”), or up to five (5) per focus area. The 2iS CCTA will select subawardees based on a demonstrated need and capacity to

implement one intervention strategy from one focus area through a competitive application process. The 2iS CCTA will provide TA to the selected subawardees to support successful uptake of the intervention strategy and engagement of clients. The 2iS CCTA will also develop dissemination products that will support the rapid replication of intervention strategies found to be successfully implemented and effective at improving client outcomes in subawardee sites. The companion 2iS EC cooperative agreement (HRSA-21-068) will evaluate the uptake, implementation and associated client outcomes of these intervention strategies at the subawarded sites. Please review the related 2iS EC (HRSA-21-068) announcement to understand the collaborative work between the 2iS CCTA and the 2iS EC.

Deadline: March 08, 2021

Human Papillomavirus (HPV) Roundtable: Supporting a National Network of Partners to Promote Cancer Prevention through Human Papillomavirus Vaccination CFDA 93.268

The purpose of this cooperative agreement is to: (1). Advance a national network of cancer prevention organizations, immunization partners, and other stakeholders by creating and supporting a planning committee that prioritizes network activities, updates and disseminates educational resources, and expands the diversity of organizations represented within the network that positively impact HPV vaccination rates; (2). Convene a national meeting of network members to provide technical assistance and catalyze their support of efforts to increase HPV vaccine uptake; and (3). Create and support task groups to address priority areas identified by the national network, initiate high-priority pilot projects to reduce barriers to HPV vaccine uptake, and share lessons learned.

By working toward these goals, the network can provide channels of education, outreach, and training structured for the public and healthcare providers. The network, through its engagement and coordination with stakeholders, will be equipped to increase public and provider understanding of the burden of HPV-associated cancers that can be prevented by HPV vaccination and to accelerate the full implementation of HPV vaccination to prevent HPV-associated cancers.

Deadline: March 22, 2021

Evidence Based Telehealth Network Program CFDA 93.211

This notice announces the opportunity to apply for funding under the Evidence Based Telehealth Network Program (EB THNP). The two-fold purpose of this award is (1) to demonstrate how health networks can increase access to health care services utilizing telehealth technologies and (2) to conduct evaluations of those efforts to establish an evidence base for assessing the effectiveness of telehealth care for patients, providers, and payers.

The implementation of telehealth technology is rapidly expanding into health systems.¹ HRSA defines telehealth as the use of electronic information and telecommunication technologies to support and promote long-distance clinical health care, patient and professional health-related education, public health and health administration. Telehealth modalities that support clinical treatment may include video conferencing, the internet, store-and-forward imaging, streaming media, and terrestrial and wireless communications. Rising evidence supports that many health conditions can be addressed with a virtual in home visit from a doctor to his or her patient.² In 2015, the American College of Physicians declared their position and support for Direct-to-Consumer (DTC) considering the patient has an established relationship with the providers, and the care meets in person standards of quality.³

For this NOFO, applicants must propose to provide DTC telehealth services to patients within established telehealth networks. This can be accomplished, in part, by identifying and partnering with local established health care facilities (especially primary care facilities) within the target service area, elevating the trusted patient-provider relationship, access, and quality of care directly to the patient via telehealth. Also, this service will allow for the expansion of access to care in Medically Underserved Areas (MUA) and primary care or mental health defined Health Professional Shortage areas (HPSA). The EB THNP program presents the opportunity for network sites that are currently or have previously utilized telehealth as defined above to efficiently and effectively pilot and/or expand DTC telehealth care. Applicants for this EB THNP Program must utilize synchronous (real-time virtual visits) audio-visual technology and may include remote patient monitoring (RPM) to provide DTC telehealth care to patients (see Appendix). This EB THNP program will expand access to health services in three clinical primary focus areas: (1) Primary Care, (2) Acute Care, and (3) Behavioral Health Care (see Appendix). In addition, applicants have the option to address one of the following secondary focus areas: Maternal Care, Substance Use Disorder, or Chronic Care Management.

Changes to reimbursement policies related to in-home telehealth services and RPM in recent years, particularly in the Medicare program, have laid the framework to enable providers to feasibly integrate these technologies into their practices. For example, even prior to COVID-19, Medicare began to allow beneficiaries to receive telehealth services at home for a limited set of services/conditions including home dialysis and the treatment of a substance use disorder or a co-occurring mental health disorder.⁴ Home health is also an example of how the Medicare program has expanded the ability of home health agencies (HHAs) to use RPM technologies to augment the health care of the patients they serve. Recently, Medicare explicitly allowed HHAs to provide RPM services to their patients to help foster the adoption of emerging technologies by HHAs and result in more effective care planning.^{5,6} Such approaches, to the extent that they strengthen rather than supplant existing patterns and systems of care, reinforce the objectives of this funding opportunity. Namely, a key objective of this program is to demonstrate how providers can use DTC telehealth services in a way that enhances the existing health care infrastructure, as opposed to incentivizing care delivery that circumvents and disadvantages providers in local communities, including rural areas.

Applicants are encouraged to include populations that have historically suffered from poorer health outcomes, health disparities, and other inequities, as compared to the rest of the rural population, when addressing health care needs via telehealth. Examples of these populations include, but are not limited to, racial and ethnic minorities, person/persons experiencing homelessness, pregnant women, disabled individuals, youth and adolescents, etc.

Deadline: April 2, 2021

Advancing Post-Market Surveillance of High-Risk Facilities and Products through Signal detection, Data analysis, and the Review of the State of Quality (U01) Clinical Trial Optional – (CFDA 93.103)

The purpose of this program is to advance comprehensive quality surveillance and provide the state of quality for all regulated sites and products. Using predictive analytics, data mining, and other quantitative tools, this research program will expand the knowledge base related to site and product quality, especially for high-risk foreign facilities and their products.

Deadline: April 05, 2021

Autism Secondary Data Analysis Research Program CFDA 93.877

This notice announces the opportunity to apply for funding under the Autism Secondary Data Analysis Research (SDAR) Program. This program supports applied Maternal and Child Health (MCH) research that exclusively utilizes the secondary analysis of existing national databases and/or administrative records to determine the evidence-based practices for interventions to improve the physical and behavioral health of children and adolescents with Autism Spectrum Disorder (ASD) and other Developmental Disabilities (DD). Programs should address ASD/DD across the lifespan, with a focus on addressing the needs of underserved populations for whom there is limited evidence of the effectiveness of interventions, and limited access to screening, diagnosis, and treatment for ASD/DD.²

HRSA supports programs to improve the quality of care for those diagnosed with ASD/DD through education, early detection, and intervention. More specifically, the Autism SDAR program accelerates the pace of research by providing researchers with the opportunity to pose new research questions, test hypotheses, challenge existing paradigms or clinical practices, and explore the feasibility of interventions using existing data sets. The use of existing data sets helps researchers obtain results more efficiently, at a lower cost. Innovative methods (e.g., meta-analyses) and secondary analysis of existing national databases and/or administrative records are encouraged (e.g., National Survey of Children's Health (HRSA), National Database for Autism Research (National Institutes of Health (NIH)), Medicaid (Centers for Medicare and Medicaid Services), National Health Interview Survey (Centers for Disease Control and Prevention (CDC)) and Mental Health Research Network Database (NIH)).

The Autism SDAR program's goals and objectives are to:

- Generate new evidence to address the needs of underserved ASD/DD populations³ for whom there is limited evidence of the effectiveness of interventions, and limited access to screening, diagnosis, and treatment for ASD/DD;

- Contribute to a broad public health impact by improving patient engagement and care delivery through studies that are generalizable and replicable across underserved ASD/DD populations;
- Develop and implement a plan to disseminate applied and/or translational research through at least two peer-reviewed research articles related to the project (e.g., findings on research planning, participant recruitment, methods, implementation and/or research challenges, preliminary or unexpected research findings, in addition to final research findings) and to scientific, professional, lay audiences, and federal partners.

Deadline: April 12, 2021

Behavioral Health Workforce Education and Training (BHWET) Program for Paraprofessionals **CFDA 93.732**

The purpose of the BHWET Program for Paraprofessionals is to develop and expand community-based experiential training to increase the supply of students preparing to become peer support specialists and other behavioral health-related paraprofessionals while also improving distribution of a quality behavioral health workforce. A special focus is placed on the knowledge and understanding of the specific concerns of children, adolescents, and transitional-aged youth in high need and high demand areas at risk for behavioral health disorders.

Deadline: April 12, 2021

Administration for Children & Families - **ACYF/FYSB Title V Competitive Sexual Risk** **Avoidance Education CFDA 93.787**

The Administration for Children and Families, Administration on Children, Youth and Families' Family and Youth Services Bureau announces the availability of funds under the Title V Competitive Sexual Risk Avoidance Education (CSRAE) Program.

The purpose of Title V Competitive SRAE is to fund projects to implement education exclusively on sexual risk avoidance that teaches youth participants to voluntarily refrain from non-marital sexual activity. Applicants are expected to submit plans for the implementation of sexual risk avoidance education that normalizes the optimal health behavior of avoiding non-marital sexual activity, with a focus on the future health, psychological wellbeing, and economic success of youth. Successful applicants must agree to use medically accurate information referenced to peer-reviewed publications by educational, scientific, governmental, or health organizations; implement an evidence-based approach integrating research findings with practical implementation that aligns with the needs and desired outcomes for the intended audience; and teach the benefits associated with self-regulation, success sequencing for poverty prevention, healthy relationships, goal setting, and resisting sexual

coercion, dating violence, and other youth risk behaviors such as underage drinking or illicit drug use without normalizing teen sexual activity. The plans should address the social, psychological, and health gains to be realized by refraining from non-marital sexual activity and engaging in healthy relationships. The SRAE legislation requires unambiguous and primary emphasis and context for each of the topics to be addressed in program implementation. Additionally, there is a requirement that messages to youth normalize the optimal health behavior of avoiding non-marital sexual activity.

Deadline: April 21, 2021

Administration for Children & Families - ACYF/FYSB Sexual Risk Avoidance Education Program

The Administration for Children and Families, Administration on Children, Youth and Families' Family and Youth Services Bureau announces the availability of funds under the Sexual Risk Avoidance Education (SRAE) Program. The purpose of the SRAE Program is to fund projects to implement sexual risk avoidance education that teach participants how to voluntarily refrain from non-marital sexual activity. The services are targeted to participants that reside in areas with high rates of teen births and/or are at greatest risk of contracting sexually transmitted infections (STIs). The goals of SRAE are to empower participants to make healthy decisions, and provide tools and resources to prevent pregnancy, STIs, and youth engagement in other risky behaviors. Successful applicants are expected to submit program plans that agree to use medically accurate information referenced to peer-reviewed publications by educational, scientific, governmental, or health organizations; implement sexual risk avoidance curricula and/or strategies with an evidence-based approach integrate research findings with practical implementation that aligns with the needs and desired outcomes for the intended audience; and teach the benefits associated with self-regulation, success sequencing for poverty prevention, healthy relationships, goal setting, and resisting sexual coercion, dating violence, and other youth risk behaviors such as underage drinking or illicit drug use without normalizing teen sexual activity.

Deadline: April 25, 2021

Administration for Children and Families - OPRE Coordinated Evaluations of Child Care and Development Fund (CCDF) Policies and Initiatives

These four-year cooperative agreements will be conducted through partnerships between CCDF lead agencies in states, territories, or tribes and researchers from institutions of higher education, research organizations, and other eligible organizations. These projects are intended to add to our knowledge about the efficacy of child care subsidy policies and quality improvement initiatives that support employment and self-sufficiency outcomes for parents, increase low-income families' access to high quality child care programs, and promote positive learning and

school readiness outcomes for children. Examples of priority questions include, but are not limited to: effects of state policy changes to subsidy reimbursement rates on families' access to high quality care and early education for their children; effects of efforts to build the supply of high-quality care; and, effects of models to train the early childhood workforce on teacher and caregiver competencies and the quality of caregiving and instruction. The work supported by this grant program should be collaborative from start to finish. Specifically, the CCDF lead agency and their research partners need to work together throughout all phases of the project and agree to participate in a consortium of projects that will coordinate all research and evaluation activities.

Deadline: May 18, 2021

Administration for Children and Families - ORR Refugee Microenterprise Development Program (MED)

The Office of Refugee Resettlement (ORR) within the Administration for Children and Families (ACF) announces funding for the Refugee Microenterprise Development Program (MED). The overall goal of the Refugee MED Program is assist refugees to become economically self-sufficient by, 1) assisting refugees to establish microenterprise businesses through the provision of MED grants and loans, training and technical assistance (T/TA), and 2) assisting refugees in building credit history and/or repairing their credit score. Allowable activities under the Refugee MED Program include providing technical assistance on grants and loans, maintaining a revolving loan fund, provision of credit builder loans, and administrative costs associated with managing the MED Program.

Deadline: May 18, 2021

Administration for Children and Families - ORR Preferred Communities (PC) Program

The Office of Refugee Resettlement (ORR) within the Administration for Children and Families (ACF) announces funding for the Preferred Communities (PC) Program to support the resettlement of especially vulnerable populations of newly arrived refugees in preferred locations to facilitate their achievement of self-sufficiency. Services under the PC Program include, but are not limited to, intensive case management, culturally and linguistically appropriate linkages, and coordination with other service providers to improve these refugees' access to services.

The goal of the PC Program is the successful resettlement and integration of especially vulnerable groups of newly and longer-term refugee arrivals (and other ORR client populations). The PC Program encompasses a comprehensive approach for refugee self-sufficiency and integration with the following four objectives:

1. To facilitate the achievement of self-sufficiency of especially vulnerable refugee populations with special needs.
2. To support, through the use of pass-through funds to affiliates and implementing partners, the development of PC Programs' capacity to assist special-needs refugee clients who require intensive case management.
3. To provide resources for PC Programs to develop new capacity for placement and to cover the costs of changing community placements so that refugees, including those with special or unique needs, are resettled in particular sites where they will have optimal chances of attaining self-sufficiency and of integrating in their new communities.
4. To alleviate the impact of increased or unanticipated arrivals in communities where state formula funds have not been allocated or are inadequate.

Deadline: May 21, 2021

Administration for Children & Families - ACYF/FYSB Basic Center Program

The Administration for Children and Families, Administration on Children, Youth and Families' Family and Youth Services Bureau (FYSB) announces the availability of funds under the Basic Center Program (BCP). The purpose of BCP is to provide emergency shelter and counseling services to youth who have left home without permission of their parents or guardians, have been forced to leave home, or other homeless youth who might otherwise end up in the law enforcement or in the child welfare, mental health, or juvenile justice systems.

BCPs work to establish or strengthen community-based programs that meet the immediate needs of runaway and homeless youth and their families. BCPs provide youth under 18 years of age with emergency shelter, food, clothing, counseling and referrals for health care. BCPs can provide up to 21 days of shelter for youth and seeks to reunite young people with their families, whenever possible, or to locate appropriate alternative placements. Additional services may include: street-based services; home-based services for families with youth at risk of separation from the family; drug abuse education and prevention services; and at the request of runaway and homeless youth, testing for sexually transmitted diseases.

Deadline: May 21, 2021

Immune Development in Early Life (IDEaL) (U19 Clinical Trial Not Allowed) CFDA 93.113, CFDA 93.855

The purpose of this Funding Opportunity Announcement is to support research to define the mechanisms regulating the establishment, development, and maintenance of immunity throughout childhood (from birth to

less than 18 years of age), including the impact of pathogenic or non-pathogenic microbes or vaccination against infectious diseases, allergens, and environmental pollutants on immune ontogeny and function. This program will establish collaborations among immunologists, neonatologists, pediatricians, systems biologists, and microbiologists to expand our knowledge of the developing immune system. Knowledge obtained through this program may be applied to the design of improved vaccines and immunotherapies to combat infections or treat/prevent immune-mediated diseases in this vulnerable population.

Deadline: June 4, 2021

[Annual Estimates of Influenza Vaccine Effectiveness for Preventing Medically Attended Laboratory-Confirmed Influenza in the United States CFDA 93.185](#)

Influenza and other respiratory illnesses, including COVID-19, are important causes of morbidity, mortality, and healthcare burden across all age groups. For influenza vaccines, and for novel vaccines such as for COVID-19, estimates of vaccine effectiveness in preventing illness and associated complications are needed to evaluate the protection provided by nationwide vaccination programs. The goal of this notice of funding opportunity is to: a) support a network of US institutions that can obtain reliable vaccination information for a population, or cohort of individuals; b) provide accurate estimates of the effectiveness of vaccines against respiratory viruses including influenza, SARS-CoV-2 and other respiratory viruses that may emerge; and c) prevent medically attended influenza-associated illness in the population for whom influenza vaccination is recommended.

Deadline: August 01, 2021

[Engaging Men in HIV Testing, Prevention, and Care \(R21 Clinical Trial Optional\) – \(CFDA 93.242\)](#)

The purpose of this Funding Opportunity Announcement (FOA) is to develop and test strategies to increase the engagement of men in HIV prevention and care within global settings and among US domestic populations who have evidenced lower rates of engagement and retention in HIV prevention and care. The R21 Exploratory/Developmental Grant supports studies that may involve considerable risk but may lead to a breakthrough in a particular area; or to the development of novel techniques, agents, methodologies, models; or applications that could have a major impact on a field of biomedical, behavioral, or clinical research.

Deadline: September 07, 2021

Non-Viral Technologies for in vivo Delivery of Genome Editors (R43/R44 Clinical Trial Not Allowed)-(CFDA 93.350)

The purpose of this PAR is to support the development and evaluation of non-viral technologies to deliver genome editors to disease-relevant somatic cells and tissues in vivo. The ultimate goal of these technologies is a translation into clinical trials of genome editing to treat human disease.

Deadline: January 05, 2022

Postbaccalaureate Research Education Program (R25 - Independent Clinical Trial Not Allowed) CFDA-93.859

This funding opportunity announcement (FOA) provides support to eligible, domestic institutions to develop and implement effective, evidence-informed approaches to biomedical research education and mentoring that will keep pace with the rapid evolution of the research enterprise. NIGMS expects that the proposed research education programs will incorporate extensive research experiences, well-designed courses for skills development, mentoring, cohort building activities, and career development elements to prepare recent baccalaureates from diverse backgrounds to transition into and complete rigorous research-focused doctoral degree programs (e.g., Ph.D. or M.D./Ph.D.) in biomedical fields. This program is limited to applications from doctoral degree-granting research-intensive institutions. This Funding Opportunity Announcement (FOA) does not allow appointed participants to lead an independent clinical trial but does allow them to obtain research experience in a clinical trial led by a mentor or co-mentor.

Deadline: January 27, 2022

Novel Synthetic Nucleic Acid Technology Development (R21 Clinical Trial not allowed)-(CFDA 93.172)

This Funding Opportunity Announcement (FOA) solicits R21 grant applications to develop novel technologies that will enable substantive (no less than one order of magnitude) improvement in synthetic nucleic acids. The goal is to improve the quality, capabilities, and efficiency of nucleic acid synthesis and synthetic constructs at reasonable and decreased costs. Applicants may propose to develop novel complete synthesis and/or synthetic constructs systems, investigate challenges underlying key novel system components, or propose substantive improvements of at least an order of magnitude improvement to existing systems. Exploration of methods other

than those currently in use is highly encouraged. High-risk/high-payoff applications are appropriate to achieve the goals of this FOA.

Deadline: June 24, 2022

Interactive Digital Media STEM Resources for Pre-College and Informal Science Education Audiences (SBIR) (R43/R44 Clinical Trial Not Allowed) CFDA 93.859

The purpose of this Funding Opportunity Announcement (FOA) is to provide opportunities for eligible small business concerns (SBCs) to submit NIH Small Business Innovation Research (SBIR) grant applications to develop interactive digital media science, technology, engineering and mathematics (STEM) resources that address student career choice and health and medicine topics for: (1) pre-kindergarten to grade 12 (P-12) students, and pre- and in-service teachers and families ("Teachers") or (2) Informal science education (ISE), i.e., outside the classroom resources for the general public. Interactive digital media (IDM) are defined as products and services on digital computer-based systems which respond to the user's actions by presenting content such as text, moving image, animation, video, audio, and video games. There is a large body of evidence that IDM technology has the potential to support learning in a variety of contexts from primary and secondary schools, to universities, adult education and workplace training. IDM is widely used to train, educate, and encourage behavioral changes in a virtual world format where progressive learning, feedback on success and user control are combined into an interactive and engaging experience. It is anticipated that this SBIR FOA will facilitate the translation of new or existing health and medicine-based, P-12 STEM curricula and museum exhibits into educational Interactive Digital Media STEM (IDM STEM) resources that will provide a hands-on, inquiry-based and learning-by-doing experience for students, teachers and the community.

Deadline: September 02, 2022

Palliative Care in Home and Community Settings (R01 Clinical Trial Optional) – (CFDA 93.361)

The purpose of this funding opportunity is to stimulate research aimed at determining needs and best practices for the integration of palliative care into home and community settings. Home and community in this FOA refer to the place where an individual resides or lives. Home- and community-based palliative care programs ensure those with serious, advanced illness who do not require hospitalization but are not appropriate for hospice have access to high-quality end-of-life and palliative care.

Deadline: September 7, 2022

Core Infrastructure Support for Cancer Epidemiology Cohorts (U01 Clinical Trial Not Allowed) CFDA 93.393

Through this Funding Opportunity Announcement (FOA), the National Cancer Institute (NCI) encourages grant applications for support of the core functions of Cancer Epidemiology Cohorts (CECs), as well as methodological research. This FOA is intended to support maintenance of existing CECs infrastructure and resource sharing with broader scientific communities.

Deadline: November 09, 2022

Co-infection and Cancer (R01 Clinical Trial Not Allowed)-CFDA 93.393

This initiative seeks to enhance our mechanistic and epidemiologic understanding of infection-related cancers, with a focus on the etiologic roles of co-infection in cancer. Preference will be given to investigations of co-infections with known oncogenic agents (e.g., *Helicobacter pylori* [*H. pylori*] and Epstein Barr virus [EBV]; excluding human immunodeficiency virus [HIV]) and of co-infections that engendered novel opportunities for prevention and treatment. Coinfection is defined as the occurrence of infections by two or more infectious (pathogenic or nonpathogenic) agents either concurrently or sequentially and includes both acute and chronic infections by viruses, bacteria, parasites, and/or other microorganisms.

Deadline: January 07, 2023

EHR Core Research (ECR): Building Capacity in STEM Education Research-CFDA 93.855

This Funding Opportunity Announcement (FOA), issued by the National Institute of Allergy and Infectious Diseases (NIAID), invites applications for investigator-initiated Resource-Related Research Projects (R24). The proposed resource must provide a significant benefit to currently funded high priority projects in need of further coordination and support in the areas specified. Under rare circumstances, this mechanism may be used to support the development of a new resource to the broader scientific community of the NIAID. It is anticipated that the request for resource support through the R24 activity code will occur on an infrequent basis and only in circumstances where other mechanisms of support from the NIAID are not appropriate. The proposed resources

should be relevant to the scientific areas of the NIAID mission including the biology, pathogenesis, and host response to microbes, including HIV; the mechanisms of normal immune function and immune dysfunction resulting in autoimmunity, immunodeficiency, allergy, asthma, and transplant rejection; and translational research to develop vaccines, therapeutics, and diagnostics to prevent and treat infectious, immune-mediated, and allergic diseases.

Deadline: January 07, 2023

Archiving and Documenting Child Health and Human Development Data Sets (R03 Clinical Trial Not Allowed)-CFDA 93.865

The purpose of this funding opportunity announcement (FOA) is to invite R03 applications to support archiving and documenting existing data sets to enable secondary analysis of these data by the scientific community. The priority of this program is to archive data sets within the scientific mission of the NICHD; the highest priority is to archive data collected with NICHD support.

Deadline: January 07, 2023

NIDCR Predoctoral to Postdoctoral Transition Award for A Diverse Dental, Oral, and Craniofacial Research Workforce (F99/K00 Clinical Trial Not Allowed)-CFDA 93.121

The purpose of this award is to support phased transition of outstanding graduate students from groups underrepresented in the biomedical, clinical, behavioral and social sciences research enterprise from graduate work to postdoctoral research positions in Dental, Oral, and Craniofacial (DOC) research. The first phase (F99) will support the final two years of graduate research training for individuals in Ph.D. or dual degree clinician-scientist programs. Following graduation and attainment of a postdoctoral research position, the second phase (K00) will provide support for up to three years of mentored postdoctoral research.

Deadline: January 07, 2023

**Ruth L. Kirschstein National Research Service
Award (NRSA) Individual Fellowship for Students
at Institutions Without NIH-Funded Institutional
Predoctoral Dual-Degree Training Programs
(Parent F30) CFDA 93.113. 93.121. 93.172, 93.173.
93.213. 93.233**

This Funding Opportunity Announcement (FOA) will support students at institutions without NIH-funded institutional predoctoral dual-degree training programs. The purpose of the Kirschstein-NRSA, dual-doctoral degree, predoctoral fellowship (F30) is to enhance the integrated research and clinical training of promising predoctoral students, who are matriculated in a combined MD/PhD or other dual-doctoral degree training program (e.g. DO/PhD, DDS/PhD, AuD/PhD, DVM/PhD), and who intend careers as physician/clinician-scientists. Candidates must propose an integrated research and clinical training plan and a dissertation research project in scientific health-related fields relevant to the missions of the participating NIH Institutes and Centers. The fellowship experience is expected to clearly enhance the individual's potential to develop into a productive, independent physician/clinician-scientist. This Funding Opportunity Announcement (FOA) is designed specifically for candidates proposing research that does not involve leading an independent clinical trial, a clinical trial feasibility study, or an ancillary clinical trial, but does allow candidates to propose research experience in a clinical trial led by a sponsor or co-sponsor.

Deadline: May 07, 2023

U.S. Department of Housing and Urban Development

**Foster Youth to Independence (FYI) Competitive
CFDA 14.880**

You must download both the Application Instruction and the Application Package from Grants.gov. You must verify that the CFDA Number and CFDA Description on the first page of the Application Package, and the Funding Opportunity Title and the Funding Opportunity Number match the Program and NOFA to which you are applying.

The Application Package contains the portable document forms (PDFs) available on Grants.gov, such as the SF-424 Family. The Instruction Download contains official copies of the NOFA and forms necessary for a complete application. The Instruction Download may include Microsoft Word, Microsoft Excel and additional documents.

An applicant demonstrating good cause may request a waiver from the requirement for electronic submission. For example, a lack of available Internet access in the geographic area in which your business offices are located. Lack of SAM registration or valid DUNS is not deemed good cause. If you cannot submit your application electronically, you must ask in writing for a waiver of the electronic grant submission requirements. HUD will not grant a waiver if HUD does not receive your written request at least 15 days before the application deadline and if you do not demonstrate good cause. An email request for a waiver sent 15 days before the application is due will also be considered. If HUD waives the requirement, HUD must receive your paper application before the deadline of this NOFA.

Deadline: March 22, 2021

FY 2020 Section 202 Supportive Housing for the Elderly Program CFDA 14.157

HUD is providing Capital Advance funding and project rental subsidies for the development and ongoing operation of supportive rental housing for very low-income persons, aged 62 years or older. This funding, leveraged with other financing sources, will expand affordable housing opportunities that are physically designed and that have a robust set of services that will allow seniors to live independently and age in community.

Deadline: May 26, 2021

U.S. Department of Homeland Security

FY 2020 Fire Prevention and Safety Grant CFDA 97.044

The Department of Homeland Security (DHS) Federal Emergency Management Agency's (FEMA) Grants Programs Directorate is responsible for the implementation and administrations of the Assistance to Firefighters Grant (AFG) Programs. The purpose of the AFG Program is to enhance the safety of the public and firefighters with respect to fire and fire-related hazards. The Grants Programs Directorate administers the Fire Prevention and Safety (FP&S) grants as part of the AFG Program. FP&S offers grants to support activities in two categories: (1) activities designed to reach high-risk target groups and mitigate incidences of death and injuries caused by fire and fire-related hazards ("Fire Prevention and Safety Activity") and (2) research and development activities aimed at improving firefighter safety ("Firefighter Safety Research and Development Activity"). The program guidance document provides potential applicants with the details of the requirements, processing, and evaluation of an application for financial assistance for both of these activity areas.

Deadline: February 26, 2021

FY 2020 Staffing for Adequate Fire and Emergency Response (SAFER) Grant CFDA 97.083

The Department of Homeland Security (DHS) Federal Emergency Management Agency's (FEMA) Grant Programs Directorate implements and administers the Staffing for Adequate Fire and Emergency Response (SAFER) Grants. SAFER grants provide financial assistance to help fire departments increase frontline firefighters. SAFER offers grants to support activities in two activities:

1. Hiring of Firefighters
2. Recruitment and Retention of Volunteer Firefighters

The authority for SAFER is derived from Section 34 of the Federal Fire Prevention and Control Act of 1974 (Pub. L. No. 93-498, as amended) (15 U.S.C. § 2229a).

The notice of funding opportunity document provides potential applicants with the details of the requirements, processing, and evaluation of an application for financial assistance for both of these activity areas.

Deadline: March 12, 2021

U.S. Department of the Interior

2021 Preservation Technology and Training Grants CFDA 15.923

2021 Preservation Technology and Training Grants (PTT Grants) are intended to create better tools, better materials, and better approaches to conserving buildings, landscapes, sites, and collections. The PTT Grants are administered by the National Center for Preservation Technology and Training (NCPTT), the National Park Service's innovation center for the preservation community.

The competitive grants program will provide funding to federal agencies, states, tribes, local governments, and non-profit organizations. PTT Grants will support the following activities:

Innovative research that develops new technologies or adapts existing technologies to preserve cultural resources (typically \$20,000)

Specialized workshops or symposia that identify and address national preservation needs (typically \$15,000 to \$20,000)

How-to videos, mobile applications, podcasts, best practices publications, or webinars that disseminate practical preservation methods or provide better tools for preservation practice (typically \$5,000 to \$15,000

The maximum grant award is \$20,000. The actual grant award amount is dependent on the scope of the proposed activity. NCPTT does not fund "bricks and mortar" grants. See full announcement attachment for full application information.

Deadline: March 15, 2021

FY2020 Historic Preservation Fund - Historically Black Colleges and Universities Grants CFDA 15.932

In 1988, the National Park Service established the Historically Black Colleges and Universities (HBCU) Preservation grant program to document, preserve, and stabilize structures on HBCU campuses. The HBCU grant program exists to repair historic structures on campuses of Historically Black Colleges and Universities that are listed in the National Register of Historic Places either individually or as contributing to a National Register or National Historic Landmark historic district. Projects must meet major program selection criteria and all work must meet the Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation.

Deadline: March 31, 2021

FY2020 Historic Preservation Fund - Underrepresented Community Grants CFDA 15.904

The National Park Service's (NPS) Underrepresented Community Grant Program (URC) is intended to diversify the nominations submitted to the National Register of Historic Places to include communities that are currently underrepresented. URC grants are funded by the Historic Preservation Fund (HPF), and are administered by the NPS. Projects include surveys and inventories of historic properties associated with communities underrepresented in the National Register, as well as the development or amendment of nominations to the National Register.

Deadline: March 31, 2021

U.S. Department of Justice

OJJDP FY 2021 Children’s Advocacy Centers Membership and Accreditation Program CFDA 16.758

This solicitation provides funding to support a national membership and accreditation organization to provide training and technical assistance on the development and implementation of national standards for children’s advocacy centers (CACs). Across the country, CACs provide a coordinated response to victims of child abuse through multidisciplinary teams composed of representatives from community agencies and professionals involved with intervention, prevention, prosecution, and investigation systems that respond to child abuse cases.

Deadline: February 05, 2021

BJA FY 21 Second Chance Act Pay for Success Initiative CFDA 16.812

Pay for Success is performance-based and outcomes-based programming that ties payment for services to reaching agreed upon goals. Under this initiative, services that may be purchased include permanent supportive and recovery housing, as well as other types of reentry services which are tailored to individuals leaving incarceration, particularly those with substance use disorders.

Deadline: February 16, 2021

BJA FY 21 The Kevin and Avonte Program: Reducing Injury and Death of Missing Individuals with Dementia and Developmental Disabilities CFDA 16.015

The Kevin and Avonte Program: Reducing Injury and Death of Missing Individuals with Dementia and Developmental Disabilities supports local jurisdictions’ efforts to reduce the number of deaths and injuries of individuals with forms of dementia such as Alzheimer’s disease or developmental disabilities such as autism who, due to their condition, wander from safe environments. It provides funding to law enforcement and public safety

agencies to implement locative technologies to track missing individuals, and to such agencies and partnering nonprofit organizations to develop or operate programs to prevent wandering, increase individuals' safety, and facilitate rescues.

Deadline: February 17, 2021

Grants to Reduce Domestic Violence, Dating Violence, Sexual Assault and Stalking on Campus Program Solicitation CFDA 16.525

This program is authorized 34 U.S.C. § 20125. The Grants to Reduce Domestic Violence, Dating Violence, Sexual Assault, and Stalking on Campus Program (Campus Program).

(CFDA# 16.525) encourages institutions of higher education to develop and strengthen effective security and investigation strategies to combat domestic violence, dating violence, sexual assault, and stalking on campus, develop and strengthen victim services in cases involving such crimes on campus, and develop and strengthen prevention education and awareness programs. For additional information about this program and related performance measures, including how awards contribute to the achievement of program goals and objectives.

Deadline: March 2, 2021

Innovative Prosecution Solutions CFDA 16.825

The purpose of the Smart Prosecution - Innovative Prosecution Solutions (IPS) Program is to provide state, local, and tribal prosecutors with funding to secure resources that will help reduce crime and increase public safety.

The program encourages prosecutors and agencies to use data in the development of their strategies and projects and to develop effective, economical, and innovative responses to crime within their jurisdictions.

Deadline: March 15, 2021

Grants to Tribal Governments to Exercise Special Domestic Violence Criminal Jurisdiction: Targeted Support for Exercising Tribes Solicitation CFDA 16.025

The OVW Grants to Tribal Governments to Exercise Special Domestic Violence Criminal Jurisdiction Program (Tribal Jurisdiction Program) (CFDA# 16.025) is authorized by the Indian Civil Rights Act of 1968, as amended,

25 U.S.C. § 1304(f). This targeted solicitation under the Tribal Jurisdiction Program assists Indian tribes that currently are exercising special domestic violence criminal jurisdiction (SDVCJ) by providing financial support for discrete costs that result from the exercise of SDVCJ and related training and technical assistance (TTA).

Note: Tribes that have not yet begun to exercise SDVCJ and tribes that are currently exercising but are seeking funding to plan and complete broad-scale system improvements to strengthen the exercise of SDVCJ should apply for funding through the FY 2021 OVW Grants to Tribal Governments to Exercise Special Domestic Violence Criminal Jurisdiction solicitation.

Deadline: March 26, 2021

[Grants to Tribal Governments to Exercise Special Domestic Violence Criminal Jurisdiction Solicitation](#) [CFDA 16.025](#)

The OVW Grants to Tribal Governments to Exercise Special Domestic Violence Criminal Jurisdiction Program (Tribal Jurisdiction Program) (CFDA# 16.025) is authorized by the Indian Civil Rights Act of 1968, as amended, 25 U.S.C. § 1304(f). Through this grant program, Indian tribes receive support to exercise special domestic violence criminal jurisdiction (SDVCJ) and technical assistance (TA) for planning and implementing changes in their criminal justice systems necessary to exercise the jurisdiction. The program encourages collaborations among tribal leadership, courts, prosecutors, attorneys, defense counsel, law enforcement, probation, victim service providers, and other partners to ensure that victims find safety and justice and that non-Indians who commit crimes of domestic violence, dating violence, and violations of protection orders in the Indian country of the participating tribe are held accountable. For additional information about this program and related performance measures, including how awards contribute to the achievement of program goals and objectives.

Deadline: March 26, 2021

[Research and Evaluation on the Administration of Justice](#) [CFDA 16.560](#)

The National Institute of Justice (NIJ) is authorized to conduct or authorize multiyear and short-term research and development concerning the criminal and civil justice systems.

With this solicitation, NIJ seeks proposals for rigorous research and evaluation projects examining the impact of pretrial strategies on the administration of justice and public safety. Specifically, NIJ seeks applications for

projects examining the impact on the administration of justice and public safety of pretrial detention healthcare, data-driven interventions, prosecutorial discretion, decriminalization of certain offences, and bail reform.

Applications proposing research involving partnerships with criminal justice or other agencies, should include a strong letter of support, signed by an appropriate decision-making authority from each proposed, partnering agency. A letter of support should include the partnering agency's acknowledgement that de-identified data derived from, provided to, or obtained through this project will be archived by the grant recipient with the National Archive of Criminal Justice Data (NACJD) at the conclusion of the award. Applicants and their potential partners are encouraged to review the NACJD's policies and protections at (NACJD). If selected for award, grantees will be expected to have a formal agreement in place with partnering agencies by January 1, 2022. That formal agreement must include a provision to meet the data archiving requirements of the award.

In the case of partnerships that will involve the use of federal award funds by multiple partnering agencies to carry out the proposed project, only one entity/partnering agency may be the applicant (as is the case with any application submitted in response to this solicitation); any others must be proposed as subrecipients.

This solicitation supports DOJ Strategic Objective 3.1: Combat violent crime, promote safe communities, and uphold the rights of victims of crime. It also supports Objective III.B: Research the Impact of Court Strategies on the Administration of Justice and Public Safety, of the National Institute of Justice Courts Strategic Research Plan 2020-2024.

Deadline: March 29, 2021

Research and Evaluation on Policing Strategies for Civil Disturbances CFDA 16.560

IJ seeks proposals for rigorous research and evaluation projects to better understand the factors that lead to violent disorder and criminal conduct at some protests and demonstrations but not others, and the tactics and strategies that police use to maintain public order. To that end, NIJ seeks applications for funding research projects addressing these two topics:

Police Strategies and Tactics to Respond to Violence and Maintain Order

The Role of Extremists in Fomenting Violence at Protests and Demonstrations

Applicants' proposals must clearly indicate to which topic the proposal is being submitted.

Applications proposing research involving partnerships with criminal justice or other agencies, should include a strong letter of support, signed by an appropriate decision-making authority from each proposed, partnering agency. A letter of support should include the partnering agency's acknowledgement that de-identified data derived from, provided to, or obtained through this project will be archived by the grant recipient with the National Archive of Criminal Justice Data (NACJD) at the conclusion of the award. Applicants and their potential partners are encouraged to review the NACJD's policies and protections at (NACJD). If selected for award, grantees will be expected to have a formal agreement in place with partnering agencies by January 1, 2022. That formal agreement must include a provision to meet the data archiving requirements of the award. In the case of

partnerships that will involve the use of federal award funds by multiple partnering agencies to carry out the proposed project, only one entity/partnering agency may be the applicant (as is the case with any application submitted in response to this solicitation); any others must be proposed as subrecipients.

This solicitation supports DOJ Strategic Objective 3.1: Combat violent crime, promote safe communities, and uphold the rights of victims of crime.

Deadline: March 29, 2021

Improving Criminal Justice Responses to Domestic Violence, Dating Violence, Sexual Assault, and Stalking Grant Program Solicitation CFDA 16.590

The Improving Criminal Justice System Responses to Domestic Violence, Dating Violence, Sexual Assault, and Stalking Grant Program (ICJR Program) (CFDA# 16.590) program is authorized by 34 U.S.C. §§ 10461-10465 and implemented through regulations at 28 C.F.R. Part 90, Subpart D. The ICJR Program encourages state, local, and tribal governments and courts to treat domestic violence, dating violence, sexual assault, and stalking as serious violations of criminal law requiring the coordinated involvement of the entire criminal justice system. For additional information about this program and related performance measures, including how awards contribute to the achievement of program goals and objectives.

Deadline: March 29, 2021

U.S. Department of Labor

YouthBuild CFDA 17.274

The Employment and Training Administration (ETA), U.S. Department of Labor (DOL, or the Department, or we), announces the availability of approximately \$89 million in grant funds authorized by the Workforce Innovation and Opportunity Act (WIOA) (Pub. L. 113-128) for YouthBuild.

Under this Funding Opportunity Announcement (FOA), DOL will award grants through a competitive process to organizations providing pre-apprenticeship services that support education, occupational skills training, and employment services to at-risk youth, ages 16 to 24, while performing meaningful work and service to their communities. In addition to construction skills training, YouthBuild applicants may include occupational skills training in other in-demand industries. This expansion into additional in-demand industries is the Construction Plus component, a priority in this grant competition.

The YouthBuild model balances project-based academic learning and occupational skills training to prepare at-risk youth for career placement. The academic component assists youth who are often significantly behind in

basic skill development in obtaining a high school diploma or state high school equivalency credential. The occupational skills training component prepares at-risk youth for apprenticeship and other career pathways and/or further education or training. It also supports the goal of increasing affordable housing within communities by teaching youth construction skills learned by building or significantly renovating homes for sale or rent to low-income families or transitional housing for homeless families or individuals.

Deadline: February 09, 2021

[Homeless Veterans' Reintegration Program \(HVRP\), Incarcerated Veterans' Transition Program \(IVTP\), and the Homeless Female Veterans' and Veterans' with Families Program \(HFVVWF\) \(referred to collectively as HVRP\)](#) [CFDA 17.805](#)

The purpose of this program is to provide services to reintegrate homeless veterans into the labor force by placing them into family-sustaining employment and to stimulate the development of effective service delivery systems that will address the complex problems facing homeless veterans. DOL defines family-sustaining employment as paid employment in line with the homeless veteran's aspirations, talents, and abilities. Ideally, the employment will provide a family sustaining wage or, in other words, at least the minimum income necessary for a worker to meet his or her basic financial needs.

Deadline: March 01, 2021

[National Dislocated Worker Grants Program](#) [Guidance-\(CFDA 17.277\)](#)

National Dislocated Worker Grants (DWGs) are discretionary grants awarded by the Secretary of Labor under Section 170 of the Workforce Innovation and Opportunity Act (WIOA) to provide employment-related services for dislocated workers. The Department funds two types of DWGs: Disaster Recovery and Employment Recovery.

Disaster Recovery DWGs provide funding to create temporary employment opportunities to assist with clean-up and recovery efforts when an area impacted by an emergency or major disaster is declared eligible for public assistance by the Federal Emergency Management Agency (FEMA) or is declared, or otherwise recognized, as an emergency or disaster of national significance by a Federal agency with authority or jurisdiction over Federal response to the disaster or emergency.

Employment Recovery DWGs temporarily expand capacity to serve dislocated workers and to meet the increased demand for employment and training services following a qualifying event. Qualifying events include major economic dislocations, such as plant closures, mass layoffs, or higher-than-average demand for employment and training activities for dislocated members of the Armed Forces and their spouses. Under 20 CFR 687.110(a)(5), the Secretary of Labor may determine other major dislocations eligible for Employment Recovery DWGs.

Deadline: Rolling grant

U.S. Department of State

International Guidelines for Biosecurity Ethics

The purpose of this award is to develop a draft document containing “Ethical Guidelines for Biosecurity” to supplement existing codes and similar ethical documents that already exist for biological scientists. Such guidelines would help to strengthen the norms and practices that exist nationally and internationally against the misuse of the life sciences for biological weapons purpose, thus helping to prevent the creation and use of biological weapons by non-State actors and national governments. Ultimately, such guidelines would incorporate input from the biological science community and be supported both by the Biological Weapons Convention (BWC) States Parties and by relevant professional organizations. This project will be executed in coordination with the Office of Biological Policy Staff (BPS) and WMDT. BPS manages a wide range of policy issues at the intersection of national security, public health, and science and leads U.S. Government participation in activities related to the BWC. The guideline development process would take place under the aegis of the Inter-Academy Partnership (IAP), a global network consisting of 111 national science academies, which would select the technical experts to participate, in close cooperation with the US National Academies of Science, Engineering and Medicine (NASEM).

Deadline: May 28, 2021

U.S. Department of Transportation

State Damage Prevention Program Grants CFDA **20.720**

For pipeline and hazard material safety.

Deadline: March 15, 2021

Pipeline Safety One-Call Grant Fiscal Year 2021 CFDA 20.271

This grant opportunity is only open to state agencies that are authorized to conduct pipeline safety inspections per a 49 U.S.C. § 60105 certification and/or a 49 U.S.C. § 60106 agreement with PHMSA.

Deadline: March 15, 2021

Assistance for Local Emergency Response Training Grants Fiscal Year (FY) 2021 CFDA 20.703

Interagency Hazardous Materials Public Sector Training and Planning Grants”

Deadline: March 15, 2021

Pipeline Safety Research Competitive Academic Agreement Program (CAAP) CFDA 20.724

Pipeline Safety Research Competitive Academic Agreement Program (CAAP)

Deadline: March 15, 2021

Hazardous Materials Emergency Preparedness (HMEP) Tribal CFDA 20.703

Hazardous Materials Emergency Preparedness (HMEP) Tribal Grants.

Deadline: March 15, 2021

Pipeline and Hazardous Material Technical Assistance Grant CFDA 20.710

TAG awards have funded a broad range of activities, including improvement of local pipeline emergency response capabilities; improvement of safe digging or damage prevention programs; development of pipeline safety

information resources; implementation of local land use planning practices that enhance pipeline safety; community and pipeline awareness campaigns; and public participation in official proceedings pertaining to pipeline safety.

Deadline: March 15, 2021

FAA Aviation Research Grants Program CFDA 20.108

The FAA hereby announces its continuing interest in receiving applications for aviation research grants and cooperative agreements to pursue the long-term growth and short-term technical needs of civil aviation, under this funding opportunity. Eligibility of applicants for the award of an aviation research grant varies depending on the nature of the proposer's organization, as well as the character of the research being proposed. In general, colleges, universities, and other non-profit research institutions under Section 501(c)(3) of Title 26 of United States Code, are eligible to apply for an aviation research grant.

The FAA Aviation Research Grants Program encourages and supports innovative, advanced research of potential benefit to the long-term growth of civil aviation and commercial space transportation. The pursuit of basic and applied research in scientific and engineering disciplines that have the potential to further knowledge and understanding on a broad front of emerging technologies is crucial to the realization of this goal. The intent is to encourage applied

research and development to enhance technology assimilation, transfer, and development in the FAA. The FAA Aviation Research Grants Program does not require the immediate application to Research and Development (R&D) programs, although this may occur in some cases. The FAA encourages the

submission of proposals that embrace the entire spectrum of physical, chemical, biological, medical, psychological, mathematical, and engineering sciences.

The following list illustrates topics of interest to those who may consider applying for a grant under this funding opportunity:

1. Capacity and Air Traffic Control Technology
2. Communications, Navigation, and Surveillance
3. Aviation Weather
4. Airports

5. Aircraft Safety Technology
 6. Human Factors and Aviation Medicine
 7. Systems Science/Operations Research
 8. Unmanned Aircraft System (UAS) Unmanned Traffic Management (UTM), Class E Upper Airspace Traffic Management (ETM), and Urban Air Mobility (UAM)
- Deadline:** September 27, 2027

[U.S. Department of Veterans Affairs](#)

[VETERANS CEMETERY GRANTS CFDA 64.203](#)

Cemetery Grants are only available to states, territories and federally recognized tribal governments. This program operates in accordance to 38 CFR Part 39

Deadline: July 01, 2021

Section III PROGRAM FUNDING THROUGH PRIVATE, CORPORATE & COMMUNITY FOUNDATIONS

[BoatUS Foundation Accepting Grant Applications for Safe and Clean Boating Projects](#)

The BoatUS Foundation for Boating Safety and Clean Water is accepting applications for its Grassroots Grants Program, which awards funds on an annual basis to nonprofit organizations, boating clubs, and student groups in the United States for projects that utilize innovative approaches to education about safe and clean boating.

The foundation is looking for creative projects that promote safe and clean boating on local waterways. Past topics have ranged from PSAs on the effects of boating under the influence of hands-on education about the effects of marine debris.

Projects the foundation is most interested in funding will be unique (topic, methods, or delivery mechanism); include extensive outreach to boaters; use technology to educate boaters, including social media and the Web; have a widespread reach (not just a handful of boaters); include hands-on work with the boating community, and have a way to measure the success of the program.

Applicants can include boating groups, clubs and associations, student groups, and local nonprofit organizations, including local chapters of national organizations. Grants will not be awarded to government agencies, international organizations, for-profit businesses, or individuals.

Applicants may request up to \$10,000. Funded projects must be completed within a year.

Deadline: Open

Baseball Tomorrow Fund

The Baseball Tomorrow Fund (BTF) awards grants to non-profit and tax-exempt organizations involved in the operation of youth baseball and/or softball programs and facilities. Organizations operating in the U.S. and international locations are eligible to apply. To date, an average of 400 requests are received annually; approximately 10 percent are awarded grants. Grants are awarded every quarter.

Review cycle deadlines:

- January-March: January 1
- April-June: April 1
- July-September: July 1
- October-December: October 1

Surdna Foundation Sustainable Environment Grants

The Sustainable Environments Program is working to overhaul our country's outdated and crumbling infrastructure with a new approach that will foster healthier, sustainable, and just communities. We believe in the potential of what we call "next-generation infrastructure" to improve transit systems, make buildings more energy-efficient, better manage our water systems and rebuild regional food systems. Focusing on urban areas and their surrounding suburbs, we seek solutions that connect and improve these infrastructure systems in ways that maximize positive impacts and minimize negative environmental, economic and social consequences.

JFNY Grant for Arts and Culture

The Japan Foundation New York office (JFNY) accepts applications for projects that take place within the 37 states east of Rocky Mountains listed below for the JFNY Grant throughout the year. This grant aims to support projects that will further understand of Japanese arts and culture. Successful projects may be granted up to \$5,000. Priority will be given to those projects that have secured additional funding from sources other than the Japan Foundation.

Deadline: Applications must be received at least 3 months before the beginning date of the project.

CSX Beyond Our Rails Grant

CSX provides non-profit assistance and support through a variety of programs, including grants that typically range from \$2,500 to \$5,000 for projects focusing on safety, community, wellness, and/or the environment.

Examples given for environmental projects include:

- Teaching environmental stewardship
- Planting eco-friendly trees and plants
- Leading and supporting environmental cleanups
- Recycling and waste minimization
- Promoting energy efficiency and carbon reduction

Deadline: Ongoing

Laboratory Equipment Donation Program for Colleges, Universities, and Museums

The Laboratory Equipment Donation Program (LEDP), formerly the Energy-Related Laboratory Equipment (ERLE) Grant Program, was established by the United States Department of Energy (DOE) to grant surplus and available used energy-related laboratory equipment to universities and colleges in the United States for use in energy-oriented educational programs.

Deadline: Ongoing

Zayed Future Energy Global High Schools Prize

The primary aim of the Global High Schools category is to inspire future generations across the globe by instilling an ethos of sustainability from an early age, including an appreciation of issues in energy, and broader sustainability. Each school will submit a detailed proposal for a project, and the Prize will become a grant that enables the project's completion. While the main objective is to promote sustainability in schools, a special emphasis of the proposed project should be on specific measurable initiatives to promote renewable energy and sustainability, which may include improvements in energy or water efficiency or a reduction in waste.

Waste Management Charitable Giving

Healthy thriving communities depend on involved citizens, organizations and corporate partners for momentum. We lend our support and services to causes that promote civic pride, economic development, and revitalization. Every community has its challenges, and we strive always to be part of problem-solving initiatives. Programs that Waste Management is most motivated to support include environment, environmental education, and causes important to the areas where we operate. Applications are accepted year-round and are reviewed continuously. Given the large number of requests received, please anticipate an estimated two-month review period for each request.

Clif Bar Foundation Small Grants

These grants are awarded for general organizational support as well as funding for specific projects. Small grants average approximately \$7,000 each. Priority is given to applicants that: Address our funding priorities from a holistic perspective; Protect Earth's beauty and bounty; Create a robust, healthy food system; Increase opportunities for outdoor activity; Reduce environmental health hazards; Build stronger communities; Operate with clearly defined objectives and viable plans to achieve them; Demonstrate strong community ties and operate at the community level; Promote positive change through both the projects and their implementation process.

Deadline: Applications are reviewed three times a year; the deadlines are the 1st of February, June, and October. Grants awarded during a particular cycle will be announced at the beginning of the following cycle.

Foundation for Contemporary Art Accepting Applications for Emergency Grants

Since its inception in 1963, the mission of the Foundation for Contemporary Arts has been to encourage, sponsor, and promote innovative work in the arts created and presented by individuals, groups, and organizations.

Created in 1993, the foundation's Emergency Grants program provides grants of up to \$2,000 to innovative visual and performing artists who have unanticipated, sudden opportunities to present their work to the public when there is insufficient time to seek other sources of funding; or who incur unexpected or unbudgeted expenses for projects close to completion with committed exhibition or performance dates.

To be eligible, applicants must be living, working, and paying taxes in the United States; have committed to a performance or exhibition opportunity and be able to provide specific dates at the time of application; and be an individual artist or an individual representing an artist collective, ensemble, or group. Curators, producers, workshop organizers, organizations, or arts presenters are not eligible to apply.

Deadline: OPEN

Weyerhaeuser Giving Fund

We support the U.S. and Canadian communities where we have a significant presence or business interest. These communities range from rural to metropolitan, each with unique priorities and needs. Our employees serve on local advisory committees for our Giving Fund and develop funding priorities within four focus areas to support their particular communities. This provides a strong companywide framework for giving while allowing flexibility to meet unique needs in our different communities.

Through the Weyerhaeuser Giving Fund we concentrate the majority of our funding in four focus areas:

- Affordable Housing and Shelter
- Education and Youth Development

- Environmental Stewardship
- Human Services, Civic and Cultural Growth

To be eligible for funding, a program must:

- Serve a Weyerhaeuser community
- Be a tax-exempt, nonprofit public charity classified under Section 501(c)(3) of the U.S. Internal Revenue Code OR a registered charity in Canada with a Canada Revenue Agency Number, or registered as a provincial nonprofit society OR a public education institution or government entity qualified under Section 170(c)(1) of the U.S. Internal Revenue Code or qualified as a Canadian municipality.

Wells Fargo Corporate Giving Programs

Wells Fargo supports nonprofit organizations that work on a community level in the areas of human services, arts and culture, community development, civic responsibility, education, environmental consciousness, and volunteerism.

Deadline: Applications accepted on an ongoing basis.

Good Sports Accepting Applications for Sports Equipment Grant

Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization can focus on the respective needs of each program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for two years. During that time, organizations can make up to six separate donation requests — as long as the need is well documented, donations will be granted. There is no need to resubmit a full application again during the two years.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers a consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

Deadline: Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks before the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time.

[Karma for Cara Foundation Invites Applications for Youth Microgrants](#)

The Karma for Cara Foundation is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the Johns Hopkins Kimmel Cancer Center. Cara and her two brothers began volunteering at a young age as part of their family's commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores.

Deadline: OPEN

[VFW Accepting Applications From Veterans for Emergency Financial Assistance](#)

Veterans of Foreign Wars is accepting applications from active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. Since the program's inception, Unmet Needs has distributed more than \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The hardship must be the result of deployment, a military pay issue, or military-related illness or injury. It cannot be due to civil legal or domestic issues, misconduct, or any issues that are a result of spousal separation or divorce, financial mismanagement, or bankruptcy.

Deadline: OPEN

[Start a Snowball Invites Applications for Youth Philanthropy Projects](#)

Start a Snowball, Inc. encourages kids of all ages to engage in philanthropic and community service activities. The organization believes that even one child with the right intentions and support can start a project that seems small in the beginning and eventually grows ("snowballs") into something that inspires and benefits an entire community.

To help kids, kick off their philanthropy efforts, start a Snowball awards \$100 in seed funding for projects taken on by individuals or organizations.

To be eligible, projects must be led by youth between the ages of 5 and 18 and have the intention of doing good.

Start a Snowball does not give directly to collection funds. The organization also does not provide support for fundraisers for sports teams, unless they serve an underserved or disadvantaged group or support projects that are discriminatory or political.

Deadline: Rolling

Craft Emergency Relief Fund Accepting Applications From Craftspeople in Need

The Craft Emergency Relief Fund is a national nonprofit organization that awards small grants and loans to professional craftspeople experiencing career-threatening illness, accident, fire, theft, or natural disaster.

Financial assistance ranges from \$500 to \$8,000. Other services include referrals to craft suppliers who have agreed to offer discounts on materials and equipment to craftspeople eligible for CERF funds and booth fee waivers from specific craft show producers.

CERF loan recipients are expected to repay the loan in full within five years, enabling CERF to have funds readily available for future craftspeople in need.

Applicants must be a professional artist working in a craft discipline (e.g., a potter, metalsmith, glass artist, woodworker, fiber artist, or furniture maker) who has had a recent career-threatening emergency and a legal resident of the U.S.

Deadline: OPEN

Pollock-Krasner Foundation Accepting Applications From Artists With Financial Need

The mission of the Pollock-Krasner Foundation is to aid those individuals who have worked as artists over a significant period. The foundation's dual criteria for grants are recognizable artistic merit and financial need, whether professional, personal or both.

Grants are intended for one year, with the size of the grant to be determined by the artist's circumstances and professional exhibition history. Artists applying for a grant must be actively exhibiting their current work in a professional artistic venue such as a gallery or museum space.

The foundation does not accept applications from commercial artists, video artists, performance artists, filmmakers, crafts-makers, computer artists, or any artist whose work primarily falls into these categories.

Deadline: OPEN

Pollination Project Invites Applications From Social Entrepreneurs for Seed Grants

The Pollination Project is accepting applications from social entrepreneurs looking to make their communities and world a better place. Seed grants of up to \$1,000 will be awarded to projects in the early stages of development, including those that promote compassion toward all life (people, planet, animals), environmental sustainability, justice in all its forms, community health and wellness, and social change-oriented arts and culture.

Only applications for seed funding, as opposed to ongoing operational or program costs of a nonprofit organization, will be accepted. To be eligible, applicants must be a passionate, committed individual with a social change vision that fits within one or more of the categories above. Established nonprofit organizations with paid staff will not be considered.

Deadline: OPEN

[Hope for The Warriors Accepting Applications for Critical Care Support for Wounded Veterans](#)

Hope For The Warriors believes those touched by military service can succeed at home by restoring their sense of self, family, and hope. Nationally, the organization provides service members, veterans, and military families with comprehensive support programs focused on transition, health and wellness, peer engagement, and community resources.

Originally designed to meet short-term needs in the days following an injury, the Hope for The Warriors' Critical Care Coordination program has expanded to assist post-9/11 combat-wounded veterans and their families as they navigate through long-term recovery.

Program case coordinators work daily with post-9/11 combat-wounded service members and veterans, their families, and families of the fallen to meet immediate financial needs related to daily living including utilities, groceries, rent, mortgage, and rental deposits. The program provides casework assistance and resource referrals that will help clients immediately and in the future. Payment is always made to a third party.

To be eligible, applicants must be seeking support for needs that are a direct result of a service member's post-9/11 combat-related injury.

Deadline: OPEN

[Singing for Change Accepting LOIs for Projects to Address Social and Environmental Problems](#)

Created by Jimmy Buffett in 1995, Singing for Change initially was funded with contributions from the singer's summer concert tour. Since then, SFC has offered competitive grants to progressive nonprofit organizations working to address the root causes of social or environmental problems.

Priority will be given to organizations that keep their overhead low, include community members in planning, and collaborate with other groups to find innovative ways of solving common problems. SFC aims to advance the common good by empowering people to thrive and strengthen and sustain vibrant, diverse communities.

Grants will range in size from \$1,000 to \$10,000. Grants are made only to nonprofit organizations with tax-exempt status under section 501(c)(3) of the Internal Revenue Code, or to organizations that have a sponsoring agency with exempt status.

Deadline: Ongoing

[A Little Hope Announces Youth Bereavement Support Services Grants](#)

A Little HOPE supports organizations that provide bereavement support services and grief counseling to children and teens who have experienced the death of a parent, sibling, or loved one.

To be considered, applicants must e-mail (no telephone calls) the name of their program, website address, names of the executive director and program director, and the location of the program. No other information is needed or will be processed. Strong preference will be given to applicants who demonstrate a commitment to the use of community trained volunteers. Grant award amounts are based on the scope and budget of the project.

Deadline: OPEN

[Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities](#)

The mission of the Captain Planet Foundation is to promote and support high-quality educational programs that help children and youth understand and appreciate our world through hands-on learning experiences aimed at improving the environment in their schools and communities.

Grants are intended to serve as a means of bringing environment-based education to schools and inspiring youth and communities to participate in community service through environmental stewardship activities. The foundation will fund unique and innovative projects that do not precisely match the grant guidelines but otherwise promote the foundation's mission to advance hands-on environmental activities.

Deadline: January 31 (typically for fall and winter projects), September 30 (typically for spring and summer projects)

[Chambers of Commerce Invited to Start Young Entrepreneur Academies](#)

The Young Entrepreneurs Academy today serves thousands of students across America. In 2011, the United States Chamber of Commerce Foundation became a national sponsor and partner of the academy to help celebrate the spirit of enterprise among today's youth and the future leaders of tomorrow.

To that end, YEA, in partnership with Sam's Club and the U.S. Chamber of Commerce Foundation, is accepting applications from chambers of commerce across the country to start Young Entrepreneurs academies of their own. The thirty-week program teaches students in grades 6-12 how to generate business ideas, conduct market research, write business plans, pitch to a panel of investors, and launch their own companies. In 2015, Sam's Club will award startup funds of up to \$2,500 each to thirty chambers of commerce across the country.

Cornell Douglas Foundation Grant

The Cornell Douglas Foundation provides grants to organizations that advocate for environmental health and justice, encourage stewardship of the environment, and further respect for the sustainability of resources. The average grant amount is \$10,000.

Deadline: accepted all year

Public Welfare Foundation

The Public Welfare Foundation has three programs, Criminal Justice, Juvenile Justice, and Workers' Rights, that support efforts to advance justice and opportunity for people in need. The Foundation looks for strategic points where its funds can make a significant difference and improve lives through policy and system reform that results in transformative change.

Criminal Justice Guidelines

The Foundation's Criminal Justice Program supports groups that are working to end the over-incarceration of adults in the United States while also aiming to reduce racial disparities. In particular, the Program makes grants primarily to state-based groups that are working to:

- Reduce state incarceration levels and racial disparities through reforms in sentencing, charging, and supervision policies and procedures.
- Advance the redirection and prioritization of state and local resources toward targeted investments that support system-involved individuals in their communities, through research and strategic thought leadership.

Juvenile Justice Guidelines

The Foundation's Juvenile Justice Program supports groups working to end the criminalization and reliance on the incarceration of youth in the United States. The Program makes grants to groups that are working to:

- Advance state policies that dramatically restrict juvenile justice systems' use of incarceration and out-of-home placements and prioritize the use of community-based programs for youth;
- End the practice of trying, sentencing, and incarcerating youth in the adult criminal justice system; and
- Promote the fair treatment of youth of color who come into contact with the juvenile justice system.

Workers' Rights Guidelines

The Foundation's Workers' Rights Program supports policy and system reforms to improve the lives of low-wage working people in the United States, with a focus on securing their basic legal rights to safe, healthy, and fair conditions at work. Specifically, the Program makes grants to groups working to:

- Advance reforms to hold employers accountable for wage theft;
- Advance reforms to prevent severe illness, injury, and death on the job; and
- Advance workers' rights in complex, fissured employment arrangements through research and strategic thought leadership.

[Ben & Jerry's Foundation Seeks Proposals for Social and Environmental Justice Projects](#)

One-year grants of up to \$20,000 will be awarded to nonprofit grassroots community-organizing groups in the United States working to further social and environmental justice and support sustainable and just-food systems. Grants can be used to support both program and operational costs.

[KaBOOM! Invites Applications for Community Playground Grants](#)

KaBOOM!, a program that provides eligible communities with most of the funds, tools, and resources they need to build a custom-made playground in one day.

Deadline: OPEN

[Binoculars for Young Citizen Scientists](#)

Cornell's BirdSleuth K-12 initiative is awarding binoculars to schools where educators have made outstanding efforts to engage their students in citizen science.

Deadline: OPEN

[International Paper Environmental Education Grants](#)

The International Paper (IP) Foundation supports non-profit organizations in communities where its employees live and work. Environmental education is one of the primary areas the Foundation supports. The Foundation seeks programs that help generations understand a sustainable approach to business that balances environmental, social and economic needs.

Lego Children's Fund

The LEGO Children's Fund provides grants primarily in two focus areas: (1) early childhood education and development that is directly related to creativity and (2) technology and communication projects that advance learning opportunities. Typical awards are between \$500 and \$5,000. Interested parties must complete an eligibility quiz, be approved and invited to submit a grant proposal. Each grant will be subject to a specified time frame for completion.

Deadline: Applications accepted four times a year.

Evidence for Action: Investigator-Initiated Research to Build a Culture of Health

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs, and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

Deadline: Open

Pioneering Ideas Brief Proposals

The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted territory to better understand what new trends, opportunities, and breakthrough ideas can enable everyone in America to live the healthiest life possible.

While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health. Ultimately, we support work that will help us learn what a Culture of Health can look like—and how we can get there.

Deadline: Open

Section IV STATE OF ALABAMA GRANTS

Alabama Power Foundation Grant

The Alabama Power Foundation Grant offers funds to nonprofit organizations in Alabama working in one of the following areas:

- Health
- Human services
- Arts
- Community life
- Education
- Environment

Priority is given to projects that address underserved segments of the population and can be duplicated in other communities.

Alabama Board of Medical Scholarship Awards

The Alabama Board of Medical Scholarship Awards offers forgivable loans to students enrolled in an Alabama medical school who agree to practice primary care in a pre-approved medically, underserved community in Alabama upon graduation.

Loans are repaid at the rate of one year of service per year of the loan.

Deadline: Applications accepted on an ongoing basis.

Economic Development Fund

Land, facilities, and infrastructure to benefit an industry that will create jobs. Create a minimum of 15 permanent jobs to benefit 51% low to moderate-income beneficiaries. Continuous. Applications are taken throughout the year. Maximum request: \$250,000. Minimum Request: \$50,000. Note: Waiver of the match available for applicants with 2010 Census population of 1,000 or less. May also waive the grant ceiling for projects that demonstrate significant long-term economic benefit to the State.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbier.olia@adeca.alabama.gov

Economic Development Incubator projects

Units of local government. Applicants must maintain active registration with SAM. The program must benefit 51% of low to moderate-income beneficiaries. The project must commit to creating jobs. Maximum request: \$250,000. Match request: 20%. Applications are taken throughout the year. Award upon approval and as funding is available. Application workshop held in April and compliance workshop held in the fall.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbir.olia@adeca.alabama.gov

States' Economic Development Assistance Program (SEDAP)

Applicants: State and local units of governments, public bodies, and non-profit entities. Eligible counties in West Alabama: Bibb, Fayette, Hale, Lamar, Pickens, and Tuscaloosa.

Activities: Water and wastewater facilities, telecommunications, health care, planning activities, leadership development, education and training programs, business development, and entrepreneurship.

Requirements: Project must meet one of ARC's goals: increase job opportunities and per capita income, strengthen the capacity of people to compete in the global economy or develop and improve infrastructure to make the Region economically competitive. Construction projects funded by ARC must have an "Administering Agency" such as ADECA, USDA Rural Development or TVA. The project will be administered by and take on the requirements of that agency

Deadline: Pre-application due date in August. Applicant notified in late fall/winter if a full application is requested. Award announcements typically made in May.

Contact: Alabama Department of Economic and Community Affairs (ADECA), Jimmy Lester, ARC Program Manager (334) 353-4490, jimmy.lester@adeca.alabama.gov

Alabama Humanities Foundation Grants

Applicants are encouraged to develop projects for a wide variety of audiences including library and museum patrons, teachers and scholars, youth, senior citizens, nursing home residents, hospital patients, the economically disadvantaged, the incarcerated, and the hearing and sight-impaired.

Application submission deadlines:

- Major Grants (\$1,500 and up) – February 15, June 16, September 15
- Minor Grants (\$1,500 or less) – February 15, June 16, September 15

Bank of America Grant

The Bank of America (BoA) offers grants that support high-impact initiatives, organizations and the development of visionary leaders. Schools with farm-to-school type programs may be eligible under the funding areas:

- Developing Career Leadership and Skills: Opportunities that increase civic and community engagement, career exploration and youth employment, financial knowledge and life-skill and soft-skill development
- Assisting with Food Access: Food deserts, green/fresh food access, etc

BoA's Charitable Foundation provides philanthropic support to address needs vital to the health of communities through a focus on preserving neighborhoods, educating the workforce for 21st-century jobs and addressing critical needs, such as hunger. **Deadline:** Requests for proposals are issued three times per year.

Costco Wholesale Grants

Costco Wholesale grants support programs focusing on children, education and health and human services. They look to achieve the greatest impact where Costco's employees and members live and work. Only 501(c)(3) nonprofit organizations, which meet their giving guidelines and focus areas, are considered.

Deadline: Applications are accepted throughout the year on a rolling basis.

Walmart Foundation National Giving Program Grants

Through its National Giving Program, the Walmart Foundation awards grants of \$250,000 and above to non-profit organizations that operate on a national scope through chapters/affiliates in many states around the country or through programs that operate regionally/locally but seek funding to replicate program activities nationally.

Areas of focus for the Foundation include:

- Hunger Relief & Healthy Eating
- Sustainability
- Women's Economic Empowerment
- Career Opportunity

Deadline: OPEN

William G. McGowan Charitable Fund Issues Request for Proposals for Projects That Address Homelessness

The fund will award grants in support of initiatives that seek to correct circumstances contributing to homelessness, as well as initiatives designed to help eradicate the condition of homelessness in the long term.

Deadline: OPEN

Fellowship Search

National Endowment for the Humanities

Fellowships support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources in the humanities. Projects may be at any stage of development.

Section VI RESOURCES

[THE UPDATED GRANT AND LOAN GUIDE FOR LOCAL GOVERNMENTS IN WEST ALABAMA IS AVAILABLE ONLINE NOW!](#)

The guide is a quick reference to a variety of commonly used programs giving you the most important details you need to get started.

Find the Guide at <http://warc.info/planning-a-development/documents>~~http://warc.info/planning-a-development/documents~~. Scroll down to REGIONAL INFORMATION DOCUMENTS.

The guide is a free web-based resource designed to provide counties and municipalities in the West Alabama region with information about available grant and loan programs for community and economic development activities.

The guide provides program details on major Federal and State programs including agency contacts; award cycles; grant ceilings; matching requirements; and eligibility factors.

Healthcare

Alabama Additional Funding Sources **Community Foundations in Alabama**

There are 13 community foundations in Alabama, covering 78 percent of the counties in the state and holding assets that total more than \$190 million.

Daniel Foundation

The Daniel Foundation offers grants in four program areas: Civic and Community Improvement, Education, Health, and Arts and Culture. Applications are limited to 501 (c)(3) organizations that are located in Alabama.

Alabama Power Foundation

The Alabama Power Foundation allocates funding in four categories: Improving Education, Strengthening Communities, Promoting Arts and Culture, and Restoring and Enhancing the Environment.

Alabama Humanities Foundation

The AHF awards grants solely to support public humanities projects. Active public participation, the involvement of humanities scholars, and strong humanities content are the three essential components of AHF-funded projects.

Gwyn Turner Endowed Fund

The fund is administered by the National Trust for Historic Preservation, in partnership with Alabama Trust. Nonprofits and governmental agencies can obtain funding for preservation planning, heritage education, workshops, conferences, and special interventions. Grants range from \$1,000 to \$5,000 and require a 1:1 cash match.

Applicants are encouraged to discuss their project with the National Trust Southern Office before applying. Contact the Southern Office at 843.722.8552, or e-mail soro@nthp.org.

Sybil H. Smith Trust

Established in 1983, this trust funds organization in the First Congressional District only. Awards limited to arts, community development, education, and human services. No awards are given for individuals. For more information, call: 251.432.0208.

Alabama State Council on the Arts

Grants awarded to nonprofit organizations and local governments in the following categories: Presenting Grants, Project Assistance, Operating Support, Technical Assistance, Collaborative Ventures, and Program Development.

Historic Chattahoochee Commission

The Historic Chattahoochee Commission (HCC) promotes tourism and historic preservation in the Chattahoochee Trace, an 18-county region in Alabama and Georgia. The HCC supports preservation through two grant programs: Seed Grant and the Threatened Landmarks Program.

Veterans

FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high-quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members, and spouses are connected to high-quality career choices by matching their identified skills with the available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden's Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans, and transitioning Service Members deserve a single, authoritative source for connecting. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at <https://www.ebenefits.va.gov/ebenefits/jobs%20%20>

For a tutorial video on how to use the Veterans Employment Center, please visit:
