

Guide to Grants

From the Office of Congresswoman Terri A. Sewell

Proudly Representing Alabama's 7th Congressional District

January 1, 2021

Welcome to the *Guide to Grants!*

Happy New Year! I am honored to represent the 7th Congressional District of Alabama. As your representative during this unprecedented crisis of the **COVID-19 Pandemic**, it remains my top priority to provide you with the resources we need to keep our community safe and thriving. As we embark upon a new year with renewed hope; I will work diligently to provide you with the most current information about funding opportunities. Now more than ever, grant opportunities are vital to the success of our health and safety. This guide will identify federal, corporate, and foundation grant opportunities to assist you in goals for our communities. This guide will include links to federal agencies and resources to help you make your proposals more successful. This guide will also describe new funding opportunities for economic development, infrastructure, healthcare, and educational projects. Also, I am pleased to provide a Letter of Support for grant application projects in the 7th Congressional District of Alabama. Stay up to date with the latest information at <http://sewell.house.gov> Please continue to let us know when grants are awarded, especially if you found the opportunities in the *Guide to Grants*.

For more information, please visit our website at <http://sewell.house.gov>. To subscribe to *Guide to Grants*, sign up on our [website](#) or call us at 205.254.1960. Previous editions of the *Guide to Grants* are archived and can be found [here](#).

GRANT DEADLINE ALERT!

The FY 2020 Historic Preservation Fund African American Civil Rights Grants, Equal Rights Grant Deadline has been extended. The previous deadline was December 15, 2020

NEW Deadline: January 12, 2021

FY2020 Historic Preservation Fund- African American Civil Rights- Preservation Grants CFDA 15.904

The National Park Service's (NPS) African American Civil Rights Grant Program (AACR) will document, interpret, and preserve the sites and stories of the full history of the African American struggle to gain equal rights as citizens and the transatlantic slave trade.

Deadline: January 12, 2021

FY2020 Historic Preservation Fund- African American Civil Rights- History Grants CFDA 15.904

The National Park Service's (NPS) African American Civil Rights Grant Program (AACR) will document, interpret, and preserve the sites and stories related to the African American struggle to gain equal rights as citizens as well as the transatlantic slave trade.

Deadline: January 12, 2021

Rep. Sewell Votes in Favor of the CASH Act to Provide \$2,000 in Direct Stimulus Payments

U.S. Rep. Terri Sewell (AL-07) voted in favor of the Caring for Americans with Supplemental Help (CASH) Act of 2020 to increase the amount of money struggling Americans receive in a second round of direct payments, from \$600 to \$2,000.

“Since May, House Democrats have worked diligently to pass several consecutive coronavirus relief packages to put money directly in the pockets of American families who are suffering because of this pandemic,” said Rep. Terri Sewell. “After months of obstruction, President Trump has finally indicated support for Democrats’ proposal of a \$2,000 direct payment per person. We now have an opportunity to deliver meaningful stimulus payments that will help support American families through this public health and economic crisis. Senator McConnell and Senate Republicans must now pass this legislation immediately. To ignore the needs of the American people during this great time of need would be shameful.”

The CASH Act:

Increases the value of the economic impact payments (EIPs) provided in the end-of-year COVID relief package so that each eligible family member receives \$2,000, up from \$600.

Applies the same, broader eligibility established in the end-of-year package to mixed-status families where one spouse has a Social Security Number (SSN). As specified in the latest COVID relief legislation, these families are eligible for the EIP amount for each family member with an SSN, and can claim the corresponding amount for the first round of economic impact payments when they file their 2020 taxes.

Broadens eligibility for adult dependents, allowing more Americans to qualify for economic impact payments. Retroactively qualifies adult dependents for the CARES Act economic impact payments, which can be claimed on their 2020 tax filings.

Rep. Sewell Votes with House Democrats and Republicans to Override President Trump’s Veto of 2021 National Defense Authorization Act

Today, U.S. Rep. Terri Sewell (AL-07), a senior member of the House Permanent Select Committee on Intelligence and Chair of the Subcommittee on Defense Intelligence and Warfighter Support, voted to override President Trump’s veto of the William M (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (NDAA). The bipartisan, bicameral bill complies with the bipartisan budget agreement and authorizes \$732 billion in discretionary spending for our national defense for FY 2021.

“It is unconscionable that President Trump would oppose a bipartisan, bicameral bill that provides critical funding necessary to support our troops during this unprecedented time in our nation’s history,” said Rep. Terri Sewell. “Today I voted with my colleagues on both sides of the aisle to override the President’s reckless veto and protect the lives and livelihoods of our brave military men and women, especially those in Alabama. Senate Democrats and Republicans must work together to override his veto and ensure Americans remain safe at home and abroad.”

Rep. Sewell was selected by House Speaker Nancy Pelosi in November – for the second time in a row – to serve on the conference committee tasked with working out the differences between the House and Senate versions of the NDAA. She worked diligently with her fellow conferees to secure key wins in the bill that include:

Altering or Removing All Names and Symbols Honoring the Confederacy or Those Who Served Voluntarily With the Confederacy From All DOD Assets: The conference report establishes an independent commission to make binding recommendations to the Secretary of Defense for the modification or removal of all names, symbols, displays, monuments, and paraphernalia that honor or commemorate the Confederacy or any person who served voluntarily with the Confederacy from all assets of the Department of Defense.

Providing A Pay Raise to the Troops: The conference report authorizes a 3.0 percent increase in basic pay for service members.

Authorizing Hazardous Duty Pay for Service Members in Harm’s Way: The conference report authorizes the Secretary of Defense to standardize payment of hazardous duty pay for the uniformed services, including the members of the Guard and National Reserve. It also increases Hazardous Duty Pay from \$250 to \$275 per month.

No Backfill of the Military Construction Funds Taken for President’s Border Wall: The conference report does not authorize any backfill of military construction funds taken for the President’s border wall.

Requiring Improvements in Military Housing: The conference report takes several steps to improve military housing, including updating minimum health and safety standards for all military base housing, repealing a provision that currently allows DOD to place families in substandard housing units, and requiring DOD to implement Comptroller General recommendations for improvement of military family housing.

The bill also includes several provisions authored by Sewell, and those important to the 7th Congressional District:

Provision on Aircraft

Authorizes \$8.73 billion for 93 F-35 Joint Strike Fighters, for modernization of the Air Force, Navy and Marine Corps fighter fleets. Montgomery’s 115th 187th Fighter Wings are scheduled to receive the F-35A in 2023.

Diversity Requirements for DOD

Establishes a Chief Diversity Officer of the DOD and a Senior Advisor for Diversity and Inclusions for each Military Service, including the Coast Guard.

Countering Racism and Extremism

Requires the DOD Inspector General to establish a mechanism to track and report supremacist, extremist, and criminal gang activity in the Armed Forces.

Requires questions regarding racism, anti-Semitism, and supremacism be incorporated into DOD surveys; and requires a briefing on which surveys they will be included in.

Other Provisions

Includes the Elijah Cummings Federal Employee Anti-Discrimination Act, passed by the House in January 2019, which strengthens equal employment opportunity protections for federal employees and strengthens prohibitions against discrimination and retaliation against whistleblowers.

Authorizes \$20 million for Historically Black Colleges and Universities and Minority Institutions.

Requires the Secretary of Defense to partner with minority institutions of higher education to diversify the participants in the DOD's Science, Mathematics, and Research for Transformation (SMART) Defense Education Program.

Establishes a mentoring and career counseling program at DOD with the goal of having the diversity of the population of officers serving in each branch reflect the diversity of the population of each armed force as a whole.

Sale or Donation of Excess Department of Defense Personal Property for Law Enforcement Activities

Includes disaster-related emergency preparedness activities among law enforcement activities eligible to participate in the program; provides preference for disaster-related emergency preparedness-type equipment requests, and highest preference for high-water vehicle requests.

Prohibits transfer of bayonets, grenades (other than stun and flash-ban), weaponized tracked vehicles, and weaponized drones.

Requires annual training by participating law enforcement agencies in de-escalation of force, and respect for the rights of citizens under the Constitution of the United States.

Addressing Climate Change

Requires a report on the implementation of provisions from the FY2020 National Defense Authorization Act related to installation master planning, updates to the Unified Facilities Criteria (building codes), sea-level rise modeling, and climate assessment tools.

Establishes an alternative fuel vehicle pilot program that will require the military department to expand their use of alternative fuel non-tactical vehicles to increase the use of hybrid and EV vehicles.

Requires DOD to invest in research and development of advanced water harvesting technologies that would aid in addressing water security issues in areas impacted by drought due to climate change.

Requires the military services to assess their water use at installations in regions experiencing water scarcity, maximize use of landscaping practices that reduce water usage, and improve their water conservation.

Requires DOD to submit a report on its greenhouse gas emissions for the last 10 years within 180 days of enactment.

Provisions on Partners and Allies

Expresses the Sense of Congress strongly reaffirming the U.S. commitment to the NATO alliance and urging further cooperation with NATO on shared challenges such as the COVID-19 pandemic.

Enhances authorities for the DOD to engage with our closest allies and partners, including those in the National Technology and Industrial Base (United States, United Kingdom, Canada and Australia) to ensure secure sources of materials critical to U.S. national security.

Provisions on Europe and Russia

Prevents reduction in the number of U.S. forces stationed in Germany below 34,500 until 120 days after the Secretary of Defense submits an assessment and planning regarding the implications for allies, costs, military families, deterrence, and other key issues. Also expresses the sense of Congress emphasizing the value of U.S. forces in Germany and the U.S.-German alliance.

Fully funds the European Deterrence Initiative (EDI), and invests in additional capabilities that support deterrence in the European Command area of operations.

Provides \$250 million for the Ukraine Security Assistance Initiative (USAI), which provides support and assistance to the Ukrainian Armed Forces.

Establishes yearly reporting on any “bounties” or other attempts by the Russian Federation, its agents, or proxies to encourage or support attacks against U.S. troops or personnel in named operations or combat.

Intelligence

Increases accountability of funds expended for DOD clandestine activities to support operational preparation of the environment.

Requires a report on foreign malign influence campaigns on social media platforms targeting elections for federal office.

Rep. Sewell Votes in Favor of Emergency Coronavirus Relief Package and FY2021 Government Spending Bill

U.S. Rep. Terri Sewell (AL-07) voted in favor of H.R. 133 and the Fiscal Year 2021 Omnibus funding bill Monday to provide hospitals, workers, and families relief from the COVID-19 pandemic and ensure the government is funded through fiscal year 2021.

“It’s been more than eight months since Republicans have met Democrats at the negotiating table to provide our families, small businesses, frontline health care workers, and schools with the resources they need to weather the

COVID-19 pandemic. While this bipartisan agreement is a compromise on many issues, this emergency funding cannot come soon enough to those struggling in Alabama and across the country from the devastating fallout of this virus,” Rep. Sewell said. “This bill is far from perfect, but Alabamians cannot wait any longer for relief. Once President-Elect Joe Biden is sworn in, Congress must consider a further relief package that includes more support for families, as well as essential resources for state and local governments struggling to support frontline employees, including our firefighters and police, and provide vital community resources.”

“I am also glad that the House passed the bipartisan FY2021 Omnibus Spending bill to fund the government for next year. In these uncertain times, it is more important than ever to keep the government funded and open,” said Rep. Sewell. “This legislation includes additional funding for issues important to the 7th Congressional District, including health care, wastewater infrastructure, civil rights historic preservation, and our HBCUs.”

Critically, the H.R. 133 will provide \$166 billion for economic impact payments, providing \$600 stimulus direct payments per adult and child. These payments will be given to individuals making up to \$75,000 a year and couples making up to \$150,000 a year. This means a family of four would receive a payment of \$2,400.

H.R. 133 also:

- Extends the eviction moratorium through January 31, 2021, and provides \$25 billion for emergency rental assistance.
- Extension of Unemployment Assistance through March 14, 2021, including a supplemental \$300 per week payment.
- Provides \$13 billion for increased SNAP food assistance, child nutrition benefits, and support for food banks.

Also included in H.R. 133 and the omnibus funding bill are five pieces of legislation that Rep. Sewell has sponsored to improve health care delivery in rural and underserved areas and bring economic opportunity to the 7th District:

- H.R. 1052, the Physician Assistant Direct Payment Act, allows physician assistants to be directly compensated by Medicare in order to expand their role as medical providers in underserved communities. Not only will this increase access to health care in underserved communities, but it also saves money.
- H.R. 8892, the Rural-Urban Physician Workforce Act of 2020, helps rural and urban hospitals partner to help produce the next generation of doctors and meet our community’s health care needs.
- H.R. 1763, the Resident Physician Shortage Reduction Act, is partially included in the bill. Today’s bill will add 1,000 new medical residency slots in 2021, increasing the number of trained doctors to meet growing demand. It will also help provide hospitals and health centers the tools they need to increase access, lower wait times for patients and create a pipeline of qualified medical professionals to serve Americans’ health needs. This is the first addition of residency slots since 1997.

- The partial inclusion of Rep. Sewell’s H.R. 1680, the New Markets Tax Credit Extension Act, to extend the New Markets Tax Credit (NMTC) for 5 years, at an allocation level of \$5 billion. The NMTC spurs private investment in low-income rural communities and urban neighborhoods by providing tax credits for private investments made in underserved communities.
- H.R. 5156, the Carbon Capture and Sequestration Extension Act, expands incentives for businesses across a range of industries to invest in state-of-the-art technologies to lower carbon emissions from existing power plants by extending the 45Q tax credit for carbon capture.

In addition to those listed above, H.R. 133 also includes the following provisions:

Health Care Provisions

- \$20 billion for the procurement of COVID vaccines and therapeutics, \$9 billion to the Center for Disease Control and States for vaccine distribution, and \$3 billion to improve the strategic national stockpile.
- \$22 billion to the States for COVID testing, tracing, and mitigation programs. This includes \$2.5 billion for grants targeted to underserved, minority, and rural communities.
- \$9 billion to support healthcare providers, \$1 billion for the National Institutes of Health (NIH) COVID research, and \$4.5 billion for mental healthcare.

Business Support

- \$284 billion for the Small Business Administration for first and second forgivable PPP loans for small businesses. The bill also expands PPP eligibility for nonprofits and modifies the PPP program to better serve the smallest businesses and independent restaurants.
- \$9 billion in emergency capital investments in Community Development Financial Institutions and Minority Depository Institutions to support lending in low-income and persistent poverty counties. An additional \$3 billion to the Community Development Financial Institution Fund to alleviate the economic impact on underserved low-income and minority communities.
- \$13 billion to support struggling farmers, ranchers, and fisheries.
- Much needed funding for our transportation section, including \$45 billion for public transit, buses, airports, and airlines.

Education, Childcare, and Student Loan Relief

- An extension of student loan forbearance through April 1st of next year.

- Expansion of Pell Grants to 500,000 new recipients.
- \$82 billion for education funding, including \$54.3 billion dedicated to the Elementary and Secondary School Emergency Relief Fund, \$22.7 billion dedicated to the Higher Education Relief Fund, and \$4.05 billion for the Governor's Fund. This includes \$1.7 billion for HBCUs, tribal colleges, and minority-serving institutions.
- \$10 billion to support childcare providers through the CCDBG program, and \$20 million for the Head Start program.

Additional Provisions

- Extension of the CARES Act Coronavirus Relief Fund until December 31st, 2021 to give states and localities more flexibility to allocate emergency resources.
- \$7 billion for broadband, including \$3.2 billion to help low-income families afford broadband connectivity, and \$250 million for telehealth.

And below are some provisions and funding included in the FY21 Omnibus Bill important to Alabama's 7th Congressional District, including:

Health Care

- Ends surprise billing by ensuring patients are only responsible for their in-network cost-sharing amounts when patients cannot choose an in-network provider. Also prohibits certain providers from balance billing patients, and creates a new framework that protects patients and allows providers and insurers to resolve payment disputes without involving the patients.
- Extension of key Medicare programs, including funding for low-income Medicare beneficiary outreach, enrollment, and education activities, the Independence at Home demonstration, Medicare patient IVIG access demonstration project, and transitional coverage and retroactive Medicare Part D coverage for certain low-income beneficiaries.
- Increases the use of real-time benefit tools to lower Medicare beneficiary costs and requires Part D plan sponsors to implement real-time benefit tools (RTBT) that are capable of integrating with provider electronic prescribing (e-prescribing) and electronic health record (EHR) systems.
- Simplifies Medicare beneficiary enrollment and eliminates coverage gaps in Medicare by requiring that Part B insurance coverage begin the first of the month following an individual's enrollment and provides for a Part A and Part B Special Enrollment Period for "exceptional circumstances" to mirror authority in Medicare Advantage and Medicare Part D.
- Extends the Rural Community Hospital Demonstration (RCHD) by five years. The demonstration tests the feasibility and advisability of establishing "rural community hospitals" to furnish covered inpatient hospital

services to Medicare beneficiaries in states with low population densities. Participating hospitals are mostly paid using reasonable cost-based methodology instead of the inpatient prospective payment system.

- Ensures that state Medicaid programs cover nonemergency medical transportation to necessary services.
- Eliminates Medicaid Disproportionate Share Hospital (DSH) cuts to our hospitals.
- Creation of new voluntary Medicare payment designation that provides more flexibility to rural hospitals to access funding.

Tax and Trade

- 5 year extension of the New Markets Tax Credit.
- Earned Income Tax Credit (EITC) and Child Tax Credit (CTC) special provision to allow taxpayers to refer to earned income in 2019.
- Reforms Tax Extender process to provide certainty for small businesses.
- Fix to USMCA Merchandise Processing Fee to support automakers.
- Re-established NADBank status to promote environmental clean-up and conservation efforts in North America..

Worker and Family Support

- Extension of the Temporary Assistance for Needy Families program through FY2021.
- Includes the Supporting Foster Youth and Families through the Pandemic Act.

Agriculture

- \$1.45 billion for rural water and wastewater program loans, and \$620 million in water and wastewater grants.
- \$730 million in broadband expansion for rural education and healthcare services. \$635 million for the ReConnect rural broadband program.
- \$1.4 billion for rental assistance for affordable housing for elderly and low-income families in rural communities.
- \$6 billion for the WIC nutrition program and \$114 billion for the SNAP food program.
- \$1.824 billion for farm programs, including \$5 million to heirs property farmland issues.

Commerce, Justice, and Science

- \$346 million for the Economic Development Administration, including \$2 million for STEM apprenticeships.
- \$48 million for the Minority Business Development Agency to support minority businesses around the country.
- \$13.5 million for the Emmitt Till Unsolved Civil Rights Crimes Reauthorization Act.
- The creation of a new Task Force on Law Enforcement Oversight to be composed of representatives from the DoJ, law enforcement, labor, and community-based organizations to address alleged law enforcement misconduct.
- \$3.385 billion for grants to state and local law enforcement, including \$484 million for Byrne JAG, and \$386 million for the Community Oriented Policing Services (COPS) program.
- \$513 million for Violence Against Women Act programs.
- \$23 billion for the National Aeronautics and Space Administration (NASA).

Defense

- 3% military pay raise for our service members.
- \$335.5 million for the Department and Services' Sexual Assault Prevention and Response program.

Energy and Water

- \$180 million for the Appalachian Regional Commission to promote economic development and critical infrastructure.

Financial Services

- \$270 million for Community Development Financial Institutions (CDFI) fund.
- \$17 million for the Election Assistance Commission to increase support to state efforts to ensure security and accessibility of Federal elections.
- \$33 million to the FCC to improve broadband mapping data.
- \$778.9 million for the Small Business Administration.

Homeland Security

- \$2 billion for the Cybersecurity and Infrastructure Security Agency (CISA).
- \$21.67 billion for the Federal Emergency Management Agency (FEMA), including \$17 billion for disaster response and recovery efforts.

Interior

- \$21.125 million to preserve the sites and stories of the Civil Rights Movement.
- \$10 million to HBCUs for historic preservation.
- \$9.24 billion for the Environmental Protection Agency (EPA), including \$1.21 billion for the EPA Superfund and \$12.5 million for Environment Justice Activities.

Labor-HHS-Education

- \$185 million for Registered Apprenticeships and \$2.8 billion for Workforce Innovation and Opportunity Act grants.
- \$42.9 billion for the National Institutes of Health (NIH), including \$80 million for research centers in minority institutions.
- \$12.5 million for research on firearm violence prevention.
- \$7.5 billion for the Health Resources and Services Administration (HRSA), including \$2.4 billion for the Ryan White HIV/AIDS program.
- \$5.9 billion for the Child Care and Development Block Grant, and \$10.7 billion for the Head Start Program.
- \$3.8 billion for the Low Income Home Energy Assistance Program (LIHEAP).
- \$62 million for the Office of Minority Health, and \$35 million for the Office of Women's Health.
- \$5 million for public-private partnerships to accelerate and improve the diagnosis and treatment of kidney disease.
- \$40.6 billion for K-12 education programs.
- An increase in the maximum Pell Grant to \$6,495.
- \$338 million for Historically Black Colleges and Universities, including \$2 million for the Center of Education Excellence.
- \$1.1 billion for the TRIO Program.

Veterans Affairs

- \$90 billion for VA medical care, including \$10.3 billion for mental healthcare, of which \$313 million is for suicide prevention efforts.
- \$3.18 billion to address the VA disability claims processing backlog.

Transportation, Housing and Urban Development

- \$1 billion for TIGER/BUILD grants and allows for cost-share waivers for grants in rural and persistent poverty areas.
- \$49.6 billion for the Department of Housing and Urban Development (HUD), including \$200 million for the Choice Neighborhoods Initiative.
- \$3.5 billion for Community Development Block Grants.

Rep. Sewell Legislation Renaming Thomasville Post Office in Honor of Postmaster Robert Ingram Signed Into Law

U.S. Rep. Terri Sewell (AL-07) announced today that legislation she sponsored to honor the legacy of former Postmaster Robert Ingram by renaming the facility of the United States Postal Service located at 115 Nicol Avenue in Thomasville, Alabama, as the Postmaster Robert Ingram Post Office was signed into law.

“Postmaster Ingram served the Thomasville community for over 30 years, first as a Marine and later as Postmaster,” Rep. Sewell said. “He was a beloved public servant who not only dedicated himself to his own job, but also to the training of new postmasters. The Postmaster Robert Ingram Post Office is a fitting reminder of Mr. Ingram’s immense impact on the community.”

“The family is deeply grateful for the recognition of Bob Ingram’s commitment to and love for his community,” said Mr. Ingram’s son, Bobby Ingram. “This acknowledgement will allow his legacy to continue for years to come.”

“Bob was a fixture in our community. Every man, woman, and child knew him, his warm smile and happy greeting every time he entered the Thomasville post office,” said Thomasville Mayor Sheldon Day. “Bob was a true example of what it means to be a public servant, and this is a fitting tribute to the legacy of his humble and dedicated service to our city.”

Section I GENERAL GRANT INFORMATION

- Grants and Federal Domestic Assistance - Guidance and key resources to help eligible constituents find information on federal grants, loans, and nonfinancial assistance for projects, as well as on private funding. Prepared by the Congressional Research Service for Members of Congress, updated May 2014. Website: <http://sewell.house.gov/grant-information/>
- A federal grant is an award of financial assistance from a federal agency to a recipient to carry out a public purpose of support or stimulation authorized by a law of the United States. Federal grants are not federal assistance or loans to individuals. A federal grant may not be used to acquire property or services for the federal government's direct benefit. The 26 federal agencies offer over 1,000 grant programs annually in various categories. Website: <http://www07.grants.gov/aboutgrants/grants.jsp>
- To learn about Federal grant opportunities, register your organization, and receive notices, please visit www.grants.gov. It is the resource for all Federal grants.
- To apply for Federal Grants: http://www.grants.gov/applicants/apply_for_grants.jsp

- [Grants.gov](#) Applicant Training Video - Need a quick lesson on how to Register, Find, and Apply? Watch this short video to get tips on registering with Grants.gov; finding grant opportunities; understanding your search results; and, applying for opportunities.
- To learn about foundation grant opportunities, please visit <http://foundationcenter.org/>. The Foundation Center is a gateway to information about private funding sources and provides guidelines about how to write a grant proposal. It also provides links to state libraries with grants reference collections and links to other useful Internet websites.

[Urgent Phase I/II Clinical Trials to Repurpose Existing Therapeutic Agents to Treat COVID-19 Sequelae \(U01 Clinical Trial Required\) CFDA 93.350](#)

The purpose of this urgent funding opportunity announcement is to invite applications to repurpose existing therapeutic agents to treat Coronavirus Disease 2019 (COVID-19) sequelae and associated complications that result from Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) infections. The therapeutic agent must have already completed at least a Phase I clinical trial for a different indication, and not require additional regulatory studies for the new indication prior to starting a clinical trial.

Deadline: January 23, 2021

SARS-CoV-2 (COVID-19) Program Activities CFDA 93.990

The Office of the Assistant Secretary for Health (OASH) has established the Laboratory and Diagnostics Working Group (LDWG) seeking submissions to a Broad Agency Announcement (BAA) “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” (Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139)). OASH/LDWG seeks proposals for projects that will further enable the coordination and development of testing and associated products that meet the current and future needs, and the effective transition of technology into broad use without impediments. The primary areas of focus should specifically include (1) Scaling and Networking of Technologies, and (2) Testing Demonstrations & Technical Assistance. Specifically, OASH is interested in submissions that will substantially increase our testing capacity and quality in the near term, and do not fall within the scope of other HHS programs.

When posted, the funding opportunity announcement (FOA) will provide guidance for applicants on the submission of short white papers, which after review, may be followed by full proposal submissions for consideration for funding. Applicants will have the option of forgoing the white paper submission for direct submission of a full proposals. Applications will be accepted and reviewed on a rolling basis to address immediate public needs. Applicants must submit white papers and applications through Grants.gov according to the instructions in the FOA. Applicants must have an active SAM registration at the time of submission and maintain an active registration throughout the review process and during any award that may result.

BACKGROUND: On January 31, 2020, HHS Secretary Alex M. Azar II declared a public health emergency in response to the 2019 novel coronavirus, now known as SARS-CoV-2, or COVID-19. Testing is vital to prevent and contain outbreaks that may occur as economic and social activities expand across the country. Accordingly, the Paycheck Protection Program and Healthcare Enhancement Act (P.L. 116-139) provides funding to HHS to “to prevent, prepare for, and respond to coronavirus, domestically or internationally, for necessary expenses to research, develop, validate, manufacture, purchase, administer, and expand capacity for COVID–19 tests to effectively monitor and suppress COVID–19...” As part of the response to this requirement, and in order to administer agency actions to mitigate the pandemic, the Office of the Assistant Secretary for Health (OASH) Laboratory and Diagnostics Working Group (LDWG) complements existing efforts within the Department. To meet current and future challenges with the least possible risk, the nation needs more testing - with increasingly diverse, accurate, and affordable platforms – that are tailored to specific use cases.

Deadline: TBD

Announcement to Support Novel, High-Impact Studies Evaluating Health System and Healthcare

Professional Responsiveness to COVID-19 (CFDA 93.226)

The health systems research community should prepare to submit applications to AHRQ to fund critical research focused on evaluating topics such as innovations and challenges encountered in the rapid expansion of telemedicine in response to COVID-19, effects on quality, safety, and value of health system response to COVID-19, and the role of primary care practices and professionals during the COVID-19 epidemic. AHRQ is particularly interested in understanding how digital health innovations contributed to health system and healthcare professional innovation and challenges and solutions to meeting the needs of vulnerable populations including older adults, people living with multiple chronic conditions, rural communities, and uninsured and underinsured populations.

Emergency Awards: Rapid Investigation of Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) and Coronavirus Disease 2019 (COVID-19) (R21 Clinical Trial Not Allowed)(CFDA 93.855)

The purpose of this Funding Opportunity Announcement (FOA) is to provide an expedited (rapid) funding mechanism for research on Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) and Coronavirus Disease 2019 (COVID-19)

Deadline: April 29, 2021

Limited Competition Emergency Awards: Shared Personal Protective Equipment Resources for COVID-19 Related Vaccine and Treatment Clinical Trials and Clinical Studies (S10 Clinical Trial Not Allowed) CFDA 93.855

The purpose of this public health emergency funding opportunity is to provide Personal Protective Equipment (PPE) to directly support the needs of the NIAIDs vaccine and treatment clinical trials and clinical studies for COVID-19. This program will ensure that adequate protective equipment is available to directly assist in safely carrying out the clinical activities and direct interactions with the patients participating in the trial. Eligibility is limited to recipients conducting COVID-related clinical research and clinical studies supported by NIAIDs

emergency appropriation provided by The Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 and The Coronavirus Aid, Relief and Economic Security (CARES) Act.

Deadline: July 01, 2021

Department of Homeland Security

Department of Defense

Department of State

COVID-19 Private Sector Engagement & Partnership Fund

The U.S. Department of State, Office of Global Partnerships (E/GP) is pleased to announce the COVID-19 Private Sector Engagement & Partnership Fund (Fund) Annual Program Statement (APS) that will be used to make assistance awards. This APS is being done in partnership with the U.S. Agency for International Development and concept papers may be transferred to the Agency based upon a determination of suitability for award and administration. USAID's policies and procedures will apply to concept papers that are transferred to the Agency. This APS utilizes a two-step process. Applicants must first submit a concise (5-page) concept paper designed to clearly communicate their program idea and objectives. This is not a full proposal. The purpose of the concept paper is to allow applicants to submit program ideas for evaluation prior to requiring the development of a full proposal application. After merit review of eligible concept papers, selected applicants will be invited to expand on their program idea(s) by submitting a full proposal application. Full proposals will go through a second merit review before a final funding decision is made. E/GP has outlined the process through which potential applicants may apply in Appendix 1 to this APS.

National Aeronautics and Space Administration

ROSES 2020: Science Team for the OCO Missions

The National Aeronautics and Space Administration (NASA) Science Mission Directorate (SMD) released its annual omnibus Research Announcement (NRA), Research Opportunities in Space and Earth Sciences (ROSES) – 2020 (OMB Approval Number 2700-0092, CFDA Number 43.001) on February 14, 2020. In this case "omnibus" means that this NRA has many individual program elements, each with its own due dates and topics. All together these cover the wide range of basic and applied supporting research and technology in space and Earth sciences supported by SMD. Awards will be made as grants, cooperative agreements, contracts, and inter- or intra-agency transfers, depending on the nature of the work proposed, the proposing organization, and/or program requirements. However, most extramural research awards deriving from ROSES will be grants, and many program elements of ROSES specifically exclude contracts, because contracts would not be appropriate for the nature of the work solicited. The typical period of performance for an award is three years, but some programs may allow up to five years and others specify shorter periods. In most cases, organizations of every type, Government and private, for profit and not-for-profit, domestic and foreign (with some caveats), may submit proposals without restriction on teaming arrangements. Tables listing the program elements and due dates, the full text of the ROSES-2020 solicitation, and the "Summary of Solicitation" as a stand-alone document, may all be found NSPIRES at <http://solicitation.nasaprs.com/ROSES2020>.

This synopsis is associated with one of the individual program elements within ROSES, but this is a generic summary that is posted for all ROSES elements. For specific information on this particular program element download and read the PDF of the text of this program element by going to Tables 2 or 3 of this NRA at <http://solicitation.nasaprs.com/ROSES2020table2> and <http://solicitation.nasaprs.com/ROSES2020table3>, respectively, click the title of the program element of interest, a hypertext link will take you to a page for that particular program element. On that page, on the right side under "Announcement Documents" the link on the bottom will be to the PDF of the text of the call for proposals. For example, if one were interested in The Lunar Data Analysis Program (NNH20ZDA001N-LDAP) one would follow the link to the NSPIRES page for that program element and then to read the text of the call one would click on "C.8 Lunar Data Analysis (.PDF)" to download the text of the call. If one wanted to set it into the context of the goals, objectives and know the default rules for all elements within Appendix C, the planetary science division, one might download and read "C.1 Planetary Science Research Program Overview (.PDF)" from that same page. While the letters and numbers are different for each element within ROSES (A.12, B.7, etc.) the basic configuration is always the same, e.g., the letter indicates the Science Division (A is Earth Science, B is Heliophysics etc.) and whatever the letter, #1 is always the overview.

Frequently asked questions for ROSES are posted at <http://science.nasa.gov/researchers/sara/faqs>. Questions concerning general ROSES-2020 policies and procedures may be directed to Max Bernstein, Lead for Research, Science Mission Directorate, at sara@nasa.gov, but technical questions concerning specific program elements should be directed to the point(s) of contact for that particular element, who may be found either at the end of the individual program element in the summary table of key information or on the web list of topics and points of contact at: <http://science.nasa.gov/researchers/sara/program-officers-list>.

Not all program elements are known at the time of the release of ROSES. To be informed of new program elements or amendments to this NRA, proposers may subscribe to: (1) The SMD mailing lists (by logging in at <http://nspires.nasaprs.com> and checking the appropriate boxes under "Account Management" and "Email Subscriptions"), (2) The ROSES-2020 RSS feed for amendments, clarifications, and corrections to at <http://science.nasa.gov/researchers/sara/grant-solicitations/ROSES-2020>, and (3) The ROSES-2020 due date Google calendar. Instructions are at <https://science.nasa.gov/researchers/sara/library-and-useful-links> (link from the words due date calendar).

Deadline: January 13, 2021

National Archives and Records Administration

National Endowment for the Humanities

Short Documentaries CFDA 45.164

The National Endowment for the Humanities (NEH) Division of Public Programs is currently accepting proposals for the Short Documentaries program. The purpose of the program is to support documentary films up to 30 minutes that engage audiences with humanities ideas in appealing ways. The program aims to extend the humanities to new audiences through the medium of short documentary films. Films must be grounded in humanities scholarship. The Short Documentaries program can support single films or a series of thematically-related short films addressing significant figures, events, or ideas. The proposed film(s) must be intended for regional or national distribution, via broadcast, festivals, and/or online distribution. The subject of the film(s) must be related to “A More Perfect Union”: NEH Special Initiative Advancing Civic Education and Commemorating the Nation’s 250th Anniversary.

Deadline: January 06, 2021

Media Projects

The National Endowment for the Humanities (NEH) Division of Public Programs is accepting applications for the Media Projects program. The purpose of this program is to support collaboration between media producers

and scholars to develop humanities content and to prepare documentary film, television, radio, and podcast projects that engage public audiences with humanities ideas in creative and appealing ways. All projects must be grounded in humanities scholarship. Media Projects makes awards at two levels: Development and Production.

Deadline: January 06, 2021

Preservation Assistance Grants for Smaller Institutions

The National Endowment for the Humanities (NEH) Division of Preservation and Access is accepting applications for the Preservation Assistance Grants for Smaller Institutions program. The purpose of this program is to help small and mid-sized institutions improve their ability to preserve and care for their significant humanities collections. The program encourages applications from small and mid-sized institutions that have never received an NEH grant.

Deadline: January 14, 2021

Sustaining Cultural Heritage Collections CFDA 45.149

The National Endowment for the Humanities (NEH) Division of Preservation and Access is accepting applications for the Sustaining Cultural Heritage Collections program. The purpose of this program is to help cultural institutions meet the complex challenge of preserving large and diverse holdings of humanities materials for future generations by supporting sustainable conservation measures that mitigate deterioration, prolong the useful life of collections, and strengthen institutional resilience (i.e., the ability to anticipate and respond to disasters resulting from natural or human activity.)

Deadline: January 14, 2021

Formal Methods in the Field

The Formal Methods in the Field (FMitF) program aims to bring together researchers in formal methods with researchers in other areas of computer and information science and engineering to jointly develop rigorous and

reproducible methodologies for designing and implementing correct-by-construction systems and applications with provable guarantees. FMitF encourages close collaboration between two groups of researchers. The first group consists of researchers in the area of formal methods, which, for the purposes of this solicitation, is broadly defined as principled approaches based on mathematics and logic to system modeling, specification, design, analysis, verification, and synthesis. The second group consists of researchers in the “field,” which, for the purposes of this solicitation, is defined as a subset of areas within computer and information science and engineering that currently do not benefit from having established communities already developing and applying formal methods in their research. This solicitation limits the field to the following areas that stand to directly benefit from a grounding in formal methods: computer networks, distributed/operating systems, embedded systems, human centered computing, and machine learning. A proposal pursuing a different field area must make a strong case for why the field area of interest is one that does not currently benefit from formal methods but would be a strong candidate for inclusion as a field area.

The FMitF program solicits two classes of proposals:

Track I: Research proposals: Each proposal must have at least one Principal Investigator (PI) or co-PI with expertise in formal methods and at least one with expertise in one or more of these fields: computer networks, distributed/operating systems, embedded systems, human centered computing, and machine learning. Proposals are expected to address fundamental contributions to both formal methods and the respective field(s) and should include a proof of concept in the field along with a detailed evaluation plan that discusses intended scope of applicability, trade-offs, and limitations. All proposals are expected to contain a detailed collaboration plan that clearly highlights and justifies the complementary expertise of the PIs/co-PIs in the designated areas and describes the mechanisms for continuous bi-directional interaction. Projects are limited to \$750,000 in total budget, with durations of up to four years.

Track II: Transition to Practice (TTP) proposals: The objective of this track is to support the ongoing development of extensible and robust formal-methods research prototypes/tools to facilitate usability and accessibility to a larger and more diverse community of users. These proposals are expected to support the development, implementation, and deployment of later-stage successful formal methods research and tools into operational environments in order to bridge the gap between research and practice. A TTP proposal must include a project plan that addresses major tasks and system development milestones as well as an evaluation plan for the working system. Proposals are expected to identify a target user community or organization that will serve as an early adopter of the technology. Collaborations with industry are strongly encouraged. Projects are limited to \$100,000 in total budget, with durations of up to 18 months.

Deadline: February 14, 2021

**[Innovation Corps - National Innovation Network
Teams Program \(I-Corps TM Teams\) – \(CFDA
47.041, 47.049, 47.050, 47.070, 47.074, 47.075, 47.076,
47.079, 47.083\)](#)**

The National Science Foundation (NSF) seeks to develop and nurture a national innovation ecosystem that builds upon fundamental research to guide the output to facilitate the application of scientific discoveries closer to the development of technologies, products, and processes that benefit society. To maintain, strengthen and grow a national innovation ecosystem, NSF has established the Innovation Corps - National Innovation Network Teams Program (I-Corps Teams). The NSF I-Corps Teams Program's purpose is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate innovation that can attract subsequent third-party funding. The purpose of the I-Corps Teams program is to identify NSF-funded researchers who will receive additional support in the form of entrepreneurial education, mentoring and funding to accelerate the translation of knowledge derived from fundamental research into emerging products and services that can attract subsequent third-party funding. The outcomes of I-Corps Teams projects will be threefold: 1) a clear go/no go decision based on an assessment of the viability of the overall business model, 2) substantial first-hand evidence for or against a product-market fit, with a pithy definition of the customer segments and corresponding value propositions, and 3) a narrative of a compelling technology demonstration for potential partners. WEBINAR: A webinar will be held monthly to answer questions about this program. Details will be posted on the I-Corps website (see http://www.nsf.gov/news/special_reports/i-corps/program.jsp) as they become available.

Deadline: Proposals accepted at anytime

Cyberinfrastructure for Emerging Science and Engineering Research – (CFDA 41.070)

The Cyberinfrastructure for Emerging Science and Engineering Research (CESER) program aims to catalyze new science and engineering discovery pathways through early-stage collaborative activities between disciplinary scientists and engineers as well as developers/implementers of innovative cyberinfrastructure (CI) capabilities, services, and approaches. Beginning in FY 2017, the CESER program replaced the Strategic Technologies for Cyberinfrastructure (STCI) program. CESER has retained STCI's focus on supporting innovation across the CI ecosystem with increased emphasis on addressing and enabling emerging areas of potentially transformative research, including NSF priority areas, national strategic directions, and international collaborative research. CESER accepts proposals according to this Program Description year-round. From time to time, NSF may also issue Dear Colleague Letters according to CESER to signal special thematic interests and opportunities. CESER employs existing NSF funding mechanisms to accomplish the program's goals such as Early-concept Grants for Exploratory Research (EAGER) and Conference proposals. GUIDANCE TO POTENTIAL PROPOSERS Science/engineering-driven collaboration. A central feature of successful CESER projects is a strong, mutually-dependent collaborative team comprising expertise in the target science/engineering discipline(s) as well as expertise in CI development and implementation. Such a collaborative approach is critical to informing and guiding the development of requirements towards the eventual development and deployment of user-centric innovative CI that fosters new pathways to discovery. Proposals according to CESER should identify and describe the science and engineering goals and rationale, and explain and support the potential for transformative impacts on science/engineering research and broader impacts. Proposals for technical efforts that are not well-tied to identified science and engineering research challenges as well as utilization scenarios are unlikely to be supported. Exploratory and pilot activities. CESER supports early-stage exploratory efforts that may comprise analysis, community planning, and pilot-level

activities that are preparatory or informative for eventual future development and deployment of science/engineering-driven CI. Proposals for full-scale technical efforts leading to development/deployment should be directed to other appropriate NSF programs. Integrative and accelerative approaches. Proposals have particularly welcomed that address identified common needs across multiple research disciplines; leverage and accelerate the impact of existing CI investments in resources and services in one or more application domains; aim to reduce barriers to broader adoption of CI-enabled science/engineering approaches, and integrate different aspects and elements of CI to achieve holistic solutions with transformative science/engineering impact. The requirement to contact NSF Cognizant Program Officers. CESER is an inherently collaborative science/engineering-CI program. Successful CESER projects typically involve co-funding from the relevant disciplinary research programs within NSF. Consequently, before submitting a proposal to CESER, proposers must first (1) discuss their ideas with a cognizant CESER Program Officer to ensure that CESER is the appropriate venue for the proposal and (2) discuss their ideas with the relevant NSF disciplinary science and engineering research program(s) to ensure there is adequate disciplinary interest in the proposed effort. Proposals that have been declined by CESER or any other NSF program may not be resubmitted to CESER without substantial revision. Proposals violating this restriction may be returned without review

Deadline: Proposals accepted anytime

High-Risk Research in Biological Anthropology and Archaeology – (CFDA 47.075)

Anthropological research may be conducted under unusual circumstances, often in distant locations. As a result, the ability to conduct potentially important research may hinge on factors that are impossible to assess from a distance and some projects with potentially great payoffs may face difficulties in securing funding. This program gives small awards that provide investigators with the opportunity to assess the feasibility of an anthropological research project. It is required that the proposed activity be high risk in nature. The information gathered may then be used as the basis for preparing a more fully developed research program. Investigators must contact the cognizant NSF Program Director before submitting an HRRBAA proposal. This will facilitate determining whether the proposed work is appropriate for HRRBAA support.

Deadline: Proposals accepted anytime

Broadening Participation in Engineering – (CFDA 47.041)

NSF seeks to strengthen the future U.S. Engineering workforce by enabling the participation of all citizens through the support of research in the science of Broadening Participation in Engineering (BPE). The BPE program is dedicated to supporting the development of a diverse and well-prepared engineering workforce. BPE focuses on enhancing the diversity and inclusion of all underrepresented populations in engineering, including gender identity and expression, race and ethnicity (African Americans/Blacks, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders), disability, LGBTQ+, first-generation

college, and socio-economic status. BPE funds research to Understand and analyze the systemic barriers that prevent underrepresented groups from pursuing and succeeding in engineering, for example, understand the problem of insufficient interest and poorly sustained participation in engineering across underrepresented demographic groups; insignificant preparation and scarce opportunities for members of underrepresented groups to learn meaningful, relevant engineering content. Understand and analyze factors that enhance our ability to increase access to engineering by creating support systems and social networks that raise career awareness about different engineering pathways. Develop innovative methods and projects to significantly impact the recruitment and retention of engineering students from underrepresented groups. Activities must be supported by relevant data and have the capability to produce a model that can be replicated in other contexts. Develop innovative methods and projects to aggressively recruit and retain tenure track faculty from underrepresented groups. Design and transform a culture to make diversity, equity, and inclusion a priority in the engineering enterprise. BPE research activities will provide scientific evidence that engineering educators, employers, and policymakers need to make informed decisions to design effective programs that broaden the participation of persons from historically underrepresented groups in the engineering workforce. BPE is interested in funding research that spans K-12 to the workforce and offers the greatest return on investment. BPE funded research should produce outcomes that are scalable, sustainable, and applicable to various contexts, settings, and demographics within the engineering enterprise. BPE is particularly interested in research that employs intersectional approaches in recognition that gender, race, and ethnicity do not exist in isolation from each other and other categories of social identity. BPE is equally interested in research activities that align with and provide meaningful connections to the NSF INCLUDES National Network. The overarching goal of NSF INCLUDES is to achieve a significant impact at scale in transforming STEM education and workforce development by educating a diverse, STEM-capable workforce that includes talented individuals from all sectors of the Nation & apos;s population. Collaborations are encouraged between BPE proposals and existing NSF INCLUDES projects, for example, the NSF INCLUDES Alliances and Coordination Hub, provided these collaborations to strengthen both the BPE and NSF INCLUDES projects. Before submitting a proposal to the BPE program, prospective Principal Investigators are strongly encouraged to speak to the program director to obtain guidance as to whether the proposed ideas are aligned with the strategic goals of the BPE program.

Proposal Elements All BPE proposals should Be informed by the current theoretical and scientific literature as well as add to the extant knowledge base. Directly address how the work will broaden the participation of one or more underrepresented populations in engineering. Provide appropriate justification to support the selection of the targeted group(s), with specific and applicable objectives, and demonstrate applicable knowledge of the relevant literature on underrepresentation. Integrate a mechanism to assess and evaluate how well the project has achieved the stated objectives as part of the project management plan. Provide evidence of clear, measurable outcomes and consideration of how the strategy will advance knowledge beyond localized contexts. Incorporate a dissemination plan that goes beyond publishing research papers and presenting at conferences. PIs should think creatively about who needs to hear about the research for it to have an impact and develop a strategy to reach that audience. Describe how the outcomes have the potential to enhance the diversity and inclusion of underrepresented populations in engineering. The Project Summary must contain a list of 3-5 keywords. Place the keywords on a separate line at the end of the Overview section of the Project Summary.

Deadline: Proposals accepted anytime

Critical Aspects of Sustainability – (CFDA 47.041, 47.049, 47.050)

Economic development and human progress have led to a proliferation of manufactured chemicals and materials made from limited resources found in nature (i.e., minerals and metals, petroleum-based products and natural gas). Long-term sustainability requires consideration of the availability of specific natural resources, energy, and water usage. NSF continues to support efforts that seek to improve the efficiency with which natural resources are used to meet human needs for products and services. Sustainability research encompasses the design, manufacture, and use of efficient, effective, safe and more environmentally-benign products and processes; stimulates innovation across all sectors to design and discover new chemicals and materials, production processes, and product stewardship practices; and, increases performance and value while meeting the goals of protecting and enhancing human health and the environment. This program seeks to support basic research through core disciplinary programs aimed at improving the sustainability of resources for future generations while maintaining or improving current products to offer technologically-advanced, economically competitive, environmentally-benign and useful materials to a global society. To address these challenges, the program aims to identify opportunities for innovation in a wide range of contributing disciplines as well as integrative activities. This program encourages the development of new experimental and theoretical/modeling approaches that will aid in both reductionist and whole-systems approaches. This program welcomes proposals in any area of research supported through the participating divisions that address the topics outlined below. The selected topics are of particular interest to core disciplinary programs in the participating divisions and do not include all funding opportunities and priorities in the area of sustainability at NSF. Proposals are submitted to the relevant core Programs indicated below in the participating Divisions, and all questions regarding proposals should be addressed by the cognizant Program Officers to which submission is contemplated. Proposals should be submitted with the "CAS:" prefix in the title. The Division of Chemistry (CHE/MPS) welcomes proposals to its Disciplinary Research Programs, including Chemical Catalysis (CAT), Chemical Measurement and Imaging (CMI), Chemical Structure, Dynamics and Mechanisms-A (CSDM-A), Chemical Structure Dynamics and Mechanisms-B (CSDM-B), Chemical Synthesis (SYN), Chemical Theory, Models and Computational Methods (CTMC), Chemistry of Life Processes (CLP), Environmental Chemical Sciences (ECS), and Macromolecular, Supramolecular and Nanochemistry (MSN). All proposals must be on the chemical aspects of sustainability. The design, preparation and reactivity studies associated with new catalysts and catalytic processes that employ earth-abundant and benign elements and raw materials; advanced catalytic methods for the reduction of dinitrogen to ammonia and water splitting are also invited; Grant Opportunities for Academic Liaison with Industry (GOALI) proposals, where such advances are connected directly to industrial considerations, are also encouraged. Understanding the molecular mechanisms of the two-way communication between the environment and living systems as well as between organisms situated in changing environments; design and test methods that could confer resilience and/or could foster adaptability of living systems subject to changing environments. Innovative measurement and imaging approaches that can improve the efficiency of manufacturing processes, including advances in separation science targeting reduced energy consumption or generation of less waste. Fundamental studies related to sustainable energy such as chromophores based on earth-abundant elements, advanced electrolytes for battery, water splitting, and carbon dioxide conversions. Understanding the environmental chemical degradation of contaminants, including emerging contaminants. Transformative approaches to the efficient and inexpensive synthesis of polymers or nanostructures using renewable feedstocks or earth-abundant elements; and innovative research that enhances the understanding of

efficient use and recycling of polymers and critical elements or the conversion of energy from renewable sources. The development of new synthetic methods using earth-abundant and inexpensive chemicals, fundamental studies that improve our understanding of rare earth elements; the conversion of non-petroleum-based resources into useful building blocks; and new environmentally-friendly chemical syntheses that improve on current practice by requiring less energy, freshwater, reagents, and/or organic solvents. Other CHE programs also welcome proposals on this general topic, as long as the proposals fit the scope of the program. All questions regarding proposals to CHE should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see CHE Program webpages,

<https://www.nsf.gov/funding/programs.jsp?org=CHE>). The Division of Materials Research (DMR/MPS) welcomes proposals to its Topical Materials Research Programs, including Biomaterials (BMAT), Ceramics (CER), Condensed Matter and Materials Theory (CMMT), Condensed Matter Physics (CMP), Electronic and Photonic Materials (EPM), Metals and Metallic Nanostructures (MMN), Polymers (POL), and Solid State and Materials Chemistry (SSMC). All proposals must be on materials aspects of sustainability and focused on fundamental materials-research approaches. CER, CMMT, EPM, MMN, and SSMC will consider proposals on all materials aspects of sustainability. BMAT encourages proposals that take advantage of synthetic biology or other innovative and sustainable approaches (e.g., renewable, recyclable, environmentally benign). CMP encourages proposals on replacing rare-earth elements in magnetic materials with more abundant and accessible elements; also, proposals exploring materials alternatives to oxides for nuclear reactor fuel, aiming at improved stability and properties (e.g., thermal conductivity) and decreased environmental impact. POL welcomes proposals that address plastics waste accumulation through innovative materials approaches and environmentally benign polymeric materials having properties exceeding those of current commercial plastics. All proposals must be submitted through one of the active solicitations of the DMR Topical Materials Research Programs (currently NSF 17-580, 18-500, and 19-515) and must follow the deadlines, instructions, and limitations of these solicitations. Proposals that are not following these guidelines or that fall outside the scope of DMR and its Topical Materials Research Programs will be returned without review. All questions regarding proposals to DMR should be addressed to the cognizant Program Officers for the Program to which submission is contemplated (see DMR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=DMR>). The Chemical, Bioengineering, Environmental and Transport Systems Division (CBET/ENG) has several core programs that review proposals on research topics related to sustainability, including Molecular Separations (MoIS), Biosensing, Environmental Sustainability (EnvS), Biological and Environmental Interactions of Nanoscale Materials (BioNano), Combustion and Fire Systems (CFS), and Particulate and Multiphase Processes (PMP). Within these programs, as noted, the following topics are of particular interest: Understanding the fundamental combustion properties of sustainable aviation fuels under engine relevant conditions. (CFS) Fundamental studies leading to effective methods of processing multiphase fluid systems that minimize waste, avoid contamination, enhance the purity, or lead to novel materials that benefit efficient energy utilization. (PMP) The development of innovative separation mechanisms, mass separating agents, or engineering processes that aim to substantially reduce energy and/or material consumption in the chemical process industries. (MoIS) Fundamental mechanistic investigations for the development, sustainable production and use of nanomaterials, nanoparticles, nanodevices, and nanosystems. (BioNano) Biosensing systems with inherent capabilities of artificial intelligence, machine learning, and decision making for applications in real-time monitoring of environmental and living systems and in evaluating environmentally benign chemicals and materials. (Biosensing) Industrial Ecology: Topics of interest in Industrial Ecology include advancements in modeling such as life cycle assessment, materials flow analysis, input/output economic models, and novel metrics for measuring sustainable systems. Innovations in industrial ecology are encouraged. (EnvS) Green

Engineering: Research is encouraged to advance the sustainability of manufacturing processes, green buildings, and infrastructure. Improvements in distribution and collection systems that will advance smart growth strategies and ameliorate effects of growth are supported. Innovations in the management of stormwater, recycling and reuse of drinking water, and other green engineering techniques to support sustainability may also be fruitful areas for research. (EnvS) Ecological Engineering: Topics should focus on the engineering aspects of restoring ecological function to natural systems. Engineering research in the enhancement of natural capital to foster sustainable development is encouraged. (EnvS) Earth Systems Engineering: Earth systems engineering considers aspects of large-scale engineering research that involve mitigation of greenhouse gas emissions, adaptation to climate change, and other global-scale concerns. (EnvS) All questions regarding proposals to CBET should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CBET Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CBET>). For the Division of Civil, Mechanical, and Manufacturing Innovation (CMMI/ENG), proposals addressing sustainable materials processing are welcome. Of interest are manufacturing processes with reduced use of toxic components, such as solvents, carbon emissions, and pollutants; processes under ambient conditions, as opposed to extreme temperatures, pressures or other harsh conditions; and increased conservation of natural resources, such as water, raw material, and energy. Proposals to CMMI must be submitted to the Advanced Manufacturing (AM) Program and align with the scope of the program. All questions regarding proposals to CMMI should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see CMMI Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=CMMI>). The Division of Earth Sciences (EAR/GEO) welcomes fundamental and transformational geosciences projects addressing the distribution of Critical Minerals and Materials in the Earth. The following programs in the division support research on this topic: Petrology and Geochemistry (CH), Geobiology and Low-Temperature Geochemistry (GG), and Frontier Research in Earth Sciences (FRES). Topics of particular interest include fundamental studies of the geochemistry of Critical Earth Minerals and Materials (CMM), such as: Identifying new sources of critical minerals on the Earth's surface; Constraining their pathways in the natural environment involving concentration by Earth and geobiological processes, and Developing methods for sustainable exploration of these CMMs. Studies can be based on laboratory, field, or modeling efforts, and should have a strong emphasis on training the next generation of geoscientists and educating the public on the importance of CMM. Proposals must be submitted through one of the active solicitations of the three programs and must follow the deadlines and guidelines of these solicitations. All questions regarding proposals to EAR should be addressed to the cognizant Program Officers for the participating Program to which submission is contemplated (see EAR Program webpages, <https://www.nsf.gov/funding/programs.jsp?org=EAR>).

Deadline: Proposals accepted anytime

Small Business Administration

Program for Investment in Microentrepreneurs (PRIME) – CFDA 59.050

SBA intends to award a discretionary grant to the National Association of Government Guaranteed Lenders (NAGGL) to provide SBA 7(a) training to nonprofit lenders participating in the SBA Community Advantage Pilot Loan Program (CA). NAGGL has extensive experience with providing training to lenders on SBA's 7(a) loan product in the areas of loan origination, loan servicing, and loan liquidation. This discretionary grant will serve as a proof of concept to explore the success of regional training to mission lenders participating in CA. These training needs have been identified by SBA's Office of Credit Risk Management to increase the performance level of lenders participating in the CA program. SBA will work closely with NAGGL in shaping the project as it is implemented and will draw lessons learned from its implementation and use that insight and experience in deciding whether or not to continue the initiative in a permanent form, which we would then do via the standard competitive process for awarding grants.

Deadline: Open

U.S. Department of Agriculture

Agriculture Risk Management Education Partnerships (ARME) Competitive Grants Program CFDA 10.520

The purpose of the Agriculture Risk Management Education Partnerships Competitive Grants Program (ARME), Assistance Listing 10.520, is to educate agricultural producers about the full range of risk management activities. These activities include futures, options, agricultural trade options, crop insurance, cash forward contracting, debt reduction, production diversification, marketing plans and tactics, farm resources risk reduction, and other appropriate risk management strategies. The program places special emphasis on risk management strategies, education, and outreach specifically targeted at: (A) beginning farmers or ranchers; (B) legal immigrant farmers or ranchers that are attempting to become established producers in the United States; (C) socially disadvantaged farmers or ranchers; (D) farmers or ranchers that (i) are preparing to retire; and (ii) are using transition strategies to help new farmers or ranchers get started; and (E) new or established farmers or ranchers that are converting production and marketing systems to pursue new markets. The Agriculture Risk Management Education (ARME) program brings the existing knowledge base to bear on risk management issues faced by agricultural producers and expands the program throughout the Nation on a regional and multi-regional basis.

Deadline: January 21, 2021

Food and Agricultural Sciences National Needs Graduate and Postgraduate Fellowship (NNF) CFDA 10.210

This grant program supports: (1) training students for master's and doctoral degrees in food, agricultural and natural resource sciences; and (2) Special International Study or Thesis/Dissertation Research Travel Allowances (IRTA) for eligible USDA NNF beneficiaries. Awards are specifically intended to support traineeship programs that engage outstanding students to pursue and complete their degrees in USDA mission areas. Applicants provide clarity about the philosophy of their graduate training, and relevance to USDA mission sciences, NIFA priorities and national science education policies and statistics. Applications are being solicited from institutions that confer a graduate degree in at least one of the following Targeted Expertise Shortage Areas: 1) animal and plant production; 2) forest resources; 3) agricultural educators and communicators; 4) agricultural management and economics; 5) food science and human nutrition; 6) sciences for agricultural biosecurity; and 7) training in integrative biosciences for sustainable food and agricultural systems.

Deadline: January 28, 2021

The Emergency Citrus Disease Research and Extension Program (ECDRE) CFDA 10.309

NIFA requests pre-applications for the ECDRE program for fiscal year 2021 to address priorities identified by the Citrus Disease Sub-committee (CDS) of the National Agricultural Research, Education, Extension and Economics (NAREEE) Advisory Board through projects that integrate research and extension activities and use systems-based, trans-disciplinary approaches to provide solutions to U.S. citrus growers.

The overarching goals and desired outcomes for the ECDRE program are:

To combat Huanglongbing (HLB) and its disease complex in order to continue to be able to farm citrus in a financially sustainable way through collaborative approaches and knowledge;

Transition from component-focused research to deploying research outcomes and conclusions on farms; and

Encourage research teams to bring knowledge together to find grower solutions to combat and prevent HLB infection.

Deadline: January 29, 2021

Crop Protection and Pest Management Competitive Grants Program CFDA 10.329

The purpose of the Crop Protection and Pest Management program is to address high priority issues related to pests and their management using IPM approaches at the state, regional and national levels. The CPPM program supports projects that will ensure food security and respond effectively to other major societal pest management challenges with comprehensive IPM approaches that are economically viable, ecologically prudent, and safe for human health. The CPPM program addresses IPM challenges for emerging issues and existing priority pest concerns that can be addressed more effectively with new and emerging technologies. The outcomes of the CPPM program are effective, affordable, and environmentally sound IPM practices and strategies needed to maintain agricultural productivity and healthy communities. In FY 2020, NIFA will only accept competitive applications for funding in the Applied Research and Development program area (ARDP) of the CPPM program.

Deadline: March 15, 2021

New Beginning for Tribal Students Programs (NBTS) CFDA 10.527

Section 7120 of the Agriculture Improvement Act of 2018 (P.L. 115-334) amends the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3221 et seq.) to add section 1450, 7 U.S.C. § 3222e, to authorize the New Beginning for Tribal Students (NBTS) competitive grants program. General Provision 773 of the Fiscal Year 2020 Further Consolidated Appropriations Act (P.L. 116-94) provided \$5 million in discretionary funds to carry out this program. This legislation authorized the Secretary to make competitive grants to land-grant colleges and universities to provide support targeted at Tribal students. Land-grant colleges and universities includes 1862, 1890 and 1994 land-grant institutions. Tribal student is defined in this legislation as a student at a land-grant college or university that is a member of an Indian tribe as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C 5304). The maximum amount allowable per state is \$500,000 per year.

Deadline: March 15, 2021

Beginning Farmer and Rancher Development Program (BFRDP) CFDA 10.311

Beginning farmer education for adult and young audiences in the United States can generally be traced back to the advent of the 1862 and 1890 Morrill Land-Grant Acts.

But, for the first time, the Food, Conservation, and Energy Act of 2008 (Pub .L. No. 110-234, Section 7410) appropriated \$75 million for FY 2009 to FY 2012 to develop and offer education, training, outreach and mentoring programs to enhance the sustainability of the next generation of farmers.

The Agriculture Act of 2014 provided an additional \$20 million per year for 2014 through 2018. The reasons for the renewed interest in beginning farmer and rancher programs are as follows: the rising average age of U.S. farmers; the 8% projected decrease in the number of farmers and ranchers between 2008 and 2018; and the growing recognition that new programs are needed to address the needs of the next generation of beginning farmers and ranchers.

The Agriculture Improvement Act of 2018 (aka the 2018 Farm Bill) reauthorized the Beginning Farmer and Rancher Development Program and provides mandatory funds for which supports education, mentoring, and technical assistance initiatives for beginning farmers and ranchers.

Deadline: March 25, 2021

Small Business Innovation Research (SBIR) Program Phase II CFDA 10.212

All Phase II projects must have previously completed a successful USDA Phase I project before applying for a Phase II grant. Success rates for applicants have been 50-60% for Phase II. Projects dealing with agriculturally-related manufacturing and alternative and renewable energy technologies are encouraged across all 2018 SBIR topic areas. USDA SBIR's flexible research areas ensure innovative projects consistent with USDA's vision of a healthy and productive nation in harmony with the land, air, and water. USDA SBIR has awarded over 2000 research and development projects since 1983, allowing hundreds of small businesses to explore their technological potential and providing an incentive to profit from the commercialization of innovative ideas. Click below for more SBIR information.

Deadline: May 03, 2021

U.S. Department of Commerce

FY2021 North America Marine Debris Prevention and Removal CFDA 11.999

The NOAA Marine Debris Program (MDP), authorized in the Marine Debris Act (33 U.S.C. § 1951-1958), provides funding to address the adverse impacts of marine debris on the United States economy, the marine environment, and navigation safety through the identification, determination of sources, assessment, prevention,

reduction, and removal of marine debris. Funds available through this solicitation were allocated to MDP in furtherance of the United States-Mexico-Canada Agreement (USMCA) Supplemental Appropriations Act, 2019 Pub. L. 116-113, Title IX to carry out Section 3 of the Marine Debris Act (33 U.S.C. § 1952) in the North American region. The purpose of this competition is to address marine debris issues of mutual interest in the border areas of the United States, Mexico, and Canada. Successful proposals through this solicitation will be funded through cooperative agreements.

Funding of up to \$5,000,000 is expected to be available for Marine Debris Prevention and Removal grants in FY2021. Typical awards for this competition will range from \$150,000 - \$750,000. The MDP anticipates that between 6 and 12 projects will be awarded under this solicitation. Projects funded through this notification will be for a term of up to two years.

This solicitation is focused on efforts to: 1) prevent land- and sea-based debris from entering the marine and Great Lakes environment through targeted engagement and outreach efforts that aim to support more sustainable practices, resulting in less waste generated; 2) remove priority debris types from the environment and support alternative disposal of removed debris. Efforts combining prevention and removal efforts will also be considered. It is not intended for scientific research.

Deadline: January 29, 2021

Climate Program Office (CPO), Regional Integrated Sciences and Assessments (RISA) Program CFDA 11.431

The Regional Integrated Science and Assessments (RISA) Program resides in the Climate Program Office's (CPO) Climate and Societal Interactions Division (CSI). CSI has traditionally been a home for high-impact science, catalyzing some of the earliest U.S. government investments in regionally scaled, societally relevant, interdisciplinary climate research and engagement focused on reducing vulnerability and risk through the use of climate knowledge and information. Today, CSI continues to work with partners to enhance community and national resilience in the face of climatic changes, through research and engagement activities designed to connect innovative science directly to complex and dynamic preparedness, adaptation and resilience challenges. Programs managed by CSI are a key component of NOAA's cutting-edge research enterprise, which has evolved over time to include the private sector, NGOs, interdisciplinary teams and the social sciences at large. Moving forward, the CSI Division is reorganizing to include the new Adaptation Science Program as well as continuing to support the RISA Program, in order to streamline, expand and build upon past investments, and address cutting-edge topics in adaptation science - a critical cornerstone to a more resilient future.

The RISA Program

The RISA program supports the development of knowledge, expertise, and abilities of decision-makers to plan and prepare for climate variability and change. Through regionally-focused and interdisciplinary research and

engagement teams, RISA builds and expands the Nation's capacity to adapt and become resilient to extreme weather events and climate change. RISA teams accomplish this through co-developed applied research and partnerships with public and private communities. A central tenet of the RISA program is that learning about climate adaptation and resilience is facilitated by and sustained across a wide range of experts, practitioners, and the public. As such, the RISA program supports a network of people, prioritizing wide participation in learning by doing, learning through adapting, and managing risk with uncertain information. Early decades of the program focused on understanding the use of climate information at regional scales (e.g., through experimental seasonal outlooks), improving predictions and scenarios, building capacity for drought early warning, and advancing the science of climate impact assessments. More recently, emphasis has shifted to address the growing urgency to advance approaches that tackle the complex societal issues surrounding adaptation planning, implementation, and building community resilience. To do so, RISA continues to prioritize collaborative approaches that incorporate multiple knowledge sources and integrate social, physical, and natural science, resulting in long-term support of and increased capacity for communities. As the adaptation community in the United States advances and evolves, RISA seeks to support new creative, solution-oriented approaches that are both responsive to communities and that integrate across silos of scientific knowledge and expertise. Central to achieving the RISA mission are:

- Regional Relevance, Local Expertise
- Integrated Scientific Approaches
- Knowledge-to-Action Partnerships
- A National Network of Resilience Researchers and Adaptation Science Specialists

The RISA program encourages applicants and awardees to support the principles of justice, equity, diversity, and inclusion when writing their proposals and performing their work. Ensuring justice and equity -means paying particular attention to the most vulnerable populations, which are often low-income, those already overburdened by pollution, those who lack economic or social opportunity, and people facing disenfranchisement. Diversity here is defined as a collection of individual attributes that together help organizations achieve objectives. Inclusion is defined as a culture that connects each person to the larger organizing structure. Promoting justice, equity, diversity, and inclusion improves the creativity, productivity, and vitality of the communities in which the program engages.

The RISA program is holding two competitions under this Federal Funding Opportunity:

1. Competition for one RISA team in each of the following nine regions with existing RISA activities: Northeast, MidAtlantic, Intermountain West, Carolinas, Great Lakes, Alaska, Pacific Islands, South Central, and Pacific Northwest
2. Competition for collaborative planning activities in the Southeast and the U.S. Caribbean

Deadline:February 16, 2021

U.S. Department of Defense

U.S. Department of Education

Office of Postsecondary Education (OPE): Talent Search Program Assistance CFDA 84.044A

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 (84 FR 3768), or at www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf.

Purpose of Program: The purpose of the Talent Search Program is to identify qualified individuals from disadvantaged backgrounds with potential for education at the postsecondary level and encourage them to complete secondary school and undertake postsecondary education. Talent Search projects publicize the availability of, and facilitate the application for, student financial assistance for persons who seek to pursue postsecondary education, and encourage persons who have not completed programs at the secondary or postsecondary level to enter or reenter and complete these programs.

Deadline: February 26, 2021

U.S. Department of Energy

Computational Chemical Sciences CFDA 81.049

The DOE SC program in Basic Energy Sciences (BES) hereby announces its interest in receiving new and renewal applications from small groups (2-3 principal investigators) and integrated multidisciplinary teams (typically from multiple institutions) in Computational Chemical Sciences (CCS). Single-investigator applications are not responsive to the objectives of this FOA. CCS will support basic research to develop validated, open-source codes

for modeling and simulation of complex chemical processes and phenomena that allow full use of emerging exascale and future planned DOE leadership-class computing capabilities. The focus for CCS is on developing capabilities that allow modeling and simulation of new or previously inaccessible complex chemical systems and/or provide dramatic improvement in fidelity, scalability, and throughput. Teams should bring together expertise in domain areas (e.g., electronic structure, chemical dynamics, statistical mechanics, etc.) and other areas important to advance computational tools such as data science, algorithm development, and software architectures. Priority will be given to efforts that address reaction chemistry across multiple scales in complex environments important in geosciences, catalysis, biochemistry, or electrochemistry.

Deadline: February 08, 2021

CCS will continue to support the DOE Exascale Computing Initiative (ECI). The ECI aims to accelerate the research and development needed to overcome key exascale challenges and maximize benefits of high-performance computing. This funding opportunity continues the BES commitment to ECI by developing open-source codes that can take full advantage of emerging exascale and future planned DOE leadership-class computing facilities.

U.S. Department of Health and Human Services

Comparative Genomics Research Program (R01) – (CFDA 93.172)

NHGRI invites applications for research developing comparative approaches that can be used to understand genome structure and function and the relationship between genomic features and phenotypes. This program supports studies that enable the use of a diverse array of species to advance our ability to understand basic biological processes related to human health and disease, as well as studies that develop novel analytical tools and resources for the comparative genomics research community.

Deadline: January 07, 2021

**NIH Research Project Grant (Parent R01 Clinical
Trial Not Allowed) – (CFDA 93.113, 93.121,
93.172,93.173, 93.213, 93.233, 93.242, 93.273, 93.279,
93.286, 93.307, 93.351, 93.361, 93.393, 93.394, 93.395,
93.396, 93.399, 93.837, 93.838, 93.839, 93.840, 93.846,
93.847, 93.853, 93.855, 93.856, 93.859, 93.865, 93.866,
93.867, 93.879)**

The NIH Research Project Grant supports a discrete, specified, circumscribed project in areas representing the specific interests and competencies of the investigator(s). The proposed project must be related to the programmatic interests of one or more of the participating NIH Institutes and Centers (ICs) based on their scientific missions. This Funding Opportunity Announcement does not accept clinical trials.

Deadline: January 07, 2021

**Statewide Consumer Network Program Substance
Abuse and Mental Health Services Adminis CFDA
93.243**

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS) is accepting applications for fiscal year (FY) 2021 Statewide Consumer Network grant program (Short Title: SCN). The purpose of this program is to improve efforts to address the needs of adults with serious mental illness (SMI) by developing and/or expanding peer support services, peer leadership, and peer engagement strategies statewide. The population of focus is adults with SMI, including those who are underserved and under-represented (e.g., consumers from ethnic, racial, and cultural minority groups); veterans; individuals who are chronically homeless; individuals with co-occurring disorders (COD); sexual orientation and gender identity minorities; and individuals who have been involved in the criminal justice system. It is expected that this program will increase access to and quality of mental health services for adults with SMI; increase the sustainability of consumer-operated organizations; and enhance state capacity and infrastructure to support the recovery of adults with SMI and their families.

Deadline: January 04, 2021

State Pilot Grant Program for Treatment for Pregnant and Postpartum Women CFDA 93.243

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Treatment (CSAT) is accepting applications for fiscal year (FY) 2021 State Pilot Grant Program for Treatment for Pregnant and Postpartum Women (Short Title: PPW-PLT). The purpose of the program is to enhance flexibility in the use of funds designed to:

support family-based services for pregnant and postpartum women with a primary diagnosis of a substance use disorder, including opioid use disorders;

help state substance abuse agencies address the continuum of care, including services provided to pregnant and postpartum women in nonresidential-based settings; and

promote a coordinated, effective and efficient state system managed by state substance abuse agencies by encouraging new approaches and models of service delivery.

Deadline: February 16, 2021

Rural Emergency Medical Services Training Grant CFDA 93.243

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Treatment, is accepting applications for fiscal year (FY) 2021 Rural Emergency Medical Services Training grants (Short Title: EMS Training). The purpose of this program is to recruit and train emergency medical services (EMS) personnel in rural areas. SAMHSA recognizes the great need for emergency services in rural areas and the critical role EMS personnel serve across the country.

Deadline: February 16, 2021

Cohort Studies To Improve Our Understanding of Influenza Immunity, Vaccine Response and Effectiveness in Older Adults

This initiative will support the use of longitudinal cohorts to develop greater understanding of important elements of influenza immunity that impact vaccine response and vaccine effectiveness in older adults (those 65 and older).

In addition, this work will increase our understanding of how these elements relate to severe outcomes from influenza virus infection in older adults (i.e., hospitalization and death).

Deadline: February 04, 2021

Tribal Opioid Response Grants CFDA 93.788

The Substance Abuse and Mental Health Services Administration (SAMHSA) is accepting applications for fiscal year (FY) 2021 Tribal Opioid Response grants (Short Title: TOR). The program aims to address the opioid crisis in tribal communities by increasing access to culturally appropriate and evidence-based treatment, including medication-assisted treatment (MAT) using Food and Drug Administration (FDA)-approved medications for the treatment of opioid use disorder (OUD). In addition to focusing on OUD, recipients may also address stimulant misuse and use disorders, including cocaine and methamphetamine. The intent is to reduce unmet treatment need and opioid overdose-related deaths through the provision of prevention, treatment, and recovery support services for OUD and, if so desired, stimulant misuse and use disorders.

Deadline: February 16, 2021

Elimination of lymphatic filariasis and elimination and control of other neglected tropical diseases (NTDs) in an effort to improve the quality and coverage of local programs CFDA 93.084

Globally, neglected tropical diseases (NTDs) affect more than one billion people, primarily in the world's poorest nations. CDC, together with other U.S. government and global partners, is supporting elimination/control of six NTDs (lymphatic filariasis, onchocerciasis, trachoma, soil-transmitted helminths, schistosomiasis, Guinea worm) through community mass drug administration (MDA), water filters, or other tool-ready public health interventions such as vector control or improved water, sanitation and hygiene (WASH). Among these, lymphatic filariasis (LF), a mosquito-borne disease that can lead to permanent disability from elephantiasis or hydrocele, was targeted for elimination by 2020. Although the global target was not met, 16 countries have eliminated LF as a public health problem, and many others are close to achieving elimination. Achieving global targets is challenging in many settings, such as highly urban areas. Control of LF usually depends on provision of antiparasitic drugs through MDA with high (>65%) community coverage for at least five years in order to break the cycle of transmission. Locally relevant strategies ensuring sufficiently high MDA community coverage and low levels of systematic non-compliance are needed. New data support that addition of a third drug, ivermectin, in some settings to the traditional dual drug (dethylcarbamazine [DEC] plus albendazole) regimen can shorten the number of annual MDAs required for LF elimination if high community MDA coverage is achieved. After reaching MDA

targets, country programs must develop feasible and sustainable surveillance systems able to identify LF recrudescence, as well as processes that effectively manage areas of persistent transmission in order to limit LF spread. Other NTDs have potential to be eradicated (Guinea worm), eliminated (onchocerciasis, trachoma) or controlled (schistosomiasis, soil transmitted helminths) through well-conducted quality community campaigns over a sustained period.

The Division of Parasitic Diseases and Malaria (DPDM) at the Centers for Disease Control and Prevention (CDC) has provided technical assistance on NTD elimination/control for national programs in Africa, the Americas, Asia and the Pacific over many decades, working closely with the World Health Organization (WHO) and national health ministries.

The purpose of this announcement is to support endemic countries in strengthening their program capacity for elimination/control of LF and other NTDs through achieving MDA coverage targets; establishing ongoing, systematic surveillance systems that can identify recrudescence of infection; establishing standard procedures for responding promptly to persistent or recrudescing transmission; and supporting integrated health services for LF and other NTDs within national health systems. For LF, measurable outcomes of the program will be: improved quality of, access to, and participation in MDA campaigns; better understanding of community participation (and non-participation) in MDAs by countries and other stakeholders; improved management of chronic disease in communities; identification of appropriate MDA stopping points and hotspot management; and establishment of feasible yet high-quality monitoring, evaluation and surveillance before, during and after MDAs. For other NTDs, measurable outcomes will be improved quality of MDAs; understanding of MDA starting and stopping points (e.g., onchocerciasis); high quality conduct of NTD monitoring, evaluation and surveillance, including post-elimination surveillance; and integration of NTD surveillance and services within existing health systems. This announcement is only for non-research activities supported by CDC. If research is proposed, the application will not be reviewed. For the definition of research, please see the CDC Web site at the following Internet address: <http://www.cdc.gov/od/science/integrity/docs/cdc-policy-distinguishing-public-health-research-nonresearch.pdf>.

Deadline: February 19, 2021

Strengthening Public Health Research and Implementation Science (Operations Research) to Control and Eliminate Infectious Diseases Globally **CFDA 93.326**

The purpose of this notice of funding opportunity is to:

- Conduct and monitor epidemiologic and laboratory-based science, surveillance, and research related to COVID-19 and other global public health threats in Africa, Southeast Asia, Eastern Europe and Central Asia, and the Middle East and North Africa (MENA), including, but not limited to, assessments of the extent of pathogen exposures or transmission based on serologic testing, improved understanding of immune responses to infectious pathogens, and assessments of various approaches to collecting and analyzing the results of serologic testing; and,
- Incorporate the results of these public health activities into operational disease detection, prevention, and response or control programs in regions noted above,

strengthen public health capacity as outlined in the Global Health Security Agenda, and disseminate findings across the region, with partners, and globally.

Deadline: February 22, 2021

Using Innovative Intervention Strategies to Improve Health Outcomes among People with HIV - Coordinating Center

This notice announces the opportunity to apply for fiscal year 2021 (FY21) Health Resources and Services Administration (HRSA) Special Projects of National Significance (SPNS) Program funding for the initiative Using Innovative Intervention Strategies to Improve Health Outcomes among People with HIV – Coordinating Center. The purpose of this initiative is to use an implementation science framework¹ to identify innovative intervention strategies in four (4) focus areas, pilot test the intervention strategies at subawarded sites and provide technical assistance (TA), and develop replication tools and products. HRSA will provide funding in the form of a cooperative agreement to support one (1) organization for up to four (4) years to serve as the Innovative Intervention Strategies Coordinating Center for Technical Assistance (2iS CCTA). The 2iS CCTA will solicit and subaward up to 20 Ryan White HIV/AIDS Program (RWHAP)-funded recipients/subrecipients (approximately five sites per focus area) to serve as implementation sites where one intervention strategy per site will be piloted. The piloted intervention strategies will be evaluated through the companion funding opportunity announcement titled Using Innovative Intervention Strategies to Improve Health Outcomes among People with HIV – Evaluation Center (2iS EC; HRSA-21-068). Ultimately, the 2iS EC’s evaluation findings will determine dissemination plans for the replication tools developed by the 2iS CCTA. Please review this companion announcement for more information about the role of the 2iS EC. You may also review the previous initiative for which this is a competing continuation (HRSA-17-044; HRSA-17-049). 2iS Focus Areas This initiative will focus on three (3) priority populations and one (1) area of opportunity to improve service delivery. Combined, these four (4) focus areas are: 1) Improving HIV health outcomes for people with substance use disorder 2) Improving HIV health outcomes for lesbian, gay, bisexual, transgender, or queer (LGBTQ+) youth 3) Improving HIV health outcomes for people who are or have been incarcerated 4) Improving HIV health outcomes by using telehealth services To identify implementation sites to pilot test the intervention strategies identified across the four (4) focus areas, the 2iS CCTA will be responsible for soliciting, selecting, issuing, and monitoring subawards of up to \$190,000/year each for up to twenty (20) RWHAP recipients or subrecipients (hereafter referred to as “subawardees”), or up to five (5) per focus area. The 2iS CCTA will select subawardees based on a demonstrated need and capacity to implement one intervention strategy from one focus area through a competitive application process. The 2iS CCTA will provide TA to the selected subawardees to support successful uptake of the intervention strategy and engagement of clients. The 2iS CCTA will also develop dissemination products that will support the rapid replication of intervention strategies found to be successfully implemented and effective at improving client outcomes in subawardee sites. The companion 2iS EC cooperative agreement (HRSA-21-068) will evaluate the uptake, implementation and associated client outcomes of these intervention strategies at the subawarded sites.

Please review the related 2iS EC (HRSA-21-068) announcement to understand the collaborative work between the 2iS CCTA and the 2iS EC.

Deadline: March 08, 2021

Advancing Post-Market Surveillance of High-Risk Facilities and Products through Signal detection, Data analysis, and the Review of the State of Quality (U01) Clinical Trial Optional – (CFDA 93.103)

The purpose of this program is to advance comprehensive quality surveillance and provide the state of quality for all regulated sites and products. Using predictive analytics, data mining, and other quantitative tools, this research program will expand the knowledge base related to site and product quality, especially for high-risk foreign facilities and their products.

Deadline: April 05, 2021

Administration for Children & Families - ACYF/FYSB Title V Competitive Sexual Risk Avoidance Education CFDA 93.787

The Administration for Children and Families, Administration on Children, Youth and Families' Family and Youth Services Bureau announces the availability of funds under the Title V Competitive Sexual Risk Avoidance Education (CSRAE) Program.

The purpose of Title V Competitive SRAE is to fund projects to implement education exclusively on sexual risk avoidance that teaches youth participants to voluntarily refrain from non-marital sexual activity. Applicants are expected to submit plans for the implementation of sexual risk avoidance education that normalizes the optimal health behavior of avoiding non-marital sexual activity, with a focus on the future health, psychological wellbeing, and economic success of youth. Successful applicants must agree to use medically accurate information referenced to peer-reviewed publications by educational, scientific, governmental, or health organizations; implement an evidence-based approach integrating research findings with practical implementation that aligns with the needs and desired outcomes for the intended audience; and teach the benefits associated with self-regulation, success sequencing for poverty prevention, healthy relationships, goal setting, and resisting sexual coercion, dating violence, and other youth risk behaviors such as underage drinking or illicit drug use without normalizing teen sexual activity. The plans should address the social, psychological, and health gains to be

realized by refraining from non-marital sexual activity and engaging in healthy relationships. The SRAE legislation requires unambiguous and primary emphasis and context for each of the topics to be addressed in program implementation. Additionally, there is a requirement that messages to youth normalize the optimal health behavior of avoiding non-marital sexual activity.

Deadline: April 21, 2021

Administration for Children & Families - ACYF/FYSB Sexual Risk Avoidance Education Program

The Administration for Children and Families, Administration on Children, Youth and Families' Family and Youth Services Bureau announces the availability of funds under the Sexual Risk Avoidance Education (SRAE) Program. The purpose of the SRAE Program is to fund projects to implement sexual risk avoidance education that teach participants how to voluntarily refrain from non-marital sexual activity. The services are targeted to participants that reside in areas with high rates of teen births and/or are at greatest risk of contracting sexually transmitted infections (STIs). The goals of SRAE are to empower participants to make healthy decisions, and provide tools and resources to prevent pregnancy, STIs, and youth engagement in other risky behaviors. Successful applicants are expected to submit program plans that agree to use medically accurate information referenced to peer-reviewed publications by educational, scientific, governmental, or health organizations; implement sexual risk avoidance curricula and/or strategies with an evidence-based approach integrate research findings with practical implementation that aligns with the needs and desired outcomes for the intended audience; and teach the benefits associated with self-regulation, success sequencing for poverty prevention, healthy relationships, goal setting, and resisting sexual coercion, dating violence, and other youth risk behaviors such as underage drinking or illicit drug use without normalizing teen sexual activity.

Deadline: April 25, 2021

Administration for Children and Families - OPRE Coordinated Evaluations of Child Care and Development Fund (CCDF) Policies and Initiatives

These four-year cooperative agreements will be conducted through partnerships between CCDF lead agencies in states, territories, or tribes and researchers from institutions of higher education, research organizations, and other eligible organizations. These projects are intended to add to our knowledge about the efficacy of child care subsidy policies and quality improvement initiatives that support employment and self-sufficiency outcomes for parents, increase low-income families' access to high quality child care programs, and promote positive learning and school readiness outcomes for children. Examples of priority questions include, but are not limited to: effects of

state policy changes to subsidy reimbursement rates on families' access to high quality care and early education for their children; effects of efforts to build the supply of high-quality care; and, effects of models to train the early childhood workforce on teacher and caregiver competencies and the quality of caregiving and instruction. The work supported by this grant program should be collaborative from start to finish. Specifically, the CCDF lead agency and their research partners need to work together throughout all phases of the project and agree to participate in a consortium of projects that will coordinate all research and evaluation activities.

Deadline: May 18, 2021

Administration for Children and Families - ORR Refugee Microenterprise Development Program (MED)

The Office of Refugee Resettlement (ORR) within the Administration for Children and Families (ACF) announces funding for the Refugee Microenterprise Development Program (MED). The overall goal of the Refugee MED Program is assist refugees to become economically self-sufficient by, 1) assisting refugees to establish microenterprise businesses through the provision of MED grants and loans, training and technical assistance (T/TA), and 2) assisting refugees in building credit history and/or repairing their credit score. Allowable activities under the Refugee MED Program include providing technical assistance on grants and loans, maintaining a revolving loan fund, provision of credit builder loans, and administrative costs associated with managing the MED Program.

Deadline: May 18, 2021

Administration for Children and Families - ORR Preferred Communities (PC) Program

The Office of Refugee Resettlement (ORR) within the Administration for Children and Families (ACF) announces funding for the Preferred Communities (PC) Program to support the resettlement of especially vulnerable populations of newly arrived refugees in preferred locations to facilitate their achievement of self-sufficiency. Services under the PC Program include, but are not limited to, intensive case management, culturally and linguistically appropriate linkages, and coordination with other service providers to improve these refugees' access to services.

The goal of the PC Program is the successful resettlement and integration of especially vulnerable groups of newly and longer-term refugee arrivals (and other ORR client populations). The PC Program encompasses a comprehensive approach for refugee self-sufficiency and integration with the following four objectives:

1. To facilitate the achievement of self-sufficiency of especially vulnerable refugee populations with special needs.
2. To support, through the use of pass-through funds to affiliates and implementing partners, the development of PC Programs' capacity to assist special-needs refugee clients who require intensive case management.
3. To provide resources for PC Programs to develop new capacity for placement and to cover the costs of changing community placements so that refugees, including those with special or unique needs, are resettled in particular sites where they will have optimal chances of attaining self-sufficiency and of integrating in their new communities.
4. To alleviate the impact of increased or unanticipated arrivals in communities where state formula funds have not been allocated or are inadequate.

Deadline: May 21, 2021

Administration for Children & Families - ACYF/FYSB Basic Center Program

The Administration for Children and Families, Administration on Children, Youth and Families' Family and Youth Services Bureau (FYSB) announces the availability of funds under the Basic Center Program (BCP). The purpose of BCP is to provide emergency shelter and counseling services to youth who have left home without permission of their parents or guardians, have been forced to leave home, or other homeless youth who might otherwise end up in the law enforcement or in the child welfare, mental health, or juvenile justice systems.

BCPs work to establish or strengthen community-based programs that meet the immediate needs of runaway and homeless youth and their families. BCPs provide youth under 18 years of age with emergency shelter, food, clothing, counseling and referrals for health care. BCPs can provide up to 21 days of shelter for youth and seeks to reunite young people with their families, whenever possible, or to locate appropriate alternative placements. Additional services may include: street-based services; home-based services for families with youth at risk of separation from the family; drug abuse education and prevention services; and at the request of runaway and homeless youth, testing for sexually transmitted diseases.

Deadline: May 21, 2021

Annual Estimates of Influenza Vaccine Effectiveness for Preventing Medically Attended Laboratory-

Confirmed Influenza in the United States CFDA 93.185

Influenza and other respiratory illnesses, including COVID-19, are important causes of morbidity, mortality, and healthcare burden across all age groups. For influenza vaccines, and for novel vaccines such as for COVID-19, estimates of vaccine effectiveness in preventing illness and associated complications are needed to evaluate the protection provided by nationwide vaccination programs. The goal of this notice of funding opportunity is to: a) support a network of US institutions that can obtain reliable vaccination information for a population, or cohort of individuals; b) provide accurate estimates of the effectiveness of vaccines against respiratory viruses including influenza, SARS-CoV-2 and other respiratory viruses that may emerge; and c) prevent medically attended influenza-associated illness in the population for whom influenza vaccination is recommended.

Deadline: August 01, 2021

Engaging Men in HIV Testing, Prevention, and Care (R21 Clinical Trial Optional) – (CFDA 93.242)

The purpose of this Funding Opportunity Announcement (FOA) is to develop and test strategies to increase the engagement of men in HIV prevention and care within global settings and among US domestic populations who have evidenced lower rates of engagement and retention in HIV prevention and care. The R21 Exploratory/Developmental Grant supports studies that may involve considerable risk but may lead to a breakthrough in a particular area; or to the development of novel techniques, agents, methodologies, models; or applications that could have a major impact on a field of biomedical, behavioral, or clinical research.

Deadline: September 07, 2021

Non-Viral Technologies for in vivo Delivery of Genome Editors (R43/R44 Clinical Trial Not Allowed)-(CFDA 93.350)

The purpose of this PAR is to support the development and evaluation of non-viral technologies to deliver genome editors to disease-relevant somatic cells and tissues in vivo. The ultimate goal of these technologies is a translation into clinical trials of genome editing to treat human disease.

Deadline: January 05, 2022

Postbaccalaureate Research Education Program **(R25 - Independent Clinical Trial Not Allowed)** **CFDA-93.859**

This funding opportunity announcement (FOA) provides support to eligible, domestic institutions to develop and implement effective, evidence-informed approaches to biomedical research education and mentoring that will keep pace with the rapid evolution of the research enterprise. NIGMS expects that the proposed research education programs will incorporate extensive research experiences, well-designed courses for skills development, mentoring, cohort building activities, and career development elements to prepare recent baccalaureates from diverse backgrounds to transition into and complete rigorous research-focused doctoral degree programs (e.g., Ph.D. or M.D./Ph.D.) in biomedical fields. This program is limited to applications from doctoral degree-granting research-intensive institutions. This Funding Opportunity Announcement (FOA) does not allow appointed participants to lead an independent clinical trial but does allow them to obtain research experience in a clinical trial led by a mentor or co-mentor.

Deadline: January 27, 2022

Novel Synthetic Nucleic Acid Technology **Development (R21 Clinical Trial not allowed)-** **(CFDA 93.172)**

This Funding Opportunity Announcement (FOA) solicits R21 grant applications to develop novel technologies that will enable substantive (no less than one order of magnitude) improvement in synthetic nucleic acids. The goal is to improve the quality, capabilities, and efficiency of nucleic acid synthesis and synthetic constructs at reasonable and decreased costs. Applicants may propose to develop novel complete synthesis and/or synthetic constructs systems, investigate challenges underlying key novel system components, or propose substantive improvements of at least an order of magnitude improvement to existing systems. Exploration of methods other than those currently in use is highly encouraged. High-risk/high-payoff applications are appropriate to achieve the goals of this FOA.

Deadline: June 24, 2022

Interactive Digital Media STEM Resources for Pre-College and Informal Science Education Audiences

(SBIR) (R43/R44 Clinical Trial Not Allowed) CFDA 93.859

The purpose of this Funding Opportunity Announcement (FOA) is to provide opportunities for eligible small business concerns (SBCs) to submit NIH Small Business Innovation Research (SBIR) grant applications to develop interactive digital media science, technology, engineering and mathematics (STEM) resources that address student career choice and health and medicine topics for: (1) pre-kindergarten to grade 12 (P-12) students, and pre- and in-service teachers and families ("Teachers") or (2) Informal science education (ISE), i.e., outside the classroom resources for the general public. Interactive digital media (IDM) are defined as products and services on digital computer-based systems which respond to the user's actions by presenting content such as text, moving image, animation, video, audio, and video games. There is a large body of evidence that IDM technology has the potential to support learning in a variety of contexts from primary and secondary schools, to universities, adult education and workplace training. IDM is widely used to train, educate, and encourage behavioral changes in a virtual world format where progressive learning, feedback on success and user control are combined into an interactive and engaging experience. It is anticipated that this SBIR FOA will facilitate the translation of new or existing health and medicine-based, P-12 STEM curricula and museum exhibits into educational Interactive Digital Media STEM (IDM STEM) resources that will provide a hands-on, inquiry-based and learning-by-doing experience for students, teachers and the community.

Deadline: September 02, 2022

Palliative Care in Home and Community Settings (R01 Clinical Trial Optional) – (CFDA 93.361)

The purpose of this funding opportunity is to stimulate research aimed at determining needs and best practices for the integration of palliative care into home and community settings. Home and community in this FOA refer to the place where an individual resides or lives. Home- and community-based palliative care programs ensure those with serious, advanced illness who do not require hospitalization but are not appropriate for hospice have access to high-quality end-of-life and palliative care.

Deadline: September 7, 2022

Core Infrastructure Support for Cancer Epidemiology Cohorts (U01 Clinical Trial Not Allowed) CFDA 93.393

Through this Funding Opportunity Announcement (FOA), the National Cancer Institute (NCI) encourages grant applications for support of the core functions of Cancer Epidemiology Cohorts (CECs), as well as methodological research. This FOA is intended to support maintenance of existing CECs infrastructure and resource sharing with broader scientific communities.

Deadline: November 09, 2022

Co-infection and Cancer (R01 Clinical Trial Not Allowed)-CFDA 93.393

This initiative seeks to enhance our mechanistic and epidemiologic understanding of infection-related cancers, with a focus on the etiologic roles of co-infection in cancer. Preference will be given to investigations of co-infections with known oncogenic agents (e.g., *Helicobacter pylori* [*H. pylori*] and Epstein Barr virus [EBV]; excluding human immunodeficiency virus [HIV]) and of co-infections that engendered novel opportunities for prevention and treatment. Coinfection is defined as the occurrence of infections by two or more infectious (pathogenic or nonpathogenic) agents either concurrently or sequentially and includes both acute and chronic infections by viruses, bacteria, parasites, and/or other microorganisms.

Deadline: January 07, 2023

EHR Core Research (ECR): Building Capacity in STEM Education Research-CFDA 93.855

This Funding Opportunity Announcement (FOA), issued by the National Institute of Allergy and Infectious Diseases (NIAID), invites applications for investigator-initiated Resource-Related Research Projects (R24). The proposed resource must provide a significant benefit to currently funded high priority projects in need of further coordination and support in the areas specified. Under rare circumstances, this mechanism may be used to support the development of a new resource to the broader scientific community of the NIAID. It is anticipated that the request for resource support through the R24 activity code will occur on an infrequent basis and only in circumstances where other mechanisms of support from the NIAID are not appropriate. The proposed resources should be relevant to the scientific areas of the NIAID mission including the biology, pathogenesis, and host response to microbes, including HIV; the mechanisms of normal immune function and immune dysfunction resulting in autoimmunity, immunodeficiency, allergy, asthma, and transplant rejection; and translational research to develop vaccines, therapeutics, and diagnostics to prevent and treat infectious, immune-mediated, and allergic diseases.

Deadline: January 07, 2023

Archiving and Documenting Child Health and Human Development Data Sets (R03 Clinical Trial Not Allowed)-CFDA 93.865

The purpose of this funding opportunity announcement (FOA) is to invite R03 applications to support archiving and documenting existing data sets to enable secondary analysis of these data by the scientific community. The priority of this program is to archive data sets within the scientific mission of the NICHD; the highest priority is to archive data collected with NICHD support.

Deadline: January 07, 2023

NIDCR Predoctoral to Postdoctoral Transition Award for A Diverse Dental, Oral, and Craniofacial Research Workforce (F99/K00 Clinical Trial Not Allowed)-CFDA 93.121

The purpose of this award is to support phased transition of outstanding graduate students from groups underrepresented in the biomedical, clinical, behavioral and social sciences research enterprise from graduate work to postdoctoral research positions in Dental, Oral, and Craniofacial (DOC) research. The first phase (F99) will support the final two years of graduate research training for individuals in Ph.D. or dual degree clinician-scientist programs. Following graduation and attainment of a postdoctoral research position, the second phase (K00) will provide support for up to three years of mentored postdoctoral research.

Deadline: January 07, 2023

**Ruth L. Kirschstein National Research Service
Award (NRSA) Individual Fellowship for Students
at Institutions Without NIH-Funded Institutional
Predoctoral Dual-Degree Training Programs
(Parent F30) CFDA 93.113. 93.121. 93.172, 93.173.
93.213. 93.233**

This Funding Opportunity Announcement (FOA) will support students at institutions without NIH-funded institutional predoctoral dual-degree training programs. The purpose of the Kirschstein-NRSA, dual-doctoral degree, predoctoral fellowship (F30) is to enhance the integrated research and clinical training of promising predoctoral students, who are matriculated in a combined MD/PhD or other dual-doctoral degree training program (e.g. DO/PhD, DDS/PhD, AuD/PhD, DVM/PhD), and who intend careers as physician/clinician-scientists. Candidates must propose an integrated research and clinical training plan and a dissertation research project in scientific health-related fields relevant to the missions of the participating NIH Institutes and Centers. The fellowship experience is expected to clearly enhance the individual's potential to develop into a productive, independent physician/clinician-scientist. This Funding Opportunity Announcement (FOA) is designed specifically for candidates proposing research that does not involve leading an independent clinical trial, a clinical trial feasibility study, or an ancillary clinical trial, but does allow candidates to propose research experience in a clinical trial led by a sponsor or co-sponsor.

Deadline: May 07, 2023

U.S. Department of Housing and Urban Development

U.S. Department of Homeland Security

U.S. Department of the Interior

**FY2020 Historic Preservation Fund- African
American Civil Rights- Preservation Grants CFDA
15.904**

The National Park Service's (NPS) African American Civil Rights Grant Program (AACR) will document, interpret, and preserve the sites and stories of the full history of the African American struggle to gain equal rights as citizens and the transatlantic slave trade. The NPS 2008 report, Civil Rights in America, A Framework for Identifying Significant Sites, will serve as a guide in determining the appropriateness of proposed projects and properties. AACR Preservation Grants are funded by the Historic Preservation Fund (HPF), administered by the NPS, and will fund a broad range of preservation projects for historic sites including: architectural services, historic structure reports, preservation plans, and physical preservation to structures. Grants are awarded through a competitive process and do not require non-Federal match.

There are separate funding announcements for physical preservation projects and for historical research/documentation projects. Funding announcement P21AS00200 is for physical preservation of historic sites only; P21AS00199 is for historical research/documentation/survey/nomination projects. Please ensure you apply under the correct opportunity number for your project. There is a new Historic Equal Rights grant program under P21AS00201 for physical preservation only of sites involved in the struggle for All American's civil rights.

Deadline: January 12, 2021

FY2020 Historic Preservation Fund- African American Civil Rights- History Grants CFDA 15.904

The National Park Service's (NPS) African American Civil Rights Grant Program (AACR) will document, interpret, and preserve the sites and stories related to the African American struggle to gain equal rights as citizens as well as the transatlantic slave trade. The NPS 2008 report, Civil Rights in America, A Framework for Identifying Significant Sites, will serve as a guide in determining the appropriateness of proposed projects and properties. AACR Preservation Grants are funded by the Historic Preservation Fund (HPF), administered by the NPS, and will fund a broad range of history projects for historic sites including: survey and inventory, National Register nominations, oral histories and more. Grants are awarded through a competitive process and do not require non-Federal match.

There are separate funding announcements for physical preservation projects and for historical research/documentation projects. Funding announcement P21AS00200 is for physical preservation of historic sites only; P21AS00199 is for historical research/documentation/survey/nomination projects. Please ensure you apply under the correct opportunity number for your project. There is a new Historic Equal Rights grant program under P21AS00201 for physical preservation only of sites involved in the struggle for all Americans civil rights.

Deadline: January 12, 2021

FY2020 Historic Preservation Fund- History of Equal Rights- Preservation Grants CFDA 15.904

The National Park Service's (NPS) History of Equal Rights Grant Program (HER) will preserve sites related to the struggle of all American's to achieve equal rights. HER grants are funded by the Historic Preservation Fund (HPF), administered by the NPS, and will fund a broad range of preservation projects for historic sites including: architectural services, historic structure reports, preservation plans, and physical preservation to structures. Grants are awarded through a competitive process and do not require non-Federal match. The HER opportunity number is P21AS00201.

There are separate funding announcements for African American Civil Rights physical preservation projects and for historical research/documentation projects. Funding announcement P21AS00200 is for physical preservation of African American historic sites only; P21AS00199 is for African American historical research/documentation projects only. Ensure you apply under the correct opportunity number for your project.

Deadline: January 12, 2021

FY2020 Historic Preservation Fund- Save America's Treasures Preservation Grants CFDA 15.929

Save America's Treasures grants from the Historic Preservation Fund provide preservation and/or conservation assistance to nationally significant historic properties and collections. Grants are awarded through a competitive process and require a dollar-for-dollar, non-Federal match, which can be cash or documented in-kind. The grant program is administered by the National Park Service (NPS) in partnership with the National Endowment for the Arts (NEA), the National Endowment for the Humanities (NEH), and the Institute of Museum and Library Services (IMLS). There are separate opportunities for preservation and collections projects. The preservation opportunity can be found under opportunity number P21AS00202. The collections opportunity can be found under opportunity Number P21AS00203. FY2020 Public Law 116-94 provides \$16 million for the SAT Grant Program.

Deadline: January 26, 2021

Deadline: January 26, 2021

U.S. Department of Justice

OJJDP FY 2021 Children’s Advocacy Centers Membership and Accreditation Program CFDA 16.758

This solicitation provides funding to support a national membership and accreditation organization to provide training and technical assistance on the development and implementation of national standards for children’s advocacy centers (CACs). Across the country, CACs provide a coordinated response to victims of child abuse through multidisciplinary teams composed of representatives from community agencies and professionals involved with intervention, prevention, prosecution, and investigation systems that respond to child abuse cases.

Deadline: February 05, 2021

BJA FY 21 Second Chance Act Pay for Success Initiative CFDA 16.812

Pay for Success is performance-based and outcomes-based programming that ties payment for services to reaching agreed upon goals. Under this initiative, services that may be purchased include permanent supportive and recovery housing, as well as other types of reentry services which are tailored to individuals leaving incarceration, particularly those with substance use disorders.

Deadline: February 16, 2021

BJA FY 21 The Kevin and Avonte Program: Reducing Injury and Death of Missing Individuals

with Dementia and Developmental Disabilities

CFDA 16.015

The Kevin and Avonte Program: Reducing Injury and Death of Missing Individuals with Dementia and Developmental Disabilities supports local jurisdictions' efforts to reduce the number of deaths and injuries of individuals with forms of dementia such as Alzheimer's disease or developmental disabilities such as autism who, due to their condition, wander from safe environments. It provides funding to law enforcement and public safety agencies to implement locative technologies to track missing individuals, and to such agencies and partnering nonprofit organizations to develop or operate programs to prevent wandering, increase individuals' safety, and facilitate rescues.

Deadline: February 17, 2021

U.S. Department of Labor

National Dislocated Worker Grants Program

Guidance-(CFDA 17.277)

National Dislocated Worker Grants (DWGs) are discretionary grants awarded by the Secretary of Labor under Section 170 of the Workforce Innovation and Opportunity Act (WIOA) to provide employment-related services for dislocated workers. The Department funds two types of DWGs: Disaster Recovery and Employment Recovery.

Disaster Recovery DWGs provide funding to create temporary employment opportunities to assist with clean-up and recovery efforts when an area impacted by an emergency or major disaster is declared eligible for public assistance by the Federal Emergency Management Agency (FEMA) or is declared, or otherwise recognized, as an emergency or disaster of national significance by a Federal agency with authority or jurisdiction over Federal response to the disaster or emergency.

Employment Recovery DWGs temporarily expand capacity to serve dislocated workers and to meet the increased demand for employment and training services following a qualifying event. Qualifying events include major economic dislocations, such as plant closures, mass layoffs, or higher-than-average demand for employment and training activities for dislocated members of the Armed Forces and their spouses. Under 20 CFR 687.110(a)(5), the Secretary of Labor may determine other major dislocations eligible for Employment Recovery DWGs.

Deadline: Rolling grant

U.S. Department of State

International Guidelines for Biosecurity Ethics

The purpose of this award is to develop a draft document containing “Ethical Guidelines for Biosecurity” to supplement existing codes and similar ethical documents that already exist for biological scientists. Such guidelines would help to strengthen the norms and practices that exist nationally and internationally against the misuse of the life sciences for biological weapons purpose, thus helping to prevent the creation and use of biological weapons by non-State actors and national governments. Ultimately, such guidelines would incorporate input from the biological science community and be supported both by the Biological Weapons Convention (BWC) States Parties and by relevant professional organizations. This project will be executed in coordination with the Office of Biological Policy Staff (BPS) and WMDT. BPS manages a wide range of policy issues at the intersection of national security, public health, and science and leads U.S. Government participation in activities related to the BWC. The guideline development process would take place under the aegis of the Inter-Academy Partnership (IAP), a global network consisting of 111 national science academies, which would select the technical experts to participate, in close cooperation with the US National Academies of Science, Engineering and Medicine (NASEM).

Deadline: May 28, 2021

U.S. Department of Transportation

FAA Aviation Research Grants Program CFDA **20.108**

The FAA hereby announces its continuing interest in receiving applications for aviation research grants and cooperative agreements to pursue the long-term growth and short-term technical needs of civil aviation, under this funding opportunity. Eligibility of applicants for the award of an aviation research grant varies depending on the nature of the proposer's organization, as well as the character of the research being proposed. In general, colleges, universities, and other non-profit research institutions under Section 501(c)(3) of Title 26 of United States Code, are eligible to apply for an aviation research grant.

The FAA Aviation Research Grants Program encourages and supports innovative, advanced research of potential benefit to the long-term growth of civil aviation and commercial space transportation. The pursuit of basic and applied research in scientific and engineering disciplines that have the potential to further knowledge and understanding on a broad front of emerging technologies is crucial to the realization of this goal. The intent is to encourage applied

research and development to enhance technology assimilation, transfer, and development in the FAA. The FAA Aviation Research Grants Program does not require the immediate application to Research and Development (R&D) programs, although this may occur in some cases. The FAA encourages the

submission of proposals that embrace the entire spectrum of physical, chemical, biological, medical, psychological, mathematical, and engineering sciences.

The following list illustrates topics of interest to those who may consider applying for a grant under this funding opportunity:

1. Capacity and Air Traffic Control Technology
2. Communications, Navigation, and Surveillance
3. Aviation Weather
4. Airports
5. Aircraft Safety Technology
6. Human Factors and Aviation Medicine
7. Systems Science/Operations Research
8. Unmanned Aircraft System (UAS) Unmanned Traffic Management (UTM), Class E Upper Airspace Traffic Management (ETM), and Urban Air Mobility (UAM)

Deadline: September 27, 2027

[U.S. Department of Veterans Affairs](#)

[VETERANS CEMETERY GRANTS CFDA 64.203](#)

Cemetery Grants are only available to states, territories and federally recognized tribal governments. This program operates in accordance to 38 CFR Part 39

Deadline: July 01, 2021

Section III PROGRAM FUNDING THROUGH PRIVATE, CORPORATE & COMMUNITY FOUNDATIONS

BoatUS Foundation Accepting Grant Applications for Safe and Clean Boating Projects

The BoatUS Foundation for Boating Safety and Clean Water is accepting applications for its Grassroots Grants Program, which awards funds on an annual basis to nonprofit organizations, boating clubs, and student groups in the United States for projects that utilize innovative approaches to education about safe and clean boating.

The foundation is looking for creative projects that promote safe and clean boating on local waterways. Past topics have ranged from PSAs on the effects of boating under the influence of hands-on education about the effects of marine debris.

Projects the foundation is most interested in funding will be unique (topic, methods, or delivery mechanism); include extensive outreach to boaters; use technology to educate boaters, including social media and the Web; have a widespread reach (not just a handful of boaters); include hands-on work with the boating community, and have a way to measure the success of the program.

Applicants can include boating groups, clubs and associations, student groups, and local nonprofit organizations, including local chapters of national organizations. Grants will not be awarded to government agencies, international organizations, for-profit businesses, or individuals.

Applicants may request up to \$10,000. Funded projects must be completed within a year.

Deadline: Open

Baseball Tomorrow Fund

The Baseball Tomorrow Fund (BTF) awards grants to non-profit and tax-exempt organizations involved in the operation of youth baseball and/or softball programs and facilities. Organizations operating in the U.S. and international locations are eligible to apply. To date, an average of 400 requests are received annually; approximately 10 percent are awarded grants. Grants are awarded every quarter.

Review cycle deadlines:

- January-March: January 1
- April-June: April 1
- July-September: July 1
- October-December: October 1

Surdna Foundation Sustainable Environment Grants

The Sustainable Environments Program is working to overhaul our country's outdated and crumbling infrastructure with a new approach that will foster healthier, sustainable, and just communities. We believe in the potential of what we call "next-generation infrastructure" to improve transit systems, make buildings more energy-efficient, better manage our water systems and rebuild regional food systems. Focusing on urban areas and their surrounding suburbs, we seek solutions that connect and improve these infrastructure systems in ways that maximize positive impacts and minimize negative environmental, economic and social consequences.

JFNY Grant for Arts and Culture

The Japan Foundation New York office (JFNY) accepts applications for projects that take place within the 37 states east of Rocky Mountains listed below for the JFNY Grant throughout the year. This grant aims to support projects that will further understand of Japanese arts and culture. Successful projects may be granted up to \$5,000. Priority will be given to those projects that have secured additional funding from sources other than the Japan Foundation.

Deadline: Applications must be received at least 3 months before the beginning date of the project.

CSX Beyond Our Rails Grant

CSX provides non-profit assistance and support through a variety of programs, including grants that typically range from \$2,500 to \$5,000 for projects focusing on safety, community, wellness, and/or the environment.

Examples given for environmental projects include:

- Teaching environmental stewardship
- Planting eco-friendly trees and plants
- Leading and supporting environmental cleanups
- Recycling and waste minimization
- Promoting energy efficiency and carbon reduction

Deadline: Ongoing

Laboratory Equipment Donation Program for Colleges, Universities, and Museums

The Laboratory Equipment Donation Program (LEDP), formerly the Energy-Related Laboratory Equipment (ERLE) Grant Program, was established by the United States Department of Energy (DOE) to grant surplus and available used energy-related laboratory equipment to universities and colleges in the United States for use in energy-oriented educational programs.

Deadline: Ongoing

Zayed Future Energy Global High Schools Prize

The primary aim of the Global High Schools category is to inspire future generations across the globe by instilling an ethos of sustainability from an early age, including an appreciation of issues in energy, and broader sustainability. Each school will submit a detailed proposal for a project, and the Prize will become a grant that enables the project's completion. While the main objective is to promote sustainability in schools, a special emphasis of the proposed project should be on specific measurable initiatives to promote renewable energy and sustainability, which may include improvements in energy or water efficiency or a reduction in waste.

Waste Management Charitable Giving

Healthy thriving communities depend on involved citizens, organizations and corporate partners for momentum. We lend our support and services to causes that promote civic pride, economic development, and revitalization. Every community has its challenges, and we strive always to be part of problem-solving initiatives. Programs that Waste Management is most motivated to support include environment, environmental education, and causes important to the areas where we operate. Applications are accepted year-round and are reviewed continuously. Given the large number of requests received, please anticipate an estimated two-month review period for each request.

Clif Bar Foundation Small Grants

These grants are awarded for general organizational support as well as funding for specific projects. Small grants average approximately \$7,000 each. Priority is given to applicants that: Address our funding priorities from a holistic perspective; Protect Earth's beauty and bounty; Create a robust, healthy food system; Increase opportunities for outdoor activity; Reduce environmental health hazards; Build stronger communities; Operate with clearly defined objectives and viable plans to achieve them; Demonstrate strong community ties and operate at the community level; Promote positive change through both the projects and their implementation process.

Deadline: Applications are reviewed three times a year; the deadlines are the 1st of February, June, and October. Grants awarded during a particular cycle will be announced at the beginning of the following cycle.

Foundation for Contemporary Art Accepting Applications for Emergency Grants

Since its inception in 1963, the mission of the Foundation for Contemporary Arts has been to encourage, sponsor, and promote innovative work in the arts created and presented by individuals, groups, and organizations.

Created in 1993, the foundation's Emergency Grants program provides grants of up to \$2,000 to innovative visual and performing artists who have unanticipated, sudden opportunities to present their work to the public when there is insufficient time to seek other sources of funding; or who incur unexpected or unbudgeted expenses for projects close to completion with committed exhibition or performance dates.

To be eligible, applicants must be living, working, and paying taxes in the United States; have committed to a performance or exhibition opportunity and be able to provide specific dates at the time of application; and be an individual artist or an individual representing an artist collective, ensemble, or group. Curators, producers, workshop organizers, organizations, or arts presenters are not eligible to apply.

Deadline: OPEN

Weyerhaeuser Giving Fund

We support the U.S. and Canadian communities where we have a significant presence or business interest. These communities range from rural to metropolitan, each with unique priorities and needs. Our employees serve on local advisory committees for our Giving Fund and develop funding priorities within four focus areas to support their particular communities. This provides a strong companywide framework for giving while allowing flexibility to meet unique needs in our different communities.

Through the Weyerhaeuser Giving Fund we concentrate the majority of our funding in four focus areas:

- Affordable Housing and Shelter
- Education and Youth Development
- Environmental Stewardship
- Human Services, Civic and Cultural Growth

To be eligible for funding, a program must:

- Serve a Weyerhaeuser community
- Be a tax-exempt, nonprofit public charity classified under Section 501(c)(3) of the U.S. Internal Revenue Code OR a registered charity in Canada with a Canada Revenue Agency Number, or registered as a provincial nonprofit society OR a public education institution or government entity qualified under Section 170(c)(1) of the U.S. Internal Revenue Code or qualified as a Canadian municipality.

Wells Fargo Corporate Giving Programs

Wells Fargo supports nonprofit organizations that work on a community level in the areas of human services, arts and culture, community development, civic responsibility, education, environmental consciousness, and volunteerism.

Deadline: Applications accepted on an ongoing basis.

Good Sports Accepting Applications for Sports Equipment Grant

Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization can focus on the respective needs of each program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for two years. During that time, organizations can make up to six separate donation requests — as long as the need is well documented, donations will be granted. There is no need to resubmit a full application again during the two years.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers a consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

Deadline: Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks before the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time.

[Karma for Cara Foundation Invites Applications for Youth Microgrants](#)

The Karma for Cara Foundation is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the Johns Hopkins Kimmel Cancer Center. Cara and her two brothers began volunteering at a young age as part of their family's commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores.

Deadline: OPEN

[VFW Accepting Applications From Veterans for Emergency Financial Assistance](#)

Veterans of Foreign Wars is accepting applications from active and discharged military service members who have been deployed in the last six years and have run into unexpected financial difficulties as a result of deployment or other military-related activity. Since the program's inception, Unmet Needs has distributed more than \$5 million in assistance to qualified military families, with nearly half of those funds going directly toward basic housing needs.

The hardship must be the result of deployment, a military pay issue, or military-related illness or injury. It cannot be due to civil legal or domestic issues, misconduct, or any issues that are a result of spousal separation or divorce, financial mismanagement, or bankruptcy.

Deadline: OPEN

[Start a Snowball Invites Applications for Youth Philanthropy Projects](#)

Start a Snowball, Inc. encourages kids of all ages to engage in philanthropic and community service activities. The organization believes that even one child with the right intentions and support can start a project that seems small in the beginning and eventually grows ("snowballs") into something that inspires and benefits an entire community.

To help kids, kick off their philanthropy efforts, start a Snowball awards \$100 in seed funding for projects taken on by individuals or organizations.

To be eligible, projects must be led by youth between the ages of 5 and 18 and have the intention of doing good.

Start a Snowball does not give directly to collection funds. The organization also does not provide support for fundraisers for sports teams, unless they serve an underserved or disadvantaged group or support projects that are discriminatory or political.

Deadline: Rolling

[Craft Emergency Relief Fund Accepting Applications From Craftspeople in Need](#)

The Craft Emergency Relief Fund is a national nonprofit organization that awards small grants and loans to professional craftspeople experiencing career-threatening illness, accident, fire, theft, or natural disaster.

Financial assistance ranges from \$500 to \$8,000. Other services include referrals to craft suppliers who have agreed to offer discounts on materials and equipment to craftspeople eligible for CERF funds and booth fee waivers from specific craft show producers.

CERF loan recipients are expected to repay the loan in full within five years, enabling CERF to have funds readily available for future craftspeople in need.

Applicants must be a professional artist working in a craft discipline (e.g., a potter, metalsmith, glass artist, woodworker, fiber artist, or furniture maker) who has had a recent career-threatening emergency and a legal resident of the U.S.

Deadline: OPEN

[Pollock-Krasner Foundation Accepting Applications From Artists With Financial Need](#)

The mission of the Pollock-Krasner Foundation is to aid those individuals who have worked as artists over a significant period. The foundation's dual criteria for grants are recognizable artistic merit and financial need, whether professional, personal or both.

Grants are intended for one year, with the size of the grant to be determined by the artist's circumstances and professional exhibition history. Artists applying for a grant must be actively exhibiting their current work in a professional artistic venue such as a gallery or museum space.

The foundation does not accept applications from commercial artists, video artists, performance artists, filmmakers, crafts-makers, computer artists, or any artist whose work primarily falls into these categories.

Deadline: OPEN

[Pollination Project Invites Applications From Social Entrepreneurs for Seed Grants](#)

The Pollination Project is accepting applications from social entrepreneurs looking to make their communities and world a better place. Seed grants of up to \$1,000 will be awarded to projects in the early stages of development, including those that promote compassion toward all life (people, planet, animals), environmental sustainability, justice in all its forms, community health and wellness, and social change-oriented arts and culture.

Only applications for seed funding, as opposed to ongoing operational or program costs of a nonprofit organization, will be accepted. To be eligible, applicants must be a passionate, committed individual with a social change vision that fits within one or more of the categories above. Established nonprofit organizations with paid staff will not be considered.

Deadline: OPEN

[Hope for The Warriors Accepting Applications for Critical Care Support for Wounded Veterans](#)

Hope For The Warriors believes those touched by military service can succeed at home by restoring their sense of self, family, and hope. Nationally, the organization provides service members, veterans, and military families with comprehensive support programs focused on transition, health and wellness, peer engagement, and community resources.

Originally designed to meet short-term needs in the days following an injury, the Hope for The Warriors' Critical Care Coordination program has expanded to assist post-9/11 combat-wounded veterans and their families as they navigate through long-term recovery.

Program case coordinators work daily with post-9/11 combat-wounded service members and veterans, their families, and families of the fallen to meet immediate financial needs related to daily living including utilities, groceries, rent, mortgage, and rental deposits. The program provides casework assistance and resource referrals that will help clients immediately and in the future. Payment is always made to a third party.

To be eligible, applicants must be seeking support for needs that are a direct result of a service member's post-9/11 combat-related injury.

Deadline: OPEN

[Singing for Change Accepting LOIs for Projects to Address Social and Environmental Problems](#)

Created by Jimmy Buffett in 1995, Singing for Change initially was funded with contributions from the singer's summer concert tour. Since then, SFC has offered competitive grants to progressive nonprofit organizations working to address the root causes of social or environmental problems.

Priority will be given to organizations that keep their overhead low, include community members in planning, and collaborate with other groups to find innovative ways of solving common problems. SFC aims to advance the common good by empowering people to thrive and strengthen and sustain vibrant, diverse communities.

Grants will range in size from \$1,000 to \$10,000. Grants are made only to nonprofit organizations with tax-exempt status under section 501(c)(3) of the Internal Revenue Code, or to organizations that have a sponsoring agency with exempt status.

Deadline: Ongoing

[A Little Hope Announces Youth Bereavement Support Services Grants](#)

A Little HOPE supports organizations that provide bereavement support services and grief counseling to children and teens who have experienced the death of a parent, sibling, or loved one.

To be considered, applicants must e-mail (no telephone calls) the name of their program, website address, names of the executive director and program director, and the location of the program. No other information is needed or will be processed. Strong preference will be given to applicants who demonstrate a commitment to the use of community trained volunteers. Grant award amounts are based on the scope and budget of the project.

Deadline: OPEN

[Captain Planet Foundation Offers Grants for Hands-On Environmental Education Activities](#)

The mission of the Captain Planet Foundation is to promote and support high-quality educational programs that help children and youth understand and appreciate our world through hands-on learning experiences aimed at improving the environment in their schools and communities.

Grants are intended to serve as a means of bringing environment-based education to schools and inspiring youth and communities to participate in community service through environmental stewardship activities. The foundation will fund unique and innovative projects that do not precisely match the grant guidelines but otherwise promote the foundation's mission to advance hands-on environmental activities.

Deadline: January 31 (typically for fall and winter projects), September 30 (typically for spring and summer projects)

[Chambers of Commerce Invited to Start Young Entrepreneur Academies](#)

The Young Entrepreneurs Academy today serves thousands of students across America. In 2011, the United States Chamber of Commerce Foundation became a national sponsor and partner of the academy to help celebrate the spirit of enterprise among today's youth and the future leaders of tomorrow.

To that end, YEA, in partnership with Sam's Club and the U.S. Chamber of Commerce Foundation, is accepting applications from chambers of commerce across the country to start Young Entrepreneurs academies of their own. The thirty-week program teaches students in grades 6-12 how to generate business ideas, conduct market research, write business plans, pitch to a panel of investors, and launch their own companies. In 2015, Sam's Club will award startup funds of up to \$2,500 each to thirty chambers of commerce across the country.

Cornell Douglas Foundation Grant

The Cornell Douglas Foundation provides grants to organizations that advocate for environmental health and justice, encourage stewardship of the environment, and further respect for the sustainability of resources. The average grant amount is \$10,000.

Deadline: accepted all year

Public Welfare Foundation

The Public Welfare Foundation has three programs, Criminal Justice, Juvenile Justice, and Workers' Rights, that support efforts to advance justice and opportunity for people in need. The Foundation looks for strategic points where its funds can make a significant difference and improve lives through policy and system reform that results in transformative change.

Criminal Justice Guidelines

The Foundation's Criminal Justice Program supports groups that are working to end the over-incarceration of adults in the United States while also aiming to reduce racial disparities. In particular, the Program makes grants primarily to state-based groups that are working to:

- Reduce state incarceration levels and racial disparities through reforms in sentencing, charging, and supervision policies and procedures.
- Advance the redirection and prioritization of state and local resources toward targeted investments that support system-involved individuals in their communities, through research and strategic thought leadership.

Juvenile Justice Guidelines

The Foundation's Juvenile Justice Program supports groups working to end the criminalization and reliance on the incarceration of youth in the United States. The Program makes grants to groups that are working to:

- Advance state policies that dramatically restrict juvenile justice systems' use of incarceration and out-of-home placements and prioritize the use of community-based programs for youth;
- End the practice of trying, sentencing, and incarcerating youth in the adult criminal justice system; and
- Promote the fair treatment of youth of color who come into contact with the juvenile justice system.

Workers' Rights Guidelines

The Foundation's Workers' Rights Program supports policy and system reforms to improve the lives of low-wage working people in the United States, with a focus on securing their basic legal rights to safe, healthy, and fair conditions at work. Specifically, the Program makes grants to groups working to:

- Advance reforms to hold employers accountable for wage theft;
- Advance reforms to prevent severe illness, injury, and death on the job; and
- Advance workers' rights in complex, fissured employment arrangements through research and strategic thought leadership.

[Ben & Jerry's Foundation Seeks Proposals for Social and Environmental Justice Projects](#)

One-year grants of up to \$20,000 will be awarded to nonprofit grassroots community-organizing groups in the United States working to further social and environmental justice and support sustainable and just-food systems. Grants can be used to support both program and operational costs.

[KaBOOM! Invites Applications for Community Playground Grants](#)

KaBOOM!, a program that provides eligible communities with most of the funds, tools, and resources they need to build a custom-made playground in one day.

Deadline: OPEN

[Binoculars for Young Citizen Scientists](#)

Cornell's BirdSleuth K-12 initiative is awarding binoculars to schools where educators have made outstanding efforts to engage their students in citizen science.

Deadline: OPEN

[International Paper Environmental Education Grants](#)

The International Paper (IP) Foundation supports non-profit organizations in communities where its employees live and work. Environmental education is one of the primary areas the Foundation supports. The Foundation seeks programs that help generations understand a sustainable approach to business that balances environmental, social and economic needs.

Lego Children's Fund

The LEGO Children's Fund provides grants primarily in two focus areas: (1) early childhood education and development that is directly related to creativity and (2) technology and communication projects that advance learning opportunities. Typical awards are between \$500 and \$5,000. Interested parties must complete an eligibility quiz, be approved and invited to submit a grant proposal. Each grant will be subject to a specified time frame for completion.

Deadline: Applications accepted four times a year.

Evidence for Action: Investigator-Initiated Research to Build a Culture of Health

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence base needed to build a Culture of Health. Our mission is to support rigorously designed quantitative, qualitative, and mixed methods research that yields convincing findings regarding the population health, well-being, and equity impacts of specific policies, programs, and partnerships. We are especially interested in research examining the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

Deadline: Open

Pioneering Ideas Brief Proposals

The goal of the Pioneering Ideas Brief Proposal funding opportunity is to explore; to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted territory to better understand what new trends, opportunities, and breakthrough ideas can enable everyone in America to live the healthiest life possible.

While improving the status quo is vital to the health and well-being of millions of Americans now, the Pioneering Ideas Brief Proposal opportunity reaches beyond incremental changes to explore the ideas and trends that will influence the trajectory and future of health. Ultimately, we support work that will help us learn what a Culture of Health can look like—and how we can get there.

Deadline: Open

Section IV STATE OF ALABAMA GRANTS

Alabama Power Foundation Grant

The Alabama Power Foundation Grant offers funds to nonprofit organizations in Alabama working in one of the following areas:

- Health
- Human services
- Arts
- Community life
- Education
- Environment

Priority is given to projects that address underserved segments of the population and can be duplicated in other communities.

Alabama Board of Medical Scholarship Awards

The Alabama Board of Medical Scholarship Awards offers forgivable loans to students enrolled in an Alabama medical school who agree to practice primary care in a pre-approved medically, underserved community in Alabama upon graduation.

Loans are repaid at the rate of one year of service per year of the loan.

Deadline: Applications accepted on an ongoing basis.

Economic Development Fund

Land, facilities, and infrastructure to benefit an industry that will create jobs. Create a minimum of 15 permanent jobs to benefit 51% low to moderate-income beneficiaries. Continuous. Applications are taken throughout the year. Maximum request: \$250,000. Minimum Request: \$50,000. Note: Waiver of the match available for applicants with 2010 Census population of 1,000 or less. May also waive the grant ceiling for projects that demonstrate significant long-term economic benefit to the State.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbier.olia@adeca.alabama.gov

Economic Development Incubator projects

Units of local government. Applicants must maintain active registration with SAM. The program must benefit 51% of low to moderate-income beneficiaries. The project must commit to creating jobs. Maximum request: \$250,000. Match request: 20%. Applications are taken throughout the year. Award upon approval and as funding is available. Application workshop held in April and compliance workshop held in the fall.

Contact: Community and Economic Development; Shabbir Olia, CED Programs Manager, 334.242.5462, shabbir.olia@adeca.alabama.gov

States' Economic Development Assistance Program (SEDAP)

Applicants: State and local units of governments, public bodies, and non-profit entities. Eligible counties in West Alabama: Bibb, Fayette, Hale, Lamar, Pickens, and Tuscaloosa.

Activities: Water and wastewater facilities, telecommunications, health care, planning activities, leadership development, education and training programs, business development, and entrepreneurship.

Requirements: Project must meet one of ARC's goals: increase job opportunities and per capita income, strengthen the capacity of people to compete in the global economy or develop and improve infrastructure to make the Region economically competitive. Construction projects funded by ARC must have an "Administering Agency" such as ADECA, USDA Rural Development or TVA. The project will be administered by and take on the requirements of that agency

Deadline: Pre-application due date in August. Applicant notified in late fall/winter if a full application is requested. Award announcements typically made in May.

Contact: Alabama Department of Economic and Community Affairs (ADECA), Jimmy Lester, ARC Program Manager (334) 353-4490, jimmy.lester@adeca.alabama.gov

Alabama Humanities Foundation Grants

Applicants are encouraged to develop projects for a wide variety of audiences including library and museum patrons, teachers and scholars, youth, senior citizens, nursing home residents, hospital patients, the economically disadvantaged, the incarcerated, and the hearing and sight-impaired.

Application submission deadlines:

- Major Grants (\$1,500 and up) – February 15, June 16, September 15
- Minor Grants (\$1,500 or less) – February 15, June 16, September 15

Bank of America Grant

The Bank of America (BoA) offers grants that support high-impact initiatives, organizations and the development of visionary leaders. Schools with farm-to-school type programs may be eligible under the funding areas:

- Developing Career Leadership and Skills: Opportunities that increase civic and community engagement, career exploration and youth employment, financial knowledge and life-skill and soft-skill development
- Assisting with Food Access: Food deserts, green/fresh food access, etc

BoA's Charitable Foundation provides philanthropic support to address needs vital to the health of communities through a focus on preserving neighborhoods, educating the workforce for 21st-century jobs and addressing critical needs, such as hunger. **Deadline:** Requests for proposals are issued three times per year.

Costco Wholesale Grants

Costco Wholesale grants support programs focusing on children, education and health and human services. They look to achieve the greatest impact where Costco's employees and members live and work. Only 501(c)(3) nonprofit organizations, which meet their giving guidelines and focus areas, are considered.

Deadline: Applications are accepted throughout the year on a rolling basis.

Walmart Foundation National Giving Program Grants

Through its National Giving Program, the Walmart Foundation awards grants of \$250,000 and above to non-profit organizations that operate on a national scope through chapters/affiliates in many states around the country or through programs that operate regionally/locally but seek funding to replicate program activities nationally.

Areas of focus for the Foundation include:

- Hunger Relief & Healthy Eating
- Sustainability
- Women's Economic Empowerment
- Career Opportunity

Deadline: OPEN

William G. McGowan Charitable Fund Issues Request for Proposals for Projects That Address Homelessness

The fund will award grants in support of initiatives that seek to correct circumstances contributing to homelessness, as well as initiatives designed to help eradicate the condition of homelessness in the long term.

Deadline: OPEN

Fellowship Search

National Endowment for the Humanities

Fellowships support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources in the humanities. Projects may be at any stage of development.

Section VI RESOURCES

[THE UPDATED GRANT AND LOAN GUIDE FOR LOCAL GOVERNMENTS IN WEST ALABAMA IS AVAILABLE ONLINE NOW!](#)

The guide is a quick reference to a variety of commonly used programs giving you the most important details you need to get started.

Find the Guide at <http://warc.info/planning-a-development/documents>~~http://warc.info/planning-a-development/documents~~. Scroll down to REGIONAL INFORMATION DOCUMENTS.

The guide is a free web-based resource designed to provide counties and municipalities in the West Alabama region with information about available grant and loan programs for community and economic development activities.

The guide provides program details on major Federal and State programs including agency contacts; award cycles; grant ceilings; matching requirements; and eligibility factors.

Alabama Additional Funding Sources **Community Foundations in Alabama**

There are 13 community foundations in Alabama, covering 78 percent of the counties in the state and holding assets that total more than \$190 million.

Daniel Foundation

The Daniel Foundation offers grants in four program areas: Civic and Community Improvement, Education, Health, and Arts and Culture. Applications are limited to 501 (c)(3) organizations that are located in Alabama.

Alabama Power Foundation

The Alabama Power Foundation allocates funding in four categories: Improving Education, Strengthening Communities, Promoting Arts and Culture, and Restoring and Enhancing the Environment.

Alabama Humanities Foundation

The AHF awards grants solely to support public humanities projects. Active public participation, the involvement of humanities scholars, and strong humanities content are the three essential components of AHF-funded projects.

Gwyn Turner Endowed Fund

The fund is administered by the National Trust for Historic Preservation, in partnership with Alabama Trust. Nonprofits and governmental agencies can obtain funding for preservation planning, heritage education, workshops, conferences, and special interventions. Grants range from \$1,000 to \$5,000 and require a 1:1 cash match.

Applicants are encouraged to discuss their project with the National Trust Southern Office before applying. Contact the Southern Office at 843.722.8552, or e-mail soro@nthp.org.

Sybil H. Smith Trust

Established in 1983, this trust funds organization in the First Congressional District only. Awards limited to arts, community development, education, and human services. No awards are given for individuals. For more information, call: 251.432.0208.

Alabama State Council on the Arts

Grants awarded to nonprofit organizations and local governments in the following categories: Presenting Grants, Project Assistance, Operating Support, Technical Assistance, Collaborative Ventures, and Program Development.

Historic Chattahoochee Commission

The Historic Chattahoochee Commission (HCC) promotes tourism and historic preservation in the Chattahoochee Trace, an 18-county region in Alabama and Georgia. The HCC supports preservation through two grant programs: Seed Grant and the Threatened Landmarks Program.

Veterans

FACT SHEET: Veterans Employment Center

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high-quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members, and spouses are connected to high-quality career choices by matching their identified skills with the available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

Veteran Applicant Resources:

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

Employer Resources:

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden’s Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans, and transitioning Service Members deserve a single, authoritative source for connecting. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at <https://www.ebenefits.va.gov/ebenefits/jobs%20%20>

For a tutorial video on how to use the Veterans Employment Center, please visit:
