## **HUD Launches Small Contractors Initiative Curriculum**

The Department of Housing and Urban Development's Office of the DAS for Economic Development in partnership with the Office of Fair Housing and Equal Opportunity, and Office of Field Policy and Management, along with BusinessUSA and the Small Business Administration announce the launch of a new curriculum. The [\*Small Contractors Initiative curriculum\*](#) focuses on materials that will assist small contractors achieve bondable status such that they can more readily pursue federal contracting opportunities as independent firms.

The goal is to provide the information in a pre-packaged format to small business development centers and any other organization that provides technical assistance and training to small businesses. It provides the opportunity to engage with a cohort of small contractors using both face-to-face instruction as well as distance learning. The consolidation of materials to teach these topics provides local small business development organizations the opportunity to tap into a wealth of information, while using their ever-shrinking resources for this type of training in a more targeted way. In other words, organizations can focus on providing one-on-one consultations with small businesses rather than spending the time to develop the materials for use in these types of trainings.

This [curriculum](#) gives small contractors the tools they need to get a bond and set them on a path to grow their businesses.

## **Congresswoman Terri Sewell joins Rural Hospital Administrators to Host a Tele-Town Hall on the Affordable Care Act**

**Selma, AL** – Today, Congresswoman Terri A. Sewell (D-AL) hosted a tele-town hall with rural hospital administrators to discuss the future of the Affordable Care Act, Medicare, and Medicaid. Hospital administrators from across the Black Belt counties were invited to participate and provide written feedback.

“In the coming weeks, Congress will be debating Republican proposals to repeal the Affordable Care Act (ACA), which include changes to Medicaid and Medicare. The feedback I received from our rural administrators on today’s call gave me valuable insight into what progress made under the ACA needs to be built upon and how we can improve access to care for rural Alabamians,” **said Rep. Sewell.** “The rural hospitals in Alabama care for older, sicker, and lower-income populations and therefore rely heavily on Medicare, Medicaid, and cost sharing subsidies under the ACA. I believe many of the proposals included in Republican plans will have a significant negative impact on rural providers and the communities they serve. As a member of the Health Subcommittee on the Committee on Ways and Means, I look forward to bringing the concerns I gathered today back to Washington as we debate these critical issues.”

The Tele-Town Hall marks Rep. Sewell’s third event in the 2017 “Protect Our Healthcare” Tour. In addition, she has launched an online [portal](#) for Alabamians to share their healthcare stories. “Whether you are insured through the Affordable Care Act, have private insurance, are covered under Medicaid or Medicare, or remain uninsured, I want to hear from you on what healthcare coverage means to you and what we in Washington can be doing to improve the quality of care and coverage for you and your family.”

## **Rep. Terri A. Sewell Leads Colleagues in a Letter to the President Calling for Investigation into Voter Suppression**

**Washington, D.C.** – Today, U.S. Representatives Terri A. Sewell (D-AL), Derek Kilmer (D-WA), and Elijah E. Cummings (D-MD) led the effort to send a letter to the President calling for an investigation into voter suppression and disenfranchisement, including the possible impact of new restrictive state voter ID laws, as part of any investigation he conducts on voting. The letter was joined by 76 Members of Congress.

"I will continue to stand with my colleagues at the forefront of the modern-day fight against voter suppression. Voting rights are as relevant today as it was 51 years ago as we witness challenges to state voter ID laws in cases in North Carolina, Wisconsin, and Texas, resulting in federal court decisions that such laws have specifically targeted certain minority groups to suppress their vote. It is critically important that we protect the integrity of our democracy and restore the full protections of the Voting Rights Act of 1965," **said Rep. Sewell.**

The full text of the letter reads as follows:

*Dear President Trump:*

*We write regarding your recent call for an investigation into alleged voter fraud in the 2016 Presidential election. As an initial matter, claims of widespread voter fraud in the 2016 Presidential election are largely unsubstantiated. Inquiries conducted thus far have not revealed any evidence of widespread voter fraud, nor is there is evidence substantiating your claim that "3 to 5 million illegal votes" were responsible for Hillary Clinton's popular vote win. Nevertheless, we are writing to demand that any investigation your Administration conducts into voter irregularities in the 2016 Presidential election include a thorough investigation and analysis of voter suppression and disenfranchisement.*

*Our nation's history on voting rights is checkered, and the systemic disenfranchisement of low-income and minority voters is longstanding and well documented. In fact, it was not until 600 people marched through Selma, Alabama in 1965 that Congress passed the Voting Rights Act. It is now 52 years later and the battle is far from over.*

*In 2013, the Supreme Court effectively dismantled the Voting Rights Act when it struck down a section of the law that required jurisdictions with histories of voter discrimination to receive "preclearance" before changing their voting laws. The result is 14 new state laws implementing voting restrictions that went into effect for the first time in 2016. These new laws include roadblocks such as*

*strict photo ID requirements, early voting cutbacks, and registration restrictions. Three states with new voter restrictions—Florida, North Carolina, and Alabama—have demonstrated histories of voter disenfranchisement and were monitored by the Department of Justice for illegal electioneering. The breadth of the disenfranchisement caused by statewide voting restrictions is personified in Wisconsin, North Carolina, and Florida.*

- Wisconsin’s strict voter ID law has been the subject of extensive litigation. Although a federal court held that the law unconstitutionally burdened low-income individuals and minorities, the Supreme Court allowed it to go into effect for the 2016 election. According to Wisconsin’s records, as many as 300,000 people lacked the proper ID and may have been prevented from voting. Statewide, turnout for the 2016 Presidential election was the lowest in two decades.*
- North Carolina’s law included strict voter ID requirements, eliminated same-day voter registration, cut a full week of early voting, and barred voters from casting a ballot outside their home precincts. A federal court struck most of the law after finding it suppressed African-American voters “with almost surgical precision.” Despite this ruling, early voting hours and locations were curtailed during the 2016 Presidential election. African-American turnout for the early vote dropped nearly nine percent.*
- Florida law bars anyone with a felony conviction from voting unless they travel to the state capital and request clemency—a burdensome requirement for those that cannot afford to travel to the state capital. Approximately 1.5 million Florida residents are unable to vote because of the law, and approximately 25 percent of Florida’s African-American residents could not cast a ballot in the 2016 Presidential election.*

*In addition to passing harsh laws, states like Alabama are closing driver’s license offices in rural areas with large African-American populations, while states like Georgia, North Carolina, and Florida are moving polling places out of largely minority districts. Incidents of voter intimidation have also occurred, like the one in Sparta, Georgia, when more than 180 African-American citizens were confronted by law enforcement officers that were dispatched by the local election board. These citizens, all American voters, were told they had to appear in person in order to prove they were a resident and could vote in upcoming elections.*

*This is unacceptable. Every American deserves a voice in our elections and the freedom to cast their vote without interference. These restrictive laws and intimidation tactics make clear that it is time to put teeth back into the Voting Rights Act and counter voter disenfranchisement. We hope to work together with you to remedy widespread voter disenfranchisement across our country.*

*Sincerely,*

*###*

## **Congresswoman Sewell Re-introduces Legislation to Create Small Business Start-Up Savings Account**

**Washington, D.C.** - Today, Rep. Terri A. Sewell (D-AL) re-introduced ***The Small Business Start-Up Savings Account Act*** – **H.R. 929**. Just as previous versions, the current bill would allow entrepreneurs to contribute up to \$10,000 per year into a tax free account, which could be used to purchase equipment or facilities, marketing, training, and accounting. Contributions to the account could accumulate up to \$150,000 and be taken out tax-free.

“Since coming to Congress, I have sought meaningful ways to help small businesses grow and thrive. Small businesses are the strongest economic engine in this country and the backbone of our economy. It is critically important that as our economy continues to recover, we encourage and promote entrepreneurship and the creation of jobs for millions of Americans. Unfortunately, starting a small business is often met with challenges that may seem insurmountable, especially when accessing the necessary capital to begin,” **said Rep. Sewell**.

“The legislation I re-introduced today expands much needed lending to millions of small businesses and offers tax incentives to help small businesses grow, hire, and fuel our economy. Once an individual decides to open a small business, funds in the account can be used for qualified expenses such as equipment, facilities, marketing, legal fees, and other capital and operating expenses.

“These are the kinds of common sense, bi-partisan solutions that are needed to get our economy working again for families across our state and country.”

## **National Science Foundation**

**Program:** **Cybermanufacturing Systems**

**Description:** There is an opportunity for researchers to pursue research and educational efforts to accelerate the creation of an interoperating, cross-process manufacturing service layer that enables the rapid, bottom-up transformation of access to manufacturing services. Such a service layer can allow creative entrepreneurs and companies to both furnish and access manufacturing apps that span the full spectrum from ideation to physical realization, giving rise to an era of cybermanufacturing. The cybermanufacturing service layer differs from existing Internet services in that it needs an architecture that can incrementally incorporate and organize the rich and deep semantic elements of manufacturing knowledge, requiring an almost unlimited capacity to expand the range and depth of content contributed in the form of partitioned, but interoperating, manufacturing applications. Deadline is **OPEN**.

**Program:** [Good Sports Accepting Applications for Sports Equipment Grant](#)

**Description:** Good Sports helps lay the foundation for healthy, active lifestyles by providing athletic equipment, footwear, and apparel to disadvantaged young people nationwide. By working closely with teams, coaches, and community leaders across the United States, the organization is able to focus on the respective needs of each individual program and help offset the main factors causing the greatest challenges.

Good Sports is accepting applications from organizations and schools for equipment, apparel, and footwear for a wide range of sports. Organizations that are approved will have access to equipment, apparel, and footwear inventory for a two-year period. During that time, organizations can make up to six separate donation requests — as long as need is well documented, donations will be granted. There is no need to resubmit a full application again during the two-year period.

To be eligible, applicants must directly serve youth between the ages of 3 and 18; serve youth in an economically disadvantaged area; be located in North America (the U.S. and Canada); and operate an organized sport, recreational activity, or fitness program that offers consistent and structured opportunity for play to large groups of children. Schools must apply as a whole; applications for individual programs within a school will not be considered. Donation requests for short-term events such as sports camps and tournaments or to individual athletes will not be considered.

While the equipment, apparel, and footwear received through the program are free, recipients are expected to pay shipping and handling costs, which amount to roughly 10 percent of the donation value, with a maximum fee of \$1,500.

Applications are reviewed on a rolling basis. It is recommended, however, that organizations apply at least eight weeks prior to the start of their particular season or program to ensure the desired equipment can be accessed and shipped on time.

**Program:** [Karma for Cara Foundation Invites Applications for Youth Microgrants](#)

**Description:** The [Karma for Cara Foundation](#) is a nonprofit founded by 21-year-old Cara Becker and her family while she was undergoing treatment for leukemia at the [Johns Hopkins Kimmel Cancer Center](#). Cara and her two brothers began volunteering at a young age as part of their family's commitment to community service. She and her family saw a tremendous need to help support other patients and their families who were also challenged by cancer. Tragically, Cara passed four months after her diagnosis, yet her wish to help others through K4C lives on with the support of an ever-growing circle of family and friends.

As part of an effort to promote and support youth voluntarism, k4C started a microgrant program in fall 2014 to encourage kids 18 and under to apply for a grant of between \$250 and \$1,000 to complete service projects in their communities. Examples of fundable projects include but are not limited to turning a vacant lot into a community garden, rebuilding a school playground, and helping senior citizens get their homes ready for winter. Grants will be distributed as gift cards to home goods stores, office supply stores, grocery food chains, and toy stores. Deadline is **OPEN**.

**Program:** **Caplan Foundation for Early Childhood Invites Letters of Intent**

**Description:** The Caplan Foundation for Early Childhood supports innovative, creative projects, and programs designed to significantly enhance the development, health, safety, education, and/or quality of life of children from infancy through five years of age.

The foundation provides funding in the areas of early childhood welfare, early childhood education and play, and parenting education.

1) Early Childhood Welfare: Children can only reach their full potential when all aspects of their development, intellectual, emotional and physical are optimally supported. Providing a safe and nurturing environment for infants and preschoolers is essential, as is imparting to them the skills of social living in a culturally diverse world. To that end, the foundation supports programs that research best child rearing practices and identify models that can provide creative, caring environments to ensure all children thrive.

2) Early Childhood Education and Play: Research shows that children need to be stimulated as well as nurtured, early in life, if they are to succeed in school, work, and life. That preparation relates to every aspect of a child's development, from birth to age 5, and everywhere a child learns -- at home, in childcare settings, and in preschool. The foundation seeks to improve the quality of both early childhood teaching and learning through the development of innovative curricula and research-based pedagogical

standards, as well as the design of imaginative play materials and learning environments.

3) Parenting Education: To help parents create nurturing environments for their children, the foundation supports programs that teach parents about developmental psychology, cultural child-rearing differences, pedagogy, issues of health, prenatal care and diet, as well programs that provide both cognitive and emotional support to parents.

Letters of Intent are accepted on a rolling basis. Upon review, selected applicants will be invited to submit full applications. The next deadline for submitting a LOI is **January 31, 2017**.

**Program:** **Public Welfare Foundation Funds Three Program Areas: Criminal Justice, Juvenile Justice and Workers' Rights.**

**Description:** The Public Welfare Foundation supports efforts to advance justice and opportunity for people in need. The Foundation looks for strategic points where its funds can make a significant difference and improve lives through policy and system reform that results in transformative change.

### *Criminal Justice*

#### Guidelines

The Foundation's Criminal Justice Program supports groups that are working to end the overincarceration of adults in the United States while also aiming to reduce racial disparities. In particular, the Program makes grants primarily to state-based groups that are working to:

- Reduce state incarceration levels and racial disparities through reforms in sentencing, charging, and supervision policies and procedures.
- Advance the redirection and prioritization of state and local resources toward targeted investments that support system-involved individuals in their communities, through research and strategic thought leadership.

### *Juvenile Justice*

#### Guidelines

The Foundation's Juvenile Justice Program supports groups working to end the criminalization and reliance on incarceration of youth in the United States. In particular, the Program makes grants to groups that are working to:

- Advance state policies that dramatically restrict juvenile justice systems' use of incarceration and out-of-home placements and prioritize the use of community-based programs for youth;
- End the practice of trying, sentencing, and incarcerating youth in the adult criminal justice system; and
- Promote the fair and equitable treatment of youth of color who come into contact with the juvenile justice system.

## *Workers' Rights*

### **Guidelines**

The Foundation's Workers' Rights Program supports policy and system reforms to improve the lives of low-wage working people in the United States, with a focus on securing their basic legal rights to safe, healthy, and fair conditions at work. Specifically, the Program makes grants to groups working to:

- Advance reforms to hold employers accountable for wage theft;
- Advance reforms to prevent severe illness, injury, and death on the job; and
- Advance workers' rights in complex, fissured employment arrangements through research and strategic thought leadership.

### ATTENTION VETERANS:

#### **FACT SHEET: Veterans Employment Center**

The online Veterans Employment Center is the single federal source for Veterans looking for new career opportunities in the private and public sectors, as well as Service Members transitioning to the civilian workforce, military and Veteran spouses and dependents looking for employment opportunities, GI Bill beneficiaries transitioning from training to the job market and employers looking to connect with high quality applicants. It is the first interagency tool that brings together public and private job opportunities with resume building and other career tools currently offered on a variety of websites together in one place.

Through the online Veterans Employment Center, Veterans, transitioning Service Members and spouses are connected to high quality career choices by matching their identified skills with available public and private job opportunities. The site is built using an open application programming interface (API) to attract private sector innovation.

#### **Veteran Applicant Resources:**

- Quick public resume posting with an instant connection to thousands of public and private employers
- Target job search based on specific, high-demand career paths
- Single search for both public and private sector positions
- Military skills translator and resume generator
- Social media integration with popular bookmarking sites for saving job postings

**Employer Resources:**

- Access targeted feed of qualified resumes from Veteran applicants
- View reverse skills translation (military to civilian skills) for applicants
- Set Veterans hiring goals and track progress
- Connect to resources designed to help recruit and retain talented, Veteran employees

In connection with the First Lady and Dr. Biden’s Joining Forces initiative, the Department of Veterans Affairs worked with the Departments of Defense, Labor, and Education, and the Office of Personnel Management to design and develop the site and incorporate features of existing online employment tools at each agency. The result is an upgrade to the existing Veterans Job Bank and an integrated solution connecting Veterans, transitioning Service Members and employers.

Employers, Veterans and transitioning Service Members deserve a single, authoritative source for connecting to each other. Now that the core tools and an integrated search function exist in one single location, each agency is engaged in minimizing duplication and redundancy of current sites and services.

The Veterans Employment Center can be found at: <https://www.ebenefits.va.gov/ebenefits/jobs>
